Stowage and marking of; vessels contracted for prior to November 19, 1952, proposed rule making — 1057
Operations; patrolmen, supervised patrol, proposed rule making — 1058
Procedures for purchasing. *See* Procurement.

COAST GUARD—Continued — Page

Procurement regulations:
Bonds and guaranties — 618
Bonds, performance and payment — 618
Guaranties, bid — 618
Contracts — 607, 1000
Administrative instructions — 614
Claims, procedures for handling assignments of — 617
Contractor's statement of contingent or other fees — 616
Copeland ("Kickback") Act, affidavits required by — 616
Renegotiation Act of 1951; administration — 614
Contract clauses — 611
Forms, preparation and distribution — 607
General provisions — 607, 1003
Procedures for purchasing — 580, 1000
Advertising, procurement by; bids, awards, forms, etc — 592
General provisions — 581, 1000
Authority — 581, 1000, 1001
Distressed employment areas, contract placement in — 586
Exchange of materials — 587
Foreign and domestic materials and products, procurement of — 584
Methods of procurement — 583
Reports on procurement — 587
Small business concerns, policy toward and assistance to — 585
Sources of supply — 583, 1001
Special procurement instruction for designated items (electric equipment, paint, gas and oil, rope, etc.) — 591, 1002
Specifications — 588, 1001, 1002
Taxes and tax exemption certificates — 587
Negotiation, procurement by; forms, small purchases, etc — 599, 1003
Real property, acquisition of; leasing, etc — 604
Retirement, optional, of members of uniformed services. *See main heading* Defense Department.
Security and protection of vessels, harbors, and waterfront facilities; merchant marine personnel, security check and clearance of, Chairman of the Board, duties and responsibilities, in appeal and review procedures for persons denied security clearance — 674
Specifications:
Lifesaving equipment:
Line-throwing appliances, impulse-projected rocket type; replacement rockets for, proposed rule making — 1059
Signals, distress, for merchant vessels; proposed rule making:
Flare, red:
Hand — 1059
Hand-held rocket-propelled parachute — 1059
Pistol projected parachute — 1059
Smoke, orange:
Floating — 1059
Hand — 1059
Signals, distress, for merchant vesels. *See* Lifesaving equipment.

COMMERCE DEPARTMENT:

DEFENSE DEPARTMENT:
See Air Force Department.
Army Department.
Navy Department.
Active duty, authority to Secretaries of Air Force and Navy to order certain members of Reserve components to — 886
Authority, delegations of, by Secretary:
To Secretary of Air Force; to order certain members of Reserve components to active duty — 886
To Secretary of Navy; to order certain members of Reserve components to active duty — 886
Joint regulations of armed forces; armed services procurement regulations:
Advertising, formal, procurement by:
Opening of bids and award of contract:
Award to responsible bidder, "construction contractor" added — 686
Equal low bids, award to firm who will perform contract in labor surplus area — 687
Statement and certificate of award; labor surplus areas — 687
Solicitation of bids:
Bidders' mailing lists, excessively long lists — 687
Methods of soliciting bids; "construction contractors" added to mailing lists — 686
"Set-asides" for firms in labor surplus areas — 687
Contract clauses and forms:
Fixed-price supply contracts, clauses for:
Clauses to be used when applicable:
Domestic food, clothing, cotton or wool — 688
Military security requirements, omission of "restricted" classification — 688
Vinson-Trammell Act — 688
Required clauses, "disputes" clause; inclusion in construction contracts, instruction respecting — 688
Personal services, required clauses for; patents — 688
Copyrights. *See* Patents and copyrights.
Forms:
Compliance with labor clauses, construction contracts and supply contracts — 691
Cost-reimbursement supply contracts, general provisions for (DD Form 748) — 690
Order and voucher for purchase of supplies or services (DD Form 738) — 690

DEFENSE DEPARTMENT—Continued — Page

Joint regulations of armed forces; armed services procurement regulations—Continued
Forms—Continued
Request for proposals, proposal, and acceptance, forms for (DD Forms 746, 746–1, 746–2) — 691
Forms superseded — 692
Request for quotation (DD Form 747) — 691
Forms superseded — 691
General provisions:
Basic policies:
Scope, elimination of "ineligible contractors and disqualified bidders" — 685
Sources of supplies:
Firms performing contracts in labor surplus areas — 685
Foreign purchases, renumbered — 685
Debarred, ineligible and suspended bidders:
Procurement outside United States, guide for use by oversea commanders — 686
Suspension of bidders, causes and conditions under which departments may suspend contractors — 686
Definitions of terms:
Procuring activity, and head of; elimination of Armed Services Textile and Apparel Procurement Agency — 685
Source of supplies, inclusion of construction contractors — 685
Inspection and acceptance; Appendix D, rules for notice and hearing under gratuities clause in fixed-price supply contracts — 690
Labor:
Labor standards in construction contracts; administration and enforcement — 689
Walsh-Healey Public Contracts Act; responsibilities of contracting officers — 690
Negotiation, procurement by:
Circumstances permitting negotiation; negotiation of "set-asides" for labor surplus areas — 687
Use of negotiation; aids to labor surplus areas in negotiated procurements — 687
Patents and copyrights:
Copyrights, contracts for personal services — 689
Patents:
Adjustment of royalties — 688
Patent rights under contracts for personal services — 689
Patents and copyrights, procurement regulations respecting. *See* Joint regulations of armed forces.
Retirement, optional, of members of uniformed services, pursuant to Uniformed Services Contingency Option Act of 1953 — 1082
Annuity — 1084
Designation of dependents — 1084
General; definitions, purpose — 1082
Options, election of — 1082
Report, annual, information required for; Appendix II — 1085
Retired pay, reduction of — 1084
Security requirements, procurement regulations respecting; fixed-price supply contracts, omission of "restricted" classification — 688
Uniformed Services Contingency Option Act of 1953, optional retirement of members of uniformed services pursuant to. *See* Retirement, optional.
Vinson-Trammell Act, procurement regulations respecting — 688
Walsh-Healey Public Contracts Act, procurement regulations respecting — 690

DEFENSE MOBILIZATION, OFFICE OF:
Amortization of emergency facilities; issuance of certificates of necessity under section 124A of Internal Revenue Code in connection with (Reg. 1) — 747
Listed areas of production, accelerated tax amortization certificates for. *See* Expansion goals for listed areas of production.
Censorship during wartime, functions of Assistant Director for Non-Military Defense respecting — 740
Certificates of necessity under section 124A of Internal Revenue Code, issuance of, in connection with amortization of emergency facilities (Reg. 1) — 747

DEFENSE MOBILIZATION, OFFICE OF—Continued Page

Certificates of necessity under section 124A of Internal Revenue Code, issuance of, in connection with amortization of emergency facilities (Reg. 1)—Continued
- Listed areas of production, accelerated tax amortization certificates for. *See* Expansion goals for listed areas of production.

Committee, Titanium Advisory; establishment 975
Coordination of policies and programs for current defense activities and for future mobilization; responsibilities of various agencies respecting:
- Agriculture Department; responsibilities respecting food, farm equipment and commercial fertilizer 1118
- Commerce Department; responsibilities respecting certain industries 875

Expansion goals for listed areas of production; issuance of accelerated tax amortization certificates under section 124A of Internal Revenue Code:
- List I; closed areas for which no certificates will be issued 856
- List II; suspended areas [illegible]
- List III; open areas for which certificates will be issued 856

Organization and functions; Assistant Director for Non-Military Defense, functions respecting wartime censorship 740
Titanium expansion program; establishment of Titanium Advisory Committee in connection with 975
Voluntary plans, agreements, programs, and participating companies:
- Army Ordnance Integration Committee on Conventional Artillery and Mortar Shell 962
- Defense Warehousemen's Association of Chicago 1024

DEFENSE TRANSPORT ADMINISTRATION:
Authority, delegation of, by Administrator, to Secretary of Interior; facilities for bulk storage of petroleum and gas 1071

E

ENGINEERS, CORPS OF, DEPARTMENT OF THE ARMY:
Anchorage regulations:
- Anchorage grounds, New York, port of and vicinity; Newark Bay, anchorage No. 34, note 790
- Special anchorage areas, New York, port of, and vicinity; Newark Bay:
  - Southeast area 789
  - Southwest area 790

Bridge regulations:
- Florida, Lake Worth (Intracoastal Waterway); Flagler Memorial and Royal Park bridges, Palm Beach 751
- Gulf of Mexico, waterways discharging into. *See* Louisiana, Bayou Lacassine.
- Louisiana, Bayou Lacassine, discharging into Gulf of Mexico; Texas and New Orleans Railroad Company bridge near Hayes 619
- Massachusetts, Boston Harbor and adjacent waters; Fort Point Channel, bridges upstream from Summer Street Bridge [illegible]

Danger zone regulations:
- Atlantic Ocean off Delaware coast; antiaircraft artillery firing areas, Second Army 733
- Delaware. *See* Atlantic Ocean off Delaware coast.
- Florida, Choctawhatchee Bay. *See* Gulf of Mexico.
- Gulf of Mexico from St. Andrew Bay to Choctawhatchee Bay; aerial gunnery range along north shore of Choctawhatchee Bay, Florida 752

Fees for licensing and related activities; dumping of materials 734
Flood control regulations; Hoover Dam and Reservoir, Colorado River, Nevada-Arizona 937
Navigation regulations:
- California, Long Beach Harbor:
  - Naval restricted area, Terminal Island [illegible]
  - Seaplane restricted area, San Pedro Bay 891
- Florida, St. Johns River; naval restricted area, Green Cove Springs 976

F

FARM CREDIT ADMINISTRATION: Page
Production credit associations, rules and regulations for; eligibility of directors, officers, employees, and agents of Farm Credit Administration, the corporation and the association, for loans 875
FARMER COOPERATIVE SERVICE. *See* Agriculture Department.

FARMERS HOME ADMINISTRATION:
Authority, delegation of, from Administrator to Assistant Administrator for Loan Operations; authorities, powers, functions and duties relating to loan operations 715
Functions, respecting water conservation and utilization projects 914
Production and subsistence loans; approval authority:
- Authority of State Directors; clarification of period of borrower indebtedness on operating loans and eligibility with respect to production and subsistence loans 991
- Authorization to redelegate loan approval authority; County Supervisors, $1,000 limitation on authority to approve annual loans, revocation 993

FEDERAL COMMUNICATIONS COMMISSION:
Alaska:
- Modification of licenses of fixed and coast stations in Alaska, operating on frequency 2986 kc; order respecting 1068
- Radio stations in, (other than amateur and broadcast):
  - Fixed public service; frequencies for short-distance communication from non-Government to Government stations, use of frequency 2118 kc in lieu of 2986 kc, proposed 1061
  - Modification of licenses with respect to use of, notice 1068
  - Public coast stations; frequencies for short distance communication from non-Government to Government stations and secondarily with ships in Alaska waters, use of frequency 2118 kc in lieu of 2986 kc, proposed 1061
  - Modification of licenses with respect to use of, notice 1068
  - Shipboard stations in maritime services; frequencies for communication from non-Government to Government stations and secondarily with coast stations employing primarily telephony, use of 2118 kc in lieu of 2986 kc, proposed 1061
  - Modification of licenses with respect to use of, notice 1068

Amateur radio service:
- Amateur stations:
  - Equipment and operation; modulation of carrier wave 1122
  - Frequencies and types of emission for use of amateur stations; use of listed bands:
    - 14,000–14,350 kc 1122
    - 28.0–29.7 mc 1122
    - 50.0–54.0 mc 1122
  - Fees for license applications, etc., proposed 623

Antenna structures, construction, marking and lighting of; specifications for obstruction marking and lighting, particular specifications to be used, individual situations 620
Applications, filing of, forms, etc. *See* Practice and procedure.
Authority, delegations of. *See* Organization.
Aviation services:
- Aeronautical, aeronautical fixed, and aeronautical en route radio stations serving lighter-than-air craft stations, modification of licenses of, with respect to deletion of 11,910 kc and 6615 kc frequencies 627
- Limited use of 6615 kc by certain aeronautical en route stations 627
- Aircraft radio stations, lighter-than-air craft stations; deletion of frequencies 6615 and 11,910 kc 620
- Limited use of 6615 kc 627

FEDERAL COMMUNICATIONS COMMISSION—Con. Page
Canada, assignment of frequencies to broadcast stations in; changes in list modifying appendix to North American Regional Broadcasting Agreement 720
Construction, marking and lighting of antenna structures. *See* Antenna structures.
Disaster communications service; fees for license applications, etc., proposed 623
Equipment, type acceptance and approval; proposed fees 623
Experimental radio services; fees for license applications, etc., proposed 623
FM broadcast stations. *See* Radio broadcast services.
Fees for licenses, etc. *See* Practice and procedure.
Frequencies and channels, allocation and use of; *See also* Frequency allocations and radio treaty matters.
- Frequency bands:
  - 2000–2850 kc 1032
  - 2000–3500 kc 1061
  - 2118 kc 1061, 1068
  - 2182 kc 1032
  - 2206 kc 1037
  - 2986 kc 1061, 1068
  - 6615 kc 620, 627
  - 11,910 kc 620, 627
  - 14,000–14,350 kc 1122
  - 2 mc 1032
  - 28.0–29.7 mc 1122
  - 50.0–54 mc 1122
  - 152–162 mc 913
  - 156.8 mc 1035, 1037
  - 891 mc and above 840
- Services and stations:
  - Alaska, broadcast stations in 1061, 1068
  - Amateur radio services 1122
  - Aviation services 620, 627
  - Canada; broadcast stations 720
  - FM broadcast stations, Class B; revised tentative allocations plan, amendments, proposed 840
  - Maritime radio services 913, 1032
  - Mexico; broadcast stations in 845
  - Public radiocommunication services (other than maritime mobile) 630, 842
  - Television broadcast stations 619, 624, 652, 654, 821, 912, 915, 941

Frequency allocations and radio treaty matters:
- Allocation assignment and use of radio frequencies, table of frequency allocations; reallocation of frequencies above 890 mc to non-Government fixed and mobile services, extension of time to file comments in proposed rule making [illegible]
- Equipment, type acceptance and approval; proposed fees 623
- International treaties, agreements, and Federal laws, etc., relating to radio in which United States participates, list of; amendments, effective date 857

Hearings, orders, etc.; list of names of companies and stations, *see list at end of this agency.*
Heating equipment. *See* Industrial, scientific, and medical service.
Industrial radio services:
See also Industrial, scientific, and medical service.
- Applications, etc.; standard forms to be used, reassignment of station authorization, and use of Form 400 [illegible]

Industrial, scientific and medical service:
- Hearing respecting unauthorized operation of heating equipment 845
- Medical diathermy equipment; enforcement of regulations respecting use of approved equipment only, notice 1069
- Statement of basis and purpose; suspension of effective date of regulations with respect to use of electric arc welding devices, under certain conditions, temporary extension of 822

International agreements relating to radio in which United States participates:
- Assignment of frequencies to broadcasting stations in North America. *See* North American Regional Broadcasting Agreement.

FEDERAL COMMUNICATIONS COMMISSION—Con. Page
International agreements relating to radio in which United States participates—Continued
- List of international agreements, etc., relating to frequency allocations and radio treaty matters; amendments, effective date 857

Land transportation radio services, applications, authorizations, etc.; standard forms to be used, reassignment of station authorization, and use of Form 400 652
Maritime radio services:
- International distress and general calling frequencies, use of 1032
- Land stations, coastal:
  - Coast stations operating on frequencies not open to public correspondence, eligibility for licenses; clarification of provisions respecting, proposed rule making 913
  - Definition of terms:
    - Operational; international radiotelegraph or radiotelephone distress, urgency, and safety signals 1034
    - Technical terms; spurious emission, proposed 625
  - Fixed marine stations associated with maritime mobile service; frequencies assignable within band 2000–2450 kc 1037
  - International radiotelephone frequencies for calling, safety, etc., use of 1032
  - Technical requirements, standard:
    - Emission, authorized classes of, and frequency band; marine fixed and receiver-test stations, use of frequencies 2000–2450 kc 1034
    - Frequency tolerances, authorized, for fixed stations; frequency range, 2000–2450 kc 1034
    - Transmitter-power, authorized; fixed services, stations in, frequency band in which operation occurs, use of frequencies 2000–2450 kc 1034
  - Telephony, use of:
    - By limited coast stations and marine-utility stations:
      - Availability of 2182 kc for limited coast stations 1036
      - Frequencies below 3000 kc for business, operational, and safety purposes 1036
      - Supplemental eligibility requirements, maritime mobile service not open to public correspondence, clarification of provisions respecting, proposed 913
    - By public coast stations:
      - Frequencies assignable:
        - Assignment and use of specific carrier frequencies; limitations, addition and deletion of certain frequencies, conditions of use 1034
        - Test transmission 1034
        - Licensing of stations for use of telephony on radio-channel of 2738 kc authorized frequency, deletion 1034
        - List of specific authorized carrier frequencies; addition of certain frequencies between 2450 and 2830 kc 1034
      - Frequencies below 30 mc, availability of:
        - Carrier frequencies assignable for working purposes to Class II stations, subject to specific limitations; tables 1035, 1036
        - Carrier frequencies assignable to Class I stations; working frequencies below 5000 kc; use of 2506 kc frequency 1035
      - Frequencies for calling and distress:
        - International radiotelephone frequency for calling, safety, intership and harbor control purposes, 156.8 mc, use of 1035
        - Use of international frequency 2182 kc; conditions and limitations respecting 1034

Shipboard stations:
Alaska; ship service. *See* Alaska, *above.*
- Definition of terms:
  - Operational; distress, urgency, and safety international radiotelegraph and radiotelephone signals 1037
  - Technical; spurious emission, proposed 625
- Fees for applications for ship inspections; proposed 623
- International radiotelephone frequencies for calling, safety, etc., use of 1032

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Shipboard stations—Continued
Intership radiotelephone communication in 2 mc band 1032
Radiotelephony, use of:
Frequencies assignable:
Assignment and use of specific authorized carrier frequencies, subject to express limitations:
Deletion of certain authorized frequencies 1037
Frequencies 2206 and 2182 kc for distress or safety use only 1037
Test transmission, use of frequencies for 1037
List of frequencies, addition of certain frequencies between 2009 and 2830 kc 1037
Frequencies below 3000 kc for business, operational and safety purposes 1039
Frequencies below 3000 kc for safety purposes 1039
Frequencies below 5000 kc for public correspondence:
Frequencies available to mobile and coast stations transmitting alternately; tables:
On different channels 1037
On same channels 1039
Licensing of ship stations for use of radiochannel of 2738 kc authorized frequency, deletion 1039
Frequencies for calling:
Frequency 156.8 mc, international radiotelephone frequency for calling, safety, intership, and harbor control purposes, use of 1037
Frequency 2182 kc, international general radiotelephone calling frequency, use of 1037
Time limitations 1040
Frequencies for use in distress; international radiotelephone distress frequency 2182 kc 1037
Radiotelephone operating procedure, general:
Authorized or shared use of 2003, 2638, 2738, and 2830 kc frequencies 1040
Calling frequency, required use of; transmission on intership radio channel 1039
Time limitations on calling frequencies and adjacent working frequencies 1040
Ship stations operating on frequencies not open to public correspondence, eligibility for licenses; use of assigned frequencies for operational purposes only, proposed rule making 913
Ship-shore radio telephone communication in 2 mc band 1032
Station requirements, general:
Adjustment of equipment, spurious emissions, proposed 625
Required radio-channels for telephony; transmission on 2182 kc frequency, effective date of requirement respecting, with regard to certain ship stations 1037
Technical requirements, standard; transmitter, proposed rule making:
Acceptance of transmitters for licensing; redesignation 625
Radiotelephone transmitters:
Acceptability of, for licensing 625
Special requirements for radiotelephone transmitters:
Transmitters authorized in ship or marine utility station license 625
Type acceptance requirements 625
Ship-radar transmitters, special requirements for; change in references 625
Spurious radiation limitations 625
Watch on 2182 kc; effective date of requirement respecting watch for reception of A3 emission, with regard to certain ship stations 1037
Medical diathermy equipment. *See* Industrial, scientific, and medical service.
Mexico, assignment of frequencies or channels to broadcast stations in; changes in list modifying appendix to North American Regional Broadcasting Agreement [illegible]

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

North American Regional Broadcasting Agreement; lists of changes in assignments for stations in various countries:
Canada 720
Mexico 845
Operator licenses, proposed fees for 623
Organization; delegation of authority:
Motions Commissioner; authority to act upon requests for filing of additional pleadings in opposition to petitions 915
Safety and Special Radio Services Bureau, Chief; delegation of authority to:
Act on applications for exemption of ships under certain radio regulations 626
Act on petitions or requests for waiver or exception to regulations relating to services under his jurisdiction and to act upon requests for assignment of frequencies, under certain specific conditions and rescission of prior authority respecting 626
Practice and procedure:
Common carriers; tariffs, reports, and other material required to be submitted by, annual financial reports:
Circular No. 2 (miscellaneous classes of small communication carriers); rescission 1056
Circular No. 3 (Class C telephone carriers); rescission 1056
Redesignation 1056

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 17]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

OXYGEN

This supplement establishes CAA interpretations and policies on providing oxygen for, and administering oxygen to, crew members and passengers in pressurized and nonpressurized cabin aircraft at various operating altitudes.

The following policies and interpretations are hereby adopted:

§ 41.24–1 *Supplemental oxygen for crew members (CAA interpretations which apply to § 41.24 (a) (1).* The phrase, "during the portion of flight in excess of 30 minutes within this range of altitudes" applies to all crew members including the flight crew members on flight deck duty. Thus, oxygen is required to be provided for, and used by, each member of the flight crew on flight deck duty only during the portion of the flight in excess of 30 minutes within this range of altitudes.

§ 41.24–2 *Oxygen requirements for stand-by crew members (CAA interpretations which apply to § 41.24 (a)).* Stand-by crew members who are on call or are definitely going to have flight deck duty prior to the completion of a flight must be provided with the same amount of supplemental oxygen as that provided for crew members on duty other than on flight deck duty. However, if the stand-by crew members are not on call and will not be on flight deck duty during the remainder of the flight, they must be considered as passengers with regard to supplemental oxygen.

§ 41.24–3 *Operating instructions (CAA policies which apply to § 41.24).* Operating instructions appropriate to the type of system and masks installed should be provided for the flight crew in the appropriate air carrier manual. These operating instructions should contain a graph or a table which will show the duration of the oxygen supply for the various bottle pressures and pressure altitudes.

§ 41.24–4 *Oxygen requirements for jump seat occupant (CAA policies which apply to § 41.24).* When the jump seat is occupied by a check pilot, a crew member, or a flight crew member, as defined by § 41.137 (h), (j) and (i) respectively, oxygen should be provided in accordance with the requirements of § 41.24. The provision of oxygen at the jump seat location may be accomplished either by a portable oxygen unit or an outlet in a fixed system.

§ 41.24–5 *Oxygen requirements for infants-in-arms (CAA policies which apply to § 41.24 (b)).* Provisions should be made for administering oxygen to infants-in-arms and additional oxygen should be carried whenever an unusually large number of infants is carried. This additional oxygen is needed only when there is a passenger or infant for each seat position and the number of infants not provided for exceeds 50 percent of the seat positions. Acceptable methods of administering the oxygen to infants and now used by many operators are: (a) A disposable plastic mask which can be fitted to the face; (b) an infant size BLB oronasal mask and (c) semi-rigid paper cups, specifically reserved for the purpose, which can be fitted over the infant's nose and mouth, with a hole punched through the bottom through which an oxygen tube or a Y-connector can be inserted. Any other acceptable method may also be used.

§ 41.24–6 *Oxygen requirements for clinical purposes (CAA policies which apply to § 41.24 (b)).* The regulations do not require that oxygen be provided for clinical purposes; hence, if the air carrier believes that such oxygen is to be desired, he should provide oxygen for this purpose. It is suggested that portable units of any size the air carrier desires be used for this purpose in order that the minimum supply required for supplementary breathing purposes will be preserved. If, however, the operator wishes to use a common source of supply for the oxygen required by the regulations and for clinical purposes, he may

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

do so if he provides an amount of oxygen sufficiently greater than that required by the regulations. A quantity of 300 liters STPD would probably be considered as satisfying reasonable needs.

§ 41.24a–1 *Computation of supply for crew members in pressurized cabin aircraft (CAA policies which apply to § 41.24a (a))*—(a) *Cabin altitudes less than 10,000 feet.* When a pressurized cabin aircraft is certificated to fly with a cabin pressure altitude no greater than 10,000 feet, only the supply of oxygen stipulated by § 41.24a (a) need be provided for crew members. In determining this supply the following policies should be considered:

(1) The supply of oxygen which should be provided for all crew members for the duration of the flight should be computed on the basis of the cabin pressure altitude which would exist after cabin depressurization has occurred and the aircraft has descended to the altitude which would permit safe flight with respect to terrain clearance. (See § 41.24a (c).)

(2) The operator may use the supply furnished for protective breathing purposes (see § 41.24c) for compliance with the two hour requirement for supplementary breathing oxygen. For example, the 300 liter STPD supply per flight crew member which is the protective breathing supply when demand (or diluter-demand) systems are used, will provide a two-hour supplementary breathing supply for one flight crew member at 20,000 feet, so that both the minimum two hour supplementary breathing requirement and the protective breathing requirement would be fulfilled under most emergency conditions resulting from loss of cabin pressure or from contamination of cabin air with smoke or poisonous gases.

(b) *Cabin altitudes greater than 10,000 feet.* When operating a pressurized cabin aircraft which is certificated to fly with a cabin pressure altitude greater than 10,000 feet, a supply of oxygen for crew members computed on the basis of the requirements of § 41.24 (a) should be provided.

(1) The oxygen supply required for protective breathing purposes, as defined in § 41.24c, should be provided in addition to the above supply for the flight crew members on flight deck duty. This emergency supply may be used in the event of cabin pressurization failure. In the event that operations occur over terrain which require flights of such duration and altitude as to use up the emergency oxygen supplied either for protective breathing purposes or for the two hour supply following pressurization failure, the supply should be increased to provide for this difference, computing it for crew members on the basis of § 41.24a (a).

(2) To provide oxygen for crew members other than the flight crew members on flight deck duty in the event of cabin pressurization failure, a supply of oxygen in addition to the supplies mentioned above should be provided in accordance with the requirements of § 41.24a (a) except that the total supply for these other crew members need not exceed that provided on the basis of § 41.24 (a) for cabin pressure altitudes in excess of 10,000 feet plus an additional supply necessary to satisfy the increased oxygen flow which might be needed following a pressurization failure; this supplement to the § 41.24 (a) supply should be based on the duration of flight at the altitudes which would permit safe flight with respect to terrain clearance.

(3) During normal operation at cabin pressure altitudes above 10,000 feet oxygen should be used by each member of the flight crew on flight deck duty for the duration of the flight in excess of 30 minutes at the cabin pressure altitudes between 10,000 and 12,000 feet and for the duration of the flight at cabin pressure altitudes in excess of 12,000 feet. In the event of the loss of cabin pressurization, oxygen should continue to be used by the flight crew members on flight deck duty for the duration of flight at cabin pressure altitudes greater than 10,000 feet. All other crew members may use oxygen according to their individual needs.

§ 41.24a–2 *Computation of supply for passengers in pressurized cabin aircraft (CAA policies which apply to § 41.24a (b))*—(a) *Cabin altitudes less than 10,000 feet.* When a pressurized cabin aircraft is certificated to fly with a cabin pressure altitude no greater than 10,000 feet, only the supply of oxygen stipulated by § 41.24 (b) need be provided for passengers. In determining this supply the following policies should be considered:

(1) The altitude which should be used in computing the supply of oxygen required by this section should be the altitude to which the aircraft would descend following a cabin pressurization failure, considering terrain clearance and operation limitations.

(2) Relative to § 41.24a (b) (1) and (2), no oxygen need be provided for the first four minutes following a cabin pressurization failure.

(b) *Cabin altitudes greater than 10,000 feet.* When a pressurized cabin aircraft is certificated to fly with a cabin pressure altitude greater than 10,000 feet, the following policies should be considered: When the cabin pressure altitude is above 10,000 feet to and including 14,000 feet, sufficient oxygen shall be provided for 10 percent of the number of passengers for the duration of flight between such cabin pressure altitudes. When the cabin pressure altitude is above 14,000 feet to and including 15,000 feet, sufficient oxygen shall be provided for 30 percent of the number of passengers for the duration of flight between such cabin pressure altitudes. When the cabin pressure altitude is above 15,000 feet, sufficient oxygen shall be provided for each passenger for the duration of flight above such a cabin pressure altitude. In addition to the above supply of oxygen, in order to provide for loss of cabin pressure, the supplementary oxygen required by whatever portions of § 41.24a (b) are applicable, shall be provided except that in no case will it be necessary to furnish a supply of oxygen in excess of that necessary to supply oxygen to 100 percent of the passengers for the maximum possible duration of flight at the maximum cabin altitude which could be attained under either of the normal operating or emergency conditions whichever is greater.

§ 41.24a–3 *Oxygen requirements for clinical purposes (CAA policies which apply to § 41.24a (b)).* The regulations do not require that oxygen be provided for clinical purposes; hence, if the air carrier believes that such oxygen is to be desired, he should provide oxygen for this purpose. It is suggested that portable units of any size the air carrier desires be used for this purpose in order that the minimum supply required for supplementary breathing purposes will be preserved. If, however, the operator wishes to use a common source of supply for the oxygen required by the regulations and for clinical purposes, he may do so if he provides an amount of oxygen sufficiently greater than that required by the regulations. It is suggested that a quantity of 300 liters may be considered as satisfying reasonable needs.

§ 41.24a–4 *Oxygen requirements for infants-in-arms (CAA policies which apply to § 41.24a (b)).* Provisions should be made for administering oxygen to infants-in-arms, and additional oxygen over that required by § 41.24a (b) should be carried whenever an unusually large number of infants is carried. This additional oxygen is needed only when there is a passenger or infant for each seat position and the number of infants not provided for exceeds 50 percent of the seat positions. Acceptable methods of administering the oxygen to infants and now used by many operators are: (a) A disposable plastic mask which can be fitted to the face; (b) an infant size BLB oro-nasal mask and (c) semi-rigid paper cups, specifically reserved for the purpose, which can be fitted over the infant's nose and mouth, with a hole punched through the bottom through which an oxygen tube or Y-connector can be inserted. Any other acceptable method may also be used.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

This supplement shall become effective February 15, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[Supp. 20]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

OXYGEN

This supplement establishes CAA interpretations and policies on providing oxygen for, and administering oxygen to, crew members and passengers in pressurized and nonpressurized cabin aircraft at various operating altitudes.

The following policies and interpretations are hereby adopted:

§ 42.26–1 *Supplemental oxygen for crew members (CAA interpretations which apply to § 42.26 (a) (1)).* See § 41.24–1 of this subchapter.

§ 42.26–2 *Oxygen requirements for stand-by crew members (CAA interpretations which apply to § 42.26 (a)).* See § 41.24–2 of this subchapter.

§ 42.26–3 *Operating instructions (CAA policies which apply to § 42.26).* See § 41.24–3 of this subchapter.

§ 42.26–4 *Oxygen requirements for jump seat occupant (CAA policies which apply to § 42.26).* See § 41.24–4 of this subchapter.

§ 42.26–5 *Oxygen requirements for infants-in-arms (CAA policies which apply to § 42.26 (b)).* See § 41.24–5 of this subchapter.

§ 42.26–6 *Oxygen requirements for clinical purposes (CAA policies which apply to § 42.26 (b)).* See § 41.24–6 of this subchapter.

§ 42.27–1 *Computation of supply for crew members in pressurized cabin aircraft (CAA policies which apply to § 42.27 (a)).* See § 41.24a–1 of this subchapter.

§ 42.27–2 *Computation of supply for passengers in pressurized cabin aircraft (CAA policies which apply to § 42.27 (b)).* See § 41.24a–2 of his subchapter.

§ 42.27–3 *Oxygen requirements for clinical purposes (CAA policies which apply to § 42.27 (b)).* See § 41.24a–3 of this subchapter.

§ 42.27–4 *Oxygen requirements for infants-in-arms (CAA policies which apply to § 42.27 (b)).* See § 41.24a–4 of this subchapter.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

This supplement shall become effective February 15, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-663; Filed, Feb. 1, 1954; 8:46 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 71]

PART 608—DANGER AREAS

CAMP CLAIBORNE, LA.

The danger area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.26, a Camp Claiborne, Louisiana, area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
CAMP CLAIBORNE (D-4311) (Beaumont Chart).	SE corner: lat. 31°05'10" N, long. 92°30'40" W; SW corner: lat. 31°01'53" N, long. 92°34'17" W; NW corner: lat. 31°07'30" N, long. 92°40'45" W; NE corner: lat. 31°11'07" N, long. 92°36'35" W.	Surface to unlimited.	Continuous during VFR weather conditions	Alexandria, La. AFB.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on February 12, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-661; Filed, Feb. 1, 1954; 8:45 a. m.]

[Amdt. 62]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation, facility, class and identification, procedure No., effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound), altitudes, limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-71-A-24]

PART 927—MILK IN THE NEW YORK METROPOLITAN MILK MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED, REGULATING HANDLING

§ 927.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, as amended, effective on February 1, 1954. Otherwise, the administrative impracticability of an effective date other than as of the first day of a month would require a minimum deferment of one full month in its effective date. Such further delay in the effective date of this order, as amended, would seriously threaten the orderly marketing of milk in the New York metropolitan milk marketing area. The provisions of the said order are well known to handlers, the recommended decision having been published in the FEDERAL REGISTER on September 18, 1953 (18 F. R. 5595), and the final decision having been published in the FEDERAL REGISTER on December 17, 1953 (18 F. R. 8444). Under the circumstances, adequate and reasonable time has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order, as amended, effective on February 1, 1954, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the New York metropolitan milk marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1953), were engaged in the production of milk for sale in the said marketing area and who participated in a referendum on the question of approval of its issuance.

It is therefore ordered, That on and after February 1, 1954, the handling of milk in the New York metropolitan milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as heretofore amended and as hereby further amended as follows:

1. Amend § 927.8 by deleting the words "pursuant to § 927.18 (j)."

2. Amend § 927.18 (j) to read as follows:

(j) Promptly notify a handler, upon receipt of the handler's written request therefor, of his determination: as to whether one or more plants exist at a specified location, as to whether any specified item constitutes a part of the handler's plant, or as to which plant a specified item is a part in the event that the particular premises in question constitutes more than one plant: *Provided,* That, if the request of the handler is for revision or affirmation of a previous determination, there is set forth in the request a statement of what the handler believes to be the changed conditions which make a new determination necessary. If a handler has been notified in writing of a determination with respect to an establishment operated by him, any revision of such determination shall not be effective prior to the date on which such handler is notified of the revised determination.

3. Amend § 927.24 (a) by adding the following immediately preceding the first proviso: "and in addition, the designation shall be cancelled effective either on the first day of February or on the first day of March 1954 upon application submitted by the handler to the market administrator prior to the requested effective date of cancellation."

4. Amend § 927.31 by changing the last sentence thereof to read: "The burden rests upon the handler who receives in the marketing area or at a pool plant, or distributes in the marketing area, milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, fluid cream products, or fluid skim milk to establish the source of all of his milk and milk products, and in the absence of such proof such milk and the milk equivalent of such enumerated products shall be subject to the provisions of § 927.79."

5. Amend § 927.35 by renumbering paragraph (c) as paragraph (e) and by substituting for paragraph (b) the following:

(b) After the assignments prescribed in paragraph (a) of this section, the remaining whole milk received at a plant from producers or from pool plants and in like form from dairy farmers not producers or from non-pool plants shall be assigned pro rata to the total classification of all milk on hand at or leaving such plant as whole milk.

(c) After the assignments prescribed in paragraphs (a) and (b) of this section, the then remaining milk or cream received from producers or from pool plants and the milk or cream received from dairy farmers not producers or from non-pool plants shall be assigned pro rata to the total remaining classification of such products received in like form.

(d) After the assignment of skim milk prescribed in paragraph (a) of this section, skim milk received from non-pool plants shall be assigned to the remaining skim milk subject to the fluid skim differential.

6. Amend § 927.37 (b) to read as follows:

(b) Class I–B milk shall be all milk, except as provided in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves the plant in the form of milk, concentrated fluid milk, fluid milk products, or of cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and which is delivered to a plant or a purchaser outside of the State of New York and outside of Northern New Jersey, but which at no time (1) is received, other than directly from producers, at a plant in the marketing area, or (2) otherwise enters the marketing area except as an incident to its transportation and delivery to a point outside of the marketing area: *Provided,* That use aboard a ship or other carrier shall not constitute such delivery.

7. Amend § 927.37 (c) to read as follows:

(c) Class I–C milk shall be all milk, except as provided in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves the plant in the form of milk, concentrated fluid milk, fluid milk products, or as cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and which is delivered to a plant or a purchaser in the State of New York or Northern New Jersey, but which at no time (1) is received, other than directly from producers, at a plant in the marketing area, or (2) otherwise enters the marketing area except as an incident to its transportation and delivery to a point outside of the marketing area: *Provided,* That use aboard a ship or other carrier shall not constitute such delivery.

8. Amend § 927.42 by changing (1) that portion preceding the schedule to read as follows:

§ 927.42 *Transportation differentials.* The market administrator shall determine and publicly announce a freight zone for each pool plant and he shall determine the freight zone for each plant at which milk or milk products subject to the provisions of § 927.78 or § 927.79 is received from dairy farmers or is first found. Such freight zone shall be based on the shorter of (a) the railroad mileage distances from the railroad shipping point nearest the plant to New York City railroad terminals, and (b) the shortest highway mileage from the plant to Columbus Circle, New York City, as computed (without using supplements issued thereto, from Mileage Guide No. 6 issued on July 20, 1949, effective August 21, 1949, by the Household Goods Carrier's Bureau, Agent, Washington, D. C. The freight zone for plants located in the marketing area shall be the 1–10 mile zone. The class prices set forth in § 927.40 and the fluid skim differential set forth in § 927.44 shall be plus or minus the amount set forth in the following schedule:

and (2) by changing the last freight zone in the schedule from "491–500" to "491 and over."

9. Amend § 927.50 as follows:

a. Add references to "§ 927.79" wherever reference is now made to "§ 927.78."

b. Delete from paragraph (c) the following: "such disposition to be covered by a signed statement of the plant operator if such other plant is not a pool plant."

10. Amend § 927.46 to change the time for announcing the average of prices paid in the preceding month by Midwestern condenseries from not later than the 25th day of each month to the 5th day of each month by making subparagraph (8) of paragraph (a) subparagraph (10) of paragraph (b) and renumbering subparagraph (9) in (a) to (8).

11. Amend § 927.54 by adding in paragraph (d) thereof a reference to "§ 927.32", and by adding a new paragraph (e) as follows:

(e) Make inspection of buildings and their surroundings, facilities, and equipment for verification purposes and to ascertain what constitutes a plant.

12. Amend § 927.61 by adding to paragraph (c) thereof "and § 927.79."

13. Amend § 927.77 by changing the title thereof to "Cream payments" and by adding a new paragraph (c) as follows:

(c) With respect to Class II milk the butterfat from which is on hand at the plant in the form of cream, or having left the plant in the form of cream had not been delivered to a plant or purchaser by the end of the period for establishing classification, but subsequent to the end of the period for establishing classification such cream is so handled that it would have been classified at a plant outside the marketing area in Class III pursuant to § 927.37 (e) (1) (3) (5) or (6) had such handling occurred during the period for establishing classification, the handler who received the milk from producers may claim a refund by filing a report giving the facts with respect to such handling. On the basis of verification of such report, the market administrator shall make payment out of the producer settlement fund to such handler or issue credit against any balance due from such handler to the producer settlement fund in an amount equal to the difference between the Class II and Class III prices applicable for the month when the milk was received from producers.

14. Delete § 927.78 and substitute in lieu thereof the following:

§ 927.78 *Payments on milk received from dairy farmers at non-pool plants.* Payments shall be made by handlers to producers, through the producer settlement fund, for milk and milk products under conditions, in amounts and by the handler pursuant to paragraphs (a) through (d) of this section: *Provided,* That for any month in which the volume of Class III milk used in the computation of the uniform price is less than 15 percent of the combined volume of the Class I–A and Class II milk used in such computation, the payments set forth in this section shall not be required.

(a) Payments shall be made for milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, fluid cream products, and skim milk, which milk or milk product meets each of the following conditions:

(1) It was derived from milk received at a non-pool plant from dairy farmers other than the plant operator.

(2) It was shipped to, received in or distributed in the marketing area, or was received at a pool plant outside the marketing area.

(3) The milk or milk equivalent of the butterfat is classified as Class I–A or Class II, or the skim milk would be subject to the fluid skim differential if it were derived from pool milk.

(b) The amounts of payment for the products set forth in paragraph (a) of this section shall be as follows:

(1) If the milk or the milk equivalent of the butterfat, or the skim milk is classified and paid for under another order issued pursuant to the act, the amount of payment on such products, except skim milk, shall be any plus amount obtained by subtracting the value of the milk or the milk equivalent of the butterfat at the class price or prices under such order from the value computed in accordance with the classification and pricing set forth in this subpart: *Provided,* That the payment shall be at the rates set forth in subparagraph (2) of this paragraph if the other order permits the deduction of such payment from the amount otherwise due for such milk pursuant to such other order. The amount of payments on skim milk shall be an amount computed pursuant to § 927.44 adjusted for the location of the plant.

(2) If the milk or milk product is derived from milk received from dairy farmers at a non-pool plant in the 421–425 mile zone, or in some other zone nearer the marketing area, the handling of which is not regulated by an order issued pursuant to the act or is regulated by another order as specified in the proviso of subparagraph (1) of this paragraph, the amount of payment, except as otherwise specified in subparagraph (4) of this paragraph, shall be the difference between its classified value at the Class I–A or the Class II price, depending upon its classification, and its value at the Class III price, such class prices to be adjusted for butterfat test and the location of the plant at which the non-pool milk was originally received from farmers: *Provided,* That for concentrated fluid milk, cream, fluid cream products, and cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent butterfat, the payment shall be computed on the milk equivalent thereof as so classified. The amount of the payment on skim milk (either as skim milk or in cultured milk drinks) shall be the amount computed pursuant to § 927.44 as similarly adjusted for location.

(3) If the milk or milk product is derived from milk received from dairy farmers at a non-pool plant farther from the marketing area than the 421–425 mile zone, the handling of which is not regulated by another order issued pursuant to the act, or is regulated by another order as specified in the proviso of subparagraph (1) of this paragraph, the amount of payments shall be the difference between the value of its milk equivalent at the Class I–A or Class II price, depending upon its classification, and the value of such milk at the Midwestern condensery price announced pursuant to § 927.46 (6) (10), such class prices to be adjusted for the location of the plant at which the non-pool milk was originally received from dairy farmers: *Provided,* That for milk, fluid milk products and cultured or flavored milk drinks containing 3.0 percent or more

but not more than 5.0 percent of butterfat, the payment shall be the difference between the value of such milk or milk product at the Class I–A price for milk containing 3.5 percent butterfat, adjusted for location of the plant, and the condensery price. The amount of the payment on skim milk (either as skim milk or in cultured milk drinks) shall be the amount computed pursuant to § 927.44 similarly adjusted for location.

(4) For any month in which the volume of milk subject to the butter-cheese adjustment used in the computation of the uniform price is more than 15 percent of the combined volume of the Class I–A and Class II milk used in such computation, the payment required by subparagraph (2) of this paragraph shall be increased by the value of the milk or milk equivalent at the rate of the butter-cheese adjustment at the plant where the milk was received from dairy farmers.

(5) In computing the milk equivalent value of milk or milk products as specified in this paragraph, such value shall be computed on the basis of milk containing 3.5 percent of butterfat.

(c) Payment for any milk or milk product pursuant to this section shall be made, on behalf of the handler receiving the milk from dairy farmers, by the appropriate handler as set forth in subparagraphs (1) through (3) of this paragraph: *Provided*, That if the milk is received from a handler under another order issued pursuant to the act, which order provides that the payment to the producer settlement fund may be deducted from the handler's obligation under the other order, the payment shall be made by the handler subject to the other order regardless of the provisions of subparagraphs (1) through (3) of this paragraph:

(1) By the handler first receiving the milk or milk product at a pool plant outside the marketing area.

(2) By the handler operating the plant where the milk or milk product is first received in the marketing area if the milk or milk product is not received at a pool plant outside the marketing area.

(3) By the handler operating the plant from which the milk or milk product was moved into the marketing area if such milk or milk product is neither received at a pool plant outside the marketing area nor at a plant in the marketing area.

(d) The amount due pursuant to this section shall be entered on the handler's account as a debit immediately after the filing of the report pursuant to § 927.50, or if the handler fails to file such report, such amount shall be entered on the handler's account in accordance with § 927.75.

15. Add a new § 927.79 as follows:

§ 927.79 *Payments on milk or milk products the source of which is not established.* Payments shall be made by handlers to producers through the producer settlement fund, for milk and milk products under conditions, in amounts and by the handler pursuant to paragraphs (a) through (d) of this section.

(a) Payments shall be made for milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, fluid cream products, and skim milk which milk or milk product meets each of the following conditions:

(1) It was derived from milk for which the farm source is not established.

(2) It was shipped to, received in or distributed in the marketing area, or was received at a pool plant.

(3) If first found at a non-pool plant, the milk or milk equivalent of the butterfat is classified as Class I–A or Class II, or the skim milk is subject to the fluid skim differential.

(b) The amounts of payment for the product set forth in paragraph (a) of this section shall be as follows:

(1) For milk, concentrated fluid milk, fluid milk products, or cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, the value of such milk, fluid milk products, cultured or flavored milk drinks or the milk equivalent of such concentrated fluid milk at the class price at the plant where first found.

(2) For cream, fluid cream products, or cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat, the value of the milk equivalent of such product at a rate per hundredweight computed pursuant to § 927.40 (e) (1) adjusted by the differentials set forth in column C in the table in § 927.42 for the zone of the plant at which first found.

(3) For skim milk in a form subject to the fluid skim milk differential, the value at a rate per hundredweight computed as follows: Divide the amount computed pursuant to § 927.40 (e) (2) by 0.9125, add an amount computed pursuant to § 927.44 and adjust the result by the differentials set forth in column B in the table in § 927.42 for the zone of the plant where first found.

(4) For skim milk in a form not subject to the fluid skim milk differential, the value at a rate per hundredweight computed as follows: Divide the amount computed pursuant to § 927.40 (e) (2) by 0.9125.

(5) In computing the milk equivalent value of products as specified in this paragraph, such value shall be computed on the basis of milk containing 3.5 percent of butterfat.

(c) Payment for any milk or milk product pursuant to this section shall be made, on behalf of the handler receiving the milk from dairy farmers, by the appropriate handler as set forth in subparagraphs (1) through (3) of this paragraph:

(1) By the handler first receiving the milk or milk product at a pool plant outside the marketing area.

(2) By the handler operating the plant where the milk or milk product is first received in the marketing area if the milk or milk product is not received at a pool plant outside the marketing area.

(3) By the handler operating the plant from which the milk or milk product was moved into the marketing area if such milk or milk product is neither received at a pool plant outside the marketing area nor at a plant in the marketing area.

(d) The amount due pursuant to this section shall be entered on the handler's account as a debit immediately after the filing of the report pursuant to § 927.50, or if the handler fails to file such report, such amount shall be entered on the handler's account in accordance with § 927.75.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 28th day of January 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54–673; Filed, Feb. 1, 1954; 8:47 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 50—CITY DELIVERY

PART 135—GENERAL

PRIVATE MAIL RECEPTACLES; BONDS OF CARRIERS IN RURAL DELIVERY SERVICE

1. In § 50.23 *Private mail receptacles* amend paragraph (b) to read as follows:

(b) *Apartment-house mail receptacles.* Approved apartment-house mail receptacles, one for each apartment, conforming to the regulations in § 50.25, should be provided in apartment houses, family hotels, and flats containing three or more apartments, except where the management has arranged that mail for the tenants be delivered at the office or desk for distribution by its employees. Registered, insured, c. o. d., special delivery and parcel post mail must be delivered to the addressee or his authorized agent without regard to the floor on which his office or apartment is located. Where available, telephone or speaking tubes should be used to call patrons to whom such matter is addressed before distributing ordinary mail to the receptacles. When telephones or speaking tubes are not available, or when preferable, someone should be designated to receive such mail on the first floor for all the patrons in the building. In such cases the written order of each patron must be obtained. Directory boards showing the names of all persons receiving mail should be provided in apartment houses where there are 25 or more receptacles. Copies of the apartment house mail receptacles regulations pamphlet and amendments may be secured upon application to the Bureau of Post Office Operations, Division of Post Office Services.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

2. In § 135.15 *Bonds of carriers in the rural delivery service,* amend the second sentence of paragraph (e) to read as follows: "Such bonds may be disposed of in accordance with the provisions of § 6.21 of this chapter, six years after the termination of the bond."

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[SEAL] LOUIS J. DOYLE,
Acting Solicitor.

[F. R. Doc. 54–669; Filed, Feb. 1, 1954; 8:47 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Reclamation, Department of the Interior

PART 407—REGULATIONS GOVERNING LEASES OF RESERVED LANDS OF THE UNITED STATES IN BOULDER CITY, NEVADA

Chapter II, Title 43, Code of Federal Regulations, is amended to add a new part, numbered 407, and reading as indicated below. Part 407 supersedes the "Regulations to Govern Issuance of Residential Leases and Establishing Rental Rates for Reserved Lands of the United States in Boulder City, Nevada" (5 F. R. 4146).

Sec.
407.1 Applicability of regulations in this part.
407.2 Term of leases.
407.3 Qualifications of lessees.
407.4 References.
407.5 Renewals.
407.6 Rates.

AUTHORITY: §§ 407.1 to 407.6 issued under sec. 1, 54 Stat. 437; 43 U. S. C. 617u.

§ 407.1 *Applicability of regulations in this part.* Lands within the exterior boundaries of Boulder City, Nevada, comprise public lands of the United States withdrawn for reclamation purposes pursuant to section 3 of the act of June 17, 1902 (32 Stat. 388; 43 U. S. C. 416). These lands may be leased for residential, commercial, and industrial purposes in accordance with the regulations in this part.

§ 407.2 *Term of leases.* Leases shall be for periods of not to exceed fifty-three (53) years, and they shall be in accordance with the terms and conditions and in the form approved on January 15, 1954, and subject to the terms of the regulations of this part unless otherwise provided by the Secretary of the Interior.

§ 407.3 *Qualifications of lessees.* No application for a lease hereunder shall be approved until the applicant therefor has satisfied the City Manager of Boulder City that (a) he is a citizen of the United States; (b) he is a person of good moral character; (c) he does not intend to use the area for which the lease is requested for speculative purposes; (d) he is financially responsible so as to warrant the belief that, if granted a lease, he will be able to meet all the conditions and obligations of such a lease.

§ 407.4 *References.* If requested by the City Manager, each applicant will furnish a letter, or letters, signed by the applicant, addressed to and authorizing banking and other institutions or persons to supply to the City Manager any information he may require in regard to the matters set forth in § 407.3. Refusal of an applicant to furnish such authority, or his failure so to do within a period considered reasonable by the City Manager, shall be sufficient reason for rejecting his application.

§ 407.5 *Renewals.* No lease shall be renewed or extended if the lessee has failed, or refused, to make such reasonable improvements, alterations, or repairs in and on the building or buildings on the leased premises as have been requested in writing by the City Manager.

§ 407.6 *Rates.* All leases shall be made at full fair market values, with recourse in determination of such values to appraisals by one or more competent professional real estate appraisers.

RALPH A. TUDOR,
Acting Secretary of the Interior.

JANUARY 15, 1954.

[F. R. Doc. 54–667; Filed, Feb. 1, 1954; 8:46 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

FROZEN APPLES

U. S. STANDARDS FOR GRADES[1]

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of United States Standards for Grades of Frozen Apples (7 CFR Part 52; 18 F. R. 7923), pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq.; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953). This revision, if made effective, will be the third issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file same, in duplicate, with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

The proposed revision is as follows:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.
52.361 Product description.
52.362 Styles of frozen apples.
52.363 Grades of frozen apples.

FACTORS OF QUALITY

52.364 Ascertaining the grade.
52.365 Ascertaining the rating for the factors which are scored.
52.366 Color.
52.367 Size.
52.368 Defects.
52.369 Character.

LOT CERTIFICATION TOLERANCES

52.370 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.371 Score sheet for frozen apples.

AUTHORITY: §§ 52.361 to 52.371 issued under sec. 205, 60 Stat. 1090; 7 U. C. C. 1624; Pub. Law 156, 83d Cong.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.361 *Product description.* Frozen apples are prepared from sound, properly ripened fruit of Malus sylvestris (Pyrus malus); are peeled, cored, trimmed, sliced, sorted, and washed; are properly drained before filling into containers; may be packed with or without the addition of a nutritive sweetening ingredient and any other ingredient permissible under the provisions of the Federal Food, Drug, and Cosmetic Act; and are frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

§ 52.362 *Styles of frozen apples.* (a) "Slices" means frozen apples consisting of slices of apples cut longitudinally and radially from the core axis.

(b) "Rings" means frozen apples consisting of slices cut transversely to the core axis.

§ 52.363 *Grades of frozen apples.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen apples that possess similar varietal characteristics; that possess a good flavor; that possess a good color; that are practically uniform in size; that are practically free from defects; that possess a good character; and that score not less than 85 points when scored in accordance with the scoring system outlined in this subpart: *Provided*, That the frozen apples may be only fairly uniform in size, if the total score is not less than 85 points.

(b) "U. S. Grade C" or "U. S. Standard" is the quality of frozen apples that process similar varietal characteristics; that possess a fairly good flavor; that possess a fairly good color; that are fairly uniform in size; that are fairly free from defects; that possess a fairly good character; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of frozen apples that fail to meet the requirements of U. S. Grade C or U. S. Standard.

FACTORS OF QUALITY

§ 52.364 *Ascertaining the grade.* (a) The grade of frozen apples is ascertained by considering the requirements with respect to varietal characteristics, which are not scored, and the factors of color, size, defects, and character, which are scored.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors is:

Factors:	Points
Color	20
Size	20
Defects	20
Character	40
Total score	100

(c) The scores for the factors of color, size, defects, and character are determined immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units.

(d) "Good flavor" means that the product has a good, characteristic normal flavor and odor and is free from objectionable flavors and objectionable odors of any kind.

(e) "Fairly good flavor" means that the product may be lacking in good flavor and odor and is free from objectionable flavors and objectionable odors of any kind.

§ 52.365 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.366 *Color*—(a) *(A) classification.* Frozen apples that possess a good color may be given a score of 17 to 20 points. "Good color" means that the frozen apples, internally and externally, possess a reasonably uniform bright color, characteristic of apples of similar varieties.

(b) *(C) classification.* Frozen apples that possess a fairly good color may be given a score of 14 to 16 points. Frozen apples that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the frozen apples possess a color that is typical of apples of similar varietal characteristics, that may be variable, and that the product may possess a slight but not markedly brown or gray cast and shall be practically free from internal discoloration.

(c) *(SStd.) classification.* Frozen apples that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.367 *Size*—(a) *General.* The factor of size refers to the degree of wholeness and to the uniformity of thickness of the units.

(1) "Practically whole slice" means that the slice may be cut or broken but at least ¾ of the original slice remains.

(2) "Practically whole ring" means that the ring may be cut or broken on one side but at least ¾ of the ring is present.

(b) *(A) classification.* Frozen apples that are practically uniform in size may be given a score of 17 to 20 points. "Practically uniform in size" has the following meanings with respect to the various styles of frozen apples:

(1) *Slices.* At least 90 percent, by weight, of the product consists of whole or practically whole slices of 1¼ inches in length or longer, and that of the 90 percent, by weight, of the product consisting of units of the most uniform thickness, the thickness of the slices does not vary more than ¼ inch.

(2) *Rings.* At least 75 percent, by weight, of the product consists of whole or practically whole rings, and of the 90 percent, by weight, of the product consisting of units of the most uniform thickness, the thickness of the rings does not vary more than ⅛ inch.

(c) *(C) classification.* Frozen apples that are fairly uniform in size may be given a score of 14 to 16 points. "Fairly uniform in size" has the following meanings with respect to the various styles of frozen apples:

(1) *Slices.* At least 75 percent, by weight, of the product consists of whole or practically whole slices of 1¼ inches in length or longer.

(2) *Rings.* At least 50 percent, by weight, of the product consists of whole or practically whole rings.

(d) *(SStd.) classification.* Frozen apples that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.368 *Defects*—(a) *General.* The factor of defects refers to the degree of freedom from harmless extraneous matter, from damaged or seriously damaged units, and from carpel tissue.

(1) "Harmless extraneous matter" means any vegetable substance (including, but not being limited to, a leaf, stem, or portions thereof, cores and portions of cores, and seeds), that is harmless.

(2) "Damaged unit" means any unit possessing green peel that exceeds in the aggregate an area of a circle ½ inch in diameter, or red peel that exceeds in the aggregate an area of a circle ¼ inch in diameter, light brown bruise that exceeds the area of a circle ½ inch in diameter or which is more than ¼ inch deep, and any unit in which the appearance or eating quality is materially affected by blossom and material, dark brown bruise, or other internal or external discoloration, pathological injury, insect injury, or by any other means.

(3) "Seriously damaged unit" means any unit damaged to such an extent that the appearance or eating quality is seriously affected.

(4) "Practically free from carpel tissue" means that for each 16 ounces of the product, the carpel tissue present does not exceed in the aggregate an area equal to ¾ square inch.

(5) "Fairly free from carpel tissue" means that for each 16 ounces of the product the carpel tissue present does not exceed an area equal to 1½ square inches.

(b) *(A) classification.* Frozen apples that are practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means that extraneous matter may be present that does not materially affect the appearance or eating quality of the product; that the product is practically free from carpel tissue; and that not more than a total of 5 percent, by weight, of the units may be damaged, of which not more than 1 percent, by weight, of all the units may be seriously damaged: *Provided*, That extraneous matter, damaged and seriously damaged units, singly or in combination, do not materially affect the appearance or eating quality of the product.

(c) *(C) classification.* Frozen apples that are fairly free from defects may be given a score of 14 to 16 points. Frozen apples that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that extraneous matter may be present that does not seriously affect the appearance or eating quality of the product; that the product is fairly free from carpel tissue; and that not more than a total of 15 percent, by weight, of the units may be damaged, of which not more than 3 percent, by weight, of all the units may be seriously damaged: *Provided*, That extraneous matter, damaged and seriously damaged units, singly or in combination, do not seriously affect the appearance or eating quality of the product.

(d) *(SStd.) classification.* Frozen apples that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.369 *Character*—(a) *General.* The factor of character refers to the texture of the units and to the tendency to retain their conformation without material softening or disintegration.

(1) "Mushy apples" means slices or units or portions thereof that are a pulpy mass and of a consistency approximating applesauce.

(b) *(A) classification.* Frozen apples that possess a good character may be given a score of 34 to 40 points. "Good character" means that the units possess a reasonably uniform texture, are firm but not hard, with not more than 3 percent of the weight of the product consisting of mushy apples.

(c) *(C) classification.* Frozen apples that possess a fairly good character may be given a score of 28 to 33 points. Frozen apples that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the slices may be variable in texture, with not more than 12 percent of the weight of the product consisting of units that are markedly hard, markedly soft, or mushy.

(d) *(SStd.) classification.* Frozen apples that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 27 points and shall not be graded above substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.370 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen apples, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, with respect to the containers comprising the sample:

(1) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(2) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(3) None of the containers falls more than one grade below the grade indicated by the average of such total scores;

(4) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of such total scores; and

(5) All containers meet all applicable standards of quality promulgated by the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

MILK IN THE GREATER BOSTON, LOWELL-LAWRENCE, SPRINGFIELD, WORCESTER, AND FALL RIVER, MASSACHUSETTS, MARKETING AREAS

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENTS AND PROPOSED ORDERS AMENDING ORDERS, AS NOW IN EFFECT, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to proposed marketing agreements and proposed orders amending the orders, as now in effect, regulating the handling of milk in the Greater Boston, Lowell-Lawrence, Springfield, Worcester, and Fall River, Massachusetts, marketing areas, which was issued January 13, 1954 (19 F. R. 333), is hereby extended to February 20, 1954.

Dated: January 28, 1954.

[7 CFR Part 949]

MILK IN SAN ANTONIO, TEXAS, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provision of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at San Antonio, Texas, on January 11 and 12, 1954, pursuant to notice thereof which was issued on January 6, 1954 (19 F. R. 71) upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the San Antonio, Texas, marketing area.

Preliminary statement. The proposed amendments upon which the hearing was held were submitted by the Producers Association of San Antonio, Incorporated. The material issues of record were concerned with:

1. The pricing of Class I milk,

2. The classification and pricing of milk presently classified as Class II milk, and

3. The need for expeditious action in effecting the conclusions herein concluded to be appropriate and necessary.

This decision treats only the issues numbered 1 and 3 above and that portion of the issue numbered 2 which relates to the pricing of milk disposed of for the manufacture of cheddar cheese. The remaining issues will be treated in a recommended decision to be issued at a later date. Further consideration of the issues herein considered should also be given in that recommended decision in order to permit appropriate coordination of the conclusions with respect to these issues with the conclusions later reached concerning the remaining issues.

Findings and conclusions—Pricing of Class I milk. The San Antonio Class I price should not be permitted to exceed the Class I price under the North Texas milk marketing order by more than $0.50 per hundredweight.

During the last six months of 1953 the San Antonio Class I price averaged about 97 cents higher per hundredweight than the North Texas Class I price. For the same months of 1952 the average difference was only about 31 cents. Thus, in the intervening time, the San Antonio Class I price increased about 66 cents in relation to the North Texas Class I price. Most of this changed relationship accrued because the formula index reduced the San Antonio Class I price only 11 cents while the basic formula reduced the North Texas price about 64 cents.

The milk requirements of a number of military installations located within the marketing area comprise a considerable proportion of the total market requirements for milk. Contracts for supplying this milk are awarded every few months. In the past, any handler under the North Texas order who was awarded one of these contracts was required to pay the North Texas Class I price or the San Antonio Class I price minus 60 cents, whichever was higher, for North Texas producer milk supplied under these contracts. Effective February 1, 1954, a North Texas handler will be required to pay only the North Texas Class I price for such milk. With the recent wide difference in prices described above, it appears that North Texas handlers would have some competitive advantage after February 1 in supplying these outlets. In fact, one large military milk supply contract has recently been awarded to a North Texas handler. San Antonio handlers, to some extent, could avail themselves of a similar competitive advantage by purchasing North Texas producer milk from North Texas handlers. Certain San Antonio handlers have business connections with North Texas handlers which would appear to make such transfers of milk feasible. Unless these competitive advantages are removed, North Texas producer milk can be expected to continue to displace San Antonio producer milk, the production of which has been increased to supply the local market, including military contracts. This competitive advantage which North Texas producer milk now has can and should be removed by reducing the San Antonio Class I price so that it cannot exceed the North Texas Class I price by more than the cost of transporting North Texas producer milk to San Antonio,

which is about 50 cents per hundredweight of milk.

Prior to the fall and winter of 1953, supplies of North Texas producer milk had not been great enough on a year round basis in relation to North Texas market requirements so that any significant volumes could be made available regularly for the San Antonio market. However, such supplies have increased in recent months to the extent that North Texas milk may now be regularly available.

Substantially the same alignment of Class I prices in the San Antonio and North Texas markets as is herein concluded to be necessary could be achieved by the adoption of a basic formula price for San Antonio similar to the North Texas basic formula price, but this alternative method of alignment was not thoroughly considered at the hearing. Consideration of this method at a later hearing may be desirable.

Milk for cheddar cheese. The price for milk (containing 4 percent of butterfat) disposed of from use in cheese other than cottage cheese should be the average of the prices paid dairy farmers for milk at cheese plants located at Alice and Round Rock, Texas. The present Class II butterfat differential should apply to such milk.

From December 1952 to December 1953 the total volume of Class II milk at all approved plants increased to a point where handlers refused to accept milk from producers and transferred the burden of finding outlets to the producers or their cooperative association. Outlets to unapproved plants are extremely limited, and as receipts increase seasonally, it appears likely that from February or March through June or July 1954 considerable volumes of milk will have to be disposed of to the two cheese plants mentioned above, which are about the most accessible outlets for excess milk. The price which can be obtained for this milk from the cheese plants can be expected to be somewhat less than the present Class II price. With respect to milk which handlers will not accept and for which producers or their cooperative association must assume the responsibility of finding outlets, the amount by which the value of such milk at the Class II price exceeds the return from such milk from the available outlets, likely cheese plants, will be a loss to such producers or their cooperative association. The returns for milk to such producers or their cooperative association will be therefore somewhat less than to other producers. Establishment of the price for milk used for cheddar cheese at the level herein concluded to be appropriate should contribute to the orderly marketing of milk.

The two cheese plants at which prices paid farmers for milk are proposed as a basis for establishing the price for milk for use in cheese are engaged almost exclusively in the manufacture of cheese. Their primary source of milk supply is from farmers. Under these conditions the prices paid farmers for milk at these plants should be representative of the value of milk for cheese and should provide a reasonable basis for pricing Class II producer milk used for cheese.

Since the pricing of all Class II milk is to be considered in a later recommended decision, the pricing of milk for cheese herein concluded to be necessary should apply only through July 1954. As was noted above, the conditions necessitating this pricing of milk for cheese are seasonal and are not expected to be present this year after July.

The need for expeditious action. The large increase during the last year in the volume of Class II milk referred to hereinbefore appears to be a result of (1) a general increase in supplies of producer milk (although producer milk supplies are still not adequate to meet market requirements), and (2) somewhat earlier than normal seasonal increase in supplies of producer milk. This latter condition has developed very recently. These conditions, already present to some extent and becoming more intensified as production increases seasonally, make it imperative that any changes in the order to effect the conclusions reached in this decision should be made at the earliest possible date. Delay beyond the minimum time required to make the attached order effective would defeat the purpose of such amendment. Accordingly, the time necessarily involved in the preparation, filing, and publication of a recommended decision and exceptions thereto, would make such relief ineffective. The propriety of omitting the recommended decision and opportunity for filing exceptions thereto, with respect to the issues decided herein, was indicated on the record by interested parties. It is therefore concluded that good cause exists for eliminating the recommended decision in this proceeding with respect to the issues treated in this decision and that the due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator of Agricultural Marketing Service and the opportunity for exceptions therein on issues herein considered.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and handlers (who would be subject to the proposed marketing agreement and order, as amended, and as hereby proposed to be further amended). The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the findings and conclusions in this decision.

General findings. (a) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of December 1953, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order as amended, regulating the handling of milk in the San Antonio, Texas, marketing area in the manner set forth in the attached amending order, as amended, is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 28th day of January 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area

§ 949.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the San Antonio, Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the San Antonio, Texas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended effective February 1, 1954, and as hereby further amended, as follows:

1. Amend § 949.51 (b) to read as follows:

(b) Adjust the price calculated pursuant to paragraph (a) of this section so that it does not exceed the price calculated pursuant to paragraph (e) of this section by less than $2.00 for each month or more than $2.50 for each of the months of April, May, and June and $2.70 for each of the other months.

2. Delete § 949.51 (c).

3. Amend § 949.51 (d) by adding thereto the following: "The provisions of this paragraph shall operate only to the extent that the difference between the Class I price pursuant to the order, as amended, regulating the handling of milk in the North Texas marketing area (Part 943 of this chapter) and the Class I price pursuant to this section shall not be greater than $0.50."

4. Amend § 949.53 by inserting immediately preceding paragraph (a) thereof the following proviso: "*Provided,* That from the effective date of this proviso through July 1954 the price for Class II milk disposed of for use in cheese other than cottage cheese shall be the simple average of the prices paid dairy farmers for milk containing 4 percent of butterfat delivered during the month for which prices are being computed to cheese plants located at Alice and Round Rock, Texas, and operated by the Fort Worth Poultry and Egg Company."

[F. R. Doc. 54-674; Filed, Feb. 1, 1954; 8:48 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[7 CFR Part 982]

[Docket No. AO-238-A-3]

MILK IN CENTRAL WEST TEXAS MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Abilene, Texas, on January 7-8, 1954, pursuant to notice thereof which was issued on December 29, 1953, and published in the FEDERAL REGISTER on January 1, 1954 (19 F. R. 16) upon a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Central West Texas marketing area.

Preliminary statement. The proposed amendments upon which the hearing was held were submitted by the Central West Texas Producers Association and several handlers. The material issues presented in this proceeding relate to:

1. The pricing of Class I milk,
2. The classification and pricing of milk presently classified as Class II milk,
3. The extent to which the rate of expense of administration should apply to producer milk presently classified as Class II,
4. The extent to which a plant engaged in distributing milk outside of the marketing area may distribute milk within the marketing area without becoming fully subject to the pricing and payment provisions of the order,
5. The extent of the marketing area, and
6. The need for expeditious action in effecting the conclusions herein concluded to be appropriate and necessary.

This decision treats only the issue numbered 6 above and that portion of the issue numbered 2 which relates to the pricing of milk disposed of for the manufacture of cheddar cheese. The remaining issues will be treated in a recommended decision to be issued at a later date. Further consideration of the issues herein considered should also be given in that recommended decision in order to permit appropriate coordination of the conclusions with respect to these issues with the conclusions later reached concerning the remaining issues.

Findings and conclusions—Milk for cheddar cheese. The price for milk (containing 4 percent of butterfat) disposed of for use in cheddar cheese should be computed by multiplying the simple monthly average of the daily prices paid for Wisconsin State Brand Cheddars, f. o. b. Wisconsin assembly points, by 8.0. The present Class II butterfat differential should apply to such milk.

From December 1952 to December 1953 the volume of Class II milk at all approved plants increased about 68 percent. Facilities for utilization of Class II milk at approved plants are not adequate at all times and handlers have sought enlarged outlets at unapproved plants. Outlets to unapproved plants are extremely limited, and except in a few months when receipts were seasonally low, considerable volumes of milk have been disposed of to cheese plants. The price obtained for this milk from the cheese plants has usually been somewhat less than the Class II price. A large portion of the milk which has been disposed of to cheese plants was milk which handlers would not accept and for which the cooperative association assumed the responsibility of finding outlets. Pursuant to the order the cooperative association is responsible to the producer settlement fund for such milk, and accordingly the amount by which the value of such milk at the Class II price exceeded the return from such milk from the cheese plant has represented a loss to the cooperative association. Thus the net returns for milk to members of the cooperative association were probably somewhat less than to other producers. Current market conditions indicate that this problem is likely to continue. Establishment of the price for milk used for cheddar cheese at the level herein concluded to be appropriate should contribute to the orderly marketing of milk.

A proposal considered at the hearing would base the price of milk for cheddar cheese on the simple average of prices paid dairy farms of milk by three plants in or near the milkshed which are engaged in the manufacture of cheese. Only one of these three plants is expected to be an outlet for any significant volume of producer milk during the next several months. At one of these cheese

plants milk from approved plants constitutes the major source of milk for making cheese. Use of prices paid dairy farmers for milk at this plant as a basis for pricing producer milk used for cheese would avail the operator of this cheese plant of the opportunity to exercise some downward influence over the order price of milk for cheese by reducing the price he pays for a minor portion of his supply. In view of these conditions the future establishment of the price of milk for cheese on the basis of prices paid dairy farmers for milk at these three plants does not appear to be appropriate.

The value to a cheese plant of milk for making cheese has a close relationship to the price of cheese. In 1953 substantial amounts of producer milk were disposed of to the cheese plants mentioned above and from April 14 through July 31 such milk was priced on the basis of prices paid dairy farmers at these three cheese plants. A comparison of prices paid at other cheese plants and other manufacturing plants with prices paid at these three plants shows that the potential danger of downward influence described above did not materialize in 1953. Prices received during 1953 when producer milk was disposed of for use in cheddar cheese in any quantity showed the price to be about 8.0 times the average monthly price of cheese at Wisconsin primary markets, and no prospective changes in this relationship are apparent. Use of this relationship to establish the price of producer milk used for cheddar cheese is appropriate.

Since the pricing of all Class II milk is to be considered in a later recommended decision, the pricing of milk for cheese herein concluded to be necessary should extend only until action is completed on this issue. Such action should be completed and effected by not later than August 1, 1954, so the pricing herein proposed need not extend beyond July 1954.

The need for expeditious action. The large increase during the last year in the volume of Class II milk referred to hereinbefore appears to be result of (1) a general increase in the volume of both market requirements and market supplies with the increase in supplies of producer milk being somewhat larger than the increase in market requirements, and (2) somewhat earlier than normal seasonal increase in supplies of producer milk. This latter condition has developed very recently. In the latter part of December 1953 considerable volumes of producer milk were disposed of to cheese plants. These conditions make it imperative that any changes in the order to effect the conclusions reached in this decision should be made at the earliest possible date. Representatives of both producers and handlers testified to the need for early action in this matter. It is therefore concluded that good cause exists for eliminating the recommended decision in this proceeding with respect to the issues treated in this decision and that the due and timely execution of the function of the Secretary under the Act, imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator of Agricultural Marketing Service and the opportunity for exceptions thereto on issues herein considered.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and handlers (who would be subject to the proposed marketing agreement and order, as amended, and as hereby proposed to be further amended). The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the findings and conclusions in this decision.

General findings. (a) The tentative marketing agreement and the order as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act:

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of a demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of December 1953 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order as amended, regulating the handling of milk in the Central West Texas, marketing area in the manner set forth in the attached amending order, as amended, is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the Central West Texas, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Central West Texas Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 28th day of January 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Central West Texas Marketing Area

§ 982.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Central West Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Central West Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

Amend § 982.51 by inserting immediately preceding paragraph (a) thereof the following: "*Provided,* That from the effective date of this proviso through July 1954 the minimum price per hundredweight for Class II milk disposed of for use in cheddar cheese shall be computed by multiplying the simple average of the daily prices paid per pound, using the midpoint of any price range as one price, for Wisconsin State Brand Cheddars in cars or truckloads, f. o. b. Wisconsin assembly points, as reported by the Department for the trading days during the month for which prices are being computed by 8.0."

[F. R. Doc. 54-675; Filed, Feb. 1, 1954; 8:49 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

PRODUCERS STOCKYARDS, CHILLICOTHE, OHIO

POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Producers Stockyards, Chillicothe, Ohio, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 28th day of January 1954.

[SEAL] H. E. REED,
Director, Livestock Division, Agricultural Marketing Service.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[Commissioner's Order No. 29]

REGIONAL DIRECTOR, REGION 3

DELEGATION OF AUTHORITY WITH RESPECT TO LEASES IN BOULDER CITY, NEVADA

JANUARY 26, 1954.

SECTION 1. *Delegation of authority.* The Regional Director, Region 3, may:

(a) Establish and revise rental rates heretofore or hereafter established for, and lease improved and unimproved land in, the Boulder City Federal Reservation for commercial, industrial, and residential purposes; and

(b) Consent to the assignment and subletting of such leases.

SEC. 2. *Redelegation.* The Regional Director may, in writing, redelegate to subordinate officers and employees of Region 3, the authority granted in section 1 of this order. Any such redelegation shall be published in the FEDERAL REGISTER.

SEC. 3. *Authority.* This order is issued pursuant to Departmental Order No. 2745, dated January 15, 1954.

W. A. DEXHEIMER,
Commissioner.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[Case No. 171]

WILLIAM RUDOLPH LESCHITZ

ORDER REVOKING LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of William Rudolph Leschitz, 1875 Harman Street, Brooklyn, New York, Respondent, Case No. 171.

This administrative proceeding was commenced on September 30, 1953 by the transmission of a charging letter issued to the above-named respondent by the Director of the Investigation Staff of the Office of International Trade (now the Bureau of Foreign Commerce), United States Department of Commerce. The respondent was therein charged with knowingly misusing validated export licenses, making false representations and certifications on shipper's export declarations, undervaluing shipments, misusing general license GLV, and submitting to the United States Collector of Customs at New York for authentication a spurious shipper's export declaration intended to replace a declaration previously refused authentication by the Collector, in violation of the export control law and regulations.

Prior to the formulation and transmission of the foregoing charges by the Office of International Trade, and while an official investigation was then under way, the respondent submitted to the investigating officer a voluntary sworn statement dated November 18, 1952, in which he admitted having committed the violations above charged, and other violations which are not embodied in the charges. After receiving the aforesaid charging letter respondent submitted a written request that said statement of November 18, 1952 be presented to the Compliance Commissioner in lieu of his appearance at a hearing.

A hearing on notice was duly held before the Compliance Commissioner at Washington, D. C., on December 16, 1953, the Investigation Staff being represented by counsel but respondent not appearing in person or by counsel. The aforesaid statement of November 18, 1952 was presented to the Compliance Commissioner in behalf of the respondent by counsel for the Government, and the Government likewise presented its evidence in support of the charges. The Compliance Commissioner received the aforesaid statement and the Government's evidence, and after due consideration thereof and of the entire record, filed his report in the matter.

It appears from said report that two New York freight forwarding concerns, one of which employed the respondent, are, and for many years have been, retained by a third concern (herein called the Principal) to prepare and file with the United States Collector of Customs

shipper's export declarations covering the exportations of the Principal; each of such freight forwarding concerns being assigned the preparation of declarations for export shipments destined for different areas. By mutual arrangement in effect at the time of the instant violations, employees of these concerns, including respondent, occupied office space on the premises of the Principal in connection with the services being rendered to the Principal. Respondent's duties in which he had been engaged since January 1946, entailed supervision of employees of the respective freight forwarding concerns responsible for the preparation of shipper's export declarations either in the name of his employer, or of the other freight forwarding concern, as agents of the Principal. Such declarations were prepared in accord with precise written instructions covering each proposed export shipment furnished by the Traffic Section of the Principal and given to respondent for implementation.

During the period from October 1951 through September 1952 while acting in the aforedescribed capacity, and wholly without the knowledge, consent, or acquiescence of either of the freight forwarding concerns, or of the Principal, respondent, of his own volition and in contravention of express written instructions of the Principal, knowingly and deliberately committed the following violations of the export control law and regulations: (a) Misused 2 validated export licenses issued to and held by the Principal to effect unauthorized shipments of roller bearings to a consignee in Manila, P. I., accomplishing such exportations by falsely representing and certifying on 8 shipper's export declarations that the exportations were charged to said licenses, whereas said licenses covered the same commodity and destination, but for another consignee; and also undervalued the dollar value of said materials on each declaration, except two; (b) made false representations of undervaluation on 2 shipper's export declarations covering shipments of roller bearings to a consignee in Manila; (c) misused general license GLV to effect a shipment of roller bearings to Manila, falsely representing and certifying on the shipper's export declaration covering such shipment that the value of the material was $23 whereas its actual value was $231; (d) by devious means obtained the authentication by the U. S. Collector of Customs at New York of a shipper's export declaration previously refused authentication by the Collector, and in that connection prepared and misused another declaration ostensibly for the benefit of the Principal, but actually without the latter's knowledge; and (e) misused a validated export license issued to and held by the Principal to make shipments of steel commodities to a consignee in Australia by misdescribing the materials and the value on 6 shipper's export declarations, in contravention of the Principal's written instructions that 4 licenses for such consignee be used to effect the required exportations.

The report of the Compliance Commissioner shows further that in addition to the violations described above, respondent is known to have committed numerous similar violations during the period under consideration, and, in fact, has admitted, in his statement of November 18, 1952, to have prepared approximately 50 to 75 additional falsified shipper's export declarations which involved misuse of the Principal's validated export licenses, undervaluations of commodities shipped, and improper usage of general license GLV.

In purported explanation of these acts of violation, the respondent has ascribed as the reason therefor his voluntary compulsion to expedite the clearance of shipments for which he was responsible during a period of great pressure immediately following a shipping strike in New York in October 1951 which caused such shipments to be seriously retarded; and for the further reason that he did not understand the seriousness of such acts at the time of commission.

The Compliance Commissioner has evaluated respondent's explanation as unworthy of weight, pointing out in his report that even if respondent was impelled originally to perpetrate the violations because of the alleged pressure following the shipping strike, such excuse did not apply to other irregularities which, in point of time, were completely divorced from the strike, nor could it explain the fraud practised upon the Collector of Customs or the other violations committed at later dates.

The Compliance Commissioner has concluded that respondent's acts constituted an indefensible attack upon the export control system which cannot be excused as the mere over-zealous acts of a misguided but well intentioned employee, in view of respondent's years of experience in export trade, and the obviously wilful character, as well as the large number, of violations committed without apparent motivation. He has concluded further that the violations are wholly those of respondent and cannot be attributed to the Principal, or to his employer or the other freight forwarder for whom he rendered services, as the latter were clearly without knowledge of his defections and did not acquiesce in or consent thereto.

The Compliance Commissioner points out that respondent's improprieties were discovered and investigated by the Principal, and that upon determining the extent and nature of the violations respondent was relieved of his position by his employer; that all three concerns involved have taken prompt measures to revise their operations and have established internal procedures designed to safeguard against recurrences of irregularities such as these here shown.

The Compliance Commissioner has accordingly found the respondent guilty of the charges and has recommended that respondent be insulated against further opportunity to indulge his propensity for irregularity, at least until he has evidenced a more mature and responsible attitude towards the integrity of export controls.

The report of the Compliance Commissioner, the findings and recommendations contained therein, the evidence, and respondent's sworn statement of November 18, 1952, as well as the entire record in this proceeding, have been carefully considered, and it appears therefrom that such findings are in accordance with the evidence and that such recommendations are fair and reasonable and should be adopted.

Now, therefore, it is ordered as follows:

(1) All outstanding validated export licenses held by or issued in the name of respondent William Rudolph Leschitz, or any person, firm, corporation, or other business organization with which he is now related by ownership, control, position of responsibility, or other connection, in the conduct of trade involving exports from the United States or services connected therewith, are revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

(2) The above named respondent is hereby denied and declared ineligible to exercise the privileges of participating directly or indirectly, in any manner or capacity, in the exportation of any commodity from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit respondent's participation (a) as a party or as a representative of a party to any validated export license application, (b) in the preparing, obtaining, or using of any validated or general export license or other export control document, (c) in the receiving in any foreign country of any exportation of commodities from the United States, and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States.

(3) Such denial of export privileges shall extend not only to the name respondent, but also to any person, firm, corporation, or other business organization with which he may be now or during the period of this order related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith.

(4) This order shall extend for a period of 30 months from the date of issuance, or for the duration of export controls, whichever expires earlier: *Provided, however,* That during the last 18 months of said period the export privileges which are denied by the terms of this order shall be restored to respondent subject to the prior written approval of the Bureau of Foreign Commerce and upon such terms and conditions as the Bureau of Foreign Commerce may impose to assure compliance with and adherence to the export control law and regulations. In the event that respondent or the persons or firms covered by paragraph (3) above shall knowingly violate the terms of this order or any laws or regulations related to export control during the entire period of the order, the Bureau of Foreign Commerce may summarily and without notice to respondent or such persons or firms responsible for such violations, at such time as it shall determine that such violation occurred, issue a supplemental order which shall deny to respondent or such persons or firms all export privileges for the said period of the order which has been held in abeyance with respect to him or them, and shall revoke all validated export licenses then outstanding and as to which respondent or such persons or firms may be a party, without thereby limiting the Bureau of Foreign Commerce from taking such other and further action based on such violation as it shall deem warranted.

(5) No person, firm, corporation, or other business organization shall knowingly apply for, prepare, or obtain any export license, shipper's export declaration, bill of lading, or other export control document relating to any exportation or proposed exportation of commodities from the United States under validated or general export licenses, or finance, service, transport, forward, or receive any commodities thereunder, to or for the respondent or any persons or firms covered by paragraph (3) above, without prior disclosure of such facts to, and specific authorization from, the Bureau of Foreign Commerce.

Dated: January 28, 1954.

JOHN C. BORTON,
Director, Office of Export Supply.

[Project No. 1757]

GARLAND HOT MINERAL SPRINGS

NOTICE OF ORDER ISSUING NEW LICENSE (MINOR)

JANUARY 27, 1954.

Notice is hereby given that on May 28, 1953, the Federal Power Commission issued its order adopted May 26, 1953, issuing new license (Minor) in the above-entitled matter.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-676; Filed, Feb. 1, 1954; 8:49 a. m.]

[Docket No. G-2312]

EAST TENNESSEE NATURAL GAS CO.

ORDER GRANTING POSTPONEMENT OF HEARING

On January 19, 1954, East Tennessee Natural Gas Company (East Tenn) filed a motion requesting a postponement of the hearing from February 1, 1954, to March 1, 1954, on the ground that it wishes to serve on the parties new exhibits on February 1, 1954.

By order issued November 13, 1953, the Commission suspended until April 15, 1954, the proposed rate increase filing tendered on October 14, 1953, and fixed the date for hearing to commence on February 1, 1954. The order also provided that East Tenn serve on all parties on or before January 4, 1954, copies of all exhibits proposed to be offered by it at the hearing. Such exhibits have been served on all parties and are based on the actual operations of the company for the twelve-month period ending October 31, 1953. The proposed new exhibits are designed to bring the operations of the company forward for two months to cover the year ending December 31, 1953. East Tenn proposes to serve such new exhibits on all parties on February 1, 1954.

By telegram of January 25, 1954, East Tenn has agreed that it would not move to place the proposed rate increase filing into effect for the number of days by which the hearing is postponed.

The Commission finds: It would be in the public interest and it is necessary and appropriate to carry out the provisions of the Natural Gas Act to grant the postponement of the hearing as hereinafter ordered and conditioned.

The Commission orders:

(A) On motion filed by East Tennessee Natural Gas Company on January 19, 1954, the hearing in the above-entitled proceeding is postponed from February 1, 1954, to March 3, 1954.

(B) The above postponement is granted on the express understanding and undertaking on behalf of East Tenn that it will not move to place the proposed tariff sheets (First Revised Sheets Nos. 4, 5, 7, and 8 of East Tenn's Gas Tariff, Second Revised Volume No. 1) into effect prior to May 15, 1954, or until such further time as said tariff sheets may be made effective in the manner prescribed by the Natural Gas Act.

(C) East Tenn, on or before February 1, 1954, shall serve upon all parties, copies of all exhibits proposed to be offered by it at the hearing, including five (5) copies upon Commission Staff Counsel.

(D) In all other respects, the order suspending the revised tariff sheets in this proceeding, issued November 13, 1953, shall remain in full force and effect.

Adopted: January 27, 1954.

Issued: January 27, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3183]

PENNSYLVANIA GAS CO.

NOTICE OF FILING REGARDING INCREASE IN AUTHORIZED CAPITAL STOCK AND AUTHORIZED INDEBTEDNESS AND ORDER MAKING EFFECTIVE DECLARATION REGARDING PROXY MATERIAL

JANUARY 27, 1954.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to sections 7 and 12 of the Public Utility Holding Company Act of 1935 and Rules U-23 and U-62 promulgated thereunder, by Pennsylvania Gas Company ("Pa. Gas"), a subsidiary public-utility company of National Fuel Gas Company ("National Fuel"), a registered holding company.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Pa. Gas proposes, at a special meeting of its stockholders to be held February 23, 1954, to (a) increase its authorized no par value capital stock from 576,000 shares to 700,000 shares, and (b) to increase its authorized indebtedness from $6,000,000 to $8,000,000. Proposed proxy solicitation material for said meeting has been filed pursuant to Rule U-62 and Pa. Gas proposes to mail the same promptly after the Commission enters its order so authorizing. All of said 576,000 shares of stock are presently outstanding and National Fuel owns 356,931 shares (61.97 percent) thereof. Pa. Gas' outstanding long-term indebtedness amounts to $5,450,000 all of which is held by National Fuel. If the proposed increases in authorized capital stock and authorized indebtedness are approved by the stockholders, Pa. Gas intends, during 1954 and subject to the approval of the various regulatory bodies having jurisdiction, (a) to issue, pursuant to the preemptive rights of the stockholders, an amount not exceeding 48,000 shares of the 124,000 newly authorized shares of stock, and (b) to issue and sell to National Fuel installment promissory notes not to exceed an aggregate principal amount of $1,500,000. It is stated that National Fuel will agree to exercise its preemptive right and will agree to purchase, at the original subscription price, any shares not purchased by the other stockholders after their subscription rights have expired. The issuance and sale of such additional stock and notes will be the subject of future filings with this Commission.

Pa. Gas requests that the Commission's order or orders to be entered herein become effective upon issuance and Pa. Gas further requests that the Commission accelerate the effectiveness of its declaration under Rule U-62 so that the solicitation material may be transmitted to stockholders by January 28, 1954.

Notice is further given that any interested person may, not later than February 16, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held in connection with the proposed increase in the authorized stock and indebtedness, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said proposals which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after February 16, 1954, the declaration with respect to such proposals, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the Rules and Regulations promulgated under the act, or the Commission may exempt the transactions as provided in Rules U-20 (a) and U-100 thereof.

It appearing to the Commission that Pa. Gas' request for acceleration of the effectiveness of its declaration under Rule U-62 should be granted:

It is ordered, That the declaration regarding the proxy solicitation material, filed pursuant to Rule U-62, be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-670; Filed, Feb. 1, 1954; 8:47 a. m.]

INTERSTATE COMMERCE COMMISSION

[No. 31438]

NEW YORK, NEW HAVEN AND HARTFORD RAILROAD CO.

INCREASED COMMUTATION FARES

JANUARY 27, 1954.

By petition dated December 30, 1953, The New York, New Haven and Hartford Railroad Company requests this Commission to authorize it to establish and maintain, interstate between points on its lines in the States of New York, Connecticut, Rhode Island, and Massachusetts, and intrastate between points on its lines in the State of New York, in lieu of the present 60-ride unrestricted and 46-ride restricted monthly commutation fares, unrestricted and restricted (not good on Saturdays, Sundays, or holidays) calendar month commutation fares, made 33⅓ percent higher than the present fares, all such fares advanced to end in 0 or 5.

The Commission is further asked to modify its order of September 5, 1947, in Docket No. 29678, Increased Passenger Fares—New Haven Railroad, 269 I. C. C. 87, in its order of October 9, 1950, in No. 30010, New York State Commutation Fares, New Haven Railroad, 279 I. C. C. 151, sufficiently to permit the establishment and maintenance of the proposed increased fares.

The petition above described has been docketed as No. 31438, Increased Commutation Fares—New Haven Railroad, and will be assigned for hearing at times and places to be hereafter fixed.

In the meantime, in accordance with Rule 68 of the general rules of practice, a prehearing conference will be held before Commissioner Arpaia and Examiner Fuller on March 3, 1954, at 9:30 o'clock a. m., U. S. s. t., at the offices of the Public Service Commission, 233 Broadway, New York, N. Y., for the purpose of considering:

(1) The simplification of issues;

(2) The possibility of making admissions of certain averments of fact or stipulations concerning the use by the parties of matters of public record, such as annual reports and the like, to the end of avoiding the unnecessary introduction of proof;

(3) The procedure at the hearings and their times and places;

(4) The limitation of the number of witnesses;

(5) The propriety of prior mutual exchange among the parties of prepared testimony and exhibits;

(6) The nature and scope of any cost evidence to be presented;

(7) A traffic survey, by station and type of ticket, showing the effect of prior increases on the commutation travel; and

(8) Such other matters as may aid in the simplification of the evidence and disposition of the proceeding.

A copy of this notice has, on the date hereof, been sent by regular mail to the said petitioner, the Governors and the rate regulatory authorities of the States of New York, Connecticut, Rhode Island, and Massachusetts, and parties of record to Dockets Nos. 29678 and 30010, and other parties who have expressed an interest in this matter, and at the same time copies have also been posted in the office of the Secretary of the Commission at Washington, D. C., and filed with the Director, Division of Federal Register, Washington, D. C.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO226-A3]

PART 925—MILK IN THE PUGET SOUND, WASHINGTON, MILK MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED

§ 925.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, and of the previously issued amendments thereto and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this amendatory order effective February 1, 1954. Such action is necessary in the public interest in order to reflect current marketing conditions and to insure the orderly marketing of available milk supplies. Accordingly, any further delay in the effective date of this order amending the order, as amended, will seriously impair the orderly marketing of milk in the Puget Sound, Washington, marketing area. The provisions of the said amendatory order are well known to handlers and producers the public hearing having been held on August 10-11, 1953 and a

Part 17 — 620

final decision on the amendment provisions having been issued January 22, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be contrary to the public interest to delay the effective date of this amendatory order for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order amending the order) of more than 50 percent of the volume of the milk covered by this order amending the order, as amended, which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the policy of the act, of advancing the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who during the determined representative period (October 1953) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Puget Sound, Washington, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete § 925.14 and substitute therefor the following:

§ 925.14 *Other source milk.* "Other source milk" means (a) all skim milk and butterfat received from a producer-handler (or the plant of a producer-handler) in any form (including bottled products), and (b) all other skim milk and butterfat other than in (1) producer milk, and (2) milk and milk products in any of the forms specified in § 925.41 (a) (1) received from fluid milk plants and country plants.

2. Delete § 925.18 and substitute therefor the following:

§ 925.18 *Base milk.* "Base milk" means milk delivered by a producer during the month which is not in excess of (a) his daily base computed pursuant to § 925.60 (a) multiplied by the number of days of delivery in such month, or (b) his base computed pursuant to § 925.60 (b): *Provided*, That with respect to any producer on "every-other-day" delivery to a fluid milk plant or country plant, the days of non-delivery shall be considered as days of delivery for the purposes of this section and of § 925.60 (a).

3. Delete the language of § 925.30 preceding paragraph (a) of such section and substitute therefor the following:

§ 925.30 *Monthly reports of receipts and utilization.* On or before the 8th day of each month and in the detail and on forms prescribed by the market administrator, each person who is a handler pursuant to § 925.15 (a), except a producer-handler, shall submit to the market administrator a separate report for each of such handler's fluid milk plants, country plants, and plants where milk or milk products subject to payments required under § 925.70 (b) were handled, and each cooperative association which is a handler pursuant to § 925.15 (b) shall submit to the market administrator a report with respect to milk diverted on its account, containing the following information for the preceding month.

3a. Add the following as § 925.44 (a) (5):

(5) Notwithstanding the prior provisions of this paragraph any such skim milk and butterfat caused to be moved in bulk by a handler during any month from any fluid milk plant or country plant either by transfer or without being received therein to a fluid milk plant in which facilities are maintained and used during the same month to receive milk or milk products required by applicable health authority regulations to be kept physically separate from milk qualified as described in § 925.12 shall be deemed to have been transferred by such handler to a country plant and shall be classified in accordance with the provisions of paragraph (b) of this section.

4. Delete § 925.44 (a) (4) and substitute therefor the following:

(4) If at a fluid milk plant any receipts of skim milk or butterfat from any fluid milk plant(s) or country plant(s) located in District No. 1 or in the counties of Kitsap or Mason are assigned to Class II milk, they shall be allocated to the uses stated in § 925.54 (a) insofar as such uses are available at the transferee plant after allocating to such uses the other source milk at such plant; and

4a. Delete § 925.44 (b) (1) and substitute therefor the following:

(1) The skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the transferee plant after the subtraction pursuant to § 925.45 (b) (2) of other source milk at such plant and after the subtraction of producer shrinkage classified as Class II milk pursuant to § 925.41 (b) (4), and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk;

5. Delete § 925.44 (b) (4) and substitute therefor the following:

(4) If at a country plant any receipts of skim milk or butterfat from any fluid milk plant(s) or country plant(s) located in District No. 1 or in the counties of Kitsap and Mason are assigned to Class II milk, they shall be allocated to the uses stated in § 925.54 (a) insofar as such uses are available at the transferee plant after allocating to such uses the other source milk at such plant; and

5a. Add the following as § 925.44 (b) (5):

(5) Notwithstanding the prior provisions of this paragraph, any such skim milk and butterfat caused to be moved in bulk by a handler during any month from any fluid milk plant or country plant without being received therein to a country plant in which facilities are maintained and used during the same month to receive milk or milk products required by applicable health authority regulations to be kept physically separate from milk qualified as described in § 925.12 shall be deemed to have been transferred by such handler to a country plant and shall be classified in accordance with the provisions of this paragraph.

5b. Delete § 925.44 (c) (2) and substitute therefor the following:

(2) As Class II milk if the transfer is to a nonpool plant located in the marketing area or within any of the counties of Clallam, Jefferson, Grays Harbor, Island, Kitsap and Mason, in the State of Washington, which is not engaged in the distribution of milk for consumption in fluid form: *Provided*, That if such nonpool plant disposes of skim milk or butterfat in any of the forms specified in § 925.41 (a) (1) to any other nonpool plant distributing milk in fluid form which is not located in the marketing area, such disposition up to the quantity of producer milk transferred to the first nonpool plant shall be classified as Class I milk: *Provided further*, That if the preceding proviso does not apply the transferred quantity shall be allocated to uses other than those covered by § 925.54 (a) (1) to the extent that such other Class II milk uses are available at such nonpool plant: *And provided also*, That if the market administrator is not permitted to audit the records of such nonpool plant for the purpose of use verification, the entire transfer shall be classified as Class I milk.

6. Delete § 925.45 (a) and substitute therefor the following:

(a) Correct for mathematical and for other obvious errors the monthly report submitted by such handler and compute the total pounds of skim milk and butterfat in each class: *Provided*, That when

nonfat milk solids derived from nonfat dry milk solids, condensed skim milk, or any other product condensed from skim milk, are utilized by such handler either (1) to fortify (or as an additive to) fluid milk, flavored milk, skim milk or any other milk product, or (2) for disposition in reconstituted form as skim milk or a milk drink, the total pounds of skim milk computed for the appropriate class of use shall reflect a volume equivalent to the skim milk used to produce such nonfat milk solids.

7. Delete in § 925.52 (a) the figure "1.25" and substitute therefor the figure "1.2."

8. Delete § 925.54 (a) and substitute therefor the following:

(a) Compute the sum (in pounds) of: (1) The total utilization at such plant (including any disposition of skim milk and butterfat from such plant for similar uses at nonpool plants) of skim milk and butterfat, respectively, in evaporated milk in hermetically sealed cans, butter, nonfat dry milk solids, powdered whole milk, all cheeses except "baker's," "pot," cottage (including that creamed), cream and neufchatel, and shrinkage allowable as Class II milk pursuant to § 925.41 (b) (4) and (5), and (2) the total quantity of skim milk and butterfat transferred to other fluid milk plants and country plants located in District No. 1 or in the counties of Kitsap and Mason and allocated to the uses specified in subparagraph (1) of this paragraph (as provided in § 925.44 (a) (4) and (b) (4));

9. Delete § 925.60 (a) and (b) and substitute therefor the following:

(a) The daily base of each producer whose milk was received by a handler(s) on not less than one hundred twenty (120) days during the months of August through December, inclusive, shall be an amount computed by dividing such producer's total pounds of milk delivered in such five-month period by the number of days from the date of his first delivery to the end of such five-month period. The base so computed, which shall be recomputed each year, shall become effective on the first day of February next following and shall remain in effect through the month of January of the next succeeding year.

(b) Any producer who is not eligible to receive a base computed pursuant to paragraph (a) of this section, shall have, beginning with February 1954, a monthly base computed by multiplying his deliveries to a handler(s) during the month by the appropriate monthly percentage in the following table:

January	75	July	55
February	70	August	65
March	65	September	75
April	55	October	75
May	45	November	80
June	50	December	80

10. Delete § 925.61 and substitute therefor the following:

§ 925.61 *Base rules.* The following rules shall be observed in determination of bases:

(a) A base may be transferred upon written notice to the market administrator on or before the last day of the month of transfer, but under the following circumstances only: If a producer sells, leases, or otherwise conveys his herd to another producer, the latter may receive the transferor's base, unless earned under § 925.60 (b), pursuant to the conveyance and utilize such base until February 1 next following the date of conveyance, subject to the following conditions:

(1) Such base shall apply to deliveries of milk by the transferee producer from the same farm only;

(2) If such conveyance takes place subsequent to August 1 of any year, all milk delivered to a handler(s) between August 1 and December 31, inclusive, from the same farm (whether by the transferor or transferee producer) shall be utilized, pursuant to § 925.60 (a), in computing the base of the transferee producer to become effective the next February 1; and

(3) It is established to the satisfaction of the market administrator that the conveyance of the herd was bona-fide and not for the purpose of evading any provision of this subpart.

(b) A producer who ceases deliveries to a fluid milk plant or country plant for more than 45 days shall lose his base if computed pursuant to § 925.60 (a) and if he resumes deliveries to such a plant he shall be paid on a base determined pursuant to § 925.60 (b) until he can establish a new base under § 925.60 (a) to begin the next February 1.

(c) By notifying the market administrator in writing on or before the 15th day of any month, a producer holding a base established pursuant to § 925.60 (a) may relinquish such base by cancellation, and effective from the first day of the month in which notice is received by the market administrator until the next February 1 such producer's base shall be computed in the manner provided by § 925.60 (b).

(d) As soon as bases computed by the market administrator are allotted, notice of the amount of each producer's base shall be given by the market administrator to the handler receiving such producer's milk and to the cooperative association of which the producer is a member. Each handler, following receipt of such notice, shall promptly post in a conspicuous place at each of his plants a list or lists showing the base of each producer whose milk is received at such plant.

(e) If a producer operates more than one farm he shall establish a separate base with respect to producer milk delivered from each such farm.

(f) Only producers as defined in § 925.12 may establish or earn a base pursuant to the provisions of § 925.60, and only one base shall be allotted with respect to milk produced by one or more persons where the land, buildings, and equipment used are jointly owned or operated.

11. Delete that portion of § 925.70 (a) prior to subparagraph (1) of such paragraph and substitute therefor the following:

(a) Except as provided in paragraph (b) of this section, the total value of milk received during any month at each plant by each handler, including a cooperative association, shall be a sum of money computed by the market administrator as follows:

12. Delete § 925.70 (a) (6) and (b) and substitute therefor the following:

(6) Add, with respect to other source milk (including overage allocated to other source milk) received at each fluid milk plant and country plant of such handler in excess of the total volume of his Class II milk (except allowable shrinkage) at such plant, an amount computed by multiplying the hundredweight of such other source milk by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and in the case of a fluid milk plant or country plant not located in District No. 1, or in the counties of Kitsap or Mason, such difference shall be reduced as follows: 50 cents at any such plant located in Clallam County or Jefferson County; and 40 cents at any other plant not located in District No. 1 or in the counties of Kitsap or Mason.

(b) The value of milk of each handler at any plant where only other source milk was received and from which, during the month, some other source milk was disposed of within the marketing area as Class I milk pursuant to § 925.41 (a) (1) shall be a sum of money computed by the market administrator by multiplying the hundredweight of such other source milk so disposed of by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and, in the event disposition within the marketing area was only within Districts Nos 2 or 3, such difference shall be reduced by 40 cents per hundredweight.

13. Delete § 925.80 (b) and substitute therefor the following:

(b) On or before the 17th day after the end of each month each handler shall pay to each cooperative association which operates a fluid milk plant or country plant, for skim milk and butterfat received from such cooperative association during such month, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class (pursuant to § 925.41) by the class price taking into account any location adjustment, as provided by §§ 925.53 and 925.54, applicable at the plant at which payment for such skim milk and butterfat is required under the provisions of § 925.70.

14. Delete § 925.81 (b) and substitute therefor the following:

(b) 25 cents per hundredweight shall be added to the uniform price for excess milk received from producers at plants located in District No. 1 or in the counties of Kitsap and Mason.

15. Delete § 925.87 (a) and substitute therefor the following:

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than with respect to milk of such handler's own production) pursuant to § 925.80 (a), shall make a deduction of 5 cents per hundredweight of milk, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association;

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association; and

(3) All milk received at a plant operated by a cooperative association(s) from producers who are members thereof but for whom any of the services set forth below in this paragraph is not being performed by such association(s), as determined by the market administrator.

Such deduction shall be paid by the handler to the market administrator on or before the 15th day after the end of the month. Such moneys shall be expended by the market administrator for the verification of weights, sampling, and testing of milk received from producers and in providing for market information to producers; such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 29th day of January 1954, to be effective on and after the 1st day of February 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-735; Filed, Feb. 2, 1954; 8:54 a. m.]

PART 941—MILK IN THE CHICAGO, ILLINOIS, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISION

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended regulating the handling of milk in the Chicago, Illinois, marketing area, hereinafter referred to as the "order" it is hereby found and determined that:

For the month of February 1954, the provision "and subtract therefrom the amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 12-month period" in § 941.51 (b), does not tend to effectuate the declared policy of the act.

It is hereby found and determined that notice of proposed rule making and public procedure thereon in connection with the issuance hereof is impracticable, unnecessary and contrary to the public interest, in that (1) the information upon which this action is based did not become available in sufficient time for such compliance; (2) the issuance of this suspension order effective as set forth below is necessary to reflect current marketing conditions and to facilitate, promote and maintain the orderly marketing of milk produced for the said marketing area; and (3) this suspension action is necessary to avoid a level of the uniform price in certain parts of the milkshed below the Class IV price. The changes caused by this suspension order do not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective immediately.

It is therefore ordered, That the following provision of the order is hereby suspended for the month of February 1954:

In § 941.51 (b) the provision "and subtract therefrom the amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 12-month period".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 29th day of January 1954, to be effective February 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-733; Filed, Feb. 2, 1954; 8:53 a. m.]

PART 949—MILK IN THE SAN ANTONIO, TEXAS, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 949.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agriculture Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the San Antonio, Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as amended and as hereby further amended, and all of the terms and conditions of said order as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order, as amended, effective at the earliest possible date. Any delay in the effective date of this order would result in disorder in the marketing of milk. Because of the excessive disparity in the Class I prices as between the North Texas and San Antonio marketing areas, milk from the North Texas market threatens to displace producer milk in San Antonio. Provision must be made therefore, at the earliest possible time, for limiting the difference between the Class I price to 50 cents per hundredweight which approximates the transportation costs between the markets. Most handlers in the San Antonio, Texas, market are unable to process milk in excess of that required to carry on their fluid milk operations. Unless provision is made for lower prices on milk that must be transferred to outlets for manufacture into cheddar cheese, handlers may refuse to accept substantial quantities from producers as production increases seasonally. The producers' cooperative association has no facilities for handling milk. In order to provide an outlet for this milk and stabilize the market, it is necessary to make this amendment effective at once.

Since this order reduces prices handlers are required to pay for milk disposed of for use in cheddar cheese, it tends to relieve restrictions imposed upon handlers with respect to such milk. Thus, changes effected by this order should not require extensive preparation or substantial alteration in method of operation for handlers. It is hereby found, therefore, that good cause exists for making this order effective February 1, 1954. (Sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the San Antonio, Texas marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (December 1953), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the San Antonio, Texas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended effective February 1, 1954, and as hereby further amended, as follows:

1. Amend § 949.51 (b) to read as follows:

(b) Adjust the price calculated pursuant to paragraph (a) of this section so that it does not exceed the price calculated pursuant to paragraph (e) of this section by less than $2.00 for each month or more than $2.50 for each of the months of April, May, and June and $2.70 for each of the other months.

2. Delete § 949.51 (c).

3. Amend § 949.51 (d) by adding thereto the following: "The provisions of this paragraph shall operate only to the extent that the difference between the Class I price pursuant to the order, as amended, regulating the handling of milk in the North Texas marketing area (Part 943 of this chapter) and the Class I price pursuant to this section shall not be greater than $0.50."

4. Amend § 949.53 by inserting immediately preceding paragraph (a) thereof the following proviso: "*Provided*, That from the effective date of this proviso through July 1954 the price for Class II milk disposed of for use in cheese other than cottage cheese shall be the simple average of the prices paid dairy farmers for milk containing 4 percent of butterfat delivered during the month for which prices are being computed to cheese plants located at Alice and Round Rock, Texas, and operated by the Fort Worth Poultry and Egg Company."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. [illegible])

Issued at Washington, D. C., this 29th day of January 1954, to be effective on and after February 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-736; Filed, Feb. 2, 1954; 8:54 a. m.]

PART 967—MILK IN THE SOUTH BEND-LA PORTE, INDIANA, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISION

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended, regulating the handling of milk in the South Bend-LaPorte, Indiana, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

For the month of February 1954, the provision "and subtract therefrom the amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 12-month period" in § 967.51 (d) (2), does not tend to effectuate the declared policy of the act.

It is hereby found and determined that notice of proposed rule making and public procedure thereon in connection with the issuance hereof is impractical, unnecessary and contrary to the public interest, in that (1) the information upon which this action is based did not become available in sufficient time for such compliance; (2) the issuance of this suspension order effective as set forth below is necessary to reflect current marketing conditions and to facilitate, promote and maintain the orderly marketing of milk produced for said marketing area, and (3) this suspension is necessary in connection with a similar suspension order affecting the order regulating the handling of milk in the Chicago, Illinois, marketing area, so as to preserve existing price relationships in the two markets.

The changes caused by this suspension order do not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective immediately.

It is therefore ordered, That the following provision of the order is hereby suspended for the month of February 1954:

In § 967.51 (d) (2) the provision "and subtract therefrom the amount of Class II milk represented by frozen cream and plastic cream moving into storage during such 12-month period".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. [illegible])

Done at Washington, D. C., this 29th day of January 1954 to be effective February 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-737; Filed, Feb. 2, 1954; 8:55 a. m.]

PART 982—MILK IN THE CENTRAL WEST TEXAS MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 982.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agriculture Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Central West Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as amended and as hereby further amended, and all of the terms and conditions of said order as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order, as amended, effective at the earliest possible date. Any delay in the effective date of this order would result in disorder in the marketing of milk. Most handlers in the Central West Texas market are unable to process milk in excess of that required to carry on their fluid milk operations. Unless provision is made for lower prices on milk that must be transferred to outlets for manufacture into cheddar cheese, handlers may refuse to accept substantial quantities from producers as production increases seasonally. The producers' cooperative association has no facilities for handling milk. In order to provide an outlet for this milk and stabilize the market, it is necessary to make this amendment effective at once.

Since this order reduces prices handlers are required to pay for milk disposed of for use in cheddar cheese, it tends to relieve restrictions imposed upon handlers with respect to such milk. Thus, changes effected by this order should not require extensive preparation or substantial alteration in method of operation for handlers. It is hereby found, therefore, that good cause exists for making this order effective February 1, 1954. (Sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Central West Texas marketing area of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (December 1953), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Central West Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. Amend § 982.51 by inserting immediately preceeding paragraph (a) thereof the following: "*Provided*, That from the effective date of this proviso through July 1954, the minimum price per hundredweight for Class II milk disposed of for use in cheddar cheese shall be computed by multiplying the simple average of the daily prices paid per pound, using the midpoint of any price range as one price, for Wisconsin State Brand Cheddar in cars or truckloads, f. o. b. Wisconsin assembly points, as reported by the Department for the trading days during the month for which prices are being computed, by 8.0."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 29th day of January 1954, to be effective on and after February 1, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Reg. No. SR-385C]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

PART 45—COMMERCIAL OPERATOR CERTIFICATION AND OPERATION RULES

PART 61—SCHEDULED AIR CARRIER RULES

SPECIAL CIVIL AIR REGULATION; DELEGATION OF AUTHORITY TO THE ADMINISTRATOR TO PERMIT AIR CARRIERS UNDER CONTRACT TO THE MILITARY SERVICES TO DEVIATE FROM CERTAIN CIVIL AIR REGULATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 29th day of January 1954.

Special Civil Air Regulation SR-385B currently delegates to the Administrator authority to permit deviations from certain parts of the Civil Air Regulations to air carriers under contract to the military services. This regulation became effective October 1, 1953, extending until February 1, 1954, the same authority that had been previously granted to the Administrator. The extension granted by SR-385B was for the purpose of permitting a re-evaluation of the problem involved.

On November 5, 1953, a notice of proposed rule making was published in the FEDERAL REGISTER (18 F. R. 6998) in which it was proposed to continue the authority as was previously delegated to the Administrator and to permit such authority also to apply to an emergency necessitating the transportation of persons or supplies for the protection of life or property. The proposed rule, however, also provided for a review by the Board of any deviations that continued in effect for more than 90 days. Some comment received in response to this proposed rule felt that there was at present permanent need for this deviation authority and that the deviations granted should not be subject to review. Other comment indicated that the urgency for this deviation authority necessitated by the Korean airlift has passed and that there was no further need for this regulation. The Department of Defense, however, has stated that there is a continuing need for this deviation authority.

The Board feels that although the demand for the proposed deviation authority is not as great as during the most active periods of the Korean airlift, there is still a need for delegating deviation authority to the Administrator. While this deviation authority is perhaps not as widely used now as previously, it is difficult to predetermine the time at which an emergency may arise for which immediate action becomes necessary. In such an event, it would then be necessary that the Administrator be able to permit deviations from the Civil Air Regulations without any delay. For these reasons, this regulation continues the deviation authority currently delegated to the Administrator. To allay the fears, however, of those who feel that there is no current need for such authority or that the authority may be abused, this regulation also provides that no deviation authority may continue in effect for more than 90 days unless notice is transmitted to the Board. If this notice is transmitted to the Board, however, the deviation authority may continue for more than the 90-day period unless otherwise changed by the Board. Thus, any prolonged deviation will be reviewed by the Board.

In addition to the foregoing deviation authority, this regulation also delegates to the Administrator authority to grant deviations from the Civil Air Regulations in the event of any emergency or disaster requiring the transportation of persons or supplies. This delegation of authority is considered desirable. In such instances, immediate action may be required which necessitates a deviation from the Civil Air Regulations, it is considered that permission to deviate in such cases can best be handled by the Administrator.

This regulation shall continue in effect for one year, at the end of which time these problems and the effectiveness of the procedures provided in this regulation will be re-examined for the purpose of considering the incorporation of the substance of these rules in the operating parts of the Civil Air Regulations.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and consideration has been given to all relevant matter presented. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation effective February 1, 1954:

1. Contrary provisions of the Civil Air Regulations notwithstanding, the Administrator may, upon application by an air carrier, authorize an air carrier under contract to the military services, or an air carrier furnishing civil aircraft or flight crews to another air carrier for use in operations conducted pursuant to a contract with the military services, or an air carrier proposing to conduct operations under conditions of an emergency necessitating the transportation of persons or supplies for the protection of life or property, to deviate from the applicable provisions of Parts 40 (including revised Part 40), 41, 42, 45, and 61 to the extent that he finds upon investigation a deviation from those regulations is necessary for the expeditious conduct of such operations.

2. Any deviation authority granted by the Administrator pursuant to this regu-

lation shall be limited to those operations conducted pursuant to military contracts or an emergency as determined by the Administrator and shall not be applicable to any other type of operation.

3. The Administrator shall, in any authorization granted pursuant to this regulation, specify the terms, conditions, and limitations of the authorization of deviation and each carrier shall, in the conduct of operations pursuant to military contracts or a declared emergency, comply with such terms, conditions, and limitations.

4. Grants of deviation authority hereunder for periods of 90 days or less will not be reviewed by the Board. Grants of deviation authority for a term in excess of 90 days or which in the aggregate will exceed a term of 90 days shall be subject to review by the Board, and the Administrator shall give notice of the issuance thereof to the Board as soon as it becomes apparent that the authorization is to be for more than 90 days in the aggregate. Any such long-term authorization, unless sooner revoked or rescinded by the Administrator, shall continue in effect for 90 days, and thereafter unless and until the Board or the Administrator determines that such deviation authority should not be continued. Authorizations for deviations in existence on the effective date of this regulation, if they are to be continued in effect for a period of more than 90 days after the effective date hereof, shall be subject to Board review in the same manner and with like effect as in the case of an authorization of more than 90 days issued hereunder.

This regulation supersedes Special Civil Air Regulation SR–385B and shall terminate February 1, 1955, unless sooner superseded or rescinded.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601, 604; 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6140]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

GEORGE'S RADIO AND TELEVISION COMPANY, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.55 *Demand, business or other opportunities;* § 3.90 *History of product or offering;* § 3.155 *Prices:* Exaggerated as regular and customary; savings and discounts subsidized; usual as reduced, special, etc.; § 3.200 *Sample, offer or order conformance;* § 3.205 *Scientific or other relevant facts.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.2015 *Opportunities in product or service;* § 3.2060 *Sample, offer or order conformance;* § 3.2063 *Scientific or other relevant facts.* In connection with the offering for sale, sale or distribution of home freezers and television sets in commerce, representing directly or by implication: (1) That participants in a food purchasing plan can buy food at wholesale prices or from a wholesaler, contrary to the fact; (2) that over-all monetary savings can be effected through the general use of frozen foods in place of corresponding foods in other forms; (3) that substantial over-all reductions in food costs will be effected through participation in a food purchasing plan; (4) that net monetary savings, however expressed, can be effected through the use of freezers purchased from respondents, unless the costs of operation, maintenance and depreciation and, in the event that the freezer is purchased on credit, the costs of such credit, are taken into account; (5) that television sets which are not of the current year's model are new, through the use of such terms as "Brand-New" or any other terms which describe said sets as new, unless the year in which said sets were current models is disclosed; (6) as the usual price of television sets, any price or value which is in excess of the price at which said sets were customarily offered for sale and sold by respondents in the recent regular course of their business; (7) that the price at which respondents' television sets are offered is lower by 50 percent or any other designated percentage, than the usual price at which said sets were customarily offered for sale and sold by respondents in the recent regular course of their business; and (8) that television sets are being offered for sale when such offer is not a genuine and bona fide offer to sell the sets so offered; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, George's Radio and Television Company, Inc., et al., Washington, D. C., Docket 6140, December 22, 1953.]

In the Matter of George's Radio and Television Company, Inc., a Corporation, and George Wasserman, Leopold Freudberg, Solomon Grossberg, and Phillip Keller, Individually

This proceeding was instituted by complaint which charged respondents with the use of unfair and deceptive acts and practices in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice", dated December 28, 1953, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on December 22, 1953, and ordered entered of record as the Commission's findings as to the facts, conclusion, and order in disposition of this proceeding.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

Said order to cease and desist, thus entered of record, following the findings as to the facts[1] and conclusion,[1] reads as follows:

It is ordered, That respondents, George's Radio and Television Company, Inc., a corporation, and its officers, and George Wasserman and Phillip Keller, individually, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of home freezers and television sets in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing directly or by implication:

1. That participants in a food purchasing plan can buy food at wholesale prices or from a wholesaler, contrary to the fact.

2. That over-all monetary savings can be effected through the general use of frozen foods in place of corresponding foods in other forms.

3. That substantial over-all reductions in food costs will be effected through participation in a food purchasing plan.

4. That net monetary savings, however expressed, can be effected through the use of freezers purchased from respondents, unless the costs of operation, maintenance and depreciation and, in the event that the freezer is purchased on credit, the costs of such credit, are taken into account.

5. That television sets which are not of the current year's model are new, through the use of such terms as "Brand-New" or any other terms which describe said sets as new, unless the year in which said sets were current models is disclosed.

6. As the usual price of television sets, any price or value which is in excess of the price at which said sets were customarily offered for sale and sold by respondents in the recent regular course of their business.

7. That the price at which respondents' television sets are offered is lower by 50 percent or any other designated percentage, than the usual price at which said sets were customarily offered for sale and sold by respondents in the recent regular course of their business.

8. That television sets are being offered for sale when such offer is not a genuine and bona fide offer to sell the sets so offered.

It is further ordered, That respondents, George's Radio and Television Company, Inc., and George Wasserman and Phillip Keller, individually, shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied therewith.

It is further ordered, That the complaint be, and it hereby is, dismissed as to the respondents Leopold Freudberg and Solomon Grossberg, individually.

[1] Filed as part of original document.

Issued: December 28, 1953.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, Jr., *Secretary.*

[Docket No. 4878]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

ORDER DISPOSING OF MOTIONS FOR MODIFICATION OR SETTING ASIDE OF FINDINGS AS TO THE FACTS, CONCLUSION, AND ORDER TO CEASE AND DESIST; MODIFYING ORDER TO CEASE AND DESIST AND DISMISSING COMPLAINT AS TO RESPONDENT, FRANK A. BOND

In the matter of Chain Institute, Inc., an incorporated trade association, its directors, officers, and members; et al.

This matter came on to be heard by the Commission upon the application and motion, with supporting affidavits and memorandum, for modification or setting aside of the findings as to the facts, conclusion, and order to cease and desist, filed by respondents Chain Institute, Inc., American Chain & Cable Company, Inc., The Bridgeport Chain & Manufacturing Company, The McKay Company, Hodell Chain Company, St. Pierre Chain Corporation, S. G. Taylor Chain Company, Cleveland Chain & Manufacturing Company, Campbell Chain Company, Nixdorff-Krein Manufacturing Company, Peerless Chain Company, Round California Chain Company, The John M. Russell Manufacturing Company, Inc., Seattle Chain & Mfg. Company, Turner & Seymour Manufacturing Company, Western Chain Products Company, Woodhouse Chain Works, Dennis A. Merriman, Wm. D. Kirkpatrick, and George J. Campbell, Jr.; the motion, with supporting affidavit, to vacate or modify the findings as to the facts, conclusion, and order to cease and desist, filed by respondent Columbus McKinnon Chain Corporation; answer to said motions filed by counsel supporting the complaint; and reply to said answer filed by certain of the respondents.

The Commission having duly considered the motions filed by certain of the respondents herein for the setting aside or modification of the findings as to the facts, conclusion, and order to cease and desist, and the requests for permission to file briefs and to be heard in oral argument on such motions, answer of counsel supporting the complaint, reply by certain of the respondents, and pertinent portions of the record, and being of the opinion, for the reasons appearing in the accompanying opinion of the Commission, that said motions and requests are without merit except for the request that the complaint be dismissed as to respondent Frank A. Bond:

It is ordered, That the application and motion for modification or setting aside of the findings as to the facts, conclusion, and order to cease and desist, filed by respondents Chain Institute, Inc., American Chain & Cable Company, Inc., The Bridgeport Chain & Manufacturing Company, The McKay Company, Hodell Chain Company, St. Pierre Chain Corporation, S. G. Taylor Chain Company, Cleveland Chain & Manufacturing Company, Campbell Chain Company, Nixdorff-Krein Manufacturing Company, Peerless Chain Company, Round California Chain Company, The John M. Russell Manufacturing Company, Inc., Seattle Chain & Mfg. Company, Turner & Seymour Manufacturing Company, Western Chain Products Company, Woodhouse Chain Works, Dennis A. Merriman, Wm. D. Kirkpatrick, and George J. Campbell, Jr., and the motion to vacate or modify the findings as to the facts, conclusion, and order to cease and desist, filed by respondent Columbus McKinnon Chain Corporation, and the requests for permission to file briefs and to be heard in oral argument on said motions, be, and they hereby are, denied except for the request that the complaint be dismissed as to respondent Frank A. Bond.

It is further ordered, That the order to cease and desist heretofore entered in this matter be, and it hereby is, modified by striking therefrom Frank A. Bond as a respondent against whom said order was directed.

It is further ordered, That the amended complaint herein be, and it hereby is, dismissed as to respondent Frank A. Bond.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45)

Issued: December 28, 1953.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr., *Secretary.*

Chairman Howrey delivered the opinion of the Commission.

This is one of a number of motions, filed in recent months, to reopen and reconsider matters, previously adjudicated, upon the ground that there have been changes in the membership of the Commission.

This particular case was decided during February 1953, when the Commission was comprised of Commissioners Mead, Mason, Carson, Spingarn and Carretta, and is now pending before the United States Court of Appeals for the Eighth Circuit. Of the present Commission, Commissioner Mead is the only member who voted with the majority when the case was adjudicated on the merits. Commissioner Mason dissented. Commissioner Carretta did not participate for the reason that oral argument was heard before he became a member. Chairman Howrey and Commissioner Gwynne have not, of course, participated in any phase of the proceeding.[1]

The complaint was issued on December 22, 1942. Lengthy hearings were held before a hearing examiner and concluded in August 1948. The examiner issued a recommended decision on September 25, 1948, and an amended decision at a later date. Thereafter, an appeal was taken to the full Commission, and oral argument was heard on April 7, 1949. The case was re-argued before the Commission on September 24, 1950.

On April 20, 1953, respondents filed their petition for review with the court of appeals. However, prior to the time the record was certified to that court and following the aforementioned changes in the membership of the Commission, respondents filed the present motion asking us to reopen and reconsider a number of enumerated questions.

It appears to us that the controlling ground offered by respondents in support of the motion is this change in membership.

We are not disposed to grant a motion predicated principally upon such a ground. The Commission is an independent and continuing statutory body. The terms of its members were arranged by Congress in a manner to prevent any abrupt dislocations in the discharge of its responsibilities.

More importantly, the Commission, like the courts, operates prospectively, not retroactively. This principle is fundamental, we believe, to our system of law, both administrative and judicial. While the views of individual commissioners may differ, each is like a member of the judiciary in the sense that he customarily makes decisions on upcoming issues on a case-by-case basis. A judge appointed to fill a vacancy on the bench does not set about to reopen and retry previously adjudicated cases simply because he is a new member.

The machinery of the quasi-judicial agency, like the courts, contemplates a continuing process; it looks to current litigation, not past litigation. If our procedures were otherwise, delay and inaction would surround enforcement of the statutes committed to the Commission's jurisdiction. To grant the present motion would be to require a third review of a voluminous record made many years ago.

The principal question presented by the motion, as we see it, is whether the Commission, in prescribing a remedy in a conspiracy case, can require respondents not only to cease and desist their alleged conspiratorial activity but also to stop the individual use of certain delivered pricing methods. This is an important question and if it were not for the overriding considerations already stated, the motion might be well grounded. However, since the question of the remedy is one of law, the respondents will not be prejudiced. They will, we are certain, receive a full hearing on this question in the court of appeals.

Commissioner Mead has filed a separate opinion.[2]

Commissioner Carretta has filed a separate opinion dissenting in part and concurring in part.[2]

[F. R. Doc. 54–694; Filed, Feb. 2, 1954; 8:47 a. m.]

[1] Chairman Howrey became a member of the Commission on April 1, 1953, and Commissioner Gwynne on September 27, 1953.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter J—Procurement

[CGFR–53–48]

PART 116—PROCEDURES FOR PURCHASING

Subpart 116.01—General Provisions

PROCUREMENT AUTHORITY AND LIMITATIONS

116.01–1 Procurement authority.
116.01–2 Supplies and services defined.
116.01–3 General limitations upon the use of negotiation.
116.01–4 Certain negotiations restricted to headquarters.
116.01–5 Approval of work projects.
116.01–6 Monetary limitations.
116.01–7 Contract requirements.
116.01–8 Referral to headquarters.
116.01–9 Commercial procurement by vessels and stations.
116.01–10 Procurement against defaulting
116.01–11 Procurement of supplies and services for the CG Auxiliary.

DELEGATION OF AUTHORITY

116.01–20 Procurement responsibility.
116.01–21 Chief Officer Responsible for Procurement.
116.01–22 Contracting authority.
116.01–23 Contracting officer at Headquarters.
116.01–24 Contracting officer at field units.
116.01–25 Authorized representatives of contracting officers.
116.01–26 Conduct of procurement personnel.

METHODS OF PROCUREMENT

116.01–30 Methods of procurement defined.
116.01–31 Methods of commercial purchase employed by the Coast Guard.

SOURCES OF SUPPLY

116.01–40 Government sources of supply.
116.01–41 Mandatory sources of supply.
116.01–42 Federal Supply Service contracts.
116.01–43 Federal Supply Service ware-
116.01–44 Federal Prison Industries, Inc.
116.01–45 Post Office Department.
116.01–46 Committee on Purchase of Blind-made Products.
116.01–47 Purchase of blind-made products through Federal Supply Service.
116.01–48 Purchase of blind-made products from the National Industries for the Blind.
116.01–49 Surplus property.

PROCUREMENT OF DOMESTIC AND FOREIGN MATERIALS AND PRODUCTS

116.01–60 Statutory authority.
116.01–61 Policy regarding purchases from sources within Soviet-controlled countries or areas.
116.01–62 Terminology.
116.01–63 Action required by noncompliance by contractors.
116.01–64 Findings and action by the Secretary of the Treasury.
116.01–65 Exceptions that may be authorized by the Secretary.
116.01–66 Determination of unreasonable cost.
116.01–67 Exception of printed matter.
116.01–68 Exceptions due to availability.

POLICY TOWARD AND ASSISTANCE TO SMALL BUSINESS CONCERNS

116.01–70 Definition of small business concerns.
116.01–71 Applicability of these instructions.
116.01–72 Policy.
116.01–73 Setting opening of bid dates.
116.01–74 Daily synopsis of proposed purchases required.
116.01–75 Confirmation copy of procurement required.
116.01–76 Preparation of synopsis.
116.01–77 Effect on procurement.

CONTRACT PLACEMENT IN DISTRESSED

116.01–80 Classification of labor areas.
116.01–81 Effect on procurement.

REPORTS ON PROCUREMENT

116.01–83 Compilation of statistics as to small business concerns and negotiated contracts.
116.01–84 Outline of form of report and basis of information.
116.01–85 Statistics to be reported.
116.01–86 Method of compiling statistics.

EXCHANGE OF MATERIAL

116.01–90 Trade-in allowance.
116.01–91 Applying proceeds of sale to purchase of replacement.
116.01–92 Availability of funds.

TAXES AND TAX EXEMPTION CERTIFICATES

116.01–104 Federal taxes.
116.01–105 State and local taxes.
116.01–106 Tax exemption certificate forms.
116.01–107 Refund of taxes paid.
116.01–108 Authority to issue.
116.01–109 How to obtain certificates and identification cards.
116.01–110 Restrictions on issue of tax exemption certificates.
116.01–111 Use of a single certificate.
116.01–112 Certificate for gas or oil.
116.01–113 Separate certificate for each tax.
116.01–114 Payment voucher noted.
116.01–115 Care and safekeeping requirements.

SPECIFICATIONS

116.01–120 Specifications in general.
116.01–121 Government specifications.
116.01–122 Commercial designations.
116.01–123 Patented articles.
116.01–124 Commercial terms to be used.
116.01–125 Specific dimensions.
116.01–126 Quantity required to be shown on invitation.
116.01–127 Quantity required not known.
116.01–128 Fresh water.
116.01–129 Fuel oil.
116.01–130 Gasoline and kerosene.
116.01–131 Liquids.
116.01–132 Lumber.
116.01–133 Wood.
116.01–134 Coal.
116.01–135 Return or retention of containers.
116.01–136 Containers to remain the property of the contractor.
116.01–137 Containers to become the property of the Government.
116.01–138 Place of delivery.
116.01–139 Time of delivery.
116.01–140 When time is a controlling element—liquidated damages.
116.01–141 Item-by-item versus all-or-none award.
116.01–142 Repairs to vessels—lay days.
116.01–143 Use of nickel and nickel bearing alloys.
116.01–144 Construction and repair specifications.
116.01–145 Burial contracts.

SPECIAL PROCUREMENT INSTRUCTIONS

116.01–155 Procurement of office labor-saving devices.
116.01–156 Procurement of electric fans.
116.01–157 Procurement of refrigerators.
116.01–158 Procurement of electric water coolers.
116.01–159 Substitution of wood for steel.
116.01–160 Purchase of gasoline and lubricating oil by credit cards.
116.01–161 Procurement of paint.
116.01–162 Procurement of manila rope.
116.01–163 Procurement of morale and recreation equipment.
116.01–164 Funeral flags.

Subpart 116.02—Procurement by Formal Advertising

GENERAL

116.02–1 Meaning of formal advertising.
116.02–2 Use of formal advertising.
116.02–3 General requirements for formal advertising.

FORMS AND FORM PREPARATION

116.02–10 Preparation of invitation for bid forms.
116.02–11 Prescribed invitation for bid forms.
116.02–12 Conditions applicable to invitation for bids.
116.02–13 Eliminating unnecessary distribution of conditions.
116.02–14 Copies of proposed construction contracts required by headquarters.
116.02–15 Methods of soliciting bids.
116.02–16 Establishing competition.
116.02–17 Retention of records.
116.02–18 Amendments to invitations for bids.

DISTRIBUTION OF BIDS

116.02–40 General.
116.02–41 Manner of solicitation.
116.02–42 Qualifications of bidders.
116.02–43 Restrictions or conditions in invitations.
116.02–44 Definition of product.
116.02–45 Contractors indebted to the Government.
116.02–46 Bidders' mailing lists.
116.02–47 Debarment of bidders.

RECEIPT AND OPENING OF BIDS

116.02–55 What constitutes a bid.
116.02–56 Public opening of bids mandatory.
116.02–57 Bids to be opened at the appointed time.
116.02–58 Premature information forbidden.
116.02–59 All bids to be preserved and recorded.
116.02–60 Failure of bidder to sign bid papers.
116.02–61 Withdrawal of bids prior to opening.
116.02–62 Withdrawal of bids prohibited after opening.
116.02–63 Late bids received by mail.
116.02–64 Bids delayed in mail.
116.02–65 Attempt to gain advantage by late bids.
116.02–66 Records of late bids.
116.02–67 Late bids presented by hand.
116.02–68 Telephonic bids.
116.02–69 Telegraphic bids.
116.02–70 Bid improperly identified.
116.02–71 Recording of bids.
116.02–72 Availability of bids and records.
116.02–73 Reading bids aloud.

ACCEPTANCE OF BIDS

116.02–85 Award to the lowest bidder.
116.02–86 Where time is a controlling element.
116.02–87 Liquidated damages; computation of time.
116.02–88 Tie bids.
116.02–89 Unit prices govern.
116.02–90 Interest charges in bids.
116.02–91 Inexperience of bidder.
116.02–92 Alleged incompetency of bidder.

116.02–93 Unknown trade name or makes.
116.02–94 Splitting of award.
116.02–95 Absence of competition.
116.02–96 Only one bid received.
116.02–97 Acceptance of one bid is rejection of all others.
116.02–98 Fraudulent bids.
116.02–99 Rubber stamp signature acceptable.
116.02–100 Alternative bids.
116.02–101 Bids offering modified specifications.
116.02–102 Descriptive matter and samples.
116.02–103 Bidder's option.
116.02–104 Corrections to be explained.
116.02–105 More than one bid submitted by the same bidder.
116.02–106 Modification by bidder not permitted.
116.02–107 Modification by government not permitted.
116.02–108 Modification of bids; telegram.
116.02–109 Mistakes in bids.
116.02–110 Bidder alleges mistake.
116.02–111 Maximum prices quoted.
116.02–112 Discounts; determination of award.
116.02–113 Time limit for award.
116.02–114 Acceptance of bids in writing.
116.02–115 Forms of award.
116.02–116 Error in award.
116.02–117 Readvertisement.

CERTIFICATES OF AWARD

116.02–140 When certificates of award are required.
116.02–141 Disposition of copies.
116.02–142 Essential information to be shown.
116.02–143 Justification of unusual awards to be shown.

Subpart 116.03—Procurement by Negotiation

GENERAL

116.03–1 Definition of negotiation.
116.03–2 Need for competition.
116.03–3 Absence of competition.
116.03–4 General limitations upon the use of negotiation.
116.03–5 Certain negotiations restricted to Headquarters.
116.03–6 Determinations and findings.
116.03–7 Method of negotiation.
116.03–8 Public notices not required.
116.03–9 Public openings not required.
116.03–10 Sufficient time to be allowed for submission of quotations.
116.03–11 Oral quotations.
116.03–12 Record and report of negotiated contracts.
116.03–13 Advance payments on negotiated contracts.

FORMS AND FORM PREPARATION

116.03–20 Contract forms.
116.03–21 Solicitation of quotations.
116.03–22 Types of contracts.
116.03–23 Mandatory provisions.
116.03–24 Authority clause.

CIRCUMSTANCES PERMITTING NEGOTIATION

116.03–30 Basic authority.
116.03–31 National emergency (sec. 2 (c) (1)).
116.03–32 Public exigency (sec. 2 (c) (2)).
116.03–33 Purchases not in excess of $1,000 (sec. 2 (c) (3)).
116.03–34 Personal or professional services (sec. 2 (c) (4)).
116.03–35 Services of educational institutions (sec. 2 (c) (5)).
116.03–36 Purchases outside the United States (sec. 2 (c) (6)).
116.03–37 Medicines or medical supplies (sec. 2 (c) (7)).
116.03–38 Supplies purchased for authorized resale (sec. 2 (c) (8)).
116.03–39 Perishable subsistence supplies (sec. 2 (c) (9)).
116.03–40 Supplies or services for which it is impracticable to secure competition by formal advertising (sec. 2 (c) (10)).
116.03–41 Experimental, developmental, or research work (sec. 2 (c) (11)).
116.03–42 Classified purchases (sec. 2 (c) 12)).
116.03–43 Technical equipment standardization and interchangeability of parts (sec. 2 (c) (13)).
116.03–44 Technical or specialized supplies requiring substantial initial investment or extended period of preparation for manufacture (sec. 2 (c) (14)).
116.03–45 Negotiation after advertising (sec. 2 (c) (15)).
116.03–46 Purchases in the interest of national defense or industrial mobilization (sec. 2 (c) (16)).
116.03–47 Otherwise authorized by law (sec. 2 (c) (17)).
116.03–48 Architect-engineer professional services.

SMALL PURCHASE PROCEDURES

116.03–55 General.
116.03–56 Small purchases by district offices.
116.03–57 Purchases by units with ADO's or agent cashiers attached.
116.03–58 Purchases by units without ADO's or agent cashiers attached.

CERTIFICATES OF AWARD

116.03–70 When certificates of award are required.
116.03–71 Preparation and distribution.

Subpart 116.04—Acquisition of Real Property

ACQUISITION

116.04–1 Definition of general-purpose space.
116.04–2 Definition of special-purpose space.
116.04–3 Securing assignment of space in Government-owned buildings.
116.04–4 Acquisition of privately owned land or facilities by permit or lease.
116.04–5 Submission of proposal to lease.
116.04–6 Drafting and executing leases.
116.04–7 Numbering, distribution and filing of leases.
116.04–8 Acquisition of general-purpose and special-purpose space.
116.04–9 Definition of urban centers.
116.04–10 Cancellation of leases.

PRINCIPLES GOVERNING LEASING OF REAL

116.04–15 Background.
116.04–16 Classification of property.
116.04–17 Considerations for leasing land.
116.04–18 Considerations for leasing improved property.
116.04–19 Preliminary negotiation.
116.04–20 Leasing buildings without furnishings.
116.04–21 Physical survey required.
116.04–22 Inventory of furnishings.
116.04–23 Remodeling, repairing, and altering.
116.04–24 Damages and restoration.
116.04–25 Planning for future requirements.

AUTHORITY: §§ 116.01–1 to 116.04–25 issued under 62 Stat. 21; 41 U. S. C. 151–161.

SUBPART 116.01—GENERAL PROVISIONS

PROCUREMENT AUTHORITY AND LIMITATIONS

§ 116.01–1 *Procurement authority.* The basic authority for the procurement of supplies and services for the Coast Guard is contained in the Armed Services Procurement Act of 1947 (41 U. S. C. 151–161), hereinafter referred to as "the act."

§ 116.01–2 *Supplies and services defined.* The term "supplies" as used in this part means all property except land or interests in land. It includes by way of description and without limitation, materials, supplies, equipment, public works, buildings, facilities, ships, floating equipment, vessels of every character, type, and description, aircraft, tools, and parts and accessories for such items, and the alteration or installation of any of the foregoing. The term "services" includes by way of description and without limitation, personal or professional services of individuals or organizations; nonpersonal services; educational or training services; architectural or engineering services; maintenance or repair services; transportation; utility services; experimental, developmental, or research work; and construction work.

§ 116.01–3 *General limitations upon the use of negotiation.* No contract shall be entered into as a result of negotiation unless the contemplated procurement comes within the circumstances permitting negotiation as stated in the act and as set forth in Subpart 116.03.

§ 116.01–4 *Certain negotiations restricted to Headquarters.* The negotiation of contracts under certain circumstances require special determinations and findings by the Commandant or by the Comptroller. Accordingly, the authority to negotiate contracts under such circumstances is restricted to Headquarters as set forth in Subpart 116.03. The negotiation of such contracts shall be in accordance with the requirements of the act, and shall be governed, insofar as practicable, by the procedures established by the Armed Services Procurement Regulations.

§ 116.01–5 *Approval of work projects.* The Commandant's approval of the project or work is required prior to the execution of a contract or the work by a field unit under the following conditions:

(a) When the proposed contract involves major overhaul of aircraft and/or aircraft engines.

(b) Under the conditions prescribed by current Engineering directives.

(c) A change in or establishment of an aid to navigation.

(d) New construction or Special Fund Projects.

§ 116.01–6 *Monetary limitations.* (a) Contracts for construction projects which have previously been approved by the Commandant and contracts for emergency repairs may be executed by District Offices and Headquarters units subject only to the availability of allotted funds and without limitation on amount.

(b) Other contracts executed shall be limited to those with a value not exceeding the amounts set forth hereinafter. If in excess of such amounts, the contract shall be referred to the Commandant (FS) for execution at Headquarters or for subsequent execution by the District Offices and Headquarters units in accordance with the specific directions

from Headquarters. The District Commander may authorize other field units to execute a specific contract costing between $1,000 and $75,000 providing all requirements are met.

(c) The maximum value of each contract which District Offices, Headquarters units and other Field units may execute is as follows:

(1) Offices of District Commanders, $75,000.

(2) Coast Guard Yard, $75,000.

(3) Coast Guard Supply Centers, $75,000.

(4) Aircraft Repair and Supply Base, $100,000.

(5) Coast Guard Academy, $10,000.

(6) Coast Guard Training Station, Groton, Conn., $10,000.

(7) Coast Guard Receiving Center, Cape May, N. J., $10,000.

(8) All other Headquarters units, $2,000.

(9) All other Field units, $1,000.

§ 116.01–7 *Contract requirements.* Contracting officers attached to field units are authorized to execute contracts and effect purchase of supplies and services required for their units subject to the limitations set forth above, and subject to the following requirements:

(a) Availability of allotted funds.

(b) When the items are not readily available from Coast Guard, Navy or other Government sources of supply.

(c) When the items are not prohibited for the use intended.

(d) When the items are not in excess of authorized allowances.

§ 116.01–8 *Referral to Headquarters.* All questions relative to contract procedure and requests to depart from standard contract provisions shall be referred to the Commandant (FS–1).

§ 116.01–9 *Commercial procurement by vessels and stations.* Commercial procurement of supplies and services by vessels and stations shall be confined to the following:

(a) Procurement under existing contracts.

(b) When time will not permit the referral of the purchase requirement to a District Office, Supply Depot or Supply Center.

§ 116.01–10 *Procurement against defaulting contractors.* (a) When a contractor fails, or it becomes apparent that he will fail, to perform the terms and conditions of a contract, a complete report of all circumstances, including the contract number and the recommendations of the contracting officer, shall be forwarded to the Commandant (FS–1) for determination of the action to be taken. If the Commandant determines that the contract should be terminated for default, any supplies or services still required after such termination may be purchased against the contractor's account, in the open market or otherwise.

(b) For procedure to be followed in default of contractors on orders placed under contracts of the Federal Supply Service, General Services Administration, see instructions contained in the "Index and Guide to Government Sources of Supply" under the section headed "Performance and Default," published by the Federal Supply Service, General Services Administration.

§ 116.01–11 *Procurement of supplies and services for the CG Auxiliary—(a) Authority.* 14 U. S. C. 830 provides for the payment from CG appropriations of actual necessary expenses incurred in the operation of any privately-owned motorboat, yacht, aircraft, or radio station when assigned to Coast Guard for its use. "Actual necessary expenses" as used herein includes: payment for fuel, oil, power, water, supplies, provisions, replacement or repair of equipment, repair of any damaged Auxiliary facility and for the constructive or actual loss of any Auxiliary facility where it is determined, under applicable regulations, that responsibility for the loss or damage necessitating such replacement or repair of equipment or for the constructive or actual loss of such motorboat, yacht, aircraft, or radio station rests with the Coast Guard.

(b) *Providing supplies and services.* Whenever practicable, all supplies and services required for the operation of an Auxiliary facility by Coast Guard will be furnished by Coast Guard sources of supply or obtained in the same manner as other supplies and services are procured. Likewise, upon return of an Auxiliary facility to its owner, any damage sustained by the facility or its equipment shall, whenever practicable, be repaired by the Coast Guard in the same manner as repairs are effected to Coast Guard facilities and their equipment.

(c) *Supplies and repairs furnished by an Auxiliary member.* Where an Auxiliary member furnishes supplies necessary in the operation of an Auxiliary facility in the performance of Coast Guard duties, or accomplishes or has accomplished repair or replacement of damaged equipment or damages to the facility itself, reimbursement for such supplies or repair will be made to the Auxiliary member.

(d) *Sale of clothing, flags, and pennants.* Items such as clothing, flags and pennants, not considered as actual necessary expenses of operation, may be sold to Auxiliary members.

DELEGATION OF AUTHORITY

§ 116.01–20 *Procurement responsibility.* The Commandant, having been designated as the "agency head" under the act, is responsible for the procurement policies and activities of the Coast Guard.

§ 116.01–21 *Chief Officer Responsible for Procurement.* The administration of procurement policies and activities as determined by the Commandant as "agency head" is hereby delegated to the Comptroller who is hereby designated as the "Chief Officer Responsible for Procurement' in accordance with the act.

§ 116.01–22 *Contracting authority.* In accordance with the authority contained in the act, and subject to the limitations set forth through this section, designated Coast Guard Contracting Officers are authorized to enter into contracts on behalf of the Government and in the name of the United States of America, by formal advertising, or by negotiation, or by procurement within the Government as hereinafter provided, for supplies and services required for the Coast Guard.

§ 116.01–23 *Contracting officer at Headquarters.* At Coast Guard Headquarters, all procurement activities shall be administered by the Supply Division. The Chief of the Procurement Section, Supply Division, shall be the contracting officer. In the absence of the Chief of the Procurement Section, the Chief of the Supply Division shall act as contracting officer.

§ 116.01–24 *Contracting officers of field units—(a) Delegation of authority by Commandant.* Subject to the limitations set forth herein, the Commandant hereby delegates authority to procure supplies and services to the following Coast Guard officers:

(1) District Commanders.

(2) The Superintendent of the Coast Guard Academy.

(3) The Commanding Officer of the Coast Guard Yard.

(4) The Commanding Officer of the Coast Guard Aircraft Repair and Supply Base.

(5) Commanding Officers of Coast Guard Supply Centers.

(6) Commanding Officers of Coast Guard Supply Depots.

(7) Commanding Officers of Coast Guard Training Stations.

(8) Commanding Officers (not Officers in Charge) of other Field and Headquarters Units.

(b) *Designation of contracting officer.* The officers listed above may designate an officer assigned to finance and supply duty as contracting officer. The Commanding Officer, CG Yard also may designate a qualified civilian employee as contracting officer. Designations of contracting officers shall be made in writing.

(c) *Limitation of authority to act as contracting officer.* The delegation of authority to act as "contracting officer" is limited strictly to those officers listed in paragraphs (a) and (b) of this section, and no other officers shall exercise such authority without the prior approval of the Commandant (F).

§ 116.01–25 *Authorized representatives of contracting officers.* Contracting officers may designate an officer or civilian official to act as their representative whenever necessary in connection with the performance of contracts executed by them. Such designation may be instructions referring to the particular contractual instrument, or classes of instruments, and may to the extent not specifically prohibited by the terms of the contract involved, empower the representative to take any or all action thereunder which could lawfully be taken by the contracting officer. In no event, however, shall a representative, by virtue of his designation only, be empowered to execute any contract or supplementary agreement, or change any conditions of the contract. The delegation and designation for such authority shall be contained in a letter signed by the contracting officer and addressed to the contractor, with copies to the officer so designated.

§ 116.01–26 *Conduct of procurement personnel.* In accordance with restrictions imposed on Government officers and agents by applicable sections of the Criminal Code (especially 18 U. S. Code 434, 283, 216, and 281), and in accordance with the general policy aaginst conflicting private interests of Government officers and employees, every person charged with the administration and expenditure of Government funds must refrain from such conduct as would interfere with the full, proper and impartial discharge of his official duties, or as would give rise to a reasonable suspicion that his conduct was motivated by self interest rather than by the best interests of the Government.

METHODS OF PROCUREMENT

§ 116.01–30 *Methods of procurement defined.* Procurement within the Coast Guard shall be made in accordance with the provisions of the Act and in compliance with the instructions contained in this section. The two principal methods of procurement are by means of formal advertising and by means of negotiation. Procurement shall generally be effected by advertising for bids and thereafter awarding a contract to the lowest responsible bidder. Procurement by means of negotiation may be effected, however, when authorized by and conducted in accordance with the detailed requirements and procedures set forth. Procurement may also be effected by placing orders with any Government agency or Government-owned establishment, or by means of joint- or single-department procurement.

§ 116.01–31 *Methods of commercial purchase employed by Coast Guard.* Three methods of commercial purchase by Coast Guard units are authorized:

(a) Purchases made under existing contracts.

(b) Purchases made by advertising.

(c) Purchases made by negotiation.

SOURCES OF SUPPLY

§ 116.01–40 *Government sources of supply.* It is the policy of the Coast Guard to procure supplies and services from the following sources whenever available:

(a) Within the command.

(b) Coast Guard Supply Depots and Centers and other Supply activities.

(c) Federal Supply Service.

(d) Navy Department.

(e) Other Government Agency Supply Units.

(f) Existing Coast Guard contracts.

(g) Federal Supply Service contracts.

(h) Other Government Agency contracts.

§ 116.01–41 *Mandatory sources of supply.* Certain supplies and services must be obtained from the sources designated in this Subpart. A "Federal Supply Schedule Index (including Index to the Stock Catalog and Other Government Sources of Supply)" shall be maintained in each district office. Headquarters unit, and other units to which a supply officer is regularly assigned. Copies will be obtained in the manner prescribed in § 116.01–42.

§ 116.01–42 *Federal supply service contracts.* (a) Pursuant to chapter 4 of Title 41 U. S. C., the supplies and services listed below, when not available from Government sources, shall be procured only under Federal Supply Service contracts, except when required for immediate use and the time of delivery specified in the contract will not meet the actual necessity of the service. In such cases, procurement from other sources may be made of such quantity as may be immediately required. A statement of the necessity for such action will be made on the public voucher. A wide range of items fall within the class listings below which are furnished as a guide only. Specific items, descriptions and prices are listed in Federal Supply Schedules. Supply Officers shall frequently examine Federal Supply Schedules and Check Lists issued in connection therewith to determine any additions to the list of mandatory classes or items, or modifications thereon. Nonmandatory items listed on schedules, should be considered when effecting procurement, to take advantage of prices which may be lower in many instances than can be secured in certain localities.

Class	Item
4	Caps, blasting; dynamite; plugs, blasting; powder, blasting; primer and booster charges.
7, 14	Gasoline, fuel oil and kerosene when included in Federal Supply Schedules and bulletins; provided they are not included in Navy contract.
8	Motor vehicle accessories and parts. Tires and tubes. Tire chains.
17	Lamps, electric and photographic flash.
[1] 26	Office furniture, steel and wood, including chairs, lockers, filing sections, desks, tables, etc.
[1] 26	Household and quarters furniture.
27	Floor and window coverings.
35	Books.
[1] 40	Machines, floor polishing and scrubbing, cylindrical type, electric, with accessories.
40	Machine tools, small machinery and accessories.
40	Pads, floor polishing and scrubbing machine, steel wool, disk type.
53	Binders, loose leaf.
53	Cups, drinking, paper.
54	Office equipment; purchase, rental, repair, and maintenance.
83	Airplane tires and tubes.
106	Recording and transcription service except instantaneous recordings.

(b) Necessary files of current Federal Supply Schedules (all mandatory classes and other classes as selected by the unit concerned) shall be maintained at each district office, Headquarters unit, and other unit to which a supply officer is regularly assigned. Each unit desiring Federal Supply Schedules and Catalogs shall submit its requirements on GSA Form 457 to the General Services Administration Regional Office for the area in which the ordering office is located. The required forms may be obtained direct from the Federal Supply Service or its regional warehouses. Subordinate units of a district shall request schedules and price lists from the district office.

[1] When available from Federal Prison Industries, Inc., clearance is required prior to effecting purchase under Federal Supply service contracts.

(c) Clearances: The term "clearance," as it pertains to Federal Supply Schedules, is defined as a written statement furnished by an authorized Federal Supply Service official at the request of an ordering agency to the effect that a contemplated purchase is not covered by a Federal Supply Schedule Contract mandatory upon the purchaser. In addition to the primary objective of assuring that the mandatory features of Federal Supply Schedule Contracts are properly observed, requests for clearance also serve the purpose of providing data to the General Services Administration for use in determining the adequacy of coverage of the Federal Supply Schedules. It is not necessary that agencies covered by mandatory provisions request clearance for purchases of items where similar items are not on Federal Supply Schedules. Also, clearance shall not be requested when agencies covered by mandatory provisions find it necessary to make an open market purchase to meet a justifiable emergency.

(d) Federal Supply Schedule Check Lists: Federal Supply Schedule Check Lists are issued quarterly to Federal agencies by the General Services Administration to furnish current data on the Federal Supply Schedules. These listings show the status of all Federal Supply Schedules in effect and amendments thereto, as of the date stated, with information as to the mandatory coverage and other pertinent remarks. Additional information desired concerning any particular schedule may be obtained by writing to the General Services Administration regional office executing the contract or by telephoning the number indicated in each schedule.

§ 116.01–43 *Federal Supply Service Warehouses.* Certain supplies when not available from Coast Guard or Navy sources shall be procured from Federal Supply Service regional warehouses. Warehouses are located at Washington, D. C.; Boston, Mass.; New York, N. Y.; Cleveland, Ohio; Chicago, Ill.; Atlanta, Ga.; Forth Worth, Tex.; Kansas City, Mo.; Denver, Colo.; San Francisco, Calif.; and Seattle, Wash. Supplies carried in stock are listed in the Federal Supply Service Stock Catalog. Copy of this publication shall be maintained at each district office, Headquarters unit, and other units to which a supply officer is regularly assigned. Purchase orders shall be submitted to the nearest regional warehouse on original and one copy of Form CG–2557, and shall be routed through the district office to permit review and utilization of Coast Guard facilities in effecting delivery.

§ 116.01–44 *Federal Prison Industries, Inc.* (a) Under the provisions of 18 U. S. C. 4124, certain supplies and services must be procured from the Federal Prison Industries, Inc., or a clearance obtained, before they can be procured from commercial sources. The General Accounting Office will disallow all payments unless clearance has been granted in advance of purchase from commercial sources. A wide range of items fall within the class listings below which are furnished as a guide only. Specific items, descriptions and prices

are listed in the publication "Schedule of Products Made in Federal Penal and Correctional Institutions," copies of which may be obtained by letter request to the Commandant (FS–1). Copies of the schedules shall be maintained at each district office, Headquarters unit, and other units to which a supply officer is regularly assigned.

Class	Item
9	Boats: wooden, less than 70 feet long, for delivery west of the Mississippi River.
38	Brooms: corn.
29, 38	Brushes; various types.
40	Brushes, polishing and scrubbing machines.
21	Cargo nets.
	All classes Castings; gray iron, various types.
24	Canvas goods; various articles.
	COTTON TEXTILES:
24	Cloth; awning.
24	Duck; cotton.
27	Drills.
27	Ticking, mattress and pillow.
	Dry cleaning service (dry cleaning service required by units within 100 miles of the U. S. Penitentiary, Alcatraz, Calif.).
	[illegible]
26	Fiber; various articles.
26	Wood; various articles.
26, 54, 57, 63	Furniture and specialities; metal, various articles.
37	Gloves and mittens; various types.
41	Handles; striking tool.
68	Laboratory animals.
	Laundry services.
27	Mattresses; cotton felt.
53	Paper weights; gray iron, leather covered.
	Printing.
37, 72	Shoes; various types.
26	Steel storage shelving; all types.

(b) Clearance C–27650 authorizes purchase from commercial sources when (1) immediate delivery or performance is required by public exigency which will not admit of delay in procurement, and (2) suitable second-hand property can be procured. Requests for clearances shall be forwarded to the Commandant (FS–1) together with a detailed statement as to the necessity for procurement from commercial sources. Purchases covered by this clearance will make reference to the applicable clearance on the pertinent public voucher. When procurement has been made in the open market under the authority of a clearance, the original or a copy of the applicable specific clearance will accompany the public voucher to which it pertains. When more than one public voucher is issued for items covered by one clearance, subsequent public vouchers will bear reference to the public voucher with which the clearance was filed.

§ 116.01–45 *Post Office Department.* Envelopes shall be purchased only under contracts executed by the Post Office Department. A publication "Award of Contracts for Envelopes" is issued periodically and lists all available types of envelopes, as well as necessary contract information. Copies of this contract bulletin are available through Headquarters. Orders placed for envelopes shall be forwarded direct to the contractor and need not be forwarded via Headquarters.

§ 116.01–46 *Committee on Purchase of Blind-Made Products.* Under the requirements of the act of June 25, 1938 (52 Stat. 1196) (41 U. S. C. 46–48), supplies available from the Committee on Purchase of Blind-Made Products shall be procured from that source when not available from Government Sources. A listing of items available from this source is included in the General Services Administration Store Stock Catalog under a separate section. This listing will distinguish between those blind-made products carried in stock by the Federal Supply Service and those available direct from the National Industries for the Blind. Procurement procedures for obtaining these items from the two sources are outlined in §§ 116.01–47—116.01–48. A clearance dated March 27, 1942, effective until rescinded, grants authority to procure supplies listed as a Blind-made Product from commercial sources when (a) military necessity may require delivery within a period of 2 weeks, (b) less than a single unit is required, or (c) for use outside continental United States. When an item is obtained from commercial sources under authority of this clearance, reference to the clearance shall be made on the payment voucher.

§ 116.01–47 *Purchase of blind-made products through Federal Supply Service.* Purchase Orders (Form CG–2557) shall be submitted to the supporting Federal Supply Service Supply Center for blind-made products regardless of whether or not that facility actually stocks the item, except as noted in § 116.01–48.

§ 116.01–48 *Purchase of blind-made products from the National Industries for the Blind.* Purchase Orders (Form CG–2557) shall be submitted to the National Industries for the Blind, 15 West 16th Street, New York 11, N. Y., when the purchase meets the following requirements: (a) Items require overseas packaging or packing; (b) instances where the ordering activity is so located that it would be more practical and economical to purchase direct rather than through a Federal Supply Service Supply Center; and (c) Items required in carload lots or over.

§ 116.01–49 *Surplus property.* To the extent possible, supplies shall be obtained from surplus property in the hands of disposal agencies, or from surplus or excess stocks in the hands of other Government agencies. Coast Guard units shall obtain prior authority from the Commandant (FS) for the acquisition of property under Title 14, U. S. C., sec. 640.

Procurement of Domestic and Foreign Materials and Products

§ 116.01–60 *Statutory authority.* Subject to the exceptions authorized therein, the "Buy American Act," approved March 3, 1933 (47 Stat. 1520) (41 U. S. C. 10a–d), prohibits the acquisition for public use by any department, or for use in connection with the performance of any department contract for the construction, alteration, or repair of any public building or public work, of (a) unmanufactured supplies unless mined or produced in the United States, and (b) manufactured supplies unless manufactured in the United States substantially all from supplies mined, produced, or manufactured in the United States.

§ 116.01–61 *Policy regarding purchases from sources within Soviet-controlled countries or areas.* (a) It is the policy of the Coast Guard not to procure supplies or manufactured products originating from sources within Soviet-controlled countries or areas. The authorizations and exceptions to the "Buy American Act" set forth in subsequent paragraphs shall not be construed so as to permit exceptions to this policy. In cases of doubt, questions as to whether a specific country or area is Soviet-controlled will be referred to the Commandant (FS).

(b) Exceptions to this policy will be made only after specific approval by the Commandant (FS).

§ 116.01–62 *Terminology.* (a) The term "United States," when used in a geographical sense, includes the United States and any place subject to the jurisdiction of the United States.

(b) The term "public use," "public buildings," and "public work" shall mean use by, public buildings of, and public work of, the United States, the District of Columbia, Hawaii, Alaska, Puerto Rico, American Samoa, the Canal Zone, and the Virgin Islands.

(c) Supplies shall be considered to be manufactured "substantially all" from United States supplies whenever the cost of foreign supplies used in such manufacture constitutes 25 percent or less of the cost of all supplies used in such manufacture.

§ 116.01–63 *Action required by noncompliance by contractors.* (a) Where it is determined that the contractor performing a construction contract has not complied with the provisions of the act, the contracting officer will submit a report to the Commandant (FS) setting forth complete details relative to the use of foreign materials and supplies.

(b) The Commandant (FS) will review such reports for accuracy and completeness, verifying pertinent portions as necessary, and forward the reports to the Secretary of the Treasury.

§ 116.01–64 *Findings and action by the Secretary of the Treasury.* The Secretary of the Treasury, upon finding that in the performance of a construction contract there has been a failure to comply with the "Buy American Act" provision, shall make public his findings (including therein the name of the contractor obligated under such contract) and no other contract for the construction, alteration, or repair of any public building or public work in the United States or elsewhere shall be awarded to such contractor, subcontractor, materialmen, or suppliers with which such contractor is associated or affiliated, within a period of three years after such finding is made public.

§ 116.01–65 *Exceptions that may be authorized by the Secretary.* The Secretary of the Treasury is authorized by the "Buy American Act" to grant exceptions thereto when application of the act would cause any one of the situations enumerated below:

(a) Would be inconsistent with the public interest.

(b) Would unreasonably increase the cost.

(c) Would be impracticable in connection with construction or repair work.

However, exceptions granted under this authority must be incorporated into the contract specifications prior to solicitation of bids and a public record made of the supporting findings.

§ 116.01–66 *Determination of unreasonable cost.* (a) In accordance with regulations of the General Services Administration, Title I, Personal Property Management, the cost of supplies would be unreasonable and, therefore, the "Buy American Act" will not apply when the lowest cost of domestic supplies exceeds the lowest cost of foreign supplies by 25 percent or more of the foreign bid (100 percent when the cost of foreign supplies is $100 or less. However, when the base cost of foreign supplies is enhanced by duty paid the United States, the differential of 25 percent or 100 percent shall be applied only to the base cost with the duty then added to the sum of the differential. Accordingly, the cost of domestic supplies is considered unreasonable when it exceeds the cost of foreign supplies, plus the amount of the differential and, when applicable, plus the amount of duty. Examples of application are as follows:

Example No. 1—Foreign bid would be accepted

Domestic bid	$12,400.00
Foreign bid (duty included)	10,000.00
Minus duty	1,000.00
Cost excluding duty	9,000.00
Percent of differential	.25
Differential	2,250.00
Plus cost excluding duty	9,000.00
Plus duty	1,000.00
Total cost	12,250.00

Example No. 2—Domestic bid would be accepted

Domestic bid	$12,400.00
Foreign bid (no duty involved)	10,000.00
Percent of differential	.25
Differential	2,500.00
Plus cost	10,000.00
Total cost	12,500.00

(b) The contracting officer shall submit to the Commandant (FS) for consideration and approval any case where the differential is less than 25 percent but the amount of the differential exceeds $5,000. Cases where the differential is less than 25 percent but the amount of the differential does not exceed $5,000 may be forwarded for consideration if the contracting officer considers the amount of the differential to be unreasonable.

§ 116.01–67 *Exception of printed matter.* In accordance with § 116.–65, the Secretary of the Treasury, by letter dated 24 August 1953, determined that purchase of the following supplies, as required by the Coast Guard is in the public interest and such purchase is authorized: trade, text, technical, and scientific books, newspapers, magazines, periodicals and printed briefs, charts and maps, which are not printed in the United States and for which domestic editions are not available.

§ 116.01–68 *Exceptions due to availability.* (a) The "Buy American Act" does not apply to the following materials:

(1) Supplies which are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

(2) Such materials, from which the supplies to be used are manufactured, as are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

(b) Accordingly, the supplies listed below may be procured without regard to country of origin except as restricted by § 116.01–61.

SUPPLIES AUTHORIZED TO BE PROCURED FOR PUBLIC USE

Agar.
Aluminum.
Antimony.
Argols, tartar and wine lees.
Asbestos.
Bananas.
Bauxite.
Beef extract.
Beryl.
Bismuth.
Brazil nuts.
Cadmium.
Calcium cyanamide.
Capers.
Cashew nuts.
Castor beans.
Celestite.
Chalk, English.
Chicle.
Chrome ore or chromite.
Cinchona bark.
Cobalt (ore and metals).
Cocoa beans.
Coconut.
Coffee.
Columbite.
Copper.
Copra.
Cork.
Corundum.
Cryolite, natural.
Damar gum.
Derris cube and timbo roots.
Diamonds, industrial and abrasive.
Ergot.
Fiber, coir, abaca and agave.
Goat and kid skins.
Graphite.
Hyoscine.
Iodine.
Ipecac and emetine.
Jute and jute burlaps.
Kuarigum.
Kyanite.
Lac and shellac.
Lead.
Logs, veneer, and lumber from balsa, greenheart, lignum vitae, mahogany and teak.
Manganese.
Menthol, natural.
Mercury.
Mica.
Monazite.
Nickel.
Nitroguanidine.
Nux vomica.
Oiticica oil.
Olive oil.
Olives, green and stuffed.
Opium.
Palm oil.
Crude petroleum, petroleum fuels, and petroleum lubricants.
Platinum and related group metals.
Pulp for paper production.
Pyrethrum flowers.
Quartz crystals.
Radium salts.
Rubber, crude and latex.
Rutile.
Santonin.
Sardines.
Silk.
Sperm oil.
Spices.
Talc, steatite.
Tantalite.
Tapioca.
Tea.
Tin.
Tungsten.
Vanilla beans.
Wax carnauba.
Zinc.
Zirconium.

Nickel.
Platinum and related group metals.
Rubber, crude and latex.
Timber, balsa, greenheart, lignum vitae, mahogany and teak.
Tin.
Tungsten.
Zinc.

Policy Toward and Assistance To Small Business Concerns

§ 116.01–70 *Definition of small business concerns.* It shall be the policy of the Coast Guard to place with small business concerns (herein considered to be any concern which employs fewer than 500 persons) a fair proportion of the total procurement of supplies and services. As a means of carrying out this policy, and when not clearly to the disadvantage of the Coast Guard, the supplies or services to be procured shall be procured in reasonably small lots so as to enable and encourage small business concerns to make bids or quotations thereon. Each contracting office shall, in effecting procurement, obtain necessary information to determine whether or not the supplier is a small business concern. To obtain this information the following clause shall be inserted in the bid or quotation portion of every invitation for proposals: "This organization, including affiliates (corporate, partnership, or joint venture), employs (500 or more) (less than 500) persons. (Strike out inapplicable words.)"

§ 116.01–71 *Applicability of these instructions.* These instructions are ap-

plicable to Coast Guard Headquarters, all districts, Headquarters' Units and Supply Depots.

§ 116.01–72 *Policy.* It is the policy of the Coast Guard that all unclassified negotiated and advertised procurement exceeding $10,000, made in the Continental United States will be publicized when such procurements are scheduled to be opened 18 days or more from date of issue. Unclassified United States procurements exceeding $10,000, will be scheduled to be opened 18 days or more from date of issue unless circumstances make an earlier opening essential. In such case a statement of fact supporting such action must be filed in the contract folder.

§ 116.01–73 *Setting opening of bid dates.* Except in cases of urgency, contracting officers should insure that opening dates for invitations and/or requests involving the purchase of special material requiring plans, blueprints, or special specifications are set so as to allow a minimum of 30 calendar days after date of mailing. It is believed that a minimum of 21 to 25 days will be sufficient in the purchase of standard items (such as hand tools) that do not require special analysis by the bidder. Reasonable requests for postponement of the time set for the opening of bids shall be referred to the requisitioning activity if unusual delay is involved; otherwise, decision should be made by the contracting officer. It is felt that permitting adequate bid time before the opening of bids and/or requests will decrease the number of requests by contractors for postponement of openings.

§ 116.01–74 *Daily synopsis of purchases required.* A daily synopsis of proposed purchases by negotiation and advertising will be prepared and transmitted by teletype to Bonstetter, Department of Commerce, Chicago, Illinois, in the manner hereinafter described. Such synopsis will include quantities and will consist of a minimum general description of the items procured and will include, when appropriate, commonly used names of supply items, basic materials from which fabricated, general size or dimensions, etc. Whenever procurement offices believe it advisable for security reasons, quantities may be published as "more than ____". The synopsis should include proposed purchases on the same day that the requirements become known. Do not withhold this information pending the preparation of formal documentation. Proposed procurement for the construction, alteration or repair of buildings, bridges, roads or other kinds of real property are included in the above policy. Proposed procurement for the repairs to vessels need not be included in synopsis.

§ 116.01–75 *Confirmation copy of procurement required.* One copy of each Invitation to Bid and/or Request for Quotation which includes items previously listed in a synopsis shall, when issued, be forwarded to Chief, Small Business Division, Office of Industry and Commerce, Room 6427, Department of Commerce, Washington 25, D.C.

§ 116.01–76 *Preparation of synopsis.* (a) The daily synposis shall be prepared in strict accordance with the sample format below. Each daily synopsis message shall be delivered to the nearest Coast Guard Communications Center for transmission via NTX. Delivery from the originating unit to the Communication Center should be effected in each case by the means currently employed for other messages transmitted via NTX. A copy of this format shall be delivered to the Communications Center by the originator prior to delivery of the first message to insure transmission in the prescribed form. The routing indicator and heading required for NTX transmission will be added at the Communication Center.

(b) There follows a list of standard typewriter keyboard characters which cannot be reproduced or which are used for special purposes on teletype facilities. When one of these characters would ordinarily be used in a message, the alternate symbol shown must be used in lieu thereof:

Standard typewriter keyboard character:	*Alternate symbol*
⅛ or ½	⅛ or ½.
¢	cts.
#	no.
■	and.
%	pct.
@	at.
*	(No alternate, do *not* use).
:	- (hyphen).
?	/qm/.
()	/ / (slant bars).

(c) Columns 1, 2, 3, and 4 of format. Columnar heading shall not be typed on the message. These headings will be supplied by the Chicago Commerce Office. Entries in each column must be limited to the number of elite typewriter spaces indicated on the sample format and accidental "run-over" from one column to another must be corrected. Single space all lines of description covering an item or items included in the same proposed purchase. When item descriptions require more than one line, indent second and succeeding lines one space. Single space between each proposed purchase listed.

(1) In column 1, enter the briefest possible description which will adequately identify the items. The basic noun(s) of the description should not be abbreviated but other abbreviations may be used if they are in general commercial usage.

(2) In column 2, enter the specific quantity to be purchased and the unit. If necessary, because of space restriction, enter the unit directly below the quantity. Estimates should be shown if definite quantities cannot be ascertained.

(3) In column 3, enter invitation or such other number as shall serve to identify the purchase transaction when inquiries are received from interested suppliers. Invitations for bid numbers will be followed by the letter "B". Request for proposals or quotations will be indicated in this column by the letter "Q" or, if numbered, the number will be followed by the letter "Q".

(4) In column 4, enter the approximate date for opening of formal bids and requests for quotations.

(d) Upon receipt of the teletype synopses, the Chicago office of the Department of Commerce will consolidate the synopses of proposed purchases received from our purchasing offices with those received from purchasing offices of other agencies. In order to achieve speedy reproduction and distribution of the consolidated bid synopses on the same day the information is received, the Chicago Commerce Office has arranged to cut the necessary mimeograph stencils automatically on its receiving teletype printer. It is therefore essential that the instructions contained herein for the preparation and transmission of teletype messages be strictly adhered to.

FORMAT FOR TELETYPE MESSAGES TRANSMITTING SYNOPSES OF PROPOSED PURCHASES TO CHICAGO COMMERCE OFFICE
(Use Elite Type)

Bonstetter, Commerce Dept., Chicago.
Synopsis No. ____.
Contracting Officer
(enter appropriate address).

(31 elite spaces)	(10 spaces)	(16 spaces)	(13 spaces)
Remover, paint, 1-gallon can	600	01-1045-51	7-15-50

Counter—Time interval	5 each	01-1048-51	7-20-50

§ 116.01–77 *Effect on procurement.* Consideration of awarding contracts in accordance with the above is set forth in Subpart 116.02 of this chapter.

CONTRACT PLACEMENT IN DISTRESSED EMPLOYMENT AREAS

§ 116.01–80 *Classification of labor areas.* The Department of Labor, Bureau of Employment Security, publishes bimonthly a summary of Labor Market Developments in Major Areas which gives a comparable measure of the related adequacy of the local labor supply among the major areas of the United States. Contracting Officers who are not receiving this publication should request that all future publications be furnished from the Bureau of Employment Security, United States Department of Labor, Washington 25, D. C. The publication classifies the various areas as follows:

Group I—Areas of labor shortage. Areas in which labor shortages exist or are expected to occur in the near future which will impede "essential activities."

Group II—Areas of balanced labor supply. Areas in which current and prospective labor demand and supply are approximately in balance.

Group III—Areas of moderate labor surplus. Areas in which current and prospective labor supply *moderately* exceeds labor requirements.

Group IV—Areas of substantial labor surplus. Areas in which the current and the prospective labor supply substantially exceeds labor requirements.

§ 116.01–81 *Effect on procurement.* To the extent possible, procurement should be avoided in labor market areas where manpower is in short supply or in approximate balance (areas classified in Group I or Group II by the U. S. Department of Labor); and should be placed in labor market areas having surplus manpower (areas classified in Group III or Group IV). Consideration of awarding contracts in accordance with the above is set forth in Subpart 116.02.

REPORTS ON PROCUREMENT

§ 116.01–83 *Compilation of statistics as to small business concerns and negotiated contracts.* The Coast Guard is required under the act to maintain a record of the number and total value of all contracts and purchases placed with (a) small business concerns and (b) negotiated contracts; and to submit an annual report thereof at the close of the fiscal year to the President and Congress. The annual report will be prepared by the Commandant (FS) on the basis of quarterly reports submitted by District Commanders and Commanding Officers of Headquarters Units. The information necessary for the report will be compiled by reporting officers, essentially as enumerated below, throughout the fiscal year and submitted as a quarterly report to the Commandant (FS) not later than the 15th of the month following the end of the quarter. In the case of districts, reports from suballotment units shall be consolidated into the district report.

§ 116.01–84 *Outline of form of report and basis of information.* The report required shall be assembled on the basis of orders placed or contracts awarded for all types of commercial procurement, and shall be essentially in the following form:

(a) Total number and value of purchases made from concerns employing less than 500 persons (SBC–1) ____ $____
(b) Total number and value of purchases made from concerns employing 500 or more persons (SBC–2) ____ $____
(c) Total number and value of purchases placed on contracts of other Government agencies (including Navy and Federal Supply Service) (SBC–3) ____ $____
(d) Total number and value of purchases made under pars. (a) through (c) above ____ $____
(e) Total number and value of purchases made by advertising (CG–10) ____ $____
(f) Total number and value of purchases made by negotiation for the national emergency (CG–20) ____ $____
(g) Total number and value of purchases made by negotiation for the Public Exigency (CG–21) ____ $____
(h) Total number and value of purchases made by negotiation not in excess of $1,000 (CG–22) ____ $____
(i) Total number and value of purchases made by negotiation outside of the United States (CG–25) ____ $____
(j) Total number and value of purchases made by negotiation when it is impracticable to Secure Competition by Formal Advertising (CG–29) ____ $____
(k) Total number and value of purchases made under Navy Contracts (CG–50) ____ $____
(l) Total number and value of purchases made under Federal Supply Service Contracts (CG–51) ____ $____
(m) Total number and value of purchases made under contracts of other Government agencies (CG–52) ____ $____
(n) Total number and value of purchases made by negotiation by authority other than above listed (indicate appropriate CG–number (CG–)) ____ $____
(o) Total number and value of purchases made under pars. (e) through (n) above. (This total must agree with the total indicated in par. (d)) ____ $____

§ 116.01–85 *Statistics to be reported.* These statistics shall not include procurement from other Government agencies but shall include purchases made from commercial concerns under the contracts of other Government Agencies, such as the Quarterly Provisions Contracts of the Navy or FS contracts. The criterion is that the Coast Guard furnishes statistics covering purchases which constitute the original acquisition of materials by the Government. Purchases made under contracts of other Government agencies should be reported under par. 3 of report (SBC–3) as regards the small business statistics portion, and without regard to number of persons employed by contractor, inasmuch as contract bulletins of other agencies do not generally identify the contract as to the number of persons employed.

§ 116.01–86 *Method of compiling statistics.* The following method of compiling the required statistics will be used: Two (2) copies of each order and/or change order will be maintained, one copy to be filed under the appropriate SBC number and the other copy to be filed under the appropriate Coast Guard number. Care will be exercised with the assignment of Coast Guard numbers so that they are in strict accord with Subpart 118.02 of this chapter and further, that the total equals the SBC numbers total. The records as maintained will be summarized at least monthly using an individual recapitulation sheet similar to that described below:

SBC OR CG NUMBER

Month and year:	*Number of orders and/or change orders*	*Amount*
July 19__	____	$____
August 19__	____	____
September 19__	____	____
Etc.	____	____

EXCHANGE OF MATERIAL

§ 116.01–90 *Trade-in allowance.* The exchange of material as full or part payment for new or reconditioned material is permitted only when authorized by law and only when the "trade-in" allowance equals or exceeds the amounts which would have been realized by the outright sale of the items. Cash sale proposals shall be solicited for all items authorized for exchange, and the bids or quotations shall be compared with the amounts offered for "trade-in" or exchange. When the cash sale bid exceeds the "trade-in" or exchange offer, the items will be sold under the bids rather than exchanged.

§ 116.01–91 *Applying proceeds of sale to purchase of replacement.* The proceeds from the sale of the old equipment may be applied toward payment or partial payment of the replacements under certain conditions. In such cases, sufficient evidence must be furnished to permit a determination that the old and new equipment are sufficiently similar so as to fall within the provisions of the applicable statute, and there must be some action toward the purchase, by issuance of an order or requisition, if not the actual consummation of the purchase, before the proceeds of the sale may be applied.

§ 116.01–92 *Availability of funds.* The proceeds from the sale of equipment in accordance with § 116.01–91 may be used in acquiring similar equipment, provided a replacement purchase is made or an obligation for the purchase of the replacement property is incurred by the end of the fiscal year following the fiscal year in which the sale was made.

TAXES AND TAX EXEMPTION CERTIFICATES

§ 116.01–104 *Federal taxes.* The United States Government is exempt from the payment of tax on the following items only: (a) Transportation of persons on Government transportation requests. When transportation requests are not used the tax must be paid and exemption will not be allowed. (b) Transportation of property under Government bill of lading. Converted commercial bills are included, and (c) Telephone, telegraph, cable, radio, and leased wire service or facilities furnished directly to the Government.

§ 116.01–105 *State and local taxes.* The United States Government is generally exempt from the payment of State and local taxes.

§ 116.01–106 *Tax exemption certificate forms.* Only one form of tax exemption certificate—Standard Form 1094 is issued by Government officers to vendors with respect to Federal taxes. Form 1094 will be issued by the cognizant contracting officer only when required by the contract to furnish proof of exemption with respect to those taxes which have been excluded from the contract price. Standard Form 1094 will be used for State and local taxes, except when a different form is required by the State or local taxing authority. The certificate will be issued to the vendor only when the price paid is exclusive of Federal, State, or local tax.

§116.01–107 *Refund of taxes paid.* If the vendor refuses to sell at a price exclusive of State or local tax, the certif-

icate will be used by the Government as the basis for billing the taxing authority for refund. The certificate, supported by a memorandum copy of the payment voucher and a copy of the vendor's invoice or delivery ticket showing point of delivery, will be forwarded to the Commandant (FA–1).

§ 116.01–108 *Authority to issue.* Only those officers who have received the United States Government tax exemption identification card (Form 1094C) may issue certificates. The tax identification card contains a number which must be inserted on every certificate issued by the authorized officer.

§ 116.01–109 *How to obtain certificates and identification card.* District Commanders and commanding officers of Headquarters units may obtain certificates and identification cards by letter request to the Commandant (CHS). Units within a command may obtain certificates and identification cards by request to District Commanders. A record, listing the serial numbers of all certificates and identification cards received and the names of the person to whom issued shall be maintained. A receipt shall be taken for all certificates and identification cards issued. Certificates and identification cards shall be recalled when no longer required by the holder or when the holder is transferred outside the command. Certificates may be reissued; identification cards shall be destroyed.

§ 116.01–110 *Restrictions on issue of tax exemption certificates.* Tax exemption certificates will not be issued for (a) merchandise purchased which is subject only to the Federal tax and such tax is included in the price paid, (b) items of subsistence expense when an official or employee of the Federal Government is traveling on official business under a per diem allowance, (c) items of travel expense when an official or employee of the Federal Government is traveling on official business in his personally owned motor vehicle and is granted a mileage allowance, and (d) by individuals in official travel status, unless payment is actually made at the time of purchase.

§ 116.01–111 *Use of a single certificate.* A single certificate may be issued where purchases are made under contract providing for deliveries extending over a period of time. Orders placed under such contracts will bear the serial number of the blanket certificate.

§ 116.01–112 *Certificate for gas or oil.* When a certificate is used in connection with the purchase of gasoline or oil delivered into the fuel tank or crankcase of a motor vehicle, the license plate number or other official vehicle designation will be shown in the space provided on the certificate.

§ 116.01–113 *Separate certificate for each tax.* A separate certificate shall be used for each class of tax involved (Federal, State, or local). Care must be exercised by the purchaser to fill in the blocks provided for showing on each certificate the separate amounts or rates of taxes involved so that the certificate may be used only for the purpose intended. If the space provided for showing the quantity, price, etc., of the articles purchased is not sufficient, a separate statement may be attached to the form. Blocks other than the one representing the tax involved shall be blanked out by inserting three X's. In addition to the signature and title, the identification card number of the purchaser must always be shown in the space provided therefor.

§ 116.01–114 *Payment voucher noted.* The serial number of each certificate prepared shall be shown on the payment voucher.

§ 116.01–115 *Care and safekeeping requirements.* The pertinent data as to issuance of certificates shall be listed on the tabulation sheet contained in the book of certificates. When all certificates in a book have been used the cover and tabulation sheet shall be forwarded to the issuing unit for further transmittal to the Commandant (CHS). Certificates and identification cards shall be properly safeguarded to prevent loss or unauthorized use.

Specifications

§ 116.01–120 *Specifications in general.* Supplies and services required shall be specified with sufficient definiteness to insure intelligent submission of proposals but not in such terms as to preclude competition. The governing factor with respect to the minimum quality shall be service requirements and the specification shall be drawn on that basis. Each unit making commercial purchases shall maintain a current file of specifications applicable to items so purchased. A formal specification in one of the numbered series shall be used whenever available.

§ 116.01–121 *Government specifications.* Invitations for bids which refer to Government specifications (Federal, Military, etc.) shall contain for the information of the prospective bidders a list of the sources of supply and current procurement instructions for the specification(s) used. This may be accomplished by including the following clause in the invitations:

> Copies of the following specification(s) referred to herein (list by name and symbol or number) may be obtained from (full name and address of the Government agency from which the specification(s) may be procured). Requests for specifications should include both the title and the symbol or number of each specification desired.

§ 116.01–122 *Commercial designations.* When difficulty is experienced in the preparation of invitations in describing or specifying the nature of the purchase and a commercial make or type is known which embodies the minimum requirements, the article may be mentioned in the specification by the trade name, qualified by the words "or equal." The use of the trade name in this manner without the words "or equal," in the absence of showing that no other make will serve the purpose of the Government, is not permitted. Should articles be offered under brand names, catalog or model numbers, they must signify that the articles so offered meet the specifications used in the invitation.

§ 116.01–123 *Patented articles.* Invitations for replacement parts of patented articles which already exist as the property of the Government shall contain the following specification:

> Repair parts for (Name of Patented Article), equal to and interchangeable with parts manufactured by (Name of Manufacturer) as follows: Reference to part numbers appearing in the catalog or blueprints of the manufacturer shall be cited if known.

§ 116.01–124 *Commercial terms to be used.* The unit of weight, measure, or enumeration used in the preparation of invitations shall conform to the usual commercial practice, such as dozen, gross, ton (long, short, net, gross), hundred (C), thousand (M), etc. In certain instances the pricing unit will differ from the quantity unit, as for example in the purchase of wire, cable, rope, etc., wherein a specified lineal measurement is required and expressed in feet, yards, or fathoms, and the pricing factor is based on the weight. Under these conditions, the requirement shall be to obtain a specified length of material to be charged at a specified rate per lb. Both the length requirement and the unit price factor shall be clearly shown. The usual practice is to state the required length, estimate the weight, and show the price per unit of weight. Under these conditions the contractor is entitled to reimbursement based on the weight of the material furnished under the contract.

§ 116.01–125 *Specific dimensions.* The extension of each item must be the product of the quantity and the unit price. If the article is to meet specific dimensions but the cost is to be determined by the weight (as in the case of structural iron), units which will be used to compute the cost shall be shown in the specifications and a notation shall be entered to the effect that the price must be submitted on that basis. The bidders shall be required to submit an estimate of the weight, which will be subject to correction upon delivery.

§ 116.01–126 *Quantity required to be shown on invitation.* Definite quantities shall be shown on invitations wherever practicable. If the exact quantity cannot be determined, as in the case of term contracts, an estimated quantity shall be stated. In estimating the approximate quantities, the greatest care shall be exercised to obtain as close an estimate as possible. Where the quantity can be determined within a reasonable variance, a contract clause substantially as follows should be inserted in the invitation:

> The approximation furnished is solely for the information of the bidder. The Government reserves the right to purchase only such quantities as are actually required and to exceed the estimated amount by a reasonable variance not to exceed 20 per centum.

§ 116.01–127 *Quantity required not known.* Where it is not possible to determine the quantity within a reasonable limit, a contract clause substantially as follows should be inserted in the invitations:

> The uncertain and varying needs of the Coast Guard make it impossible to determine the quantity or quantities of the articles and materials described herein that may be required during the contemplated period of the contract. Estimated quantities are stated for information only. It is mutually understood and agreed that the Government will order and the contractor will deliver the quantities of the kinds of articles or materials described in the specifications that in the judgment of the ordering officer may be required during the contract period, except as may be otherwise indicated. These supplies will be ordered from time to time during the life of the contract in such quantities for delivery in such forms and to such places provided for by the contract as the needs of the Coast Guard require. Proposals made with the proviso that the total deliveries will not exceed a certain specified quantity will be considered, but the right is reserved to reject any proposal which provides that the Government shall guarantee to take any definite quantity.

§ 116.01–128 *Fresh water.* The unit of quantity for fresh water in bulk should conform to the usual commercial practice in the locality where proposals are solicited. Where schedule of rates for water provide for a charge for meters in accordance with size, the size of the meters shall be indicated in the contract and on the payment invoices.

§ 116.01–129 *Fuel oil.* The unit of quantity for fuel oil will be the barrel of 42 gallons of 231 cubic inches at a standard temperature of 60° F. Corrections for variations in temperature will be made in accordance with table No. 2, circular No. 3–410 of the National Bureau of Standards.

§ 116.01–130 *Gasoline and kerosene.* The unit of quantity for gasoline and kerosene, and similar petroleum products, is the gallon.

§ 116.01–131 *Liquids.* In the case of liquids in bulk containers, such as barrels, drums, casks, etc., the unit shall be specified in gallons or quarts, etc., and the approximate quantity shall be shown, which shall be subject to adjustment upon delivery.

§ 116.01–132 *Lumber.* (a) The unit for the purchase of lumber is the board foot. Where it is the commercial practice to specify linear feet, as in the case of molding, beading, etc., the invitation shall be formulated accordingly, and the required dimensions and the number of pieces shall be accurately stated, except where random lengths are contemplated. Each item shall show clearly whether the board foot or the linear foot is the unit and whether the proposal is desired per thousand feet (per M), per hundred feet (per C), or per single foot (per foot).

(b) The term "pinus ponderosa" shall be used in lieu of "California White Pine" to describe ponderosa lumber.

§ 116.01–133 *Wood.* The unit for wood is the standard cord of 128 cubic feet, but in localities where the so-called single cord (42⅔ cubic feet) is recognized in the trade, invitations shall clearly show which is intended.

§ 116.01–134 *Coal.* The unit of quantity for coal is the ton of 2,000 pounds. The size of coal shall be specified by screen size rather than by name. In stipulating screen sizes consideration should be given to the sizes available at each point of delivery and the smallest or cheapest size shown by experience and trial to be effective shall be specified.

§ 116.01–135 *Return or retention of containers.* Invitations and contracts which involve the delivery of items in containers such as drums, carboys, cylinders, reels, etc., must contain a clause setting forth the ownership of the containers, and the applicable provisions for either the purchase or return of containers which are involved in the purchase. If the containers are the property of the Government that fact shall be clearly set forth in the contractual papers. If the containers are originally the property of the supplier, two alternatives are available: either to pay for the containers as a part of the purchase price, subject to allowance for the later return to the contractor; or to exclude the cost of the containers from the purchase price and arrange for later payment in the event the containers are not returned.

§ 116.01–136 *Containers to remain the property of the contractor.* When the purchase involves the use of containers which can be returned to the contractor within a reasonable length of time after delivery, and which the contractor desires to have returned, a clause substantially as follows shall be inserted in the invitation and in the contract:

> *Returnable containers.* Containers (drums, carboys, cylinders, reels, tanks, etc.) incident to the delivery of the items shall be furnished by the contractor without cost to the Government and will be returned to him at point of delivery in good condition within ------ days after date of delivery. If the containers are not returned within that period, the contractor will accept settlement in full from the Government at the rate of $---- each, and the containers shall then become the property of the Government. The contractor further agrees to accept containers in good condition which have been paid for by the Government and which are returned within 12 months after the date of delivery at the expense of the Government, and to allow a credit of $---- for each container returned.

§ 116.01–137 *Containers to become the property of the Government.* When the purchase involves the furnishing of containers, the cost of which is to be included in the purchase price of the items furnished, the contract must provide a clause setting forth the fact that the containers were purchased by the Government and if a refund is payable for the later return of the containers, the conditions shall be set forth in the invitation and in the contract. A clause substantially as follows may be used:

> *Cost of containers.* Containers (drums, carboys, cylinders, reels, tanks, etc.) incident to the delivery of the items shall be included in the cost of the items and the containers shall remain the property of the Government. If the containers are returned to the contractor's plant at Government expense, and in good condition within 12 months after the date of delivery to the Government, it is agreed that the contractor will allow the Government a credit of $---- for each container so returned. Empty cylinders shall be delivered to: Name of contractor ----------. Address of contractor's plant: ----------.

§ 116.01–138 *Place of delivery*—(a) *General.* Normally, contracts covering deliveries to known destinations shall require delivery f. o. b. destination (shipment to be made at the contractor's expense). However, when shipment involves one or more carload lots, information shall be requested from the Commandant (FS–2), prior to contracting, whether any special freight rate agreements are in effect which would make delivery f. o. b. contractor's shipping point beneficial to the Government. Supply contracts covering delivery of material to destination which cannot be determined at the time the contract is executed shall require delivery f. o. b. contractor's shipping point (shipment to destination at Government expense). Supply contracts covering delivery of material required to repair or replace Government property for which reimbursement has been obtained from persons responsible for the damage shall require delivery on an f. o. b. destination basis only. Where the invitation stipulates delivery at more than one place, the quantity shall be stated for each such point of delivery. Delivery and shipment clauses shall be inserted in the invitations and purchase documents.

(1) *Shipment at Government expense.* When the shipment is to be rail or freight transportation and the contractor is to bear the cost of placing supplies on board the cars or trucks at the shipping point nearest the contractor's plant, the following clause will be used:

> Supplies shall be delivered f. o. b. contractor's shipping point for shipment on Government bill of lading to ----------.

(2) *Shipment at contractor's expense.* When shipment is to be made to destination at the expense of the contractor, the following clause will be used:

> Supplies shall be delivered, all transportation charges paid, to destination.

(b) *Standard contract conditions.* Form CG–2557A–1, Additional General Provisions (Supply Contract), contains standard contract delivery conditions and shall be made a part of all supply contracts.

§ 116.01–139 *Time of delivery.* One of the following provisions covering time of delivery or performance will be included in invitations and purchase documents immediately following the reference as to required place and method of delivery:

> (a) Not later than ----------
> (b) At the rate ------ per ------ beginning ------ and continuing at the rate of ------ until deliveries are completed.
> (c) Within ------ after date of contract.
> (d) Beginning ------ and completed by ------.
> (e) Within the periods shown in the specifications.
> (f) The contractor shall commence work within ------ calendar days after date of receipt of notice to proceed and complete the work within ------ calendar days after the date of receipt of notice to proceed.

§ 116.01–140 *Where time is a controlling element; liquidated damages*—(a)

General. Discretion must be used in setting the time for delivery or completion on a realistic basis considering possible delays in obtaining material or unexpected difficulties encountered in prosecuting the work due to weather or the site. Too short a time for performance causes disputes and poor contractual relations especially when a number of extensions are later requested for reasons which might have been foreseen and when a longer time would have well served the original need.

(b) *Supply contracts.* Where time of delivery or performance is to be a controlling element in the acceptance or rejection of proposals, the fact shall be stated in the invitations in order that all bidders may have an equal opportunity to offer the items or services within the time so specified. Where it is not so stated, this element cannot be considered in the making of awards. The following clause may be used. The scale in paragraph (c) (2) below will be used in determining the daily rate of liquidated damages for supply contracts.

Time required for delivery (completion) is important and will be considered when making award. Delivery (completion) is required not later than (Insert Required Date). A liquidated damage clause assessing (Insert Rate per Day and Unit of Assessment) for each calendar day of delay in delivery (completion) will be included in the contract.

(c) *Construction contracts* (SF–23)—(1) *Repairs to vessels.* A liquidated damage clause shall be inserted in all contracts for repairs to vessels. The clause applicable to vessel repair contracts is contained in Article 4 of Form CG–2557B, Conditions Applicable to Contracts for Repairs to Vessels, which shall be made a part of the invitation for bids and the resulting contract.

(2) *Other construction contracts.* A liquidated damage clause shall be inserted in all contracts for the construction and repair of real property in the form indicated in § 118.03–5 (k). In order to provide an equitable rate of liquidated damages to be incorporated in such contracts to protect the Government in the assessment thereof when necessary, the following scale is suggested. The assessment of liquidated damages at the rates suggested is left to the discretion of the contracting officer. However, higher rates of liquidated damages may be set for projects requiring early completion dates.

Amount of contract:	*Liquidated damages*
$2,000 to $10,000	$10 per day.
$10,000 to $15,000	$10 to $15 per day.
$15,000 to $30,000	$15 to $20 per day.
$30,000 to $45,000	$20 to $25 per day.
$45,000 to $70,000	$25 to $35 per day.
$70,000 to $100,000	$35 to $40 per day.
$100,000 to $150,000	$40 to $45 per day.
$150,000 to $200,000	$45 to $50 per day.
$200,000 to $300,000	$50 to $60 per day.
$300,000 to $400,000	$60 to $65 per day.
$400,000 to $550,000	$65 to $80 per day.
$550,000 to $750,000	$80 to $100 per day.
$750,000 and over	$100 per day and over.

(3) *Extension of time.* Clause 5 (c) of Standard Form 23a, General Provisions (Construction Contracts) prescribes the acceptable causes for delay in contract completion. Any such delay beyond the contractor's performance time must be incorporated in a Change Order (Form CG–3473) immediately after the incident occurs in accordance with the provisions of Clause 5 (c), Standard Form 23a. Change orders granting an extension of time must be fully justified and the extenuating circumstances described in detail. In interpreting the word "unforeseeable" as used in the above clause, the Comptroller General of the United States, in his decision (B–73902), 27 Comp. Gen. 621, ruled:

> It is to be understood at the outset that the application of excusable causes enumerated in the contract provision in question is dependent upon the factual situation present in a given case. That is to say, it is well established that the mere happening of an event or cause enumerated in the contract may not be regarded, *ipso facto*, as excusing the contractor, but there is first for consideration whether such event or cause was so abnormal, extraordinary or unusual, as to render it unforeseeable.

§ 116.01–141 *Item-by-item versus all-or-none award.* Where the invitation for bids covers a group of items, awards are to be made item by item unless otherwise specified or unless it is clearly to the advantage of the Government to accept the lowest aggregate bid.

§ 116.01–142 *Repairs to vessels; lay days.* Invitations and contracts covering drydocking or hauling out of the water of vessels incident to repair work shall include an item for the cost of "Lay Days."

§ 116.01–143 *Use of nickel and nickel bearing alloys*—(a) *General.* The supply of nickel and nickel bearing alloys is controlled by direct allocation from the National Production Authority to manufacturers producing products requiring the use of nickel. Due to the critical supply of this material, its use is extremely restricted and allocations will be governed by the end use for which the items are required. National Production Authority Order M–14 prohibits the use of nickel for certain items except those manufactured for use on board vessels operated by the armed forces of the United States, including the Coast Guard.

(b) *Statement required in contracts and purchase orders.* Contracts awarded and purchase orders placed for items requiring the use of nickel should contain or be accompanied by a statement substantially as follows:

> As the items being procured by this order require the use of nickel, the Coast Guard purchase order number and date, together with the end use specified below should be included in any order placed by your firm, or by your subcontractors, in obtaining material and supplies to complete this Coast Guard order.
>
> *The end use is as follows:* Transmitters (or other item) for military use on board a Coast Guard cutter.

§ 116.01–144 *Construction and repair specifications*—(a) *General.* Since construction and repair contracts embrace the furnishing of labor, materials and/or equipment, specifications shall be written in a complete and clear manner. In addition to the provisions of Forms CG–2557B (Conditions Applicable to Contracts for Repairs to Vessels), CG–2557C (General Conditions Applicable to Contracts for Construction and/or Repairs to Shore Structures), and SF–23a (General Provisions—Construction Contracts), the outline should include, but is not restricted to, the following:

(1) Designation of contracting officer and requirement for his written authorization of all changes to contract terms. (See §§ 116.01–24 and 116.01–25.)

(2) Scope of the work—

(i) Complete description of vessel or real property covered by contract and work to be done;

(ii) Designated inspecting officer and inspection instructions;

(iii) Requirement for written authorization(s) to proceed with work;

(iv) Requirement for contractor to make written request(s) for extension(s) of time for completion;

(v) Special instructions.

(3) Standard and special contract clauses.

(4) Itemization of labor, materials and/or equipment to be furnished by contractor.

(5) Statement of materials and/or equipment to be furnished by Government.

(6) Detailed itemization of work to be performed—

(i) Definite items;

(ii) Indefinite items.

(7) Temporary services to be provided by the contractor, such as light and power, water, steam, garbage disposal, telephone service, etc.

(8) Drawings, plans, sketches, etc.

(9) Bonding requirements.

(b) *Terms, conditions, and provisions in recurring invitations.* Where a large volume of invitations are issued on similar, recurring contracts, standing terms, conditions, etc., not contained in regular printed forms should be set up on locally prepared forms in quantities peculiar to the requirements of each contracting office in order to eliminate unnecessary paper work and to expedite processing invitations and/or contracts. However, terms, conditions, and provisions inconsistent with those prescribed herein or in current supplementary directives may not be used unless authorized by the Commandant (FS–1).

§ 116.01–145 *Burial contracts*—(a) *General.* It shall be the policy of the Coast Guard to utilize burial contracts of the Department of Defense, or other Government departments or agencies, wherever practicable. When such contracts are not available, procurement of burial services (including materials other than uniform clothing and funeral flags) will be made by competitive bidding or negotiation, as circumstances warrant. Uniform clothing for burial purposes shall be obtained from Coast Guard clothing officers or procured from Navy clothing stores, unless otherwise authorized by the Commandant; funeral flags will be obtained in accordance with § 116.01–164.

(b) *Specifications*—(1) *Materials and services.* The following items apply to standard burial contracts. Items not required shall be omitted from the materials and services listed on SF–33 (Invitation, Bid and Award) or Form CG–2982 (Request for Quotation). Additional items required may be added to the above forms, provided procurement is authorized. The specifications indicated are contained in the Department of Defense Specifications for Uniform Burial Contract. (See subparagraph (2) of this paragraph.)

(i) For complete embalming service as per Specification 1.

(ii) Funeral service as per Specification 2.

(iii) For Type I Casket, burial, metal, with inner-seal as per Specification 3.

(iv) For Type II Casket, burial, metal, without inner-seal as per Specification 3.

(v) For shipping case of proper size to contain Type I or Type II Casket, metal, burial as per Specification 4.

(vi) For transportation of remains in contractor's hearse to any local cemetery within a radius of _____ miles of the _____

_____

(Name of installation)

(vii) For delivery of remains in contractor's hearse, ambulance or other suitable closed conveyance to common carrier terminal within a radius of _____ miles of the _____

_____

(Name of installation)

(viii) For passenger car for members of immediate family, where required, to a local cemetery for interment, or to common carrier terminal when remains are to be shipped to final destination.

(2) *Department of Defense specifications for uniform burial contract.* These specifications shall be used by Coast Guard contracting officers in the procurement of burial materials and services.

SPECIAL PROCUREMENT INSTRUCTIONS

§ 116.01–155 *Procurement of office labor-saving devices.* (a) Direct procurement of office labor-saving devices from any commercial source without prior approval of the Commandant (FS) is prohibited.

(b) Field units requiring office labor-saving devices, other than replacement typewriters and adding and calculating machines, will submit to the Commandant (FB), via official channels, a requisition (Form CG–2556) fully describing the equipment desired and utilizing the stock numbers as contained in the current Federal Supply Schedule, if available.

(c) Replacement of typewriters and adding and calculating machines will be in accordance with regulations prescribed by the General Services Administration.

(d) Procedures covering the exchange of material are set forth in §§ 116.01–90 through 116.01–92 and § 118.02–19 of this chapter.

(e) Requisitions covering replacement equipment will describe fully the equipment to be replaced. Requisitions covering additional equipment will be supported by a letter justifying the need for the additional equipment.

(f) Requests for electric typewriters must be accompanied by a complete and detailed justification.

(g) Upon receipt of the newly procured devices, the Commandant (FS) shall be furnished with a complete description thereof and the unit to which they will be assigned.

§ 116.01–156 *Procurement of electric fans.* (a) Until such time as term contracts are executed for electric fans (meaning any propeller type fan designed for desk, pedestal, wall bracket, ceiling, or portable window mounting electric fan) under Federal Supply Schedules, the Federal Supply Service, General Services Administration will procure all new electric fans required by the Coast Guard, except those for shipboard use.

(b) District offices and Headquarters units are authorized to submit purchase orders (Form CG–2557) for electric fans, if not in excess of authorized allowances, directly to the Federal Supply Service, General Services Administration, 7th and D Streets SW., Washington 25, D. C.

§ 116.01–157 *Procurement of refrigerators.* (a) The Federal Supply Service, General Services Administration will procure all new refrigerators required for use by the Coast Guard, except refrigerators for shipboard use or "walk-in" or "reefer" type refrigerators. Refrigerators to be procured shall include all portable commercial and household refrigerators and low temperature storage cabinets, with self-contained electric or gas units, in conformance with General Services Administration Specification No. 811, dated 28 April 1950, or to applicable specification developed by the requisitioning activity.

(b) District offices and Headquarters units are authorized to submit purchase orders (Form CG–2557) for refrigerators, if not in excess of authorized allowances, directly to the Federal Supply Service, General Services Administration, 219 South Clark Street, U. S. Court House, Room 528, Chicago 28, Illinois.

§ 116.01–158 *Procurement of electric water coolers.* (a) The Federal Supply Service, General Services Administration will procure all new electric water coolers required by the Coast Guard, except those for shipboard use. Water coolers to be procured shall include the following types and sizes listed in Federal Specification 00–C–566B dated 31 July 1947:

Bubbler style (type I, air-cooled condenser; type II, water-cooled condenser), sizes 5, 10, and 20.

Cafeteria style (type III, air-cooled condenser; type IV, water-cooled condenser), sizes 20 and 30.

Remote style (type V, water-cooled condenser), sizes 10 and 20.

Bottle style (type VI, air-cooled condenser, size 3.

(b) District offices and Headquarters units are authorized to submit purchase orders (Form CG–2557) for electric water coolers, if not in excess of authorized allowances, directly to the Federal Supply Service, General Services Administration, 219 South Clark Street, U. S. Court House, Room 528, Chicago 28, Illinois.

§ 116.01–159 *Substitution of wood for steel.* During any period in which steel is in short supply, all requests for procurement of such items as desks, filing cabinets, tables, etc., shall be screened for possible substitution of wood in lieu of steel.

§ 116.01–160 *Purchase of gasoline and lubricating oil by credit cards.* (a) District Commanders may authorize the purchase of gasoline and lubricating oil for service station delivery. Further, such purchases may be accomplished through the use of a credit card as provided for in the Federal Supply Schedule under "General Provision for Service Station Deliveries" Classes 7 through 14, applicable to the GSA region in which the district is located.

(b) The issue of credit cards by District Commanders will be restricted to:

(1) Units where Coast Guard refueling is not available for vehicles in their usual operations.

(2) Units which have vehicles that operate away from unit in areas where Coast Guard refueling is not available.

(c) In using credit cards the following important directions must be followed:

(1) When buying gasoline, procure "regular" gasoline only.

(2) Make sure vehicle Standard Identification Tag (license plate) number is entered on sales slip.

(3) After signing sales slip, obtain a copy from the supplier and mail this copy of the sales slip to the District Commander (f). For prolonged trips, it is suggested that addressed envelopes be provided for this purpose.

(d) The Commanding Officer, Officer in Charge, or individual to whom credit cards are issued is responsible for the proper use of these cards. Some credit cards have a block or space provided for insertion of the license plate number. On transfer of a vehicle, cards of this type will be transferred with the vehicle, while cards without license plate numbers will be retained for use with the replacement vehicle.

(e) If at any time conditions change to the extent that any Commanding Officer or Officer in Charge believes he should have credit cards for effective operation of his unit, he may request the credit cards from the District Commander (f), stating the number of cards desired, the oil companies preferred, and the details as to why the cards are necessary. Likewise any Commanding Officer or Officer in Charge who has excessive cards at any time may return them to the District Commander (f).

(f) Group Commanders, who do not need credit cards for operations described above in paragraph (b) (1) and (2) of this section may hold reserve credit cards for disaster relief or other emergency work which may require the

use of vehicles away from the Group area. Group Commanders who have credit cards for regular vehicle operations may use these in connection with any vehicle in the group dispatched in subject emergency work.

(g) If Purchase-Invoices (Form CG–2974) are used as a medium to post cost data for "Report of Operation of Vehicle" (CG–2956), this use of the invoice book may be continued.

(h) Tax Exemption Certificates, Standard Form 1094, will be issued by the paying officer when contractor's invoices are processed for payment, as prescribed in §§ 116.01–104 through 116.01–114.

§ 116.01–161 *Procurement of paint.* The procurement of paint shall be restricted to regular Coast Guard or Navy activities where thorough inspection is assured. Except as otherwise authorized by the Commandant (FS), commercial procurement of paint items peculiar to Coast Guard shall be initiated only by the Supply Center, Jersey City, N. J. With the exception of those items covered by the Paint and Color Manual (CG–263) requiring Headquarters' approval, the procurement of all paints made commercially must be supported by a statement of the necessity therefor or a reference to the authority for the procurement and a copy of the procurement document shall be forwarded to the Commandant (FS).

§ 116.01–162 *Procurement of manila rope.* All Coast Guard units, including vessels with supply officers attached, shall requisition their requirements for manila rope ¾" circumference and larger from Coast Guard supply units. Commercial procurement of manila rope ¾" circumference and larger shall be initiated by the Supply Centers in accordance with current Coast Guard specifications. Procurement of manila rope ¾" and larger from other sources, except to meet an immediate requirement that cannot be satisfied from Coast Guard supply units, is prohibited. When procurement action from other than Coast Guard supply units is necessary, a copy of the purchase document shall be forwarded to the Commandant (FS) endorsed by the procurement officer to indicate the nature of the requirement and the fact that procurement could not be made from Coast Guard supply sources within the time required.

§ 116.01–163 *Procurement of morale and recreation equipment*—(a) *Allotment of funds.* Funds will be allotted to Districts and individual Headquarters' units under subhead 55 to the maximum extent possible for the procurement of morale and recreation equipment. Funds for the procurement of morale and recreation equipment for field units will not be maintained at Headquarters except as necessary to procure the items listed in paragraph (b) of this section.

(b) *Procurement restricted to headquarters.* The following items may be requisitioned from the Commandant (PS) without charge to field allotments:

(1) Shotgun shells.
(2) Motion picture projectors.
(3) Pool tables.
(4) Libraries.

(c) *Procurement procedure.* The items listed in paragraph (b) of this section, except shotgun ammunition, should be requested from the Commandant (PS) as needs of the field units indicate. Prior to 1 June each year, District Commanders and Commanding Officers of Headquarters units shall furnish the following information to the Commandant (PS) in letter form:

(1) Estimated amount of shotgun ammunition required by the District or Headquarters unit for the following fiscal year indicating amount of each gauge and shot size desired.

(2) Unit to which shipment is to be made for storage pending distribution.

Shotgun shells required will be procured by Headquarters, insofar as available funds will permit, as soon as practicable after the beginning of the fiscal year for which estimates are submitted and shipped to designated units.

§ 116.01–164 *Funeral flags.* Commanding officers and officers in charge are authorized to issue the national flag (U. S. National Ensign #8, cotton) to accompany all bodies of Coast Guard personnel forwarded or delivered to the next of kin or relatives for interment. Procurement of such flags shall be made from regular sources of supply where practicable. Specific procurement of funeral flags shall be charged to Subhead 40 (Administrative Maintenance) of the appropriation "Operating Expenses, Coast Guard."

SUBPART 116.02—PROCUREMENT BY FORMAL ADVERTISING

General

§ 116.02–1 *Meaning of formal advertising.* As used in this part, formal advertising means that method of procurement following the procedures prescribed with respect to competitive bids and awards, which involves the use of standard invitation for bid forms containing specifications and conditions applicable to the proposed contract, instructions to bidders, and requires the submission of sealed bids for public opening at a given time and date.

§ 116.02–2 *Use of formal advertising.* (a) In accordance with the basic policies set forth in the act, procurement of supplies and services shall generally be effected by formal advertising. Bids shall be solicited from such sources as are deemed necessary by the contracting officer to assure full and free competition consistent with the procurement of the required supplies or services.

(b) Current lists of bidders shall be maintained. Requests for inclusion on such lists shall receive prompt and courteous attention.

(c) Procurements classified as confidential or higher shall not be effected by formal advertising, except when the Commandant determines this method to be in the interest of the Government.

§ 116.02–3 *General requirements for formal advertising.* No contract shall be entered into as a result of formal advertising unless and until all of the following requirements have been satisfied:

(a) Bids have been solicited as prescribed herein.

(b) Bids have been submitted in accordance with the requirements herein.

(c) All applicable requirements of law, of the Comptroller Manual, and current supplementary directives affecting the proposed procurement have been met.

(d) Any clearance or approval prescribed by the Comptroller Manual, and or current supplementary directives affecting the proposed procurement have been obtained.

(e) Award has been made to that responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to the Government, price and other factors considered.

Forms and Form Preparation

§ 116.02–10 *Preparation of invitation for bid forms.* Every invitation for bids should contain substantially the following information and any other information required by supplemental directives current at the time of the proposed procurement:

(a) Invitation number (by fiscal year).

(b) Name and address of issuing activity.

(c) Date of issuance.

(d) Date, hour, and place of opening.

(e) No. of pages and an adequate description of schedules, drawings, etc., making up the invitation.

(f) Purchase authority, appropriation, and accounting data.

(g) Discount provisions.

(h) Quantity of supplies or services to be furnished under each item, and any provisions for quantity variation.

(i) Description of supplies or services to be furnished under each item, complete with adequate specifications.

(j) Whenever specifications require prior testing and qualification of products, the right to reject bids offering products which do not meet this requirement must be expressly reserved.

(k) Time, place, and method of delivery.

(l) Requirement that bids shall be on an F. O. B. destination basis except where the total weight of shipment or partial shipment exceeds 20,000 pounds or requires the use of one or more freight cars, unless circumstances justify deviation from this policy.

(m) Permission, if any, to submit telegraphic bids.

(n) Permission, if any, to submit alternative bids, including alternative materials or designs.

(o) Requirement, in the case of advertising for construction of vessels, that the bidder file with his bid the estimates on which the bid is based.

(p) Preservation, packaging, packing, and marking requirements, if any.

(q) Place, method, and conditions of inspection.

(r) Bond and surety requirements, if any.

(s) Special provisions relating to such matters as Government-furnished property, progress payments, patent licenses, liquidated damages, profit limitations, etc., provided that any such special provisions are authorized.

(t) A statement to the effect that the successful bidder will be notified of contract award within ____ calendar days after date of opening of bids. (See § 116.02–113.)

(u) General contract provisions or conditions required by law.

§ 116.02–11 *Prescribed invitation for bid forms.* (a) Standard Form 33, Standard Form 33 (Invitation, Bid and Award), and Standard Form 36 (Continuation Sheet), shall be used to solicit bids for:

(1) Supplies or services.

(2) Minor construction and repair of real property (as defined in § 118.03–3 (a) of this chapter and vessels, provided the contract does not exceed $2,000 and does not require bonds.

(3) Construction and repair of aircraft.

(4) Construction and repair of aids to navigation (as distinguished from real property and vessels).

(5) Acquisition of land, buildings, etc.

(6) Leases of real property.

(b) *Standard Form 20.* Standard Form 20 (Invitation for Bids—Construction Contract), accompanied by Standard Form 21 (Bid Form—Construction Contract), shall be used to solicit bids for construction and repairs to the following for amounts of $2,000 or more, or a lesser amount which requires the use of bonds.

(1) Vessels.

(2) Shore structures.

§ 116.02–12 *Conditions applicable to invitations for bids*—(a) *General.* Invitations for bids shall specify all conditions which will subsequently form part of the contract. The applicable conditions shall form part of the schedule or be incorporated by appropriate reference (i. e., "Subject to the conditions of Form ____ [or, Articles _____ of Form ____] attached hereto and forming a part of this invitation."). The following forms are available for this purpose:

(1) Standard Form 22, Instructions to Bidders (Construction Contract).
(2) Standard Form 23a, General Provisions (Construction Contracts).
(3) Standard Form 32, General Provisions (Supply Contract).
(4) Standard Form 42, Standard Government Instructions to Bidders (Coal).
(5) Standard Form 43, Standard Government Purchase Conditions (Coal).
(6) Form CG–2557A, Additional General Provisions (Supply Contract).
(7) Form CG–2557A–1, Additional General Provisions (Supply Contract).
(8) Form CG–2557B, Conditions Applicable to Contracts for Repairs to Vessels.
(9) Form CG–2557C, General Conditions Applicable to Contracts for Construction and or Repair of Shore Facilities.
(10) Form CG–2557C–1, Additional Contract Conditions—Construction Contract ("Kickback" Regulations).

(b) *When execution of separate contract required.* Invitations for bids which require the successful bidder to execute a separate award type (or "long form") contract shall contain a statement as follows:

The successful bidder will be required to execute a contract on Standard Form No. ____, a copy of which is appended hereto for information.

§ 116.02–13 *Eliminating unnecessary distribution of conditions.* (a) To facilitate bidding by concerns regularly doing business with the Coast Guard, and to eliminate unnecessary distribution of the contract condition forms listed in Sec. 116.02–12, the forms may be incorporated by reference in the invitation rather than attached thereto upon each new procurement. This may be done by the use of the following clause in the schedule or continuation sheet:

Standard Form(s) _____ and Coast Guard Form(s) _____ are incorporated herein by reference and made a part hereof. Copies of these forms have been furnished previously; additional copies are available on request. Failure to obtain the contract conditions referred to herein will not relieve the successful bidder of any contractual obligation.

(b) In following the foregoing procedure, it is necessary that the contracting officer (1) distribute copies of the forms to all prospective bidders on the mailing list requesting that they be retained for future reference, (2) provide additional copies promptly to such bidders upon request, and (3) strike out the word "Attached" under the heading "Invitation for Bids" on Standard Form 33.

(c) Where it is desired that the contract condition forms accompany the invitation when it is mailed to prospective bidders, a single copy of each contract condition form should be provided for the bidder in lieu of attaching several copies with the basic invitation. Appropriate reference to the pertinent conditions shall be made in the schedule or continuation sheet.

§ 116.02–14 *Copies of proposed construction contracts required by headquarters.* Two copies of all invitations for bids involving construction contracts to be executed on Standard Form 23 (Construction Contract) and two copies of the proposed contract, complete with plans and specifications, shall be forwarded to the Commandant (FS–1) at the time the invitations for bids are distributed.

§ 116.02–15 *Methods of soliciting bids.* (a) Manufacturers and regular dealers, who can establish or have established their fitness and ability to fulfill contract requirements, will be placed on mailing lists for bids or notices in advance of bids. Bids shall be solicited by the methods prescribed in subparagraphs (1) and (2) of this paragraph and by the methods prescribed in subparagraphs (3) and (4) of this paragraph to the extent deemed necessary by the contracting officer in order to assure full and free competition. Synopses of invitations for bids shall be prepared and distributed as prescribed by § 116.01–74.

(1) Mailing or delivering to prospective bidders.

(2) Displaying in a public place, such as a post office, a purchasing office, or some other appropriate public place.

(3) Free publication in trade journals or magazines whose subscribers are manufacturers of or dealers in the supplies or services being procured.

(4) Free publication in newspapers.

(b) No paid advertisement for bids shall be inserted in any newspaper, trade journal, or other publication without the prior approval of the Commandant (FS).

§ 116.02–16 *Establishing competition.* (a) Bids shall be solicited from three or more responsible bidders when practicable to do so. In addition, a copy of the invitation, or a description thereof, shall be posted in a public place, inviting a general participation in the competition.

(b) The solicitation of bids is not restricted to the immediate locality. If, after consideration of time and cost of transportation, a more advantageous price may be obtained elsewhere, invitations should be distributed accordingly. Invitations should be posted and circulated not only at the place of solicitation and at the site of the proposed work, but should be given wide circulation generally in order that the Government may obtain the most economical procurement available.

(c) Competition shall not be defeated by grouping diverse items on the same invitation, resulting in the receipt of a limited number of bids.

(d) Invitations for bids shall allow sufficient time for interested bidders to prepare and submit their bids. (See § 116.03–73.)

(e) An invitation sent to one bidder and a notice posted in one public place does not constitute sufficient advertising for supplies or services in the absence of facts justifying the limited distribution.

(f) The fact that an article is patented, copyrighted, manufactured or distributed exclusively by a limited number of sources is not an acceptable reason for omitting advertising.

(g) Competition shall not be dispensed with to match equipment on hand, inasmuch as numerous firms may be in a position to furnish the required item or a satisfactory substitute.

§ 116.02–17 *Retention of records.* Each procurement transaction file shall be complete and copies of all documents, properly authenticated, will be included therein. Procurement transaction files will be maintained in such a manner as to present a complete résumé of the transaction for historical record or such other purpose as may be required. Invitations for bids and abstracts of bids will be retained for at least six years after date of award, unless retired sooner under proper disposal authority.

§ 116.02–18 *Amendments to invitations for bids.* (a) Amendments to invitations for bids must be distributed to all recipients of the invitation, and such amendments shall provide that bidders are to sign and return the amendments prior to the opening of the bids. The date set for opening the bids shall be postponed when necessary to afford bidders sufficient time to return the amendments.

(b) Amendments, if issued, will refer to the number, date of issue, and opening date of the original invitation, will clearly indicate the nature of the changes made therein, and will be numbered serially as issued.

Distribution of Bids

§ 116.02–40 *General.* The advertisement for bids shall be a sufficient time previous to the purchase or contract, and specifications and invitations for bids shall permit such full and free competi-

tion as is consistent with the procurement of types of supplies and services necessary to meet the requirements specified in this manual. The invitations may not contain restrictions or conditions, not required in the public interest, which tend to limit competition. Invitations and specifications must be such as to permit competitors to compete on a common basis.

§ 116.02–41 *Manner of solicitation.* Normally, the statutory requirements as to advertising are satisfied by posting a copy of the notice in an appropriate public place and by mailing or delivering invitations for bids to a fairly representative selection of prospective bidders. Care must be exercised to provide adequate advertisement to insure full and free competition by sending invitations to a sufficient number of prospective bidders. Advertisements posted in public places should always conform with the invitation circulated among prospective bidders. The methods of solicitation of bids are detailed in § 116.02–15.

§ 116.02–42 *Qualification of bidders.* The question of a bidder's qualification to do the work, or to furnish supplies advertised for in the invitation for bids, is primarily for consideration in making the award, but also may arise in connection with the solicitation of bids. For projects of a special nature, the invitation may state certain minimum qualifications which a bidder must possess in order to be considered in making the award, although a showing of such qualifications may not be made a condition of his right to submit a bid. Except for bidders officially debarred because of the violation of certain statutes, it is improper to limit competition to bidders approved in advance.

§ 116.02–43 *Restrictions or conditions in invitations.* Invitations to prospective bidders should not impose conditions or restrictions which tend to limit competition unless required by statute or otherwise permitted in the public interest.

§ 116.02–44 *Definition of product.* As a general rule, the specifications must define the product to be contracted for in terms sufficiently definite to assure that every bid made in compliance therewith will be for substantially the same product. This is necessary to enable all bidders to compete on a common basis and to assure the Government the lowest price obtainable. This rule does not preclude a request in the invitation for bids that alternate bids be submitted on the bases of several different qualities of material. Specifications should be drawn with regard to the actual needs of the service, and should not reflect the preference of a purchasing officer or contracting officer for a particular make or type of article. See Subpart 116.01 for detailed instructions in the use of specifications.

§ 116.02–45 *Contractors indebted to the Government.* (a) Each department of the Government has a continuing responsibility for the collection of debts due the United States of which it has knowledge regardless of the department or agency within which the indebtedness arises. To facilitate the execution of this policy, the Department of the Army prepares for all departments and agencies a list of indebted contractors entitled "Hold-Up List." Authorized certifying officers settling vouchers in payment of Coast Guard contracts will maintain an up-to-date copy of the above list and shall afford full cooperation in the collection of amounts due the United States.

(b) When an authorized certifying officer has knowledge that a debtor contractor (other than a common carrier) has a contract with another agency, request will be made upon such agency, via the Commandant (FS), to withhold from the contractor and remit to the requesting officer the amount sufficient to cover the indebtedness. Upon failure to effect collection within a reasonable period, the indebtedness, consistent with existing procedures but not less than $25, will be promptly reported to the General Accounting Office, via the Commandant (FS), with a complete statement of the facts involved. The Commandant (FS) will furnish the name of the indebted contractor to the Department of the Army for inclusion on the "Hold-Up List," together with information that the indebtedness has been referred to the General Accounting Office.

(c) When the name of the indebted contractor has been placed on the "Hold-Up List," all checks drawn to liquidate the indebtedness will be transmitted through the Office Chief of Finance, Department of the Army, Gravelly Point, Washington, D. C., to the department to which the amount is due or to the General Accounting Office if report of the indebtedness has been made pursuant to paragraph (b) of this section. Copies of the transmittal letters shall be furnished the Commandant (FS). All such checks shall be drawn payable to the "Payee or Treasurer of the United States" and shall be accompanied by a statement sufficient to identify the indebtedness against which it is to be applied. If the set-off is to cover the indebtedness of more than one department or agency, separate checks will be drawn to cover each such indebtedness, or in the event the vouchers presented exceed the amount of the debt an additional check will be drawn in favor of the payee for the balance due to be forwarded directly to the payee. Advice of such collection action will be furnished the contractor-debtor by the officer making the deduction.

§ 116.02–46 *Bidders' mailing lists.* (a) *General.*—(1) *When required.* The contracting officer will establish and maintain a bidders' mailing list, as described below, at those units where procurement or sales transactions are solicited by advertising. This list may be utilized for soliciting negotiated transactions when the contracting officer deems that the number of prospective suppliers is sufficient to guarantee procurement by competitive negotiation.

(2) *Format of list.* The list will be comprised of two files set up in the following manner:

(i) *Bidders' index file.* An alphabetical arrangement, according to bidder's name, of all Bidder's Mailing List Applications (Standard Form 129) received from prospective suppliers under paragraph 2 below.

(ii) *Commodity index file.* An arrangement of 4 x 6" or 5 x 8" cards (with one-third cut) in alphabetical order according to tabs, to commodity group. On the card will be listed items usually included on the same invitation for the commodity group appearing on the tab. When appropriate for larger groups, such as electrical, hardware, and machinery supplies, untabbed index cards listing subdivisions of the commodity group will be prepared and filed behind the tabbed card. The name and address of every prospective supplier included in the bidders index file will appear on the commodity index card listing items in which the supplier has indicated interest.

(b) *Method of compiling lists.*—(1) *General.* The establishment of new bidders' mailing lists shall be accomplished by soliciting applications on SF–129 (Bidder's Mailing List Application) from suppliers believed qualified to fill Coast Guard requirements. Procurement officers will furnish prospective bidders such additional instructions for the preparation and transmittal of SF–129 as may be required to insure its proper completion and filing and, where practicable, a list of items or groups of items normally procured on a recurring basis. All suppliers who appear from the bidders' mailing list applications (SF–129), or other available information, to be qualified and eligible to fill the unit's procurement needs will be placed on the bidders' mailing list.

(2) *Procurement of application forms.* Supplies of SF–129 (Bidder's Mailing List Application) may be obtained from the appropriate regional office of the General Services Administration.

(c) *Removal of names from bidders' mailing list.*—(1) *Failure to respond to invitation for bids.* Where a supplier fails to respond to two consecutive invitations for bids (or pre-invitation notices), his name shall be removed from the bidders' mailing list without notice to the supplier, but only for the item or items involved in the invitation (or pre-invitation notice), except that, in individual cases only, bidders thus failing to respond may be retained on a bidders' mailing list if such retention is determined to be in the best interests of the Government. For the purpose of this subparagraph, a response to an invitation for bids (or pre-invitation notice) shall be understood to include both actual bids and written requests from non-bidding suppliers for retention on the bidders' mailing list.

(2) *Debarred contractors.* The names of suppliers who have been debarred from entering into Government contracts, or otherwise determined to be ineligible to receive an award of a Government contract, shall be removed from the bidders' mailing list of the unit to the extent required by such debarment or determination of ineligibility.

(3) *Periodic review.* Procurement officers shall provide for a periodic review of bidders' mailing lists to insure conformance with subparagraphs (1) and (2) of this paragraph.

(4) *Reinstatement of suppliers on bidders' mailing lists.* Suppliers whose names have been removed from bidders' mailing lists may be reinstated upon their request and, where required, by filing a new application on SF–129, in accordance with the procedures of the unit; provided that no supplier who has been debarred shall be reinstated until after termination of the period of his debarment.

(d) *Utilization of bidders' mailing lists.*—(1) *General.* The degree of use of the entire mailing list in any procurement shall be as broad as is compatible with efficiency and economy in securing adequate competition, as required by law. In addition to the operation of bidders' mailing lists, the available facilities of the Department of Commerce for the dissemination of synopses of proposed purchases, as covered by § 116.01–74, shall be utilized to make more widely available to all business enterprises (particularly small business concerns and concerns in surplus labor areas) public notice of procurement information sufficiently in advance of bid closing date to insure the broadest participation of qualified suppliers.

(2) *Economy of operation.* The administrative cost of each purchase in relation to the dollar value of the articles or services being procured should be considered in order to achieve maximum economy in procurement. For example, on items having local supply characteristics (such as sand and gravel), bids should be solicited only in the geographic area where performance can be expected.

(3) *Excessively long bidders' mailing lists.* When the number of names on a bidders' mailing list is deemed to be excessive in relation to a specific procurement, the following methods, in addition to such others as the unit concerned may determine to be advantageous in this respect, may be employed to provide a reduced list of names for use in making the specific procurement:

(i) *Rotation of mailing lists.* Bidders' mailing lists may be rotated; that is, if there is an excessive number of names on the list for a specific article or service, the procurement officer may mail invitations to the first 20 percent of names on the list. When the same item is needed again, invitations may be sent to the second 20 percent, etc. This system will require considerable judgment on the part of the purchasing officer as to the size of transactions where rotation is justifiable, the interests of small business concerns, the existence of surplus labor areas, the adequacy of the curtailed list, and the best interests of the Government. This system does not preclude consideration of bids received from bidders other than those to whom invitations were originally sent.

(ii) *Pre-invitation notice.* In lieu of forwarding complete bid sets in the first instance, a postcard or other suitable notice containing a condensation of essential information from the invitation for bids approved for issuance, and instructions for obtaining bid sets, may be mailed to suppliers on the established list. Upon receipt of the reply to such notice within the specified time, bid sets should be forwarded to those persons or concerns showing an interest in the proposals. Such notices must (*a*) be sufficiently informative to provide the supplier an intelligent basis for judging whether he has an interest in the procurement, and (*b*) provide the means for indicating the suppliers' desire to be retained on the bidders' mailing list. Also, it is of utmost importance that the closing date for receipt of bids be sufficiently subsequent to the mailing of such notice to assure adequate time for submission of bids. This device is particularly adaptable to major purchasing units where lengthy invitations for bids and long bidders' mailing lists are common.

§ 116.02–47 *Debarment of bidders.*—(a) *General.*—(1) *Scope.* This paragraph prescribes policies and procedures relating to the debarment of bidders for any cause and ineligibility of bidders under Section 1 (a) of the Walsh-Healey Public Contracts Act (41 U. S. C. 35a). It is applicable to both advertised and negotiated procurement.

(2) *Security classification.* Correspondence relating to debarred or ineligible firms or individuals and lists of such firms or individuals shall be classified.

(3) *Administrative and Buy American Act debarments.* When the public interests warrant the administrative debarment of a firm or individual for any of the causes listed in paragraph (e) of this section, or for violation of section 3 (a) of the Buy American Act (Public Law 428, 72d Congress, 47 Stat. 1520; 41 U. S. C. 10 b (b)), a detailed report shall be submitted to the Commandant (FS). The Commandant will review the evidence submitted, make the necessary debarment determination, and advise all Coast Guard contracting officers and other agencies concerned of any debarment made as a result of such determination.

(b) *Lists of debarred or ineligible bidders.*—(1) *Interchange of debarment information.*—(i) *General Services Administration.* The General Services Administration is charged by GSA Regulation 1–II–207.07 with compiling from notifications of debarments furnished by the military departments and executive agencies a combined list of such debarments, including the basis of action, and distributing a copy of such lists to all executive agencies including the military departments. In general application, this listing, known as the General Services Administration Refer List, will be for information only and is not intended to take the place of, or be in addition to, the lists maintained by the various agencies. The Commandant (FS) will notify the General Services Administration of debarment actions taken by the Coast Guard.

(ii) *Department of Labor.* The Wage and Hour and Public Contract Divisions of the Department of Labor disseminate listings of ineligible bidders under section 1 (a) of the Walsh-Healey Public Contracts Act. Listings of ineligible bidders under section 1 (a) of the above act and the extent of ineligibility are published to contracting and purchasing offices of the federal government by the Department of Labor in the form of circular letters and supplements thereto.

(iii) *Navy.* The Chief of Naval Material, in behalf of the Department of the Navy, exchanges listings of debarred bidders with the Departments of the Army and Air Force and the General Services Administration and, to the extent deemed appropriate, periodically publishes listings received from such agencies, together with lists promulgated by the Department of Labor. The publication NAVEXOS P–1205, Consolidated List of Debarred, Ineligible and Suspended Contractors, contains the names of firms and individuals who have been debarred, declared ineligible, or suspended and the extent of the restriction imposed with respect to awarding contracts to such firms or individuals.

(iv) *Coast Guard.* The Chief, Procurement Section at Headquarters, in behalf of the Commandant, maintains a master file of all firms or individuals debarred by the Coast Guard. Notification of such debarments will be made to the General Services Administration by the Commandant (FS) pursuant to GSA Regulation 1–II–207.06. Likewise, replies to direct inquiries from other agencies concerning any debarment case processed by the Coast Guard will be made by the Commandant (FS).

(2) *Lists to be maintained.*—(i) *General.* Due to its extensive coverage, Navy publication NAVEXOS P–1205 shall be used as the official list of debarred, ineligible and suspended contractors by Coast Guard contracting officers. Supplemental lists will be promulgated by the Commandant, when necessary, to furnish information regarding firms or individuals debarred by the Coast Guard and debarments made by other agencies which are not included in NAVEXOS P–1205, but which are to be observed by Coast Guard contracting officers. In using NAVEXOS P–1205, requests for administrative determinations shall be addressed to the Commandant (FS) in lieu of the Chief of Naval Material. (See § 116.02–46 (c) (2) regarding the use of debarred bidders' lists in connection with bidders' mailing lists.)

(ii) *Headquarters.* The following lists of debarred and ineligible bidders shall be maintained by the Chief, Procurement Section at Headquarters. Requests for information concerning these lists originated by field and Headquarters' units shall be addressed to the Commandant (FS).

A. NAVEXOS P–1205.
B. GSA Refer List.
C. Department of Labor circular letters.
D. Master file of Coast Guard debarment actions.

(iii) *Other units.* The following lists of debarred and ineligible bidders shall be maintained by contracting officers at those units listed in § 116.01–6 (c) (1) through (7), inclusive.

A. NAVEXOS P–1205.
B. Coast Guard supplements to NAVEXOS P–1205 (see subparagraph (2) (i) above).

(c) *Bases for debarment and ineligible list entry.* Firms or individuals are entered on the debarment and ineligible

lists indicated in paragraph (b) of this section on the following bases:

(1) *Section 3, Walsh-Healey Public Contracts Act.* Those listed by the Comptroller General in accordance with the provisions of section 3 of the Walsh-Healey Public Contracts Act (41 U. S. C. 37), which have been found by the Secretary of Labor to have violated any of the agreements or representations required by that act.

(2) *Section 3, Davis-Bacon Act.* Those listed by the Comptroller General in accordance with the provisions of section 3 of the Davis-Bacon Act (40 U. S. C. 276a–2 (a)), as found by the Comptroller General to have violated said act.

(3) *Administrative debarments.* Those an executive agency, including the Coast Guard, determines to debar administratively for any of the causes and under all of the appropriate conditions listed in paragraph (e) of this section.

(4) *Section 3 (b), Buy American Act.* Those determined by an executive agency, including the Coast Guard, in accordance with section 3 (b) of the Buy American Act (Public Law 428, 72d Congress; 47 Stat. 1520; 41 U. S. C. 10b (b)), to have failed to comply with the provisions of section 3 (a) of that act under any contract containing the specific provision required by said section 3 (a) and made by the agency for construction, alteration, or repair of any public building or public work.

(5) *Section 1 (a), Walsh-Healey Public Contracts Act.* Those found by the Secretary of Labor ineligible to be awarded contracts for the reason that they do not qualify as "manufacturers" or "regular dealers" within the meaning of section 1 (a) of the Walsh-Healey Public Contracts Act (Public Law 846, 74th Congress; 49 Stat. 2036; 41 U. S. C. 35 (a)).

(d) *Treatment to be accorded firms or individuals in debarred or ineligible status.* Firms or individuals listed as debarred or ineligible shall be treated as follows:

(1) *Total restrictions.* Contracts shall not be awarded to firms or individuals that are listed on the basis of paragraph (c) (1), (2), or (3) of this section, nor shall bids or proposals be solicited therefrom: *Provided, however,* That when it is determined essential in the public interest by the Commandant (FS), an exception may be made with respect to a particular procurement action even when a firm or individual is listed as debarred on the basis of paragraph (c) (3) of this section.

(2) *Buy American Act restrictions.* As specified in the Buy American Act (41 U. S. C. 10b (b)), contracts shall not be awarded for construction, alteration, or repair of public buildings or public works in the continental United States or elsewhere to firms or individuals listed on the basis of paragraph (c) (4) of this section, nor shall bids or proposals therefor be solicited therefrom. However, firms or individuals listed on this basis may be awarded contracts and may be solicited for bids or proposals for other than construction, alteration, or repair of public buildings or public works in the continental United States or elsewhere.

(3) *Ineligibility restrictions of the Walsh-Healey Act.* Contracts shall not be awarded to firms or individuals in any amount exceeding $10,000 for those materials, supplies, articles, or equipment with respect to which the firm or individual has been found to be ineligible to be awarded a contract by the Secretary of Labor, as provided in paragraph (c) (5) of this section. However, firms or individuals listed on this basis may, in the discretion of the Commandant (FS), be awarded contracts and may be solicited by bids or proposals for: (i) such materials, supplies, articles, or equipment when the amount does not exceed $10,000; (ii) services regardless of amount; and (iii) commodities in which not declared ineligible regardless of amount.

(e) *Causes and conditions applicable to determination of debarment.* Each executive agency, including the Coast Guard, is authorized to debar in the public interest a firm or individual for any of the causes and under all appropriate conditions listed below. (See paragraph (a) (3) of this section.)

(1) *Causes.* (i) Conviction for commission of fraud in the obtaining of contracts or in the performance thereof;

(ii) Conviction under the Federal Anti-trust Statutes arising out of the submission of bids or proposals;

(iii) Conviction for commission of a criminal offense as an incident to obtaining a contract or in an attempt to obtain a contract;

(iv) Violation of contract provisions, as set forth in (a)–(c), of a character which is regarded by the agency involved to be so serious as to justify debarment action.

(a) Willful failure to deliver in accordance with the specifications or within the times of delivery provided in the contract.

(b) A history of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts, provided that the previous failure by the contractor is within a reasonable period of time preceding the determination to debar. However, failures to perform caused by acts beyond the control of the contractor shall not be considered.

(c) Violation of the contractual provision against contingent fees.

(v) Debarment by some other executive agency.

(2) *Conditions.* (i) Debarment for any of the above causes shall be made only upon approval of the head of the executive agency (the Commandant in the case of the Coast Guard) or his duly authorized representative.

(ii) Causes (i), (ii), and (iii) shall have been established by criminal conviction by a court of competent jurisdiction. In the event appeal taken from such conviction results in reversal of conviction, the debarment shall be removed if the bidder so requests. (Note, however, that criminal conviction for the above mentioned offenses does not necessarily require that the firm or individual be debarred, and that the decision to debar is still within the discretion of the executive agency concerned. The seriousness of the offense, the civil satisfaction received by the Government or available to the Government, and all mitigating factors should be considered in making the determination to debar.)

(iii) Cause (iv) shall be established by evidence which the executive agency determines to be clear and convincing.

(iv) Debarment for Cause (v) shall be made on the same bases as provided for whichever of Causes (i) to (iv) is appropriate, and may be based entirely upon the record of facts obtained by the original debarring agency, or upon a combination of additional facts with the record of facts of the original debarring agency.

(v) The debarment shall be for a reasonable, definitely stated period of time commensurate with the seriousness of the offense.

(vi) The firm or individual shall be given written notice of the debarment. The notice shall state as a minimum the period of debarment including effective dates, the reasons for debarment including a statement of the specific instances of dereliction, and shall provide reasonable opportunity for the contractor to present information for consideration upon his behalf.

RECEIPT AND OPENING OF BIDS

§ 116.02–55 *What constitutes a bid.* The submission of a bid on Standard Forms 21 or 33, or a letter embodying the specifications and conditions, signed by the bidder, constitutes a bid in connection with procurement by advertising.

§ 116.02–56 *Public opening of bids mandatory.* (a) All bids must be opened in public, by or in the presence of an officer or civilian administrative assistant designated by the contracting officer.

(b) Whenever bids have been solicited, the parties responding to such solicitations shall be duly notified of the time and place of opening of the bids, and be permitted to be present either in person or by attorney, and a record of each bid shall then and there be made.

§ 116.02–57 *Bids to be opened at the appointed time.* Bids shall not be opened in advance of the appointed time, which shall be stated on the invitation for bids.

§ 116.02–58 *Premature information forbidden.* No information relating to competitive projects which might affect competition shall be disclosed to anyone until the bids are publicly opened.

§ 116.02–59 *All bids to be preserved and recorded.* A copy of each bid received shall be preserved and recorded and retained in the permanent files of the contracting office. (See § 116.02–71.)

§ 116.02–60 *Failure of bidder to sign bid papers.* When a bidder fails to sign his bid and the bid is accompanied by a letter proposal properly signed, his bid is entitled to the same consideration as a properly signed bid.

§ 116.02–61 *Withdrawal of bids prior to opening.* Bids may be withdrawn at any time prior to the opening of the bids.

§ 116.02–62 *Withdrawal of bids prohibited after opening.* Except as limited by an option, a bid cannot after an opening be withdrawn before a reasonably sufficient time has elapsed for the proper examination of all bids received. In the case of bids submitted under a guaranty the bidder, if he attempts a withdrawal or an evasion after award, is held by the bond of agreement to execute a contract. Where no guaranty is required with the bid the bidder cannot be forced to execute a contract, recourse being to purchase against his account and collect the excess cost. Headquarters approval shall be requested prior to making a purchase against a contractor's account in the event of default.

§ 116.02–63 *Late bids received by mail.* Bids received in the mails after the hour of opening, which show by their respective postmarks that they were not mailed in proper time or manner to have been received by the specified hour of opening shall not be opened, but shall be returned to the bidder with a letter stating the time and place of mailing as shown by the postmark. When necessary to open the envelope to ascertain the name and address of the bidder, or to obtain any other identifying information, the circumstances of the opening shall be stated in the letter to the bidder.

§ 116.02–64 *Bids delayed in the mail.* Bids received after the hour fixed for the opening due to delays in the mail, but before award is made, will be considered provided the envelope containing the bid bears evidence of its mailing in time for arrival before the hour of opening. The following will be accepted as satisfactory evidence of its mailing in time for arrival before the hour of opening:

(a) When the envelope containing the bid bears a post office cancellation mark showing clearly that the bid was mailed in proper time and manner to have been received in the ordinary course of mail before the time fixed for the opening of bids.

(b) When the envelope containing the bid bears a metering device indicium and (1) the indicium includes the hour in addition to the city, state, and date, the indicium will be given the same recognition as a post office postmark and the rule in paragraph (a) of this section applies; or (2) the date only is shown in the indicium, and that date is such that the bid if mailed as late as the last hour of that day, would have arrived in the normal course of the mail at or before the time stated for the opening of the bid; or (3) the date only is shown in the indicium, and that date is such that the bid if mailed at some hour before the end of that day, would have arrived in the normal course of the mail at or before the time set for the opening, provided that before any award is made to the bidder concerned, an affidavit secured from him setting forth the actual hour of mailing shows that the bid was mailed on or before the hour which would have permitted the bid to have been received in the ordinary course of the mail at or before the time of opening of bids.

§ 116.02–65 *Attempt to gain advantage by late bids.* Evidence of an attempt on the part of the bidder to secure an advantage in the late mailing of a bid will be reported to the Commandant (FS). Frequency of late bids by the same bidder may be prima facie evidence requiring investigation.

§ 116.02–66 *Records of late bids.* All bids received in the mails after the time fixed for the opening shall be entered in the permanent record showing for each the time and place of mailing as indicated by the postmark. The witnessing officer shall initial the entry for each bid which, having been mailed in time, must be considered in deciding the awards. The envelopes for those particular bids shall be retained for at least one month after the opening of bids, available for inspection by bidders.

§ 116.02–67 *Late bids presented by hand.* A bid presented by hand after time of opening specified in the advertisement is a late bid and shall not be received.

§ 116.02–68 *Telephonic bids.* Telephonic bids may be solicited in cases of emergency. An adequate number of bona fide bids must be obtained, and all the procedure must harmonize as nearly as possible with the regular purchase procedure.

§ 116.02–69 *Telegraphic bids.* When bids are requested by purchasing officers to be submitted by telegram, the request for such bids will be worded as follows: "Telegraphic bids requested, to be received in (office concerned) by (hour and date fixed)."

§ 116.02–70 *Bid improperly identified.* No responsibility will be attached to an officer for the premature opening of a bid not properly addressed and identified.

§ 116.02–71 *Recording of bids.* The names of the bidders and the prices bid shall be recorded in a permanent record of the purchase transaction. When the items are too numerous to warrant recording of bids completely as in the case of periodical provisions contracts, an entry shall be made of the opening date, general description of the material, and the total number of bids received. The permanent record of bid results shall be maintained in ink or typewriter on Abstract of Bids, Form CG–3477, and Continuation Sheet, Form CG–3477A.

§ 116.02–72 *Availability of bids and records.* The permanent record and the bids will be available for public inspection. The original bids shall not be allowed to pass out of the hands of an official of the Government, except when the duplicate cannot be made available for public inspection and then only under the immediate supervision on an official of the Government under conditions which preclude the possibility of a substitution, addition, deletion, or alteration in the bid.

§ 116.02–73 *Reading bids aloud.* When bids are received they will be placed under lock and key where they will remain until advertised time of opening, when they will be removed and opened concurrently and publicly under the supervision of an officer or civilian administrative assistant. All bids will be read aloud in the presence of bidders, press representatives, and representatives of bonding companies, and immediately recorded. After bids have been read and recorded, copies may be examined by all interested parties.

ACCEPTANCE OF BIDS

§ 116.02–85 *Award to the lowest bidder.* The lowest eligible bidder offering to furnish the required supplies or services in accordance with the requirements is entitled to the award, in the absence of specific laws and regulations to the contrary.

§ 116.02–86 *Where time is a controlling element.* Where time is a controlling element, the bids must clearly show the time required for performance, and must include a liquidated damages clause for the protection of the Government. In such cases, all bids offering delivery within the required time limit shall be considered for award, and award shall be made to the lowest satisfactory bidder within the group of bidders complying with the time requirements.

§ 116.02–87 *Liquidated damages, computation of time.* Where a contract provides for liquidated damages for delay at a specific rate for each and every day or per calendar day, such damages shall be computed on the basis of calendar days rather than working days.

§ 116.02–88 *Tie bids.* (a) When two or more low bids are equal in all respects (taking into consideration cost of transportation, cash discounts, and all other factors properly to be considered), award shall be made by a drawing by lot which shall be witnessed by at least three persons and which may be attended by the bidders or their representatives, *Provided:*

(1) Subject to subparagraphs (2), (3) and (4) of this paragraph, (i) in the case of equal low bids, one of which is submitted by a small business concern, as defined in § 116.01–70, award shall be made to the small business concern, and (ii) in the case of equal low bids, two or more of which are submitted by small business concerns, award shall be made by a drawing by lot limited to the small business concerns.

(2) Where two or more equal low bids are received from small business concerns, one of which is submitted by a bidder who will perform the contract in a distressed employment area, designated as such by or on behalf of the President, award shall be made to the small business concern who will perform the contract in the distressed employment area.

(3) In the case of equal low bids, two or more of which are submitted by small business concerns who will perform the contract in a distressed employment area, award shall be made by drawing by lot limited to the small business concerns in the distressed employment area.

(4) Where two or more equal low bids are received, one bid being from a business concern (whether small or not) not in a distressed employment area and the other being from a bidder who, although not a small business concern, will perform the contract in a distressed employment area, award shall be made to the latter.

(5) The phrase "distressed employment areas" as used herein shall be in-

terpreted to mean Group III or Group IV as classified in the latest summary of Labor Market Developments in Major Areas published by the Department of Labor.

(b) When award is to be made by lot and the information available shows that the product of a particular manufacturer is offered by more than one bidder, a preliminary drawing by lot shall be made to ascertain which of the bidders offering the product of a particular manufacturer will be included in the final drawing to determine the award.

§ 116.02–89 *Unit prices govern.* In case of error in the extension of prices quoted on a bid, the unit price shall govern unless the quoted unit price is so obviously in error as to be immediately apparent to both parties involved.

§ 116.02–90 *Interest charges in bids.* No bids shall be accepted on which a bidder insists that a provision for interest charges on overdue accounts from due date to date of payment be in and made a part of the contract. Such a bidder may be permitted to withdraw his stipulation for interest even after the opening of bids. In the absence of specific authority, no contracting officer can obligate the Government to pay interest on the amount of invoices not paid within a specified time.

§ 116.02–91 *Inexperience of bidder.* Inexperience alone of the lowest bidder does not justify the acceptance of a higher bid.

§ 116.02–92 *Alleged incompetency of bidder.* Incompetency of a bidder must be clearly shown before his bid can be rejected and a higher bid accepted. The question of competency should be carefully considered before inviting a firm to bid.

§ 116.02–93 *Unknown trade name or makes.* Acceptance of other than the lowest bid is not authorized when the lowest bid is rejected simply because the maker of the instrument or article named is unknown and there is a possibility of its becoming unserviceable. Acceptance of other than the lowest bid for the reason of previous use of a patented article is not alone sufficient. Purchase of a particular item without advertising simply because it has been found satisfactory in previous use is not authorized.

§ 116.02–94 *Splitting of award.* The splitting of an award between the lowest and a higher bidder for the alleged purpose of encouraging continued competition is not authorized. The lowest satisfactory bidder is entitled to award.

§ 116.02–95 *Absence of competition.* Absence of competition is a good reason for rejecting all bids and asking for new ones.

§ 116.02–96 *Only one bid received.* When an effort has been made to obtain competition and only one bid is received and, in the judgment of the contracting officer, it is considered reasonable, it may be accepted.

§ 116.02–97 *Acceptance of one bid is rejection of all others.* The acceptance of one bid is a rejection of all other bids for the same item, and one of the bids so rejected cannot be accepted at a later date. All bidders should be advised of the action taken on their bids, by notice of acceptance in the case of the bidder to whom award is made, and by notice of rejection to bidders whose bids were not accepted.

§ 116.02–98 *Fraudulent bids.* The United States may reject a bid in case of fraud: For example, when the lowest bidder is in collusion with other bidders or with the representatives of the United States to impose a high price upon the Government, etc. In such cases, the bids of all bidders involved in the fraud shall be rejected and the case immediately referred to the Commandant (FS).

§ 116.02–99 *Rubber stamp signature acceptable.* Rubber stamp signatures on a bid are acceptable provided the responsible officer is satisfied that it was placed on the bid by authority of the bidder.

§ 116.02–100 *Alternative bills.* Alternative bids will not be considered unless called for in the invitation.

§ 116.02–101 *Bids offering modified specifications.* If only the essential requirements are stated in the invitation for bids, all bids however modified or qualified should be considered although no bid can be accepted for material lacking in any of the essentials. Bids will not ordinarily be considered for any other quantity or description of supplies than specified but the right is reserved to accept any modification made by a bidder in the conditions therein stipulated. A bid modified to such an extent that its acceptance would be unfair to competing bidders will not be accepted.

§ 116.02–102 *Descriptive matter and samples.* Specifications, plans, illustrations, samples, or other descriptive matter, when required by the Government to be furnished by the bidder must accompany the bid. In connection with the furnishing of samples, the Comptroller General has held that failure of a bidder to submit samples as required bars consideration of his bid.

§ 116.02–103 *Bidder's option.* A bidder may specify a maximum quantity which will be furnished at the price quoted, and likewise a time limit for acceptance or delivery. If a proposal containing conditions of this kind is accepted, the contract is binding.

§ 116.02–104 *Corrections to be explained.* Corrections, erasures, or other changes in a bid must be explained or noted over the signature of the bidder.

§ 116.02–105 *More than one bid submitted by the same bidder.* If more than one bid be offered by any one party, by or in the name of his or their clerk, partner, or other person, all such bids may be rejected. This will not prevent a bidder from submitting modified or alternate bids quoting different prices on different qualities of materials or different conditions of delivery. A manufacturer who has quoted prices to one of the bidders is not thereby disqualified from himself submitting a direct bid for the same article.

§ 116.02–106 *Modification by bidder not permitted.* After bids have been publicly opened at the time set, no changes, corrections, or alterations can be made therein by the bidder.

§ 116.02–107 *Modification by Government not permitted.* In awarding the contract to the lowest bidder the contracting officer cannot modify the terms of his bid in regard to time of delivery or any other of its material elements. While the Government may not force the bidder to accept award under terms different from those contained in his bid, modifications may, after award, be made with the bidder's consent, and the changes mutually agreed upon may be embodied in the contract. No modification of the bids shall be permitted after the opening which modifies or changes the bids so as to affect the award.

§ 116.02–108 *Modification of bids; telegram.* A bidder under an advertisement for sealed bids may, previous to the opening of the bids, modify his bid by telegram, and the modified bid, if authentic, would upon acceptance before withdrawal, bind the bidder. Telegrams modifying sealed bids which are received before the hour of opening shall immediately be placed in sealed envelopes and shall publicly be opened at the appointed hour with the original bids from the senders. However, since telegrams, unlike letters, are revocable until delivered, the official time of receipt shall be the hour at which the telegram is received by the Government (which shall be stamped or written on the telegram); the hour at which sent by the bidder shall not govern.

§ 116.02–109 *Mistakes in bids.* The United States is not responsible for mistakes in prices made by a bidder, and an accepted bid is binding unless the prices are so disproportionate as to put the contracting officer on notice and enforcement would be unconscionable. When it appears that a bid is in error, the bidder should be requested to verify such bid prior to award. If award has not been made, the bidder may be permitted to withdraw his bid and the award should then be made to the next qualified bidder. After award the discretion vested in the contracting officer ceases, and requests received from contractors for release on contracts based on bids in error will be forwarded to the Commandant (FS) accompanied by full data, comment, and recommendation for decision and action. The Commandant can only refer the case to the General Accounting Office for decision.

§ 116.02–110 *Bidder alleges mistake.* Where a bid to furnish stipulated quantities of supplies is accepted, the supplies delivered, and the contract prices paid, and it is subsequently established that at the time of the opening of the bids the contracting officer was put upon notice that the contractor had made a mistake in submitting his bid, such mistake being apparent from an examination of the bid itself and from a comparison thereof with other bids submitted, the contractor is entitled to submit a claim for the difference between the contract price and the prices intended to have been submitted for such supplies provided that the intended bid of the contractor is lower than any other bid received thereon. Any such claim must be forwarded to the Commandant (FS) accompanied by all papers or certified copies thereof pertaining to the transaction for submission to the General Accounting Office for decision.

§ 116.02–111 *Maximum prices quoted.* (a) A proposal that quotes a maximum price with a provision for a reduction in the event the current market price is reduced, without a provision for increases above the quoted maximum, is a valid basis for a contract. In such case the bidder shall state the current market price at the date of the bid and each voucher must be supported by a statement of the market price at the date of delivery. This certificate is required irrespective of whether or not any changes have been made in the price.

(b) Except as shown in paragraph (a) of this section, a fixed price, effective during the entire period covered by the contract must be shown.

(c) A proposal that quotes a current price, subject to market fluctuation, does not constitute the basis for a contract and shall not be considered.

§ 116.02–112 *Discounts; determination of award.* The determination of award when discounts are offered in bids is a matter for decision by the contracting officer. If, by reason of the offered discount, a bid is low and there appears reasonable certainty that the performance of the necessary administrative duties in connection with receipt, inspection, and payment is practicable of accomplishment, the bid should be accepted; if not, the bid should not be regarded as low. The fact that discount was considered shall be noted on Standard Form 1036.

§ 116.02–113 *Time limit for award.* An obligation lies upon the Government to make an award within a reasonable length of time after an opening of bids. An award should be made at the earliest practicable moment after the opening of bids and in no event later than 60 days from the date of opening. After a 60 day period, the bidder cannot be held to his offer. A bid qualified as to acceptance time must be accepted accordingly or rejected as not being responsive to the invitation. A bidder cannot withdraw his bid after notice of acceptance thereof by the Government.

§ 116.02–114 *Acceptance of bids in writing.* When bidders' proposals are submitted in writing, the contracting officer will endorse over his signature the word or words "Accepted" or "Accepted as to items Nos. _____" on the proposal covering the award. Acceptance shall always be in writing.

§ 116.02–115 *Forms of award.* When an award is made to a bidder, it will be embodied either on Standard Form 23 (Construction Contract) or acceptance on Standard Form 33 (Invitation, Bid and Award).

§ 116.02–116 *Error in award.* If an award is made to a higher bidder in error and the contractor has proceeded with manufacture and delivery before the error has been discovered, the contract should be considered completed with deliveries already made, and payment shall be made not in excess of the lowest satisfactory bid which was received at the original opening. The contractor should then be advised that he may submit a claim to the General Accounting Office for the difference between his price and the price quoted by the lowest satisfactory bidder. He may also submit a claim to the General Accounting Office for any damages which he may have sustained through the suspension of deliveries under his contract.

§ 116.02–117 *Readvertisement.* A readvertisement is equivalent to a rejection of all bids previously received.

CERTIFICATES OF AWARD

§ 116.02–140 *When certificates of award are required.* Every contract and purchase agreement (except purchase orders issued under existing contracts) made as the result of advertising, shall be supported by a Statement and Certificate of Award (Standard Form 1036, Revised), signed by the contracting officer to show the method and extent of advertising; and the basis of award. If other than the lowest bid is accepted, the reasons for rejection of the lower bids shall be explained on the form. (See also § 116.03–70.)

§ 116.02–141 *Disposition of copies.* On contracts requiring the assignment of a contract number, the original signed certificate shall be attached to the original of the contract. A copy shall be retained with the official file copy of the contract at the contracting office. On purchases made on contracts not requiring the assignment of a contract number, the original signed certificate shall be attached to the original of the accepted bid and a copy shall be retained in the official files of the contracting office.

§ 116.02–142 *Essential information to be shown.* The name of the contractor will be inserted at the top of the form above the space provided for the contract number. The appropriation and subhead pertaining to the contract shall be noted on the certificate.

§ 116.02–143 *Justification of unusual awards to be shown.* (a) When acceptance of other than the lowest bid as to price (expenditures) or other than the highest bid as to price (receipts) is made, Standard Form 1036 will list in detail the results of all bids. If acceptance of a higher bid (expenditures) or a lower bid (receipts) is made, the reasons for rejection of the lowest bid (expenditures) or the highest bid (receipts) shall be listed on the form, in a manner substantially as shown in the specimen below:

Specimen 1 (acceptance of other than lowest bid—expenditures)

John Doe & Co	$450.00
John Smith & Co	[1] 460.00
John Jones & Co	470.00

[1] Awarded.

Lower bid of John Doe & Co. rejected as samples submitted did not meet the specifications, being brass instead of bronze.

Specimen 2 (acceptance of other than the highest bid—receipts)

John Doe & Co	$450.00
John Smith & Co	[1] 460.00
John Jones & Co	470.00

[1] Awarded.

Higher bid of John Jones & Co. rejected as bidder called for delivery at his yard contrary to "where is, as is" provision of specifications.

(b) In the case where an award is made in favor of a small business concern or is placed in a distressed employment area, the circumstances under which award was made shall be briefly recited on the Certificate of Award together with a statement that it has been administratively determined that the award will further the Congressional policy with respect to small business expressed in section 2 (b) of the Armed Services Procurement Act of 1947 or will further the President's policy with respect to distressed employment areas, or both, as the case may be.

(c) Where an award involves a mistake in bid and the matter has been resolved by administrative action, Standard Form 1036 will be accompanied by a copy of the resulting instructions as received in the premises, together with other pertinent documents supporting the case. If an award involves a mistake in bid on which the Comptroller General has rendered a decision, Standard Form 1036 will contain a citation by number and date of the decision or a copy thereof shall be securely attached to the form.

SUBPART 116.03—PROCUREMENT BY NEGOTIATION

GENERAL

§ 116.03–1 *Definition of negotiation.* The term "negotiation" as used herein means that method of procurement under which the formal procedure for procurement by advertising is not required.

§ 116.03–2 *Need for competition.* Authority to negotiate purchases or contracts does not modify in any respect the fundamental principle that supplies and services will be obtained as the result of competition. Accordingly, where competition exists, qualified suppliers will be afforded the opportunity to submit quotations by informal solicitation to the extent that such procedure is consistent with the needs of the occasion.

§ 116.03–3 *Absence of competition.* Where no competition results from the informal solicitation, or insufficient number of suppliers submit quotations, or the prices appear excessive when checked against previous prices, or where the procurement must necessarily be placed with a single source of supply under any of the circumstances enumerated, negotiation will be conducted on a basis of thorough analysis of the suppliers' estimated and or historical cost data. Careful use of price cost analysis in connection with negotiated purchases will protect the Government against excessive prices.

§ 116.03–4 *General limitations upon the use of negotiation.* No contract shall be entered into as a result of negotiation unless the contemplated procurement

comes within the circumstances permitting negotiation as stated in the act and as set forth herein.

§ 116.03–5 *Certain negotiations restricted to Headquarters.* The negotiation of contracts under certain circumstances require special determinations and findings by the Commandant or by the Comptroller. Accordingly, the authority to negotiate contracts under such circumstances is restricted to Headquarters as set forth in this subpart. The negotiation of such contracts shall be in accordance with the requirements of the act, and shall be governed, insofar as practicable, by the procedures established by the Armed Services Procurement Regulations (32 CFR, Chapter IV, Subchapter A).

§ 116.03–6 *Determinations and findings.* Determinations and supporting findings which are required by the act and which are referred to throughout these instructions, and which are prerequisites to the authority to negotiate certain types of contracts, will be made by the Commandant (FS). The determinations and findings shall be in the form and requirement as specified by the act and shall, insofar as practicable, be in accordance with the procedures set forth in the Armed Services Procurement Regulations. Copies of all Headquarters determinations, decisions and findings, and all data with respect to the negotiation shall be preserved for 6 years following the date of final payment of the contract.

§ 116.03–7 *Method of negotiation.* (a) "Negotiation" is to be interpreted as the procedure by which the Government may make the most desirable type of contract for the required supplies or services, under circumstances authorized by the act, and without the necessity of following the procedures relating to procurement by formal advertising. Negotiation shall, generally, be effected by giving one or more selected and qualified dealers an opportunity to submit a quotation (as distinguished from a "bid," which pertains to procurement by advertising) for the required items; analyzing the quotations received; and (i) either accepting the most advantageous quotation as submitted, or (ii) entering into further negotiations with one or more of the dealers in an attempt to secure more advantageous terms than contained in the original quotations. In the negotiation of contracts, due attention shall be given to the following and any other appropriate factors:

(1) Comparison of prices quoted, and consideration of other prices for the same or similar supplies or services, with due regard to cost of transportation, cash discounts, and any other factor relating to price;

(2) Comparison of the business reputations and responsibilities of the respective persons or firms who submit quotations;

(3) Consideration of the quality of the supplies or services offered, or of the same or similar supplies of services previously furnished, with due regard to the satisfaction of technical requirements;

(4) Consideration of delivery requirements;

(5) Discriminating use of price and cost analyses;

(6) Investigation of price aspects of any important subcontract;

(7) Individual bargaining, by mail or by conference;

(8) Consideration of cost sharing; and

(9) Effective utilization in general of the most desirable type of contract, and in particular of contract provisions relating to price redetermination.

(10) In the case of firm fixed-price contracts, where substantial subcontracting is indicated and negotiation is to be based principally on cost estimates, a showing by the prime contractor as to the reasonableness of price of the principal subcontracts or purchase orders shall be required prior to entering into a contract.

(11) Availability of funds to cover the project.

(b) In the case of all unclassified negotiated contracts, the contracting officer will notify the unsuccessful bidders who submitted quotations that their proposals were not accepted. If specifically requested by one of the unsuccessful bidders, who actually submitted a quotation, the contracting officer will furnish the name and address of the successful bidder and the actual or approximate contract price, but will not reveal the cost breakdown or the amounts and conditions of unsuccessful bidders' quotations.

§ 116.03–8 *Public notices not required.* The posting of a copy of a notice of the proposed procurement in a public place is not required in connection with procurement by negotiation.

§ 116.03–9 *Public openings not required.* Although requests for the submission of written quotations should specify that the quotations are to be submitted in sealed envelopes, and should state a time limit for the receipt of such quotations, the holding of a public opening of quotations is not required.

§ 116.03–10 *Sufficient time to be allowed for submission of quotations.* When written quotations are requested, sufficient time shall be allowed for the preparation and submission of quotations. The time limit for the receipt of quotations shall be clearly stated in all requests for quotations.

§ 116.03–11 *Oral quotations.* While written quotations are preferable for procurement by negotiation, oral quotations may be solicited at the option of the contracting officer. It is mandatory, however, that a record of all oral quotations be maintained in connection with any purchase. For purchases involving amounts in excess of $1,000, oral quotations shall always be confirmed in writing.

§ 116.03–12 *Record and report of negotiated contracts.* As will be noted in Subpart 116.01, each district office and Headquarters unit will maintain a record and prepare a report of the number and total value of all contracts negotiated during each fiscal year under each of the circumstances permitting negotiation in the field as prescribed hereafter. In order to compile such records and reports, each contract or purchase document representing a procurement which was effected under "Negotiation" authority shall be clearly marked in the upper right-hand corner of the document with the words "NEGOTIATED" followed by a citation of the applicable section of the act under which the negotiation was authorized; for example, a document relating to a negotiated purchase not in excess of $1,000 would be inscribed "NEGOTIATED, section 2 (c) (3)."

§ 116.03–13 *Advance payments on negotiated contracts.* Contracts providing for advance payments may be made under certain definite restrictions as set forth in section 5 of the act. The making of a contract providing for an advance payment is restricted to the Commandant (FS–1).

FORMS AND FORM PREPARATION

§ 116.03–20 *Contract forms.* Pending the adoption of revised forms, the various contract forms and conditions presently in use will be utilized in connection with the solicitation and submission of quotations and the execution of contracts and purchase orders pertaining to negotiated procurement, to the extent that such forms and conditions are not inconsistent with the requirements of the act. All reference to section 3709, Revised Statutes, shall be deleted from such forms. Authority is granted to modify such forms as may be deemed necessary by the contracting officer to conform to requirements pertaining to negotiation of contracts.

§ 116.03–21 *Solicitation of quotations.* "Quotations" in lieu of "bids" are the basis of offers relating to negotiated procurement transactions. Normally, Form CG–2982 (Request for Quotation) shall be used to solicit quotations on negotiated procurement of supplies and equipment. However, Standard Form 33 (Invitation, Bid and Award) may be used for this purpose after being altered to eliminate all references to advertised procurement. Requests for quotations, which will result in the award of a construction contract on Standard Form 23 (Construction Contract), will in every instance be effected by using Standard Form 20 (Invitation for Bids, Construction Contract) and Standard Form 21 (Bid, Construction Contract), after deleting all references to advertising. Requests for quotations, whether on Form CG–2982, Standard Forms 20, 21, or 33, appropriately altered, shall be accompanied by the applicable contract condition forms (see § 116.02–12) in the same manner as procurement by advertising. When Standard Forms 20 and 21 are altered and used as a request for quotations, the requirement relative to the Predetermination of Wages shall be adhered to.

§ 116.03–22 *Types of contracts.* The act permits the use of any type of contract which will promote the best interests of the Government. Approved types of contracts include fixed price, fixed price with redetermination of prices, cost-plus-a-fixed fee, incentive, and cost-sharing contracts. The fixed price type of contract shall be used by field units. The use of other types of contracts is restricted to Headquarters, or to field units when specifically authorized by the Commandant (FS). The use of "cost-plus-a-percentage-of-cost" type of contract is prohibited by the act. Form CG–3477, Abstract of Bids, and CG–3477A, Continuation Sheet, may be used to record the results of requests for quotation.

§ 116.03–23 *Mandatory provisions.* Section 4 of the act requires that every contract negotiated under the act include a provision against contingent fees for obtaining the contract; therefore, the prescribed contract clause pertaining to warranty against contingent fees shall be included in every negotiated contract. The act (sec. 8) further provides that no contract shall be exempt from the Act of June 30, 1936, as amended (Walsh-Healey Act) (41 U. S. C. 35 to 45); the Act of March 3, 1931, as amended (Davis-Bacon Act) (40 U. S. C. 276a to 276a–5), or the Act of June 19, 1912, as amended (Eight Hour Law and Overtime Compensation) (40 U. S. C. 321 to 326) if otherwise applicable to the particular transaction. The prescribed contract clauses relating to such acts shall be used as applicable.

§ 116.03–24 *Authority clause.* When section 2 (c) (1) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151) is used as the authority to negotiate, the contract will contain the following statement:

> This negotiated contract is entered into pursuant to the provisions of section 2 (c) (1) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (1)), and any required determination and findings have been made.

This statement must appear on each purchase order or contract document.

CIRCUMSTANCES PERMITTING NEGOTIATION

§ 116.03–30 *Basic authority.* Subject to the instructions herein, and pursuant to the authority of section 2 (c) of the Armed Services Procurement Act of 1947, (41 U. S. C. 151c) procurement may be effected by negotiation under any one of the circumstances set forth in §§ 116.03–31—116.03–48.

§ 116.03–31 *National emergency (sec. 2 (c) (1)).* (a) Each contracting officer in the U. S. Coast Guard during the period of the National Emergency declared by the President of the United States, 16 December 1950, may, pursuant to the determination of the Commandant set forth below, negotiate contracts under the authority of section 2 (c) (1) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151).

December 26, 1950.

DETERMINATION

AUTHORITY TO NEGOTIATE PURCHASES AND CONTRACTS UNDER SEC. 2 (C) (1) OF THE ARMED SERVICES PROCUREMENT ACT OF 1947

1. A National Emergency having been declared by the President of the United States on 16 December 1950, I hereby determine, in accordance with section 2 (c) (1) (41 U. S. C. 151) of the Armed Services Procurement Act of 1947, that it is necessary in the public interest that, to the extent provided in paragraph 2 hereof, purchases and contracts under the said Act be negotiated without formal advertising during the period of said National Emergency.

2. Accordingly, I hereby authorize the negotiations of purchases and contracts by the U. S. Coast Guard, under section 2 (c) (1) of the Armed Services Procurement Act of 1947, during the period of said National Emergency. Formal advertising may, however, continue to be used.

MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard.
Commandant.

(b) When purchases and contracts are negotiated, section 2 (c) (1) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151) should generally be used as the authority to negotiate rather than other applicable circumstances contained in sec. 2 (c) of the act; however, procurements that would normally be classified under the following sections of the act will be restricted to the Commandant (FS–1):

(1) Section 2 (c) (4).
(2) Section 2 (c) (5).
(3) Section 2 (c) (8).
(4) Section 2 (c) (11).
(5) Section 2 (c) (14).
(6) Section 2 (c) (16).
(7) Section 2 (c) (17).

§ 116.03–32 *Public exigency (sec. 2 (c) (2)).* Pursuant to the authority of section 2 (c) (2) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (2)), purchases and contracts may be negotiated if "the public exigency will not admit of the delay incident to advertising." In order for this authority to be used the need must be compelling, and of unusual urgency, as when the Government would be seriously injured, financially or otherwise, if the supplies or services were not furnished by a certain date, and when they could not be procured by that date by means of advertising. Examples are (a) Supplies or services needed at once because of a fire, explosion, or other disaster; (b) Essential equipment for or repair of a ship, where advertising would delay sailing or where the delays incident to formal advertising would result in loss to the Government; (c) Essential equipment for or repair to any aircraft grounded or about to be grounded, when such equipment or repairs is needed at once for the completion of the operational mission of such aircraft. Every contract negotiated under the authority of this article shall be accompanied by a Statement and Certificate of Award (Standard Form 1036), signed by the contracting officer, justifying procurement under this authority.

§ 116.03–33 *Purchases not in excess of $1,000 (sec. 2 (c) (3)).* Pursuant to the authority of section 2 (c) (3) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (3)), purchases and contracts may be negotiated if "the aggregate amount involved does not exceed $1,000." In arriving at the aggregate amount involved, there must be included all supplies and services which would properly be grouped together in a single transaction, and which would be included in a single advertisement if the procurement were being effected by advertising. Purchases aggregating more than $1,000 shall not be broken down into several purchases which are less than $1,000 nor shall customary purchasing or contracting procedures be altered, merely for the purpose of permitting negotiations. Under this authority, contracting officers may purchase any supplies or services when the aggregate total does not exceed $1,000, by negotiation and without formal invitation for bids. Quotations may be obtained orally (over the counter), by telephone, telegraph, or by written solicitation. Competition should be secured whenever practicable to do so without delaying procurement, unduly increasing the work involved in the procurement, or otherwise obviating the benefits derived under this authority. Written confirmation of all orders placed is required.

§ 116.03–34 *Personal or professional services (sec. 2 (c) (4)).* Pursuant to the authority of section 2 (c) (4) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (4)), purchases and contracts may be negotiated "for personal or professional services" except Architect-Engineer Professional Services as set forth in § 116.03–48. The authority to negotiate for personal or professional services shall not apply to the procurement by negotiation of any type of services authorized under any other provisions of the act. This authority is restricted to Headquarters and shall be used only when all of the following conditions have been satisfied:

(a) If personal services, they are required to be performed by an individual contractor in person (not by a firm), or if professional services, they may be performed by an individual contractor in person or by a firm or organization.

(b) The services (1) are of a professional nature, or (2) are to be performed under Government supervision and paid for on a time basis.

(c) The procurement of such services is otherwise specifically authorized by law.

§ 116.03–35 *Services of educational institutions (sec. 2 (c) (5)).* Pursuant to the authority of section 2 (c) (5) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (5)) purchases and contracts may be negotiated "for any service to be rendered by any university, college, or other educational institution." This authority is restricted to Headquarters, and may be used for either of the two following types of services:

(a) Educational or vocational training services to be rendered by any university, college, or other educational institution in connection with the training and education of personnel, and for necessary material, services, and supplies furnished by any such institution in connection therewith.

(b) Experimental, developmental, or research work (including services, tests, and reports necessary or incidental thereto) to be conducted by any university, college, or other educational institution, and reports furnished in connection therewith.

§ 116.03–36 *Purchases outside the United States (sec. 2 (c) (6)).* Pursuant to the authority of section 2 (c) (6) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (6)) purchases and contracts may be negotiated if "the supplies or services are to be procured and used outside the limits of the United States and its possessions." This authority shall be used only for purchases made abroad, such as supplies, construction work, or other services for overseas installations or for use of occupational forces (irrespective of the actual place of negotiation or execution of the contract).

§ 116.03–37 *Medicines or medical supplies (sec. 2 (c) (7)).* Pursuant to the authority of section 2 (c) (7) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (7)), purchases and contracts may be negotiated "for medicines or medical supplies." This authority shall be used only when the following requirements have been satisfied.

(a) The items are not obtainable through Public Health Service or from other Government sources of supply; and

(b) Such supplies are peculiar to the field of medicine; and

(c) The cost is charged to Coast Guard appropriations (and not to Public Health Service funds); and

(d) Whenever the probable cost will exceed $10,000 the procurement is restricted to Headquarters.

§ 116.03–38 *Supplies purchased for authorized resale (sec. 2 (c) (8)).* Pursuant to the authority of section 2 (c) (8) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (8)), purchases and contracts may be negotiated "for supplies purchased for authorized resale." This authority cannot now be exercised by the Coast Guard.

§ 116.03–39 *Perishable subsistence supplies (sec. 2 (c) (9)).* Pursuant to the authority of section 2 (c) (9) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (9)), purchases and contracts may be negotiated "for perishable subsistence supplies."

§ 116.03–40 *Supplies or services for which it is impracticable to secure competition by formal advertising (sec. 2 (c) (10)).* (a) Pursuant to the authority of section 2 (c) (10) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (10)), purchases and contracts may be negotiated "for supplies or services for which it is impracticable to secure competition" by formal advertising. This authority will apply in the following cases, but only for transactions involving amounts in excess of $1,000 (purchases involving amounts of $1,000 or less will be made under the provisions of § 116.03–31).

(1) When the items are obtainable from a sole manufacturer or dealer. It is not sufficient to justify the purchase of a particular make of an item under this authority when other makes are available which will accomplish the same results;

(2) When the items have no commercial counterpart and can only be obtained from a single source of supply;

(3) When the existence of patent rights, secret processes, or similar circumstances preclude competition;

(4) When the items are parts of equipment or apparatus already in use and can only be furnished by one dealer;

(5) When bids have been solicited by advertisement and none is received, or none complies with all essential requirements of the specifications;

(6) When the purchase is for utilities, including electricity, gas, water, sewage disposal, steam, railroad track maintenance and switching service, inspection and maintenance of fire alarm systems, boiler inspection, and maintenance of elevators.

(b) Every contract negotiated under the authority of this article shall be accompanied by a Statement and Certificate of Award (Standard Form 1036), signed by the contracting officer, justifying procurement under this authority.

§ 116.03–41 *Experimental, developmental, or research work (sec. 2 (c) (11)).* (a) Pursuant to the authority of section 2 (c) (11) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (11)), purchases and contracts may be negotiated if the Commandant "determines that the purchase or contract is for experimental, developmental, or research work, or for the manufacture or furnishing of supplies for experimentation, development, research, or test," *Provided*, That in the case of contracts for $25,000 or less, the Comptroller is authorized without power of redelegation to make the required determination. This authority is restricted to Headquarters and may be used for any of the following purchases or contracts:

(1) Contracts relating to theoretical anaylsis, exploratory studies, and experimentation in any field of science or technology;

(2) Contracts calling for the practical application of investigative findings and theories of a scientific or technical nature;

(3) The purchase of such quantities and kinds of equipment, supplies, parts, accessories, or patent rights thereto, and drawings or designs thereof, as are necessary for experimentation, development, research, or test; and

(4) Services, tests, and reports necessary or incidental to experimental, developmental, or research work.

(b) In order for this authority to be used, the required determination to be made by the Commandant (or, in the case of contracts for $25,000 or less, by the Comptroller), must be in accordance with the requirements of section 2 (c) (11) of the act. This authority shall not be used for contracts for the quantity production of items developed as the result of prior experimentation, development, research, or test; however, research or development contracts which call for the production of a reasonable number of experimental or test models, or prototypes, shall not be regarded as contracts for quantity production.

(c) Headquarters shall maintain a record of the name of each contractor with whom a contract has been entered into under this authority, together with the amount of the contract, and description of the work, and shall prepare and submit reports as required by the act.

§ 116.03–42 *Classified purchases (sec. 2 (c) (12)).* Pursuant to the authority of section 2 (c) (12) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (12)), purchases and contracts may be negotiated for supplies or services as to which the Commandant "determines that the character, ingredients, or components thereof are such that the purchase or contract should not be publicly disclosed." This authority is restricted to Headquarters and shall be used only when military considerations necessitate security, and then only for such purchases or contracts as are classified as confidential or higher.

§ 116.03–43 *Technical equipment requiring standardization and interchangeability of parts (sec. 2 (c) (13)).* Pursuant to the authority of section 2 (c) (13) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (13)), purchases and contracts may be negotiated for equipment which the Commandant "determines to be technical equipment, and as to which he determines that the procurement thereof without advertising is necessary in order to assure standardization of equipment and interchangeability of parts and that such standardization and interchangeability is necessary in the public interests." This authority is restricted to Headquarters and shall not be used until required determinations and findings have been made by the Commandant.

§ 116.03–44 *Technical or specialized supplies requiring substantial initial investment or extended period of preparation for manufacture (sec. 2 (c) (14)).* Pursuant to the authority of section 2 (c) (14) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (14)), purchases and contracts may be negotiated "for supplies of a technical or specialized nature requiring a substantial initial investment or an extended period of preparation for manufacture," as determined by the Commandant, "when he determines that advertising and competitive bidding may require duplication of investment or preparation already made, or will unduly delay procurement of such supplies." This authority is restricted to Headquarters and shall not be used until required determinations and findings have been made by the Commandant.

§ 116.03–45 *Negotiation after advertising (sec. 2 (c) (15)).* Pursuant to the authority of section 2 (c) (15) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (15)), purchases and contracts may be negotiated for supplies or services as to which the Commandant "determines that the bid prices after advertising therefor are not reasonable or have not been independently arrived at in open competition." This authority is restricted to Headquarters and shall not be used unless and until the Commandant has determined in accordance with the Act, that the bid prices, after advertising for such supplies or services, are not reasonable or have not been independently arrived at in open competition. However, after such determination by the Commandant, and after a rejection of all bids, no contract shall be negotiated under this authority unless:

(a) Prior notice of intention to negotiate and a reasonable opportunity to negotiate have been given by Headquarters Contracting Officer to each responsible bidder whose bid has been rejected; and

(b) The negotiated price is lower than the lowest rejected bid price of a responsible bidder, as determined by the Commandant; and

(c) The negotiated price is the lowest negotiated price offered by any responsible supplier.

§ 116.03–46 *Purchases in the interest of national defense or industrial mobilization (sec. 2 (c) (16)).* Pursuant to the authority of section 2 (c) (16) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (16)), purchases and contracts may be negotiated if the Commandant "determines that it is in the interest of the national defense that any plant, mine, or facility or any product manufacturer, or other supplier be made or kept available for furnishing supplies or services in the event of a national emergency, or that the interest either of industrial mobilization in case of such an emergency, or of the national defense in maintaining active engineering, research and development, are otherwise subserved." This authority is restricted to Headquarters. Headquarters shall maintain a record of the name of each contractor with whom a contract has been entered into under this authority, together with the amount of the contract and description of the work, and shall prepare and submit reports as required by the act.

§ 116.03–47 *Otherwise authorized by law (sec. 2 (c) (17)).* Pursuant to the authority of section 2 (c) (17) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (17)), purchases and contracts may be negotiated if "otherwise authorized by law." This authority is restricted to Headquarters, or to field units when specifically authorized by Headquarters, under authority of any other law which is presently existing or which may hereafter be enacted, relating to or authorizing negotiated purchases or contracts.

§ 116.03–48 *Architect-engineer professional services.* (a) Section 2 (c) (4) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (4)) normally shall be used as authority to negotiate architect-engineer professional services contracts only when all conditions have been satisfied. However, it will be noted that contracts which wholly or partially involve the procurement of personal service to be performed by the contractor, or by individuals named in the contract, will be entered into under the authority of section 15 of the act approved 2 August 1946 (60 Stat. 810; 5 U. S. C. 55a).

(b) During a period of national emergency when section 2 (c) (1) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (1)) has been authorized for use, the requirements of paragraph (c) of this section are applicable even though the contract is negotiated under the authority of section 2 (c) (1) rather than section 2 (c) (4) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (1), (4)).

(c) When architect-engineer professional services are required by districts or Headquarters units, a request containing the following information shall be submitted to the Commandant:

(1) Itemization in detail as to the type and approximate duration of the services required;

(2) Explanation indicating why Coast Guard personnel (military and civilian) are not available to perform the desired services;

(3) A statement, in detail, explaining why the desired services to be performed by commercial concerns will be advantageous to the Government;

(4) Indicate the appropriation and subhead available for obligation to cover the contractual services; and

(5) Names and addresses of commercial concerns, located in and around the area where the services are to be required, who are recommended as being capable of performing the desired services.

Upon receipt of the request and the information outlined above, the Commandant will authorize the district commander or commanding officer, Headquarters unit to negotiate with the concerns recommended and with any other commercial concerns recommended by the Commandant.

(d) Each contract for architect-engineer professional services negotiated under authority of section 2 (c) (1) of the Armed Services Procurement Act of 1947 (41 U. S. C. 151 (c) (1)), and each supplemental agreement or change order making a material change in such contract will contain a provision stating that it is subject to the approval of the Commandant and will not be binding until so approved.

(e) Upon receipt of the executed contract at Headquarters for approval of the Commandant, the following action shall be taken by the cognizant office chief:

Prepare a memorandum requesting approval which will accompany the executed contract to the Commandant, which will refer specifically to the applicable statutory authorizations and will contain a complete statement of facts and a certificate substantially as set forth below to be made by the Commandant—

> The proposed contract is advantageous to and necessary in the best interests of the Government; existing facilities of the Coast Guard are inadequate to accomplish the required services, and compensation specified therein is considered reasonable.

SMALL PURCHASE PROCEDURES

§ 116.03–55 *General.* (a) The following instructions are applicable to all small purchases as defined below. The various methods described herein are designed to facilitate, not replace, negotiated or advertised purchases. Further, these procedures will be implemented only at those units and in the manner authorized herein. At no time will a small purchase procedure be employed to circumvent procurement by mandatory requisition, purchase, or contract methods.

(b) *Definitions*—(1) *Small purchase.* Any transaction involving the purchase of supplies, equipment, or nonpersonal services which;

(i) Does not exceed $1,000.00; and

(ii) Requires delivery of supplies or performance of nonpersonal services under a Federal Supply Schedule or an existing Coast Guard contract, or

(iii) Requires delivery of supplies or performance of nonpersonal services according to a buyer-supplier agreement without advertising. This, however, does not eliminate the need to obtain prices on a competitive basis.

(2) *Cash purchase.* Any small purchase as defined in subparagraph (1) of this paragraph which;

(i) Is accomplished by a single cash transaction not in excess of $50.00; or

(ii) Is accomplished by c. o. d. shipments where the cost of the article or service purchased, money order fee, and the transportation cost does not exceed $50.00.

(3) *Purchase order.* Form CG–2557, Purchase Order, which is prepared specifically to declare the intent of the Coast Guard to purchase (or confirm a Coast Guard purchase) a specific article or nonpersonal service from a given supplier at a given time.

(4) *Charge account.* An open credit account established by the Coast Guard with a supplier to be charged with the purchase of an unspecified number of articles or nonpersonal services during any calendar month.

(5) *Purchase-Invoice.* Form CG–2974 (Rev. 9–48), Purchase-Invoice, documenting the purchase, amount billed and paid, quantity of articles, or satisfactory service delivered, received, or rendered.

(6) *Petty Cash Voucher.* Form SF–1165, Receipt For Cash Subvoucher, documenting the cash payment for a purchase of services rendered or articles picked up, delivered, or shipped c. o. d.

§ 116.03–56 *Small purchases by district offices*—(a) *General.* It is reasonable to anticipate that a significant number of items required to fill district demands may be obtained by the district office through small purchase transactions. The repetitive demand for many of these, however, falls into a pattern permitting advance and planned solicitation of prices and placement of orders. All orders will be placed on those suppliers offering satisfactory items at the lowest price.

(b) *Use of purchase order.* When small purchases cannot be accomplished by either the cash purchase or the charge account method, as described in paragraphs (c) and (d) below, a purchase order will be issued under § 118.02–16 of this chapter.

(c) *Use of cash purchase.* Purchases described in paragraph (a) of this section which meet the criteria for cash purchase set forth in § 116.03–55 (b) (2), will be accomplished on a cash basis, as follows:

(1) SF–1165 will be prepared in quadruplicate and processed by the supply office to document payment for local pick-ups and deliveries.

(2) There are numerous opportunities for applying the cash purchase method to c. o. d. shipments from out of town suppliers. Whenever telephonic or telegraphic requests are necessary, no confirming order is required unless requested by the supplier. When Form CG–2982, Request For Quotation, is employed to solicit price and delivery information, a copy will be returned to the supplier as a delivery order directing c. o. d. shipment. At time of receipt of all c. o. d. shipments, SF–1165 will be prepared and processed.

(3) Cash advances may be made out of personal funds of the individual or by the ADO or Agent Cashier to designated supply personnel authorized to accomplish purchases. In the latter event, advances will not exceed $50.00 per transaction. Designated supply personnel will not be required to be bonded in order to obtain an advance. Receipt will be obtained by the ADO or Agent Cashier on Stub SF–1165, Interim Receipt For Cash. Within 48 hours, such interim receipt will be redeemed upon presentation of receipted forms SF–1165 and/or unexpended funds aggregating the total amount advanced.

(4) In conjunction with purchase and pick-up at the supplier's establishment or c. o. d. delivery to the purchasing unit, the following distribution of the SF–1165 will be made:

(i) Original (including signature of vendor) and one copy will be surrendered to the ADO or agent cashier in accordance with subparagraph (3) of this paragraph.

(ii) The second copy will be retained by the supplier or carrier.

(iii) The third copy will be retained by supply office.

(d) *Use of charge account.* When purchases described in § 116.03–56 (a) not meeting the criteria for cash purchases, can be charged, a charge account will be established with all suppliers willing to cooperate. In such instances, an estimate of the monthly obligations, form CG–3089, Miscellaneous Obligation Document, will be prepared by the supply office at the begining of each month and forwarded to the Accounts Section. The following action will be taken for each purchase:

(1) After the supplier offering the most advantageous buy to the Government has been determined, and it is further ascertained that a charge account has been established, the service is ordered or the merchandise is either picked up or delivered.

(2) At time of pick-up or delivery, or performance of service, one copy of supplier's sales slip, priced delivery ticket, or invoice, is receipted by Coast Guard and retained by supplier. A second copy, receipted by Coast Guard representative, is retained by the supply office. A third receipted copy is transmitted to the Accounts Section.

(3) On the last working day of the month, all outstanding receipted sales slips covering charged purchases will be clipped together and forwarded to the Accounts Section. This unit will process for payment all the month's purchases.

§ 116.03–57 *Purchases by units with ADO's or agent cashiers attached.* All Headquarters units and units with ADO's or agent cashiers attached will effect planned purchases as described for district offices in § 116.03–56 of this chapter. The agent cashier at the Coast Guard Base, Alameda, will service the Supply Center, Alameda, for cash advances to accomplish cash purchases under this procedure.

§ 116.03–58 *Purchases by units without ADO's or agent cashiers attached—*(a) *General.* Purchases by units in this category will be made only by Headquarters units and those district units authorized by the district commander. In such instances, funds must be set up in advance of purchase action by either (1) submission to Commandant (FA) of a periodic Miscellaneous Obligation Document by Headquarters units, or (2) forwarding to Accounts Section of periodic Miscellaneous Obligation Document by the supply office for authorized district units.

(b) *Use of purchase order.* Purchases at units not having ADO's or agent cashiers attached will be accomplished in accordance with the following instructions. As there is little opportunity for planned purchasing in any volume by units in this category, the use of formal quotation requests and purchase orders will be limited to a few instances in which the practice prescribed in § 116.03–56 (a) will be employed.

(c) *Use of purchase-invoice, Form CG–2974.* Except as provided in paragraph (a) of this section, purchases by units in this category will be accomplished through the use of the Purchase-Invoice, form CG–2974 (Rev 9–48). (The instructions on the jacket containing Purchase-Invoice forms are not applicable and are to be disregarded. The Purchase-Invoice will not be used as a stub requisition.)

(1) Purchases will be restricted to:

(i) Single transactions of $25.00 or less.

(ii) Emergency requirements for items available from mandatory Coast Guard or other Government sources. In such cases, a complete explanation of the emergency will be entered on reverse of the form or attachment.

(2) Forms will be prepared in quadruplicate at time of purchase.

(3) Form will be signed in quadruplicate by:

(i) The commanding officer, the officer in charge of a unit, or designated representative will sign the Request For Delivery section of CG–2974 when form is prepared.

(ii) One of above authorized persons will sign certificate of receipt at time of purchase or delivery.

(iii) The vendor will sign certificate on reverse at the time of purchase or delivery.

(4) Form will be distributed in the following manner:

(i) Original white, blue and yellow copies will be forwarded to the same office as the Miscellaneous Obligation Document under paragraph (a) of this section. The white and blue copies will be processed as an original invoice to be audited, and certified for payment on form CG–3092, Voucher and Schedule of Payment, and expenditure entries recorded in the Allotment Ledger, Expenditure Ledger, and controls. The yellow copy will be processed by the Supply Section. No obligation liquidation entries are necessary in view of the establishment of a continuing miscellaneous obligation document.

(ii) The salmon copy will be retained by the vendor. At the time the purchase is made, the vendor's copy, notwithstanding the instructions on the form relative to submission of certified bills, will be annotated in such a manner as to indicate that the signing of the certificate itself is the final action required of the vendor. The vendor should not submit additional billing.

CERTIFICATES OF AWARD

§ 116.03–70 *When certificates of award are required.* A Statement and Certificate of Award (Standard Form 1036, Revised) is not required for procurement by negotiation when the aggregate amount involved does not exceed $1,000. A SF–1036 is required on larger negotiated contracts only when (a) the public exigency will not admit of the delay incident to advertising and (b) it is impracticable to secure competition by formal advertising.

§ 116.03–71 *Preparation and distribution.* The Statement and Certificate of Award shall be prepared and distributed in accordance with the instructions set forth in §§ 116.02–140 through 116.02–143.

SUBPART 116.04—ACQUISITION OF REAL PROPERTY

ACQUISITION

§ 116.04–1 *Definition of general-purpose space.* The General Services Administration has defined general-purpose space as follows:

(a) Building space; record storage, supply depots, merchant marine inspection and recruiting stations, and repair shops (except when held under service contracts).

(b) Office space.

(c) Storage; garage space (when leased on an annual basis and the lease covers designated areas susceptible to use by other agencies or for other purposes) and warehouses (except those used for storage purposes hereinafter found to be special-purpose space).

§ 116.04–2 *Definition of special-purpose space.* The General Services Administration has defined special-purpose space as follows:

(a) Closed storage space required in combinations with piers, docking and mooring facilities.

(b) Wharfage (piers, docking and mooring facilities covered by lease).

(c) Plots of land (for aids to navigation structures).

(d) Space lease for no rental or for nominal consideration of one dollar ($1.00 per annum).

(e) Port Security units (exclusive of separate office acquired for use of Captain of the Port, which space continues to be defined as general purpose space).

§ 116.04–3 *Securing assignment of space in Government-owned buildings.* (a) Formal application for assignment of space in Government-owned buildings will be made to the controlling agency only by the Commandant through Treasury Department channels. Occupany of such space shall be contingent on authorization by the Commandant (FS–2).

(b) Informal inquiry should be made of the custodians of local post offices and Federal buildings to determine availability of required office or storage space and if available, request should be forwarded to Commandant (FS–2) accompanied by GSA Form 81 in quintuplicate, supported by detailed justification.

(c) Request for additional space in a Government-owned or leased building or a change in assignment therein, shall be submitted to the Commandant (FS–2) in a manner similar to the foregoing. Headquarters authority shall be obtained prior to release of assignment in Government-owned buildings and formal return of the space assignment to the cognizant agency shall be effected by the Commandant (FS–2).

§ 116.04–4 *Acquisition of privately owned land or facilities by permit or lease.* (a) The Coast Guard is obliged by law to utilize Government-owned facilities, if available, prior to acquiring privately owned property by permit or lease. Any proposal to acquire privately owned property by permit or lease shall be submitted to the Commandant (FS–2) accompanied by GSA Form 81, in quintuplicate.

(b) Execution of a formal lease contract is the proper method of acquiring use of real property of buildings thereon, in whole or in part, and is more preferable than by permit. Use of barges, boats, floats, scows, or floating facilities shall be legalized by Headquarters by charter upon submission of proposal and justification.

(c) Any proposal to lease real property shall be submitted to the Commandant (FS–2) on GSA Form 81 and if approved, the district commander will be authorized to execute the lease contract and be advised as to the appropriation and subhead chargeable with the rental.

(d) Prior to renewal of permits or leases, GSA Form 81, in quintuplicate, shall be forwarded to the Commandant (FS–2) for clearance. Upon authorization of Headquarters, the field units may renew permits of leases in accordance with the terms of such permits or leases; however, in each instance a copy of such notice of renewal shall be forwarded to the Commandant (FS–2).

§ 116.04–5 *Submission of proposal to lease.* (a) Bids or quotations will be obtained and all conditions of Standard Form 2 (Lease) will be applicable to space obtained in other than the 128 urban centers listed herein. The original and one copy of all bids or quotations received shall be submitted to the Commandant (FS–2) with a recommendation for acceptance. When acceptance of other than the low bid or quotation is recommended, an explanation shall be furnished.

(b) Expenditure of funds for repairs, alterations, or improvements of a leased facility in excess of twenty-five per centum of the amount of the rental for the first year of the rental term, or for the rental term if for less than one year, is prohibited. If the annual rental of the facility proposed for lease is $2000 or more, evidence that the rental is not in excess of 15 per centum of the fair market value of the rented premises will be required. Determination of the fair market value of the proposed space will be established by the execution of Form CG–2877 (Determination of Fair Market Value of Real Estate) and shall be submitted in quintuplicate to Commandant (FS–2) accompanying and in support of the proposal to lease. Estimates in connection with proposed repairs, alterations or improvements shall be prepared in cooperation with Chief, Civil Engineering Section.

(c) Proposals to lease submitted to Headquarters shall include a definite statement of the purpose for which the space to be used and designation of the units accommodated; the number of persons who will occupy it, whether continuously or intermittently; the total area in terms of square feet; and number of rooms. A preliminary draft of the proposed lease on Standard Form 2 (Lease) in duplicate shall be submitted with proposal. If the proposed space is to be used for offices and other purposes, the proportion of each shall be stated, indicating the square feet to be devoted exclusively to nonworking space, such as file rooms, storage rooms, conference rooms, display rooms, etc.

§ 116.04–6 *Drafting and executing leases.* Upon receipt of Headquarters authorization to execute a lease, the lease shall be drafted on Standard Form 2 (Lease) in accordance with the preliminary draft returned by Headquarters. Certain additional revisions shall be made to this form to further protect the interests of the Government, viz:

(a) The word "exclusively" in article 2 shall be deleted and only general terms shall be employed to indicate the intended use of the facility, such as office quarters or storage space.

(b) A clause substantially as follows shall be added as article 12 of the lease:

Covenant against contingent fees. Contractor warrants that he has not employed or retained any person or selling agency to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage or contingent fee. For breach of warrant the Government shall have the right to annul this contract without liability or, in its discretion, to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage or contingent fee. This warranty shall not apply to commissions payable by contractor to his bona fide, regular employees, or to bona fide established commercial or selling agencies maintained by the contractor for the purpose of securing business.

(c) An additional article 13 shall be added reserving to the Government the right to effect cancellation of the contract by giving the lessor thirty (30) days written notice.

(d) If the lessor is a corporation, a corporate certificate and corporate seal will be an essential. If the lessor is a partnership or unincorporated society, authority of the individual to sign in its behalf shall be furnished as an inclosure supporting the lease.

(e) The notice from the lessor requiring restoration of the premises, as executed in article 8 of the lease shall be ten days less than the cancellation period designated in article 13 of the lease.

(f) All leases submitted to the lessor for execution shall contain the clause relative to nondiscrimination in employment.

§ 116.04–7 *Numbering, distribution and filing of leases.* Instructions pertaining to the numbering, distribution and filing of leases are contained in Subpart 118.02 of this chapter.

§ 116.04–8 *Acquisition of general-purpose and special-purpose space.* (a) The Coast Guard will not be required to enter into negotiations for the renewal of leases governing general-purpose space in any of the urban centers indicated below. For all requests for additional general-purpose space, and new leases, including renewals, the district office or Headquarters unit shall submit a request for space action to the Commandant (FS–2) on GSA Form 81 in quintuplicate before any action is taken. Clearance by General Services Administration is not required for general purpose space of 2500 square feet or less in cities outside of urban centers indicated:

GSA field office	State	City
Region No. 1: 620 Post Office and Courthouse Bldg., Boston 9, Mass.	Connecticut	Bridgeport, Hartford, New Haven.

	Utah	Salt Lake City.
Region No. 9: 49 4th St., San Francisco 3, Calif.	Arizona	Phoenix.
	California	Fresno, Los Angeles, Oakland, Sacramento, San Diego, San Francisco, Santa Barbara.
Region No. 10: 123 New Court House Bldg., Seattle 4, Wash.	Idaho	Boise.
	Montana	Billings, Butte, Great Falls.
	Oregon	Portland.
	Washington	Everett, Seattle, Spokane, Tacoma, Yakima.

(b) Activities contemplating the acquisition of special-purpose space, or general-purpose space in locations outside the selected 128 urban centers listed above and definitions of space previously cited shall forward to the Commandant (FS–2) GSA Form 81 "Request For Space" (original and four copies) with estimated rental inserted in block 27 of the form. GSA Form No. 81 shall be cleared through the Regional Office of the General Services Administration by field activities prior to submission to Headquarters. If the acquisition is approved, the district commander or the commanding officer, Headquarters unit, will be instructed to solicit bids.

§ 116.04–9 *Definition of urban centers.* The General Services Administration has defined urban centers as follows:

(a) Geographical boundary lines of the named urban centers;

(b) Geographical boundary lines of cities, towns or villages adjoining (a) above; and

(c) Geographical boundary lines of cities, towns or villages adjoining (b) above.

§ 116.04–10 *Cancellation of leases.* When it has been determined that a leased facility is no longer required, request for authority to cancel shall be submitted to the Commandant (FS–2) for approval prior to issuance of cancellation notice. Upon receipt of notice to cancel, cancellation notices shall be issued to the lessor sufficiently in advance of the effective date thereof to permit the accomplishment by the Government of any restoration required under article 8 of the lease. Two copies of the notice of cancellation shall be forwarded to the Commandant (FS–2) concurrent with issuance to the lessor.

PRINCIPLES GOVERNING LEASING OF REAL PROPERTY

§ 116.04–15 *Background.* During World War II, the Coast Guard, as well as the other armed services, was required to provide housing and messing facilities to accommodate a tremendously increased personnel. A large part of this space was acquired by lease, utilizing existing buildings of one sort or another, for barracks, mess halls, offices, etc. Speed was of the essence, and as a result, too little thought was given to the physical condition and suitability of the property under consideration and to the terms under which it was leased. When these properties were returned to their owners, many controversies arose in connection with final settlements and in many cases the Coast Guard was put to unnecessary expense in making restoration. These instructions are issued with a view toward eliminating these errors and expenses insofar as is possible in the event conditions again require a rapid expansion of personnel. They do not cancel or supersede any regulations now in force relative to the leasing of property.

§ 116.04–16 *Classification of property.* Leased properties naturally fall into two classes: (a) Unimproved land on which Coast Guard is to erect buildings of some sort and (b) improved property such as warehouse, hotel, motel dwelling, etc., which is suitable for Coast Guard use as is, or with more or less alterations. Since these two classes involve entirely different problems, they will be dealt with separately. Geographical location, as well as other conditions peculiar to each individual case, will determine which type of property is the more suitable.

§ 116.04–17 *Considerations for leasing land.* In the event that land only appears indicated at first, the following points should be considered very carefully before any negotiations for a lease are commenced:

(a) If buildings will be required for the proposed Coast Guard unit, exhaust thoroughly any possibility of finding a structure which would be satisfactory even though it may not be in the exact location originally chosen, or the size desired. Erection of buildings for temporary use is expensive, particularly in labor and material, both of which may again become critically scarce.

(b) If it is determined that no existing structure can be used, investigate the following carefully:

(1) *Topography.* Is the area on or near swampy ground which might prove to be mosquito breeding, or otherwise unhealthy? Is it level or will it require extensive grading? If commercial water supply is not available, are there indications that potable water may be secured by a reasonably shallow well? If a local supply of potable water is out of the question and it must be imported, is water—fresh or salt—available for sanitary purposes? Is the slope of ground and type of soil suitable for a septic tank drainage field?

(2) *Location.* Is the area adjacent to a road, highway or other means of access, or must additional right-of-way be secured and access road be built? Is the area adequate not only for immediately planned construction, but also for a moderate expansion, if necessary?

§ 116.04–18 *Considerations for leasing improved property.* If possible, it is desirable from the standpoint of speed and conservation of labor and materials, to lease improved property in every case where there is available a building or buildings which are suitable for Coast Guard use or which can readily be made usable. These buildings may be in the form of warehouses or lofts when only storage or shop space is required, hotels or motels where housing and messing of personnel is required, or even private dwellings in cases where only a limited number of personnel will be assigned. In any event, the same precautions should be taken in order to assure adequate facilities. The following factors should be examined carefully in considering the leasing of any building:

(a) *Construction.* Is the floor construction adequate for any anticipated load? Is the wall and roof construction sufficient to withstand local storm conditions? Will extensive repairs, such as flooring, plastering, window replacement, roof repairs, etc., be required to make it suitable for Coast Guard use? Are the necessary utilities (water, gas, electricity, sewer) installed and of adequate capacity for the anticipated use?

(b) *Adaptability.* Can the building be used as it exists or must alterations, minor or extensive, be made? Is its location suitable for the use intended or will excessive transportation of personnel and supplies be required?

(c) *Cost.* What is the yearly or monthly rental? Consider this rental in connection with the cost of any repairs or alterations which must be made as against the cost of renting vacant land and erecting the necessary buildings. Regulations do not permit a yearly rental in excess of 15 percent of the fair market value of the property. Such valuation may be determined by securing an appraisal by the local assessor, or by determining the assessed valuation of the property and the percentage of actual value which is used locally in making assessments. Data obtained on valuation of the property must accompany the original request to the Commandant (FS–2) for a lease.

§ 116.04–19 *Preliminary negotiation.* In the event that all factors having been considered, the leasing of an existing building appears most feasible, the building itself is chosen with those items mentioned in § 116.04–18 in mind. Negotiations with the owner should have as their aim a reasonable rental to the Coast Guard within the limits prescribed by regulations and a fair return to the owner. Before entering into these negotiations, the terms of Standard Lease Form No. 2 should be studied carefully and no promises or commitments made to the owner which will not be confirmed by an executed lease contract. Avoid promises which cannot be legally or reasonably fulfilled. This is very important, since restoration of the property will of necessity be made strictly in accordance with the terms of the lease and any additional promises made at the outset would only embarrass the Coast Guard when the lease is terminated and it is found to be impossible to fulfill these promises. Leases will, in most cases, be drawn up by the Districts, sent to HQ for approval and returned to the Districts for execution. For this reason be sure that *all* necessary information is furnished the Commandant (FS–2) with the original submission of lease. This information should include:

(a) Precise and detailed statement of operational requirement for the property.

(b) Statement as to the degree to which the property meets the operational requirements as stated above.

(c) Plot plan, vicinity map, description of land and/or buildings.

(d) Satisfactory evidence of lessor's title to the property.

§ 116.04–20 *Leasing buildings without furnishings.* If at all possible, buildings should be leased without furnishings, personal property, or other mobile equipment. Such items are usually not adapted to Coast Guard use, and past experience has shown that many of the difficulties of restoration involve disagreements regarding the condition in which furniture is returned to the owner. When possible, the movable contents of a leased building should be removed *by* the owner and stored by him. Owner should make allowance for such expenses in the rental agreed upon. Storage by the Coast Guard either on or off the property will not solve this problem since the furnishings will still be in Coast Guard custody as much as if they were being used and the same disagreements will unquestionably arise at the termination of the lease.

§ 116.04–21 *Physical survey required.* Before taking possession of the property, a detailed physical survey of the building must be made jointly by the owner and a representative of the Coast Guard. Every portion of the building is to be covered as a separate item and any defect existing at the time of entry by Coast Guard noted clearly and in detail. Only in this way will it be possible at the time of restoration to determine exactly what, if any, damage was caused by Coast Guard occupancy. A sample excerpt from such an inventory might be as follows:

Room 10:
- a. Plaster crack 1/8" wide, 2' long in upper S. corner of W. wall and 4' long SW corner ceiling.
- b. Nail holes in door casing.
- c. 2 window panes cracked.
- d. Floor bare of paint in numerous areas.

Room 11:
- a. Approximately 2 sq. ft. plaster off S. wall.
- b. Sash lock in window broken and sash lift missing.
- c. Door lock broken.

Pictures should be taken of areas where damage exists and is difficult to describe; be sure the pictures are properly identified. The basement should be treated as a separate item as well as the roof, the exterior of the building, the utilities, grounds, dock, etc., as applicable. The completed physical inventory of the building is to be signed jointly by Coast Guard and owner under a date not later than the effective date of lease. Immediately prior to date of execution of lease, also upon termination of lease, arrangements should be made to have photographs made and properly identified, showing areas where damage exists, where it is impossible to describe it adequately. "Before and after" photographs of the exteriors of the buildings should also be taken. This will serve to shorten considerably the proceedings of restoration boards when the leases are terminated.

§ 116.04–22 *Inventory of furnishings.* If it should be necessary to lease the building furnished or partially furnished, a similar detailed inventory of the furniture, rugs, drapes, etc., is to be made, preferably by an experienced appraiser. Condition, apparent defects and value should be noted for each item, the item identified by a number affixed thereto, and the whole agreed to by owner.

§ 116.04–23 *Remodeling, repairing and altering.* After the lease has been negotiated and possession taken by Coast Guard, the question of remodeling, repairing, altering, etc., arises. It should be borne in mind constantly that, in signing the lease, the Coast Guard has agreed to return the property to the owner in the same condition as when leased, "ordinary wear and tear excepted." In other words, any structural changes made by the Coast Guard will involve expensive restoration later. Thus alterations should be limited to those which are absolutely essential and which will not impair the structural strength of the building itself for Coast Guard use. Repairs should be made as required for safety and a reasonably presentable appearance. Any painting done should be insofar as is practicable in agreement with the owner as to color and type of paint, and his signed concurrence obtained if possible and filed with the original inventory before the work is done. Present statutory regulations prohibit expenditure of over 25 percent of first year's rent for repairs or alterations.

§ 116.04–24 *Damages and restoration.* Needless to say, any damage to the buildings, furnishings, grounds, etc., caused by carelessness, neglect, or mis-use will be reflected in excessive restoration costs at the conclusion of the lease. It is therefore necessary that constant supervision be exercised to insure that the "wear and tear" on the property is not excessive. Some of the most common preventable items requiring restoration as a result of World War II occupancy of leased properties were:

(a) Cigarette burns on floors, rugs and furniture.

(b) Pictures nailed or scotch-taped to walls.

(c) Broken plaster.

(d) Careless use of furniture.

(e) Painting with "battleship gray" paint, rather than existing colors or colors satisfactory to owner.

(f) Nails driven into walls for clothes hangers.

(g) Careless handling in storage of window screens when not in use, or of furniture when stored on the property by Coast Guard.

(h) Alterations made to buildings when not absolutely required.

(i) Changes in electrical wiring resulting in unsafe conditions.

(j) Neglect in upkeep of grounds, walks, utilities.

§ 116.04–25 *Planning for future requirements.* The Coast Guard use of leased properties in the future may be negligible, but at the same time conditions requiring widespread use of such facilities may arise. Careful planning and supervision such as is outlined herein will cause little or no delay in occupying the buildings but will do much to prevent a repetition of the unreasonably high restoration costs experienced after World War II. Careful planning now before the possible need arises, in the matter of tentative selection of possible buildings and locations will expedite the establishment of the units should the need arise.

PART 118—CONTRACTS

Subpart 118.01—General Provisions

Sec.
- 118.01–1 Forms of agreement.
- 118.01–2 Separate award type contract.
- 118.01–3 Combination type contract.
- 118.01–4 Purchase orders (informal contracts).
- 118.01–5 Definition of specific contracts.
- 118.01–6 Definition of term contracts.
- 118.01–7 Expiration of contracts.
- 118.01–8 Legality of contracts.
- 118.01–9 Award of contracts in anticipation of funds.
- 118.01–10 Execution of term contracts.
- 118.01–11 Term contracts for repairs to vessels.
- 118.01–12 Contract bulletins.
- 118.01–13 Appropriation chargeable to be cited in the contract.
- 118.01–14 Notification of awards to Department of Labor.
- 118.01–15 Maintenance and use of the Contract Register.
- 118.01–16 Contracts to be executed by headquarters.
- 118.01–17 Contracts requiring numbering.
- 118.01–18 Units not authorized to execute or number contracts.

Subpart 118.02—Forms Preparation and Distribution

- 118.02–1 Separate award type contracts.
- 118.02–2 Combination type contracts.
- 118.02–3 Purchase orders (informal contracts).
- 118.02–4 Uniform contract numbering system.
- 118.02–5 Amendments to contracts.
- 118.02–6 Unassigned.
- 118.02–7 Special contract conditions.
- 118.02–8 Rejected proposals (bids and quotations).
- 118.02–9 Contract files.
- 118.02–10 Distribution of numbered contracts.
- 118.02–11 Distribution of unnumbered contracts.
- 118.02–12 Purchase order Form CG–2557
- 118.02–13 Purchase-invoice Form CG–2974.
- 118.02–14 Classes of purchase orders.
- 118.02–15 Use of purchase orders.

Sec.
118.02-16 Preparation of purchase orders (Form CG-2557).
118.02-17 Report of receipt of partial deliveries.
118.02-18 Numbering of purchase orders (Form CG-2557).
118.02-19 Purchase orders involving trade-in allowances.
118.02-20 Amendments to purchase orders.
118.02-21 Coding of purchase orders, contracts, and contract bulletins.
118.02-22 Coding sources of procurement.
118.02-23 Coding circumstances governing procurement.

Subpart 118.03—Contract Clauses

118.03-1 Terms, conditions and provisions to be incorporated in contracts.
118.03-2 Standard clauses for fixed price contracts executed on SF-33.
118.03-3 Standard clauses for construction and repair contracts (real property) executed on SF-23.
118.03-4 Standard clauses for construction and repair contracts (vessels) executed on SF-23.
118.03-5 Special contract clauses.

Subpart 118.04—Administrative Instructions

Renegotiation Act of 1951

118.04-1 Renegotiation Act of 1951; administration.

Copeland ("Kickback") Act

118.04-4 Affidavits required by Copeland ("Kickback") Act.

Contractor's Statement of Contingent or Other Fees

118.04-8 Purpose.
118.04-9 Definitions.
118.04-10 Scope.
118.04-11 Covenant against contingent fees.
118.04-12 Representation and agreement required for prospective contractors.
118.04-13 Standard Form 119, contractor's statement of contingent or other fees.
118.04-14 Acceptance or rejection.

Procedures for Handling Assignments of Claims

118.04-18 Assignment of claims.

Authority: §§ 118.01-1 to 118.04-18 issued under 62 Stat. 21, 41 U. S. C. 151-161. Interpret or apply secs. 201, 206, 63 Stat. 378, 390, as amended, 65 Stat. 7; 40 U. S. C. Sup. 481, 487, 50 U. S. C. App. Sup. 1211-1223, E. O. 10260, 16 F. R. 6271; 3 CFR, 1951 Supp. 63.

SUBPART 118.01—GENERAL PROVISIONS

§ 118.01-1 *Forms of agreement.* All contractual obligations shall be recorded on a separate award type contract, a combination award type contract, or a purchase order (informal contract).

§ 118.01-2 *Separate award type contract.* (a) The separate award type (or "long form") contract contemplates the reduction of an agreement to a single written document signed by both parties at the end thereof, which is drawn and prepared after acceptance of bids or quotations. Bonds, drawings, specifications, conditions, and/or other relevant papers are incorporated as necessary.

(b) Separate award type contracts used by the Coast Guard include, but are not restricted to, the following:

(1) Standard Form 2, Real Estate Lease.

(2) Standard Form 23, Construction Contract.

(3) Standard Form 40, Contract for Telephone Service.

(4) Standard Form 41, Standard Government Form of Contract (Coal).

(5) Unnumbered form, Standard Coast Guard Contract for Professional Services.

(c) Separate award type contracts other than those listed above may be executed only by the Commandant (PS-1) or when directed by the Commandant.

§ 118.01-3 *Combination type contract.* (a) The combination type (or "short form") contract consists of the invitation for bids, the bid, and the award, contained in one instrument. Bonds, drawings, specifications, conditions, and/or other relevant papers are incorporated as necessary.

(b) Standard Form 33 (Invitation, Bid, and Award) is the only combination type contract used by the Coast Guard.

§ 118.01-4 *Purchase orders (informal contracts).* (a) Form CG-2557 (Purchase Order) may be used as a contractual agreement for procurement by negotiation when the transaction does not exceed $2,000 and does not require the use of a contract form. Drawings, specifications, conditions, and/or other relevant papers are incorporated as necessary.

(b) Each contractor to whom a purchase order (informal contract) is issued will be required to indicate his acceptance thereof as prescribed in § 118.02-16.

§ 118.01-5 *Definition of specific contracts.* A specific contract is an agreement to furnish a stated item, at a specified time, in a definite quantity and at a price agreed upon and set forth in the contract, which items must, in the absence of mutual agreement as to modification, be accepted and paid for by the Government.

§ 118.01-6 *Definition of term contracts.* A term contract is an agreement to furnish certain articles or services as may be required during a stated period of time, or involving multiple deliveries in stated quantities, over a period of time. Term contracts shall clearly show the interval of time covered by the contract, such as 1, 2, 3, 6, 9, or 12 months. Term contracts shall not extend beyond the end of a fiscal year. Items covered by term contracts must be purchased from the contractor and duplicating contracts with other firms for the same items shall not be executed.

§ 118.01-7 *Expiration of contracts.* (a) A specific contract expires when the quantity stipulated therein has been delivered. When a contract has been made for a specific quantity and it later develops that the quantity contracted for is insufficient, additional quantities cannot be purchased under the existing contract and the execution of a new contract is required.

(b) Term contracts shall avoid indicating a "maximum" quantity to be furnished. An "estimated" or "approximate" quantity should be shown in order to avoid termination of the contract prior to the expiration of the contract period. Term contracts do not expire when the "estimated" or "approximate" quantity is reached unless a "maximum" quantity has been fixed by the contractor and is stipulated in the contract.

§ 118.01-8 *Legality of contracts.* If any doubt arises as to the propriety or legality of entering into a contract, all proposals shall be forwarded to the Commandant (FS-1) for decision, with a letter setting forth the problems involved. In case of emergency, the question may be submitted by dispatch.

§ 118.01-9 *Award of contracts in anticipation of funds.* It is unlawful to enter into a contract in anticipation of funds. However, term contracts for future requirements may contain a qualifying clause stating the contract is subject to the availability of appropriated funds if agreeable to the contractor. Purchase orders for delivery under such contracts shall not be placed until funds are made available.

§ 118.01-10 *Execution of term contracts.* Coast Guard contracting officers are authorized to execute term contracts to cover an extended period of time for furnishing provisions, fuels, ice, water, garbage removal service and other materials and services of common, general use, that readily lend themselves to consolidated procurement.

§ 118.01-11 *Term contracts for repairs to vessels.* The execution of term contracts for repairs to vessels is authorized when deemed advantageous by the contracting officer. Term contracts should be executed only at units to which numerous vessels of similar characteristics, which require frequent hauling out and minor repair work, are attached. The use of term contracts is restricted to minor repair work on vessels not larger than 125 feet in length. Work on larger vessels and all major overhaul and repair work shall be the subject of specific contracts.

§ 118.01-12 *Contract bulletins.* Information bulletins covering term contracts executed by a Coast Guard contracting officer shall be promptly furnished to all units which may make use of such contracts. The bulletins shall be in sufficient detail to permit settlement of vouchers and shall cite contract numbers, date of the contract, name and address of the contractor, delivery points and delivery conditions, items and prices, applicable discounts, and code symbols relating to sources of procurement and circumstances governing procurement. District commanders shall also furnish information covering contracts executed by other Government agencies which are available for Coast Guard use to all district units which may make use of such contracts.

§ 118.01-13 *Appropriation chargeable to be cited in the contract.* All specific contracts shall clearly indicate the appropriation, allotment and/or fund chargeable with the cost of the work. This information shall be stated in the contract and on all change orders issued in connection with the contract.

§ 118.01-14 *Notification of contract awards to Department of Labor.* (a) Department of Labor Form 99, Notice of Award of Contract, shall be prepared and submitted in quadruplicate to the Department of Labor whenever a contract is executed by a Coast Guard unit for manufactured items in the amount of $10,000 or more. This form may be obtained from local branch offices of the Department of Labor or from the Commandant (CHS).

(b) The Commandant (ECV) shall prepare and furnish Department of Labor Form BLS-792, Construction Contract Award Notification, to the Department of Labor for all construction contract awards of $25,000 or more for both Headquarters and field units.

§ 118.01-15 *Maintenance and use of the contract register.* (a) Each unit (contracting officer) assigning contract numbers shall maintain a Contract Register, Form CG-3252, to control the sequence of serial numbers assigned to contracts, and for the purpose of accumulating information as a basis for rendering reports. The Contract Register shall be maintained in duplicate.

(b) At the close of each month the duplicate copy of the Contract Register shall be ruled off and signed by the contracting officer in the manner indicated by the specimen. The completed duplicate shall be forwarded to the Commandant (FS) in time to be received by the 10th of the following month. The original of the Contract Register shall be retained in the unit for the files of the contracting officer. The original need not be ruled off or signed.

§ 118.01-16 *Contracts to be executed by the commandant.* (a) All contracts for the construction of vessels, as distinguished from repairs to vessels, shall be executed by the Commandant (FS-1).

(b) All contracts for amounts in excess of the monetary limitations specified in § 116.01-6 of this chapter shall be executed by the Commandant (FS-1) or under the direction of the Commandant.

(c) Contracts negotiated under circumstances requiring Headquarters' action as set forth in Subpart 116.03 of this chapter shall be executed by the Commandant (FS-1).

§ 118.01-17 *Contracts requiring numbering.* The following types of contracts shall be numbered in accordance with the uniform system prescribed in § 118.02-4:

(a) Every contract involving, or likely to involve, an amount of $2,000 or more;

(b) All term contracts;

(c) All contracts which involve more than one payment, or which involve partial payments;

(d) All leases;

(e) All sales contracts.

§ 118.01-18 *Units not authorized to execute or number contracts.* Bids or quotations solicited by units not authorized to execute contracts or assign contract numbers shall be transmitted to the cognizant District Commander (f), or to the Commandant (FS-1) in the case of Headquarters units, for acceptance and assignment of a contract number. The original and three copies of each bid or quotation shall be forwarded with a letter containing the necessity for the contract; place or places where notices to bid were posted; the names of the dealers from whom bids or quotations were solicited; recommendation as to award; and adequate justification if lowest bid is not recommended for acceptance.

SUBPART 118.02—FORMS PREPARATION AND DISTRIBUTION

§ 118.02-1 *Separate award type contracts.* (a) Leases of real property shall be executed on Standard Form 2, Real Estate Lease.

(b) Construction and repair contracts (vessels and real property as defined in § 118.03-3) for amounts of $2,000 or more (or lesser amounts at the discretion of the contracting officer), and contracts involving the use of bonds, shall be executed on Standard Form 23, Construction Contract.

(c) Contracts for telephone service shall be executed on Standard Form 40, Contract for Telephone Service.

(d) Coal contracts shall be executed on Standard Form 41, Standard Government Form of Contract (Coal), except under the following conditions when Standard Form 33, Invitation, Bid and Award, or Form CG-2557, Purchase Order, may be used:

(1) When required for marine use.

(2) When purchase is for 300 tons or less.

(3) When deliveries are required in less than carload lots.

(4) When required for emergency use.

(5) When required for testing purposes.

(e) Contracts for architect-engineering professional services shall be executed in substantially the same form as the specimen Contract for Professional Services contained in Vol. 3 of the Comptroller Manual.

§ 118.02-2 *Combination type contracts.* (a) Supply contracts made by advertising, and contracts for the construction and repair of aircraft and aids to navigation, shall be executed on Standard Form 33 (Invitation, Bid and Award).

(b) Standard Form 33 (Invitation, Bid and Award) may be used for the execution of the following contracts resulting from either negotiation or advertising:

(1) Nonpersonal services.

(2) Utility services.

(3) Solid fuels.

(4) Construction, alteration, maintenance, or repair of public works, buildings, bridges, roads, or other real property, provided the contract does not exceed $2,000 and does not require the use of bonds.

(5) Construction, alteration, maintenance, or repair of ships, craft, boats, vessels, and other floating equipment, such as, but not limited to, floating drydocks, cranes, barges, and the like, provided the contract does not exceed $2,000 and does not require the use of bonds.

§ 118.02-3 *Purchase orders (informal contracts).* Purchase orders (Form CG-2557) may be used as a contractual agreement for procurement by negotiation when the transaction does not require the use of a contract form and does not involve the use of bonds.

§ 118.02-4 *Uniform contract numbering system.* The uniform system prescribed for assigning identifying serial numbers to contracts shall be as follows:

(a) The contract number shall consist of a series of letters and digits in sequence, i. e., T12cg-8.

(b) The contract number shall be prefaced by the capital letter "T" which identifies the contract as pertaining to the Treasury Department.

(c) The allotment administrative code number of the unit which assigns the contract number shall be shown immediately following the letter "T" thus, the numeral "12" used in the example identifies the 12th CG District.

(d) The small letters "cg", which identify the contracts as pertaining to the Coast Guard, shall be shown immediately following the allotment administrative unit code number.

(e) The small letters "cg" shall be followed by a dash and the serial number of the contract; thus, the numeral "8" used in the example identifies the 8th contract assigned a number by the 12th CG District. Contracts shall be numbered serially in unbroken sequence by each unit authorized to assign contract numbers, commencing with No. 1 and continuing until a limit of five digits (99,999) has been reached, when a new series will be used, commencing with No. 1.

(f) Contract numbers shall be assigned at those administrative allotment units only to which an officer is assigned who has delegated authority under § 116.01-24 of this chapter to act as contracting officer.

§ 118.02-5 *Amendments to contracts.* Amendments to contracts shall be issued in the form of a "Change Order." Change orders will be prepared on Form CG-3473, completed to show all the information required by the format of the form, and must be signed by the contracting officer as designated in the contract. (See §§ 116.01-24, 116.01-25, and 116.01-144 of this chapter.) Copies of change orders will be furnished all units receiving distribution of the basic contract.

§ 118.02-6 [Reserved.]

§ 118.02-7 *Special contract conditions.* Special contract conditions, when required in connection with a contract, in addition to the standard articles incorporated in the printed contract form, shall be incorporated in the contract by reference and/or attachment thereto. The conditions shall be incorporated in the contract in a manner substantially as follows:

> Subject to the conditions of Form ____ (or, Articles ____ of Form ____) attached hereto and forming a part of this contract.

§ 118.02-8 *Rejected proposals (bids and quotations.)* (a) The original of each rejected proposal shall be attached to the copy of the related contract retained for the contracting officer's files.

Where all bids and quotations are rejected and no award is made, the original of each rejected proposal shall be filed with the related request for bid under which the proposals were received.

(b) Copies shall be returned to the unit submitting the proposals for acceptance.

(c) The unit submitting proposals for acceptance shall notify unsuccessful bidders of the rejection of their bids.

§ 118.02–9 *Contract files.* Contracts made as the result of advertising, and negotiated contracts relating to public exigency, purchases not in excess of $1,000, for personal or professional services, for services rendered by educational institutions, and for supplies or services procured and used outside the limits of the United States and its possessions, shall be filed, together with all related data, for a period of not less than three years from date of final payment of the contract. All other types of contracts made as the result of negotiation shall be filed, together with all determinations, decisions, findings, and related data, for a period of not less than six years from date of final payment of the contract.

§ 118.02–10 *Distribution of numbered contracts.* Numbered contracts and change orders, executed by designated contracting officers, shall be distributed as follows by the contracting officer:

(a) Original, with original Standard Form 1036 and related bonds, shall be forwarded to the Coast Guard office indicated below for filing:

(1) Contracts executed at Headquarters shall be forwarded to the Commandant (FA).

(2) Contracts executed at district offices shall be forwarded to the Comptroller Division, Accounting Section, of the district office to which the contracting officer is attached.

(3) Contracts executed at Headquarters units shall be forwarded to the accounting office performing the off-site accounting service for the unit. If Headquarters is performing the off-site accounting service, the contracts shall be forwarded to the Commandant (FA).

(b) One copy to the contractor. This copy shall be forwarded via the organizational unit submitting the proposal for acceptance.

(c) One copy retained for the files of the office (division or section) to which the contracting officer is attached.

(d) One copy to organizational unit submitting the proposal for acceptance. This unit will forward copies to the inspector and others requiring copies as necessary.

(e) One copy to the Commandant (ECV) if the contract pertains to the construction or repair of shore structures.

(f) One copy to the Commandant (FS–2) if the contract is a lease or renewal thereof.

(g) If the contract requires performance and payment bonds, the original of such bonds, together with related executed contract, shall be forwarded by the contracting officer to the Commandant (CL) for examination and transmittal of the bonds to the Treasury Department, Section of Surety Bonds, for review in accordance with Treasury Department Circular 747, dated August 10, 1944. After completion of this examination and review, the bonds, together with the original executed contract, will be returned to the office from which received for filing as prescribed above. A copy of the letter of transmittal to the Commandant (CL) shall be furnished the Accounting Division, or Section, for information and use pending the return of the original contract and related documents.

§ 118.02–11 *Distribution of unnumbered contracts.* Unnumbered contracts executed by designated contracting officers shall be distributed as follows by the contracting officer:

(a) Original, with original Standard Form 1036, when required, to the unit which will prepare the voucher for payment, to be attached to the original voucher as support.

(b) One copy to the contractor. This copy will be forwarded via the organizational unit submitting the proposal for acceptance.

(c) One copy retained for the files of the office (division or section) to which the contracting officer is attached.

(d) One copy to organizational unit submitting the proposal for acceptance. This unit will forward copies to the inspector or others requiring copies as necessary.

§ 118.02–12 *Purchase order Form CG–2557.* Form CG–2557, Purchase Order, shall generally be used for commercial purchases.

§ 118.02–13 *Purchase-invoice Form CG–2974.* Under such instructions as may be prescribed by District Commanders and commanding officers of Headquarters units, Form CG–2974, Purchase-Invoice, may be used as a purchase order by persons in charge of vehicles, aircraft, and small boats while (a) on detached duty, (b) en route to new stations, and (c) in emergencies during normal operations. The instructions contained on the cover sheets of Form CG–2974 shall be strictly complied with.

§ 118.02–14 *Classes of purchase orders.* There are two classes of purchase orders:

(a) When the article is covered by an existing contract and the purchase order is, in fact, a request for delivery. In this case the purchase order cites reference to the existing contract and no additional conditions can be imposed.

(b) When the order is placed as the result of a negotiated purchase and the purchase order is, in fact, the contractual agreement. In this case the conditions under which the purchase is made and delivery will be accepted shall be incorporated in the order.

§ 118.02–15 *Use of purchase orders.* (a) A purchase order shall be used to cover every purchase, including confirmation of orders placed by telephone or telegraph and requests for delivery under term or specific contracts. A purchase order prepared in confirmation of a telephone or telegraph order must bear the same date as the telephone or telegraph order. The purchase order issued in confirmation of a telephone order should contain a notation substantially as follows:

Confirming telephone order placed this date with your Mr. _____; do not duplicate delivery.

(b) A separate purchase order shall be issued for each purchase under a term contract, except in those cases where day to day deliveries are required For example, a purchase order for ice would show the quantity to be delivered as: 100 lbs. daily for the month of July 1952.

(c) Purchase orders covering repairs to vessels under term contracts shall clearly specify the work to be performed and the applicable contract prices that will be paid. The date for the commencement and completion of the work shall be stated in the purchase order.

§ 118.02–16 *Preparation of purchase orders (Form CG–2557).* (a) Purchase orders shall be prepared in a sufficient number of copies to serve the administrative requirements of the purchasing unit.

(b) All applicable data required by the format of the purchase order blank shall be inserted.

(c) The original purchase order, bearing the ordering officer's signature, shall be forwarded or delivered to the supplier

(d) The block in the lower left-hand corner of the purchase order may be utilized for the following purposes:

(1) *On the original.* Instructions to the supplier to acknowledge receipt of the order in the following form:

Acknowledge receipt and acceptance of this order by signing and returning the "Contractor's Acceptance Copy" to the ordering office.

(2) *Contractor's acceptance copy.* When the seller's acceptance of the purchase order is required, the contractor shall be furnished an extra copy of the order and shall be requested to indicate acceptance by completion of the following legend typed or stamped on that copy:

Acceptance of this order, subject to the conditions as stated, is hereby acknowledged.
Signature _____
Title _____
Date: _____

(3) *Receiving unit's copy.* Two copies of the purchase order shall be forwarded to each consignee. This includes the units to which the items are shipped and also the units for which the items are ultimately intended. Each consignee shall be requested to indicate complete and final delivery of the items covered by the purchase order by executing the certificate shown below on one copy of the purchase order, which is to be returned to the purchasing office. (See § 118.02–17 for instructions regarding receipts for partial deliveries.)

Received this date the above articles in good condition and in the quantities indicated.

Signature _____
Title _____
Date _____
Unit _____

§ 118.02–17 *Report of receipt of partial deliveries.* Where partial deliveries are made under a procurement document, each consignee shall report such deliveries, as occurring, to the cognizant purchasing office on Form CG–3357, Report of Receipt of Partial Deliveries. Form CG–3357 shall be submitted to field offices in duplicate. When Headquarters is the purchasing activity, the form shall be submitted to the Commandant (FS–1) in triplicate.

§ 118.02–18 *Numbering of purchase orders (Form CG–2557).* (a) Purchase orders issued by field units shall be serially numbered, in numerical sequence, beginning a new series each fiscal year. Such numbers shall be prefixed by the allotment symbol number in the case of shore units and by the class and number in the case of vessels.

[redacted]

01–33–53 would indicate:

1st CG District	Serial No.	Fiscal Year
01	33	53

WPG31–33–53 would indicate:

Cutter BIBB	Serial No.	Fiscal Year
WPG–31	33	53

(b) Additional numbers or symbols may be suffixed at the discretion of the ordering office for internal administrative control.

§ 118.02–19 *Purchase orders involving trade-in allowances.* Purchase orders covering replacement equipment for which an exchange or "trade-in" allowance of an old equipment has been authorized and agreed upon shall list the replacement item at gross contract or purchase price, and indicate credit against such gross cost by identification of type, make, size, serial number, etc., and exchange or "trade-in" allowance of the old equipment. The net amount will be shown on the purchase order after deduction of the exchange or "trade-in" allowance from the contract or purchase price, after which allowed discounts shall be applied to reflect the net cost of the replacement equipment.

§ 118.02–20 *Amendments to purchase orders.* Amendments to purchase orders (Form CG–2557) shall be issued in the form of a "Change Order." Change orders (Form CG–3473) will refer to the number, date, purchasing office, consignee, etc., and will be serially numbered as issued. Copies of change orders will be furnished all units receiving distribution of the initial purchase order.

§ 118.02–21 *Coding of purchase orders, contracts, and contract bulletins.* (a) Under the provisions of the act, as implemented by instructions issued by the President, the Coast Guard is required to assemble information pertaining to (1) all procurement from small business concerns, and (2) procurement under each of the several circumstances authorizing negotiation. In order to obtain the information for statistical use, appropriate code symbols have been prescribed for use on all purchase orders, contracts and contract bulletins pertaining to procurement. These code symbols are set forth hereinafter.

(b) Every purchase order issued to a commercial supplier shall bear the applicable code symbols (1) as to Sources of Procurement and (2) Circumstances Governing Procurement in order that the information will be available to permit proper filing in accordance with Subpart 116.01 of this chapter. The code symbols shall be inserted near the upper right-hand corner of the purchase document. When contract bulletins are issued by contracting offices, the applicable code symbols pertaining to each contract shall be shown for the information of all ordering offices.

§ 118.02–22 *Coding sources of procurement.* (a) Purchases made under Coast Guard contracts or purchase agreements from concerns employing less than 500 persons; SBC–1.

(b) Purchases made under Coast Guard contracts or purchase agreements from concerns employing 500 or more persons; SBC–2.

(c) Purchases made under contracts of other Government agencies (including Navy and Federal Supply Service contracts); SBC–3.

§ 118.02–23 *Coding circumstances governing procurement.*

(a) Purchases made under Coast Guard contracts or purchase agreements under the following circumstances:

(1) Procurement by Advertising	CG–10
(2) National Emergency (sec. 2 (c) (1))	CG–20
(3) Public Exigency (sec. 2 (c) (2))	CG–21
(4) Not in Excess of $1,000 (sec. 2 (c) (3))	CG–22
(5) Personal and Professional Services (sec. 2 (c) (4))	CG–23
(6) Services of Educational Institutions (sec. 2 (c) (5))	CG–24
(7) Purchases Outside the United States (sec. 2 (c) (6))	CG–25
(8) Medicines and Medical Supplies (sec. 2 (c) (7))	CG–26
(9) Supplies Purchased for Authorized Resale (sec. 2 (c) (8))	CG–27
(10) Perishable Subsistence Supplies (sec. 2 (c) (9))	CG–28
(11) Supplies or Services for Which it is Impracticable to Secure Competition by Formal Advertising (sec. 2 (c) (10))	CG–29
(12) Experimental, Developmental, or Research Work (sec. 2 (c) (11))	CG–30
(13) Classified Purchases (sec. 2 (c) (12))	CG–31
(14) Technical Equipment Requiring Standardization and Interchangeability of Parts (sec. 2 (c) (13))	CG–32
(15) Technical or Specialized Supplies Requiring Substantial Initial Investment or Extended Period of Preparation for Manufacture (sec. 2 (c) (14))	CG–33
(16) Negotiation After Advertising (sec. 2 (c) (15))	CG–34
(17) Purchases in the Interest of National Defense or Industrial Mobilization (sec. 2 (c) (16))	CG–35
(18) Otherwise Authorized by Law (sec. 2 (c) (17))	CG–36
(b) Purchases made under Navy Contracts	CG–50
(c) Purchases made under Federal Supply Service Contracts	CG–51
(d) Purchases made under contracts of other Government agencies	CG–52

SUBPART 118.03—CONTRACT CLAUSES

§ 118.03–1 *Terms, conditions, and provisions to be incorporated in contracts.* The contracting officer shall insure that contracts contain all terms, conditions, and provisions required by law. However, care shall be exercised to avoid citation to any law which is not applicable. Where terms, conditions, and provisions prescribed herein are not contained in standard or Coast Guard forms, they shall be incorporated in the contract by suitable reference and appendage of supplementary schedules containing the substance of the terms, conditions, and provisions imposed. Additional terms, conditions, and provisions deemed necessary by the contracting officer may be incorporated, provided they are not inconsistent with the instructions contained in this manual or current supplementary directives (circulars, memoranda, etc.). Specific authority must be obtained from the Commandant (FS–1) for the use of terms, conditions, or provisions which are inconsistent with those prescribed herein or in current supplementary directives.

§ 118.03–2 *Standard clauses for fixed price contracts executed on SF–33—(a) Supply contracts.* The standard contract clauses referred to in this paragraph shall be inserted in all fixed-price supply contracts, unless otherwise indicated. The term "fixed-price supply contract" shall mean any contract entered into either by formal advertising or by negotiation (but excluding purchase orders for $1,000 or less, preliminary notices of award, and amendments or modifications to contracts or purchase orders) at a fixed price) with or without provision for price redetermination, escalation, or other form of price adjustment), and for supplies other than the construction, alteration or repair of buildings, bridges, roads, or other kinds of real property, and experimental, developmental, or research work. The pertinent clauses will be inserted in the contracts by attachment of the form(s) prescribed opposite each clause title in the column headed "Embodying Form" below. When clauses to be inserted in the contract are not available in printed form, they shall be included in a supplementary schedule (continuation sheet) appended to the contract.

NOTES

1. As amended by Form CG 2557A.
2. See § 118.04-1 for exemptions from renegotiation.
3. Clauses indicated by this note shall be copied from § 118.03-5 in schedule form on SF-36 (Continuation Sheet—Supply Contract) or plain paper, suitably titled and appended to the contract.
4. See § 116.01-140 of this chapter re assessment of liquidated damages.

(b) *Construction/Repair contracts.* When Standard Form 33 (Invitation, Bid and Award) is used to document construction and repair contracts of the categories defined in § 116.02-11 (a) of this chapter, all of the clauses prescribed in paragraph (a) of this section shall be inserted in the contract except: (23) Reporting Royalties; (27) Terms of Delivery; and (29) Copyrights. In addition, the following clauses shall be made a part of such contracts, unless otherwise indicated.

Title	Embodying form	Note
(1) Employment of Aliens	Supplementary schedule.	1, 2
(2) Termination for Convenience of the Government.	do	1
(3) Suspension of Work	do	1
(4) Delivery and Shifting of Vessel (or Aircraft).	do	1

NOTES

1. Clauses indicated by this note shall be copied from § 118.03-5 in schedule form on SF 36 (Continuation Sheet—Supply Contract) or plain paper, suitably titled, and appended to the contract.
2. Applicable only to aircraft.

§ 118.03-3 *Standard clauses for construction and repair contracts (real property) executed on SF-23*—(a) *General.* The standard clauses referred to in this paragraph shall be inserted in all construction and repair contracts applicable to real property, as defined herein, unless otherwise indicated. The term "construction and repair contract (real property)" shall mean any contract entered into either by formal advertising or by negotiation for the construction, alteration, maintenance, or repair of public works, buildings, bridges, roads, or other real property. The pertinent clauses will be inserted in the contracts by attachment of the form(s) prescribed opposite each clause title in the column headed "Embodying Form" below. When clauses to be inserted in the contract are not available in printed form, they shall be included in a supplementary schedule (continuation sheet) appended to the contract.

NOTES

1. See § 118.04-1 for exemptions from renegotiation.
2. See § 116.01-140 of this chapter re assessment of liquidated damages.
3. Clauses indicated by this note shall be copied from § 118.03-5 in schedule form on plain paper, suitably titled, and appended to the contract.
4. Applicable to contracts in excess of $2,000.
5. As amended by Clause (34).

(b) *Additional provisions.* In addition to the clauses listed in paragraph (a) of this section, the general specification provisions embodied in Form CG-2557C (General Conditions Applicable to Contracts for Construction and/or Repair to Shore Structures) shall be made a part of all construction and repair contracts (real property) by incorporation of that form in the invitation for bids and the resulting contract.

§ 118.03-4 *Standard clauses for construction and repair contracts (vessels) executed on SF-23.* The standard contract clauses referred to in this section shall be inserted in all construction and repair contracts applicable to vessels, unless otherwise indicated. The term "construction and repair contract (vessels)" shall mean any contract entered into either by formal advertising or by negotiation for the construction, maintenance, or repair of vessels (including ships and other floating equipment such as, but not limited to, boats, floating drydocks, cranes, barges, and the like). The pertinent clauses will be inserted in the contracts by attachment of the form(s) prescribed opposite each clause title in the column headed "Embodying Form" below. When clauses to be inserted in the contract are not available in printed form, they shall be included in a supplementary schedule (continuation sheet) appended to the contract.

NOTES

1. Clauses indicated by this note shall be copied from § 118.03-5 in schedule form on plain paper, suitably titled, and appended to the contract.
2. See § 118.04-1 for exemptions from renegotiation.
3. See § 116.01-140 of this chapter re assessment of liquidated damages.
4. As amended by Clause (39).

§ 118.03-5 *Special contract clauses.* The contract clauses set forth in this section supplement those contained in the following forms and shall be used when required by §§ 118.03-2, 118.03-3, and 118.03-4, and/or when applicable to other contracts: SF-23a, SF-32, CG-2557A, CG-2557A-1, CG-2557B, and CG-2557C. When any of these clauses are required, they shall be embodied in the pertinent contract by suitable reference and appended thereto in schedule (or

continuation sheet) form. Clauses prescribed elsewhere in Part 116 of this chapter, or in current supplementary directives (circulars, memoranda, etc.), which are not available in printed form, shall be inserted in contracts in the same manner.

(a) *Government use and publication of copyrighted material*—(1) *General.* In the event the contractor incorporates copyrighted or copyrightable material owned by it or others in the material furnished to the Government, the following contract clause shall apply.

Copyrights. (i) The contractor agrees to and does hereby grant to the Government, and to its officers, agents and employees acting within the scope of their official duties, (1) a royalty-free, nonexclusive and irrevocable license to reproduce, translate, publish, use, and dispose of, and to authorize others so to do, all copyrightable material first produced or composed and delivered to the Government under this contract by the contractor, its employees or any individual or concern specifically employed or assigned to originate and prepare such material, and (2) a license as aforesaid under any and all copyrighted or copyrightable work not first produced or composed by the contractor in the performance of this contract, but which is incorporated in the material furnished under the contract, provided that such licenses shall be only to the extent the contractor now has, or prior to completion or final settlement of the contract may acquire, the right to grant such license without becoming liable to pay compensation to others solely because of such grant.

(ii) The contractor agrees that it will exert all reasonable effort to advise the contracting officer, at the time of delivering any copyrightable or copyrighted work furnished under this contract, of any adversely held copyrighted or copyrightable material incorporated in any such work and of any invasion of the right of privacy therein contained.

(iii) The contractor agrees to report to the contracting officer, promptly and in reasonable written detail, any notice or claim of copyright infringement received by the contractor with respect to any material delivered under this contract.

(2) *Motion pictures.* The clause set forth below shall apply to all contracts for motion pictures, or the production of motion pictures, and in all contracts for the preparation of motion picture scripts, translations, adaptations and the like:

Copyrights. (i) The contractor agrees that all material forming the subject matter of this contract and first produced in the performance of this contract shall be the sole property of the Government, and may not be published or reproduced in whole or in part, or in any manner or form, other than by the Government or with its express consent. The contractor further agrees that no right at common law or in equity shall be asserted and no claim to copyright by statute shall be established by the contractor in any material first produced in the performance of this contract.

(ii) The contractor agrees to grant and does hereby grant to the Government a royalty-free, nonexclusive and irrevocable license (1) to publish, reproduce, use, and dispose of, in any manner, any and all copyrighted or copyrightable material not first produced or composed in the performance of this contract but which is incorporated in the material furnished under the contract; and (2) to authorize others so to do.

(iii) The contractor agrees to indemnify and save and hold harmless the Government, its officers, agents and employees acting within the scope of their official duties against any liability, including costs and expenses, for (1) violation of proprietary rights, copyright or right of privacy, arising out of the reproduction, use or disposition of any copyrighted or copyrightable material furnished under this contract, or (2) based upon any libelous or other unlawful matter contained in said material.

(b) *Employment of aliens.* No aliens employed by the contractor shall be permitted to have access to the plans or specifications, or the work under construction, or to participate in the contract trials, without the written consent beforehand of the Secretary or his duly authorized representative. (This clause shall apply only to contracts covering the construction and repair of aircraft.)

(c) *Ceiling prices.* Contractor agrees that the prices invoiced hereunder will not exceed the lower of (1) the contract prices or (2) any applicable ceiling prices established by the Office of Price Stabilization or other authorized Government agency.

(d) *Guaranty.* Notwithstanding the provisions of Clause 9, Standard Form 23a (General Provisions—Construction Contracts), forming a part of this contract, entitled "Inspection," should any work embodied in this contract prove defective within a period of one (1) year after completion and acceptance, by reason of faulty material or workmanship, the contractor shall remedy such defects at his own expense to the entire satisfaction of the contracting officer within a reasonable time after receiving written notice of same.

(e) *Termination for the convenience of the Government.* The Government reserves the right to terminate this contract, in whole or in part, for its convenience. If the contract is so terminated, the contracting officer shall make an equitable adjustment in the contract price to compensate the contractor for all reasonable costs incurred by him in connection with said contract, plus a reasonable profit with respect to all completed work. If the contractor does not agree as to the price so determined, he shall have the right to appeal as provided in Clause 6, Standard Form 23a (General Provisions—Construction Contracts), or Clause 12, Standard Form 32 (General Provisions—Supply Contract), forming a part of this contract, entitled "Disputes." The contractor shall make a similar provision covering termination with respect to all subcontracts and orders for supplies and materials.

(f) *Suspension of work.* The contracting officer may, by written order, direct the contractor to suspend all or any part of the work for such period of time as may be determined by him to be necessary or desirable for the convenience of the Government. If such suspension delays the progress of the work and causes additional expense or loss to the contractor in the performance of the work, not due to the fault or negligence of the contractor, the contracting officer shall make an equitable adjustment in the contract price and time of performance and modify the contract accordingly. Provided, however, that no adjustment will be made under this clause for suspensions ordered under any other clause of the contract or provision of the specifications: And, provided further, that any claim for adjustment hereunder must be asserted within 30 days from the date such suspension is ordered. If the parties fail to agree upon the adjustment to be made, the dispute shall be determined as provided in Clause 6, Standard Form 23a (General Provisions—Construction Contracts), or Clause 12, Standard Form 32 (General Provisions—Supply Contract, forming a part of this contract, entitled "Disputes."

(g) *Delivery and shifting of vessel (or aircraft).* The vessel (or aircraft) will be delivered to the contractor at his place of business and removed therefrom, upon completion of all work, by the Government. While the vessel (or aircraft) is in the hands of the contractor, any necessary towage, cartage, or other transportation between ship (or plane) and shop or elsewhere, which may be incident to the work herein specified, shall be furnished by the contractor without additional charge to the Government.

(h) *Renegotiation.* (1) This contract shall be subject to any act of the Congress, whether heretofore or hereafter enacted and to the extent indicated therein, providing for the renegotiation of said contract and shall be deemed to contain all the provisions required by any such act without subsequent amendment of this contract specifically incorporating such provisions.

(2) The contractor (which term, as used in this clause, means the party contracting to furnish the materials or perform the work required by this contract) agrees to insert the provisions of this clause, including this paragraph (2), in subcontracts, as defined in section 103 (g) of the Renegotiation Act of 1951 (Pub. Law 9, 82d Cong.), except any subcontracts of a class or type described in section 106 (a) of the Renegotiation Act of 1951.

(3) Nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of the Congress, heretofore or hereafter enacted.

(i) *Examination of records*—(1) *Government-contractor transactions.* The following provision is applicable to this contract (or purchase order) when (i) the contract (or purchase order) is in an amount, or by subsequent change order(s) is increased to an amount, in excess of $1,000; (ii) is negotiated, as distinguished from formal advertising, under authority of section 2c, Public Law 413, 80th Congress; and (iii) does not cover the rendering of public utility services at rates established for uniform applicability to the general public:

The contractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment under this contract, have access to and the right to examine any directly pertinent books, documents, papers and records of the contractor involving transactions related to this contract.

(2) *Contractor-subcontractor transactions.* The following provision will be made a part of a subcontract (or purchase order) issued by a contractor when the subcontract (or contractor's purchase order) (i) is in an amount, or by subsequent change order(s) is increased to an amount, in excess of $1,000, and (ii) does not cover the rendering of public utility services at rates established for uniform applicability to the general public:

The contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payments under this contract with the Government, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractors involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (a) purchase orders not exceeding $1,000 and (b) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

(j) *Indemnity and insurance valuations.* Supplementing Article 5 of Form CG–2557B (Conditions Applicable to Contracts for Repairs to Vessels), forming a part of this contract, entitled "Indemnity and Insurance," the value of the Coast Guard vessel(s) listed herein for indemnity and insurance purposes is as follows: (Indicate valuation of vessel(s) opposite name and number.)

(For the purpose of the above clause, the valuations shown in the table below shall apply.)

Type	Class	Value of vessel for indemnity and insurance purposes only
Gunboats, 327-foot	WPG	$300,000
Gunboats, 255-foot	WPG	300,000
Gunboats, 250-foot	WPG	300,000
Seaplane tenders, 311-foot	WAVP	300,000
Escort vessels, 306-foot	WDE	300,000
Icebreakers, 288-foot	WAGB	300,000
Icebreakers, 269-foot	WAGB	300,000
Miscellaneous auxiliary, 238-foot	WAG	300,000
Patrol craft, large, 165-foot	WPC	300,000
Patrol craft, small, 125-foot	WSC	300,000
Oceangoing tugs, 218-foot	WAT	300,000
Oceangoing tugs, 205-foot	WAT	300,000
Cable layers, 180-foot	WARC	300,000
Cargo ships, 339-foot	WAK	300,000
Cargo ships, 176-foot	WAK	300,000
Buoy tenders, 196-foot	WAGL	300,000
Buoy tenders, 180-foot	WAGL	300,000
Buoy tenders, 180-foot and over	WAGL	300,000
Buoy tenders, under 180-foot	WAGL	150,000
Buoy boats, 80-foot	WD	100,000
Buoy boats, 72-foot	WD	75,000
Buoy boats, 65-foot	WD	75,000
Harbor tugs, 110-foot	WYT	300,000
Harbor tugs, under 100-foot	WYT	80,000
Patrol boats, 83-foot	WPB	100,000
Patrol boats, 95-foot	WPB	100,000
Lightships	WAL	300,000
Training vessels, 295-foot	WIX	300,000
Research and development vessels, 125-foot	WIX	200,000
Research and development vessels, 85-foot	WIX	70,000
Buoy boats, 40-foot		30,000
Amphibious boats		35,000
Barges, over 100-foot		50,000
Barges, under 100-foot		20,000
Floating lifeboat stations		75,000

(k) *Liquidated damages.* The time required for (brief description) being of material consideration, it is agreed that in the case of the failure of the contractor to complete the work (or delivery) within the time specified, there shall be deducted as liquidated damages, and not as a penalty, the sum of (insert rate per day and unit of assessment) per calendar day, from any payment made to the contractor, if the contractor shall be in inexcusable default. (See § 116.01–140.)

(l) *Assignment of claims.* (1) Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U. S. C. 203, 41 U. S. C. 15), if this contract provides for payments aggregating $1,000 or more, claims for moneys due or to become due the Contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing. Notwithstanding any other provision of this contract, payments to an assignee of moneys due or to become due under this contract shall not, to the extent provided in said act, as amended, be subject to reduction or set-off.

(2) In no event shall copies of this contract or of any plans, specifications, or other similar documents relating to work under this contract, if marked "Top Secret," "Secret," or "Confidential," be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive the same: *Provided*, That a copy of any part or all of this contract so marked may be furnished, or any information contained therein may be disclosed, to such assignee upon the prior written authorization of the Contracting Officer.

(m) *Amendment of standard Form 23A, general provisions (construction contracts).* (This amendment shall apply only when SF–23A is used in connection with the construction and/or repair of vessels.) Standard Form 23A, General Provisions (Construction Contracts), forming a part of this contract, is hereby amended as follows:

(1) *Clause 1, Definitions.* The term "contracting officer" as used herein shall include his duly appointed successor or his authorized representative.

(2) *Clause 7, Payments to Contractors.* Paragraph (b), line 9, amended by addition of the word "vessel" between "building" and "public work."

(3) *Clause 20, Davis-Bacon Act (40 U. S. C. 276–a (7)).* Deleted in entirety.

(4) *Clause 24, Copeland (Anti-Kickback) Act—Nonrebate of Wages.* Deleted in entirety.

(5) *Clause 23, Payroll Records and Payrolls.* Paragraph (b) deleted in entirety.

(6) *Clause 26, Subcontracts—Termination.* Line 1 amended by deletion of "Clauses 20 through 26" and substitution of "Clauses 21, 22, 23, 25, and 26."

(n) *Definitions (Amendment of SF–23A).* (This clause shall apply when SF–23A is used in connection with the construction and/or repair of real property.) Clause 1, Definitions, of Standard Form 23A, General Provisions (Construction Contracts), forming a part of this contract, is hereby amended as follows:

The term "contracting officer" as used herein shall include his duly appointed successor or his authorized representative.

(o) *Walsh-Healey Public Contracts Act.* If this contract is for the manufacture or furnishing of materials, supplies, articles, or equipment in an amount which exceeds or may exceed $10,000 and is otherwise subject to the Walsh-Healey Public Contracts Act as amended (41 U. S. C. 35–45), there are hereby incorporated by reference all representations and stipulations required by said act and regulations issued thereunder by the Secretary of Labor, such representations and stipulations being subject to all applicable rulings and interpretations of the Secretary of Labor which are now or may hereafter be in effect.

SUBPART 118.04—ADMINISTRATIVE INSTRUCTIONS

RENEGOTIATION ACT OF 1951

§ 118.04–1 *Renegotiation Act of 1951; administration—(a) Contracts exempt from renegotiation.* Under authority of section 106 (a) (Renegotiation Act of 1951), (50 U. S. C. 1216) the following classes of contracts are exempt from renegotiation:

(1) *Mandatory exemptions.* (i) Any contract by a Department with any Territory, possession, or state, or any agency or political subdivision thereof, or with any foreign government or any agency thereof; or

(ii) Any contract or subcontract for an agricultural commodity in its raw or natural state, or if the commodity is not customarily sold or has not an established market in its raw or natural state, in the first form or state, beyond the raw or natural state, in which it is customarily sold or in which it has an established market. The term "agricultural commodity" as used herein shall include but shall not be limited to:

(*a*) Commodities resulting from the cultivation of the soil, such as grains of all kinds, fruits, nuts, vegetables, hay, straw, cotton, tobacco, sugarcane, and sugar beets.

(*b*) Natural resins, saps, and gums of trees;

(*c*) Animals, such as cattle, hogs, poultry, and sheep, fish, and other marine life, and the produce of live animals, such as wool, eggs, milk and cream; or

(iii) Any contract or subcontract for the product of a mine, oil, or gas well, or other mineral or natural deposit, or timber, which has not been processed, refined, or treated beyond the first form or state suitable for industrial use; or

(iv) Any contract or subcontract with a common carrier for transportation, or with a public utility for gas, electric energy, water, communications, or transportation, when made in either case at rates not in excess of published rates or charges filed with, fixed, approved, or regulated by a public regulatory body, State, Federal, or local, or at rates not in excess of unregulated rates of such a public utility which are substantially as favorable to users and consumers as are regulated rates. In the case of the furnishing or sale of transportation by common carrier by water, this paragraph shall apply only to such furnishing or sale which is subject to the jurisdiction of the Interstate Commerce Commission under Part III of the Interstate Commerce Act or subject to the jurisdiction of the Federal Maritime Board under the Intercoastal Shipping Act, 1933; or

(v) Any contract or subcontract with an organization exempt from taxation under section 101 (6) of the Internal Revenue Code, but only if the income from such contract or subcontract is not includible under section 422 of such code in computing the unrelated business net income of such organization; or

(vi) Any contract which the Board determines does not have a direct and immediate connection with the National Defense. The Board shall prescribe regulations designating those classes and types of contracts which shall be exempt under this paragraph; and the Board shall, in accordance with regulations prescribed by it, exempt any individual contract not falling within any such class or type if it determines that such contract does not have a direct and immediate connection with the National Defense. Notwithstanding section 108 of this title, regulations prescribed by the Board under this paragraph, and any determination of the Board that a contract is or is not exempt under this paragraph, shall not be reviewed or redetermined by the Tax Court or by any other court or agency; or

(vii) Any subcontract directly or indirectly under a contract or subcontract to which this title does not apply by reason of this subsection.

(2) *Administrative exemptions—(i) Building maintenance and repair.* Contracts for maintenance and repair of buildings and structures. This exemption does not apply to contracts for the renovation or reactivation of standby facilities or facilities acquired after June 30, 1950, or for the substantial enlargement, alteration or expansion of facilities.

(ii) *Contracts for other Departments.* Contracts to the extent that they obligate funds of another Department named in or designated pursuant to section 103 of the act or to the extent that the contracting Department is to be reimbursed by such other Department, provided that the contracts would be exempt under this section if made by such other Department.

(iii) *Contracts for other persons or agencies.* Contracts to the extent that they obligate funds of another agency of the Government, other than a Department named in or designated pursuant to section 103 of the act, or to the extent that the contracting Department is to be reimbursed by such other Government agency or other person.

NOTE: It is the responsibility of any Department administering a contract which is exempt under subdivision (ii) or (iii) of this subparagraph to so notify the contractor, and contractors must assume that Departments employ funds appropriated to them, except when contractors are informed otherwise by such Departments.

(iv) *Materials for authorized resale.* Contracts for the purchase of materials to be resold through commissaries, military exchanges, ships' service stores, slop chests, post restaurants, and any other contracts for the purchase of materials for authorized resale, except contracts for the purchase of materials to be issued or to be sold under the monetary clothing allowance system of any of the armed services.

(v) *Removal of waste materials.* Contracts for the removal of waste materials.

(vi) *Laundry and cleaning services.* Contracts for laundry, cleaning and pressing services.

(vii) *Department of Commerce.* All contracts of the Office of Technical Services, Bureau of Census, Weather Bureau, Coast and Geodetic Survey, Inland Waterways Corporation, Bureau of Foreign and Domestic Commerce, Patent Office, Civil Aeronautics Board and Bureau of Public Roads, Department of Commerce.

(viii) *General Services Administration.* All contracts of the Public Buildings Service and the National Archives and Records Service, General Services Administration; all contracts of the Federal Supply Service, General Services Administration, for store stock to be delivered to its Supply Centers; and all Federal Supply Schedule contracts and consolidated direct delivery contracts of the Federal Supply Service, General Services Administration, to the extent that deliveries thereunder are made to agencies of the Government other than the Department of Defense, Department of the Army, Department of the Navy, Department of the Air Force, Atomic Energy Commission and United States Coast Guard.

NOTE: Exemption of the type contract outlined in this class is not applicable to single Coast Guard purchases against Federal Supply Schedule contracts in excess of $10,000 in amount.

(ix) *Construction contracts.* All construction contracts entered into before July 1, 1950, except those entered into by the Department of Defense, Department of the Army, Department of the Navy, Department of the Air Force, United States Coast Guard, and Atomic Energy Commission.

(x) *Canal Zone Government and Panama Canal Company.* All construction contracts for housing entered into before July 1, 1950, by the Canal Zone Government and the Panama Canal Company.

(xi) *Housing and Home Finance Agency.* All contracts of the Housing and Home Finance Agency, except construction contracts entered into after June 30, 1950.

(xii) *Corps of Engineers.* All contracts obligating funds appropriated for the civil functions of the Corps of Engineers, Department of the Army, except those contracts entered into after June 30, 1950, for the construction of facilities directly or indirectly related to the generation or distribution of hydroelectric energy.

(xiii) *Bonneville Power Administration.* All contracts of the Bonneville Power Administration entered into before July 1, 1950.

(xiv) *Tennessee Valley Authority.* All contracts of the Tennessee Valley Authority entered into before July 1, 1950.

(xv) *(United States) Geological Survey.* All contracts of the (United States) Geological Survey for gage-reading services.

(b) *Contracting officer's authority to determine contracts exempt from renegotiation.* Each duly designated contracting officer is delegated authority to act as the duly authorized representative of the Commandant in determining which contracts are exempt from renegotiation under paragraph (a) (2) above.

(c) *Submission of copies of contracts to headquarters.* A copy of proposed contracts in excess of $1,000 shall be submitted to the Commandant (FS–1) for review only when the contracting officer determines that an exception exists to the rules promulgated by the Renegotiation Board in its listing of the fifteen (15) classes of contracts not having a direct and immediate bearing upon the defense effort as listed in paragraph (a) (2) of this section. Such an exception may be of either of the following types:

(1) Contracts which fall within the fifteen (15) classes of contracts listed, but are determined by the contracting officer to have the required direct and immediate bearing upon the National Defense effort.

(2) Contracts which do not fall within the fifteen (15) classes of contracts listed, but are determined by the contracting officer not to have the required direct and immediate bearing upon the National Defense effort.

(d) *Relief for contractors and subcontractors.* Any individual prime contractor or subcontractor who believes his prime contract or subcontract is not directly and immediately connected with the National Defense effort may, under authority of section 106 (f) of the act, submit a recommendation that such contract or subcontract be excluded from renegotiation under section 106 (a) (6) of the act. Such recommendations shall be submitted to the contracting officer, who will forward same to the Commandant (FS–1) for further transmittal to the Renegotiation Board. The contracting officer, in transmitting such recommendations, shall indicate whether his original determination defined the contract as having a direct and immediate connection with the National Defense.

(e) *Submission of reports to the Renegotiation Board.* Reports of performance information concerning contracts subject to renegotiation shall be provided only in response to specific request by the Regional Renegotiation Board offices in Boston, Chicago, Detroit, Los Angeles, New York, and Washington, D. C. The area covered by each board is outlined in Appendix B, page 9, of the Renegotiation Board's pamphlet entitled "Guide Book for Reporting Performance Information."

COPELAND ("KICKBACK") ACT

§ 118.04–4 *Affidavits required by Copeland ("Kickback") Act—(a) Submission of affidavits.* Each contractor or subcontractor subject to the provisions of the Copeland ("Kickback") Act (40 U. S. C. 276 b and c) is required to furnish each week a sworn affidavit with respect to the wages paid each of its employees. Each affidavit shall be delivered to the contracting officer within seven days after the regular payment date of the payroll period.

(b) *Examination and disposition of affidavits.* Affidavits received from contractors and subcontractors shall be accumulated by the contracting officer and preserved in the local files for three years after completion of the contract. When received, the affidavits shall be examined and any discrepancy investigated in accordance with the Enforcement Regulations of the Department of Labor (Title 29, Subtitle A, Code of Federal Regulations).

CONTRACTOR'S STATEMENT OF CONTINGENT OR OTHER FEES

§ 118.04–8 *Purpose.* (a) The Armed Services Procurement Act of 1947 (41 U. S. C. 254), requires that negotiated contracts shall include a suitable warranty against contingent fees. General Services Administration General Regulation No. 12, dated 29 December 1952, stipulates that the same warranty will also be included in advertised contracts, and promulgates the form, procedure, principles, and standards essential to meeting this requirement, and extends their application to contracts consummated as a result of both negotiation and advertising. To attain the desired objective, these instructions will apply.

(b) The aim of the basic law and implementing regulation is to remove, to the maximum degree, improper influences affecting contract purchase transactions. The most effective means of accomplishing this is to identify and exclude certain contractor-agent arrangements. The success of this effort is contingent upon the initiative and good judgment of all contracting officers in applying these instructions.

§ 118.04–9 *Definitions—(a) Contingent fee.* Any fee (otherwise called commission, percentage or brokerage) the payment of which is contingent upon success in obtaining the Government contract involved.

(b) *Improper influence.* Direct or indirect influence which induces or tends to induce consideration or action by an employee or officer of the United States regarding a Government contract on a basis other than its merits.

(c) *Bona fide employees.* Any individual employed full time by a concern and over whom the concern has the right to exercise supervision and control of time, place and performance of work.

(d) *Bona fide agent.* An agent having adequate knowledge of the products and the firm represented, and which agent does not employ improper influence in seeking to obtain any Government contract for its principals. Further, fees charged the principals for services rendered by such agent are commensurate with those prevailing in the trade for similar services to commercial business.

§ 118.04–10 *Scope.* 1. These instructions are applicable to all negotiated and advertised contracts except those defined below:

(a) Any advertised contract in which the aggregate amount involved does not exceed $25,000.

(b) Any negotiated contract in which the aggregate amount involved does not exceed $1,000.

(c) Any negotiated contract for perishable subsistence supplies in which the aggregate amount involved does not exceed $25,000.

(d) Any contract for services which are required to be performed by an individual contractor in person under Government supervision and paid for on a time basis, and any contract for public utility services furnished by a public utility company where the utility company's rates for the services furnished are subject to regulation by Federal, State, or other regulatory body and the public utility company is the sole source of supply.

(e) Contracts to be made in foreign countries.

§ 118.04–11 *Covenant against contingent fees.* (a) In contracts for the purchase by the Government of real property, personal property, or services, and contracts for the construction or repair of public buildings or works this clause will be included:

NOTE: The following clause is set forth as Article 20 of General Provisions, Standard Form 32, November 1949, ed.:

"The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage, or contingent fee."

(b) In contracts for the sale of Government owned real or personal property this clause will be included:

NOTE: The following clause is in the form substantially as set forth in Article 13 of Sale of Government Property—Invitation, Bid, and Acceptance, Standard Form 114, August 1950, ed.:

"Purchaser warrants that no person or agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial agencies maintained by the Purchaser for the purpose of securing business. For breach or violation of this warranty, the Government shall have the right to annul this contract without liability or in its discretion to require the Purchaser to pay, in addition to the contract price or consideration, the full amount of such commission, percentage, brokerage, or contingent fee."

(c) The covenant as set forth in paragraph (a) of this section may be appropriately adapted for use in leases of real or personal property for Government use. The covenant as set forth in paragraph (b) of this section may be appropriately adapted for use in leases of Government-owned real or personal property.

§ 118.04–12 *Representation and agreement required for prospective contractors.* Except as provided for in § 116.05–95 of this chapter, each contracting officer shall, upon initiating advertising or negotiation in connection with a contract, secure a written representation from prospective contractors as to whether they have employed or retained any company or person (other than a full-time employee working solely for the prospective contractor) to solicit or secure the contract, and shall secure a written agreement to furnish information relating thereto as required by the contracting officer. The representation and agreement appearing on the face of Standard Form 33, Invitation, Bid, and Award, November 1949 ed., and Standard Form 114, Sale of Government Property, Invitation, Bid and Acceptance, August 1950 ed., pending revision of such forms, shall be deleted and the following representation (and agreement) substituted therefor:

The bidder [(or) contractor] represents: (a) that he ☐ has, ☐ has not, employed or retained any company or person (other than a full-time bona fide employee working solely for the bidder [(or) contractor]) to solicit or secure this contract and (b) that he ☐ has, ☐ has not, paid or agreed to pay to any company or person (other than a full-time bona fide employee working solely for the bidder [(or) contractor]) any fee, commission, percentage or brokerage fee, contingent upon or resulting from the award of this contract; and agrees to furnish information relating thereto as requested by the contracting officer.

NOTE: For interpretation of the representation, including the term "bona fide employee," see General Services Administration Regulations, 44 CFR 150.5 (d), 150.7; 17 F. R. 253.

§ 118.04–13 *Standard Form 119, Contractor's Statement of Contingent or Other Fees.* (a) Standard Form 119 (December 1952) shall be used by contracting officers whenever either part of the inquiry provided for by § 116.05–94 of this chapter is answered in the affirmative by a successful bidder or contractor. When, after use of the form, further information is required, it may be obtained in any appropriate manner.

(b) Any bidder or proposed contractor who has previously furnished a Standard Form 119 (December 1952) to the office issuing the invitation or negotiating contract may be permitted to accompany his bid, or submit in connection with the proposed contract, a signed statement (1) indicating when such completed form was previously furnished, (2) identifying by number the previous invitation or contract in connection with which such form was submitted, and (3) representing that the statements in such previously furnished form are applicable to such subsequent bid or contract. In such case, submission of an additional completed Standard Form 119 need not be required.

§ 118.04–14 *Acceptance or rejection.* (a) Standard Form 119, when received from the bidder or contractor, will be carefully reviewed by the contracting officer for conformance with standards set forth herein and in § 150.5, Title 44, General Services Administration. In the absence of any evidence or inference of violation of the covenant against contingent fees, Standard Form 119 will be filed by the unit, and no further action taken.

(b) In all cases where there is absolute evidence of misrepresentation or violation of the covenant, or reasonable doubt exists with respect to compliance with the covenant, the contracting officer shall:

(1) Reject offer or bid, if award has not been made, or

(2) Suspend award action, optional for advertised but mandatory for negotiated contracts, or

(3) Annul contract without liability, if award has been made, or

(4) Recover amount of the fee involved, if award has been made, or

(5) Perform any of above independently or by referring Standard Form 119 and related data to the Commandant (FS) for final approval of recommended action.

Upon termination of proceedings, Standard Form 119 will be permanently filed in Headquarters.

(c) Persistent failure of bidder or contractor to cooperate in furnishing representation or Standard Form 119, or repetitive abuse of covenant should be reported to the Commandant (FS) for consideration. When circumstances warrant, as determined by Headquarters, debarment proceedings will be initiated.

(d) The exemption of certain contracts from these instructions, as set forth in § 118.04–10 (a), (b), and (c), does not preclude prosecuting irregularities otherwise subject to these instructions. No special effort will be undertaken to discover such conditions. Once identified and substantiated, however, they will be processed as provided for in paragraph (b) of this section.

PROCEDURES FOR HANDLING ASSIGNMENTS OF CLAIMS

§ 118.04–18 *Assignment of claims—(a) Authority.* The Assignment of Claims Act of 1940 (54 Stat. 1029) (31 U. S. C. 203, 41 U. S. C. 15), permits contractors to assign moneys due from the Government under a contract providing for payments aggregating $1,000 or more, provided the contract does not forbid such assignment. The assignee may be a bank, trust company, or other financing institution, including any Federal lending agency. Unless otherwise expressly permitted by the contract, the assignment (1) must cover all amounts payable and not already paid, (2) shall not be made to more than one party, and (3) shall not be subject to further assignment, except that an assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in financing the contract.

(b) *Notices of assignment—(1) Requirements.* The Assignment of Claims Act of 1940 (31 U. S. C. 203 and 41 U. S. C. 15), provides that written notice of the assignment be filed with:

(i) The contracting officer or the head of his department or agency (see Note (a) below);

(ii) The surety or sureties upon the bond or bonds, if any, in connection with the contract;

(iii) The authorized certifying officer, if any, designated in the contract to effect payment (see Note (b) below).

NOTES:

a. The Act provides for service under the assignment upon receipt of the notice of assignment and the true copy of the instrument of assignment by either the contracting officer or the head of his department or agency. Such papers received by the Office of the Secretary will be referred to the Commandant for disposition in accordance with subparagraphs (3) to (5) of this paragraph.

b. Authorized certifying officers receiving such papers shall acknowledge receipt thereof; however, certification for payment shall be withheld until receipt of advice from the Commandant that the particular instrument of assignment has been approved legally. (See subparagraphs (3) and (4) of this paragraph.)

(2) *Action by assignee—(i) Forms required.* It is the responsibility of the assignee to prepare the notice of assignment form and furnish a true copy of the instrument of assignment. The notice of assignment is submitted in the form prescribed by the Federal Supply Service, G. S. A. (see specimen below). The true copy of the instrument of assignment may consist of (a) a duplicate original containing all the signatures, seals, acknowledgments, etc., which appear on the original, (b) a complete photostatic copy of the original, or (c) a certified copy of the original, provided that such copy is accurate and complete in all respects, including signatures, seals, acknowledgments, etc., which may be typewritten, and provided that the certificate to the effect it is a true copy be executed by a notary public or other officer authorized by law to administer oaths.

NOTICE OF ASSIGNMENT

To_____ Date_____

Re Contract No. _____

Made by the United States of America

_____ Department _____ Division

With _____
(Name of contractor)

_____
(Address of contractor)

For _____ Dated _____

PLEASE take notice that moneys due or to become due under the contract described above have been assigned to the undersigned pursuant to the provisions of the Assignment of Claims Act of 1940 (54 Stat. 1029), as amended by P/L 30, 82d Congress, approved May 15, 1951.

A true copy of the instrument of assignment is attached to the original hereof.

Payments due or to become due under such contract should be made to the undersigned assignee.

Please return to the undersigned the three enclosed copies of this notice with appropriate notations showing the date and hour of receipt, and duly signed by the person acknowledging receipt on behalf of the addressee.

Very truly yours,

_____
(Name of assignee)

By_____
(Name and title of signing officer)

_____
(Address of assignee)

Receipt is hereby acknowledged of the above notice and a copy of the above mentioned instrument of assignment. These were received at __ a. m., __ p. m., on _____, 19_____
(Date)

_____
(Signature)

On behalf of _____

_____
(Name and title of addressee of notice)

(ii) *Forms distribution.* The assignee will forward an original and three copies of the notice of assignment and a true copy of the instrument of assignment to each of the parties listed in subdivision (i) of this subparagraph. (If there is no surety bond in connection with the contract giving rise to the claim which is assigned, or if no authorized certifying officer is designated in the contract to effect settlement of amounts due thereon, the notice of assignment will be served only on the contracting officer or the head of his department or agency.) Each party will return to the assignee three copies of the notice of assignment with acknowledgment of receipt thereon. However, the return of the copies acknowledged by the contracting officer and the authorized certifying officer shall be made after the review as to legal sufficiency has been made in accordance with subparagraph (4) of this paragraph. The original notice of assignment and true copy of the instrument of assignment will be retained in the files of the acknowledging official in each case. The assignee will forward to the officer designated to receive invoices for payment(s) under the contract, either with the first contractor's invoice or prior to the time the first contractor's invoice is submitted, two copies of the acknowledged notices from each of the parties listed in subparagraph (1) of this paragraph.

(3) *Action by Contracting Officer.* Immediately upon receipt by the contracting officer of written notice of an assignment together with a true copy of the instrument of assignment, he shall forward such papers to the Commandant (FS–1) under a letter of transmittal. The letter shall contain a statement of the date upon which the papers were received from the assignee and shall enclose a copy of the pertinent contract. By carbon copies of the letter of transmittal, the contracting officer shall notify the authorized certifying officer and all holders of file copies of the contract within the Coast Guard of the receipt of the assignment. Upon return of the notice of assignment and the true copy of the instrument of assignment from the Commandant accompanied by legal approval or disapproval thereof, the con-

tracting officer shall (i) forward to the assignee three copies of the assignment bearing acknowledgment of receipt, (ii) furnish a certified copy of the approval or disapproval to the authorized certifying officer, and (iii) notify all holders of file copies of the contract within the Coast Guard of the approval or disapproval of the assignment. (See §§ 118.04–10 and 118.04–11 for contract distribution.)

(4) *Action by Headquarters.* The Commandant (FS–1) will obtain the necessary review for approval or disapproval as to legal sufficiency of form and execution all instruments of assignment submitted in accordance with subparagraph (3) of this paragraph. Approved notices of assignment and instruments of assignment will be returned to the contracting officer under letter of transmittal for action in accordance with subparagraph (3) of this paragraph. Likewise, the contracting officer will be directed to send immediately to the assignee any invalid or defective assignments with a statement of the defects. (Upon receipt of a new or corrected assignment, the procedure set forth in subparagraph (3) of this paragraph, and in this subparagraph, shall be followed with reference to the new or corrected assignment.)

(5) *Action by authorized certifying officer—(i) General.* Upon receipt of the original and three copies of the notice of assignment and the true copy of the instrument of assignment from the assignee, the authorized certifying officer will retain the original notice and instrument of assignment and, after being advised by the contracting officer of approval of the assignment for legal sufficiency, will return three acknowledged copies of the notice of assignment to the assignee (see subparagraph (2) (ii) of this paragraph). Upon receipt of the copies of each acknowledgment notice of assignment and provided the assignment applies to a numbered contract, the authorized certifying officer will forward (under a letter of transmittal if different units are involved, or under a memorandum if he is located in the same office or unit) one copy acknowledged by the contracting officer and one copy acknowledged by the surety (or sureties), if any, to the office holding the original contract (see § 118.02–10). Copy of the letter or memorandum of transmittal shall be forwarded to the contracting officer for his information and files. These acknowledgments will be attached to the original contract file and held available for audit by the General Accounting Office and/or the Audit Division, Office of the Comptroller, Coast Guard. It will not be necessary to forward a copy of the notice of assignment acknowledged by the authorized certifying officer for attachment to the file containing the original contract. When the acknowledged copies are forwarded to the office holding the original contract, notices of assignment will not be required with the Voucher and Schedule of Payments (Form CG–3092). However, in the case of purchase documents not numbered in the regular contract series (see § 118.02–11) and orders issued under a regular numbered contract, when the individual order rather than the entire contract is assigned, the required copies of the notice of assignment will be submitted attached to the Voucher and Schedule of Payments (Form CG–3092). The authorized certifying officer will retain one copy of each of the notices of assignment acknowledged by the contracting officer, the authorized certifying officer, and the surety (or sureties), if any.

(ii) *Payments.* When payments under a contract have been properly assigned, payments may be made only to the designated assignee. Under no circumstances will payment be made to other than the designated assignee after receipt of the notice of assignment by the authorized certifying officer. If the notice is received by the authorized certifying officer but the assignee fails to comply with all requirements as to furnishing documents, payments will be withheld until the required papers are received.

(6) *Notation on file copies of contract.* A notation of the assignment, giving the name and address of the assignee and the date upon which the contracting officer received the assignment and notice thereof from the assignee, shall be entered upon each copy of the contract in the files of the Coast Guard. The notation shall also be completed to state: "Assignment Approval (or Disapproval) by Commandant _____, 19...." The information necessary to complete the above statement will be furnished by the contracting officer as indicated in subparagraph (3) of this paragraph.

(c) *Liability of assignee.* In any case in which moneys due or to become due under any contract are or have been assigned, no liability of any nature of the assignor to the United States or any department or agency thereof, whether arising from or independently from the contract, will create or impose any liability on the part of the assignee to make restitution, refund, or repayment to the United States of any amount received by the assignee since July 1, 1950, under the assignment.

PART 120—BONDS AND GUARANTIES

Subpart 120.01—Bid Guaranties

Sec.
120.01–1 Purpose of bid guaranties.
120.01–2 Form of guaranty.
120.01–3 Custody and return of bid guaranties.

Subpart 120.02—Performance and Payment Bonds

120.02–1 Purpose of performance and payment bonds.
120.02–2 When bonds are required.
120.02–3 Penal sum of performance bonds.
120.02–4 Penal sum of payment bonds.
120.02–5 Standard forms to be used.
120.02–6 Contracting officers authorized to examine and approve bonds.

AUTHORITY: §§ 120.01–1 to 120.02–6 issued under 62 Stat. 21, 41 U. S. C. 151–161.

SUBPART 120.01—BID GUARANTIES

§ 120.01–1 *Purpose of bid guaranties.* The purpose of a bid guaranty is to assure that the bidder will execute a contract in the event of acceptance of his bid. A bid guaranty may be required at the discretion of the contracting officer when proposals involving formal contracts are solicited. When bid guaranties are required, they shall be taken in the penal sum of 5 percent of the bid price.

§ 120.01–2 *Form of guaranty.* The bid guaranty may be furnished in any one of the following forms:

(a) Standard Form 24 (Bid Bond) executed by an authorized bonding company (corporate surety).

(b) Standard Form 24 (Bid Bond) executed by two responsible persons (individual sureties). Neither the bidders themselves nor their employees, agents or partners may act as guarantors for the corporation if qualified by their individual property interests, exclusive of the stocks and bonds of the corporation.

(c) A certified check made payable to the Treasurer of the United States.

(d) United States bonds or notes in a sum equal at their par value to the required amount of the guaranty may be accepted in lieu of the guaranty if accompanied by a power of attorney in the form set out in the latest edition of Treasury Circular 154, authorizing the contracting officer to collect or sell such bonds in the case of default.

§ 120.01–3 *Custody and return of bid guaranties.* (a) United States bonds or notes, or certified checks, shall not be negotiated by field contracting officers, even in cases of default, except on directions from the Commandant (F). They will be retained in the custody of the contracting officer but will not be taken into official Treasury accounts.

(b) United States bonds, notes, and certified checks which are received with bids which are rejected shall be returned to the unsucessful bidders without delay after award of the items covered by their bids.

(c) United States bonds, notes, and certified checks received with a bid which is accepted shall be retained until the covering contract and related surety bonds are in hand; then they shall be returned to the bidder without delay. However, if the bidder so requests, the bonds, notes or checks may be retained and be applied as part of the requisite performance bonds on his contract.

(d) When United States bonds, notes or certified checks are returned to bidders by hand to hand delivery, proper receipts will be obtained and filed in the contracting office; in other cases they shall be returned by registered mail and the receipt filed in the contracting office.

(e) Standard Form 24 (Bid Bond) forms part of the pertinent bid and shall remain affixed to the bid.

SUBPART 120.02—PERFORMANCE AND PAYMENT BONDS

§ 120.02–1 *Purpose of performance and payment bonds.* The purpose of a performance bond is to assure that the contractor will perform the work required under the contract. The purpose of a payment bond is to protect employees and suppliers of materials engaged on a contract to assure that they will receive monies due them from the contractor.

§ 120.02–2 *When bonds are required.* Performance bonds and payment bonds shall be required in connection with all formal contracts for construction work (including repairs and alterations) when the amount of the contract is for $2,000 or more. This bond requirement for construction work applies to contracts for construction and/or repairs of vessels, shore structures, and aids to navigation. Performance bonds may also be required in connection with supply contracts when in the judgment of the contracting officer such a bond is required to protect the interests of the Government. A payment bond may also be required by the contracting officer in connection with a supply contract. The use of performance and payment bonds in connection with supply contracts is discretionary with the contracting officer, although good business judgment requires that all contracts for amounts in excess of $25,000 should be covered by bonding requirements.

§ 120.02–3 *Penal sum of performance bonds.* In such amount as in the exercise of sound judgment of the contracting officer will adequately protect the Government. However, performance bonds for construction contracts shall be in the penal sum fixed for payment bonds.

§ 120.02–4 *Penal sum of payment bonds.* (a) 50 percent of the contract price where the contract is for $1,000,000 or less.

(b) 40 percent of the contract price where the contract exceeds $1,000,000 but is less than $5,000,000.

(c) $2,500,000 where the contract price is $5,000,000 or more.

§ 120.02–5 *Standard forms to be used.* All performance bonds will be executed on Standard Form No. 25, and all payment bonds shall be executed on Standard Form No. 25–A.

§ 120.02–6 *Contracting officers authorized to examine and approve bonds.* Upon receipt of a bond given in support of a contract, the contracting officer shall ascertain that the bond tendered is in the penal sum required and that it properly describes the contract in support of which it was given. The contracting officer shall exercise caution to ascertain that the attorney-in-fact who executes a bond furnishes evidence to support his authority to execute the obligation. It is not necessary to refer the bond to the Commandant for approval prior to execution of the contract, provided the contracting officer makes the required examination as to sufficiency of amount, contract description, and authority of signature.

Dated: January 27, 1954.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard,
Commandant.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 24—SANITATION, HEALTH, AND QUARANTINE

PROHIBITED IMPORTATIONS

Pursuant to the authority vested in the Governor by Rule 119qq of Executive Order No. 4314 of September 25, 1925, as amended by Canal Zone Order No. 15 of July 15, 1948 (35 CFR 24.102), § 24.102b, as adopted by Governor's Regulation March 5, 1952, 17 F. R. 2389, and amended by Governor's Regulation of November 19, 1952, 17 F. R. 10559, is hereby amended to read as follows:

§ 24.102b *Prohibited importations of cattle, sheep, etc., and meats; inspection of animals of prohibited importation on vessels intending to transit—denial of permission to transit.* (a) The importation into the Canal Zone from any country listed in § 24.102a of cattle, sheep and other ruminants or swine, domestic or wild (including the docking in any Canal Zone port of any vessel having on board as sea stores or otherwise such live animals from any such country), or of fresh, chilled or frozen beef, veal, mutton, lamb, or pork, is prohibited, except that such prohibition shall not apply (1) to meats that are imported in hermetically sealed cans processed in such a manner that they do not contain infectious virus of the nature indicated, or (2) to cured or cooked meats, provided that all bones shall have been completely removed in the country of origin; that the meat shall have been held in an unfrozen, fresh condition for at least 3 days immediately following the slaughter of the animals from which it was derived; and that the meat shall have been thoroughly cured or shall have been thoroughly cooked and properly wrapped.

(b) No vessel having on board any animal or animals whose importation into the Canal Zone is prohibited under paragraph (a) of this section shall be permitted to transit the Canal until such animal or animals have been examined by appropriate health authorities of the Canal Zone Government. If, upon examination, any such animal or animals are found to be infected with a vesicular disease, or otherwise show symptoms characteristic of either foot and mouth disease or rinderpest, such vessel may be denied permission to transit the Canal.

(Sec. 1, 39 Stat. 527, as amended; 2 C. Z. Code 371, 372, 48 U. S. C. 1310)

Issued at Balboa Heights, Canal Zone, January 26, 1954.

[SEAL] J. S. SEYBOLD,
Governor of the Canal Zone.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 10802]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606 *Table of assignments,* rules governing Television Broadcast Stations; Docket No. 10802.

1. The Commission has under consideration its notice of proposed rule making issued on December 11, 1953 (FCC 53–1629), and published in the FEDERAL REGISTER on December 10, 1953 (18 F. R. 8248), proposing to assign Channel 18 to Zanesville, Ohio, as requested by the Southeastern Ohio Television System in a petition filed November 6, 1953.

2. The time for filing comments in this proceeding expired January 11, 1954. No comments have been filed opposing the proposed amendment. In support of its request petitioner states that it is the permittee of Station WHIZ-TV operating on Channel 50 in Zanesville, Ohio, and that the station is not providing acceptable service in the areas which it expected to serve based on the predictions prepared in accordance with the Commission's rules. Petitioner urges that because of better receiver sensitivity and propagation characteristics at a lower UHF channel it could best serve the rugged and hilly areas in question by the utilization of a channel lower than Channel 50.

3. In the Sixth Report and Order, the Commission concluded that there was no basis in the record to distinguish between channels in the UHF band for the purpose of establishing a table of assignments. (See paragraph 337.) Petitioner concedes that in the present state of the art it is not possible to determine the precise improvement in coverage that could be expected from the use of higher powers or from the use of a lower UHF channel. The Commission is still of the view that no distinction should be made among the UHF channels for assignment purposes. Moreover, it is noted that petitioner's request to take into account local terrain factors and asserted differences between high and low channels does not comply with the requirements of § 3.686 of the rules for effecting general rule changes. However, in view of the fact that Channel 18 may be assigned to Zanesville without making any other changes in the table and that such additional assignment would bring the number of assignments in Zanesville in substantial conformance with the number accorded communities of similar size and importance, it is proposed that this additional assignment be made.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. In view of the foregoing: *It is ordered*, That effective 30 days after publication in the FEDERAL REGISTER, the table of assignments contained in § 3.606 of the Commission's rules governing television broadcast stations is amended as follows:

City:	Channel No.
Zanesville, Ohio	18—, 50+

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1084; 47 U. S. C. 301, 303, 307)

Adopted: January 27, 1954.

Released: January 28, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-715; Filed, Feb. 2, 1954; 8:50 a. m.]

[Docket No. 10623]

PART 9—AERONAUTICAL SERVICES

LIGHTER-THAN-AIR CRAFT FREQUENCIES

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954.

The Commission having under consideration its proposal in the above entitled matter which would amend Part 9 of its rules in order to permit the United States to put into effect certain portions of the Atlantic City (1947) Table of Frequency Allocations in accordance with the provisions of the agreement concluded at the Extraordinary Administrative Radio Conference (Geneva, 1951), by deleting from § 9.315 the frequencies 6615 kc. and 11,910 kc. as frequencies available for assignment to lighter-than-air craft and to aeronautical stations serving lighter-than-air craft; and

It appearing, that in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, general notice of proposed rule making in this matter, which made provision for the submission of written comments by interested parties, was duly published in the FEDERAL REGISTER on August 13, 1953 (18 F. R. 4838) and that the period provided for the filing of comments has now expired; and

It further appearing, that no objections to the proposed amendment have been received; and

It further appearing, that the proposed amendment is in accordance with the authority contained in sections 303 (c), (f), and (r) of the Communications Act of 1934, as amended;

It is ordered, That effective March 22, 1954, § 9.315 of the Commission's rules governing aviation services is amended by deleting therefrom the frequencies 6615 kc. and 11,910 kc.

(Sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: January 28, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-716; Filed, Feb. 2, 1954; 8:50 a. m.]

PART 17—CONSTRUCTION, MARKING AND LIGHTING OF ANTENNA STRUCTURES

PARTICULAR SPECIFICATIONS TO BE USED FOR OBSTRUCTION MARKING AND LIGHTING

The Commission having under consideration the desirability of making certain editorial changes in § 17.22 (c) of its rules and regulations; and

It appearing, that § 17.22 (c) of the rules has been consistently applied by the Commission to require the installation of obstruction markings necessary to promote safety to air navigation pursuant to the Commission's responsibility under section 303 (q) of the Communications Act of 1934, as amended, where painting or lighting is inadequate or otherwise infeasible; and

It further appearing, that in spite of this consistent interpretation, certain licensees have, nevertheless, alleged that § 17.22 (c) is ambiguous with reference to the requirements of obstruction marking other than painting and lighting, and

It further appearing, that certain editorial changes in the provisions of § 17.22 (c) would eliminate the alleged ambiguity and express the Commission's intent in the matter with absolute clarity, and

It further appearing, that the amendment adopted herein is editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendment may become effective immediately; and

It further appearing, that the amendment adopted herein is issued pursuant to authority contained in section 4 (i), 5 (d) (1) and 303 (q), (r) of the Communications Act of 1934, as amended;

It is ordered, This 27th day of January 1954, that effective immediately, § 17.22 (c) of the Commission's rules and regulations is revised as set forth below:

(c) However, where antenna installations are of such a nature that their painting and lighting in accordance with these specifications are confusing or endanger rather than assist airmen or are otherwise inadequate, the Commission will specify the type of painting and lighting or other marking to be used in the individual situation.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended, sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Released: January 28, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-717; Filed, Feb. 2, 1954; 8:50 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 924]

[Docket No. AO-225-A4]

HANDLING OF MILK IN DETROIT, MICHIGAN MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Detroit, Michigan, on July 27-28, 1953, pursuant to notice thereof which was issued on July 11, 1953 (18 F. R. 4071).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Assistant Administrator, Production and Marketing Administration, on November 20, 1953, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the

FEDERAL REGISTER on November 26, 1953 (18 F. R. 7540).

The material issues and the findings and conclusions of the recommended decision (18 F. R. 7540; F. R. Doc. 53-9956) are hereby approved and adopted as the material issues and the findings and conclusions of this decision as if set forth in full herein subject to the following revisions:

1. In the fourth sentence of the first paragraph beginning in Column 2, page 7541, delete the phrase "provision requiring" and substitute therefor the word "fact".

2. In column 3, page 7543, the third paragraph should be changed to read as follows:

(5) *Class prices.* The rate of the location adjustments which applies as a credit to handlers on milk moved for Class I use and to milk delivered by producers to country plants should be changed to a rate of 1 cent per 10 miles at distances of more than 50 miles instead of 1 cent per 8 miles at distances of more than 49 miles and should progress indefinitely instead of reaching a maximum of 26 cents, no location adjustment should be allowed on milk disposed of as Class I from plants located within the marketing area, the Class II price provisions should not be changed, and no credit should be allowed on such quantities of Class II milk as it may be necessary for a handler to move from the point of delivery by producers to manufacturing plants.

3. On page 7544 delete the second paragraph beginning in Column 1 and substitute therefor the following:

An alternative proposal was offered by Michigan Milk Producers Association. It would modify the zone schedule for distances of 51 miles or over by using a rate of 1 cent for each additional 10 miles. The proponent association transports a greater volume of milk than any other firm in the market. Essentially the same rates as are now specified in the order have been in effect for about 12 years. During that time experience has shown that increases in wage rates and other costs have been more than offset by other operating economics, and the association charges two cents less than the established rates to city plants which purchase substantially their full supply, in tank load lots. This experience clearly demonstrates the desirability of reducing the rate of location adjustments.

No data were presented on point-to-point costs of transporting milk. It appears most logical, however, to make the rate reduction effective uniformly at all distances beyond the first zone. For the sake of convenience the outer-boundary of the first zone is extended one mile to include plants located more than 34 miles but less than 50 miles instead of less than 49 miles, there being no plants located in the area affected by this change.

In the first zone the initial costs of providing equipment, loading, unloading, and driving through comparatively heavy traffic are reflected in the 14-cent rate. Beyond that zone the difference in cost is primarily that of driving additional distances over open highway and it is this rate which is reduced by increasing the zone distances to 10 miles per one cent.

4. Change the last sentence beginning in column 1, page 7544, to read as follows: "To properly price milk at the more distant location, the revised rate of 1 cent per each additional 10 miles should progress in like manner to include any distance at which a handler's plant may be qualified."

Rulings. Within the period reserved for filing exceptions to the recommended decision, exceptions were submitted on behalf of interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

Determination of representative period. The month of November 1953, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of amendments to the order regulating the handling of milk in the Detroit, Michigan, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as hereby amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 29th day of January 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area

§ 924.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Detroit, Michigan, on July 27-28, 1953, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Detroit, Michigan, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Detroit, Michigan, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 924.6 (b) delete the phrase "or of Wayne County".

2. Add a paragraph "(c)" to § 924.6 as follows:

(c) A cooperative association with respect to milk customarily received by a handler, as described under paragraphs (a) or (b) of this section, which is diverted to a person not a handler for the account of the association.

3. In § 924.41 (a) insert following the phrase "all skim milk" the following: "(including the skim milk equivalent of concentrated products)".

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

4. Amend § 924.41 (b) to read as follows:

(b) Class II utilization shall be all skim milk and butterfat (1) disposed of for fluid consumption as sweet or sour cream or any mixture of cream and milk or skim milk containing 10 percent or more of butterfat; (2) used to produce sterilized flavored milk drinks, ice cream or ice cream mix, cheese (including cottage cheese), dried whole milk, nonfat dry milk solids, evaporated or condensed whole or skim milk, sweetened or unsweetened, disposed of in bulk or in hermetically sealed cans, eggnog, butter; (3) disposed of as livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion within 18 hours) by the market administrator; (4) in shrinkage of producer milk up to 2 percent of receipts from producers; or (5) in shrinkage of other source milk.

5. Change § 924.43 (c) to read as follows:

(c) Producer milk transferred in bulk by a cooperative association to a plant as described in § 924.6 (a), except a plant as described in § 924.101, shall be deducted before classification of producer milk at the transferor's plant and shall be included in producer milk classified at the plant of the transferee handler.

6. In § 924.46 (a) change the reference to "§ 924.41 (c) (3)" to read "§ 924.41 (b) (4)".

7. In § 924.60 (a) change the phrase "Subject to paragraph (c)" to read "Subject to paragraphs (b) and (c)" and change the reference to "§ 924.46 (c)" to read "§ 924.46 (e)".

8. Amend § 924.60 (c) to read as follows:

(c) A handler who operates a plant as described in § 924.6 (b) (or § 924.6 (a) and located more than 34 miles by shortest highway distance from the boundary of the market area) and who disposes of, from such plant for Class I utilization (other than to a handler), milk received from producers, and a handler who receives at a plant described in § 924.6 (a) producer milk moved in bulk from a plant described in § 924.6 (b) (or § 924.6 (a) and located more than 34 miles by shortest highway distance from the boundary of the marketing area), which milk is utilized as Class 1 (prorating to such milk the utilization of all producer milk received at the plant) shall receive a credit with respect to milk so disposed of or so received and utilized at a rate determined by the market administrator as follows:

Shortest road distance from Detroit City Hall:	*Rate per hundredweight*
More than 34 miles but not more than 50 miles	$0.14
More than 50 miles but not more than 60 miles	.15

Add 1 cent for each 10 miles or fraction thereof over 60 miles.

9. Amend § 924.62 (b) to read as follows:

(b) Subtracting not less than 6 cents nor more than 7 cents.

10. In § 924.64 (e) delete the first sentence and substitute therefor the following: "Subtract not less than 6 cents nor more than 7 cents."

11. Add a paragraph (e) to § 924.70 as follows:

(e) A producer who does not forfeit his base pursuant to § 924.71 (c) but who fails to deliver milk on at least 122 days of the August 1 through December 31 period shall have his base for the 12 months beginning the following February 1 computed by dividing the total pounds shipped during the period by 122.

12. Amend § 924.71 (b) (2) to read as follows:

(2) Bases may be held jointly and if such joint holding is terminated the base may be transferred as specified in writing to the market administrator.

13. Add a subparagraph (3) to § 924.71 (b) as follows:

(3) Two or more producers with bases may combine those bases upon the formation of a bona fide partnership.

14. Amend § 924.71 (c) to read as follows:

(c) A producer who does not deliver milk to any handler for 45 consecutive days shall forfeit his base except that a producer who suffers the complete loss of his barn as a result of fire or windstorm may retain his base without loss for six months.

15. In § 924.72 insert after the phrase "first day of the month" the phrase "specified but not earlier than the first day of the month".

16. Delete the period at the end of § 924.10, and add the following: "and shall include the skim milk equivalent of concentrated products classified as Class I pursuant to § 924.41 (a)."

[F. R. Doc. 54-734; Filed, Feb. 2, 1954; 8:54 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 1]

[Docket No. 10869]

PRACTICE AND PROCEDURE

ESTABLISHMENT OF FEES FOR COMMISSION'S LICENSING AND SIMILAR ACTIVITIES

1. Notice is hereby given of rule making in the above entitled matter.

2. Pursuant to the provisions of the Independent Offices Appropriation Act of 1952 (5 U. S. C., sec. 140), set out in Appendix A below, Congress has stated that work performed by Government agencies in connection with the issuance of franchises, licenses, permits, certificates, registrations and the like for any person, except those engaged in the transaction of official business of the Government should, to the full extent possible, be self-sustaining. In order to bring about the accomplishment of this objective, section 140 of Title 5 authorizes the head of each agency to prescribe by regulation such fees and charges as he shall determine to be fair and equitable "taking into consideration direct and indirect costs to the Government, value to the recipient, public policy or interest served, and other pertinent facts."

3. The enabling legislation referred to above also provides that the fees and charges shall be as uniform as practicable throughout the Government and shall be subject to such policies as the President may prescribe. In view of this provision, the Commission refrained from taking any action looking toward the establishment of a schedule of fees, pending consideration of the matter on an over-all Government basis by the Bureau of the Budget operating in behalf of the President. Such a study has now been completed, and the Bureau of the Budget has issued Circular No. A-25 relating to "Fees for licensing, registration, and related activities" which sets out, in some detail, uniform standards to be applied by the various departments and agencies of the Government in implementing the provisions of section 140, Title 5 of the United States Code.

4. The attached proposed schedule of fees for the various Commission licensing activities has been drafted in compliance with the provisions of the Budget Bureau Circular. In order that interested parties may be advised as to the basis upon which the proposed schedule of fees has been prepared, the following information is provided:

(a) The Commission has determined that all of its activities including the issuance, renewal, modification, transfer, or termination of any license or certificate must be characterized as licensing activities for which appropriate fees shall be charged with the exception of the enforcement activities of the Field Engineering and Monitoring Bureau and, to a limited extent, in the Broadcast and Safety & Special Radio Services Bureaus as well, and with the exception of the non-certification common carrier regulatory activities performed by the Common Carrier Bureau. And, in accordance with the policy of both the Congress and the over-all government program, the Commission's licensing activities for which reimbursement charges are to be levied include both the direct and indirect costs of such activities. It has been determined that during the Fiscal Year 1953 approximately 45 percent of the Commission's entire expenditures were in fact directly or indirectly related to licensing activities. This percentage of the Commission's budget has been utilized as the full cost recovery base from which the fees set forth in the attached schedule have been derived.

(b) In determining the proper groups or categories of licensing fees the Commission has made use of the primary functional divisions into which the Commission has been organized and has calculated separate fees for the licensing activities of each of the 4 functional bureaus as well as for the special licensing activities in the Office of the Chief Engineer. By such a segregation it has been possible to avoid any subsidization of one type of licensing activity by another. At the same time, where personnel of one of the Commission's bureaus have performed services which are related to the licensing functions for which another bureau bears primary responsibility, the expenditures for such activities have, for purposes of the attached schedule, been allocated to the licensing functions of the latter bureau. Thus, the antenna survey and initial inspection activities of the Field Engineering and Monitoring Bureau, which are directly related to the licensing of broadcast stations, have been included in calculating the expenses of processing broadcast applications. Similarly, the expenses of such separate offices of the Commission, as the Office of Opinions and Review and Office of Hearing Examiners, have been allocated among the various functional bureaus at a ratio approximating our budget estimates as to the relative amount of time spent by such offices on the several types of licensing activities.

(c) Within each bureau the Commission has endeavored to avoid any undue multiplicity of separate charges. It has done this both upon the belief that such general grouping of related and similar licensing activities will aid both the Commission and the affected parties in complying with the new provisions with a minimum amount of additional time and effort, and because of our recognition that no accurate allocation of exact costs between the various sub-categories of the Commission's licensing activities is possible. Accordingly, and in conformity with the provisions of the Budget Bureau's Circular, fees for different services within each particular bureau have been limited to a few broad comparable classes of actions.

(d) In the attached schedule no direct fees are proposed with respect to the institution of rule making proceedings; the cost of such proceedings has been considered as a portion of the normal costs of license processing in the areas covered by such rules. Moreover, no fees are proposed to be charged with respect to revocations or modifications of station licenses or suspension of operators' licenses initiated by the Commission. Finally, it is proposed to exempt from the category of applications for which a fee will be charged for processing, applications having as their sole objective the modification of existing licenses to conform with the requirements of the EARC program. This latter exception was made because the Commission believes it would manifestly not be in the public interest to penalize persons who voluntarily cooperate with the Commission in carrying out the EARC program, or similar programs, when no fees would be assessed against those persons who refuse such voluntary cooperation and are required to modify their licenses on the basis of action initiated by the Commission itself.

(e) With the exceptions indicated in the paragraph above it is proposed to charge a fee in connection with all licensing activities of the Commission. In all cases the fees have been calculated upon the basis of recovering approximately the full costs involved in carrying out the particular licensing activity in question.

5. *Proposed schedule for broadcast services.* It is proposed to divide all applications for authorizations in the broadcast services into two categories. For the first of these categories, involving major analysis and action by the Commission a fee of three hundred twenty-five dollars ($325) would be charged. For all other applications in the broadcast services a fee of fifty dollars ($50) would be charged.

A. Major broadcast applications; fee $325.

(1) AM, FM, and television facilities; applications for:

(a) Construction permits for new stations.

(b) Modification of construction permits or modification of licenses involving any of the following types of action:

i. Change in station power.

ii. Change in station frequency.

iii. Change in station location.

iv. Change in mode of operation (including any change in the antenna pattern or hours of operation).

(c) Licenses to cover new stations or modifications of construction permits listed under (b) above.

(d) Renewals of licenses.

(e) Assignment or transfer of permits or licenses.

(f) Special Service Authorizations covered by § 1.325 of the Commission's rules.

(2) International broadcast stations—applications for:

(a) Construction permits for new stations.

B. Minor broadcast applications; fee $50.

(1) All applications relating to auxiliary broadcast stations (Part 4 of the Commission's rules).

(2) All applications with respect to international broadcast stations, except applications for construction permits for new stations.

(3) All applications for construction permits, or for modification of construction permits, or licenses for AM, FM, and television stations other than those listed in "A" above.

(4) Applications under section 325 (b) of the Communications Act of 1934, as amended.

6. *Proposed schedule of fees for Safety and Special Radio Services.* It is proposed that a fee of ten dollars ($10) be charged for the processing of all types of applications in these services including original applications, renewals, modifications, etc., with the exception of applications in the Amateur, Disaster, and RACES services, for which a charge of three dollars ($3) will be assessed. The three dollar charge with respect to the amateur service is for each application filed whether for station license, operator license, change of address, renewal, etc., or any combination thereof. The lesser fee for the processing of applications in the Amateur, Disaster, and RACES services is because the Commission believes that it would be contrary to the public interest, to require applicants therefor to pay the full amount that would be required if applications in such services were grouped, for purposes of this notice, with the other services coming within the jurisdiction of the Safety and Special Radio Services Bureau.

7. *Proposed schedule of fees for experimental services.* It is proposed that a fee of twenty dollars ($20) be charged for the processing of all applications, both formal and informal, filed in this service in accordance with the provisions of Part 5 of the Commission's rules.

8. *Proposed schedule of fees for type acceptance and approval.* It is proposed that a fee of one hundred dollars ($100) be charged for each application for type acceptance of equipment; that a fee of six hundred dollars ($600) be charged for all applications for type approval filed in accordance with Part 18 of the rules, and that a fee of fifteen hundred dollars ($1,500) be charged for the processing of any application for type approval covered by Parts 3, 8, or 19 of the Commission's rules.

9. *Proposed schedule of fees for operator licenses.* It is proposed that a fee of three dollars ($3) be charged in connection with the processing of all applications for commercial operator licenses regardless of class, including original applications, applications for renewal either by examination or by service under waiver of § 13.28 of the rules, requests for duplicate licenses, endorsement on all outstanding licenses, and verification cards requested at any time other than upon the issuance of a license or a renewal thereof. It is also proposed that a fee of three dollars ($3) be charged for processing an application for a restricted radio telephone operator's license.

10. *Proposed schedule of fees for ship inspections.* It is proposed to charge a fee of thirty dollars ($30) for each application filed for the following type ship inspections even though an inspector may be required to visit a ship more than once before a certificate is issued:

(a) U. S. Compulsory Ocean-going Telegraph.

(b) U. S. Compulsory Ocean-going Telephone.

(c) U. S. Compulsory Great Lakes Telephone.

(d) Foreign Compulsory Ocean-going Telegraph and Telephone.

(This does not change in any way the existing requirement under section 4 (f) (3) of the Communications Act, as Amended, that the U. S. Government be reimbursed for extra compensation resulting from overtime services in connection with ship inspections.)

11. *Proposed schedule of fees for Common Carrier services.* It is proposed to charge the following fees in the Common Carrier services:

(a) Applications filed by telephone companies under section 221 of the Act for acquisitions, consolidations, etc.	$350
(b) Formal applications filed by telephone companies under section 214 of the Act for the construction or extension of a line	150
(c) Applications for exemptions from Commission jurisdiction under Title II of the Act	150
(d) All other applications filed by common carriers under Titles II and III of the Act, except applications filed by carriers under Parts 7, 8, 10, and 14 of the Commission's Rules and Regulations which are covered by the fees set forth in the schedule of fees for the Safety and Special Radio Services	30

12. It is contemplated that this schedule be revised biennially, and adjustments made where necessary to conform the fees charged to actual experience in the light of new or changed circumstances.

13. Each application for which a fee is prescribed must be accompanied by a remittance in the full amount of the fee. In no case will an application be accepted for filing or processed prior to payment

of the full amount specified. Applications for which no remittance is received, or for which an insufficient amount is received, may be returned to the applicant.

14. Provision will be made for a Cashier's Office to be located in the Commission's Offices in Washington, D. C., for the purpose of accepting application fees presented in person or submitted through the mail. Applications received in Washington will be processed through the cashier's office and stamped with the amount received prior to being forwarded to the appropriate bureau or staff office for further handling. Such payments may be made in United States legal tender, Domestic or International Postal Money Orders, or checks payable to the Federal Communications Commission. All fees collected will be paid into the United States Treasury as miscellaneous receipts in accordance with the provisions of section 140 of Title 5 of the U. S. Code.

15. For the convenience of applicants presenting applications at field offices in person or by mail, arrangements will also be made for the acceptance of money orders and checks at such field offices, and in payment for such types of applications, as provided for in the Commission's rules.

16. Receipts will not be issued for payments sent through the mails. The money order procedure provides a receipt and canceled checks constitute a receipt for payments made in this manner. Receipts will be furnished upon request only in the case of payments made in person. The sending of cash through the mails is done entirely at the risk of the sender.

17. No refunds of fees will be made except in the case of payments in excess of the fee prescribed in the Commission's rules.

18. No radio operator examinations will be given prior to filing of an application and payment of the proper fee at an appropriate Commission office. Such applications and fees will only be accepted at District and Sub-District offices. They will not be accepted at quarterly, semiannual or annual examination points in cities other than those in which District and Sub-District offices are located.

19. The proposed amendments to the rules are issued pursuant to section 4 (i) of the Communications Act, section 140 of Title 5 of the U. S. Code, and Budget Bureau Circular A-25.

20. Any interested party who is of the opinion that the proposed amendments should not be adopted in the form set forth herein and any person desiring to support this proposal may file with the Commission on or before April 1, 1954, a written statement or brief setting forth his comments; replies to such comments may be filed within 10 days from the last date for filing original comments. The Commission will consider all comments and briefs presented before taking final action in this matter.

21. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: January 27, 1954.

Released: January 28, 1954.

FEDERAL COMMUNICATIONS COMMISSION.[1]

[SEAL] WM. P. MASSING,
Acting Secretary.

APPENDIX A

(5 U. S. C., Sec. 140)

It is the sense of the Congress that any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, or similar thing of value or utility performed, furnished, provided, granted, prepared, or issued by any Federal agency (including wholly owned Government corporations as defined in the Government Corporation Control Act of 1945) to or for any person (including groups, associations, organizations, partnerships, corporations, or businesses), except those engaged in the transaction of official business of the Government, shall be self-sustaining to the full extent possible, and the head of each Federal agency is authorized by regulation (which, in the case of agencies in the executive branch, shall be as uniform as practicable and subject to such policies as the President may prescribe) to prescribe therefor such fee, charge, or price, if any, as he shall determine, in case none exists, or redetermine, in case of an existing one, to be fair and equitable taking into consideration direct and indirect cost to the Government, value to the recipient, public policy or interest served, and other pertinent facts, and any amount so determined or redetermined shall be collected and paid into the Treasury as miscellaneous receipts: Provided, that nothing contained in this Title shall repeal or modify existing statutes prohibiting the collection, fixing the amount, or directing the disposition of any fee, charge or price; Provided further, that nothing contained in this title shall repeal or modify existing statutes prescribing bases for calculation of any fee, charge or price, but this proviso shall not restrict the redetermination or recalculation in accordance with the prescribed bases of the amount of any such fee, charge or price.

[F. R. Doc. 54-712; Filed, Feb. 2, 1954; 8:49 a. m.]

[47 CFR Part 3]

[Docket No. 10888]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a proposal for rulemaking in the above-entitled matter.

2. The Commission has before it a petition filed on December 29, 1953, by the Hills Broadcasting Company, Rapid City, South Dakota, and now made part of this docket, requesting an amendment of § 3.606 *Table of assignments* rules governing television broadcast stations as follows:

City	Channel No.	
	Present	Proposed
Rapid City, S. Dak.	7+, 15—	3+, 7+, 15—

[1] Separate views of Commissioner Hennock and concurring statement of Commissioner Bartley filed as part of the original document.

3. In support of its requested amendment, petitioner urges that because of the rugged nature of the terrain in the area that utilization of the UHF assignment provided by the Commission at Rapid City is not feasible. Further, it is asserted that the proposed change accords with the Commission's rules and that the additional assignment of Channel 3 to Rapid City would eliminate the need for a comparative hearing on Channel 7 and would thus make television service available in the area at a much earlier date. With respect to petitioner's contention that in view of the rugged terrain the utilization of a UHF channel in the area is infeasible, it should be noted that the Commission in the Sixth Report concluded that there were no reliable data and methods for evaluating the effect of rugged terrain on propagation of television assignments. Moreover, the Commission in § 3.686 of its rules provided explicit procedures for introducing data concerning measurements seeking to effect changes in our rules and standards. Accordingly, we find no merit in the contention of the petitioner with respect to the infeasibility of the utilization of the UHF channel. However, in view of the fact that Channel 3 may be assigned to Rapid City without making any other changes in the table and in conformance with our rules it is proposed that this additional assignment be made.

4. Authority for the adoption of the proposed amendments is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

Any interested party who is of the opinion that the amendment proposed by petitioner should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before February 26, 1954, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: January 27, 1954.

Released: January 28, 1954.

FEDERAL COMMUNICATIONS COMMISSION.

[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-714; Filed, Feb. 2, 1954; 8:50 a. m.]

[47 CFR Parts 7, 8]

[Docket No. 10887]

STATIONS ON LAND AND SHIPBOARD IN MARITIME SERVICES

TYPE ACCEPTANCE AND SPECIFIC LIMITATIONS FOR SPURIOUS EMISSIONS

1. Notice is hereby given of proposed rule making in the above entitled matter. The rules proposed to be adopted are set forth below.

2. A considerable amount of interference is being caused by harmonic radiation from ship transmitters. As an example, second harmonic radiation from ship transmitters operating on the inter-ship frequency 2738 kc is causing harmful interference on 5476.5 kc—aeronautical mobile frequency—and is a hazard to civil aviation. Furthermore, because of this interference it is not possible fully to use the frequency 5476.5 kc for aeronautical mobile communications in accordance with the terms of the E. A. R. C. agreement (Geneva, 1951). Failure to put into use 5476.5 kc naturally blocks the assignment of other frequencies and therefore constitutes a serious obstacle to the Commission's program of bringing into force the Atlantic City Table of Frequency Allocations pursuant to the timetable established in the E. A. R. C. Agreement.

3. Part 8 of the Commission's rules now contains a table of limitations for spurious emissions including harmonics. However, this table is applicable only to ship radiotelephone transmitters operating on frequencies above 30 Mc. In the interest of safeguarding aeronautical communication in particular and in order to minimize interference in general, it is proposed to extend (with certain relatively minor exceptions) the applicability of this table to all ship radiotelegraph and radiotelephone transmitters.

4. To facilitate the enforcement of this regulation, it is further proposed to require that all ship radiotelephone transmitters be type accepted by the Commission. Type acceptance is a form of approval given by the Commission which is based on the examination of certified test data submitted by the manufacturer or the licensee of the transmitter. It may be expected therefore, that the use of type accepted transmitters will ultimately substantially reduce the number of cases of interference. The proposed rules also provide for gearing in the existing requirements for an automatic modulation limiter to the type acceptance program.

5. Provision is made in the proposed rules for a transition period to permit manufacturers to bring their designs and production into line with the new requirements and to permit licensees to modify or replace non-complying equipment.

6. Changes are also made in § 8.138 to eliminate a reference to deleted § 8.136 and to provide a reference to the procedure to be followed in order to apply for type approval of ship radar equipment.

7. The proposed amendment is issued under the authority contained in sections 4 (i), 303 (c), (e), (f), and (r) of the Communications Act of 1934, as amended.

8. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before April 2, 1954, a written statement or brief setting forth his comments. Replies to such comments may be filed within ten days from the last day for filing original comments. Interested persons supporting the proposed amendment may file statements or briefs in a similar manner. The Commission will consider all comments and briefs presented to it before taking final action in this matter.

9. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs or comments should be furnished the Commission.

Adopted: January 27, 1954.

Released: January 28, 1954.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION.[1]
WM. P. MASSING,
Acting Secretary.

1. Sections 7.8 (e) and 8.7 (e) are amended to read as follows:

(e) *Spurious emission.* Any emission from a station at a frequency or frequencies outside a frequency band of emission authorized for that station. A frequency band of emission is a frequency band of which the two designated limiting frequencies are established by an emission bandwidth referred to a particular carrier frequency.[1a]

2. Section 8.108 is amended by revising the last sentence to read as follows: "Any spurious emissions shall be maintained at the lowest practicable level and in no event exceed the specific applicable limits set forth in Subpart E of this part."

3. Delete § 8.136 and substitute the following new text:

§ 8.136 *Spurious radiation limitations.* (a) Spurious emission from any transmitter authorized in a ship station license or marine utility station license (other than a developmental station license) with the exception of lifeboat portable and non-portable transmitters, shall, as a minimum, when operating in reference to assigned frequencies below 500 Mc, be attenuated as follows:

(1) Any emission appearing on a frequency removed from the carrier frequency by at least 50 percent but not more than 100 percent of the authorized emission bandwidth shall be attenuated not less than 25 decibels below the level of the unmodulated carrier.

(2) Any emission appearing on a frequency removed from the carrier frequency by at least 100 percent of the authorized emission bandwidth shall be attenuated below the level of the unmodulated carrier by not less than the amount shown in the following table:

Maximum authorized transmitter-power as specifically defined in § 8.7 (ii):	*Attenuation (decibels)*
3 watts or less	40
Over 3 watts up to and including 150 watts	60
Over 150 watts up to and including 600 watts	70
Over 600 watts	80

(b) If spurious emission causes harmful interference, the Commission may, in its discretion, require that the radiation be attenuated beyond the values set forth in paragraph (a) of this section to alleviate the interference.

4. Amend § 8.137 as follows:

a. Change paragraph (a) to read as follows:

(a) (1) In order to obtain type acceptance, each radiotelephone transmitter shall have incorporated a device that will automatically prevent modulation in excess of 100 percent. This requirement, however, shall not apply to transmitters with an authorized transmitter power of three watts or less.

(2) In the event the operation of any radiotelephone transmitter causes harmful interference to the service of any station by reason of over modulation, the Commission may, in its discretion, require that the use of such transmitter be discontinued until it has been provided with a device that will automatically prevent modulation in excess of 100 percent.

b. Amend paragraph (c) to read as follows:

(c) Each radiotelephone transmitter authorized in a ship station or marine utility station license (other than transmitters authorized solely for developmental stations) shall, in addition to meeting all other applicable requirements, comply with the following operating condition:

(1) When radiating class F1, F2, or F3 emission on each marine radiochannel within the frequency band 35 to 44 Mc, or within the frequency band 156.25 to 157.45 Mc with 100 percent modulation applied, the frequency deviation shall not exceed 15 kc.

5. Section 8.138 is amended by making the following changes:

a. At the end of the first sentence of paragraph (a) add the following: " • • • pursuant to the type approval procedure set forth in Part 2[1] of this subchapter."

b. Delete subparagraph (3) of paragraph (b).

6. A new § 8.139 is added to read as follows:

§ 8.139 *Acceptability of radiotelephone transmitters for licensing.* (a) Each radiotelephone transmitter author-

[1] Dissenting statement of Commissioner Geo. E. Sterling filed as part of the original document.

[1a] For the purpose of this definition, when a carrier is not present, a frequency normally coinciding with the center of the frequency band occupied by the emission is substituted therefor.

[1] The related rules of Part 2 are the subject of proposed rule making in Docket No. 10798.

ized in a ship station or marine-utility station license (other than transmitters authorized solely for developmental stations) must be type-accepted by the Commission except that:

(1) This requirement shall not become applicable to such radiotelephone transmitters for use and operation on frequencies below 30 Mc until requested to be authorized in an initial or renewed license granted by the Commission after December 31, 1954;

(2) This requirement shall not apply to any transmitter capable of operation exclusively at a frequency or frequencies above 30 Mc which was first authorized in a particular station license for use in the maritime mobile service granted in behalf of a particular licensee prior to November 1, 1952, when that transmitter is authorized in a ship station license or a marine-utility station license granted in behalf of the same licensee and has a date of expiration not later than December 31, 1954.

(b) Any manufacturer of a radiotelephone transmitter to be built in quantity for use in ship or marine-utility stations may request type acceptance for such transmitter by following the type acceptance procedure set forth in Part 2[1] of this subchapter. Such transmitter, if accepted, will be included on the Commission's "Radio Equipment List, Part C, List of Equipment Acceptable for Licensing". Copies of this list are available for inspection at the Commission's office in Washington, D. C. and at each of its field offices.

(c) Type acceptance of a radiotelephone transmitter may also be requested by an applicant for related station authorization by following the type acceptance procedure set forth in Part 2[1] of this subchapter. Such transmitters, if accepted, will not normally be included on the Commission's "Radio Equipment List, Part C, List of Equipment Acceptable for Licensing" but will be individually enumerated on the station authorization.

(d) Additional rules with respect to type acceptance are set forth in Part 2[1] of this subchapter. Those rules include information with respect to withdrawal of type-acceptance, modification of type-accepted equipment and limitations on the finding upon which type acceptance is based.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. SA-288]

ACCIDENT OCCURRING NEAR SHREVEPORT, LA.

NOTICE OF HEARING

In the matter of investigation of accident involving aircraft of United States Registry N 4949N, which occurred near Shreveport, Louisiana, on Janary 10, 1954.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 702 of said act, in the above-entitled proceeding that hearing is hereby assigned to be held on February 10, 1954, at 9:00 a. m. (local time) in the Washington Youree Hotel, 401 Edward Street, Shreveport, Louisiana.

Dated at Washington, D. C., January 26, 1954.

[SEAL] HAROLD G. CROWLEY, *Presiding Officer.*

FEDERAL COMMUNICATIONS COMMISSION

CHIEF, SAFETY AND SPECIAL RADIO SERVICE BUREAU

DELEGATION OF AUTHORITY TO ACT ON CERTAIN CLASSES OF APPLICATIONS OR REQUESTS

In the matter of delegation of authority to the Chief, Safety and Special Radio Services Bureau to act on certain classes of applications or requests for exemption of ships from the radio provisions of section 352 (b) of the Communications Act and Chapter IV of the Safety Convention.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954;

The Commission having under consideration the above-captioned matter;

It appearing, that section 0.144 (d) of the Commission's rules authorizes the Chief, Safety and Special Radio Services Bureau or, in his absence, the Acting Chief of said Bureau, to act upon applications or requests for emergency and renewal exemptions of ships, and initial exemptions of ships of less than 100 gross tons, pursuant to the provisions of section 352 (b) of the Communications Act and Article 28 of the Safety Convention; and

It further appearing, that the reference in section 0.144 (d) to "Article 28 of the Safety Convention" is obsolete and should be modified to conform with the Safety Convention now in force; and

It further appearing, that from time to time the Commission has received applications for exemption filed in behalf of vessels participating in oil well drilling operations in the Gulf of Mexico, and that the routes and conditions of the voyages of the vessels, and other circumstances, in a number of subsequent cases have been substantially the same as those in cases previously decided by the Commission en banc; and

It further appearing, that in order to facilitate action upon applications for exemption for which a precedent has been set, it is appropriate that authority to take action with respect to such applications be delegated to the staff; and

It further appearing, that the amendment herein ordered is procedural and editorial in nature and therefore, compliance with the public rule making procedure prescribed by section 4 of the Administrative Procedure Act is not required and for the same reason the amendment may be made effective immediately;

It is ordered, Under authority contained in sections 4 (i) and 303 (r) of the Communications Act of 1934, as amended, that effective immediately, section 0.144 (d) of Part 0 of the Commission's rules is amended to read as follows:

(d) Applications or requests for exemption, pursuant to the provisions of section 352 (b) of the Communications Act and Regulation 5, Chapter IV of the Safety Convention, as follows:

(1) Emergency and renewal exemptions of ships;

(2) Initial exemptions of ships of less than 100 gross tons;

(3) Exemptions of ships operated in the Gulf of Mexico which participate in oil well drilling operations when the circumstances are substantially the same as those in precedent cases decided by the Commission en banc.

Released: January 28, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING, *Acting Secretary.*

[F. R. Doc. 54-727; Filed, Feb. 2, 1954; 8:52 a. m.]

[1] The related rules of Part 2 are the subject of proposed rule making in Docket No. 10798.

CHIEF, SAFETY AND SPECIAL RADIO SERVICES BUREAU

DELEGATION OF AUTHORITY TO ACT ON PETITIONS OR REQUESTS FOR WAIVER OF RULES IN CONFLICT WITH AN APPLICATION

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954;

The Commission having released an order on July 23, 1953, delegating authority to the Chief, Safety and Special Radio Services Bureau, to act on petitions for a waiver of or exception to the Commission's rules, and on January 7, 1954, having released an order delegating similar authority to the Chief, Common Carrier Bureau;

It appearing, that since the kind of action contemplated to be taken under the two above-mentioned orders is the same it is desirable that the differences between them be eliminated:

It is ordered, That the order released July 23, 1953 delegating authority to the Chief, Safety and Special Radio Services Bureau is rescinded and in lieu thereof, under the authority contained in section 5 (d) (1) of the Communications Act of 1934, as amended, effective immediately, authority is delegated to the Chief, Safety and Special Radio Services Bureau, to act upon petitions or requests seeking waiver of or exception to any rule, regulation or requirement relating to the services under his jurisdiction and to act upon petitions or requests relating to the assignment of frequencies to the various safety and special radio services but requiring action under § 2.103 of the rules, when he finds that the operation for which permission is sought (1) is of a non-recurring nature and does not warrant a rule making proceeding with a view to establishing it on a regular basis, (2) will not exceed 90 days, and (3) will cause no harmful interference to any service operating in accordance with the Table of Frequency Allocations. This delegation shall not apply to requests for renewals of any authority to operate granted hereunder: *Provided, however*, That none of the foregoing limitations shall apply to petitions or requests for waiver of or exception to any requirement set forth in §§ 12.27, 12.44, 12.81, 12.91 and 12.111, the latter section only to the extent that it applies to types of emission, of the Commission's rules governing Amateur Radio Service.

Released: January 28, 1954.

[SEAL] WM. P. MASSING, *Acting Secretary.*

[F. R. Doc. 54-728; Filed, Feb. 2, 1954; 8:52 a. m.]

[Docket No. 10636]

AERONAUTICAL STATIONS SERVING LIGHTER-THAN-AIR CRAFT STATIONS OPERATING ON CERTAIN FREQUENCIES

ORDER MODIFYING LICENSES

In the matter of modification of licenses of aeronautical stations serving lighter-than-air craft stations, now operating on the frequencies 6615 kc. and 11,910 kc.; Docket No. 10636.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954;

The Commission, having under consideration its proposal in the above entitled matter which would bring into force certain portions of the International Radio Regulations (Atlantic City, 1947) in accordance with the agreement concluded at the Extraordinary Administrative Radio Conference (Geneva, 1951); and

It appearing, that on August 5, 1953, the Commission, pursuant to section 316 of the Communications Act of 1934, as amended, adopted an order which directed the licensees of aeronautical stations serving lighter-than-air craft on the frequencies 6615 kc. and 11,910 kc. to show cause, on or before September 4, 1953, why their aeronautical land and aeronautical fixed station licenses should not be modified as of October 1, 1953, by having the above-mentioned frequencies deleted therefrom; and

It further appearing, that the frequencies 6615 kc. and 11910 kc. are not to be replaced with frequencies which may be assigned solely for lighter-than-air operations since the Aeronautical Mobile (R) frequencies are to be available for assignment to lighter-than-air craft and to aeronautical stations serving lighter-than-air craft in the same manner and extent as they will be available for assignment to other aeronautical land and aircraft stations; and

It further appearing, that on August 7, 1953, a copy of the show cause order was sent by regular mail to Aeronautical Radio, Inc., the sole licensee of aeronautical land and aeronautical fixed stations serving lighter-than-air craft stations on the frequencies 6615 kc. and 11910 kc.; and

It further appearing, that Aeronautical Radio, Inc., filed a timely answer to the show cause order which states that no objection is offered to the deletion of the frequency 11910 kc. from the licenses of all its aeronautical stations, both land and fixed, serving lighter-than-air craft stations; or, (2) the deletion of the frequency 6615 kc. from the licenses of all its aeronautical stations, both land and fixed, serving lighter-than-air craft stations with the exception of eleven aeronautical stations (KQM5, KMA3, KQA6, KQM6/7/8/9, KQN2/3/4/5) in the Los Angeles, California and Suffield, Ohio, areas; and

It further appearing, that Aeronautical Radio, Inc., states that there is a continuing operational requirement for a 6 megacycle frequency by the eleven aeronautical stations mentioned above in order to provide an adequate communication service to lighter-than-air craft stations and, therefore, objects to the deletion of 6615 kc. from the licenses of those stations as of October 1, 1953, and for an indefinite period thereafter, pending the availability of appropriate Aeronautical Mobile (R) Service, 6 megacycle frequencies, which could provide service to lighter-than-air craft, by shared use as needed, with the general aeronautical mobile services; and

It further appearing, that in view of the continuing operational requirement for a 6 megacycle frequency by the above mentioned aeronautical stations, the request of Aeronautical Radio, Inc., is reasonable;

It is ordered, That, effective March 22, 1954, the licenses of all aeronautical and aeronautical fixed radio stations serving lighter-than-air craft stations be modified by deleting therefrom the frequency 11,910 kc; and

It is further ordered, That, effective March 22, 1954, the licenses of the following aeronautical enroute and aeronautical fixed stations serving lighter-than-air craft be modified by deleting therefrom the frequency 6615 kc:

Licensee	Call letters	Location
Aeronautical Radio, Inc.	KMC8	Culver City, Calif.
	KMB9	Long Beach, Calif.
	KMA22	Los Angeles, Calif.
	KQE28	Suffield, Ohio.

PALLADIUM PUBLISHING CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Palladium Publishing Company, Benton Harbor, Michigan,

Docket No. 10870, File No. BMPCT-1426; for additional time to complete construction of television broadcast Station WHFB-TV.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954:

The Commission having under consideration the above-entitled application for additional time in which to complete construction of television broadcast Station WHFB-TV at Benton Harbor, Michigan; and

It appearing, that on February 25, 1953, the Commission granted Palladium Publishing Company's application (BPCT-1282) for a construction permit for a television station to operate on Channel 42 in Benton Harbor, Michigan; and

It further appearing, that no construction has taken place nor have any orders been placed for the equipment necessary to begin such construction; and

It further appearing, that the applicant was advised on November 25, 1953, that the Commission was unable to find that the applicant has been diligent in filing applications in compliance with conditions attached to the construction permit, thus foreclosing the commencement of construction at an early date, or in ordering equipment and in constructing the proposed station; and

It further appearing, that the applicant filed a reply to the aforesaid letter of November 25, 1953; and that the Commission, after due consideration of such reply, is still unable to conclude that the applicant has been diligent in ordering equipment or has been prevented from commencing construction by causes not under its control, and cannot determine that a grant of the above-entitled application would serve the public interest;

It is ordered, That the above-entitled application of Palladium Publishing Company is designated for hearing to commence at 10:00 a. m. on the 1st day of March 1954, in Washington, D. C. upon the following issues:

(1) To determine whether Palladium Publishing Company has been diligent in proceeding with the construction authorized in its construction permit (File No. BPCT-1282), granted on February 25, 1953; and

(2) To determine whether it would be in the public interest, convenience and necessity to grant the above-entitled application of Palladium Publishing Company.

Released: January 28, 1954.

[Docket No. 10871]

J. PATRICK BEACOM & ASSOCIATES

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re applications of J. Patrick Beacom, Timothy P. Beacom and Jennings Randolph d/b as J. Patrick Beacom & Associates, Clarksburg, West Virginia, Docket No. 10871, File No. BPCT-1708; for construction permit for new television station.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954:

The Commission having under consideration the above-entitled application, requesting a construction permit for a new television broadcast station to operate on Channel 22 in Clarksburg, West Virginia; and

It appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicant was advised by letter, dated January 6, 1954, among other things, that its application raised questions as to its financial and technical and other qualifications to construct, own and operate a television broadcast station; that, in view of the interests of J. Patrick Beacom in the applicant and in Fairmont Broadcasting Company, permittee of a television station on Channel 35 in Fairmont, West Virginia, a question was raised as to whether a grant of its application would be consistent with the provisions of § 3.636 (a) of the Commission's rules and its policies promulgated thereunder; and that applicant was given an opportunity to reply to said letter; and

It further appearing, that upon due consideration of the above-entitled application, the amendments filed thereto, and the reply to the above letter, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applicant is legally, financially and technically qualified to construct, own and operate a television broadcast station, but that the TV interests of J. Patrick Beacom, as indicated above, raise a question as to whether applicant's proposed operation is consistent with the provisions of § 3.636 (a) of the Commission's rules; that the Commission is unable to determine that a grant of the above-entitled application would be in the public interest; and that accordingly, the application should be designated for hearing; and

It further appearing, that the applicant proposes an antenna location in the vicinity of standard broadcast station WBLK; that the installation of the television antenna as proposed is possible and feasible without adversely affecting the ability of Station WBLK to operate in accordance with the terms of its license; that appropriate proof thereof should be submitted after installation and operation of the said proposed antenna; and that a grant if made, of the application shall be subject to the following condition:

The construction authorized is subject to the condition that such shall not adversely affect the ability of standard broadcast station WBLK to operate in accordance with the terms of its license, particularly with respect to its antenna system, and that sufficient field intensity measurements of station WBLK shall be made before and after such construction to prove that no material effect thereon has resulted.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled application is designated for hearing to commence at 10:00 a. m. on the 26th day of February 1954 in Washington, D. C. upon the following issue: To determine, in light of the interests of J. Patrick Beacom in the applicant and in Fairmont Broadcasting Company, permittee of a television station on Channel 35 in Fairmont, West Virginia, whether a grant of the above-entitled application would be consistent with the provisions of § 3.636 (a) of the Commission's rules and its policies promulgated thereunder and would be in the public interest.

Released: January 28, 1954.

[Docket Nos. 10872, 10873, 10874]

TEXAS STATE NETWORK, INC., ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Texas State Network, Inc., Fort Worth, Texas, Docket No. 10872, File No. BPCT-571; W. W. Lechner d/b as Lechner Television Company, Fort Worth, Texas, Docket No. 10873, File No. BPCT-1643; R. O. Shaffer, Sterling C. Holloway, M. J. Neeley, Arch Rowan, F. Kirk Johnson and C. L. Rowan, d/b as Fort Worth Television Company, Fort Worth, Texas, Docket No. 10874, File No. BPCT-1644; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954:

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 11 in Fort Worth, Texas; and

It appearing, that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station; that the antenna system and site proposed by Fort Worth Television Company will not constitute a hazard to air navigation, provided that special hazard markers are erected; and that a grant, if made, of its application should be subject to the following conditions:

The outer limits of the hazard area in which the tower will be situated shall be marked by symbols consisting of the letters "HAZ", located so that at least one symbol will be visible from aircraft at any normal angle of approach. The marking symbols shall be located immediately beyond the ground connection of the outer guy wires.

The letters of such symbols shall be installed in a manner to be legible in clear air at an altitude of 3,000 feet at a distance of two miles. The symbols shall consist of uniform block letters having a height of at least 30 feet and a width equal to two-thirds of the height. The width of each stroke shall be approximately one-seventh of the height of the letters. In addition, the letters shall be colored aviation surface orange.

The symbols shall be cleaned and repainted as often as necessary to maintain good visibility. If the strokes of the letters are constructed of wood or metal panels, such construction shall be designed to prevent accumulation of snow.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 26th day of February 1954 in Washington, D. C. to determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(1) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(2) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(3) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: January 28, 1954.

COLUMBIA AMUSEMENT CO. AND PADUCAH NEWSPAPERS, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Columbia Amusement Company, Paducah, Kentucky, Docket No. 10875, File No. BPCT-1170; Paducah Newspapers, Incorporated, Paducah, Kentucky, Docket No. 10876, File No. BPCT-1824; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 6 in Paducah, Kentucky; and

It appearing, that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 26th day of February 1954 in Washington, D. C., to determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(1) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(2) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(3) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: January 29, 1954.

ABRAHAM KLEIN ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Abraham Klein, Philadelphia, Pennsylvania; Docket No. 10884, File No. 1419-C2-P-53; Samuel N. Kirkland, d/b as Contact, Philadelphia, Pennsylvania; Docket No. 10885, File No. 1572-C2-P-53; Hav-A-Call, Inc., Philadelphia, Pennsylvania, Docket No. 10886, File No. 368-C2-P-54; for construction permits for one-way signaling stations in the Domestic Public Land Mobile Radio Service.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 27th day of January 1954;

The Commission, having under consideration the above-entitled applications for one-way signaling stations in the Domestic Public Land Mobile Radio Service in Philadelphia, Pennsylvania; and

It appearing, that the number of applicants for facilities in this area exceeds the number of frequencies available; and

It further appearing, that the above-entitled applications request authorizations in the same or overlapping service areas and that a grant of such applications might result in harmful mutual interference; and

It further appearing, that in accordance with § 6.409 of the Commission's rules, each frequency available for assignment in the Domestic Public Land Mobile Radio Service is normally assigned exclusively to a single applicant in any service area, in order to permit the rendition of service on an interference free basis; and

It further appearing, that the Commission has advised each of the above-entitled applicants, by letters dated October 5, 1953, and December 1, 1953, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, as to the reasons why his application cannot be granted without hearing, and that no replies to such letters have been received;

It is ordered, That, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at the offices of the Commission in Washington, D. C. commencing at 10:00 a. m. on March 1, 1954, upon the following issues:

1. To determine the technical, financial and other qualifications (except legal) of each of the applicants to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to receive service from the proposed facilities and the need for such service in the areas to be served.

3. To determine whether any mutual interference would result from the operation of the proposed stations, and, if so, whether, in view of the nature of the service proposed, such interference would be undesirable or intolerable.

4. To determine whether mutual harmful interference would result as between the proposed operations of Samuel N. Kirkland, d/b as Contact and Hav-A-Call, Inc., on the one hand, and the operations of Tel-A-Talk, Inc., in Allentown, Pennsylvania, on the other hand.

5. To determine the facts with respect to the proposed facilities, personnel, rates, regulations, practices and services of each applicant for the furnishing of Domestic Public Land Mobile Radio Service.

6. To determine, in the light of the evidence adduced on the foregoing issues, which, if any, of the applications should be granted.

It is further ordered, That Tel-A-Talk, Inc., is made party respondent to this proceeding, with its participation limited to Issue No. 4.

Released: January 28, 1954.

GERTRUD AND KARIN RUDNAI

AMENDMENT TO NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Notice of Intention to Return Vested Property hereinafter described to David Rudnai was published on February 17, 1953 (18 F. R. 946). Subsequent to the publication of the notice, this Office was advised that David Rudnai died intestate and left surviving him his wife, Gertrud Rudnai, nee Vogler and daughter, Karin Rudnai. Consequently, the notice of intention to return vested property, which was published on February 17, 1953 (18 F. R. 946), is amended to read as follows:

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimants, Claim No., Property, and Location

Gertrud Rudnai, nee Vogler, Karin Rudnai, Berlin, Germany, Claim No. 35729; $502.16 in the Treasury of the United States; one-fourth (¼) thereof to Gertrud Rudnai, nee Vogler and three-fourths (¾) thereof to Karin Rudnai.

Executed at Washington, D. C., on January 27, 1954.

For the Attorney General.

CITRUS FRUIT INDUSTRY IN FLORIDA

NOTICE OF POSTPONEMENT OF HEARING TO DETERMINE WHETHER INDUSTRY IS OF A SEASONAL NATURE

Notice was published in the FEDERAL REGISTER December 24, 1953 (18 F. R. 8705), of a hearing on a petition for revocation of the seasonal industry determinations under section 7 (b) (3) of the Fair Labor Standards Act which apply to the handling, packing, storing, preparing in their raw or natural state, first processing or canning of perishable or seasonal fresh fruits or vegetables (5 F. R. 3167) and to the dehydration of citrus pulp and waste in the States of Florida and Texas (8 F. R. 3811), to the extent that they apply to citrus fruit operations in Florida.

The hearing was scheduled to take place at the Chamber of Commerce Auditorium, Tampa, Florida, on February 10, 1954.

Many interested parties have requested postponement because they will be unable to attend the hearing on the above date. Notice is hereby given, therefore, that the above-scheduled hearing will be held on May 11, 1954, at 10:00 a. m., in the Auditorium, Hillsborough County Court House, Tampa, Florida.

Notices of personal appearance should be filed with the Administrator by May 4, 1954.

Signed at Washington, D. C., this 29th day of January 1954.

FEDERAL POWER COMMISSION

[Docket No. E-6542]

EL PASO ELECTRIC CO.

NOTICE OF APPLICATION

JANUARY 26, 1954.

Take notice that on January 25, 1954, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by El Paso Electric Company (hereinafter called "Applicant"), a corporation organized under the laws of the State of Texas and doing business in the States of Texas and New Mexico, with its principal business office at El Paso, Texas, seeking an order authorizing the issuance of 76,399 shares of Common Stock, without par value, $5,000,000 principal amount of First Mortgage Bonds __ Percent Series due 1984 and 15,000 shares of $____ Dividend Preferred Stock, without par value. The Common Stock is proposed to be offered for sale to the Common Stockholders of Applicant on February 25, 1954, or such other date as may be determined by Applicant's Board of Directors. The Bonds will be dated as of March 1, 1954, to be issued in April 1954, to be due on March 1, 1984. The Preferred Stock is to be issued in April 1954 on a date to be determined by Applicant's Board of Directors. The Common Stock is to be offered pro rata to the Common Stockholders of Applicant, pursuant to preemptive rights on the basis of one share for each ten shares held of record. Applicant seeks an exemption from the competitive bidding requirements of the Commission's Rules with respect to the issuance and sale of the Common Stock. Applicant proposes to issue the Bonds and Preferred Stock by competitive bidding, all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 17th day of February 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2217]

NORTHERN NATURAL GAS CO.

ORDER APPROVING PROPOSED SETTLEMENT AND REQUIRING TARIFF REVISIONS TO BE FILED AND FIXING DATE FOR FURTHER HEARING

This is a rate proceeding arising from rate increases filed by Northern Natural Gas Company (Northern). The record herein has been certified to us for approval of a proposed settlement, as stated on the record by Commission Staff Counsel in open hearing and agreed to by all parties to the proceeding. Upon consideration of the record, we approve the terms of the proposed settlement, permitting the agreed upon rate increases to become effective subject to the terms and conditions agreed to by the parties, as hereinafter set forth.

On June 26, 1953, Northern filed with the Commission proposed Fourth Revised Sheets Nos. 5, 12, and 13 to its FPC Gas Tariff, First Revised Volume No. 2, and requested that such revised sheets become effective on July 27, 1953. Northern also filed for "information" purposes Fourth Revised Sheet No. 14 to its FPC Gas Tariff, First Revised Volume No. 2, which it proposed to make effective as of August 27, 1953. By said Fourth Revised Sheets Northern proposed to increase its rates and charges for sales of natural gas approximately $13,485,500 per year, based on estimated sales for the year 1954.

Said Fourth Revised Sheet No. 5 is Northern's proposed Rate Schedule CD-1 for "Town Border Natural Gas Delivery" on a contract demand basis; Fourth Revised Sheet No. 12 is proposed Rate Schedule G-1 for "Town Border Natural Gas Delivery" on other than a contract demand basis; Fourth Revised Sheet No. 13 is proposed Rate Schedule IND-1 for "Large Volume Industrial Sales for Resale;" and Fourth Revised Sheet No. 14 is proposed Rate Schedule IND-2 for "Large Volume Industrial Sales for Use and Not For Resale."

Fourth Revised Sheets Nos. 5, 12, 13, and 14 were filed to supersede Northern's Third Revised Sheets Nos. 5, 12, 13, and 14, which have been in effect since November 27, 1952, by virtue of orders of the United States Court of Appeals for the Eighth Circuit entered December 18, 1952, and September 15, 1953, in State Corporation Commission v. F. P. C., No. 14,704, and Northern Natural Gas Co. v. F. P. C., Nos. 14,706, 14,733, 14,743, staying, subject to the terms and conditions therein stated, this Commission's Opinions Nos. 228 and 228-A and accompanying orders issued June 11, 1952, and September 26, 1952, respectively, and Opinion No. 233 and order issued July 30, 1952.

By order issued July 24, 1953, pursuant to authority contained in section 4 of the Natural Gas Act, the Commission, upon its own motion, among other things, suspended said Fourth Revised Sheets and deferred the use of Fourth Revised Sheets Nos. 5, 12, and 13 until December 27, 1953, and of Fourth Revised Sheet No. 14 until January 27, 1954, unless otherwise ordered by the Commission, and until such further time thereafter

as said Fourth Revised Sheets may be made effective in the manner prescribed by the act.

Pursuant to Commission order, hearings herein were held on October 26, 27, and 28, 1953, at which Northern presented evidence purporting to support its proposed increased rates and charges. Following a recess, the hearings were reconvened on January 18, 1954. Immediately upon such reconvening, pursuant to motion of Staff Counsel and with concurrence of all parties to the proceedings, the hearing was recessed from day to day to permit the parties, including the Staff, to confer respecting the possibility of agreement on or simplification of the issues in the proceeding.[1]

On January 21, 1954, final agreement was reached by the parties to the proceeding respecting all matters involved and issues presented in this proceeding, excepting the single issue respecting service zones and differentials in rates in areas served by Northern as presented by petitions for leave to intervene herein filed by Council Bluffs Gas Company and Central Electric & Gas Company. Among items included in the agreement are the rate increases to which Northern is entitled, the rates and schedules to be observed by Northern, and the terms and conditions under which the settlement is acceptable to the parties.

The Commission's Staff computed a net investment rate base of $226,197,315 for the year 1954, including an allowance of $1,296,565 for cash working capital computed in recognition of the availability of accruals for Federal taxes on income. Allowing a 6 percent return upon this rate base, the Staff developed a total cost of service of $91,979,330 for the year ending December 31, 1954. Of this total, $73,625,545 was allocated by the Staff to jurisdictional sales. This cost of service estimate was presented to all parties to this proceeding in the conference and an agreement was reached that rates which would yield revenues of $73,083,254 from Northern's sales in interstate commerce for resale, based upon estimated operations for the year 1954, would be fair and reasonable and acceptable to all parties.[2]

It was agreed that Northern will, as soon as possible, file revised rate schedules to be made effective by Commission order as of 8:00 a. m., December 27, 1953, thereby superseding the proposed Fourth Revised Sheets Nos. 5, 12, 13, and 14, as filed on June 26, 1953; and Northern shall file such other revised tariff sheets as may be necessary to conform its FPC Gas Tariff to the provisions of the order accompanying the aforementioned Opinion No. 228, with particular reference to Appendix A attached thereto and made a part thereof, excepting only the level of rates.

[1] By letter dated December 28, 1953, Staff Counsel had advised each of the parties to this proceeding of the intention to move for a recess of the hearing to permit conferring for this purpose.

[2] Computed on Northern's and utilities' estimates of total annual sales of 234,588,200 Mcf for the year ending December 26, 1954, and 9,541,453 Mcf of billing demand units, based upon an 80 percent ratchet of contract demand.

The rate levels of Northern to be embodied in the schedules to be filed, as agreed upon by all parties, are as follows:

Type of service	Rate schedule	Demand charge	Commodity charge per Mcf
Contract demand.	CD-1	$2.21 per month per Mcf of billing demand based on an 80 percent ratchet.	Cents 22.1
Interruptible overrun.	R-1	.....	24.1

These rates would produce an estimated increase of $6,006,254 in revenues from Northern's jurisdictional sales over the estimated revenues which would be produced under the rates in effect on December 26, 1953.

Northern agreed that the revised rate schedules to be filed pursuant to the agreement and this order to be effective on and after December 27, 1953, shall continue in effect through December 26, 1954, at least, unless prior to December 27, 1954, the price payable by Northern, or its subsidiaries, Permian Basin Pipeline Company (Permian) and Independent Natural Gas Company (Independent), to present suppliers of natural gas shall be increased by proper order of the Corporation Commission of Oklahoma, the State Corporation Commission of Kansas, or other State authority having comparable jurisdiction. In such event it is agreed that Northern may file with the Federal Power Commission in accordance with § 154.63 of the Commission's general rules and regulations proposed revised schedules containing increased rates designed solely to provide increased revenues during the test period ending December 26, 1954, sufficient only to off-set the reasonably estimated additional cost of gas purchased during that period and to be effective prior to December 27, 1954. It was also agreed that if a filing is made by Northern pursuant to and in accordance with this part of the agreement, no party to these proceedings will interpose any objection to such filing.

It was further agreed by all parties in the proceedings:

(a) That, in the event that the average effective Federal income tax rate payable is less than 52 percent for the year 1954, which was the rate used for computing this tax in the cost of service agreed upon, Northern will forthwith: (1) File revised schedules covering its Contract Demand (CD–1) and Interruptible Over-Run (R–1) Service, subject to the jurisdiction of the Commission, which revised schedules will reflect the decrease in Federal income taxes computed by reason of a change in the tax rate of 52 percent used in this settlement; and (2) refund to those entitled thereto monies representing the difference between Federal income tax computed at 52 percent on revenues received under the rates specified to be filed pursuant to this settlement, subject to the jurisdiction of the Commission, and the Federal income tax recomputed on such revenues, for the period commencing December 27, 1953, and ending on the effective date of the revised schedules filed pursuant to this part of the agreement. Such decrease attributable to utility customers shall be apportioned between said two rate schedules and said refunds shall be distributed pro rata among the utility customers according to the revenues contributed by them during the period covered by such refunds.

(b) That the rates to be made effective as of December 27, 1953, pursuant to the agreement have been computed on the basis of the so-called Texas Gathering Tax in the amount of 4½ mills per Mcf of gas purchased by Northern, or its subsidiaries Permian and Independent, in the State of Texas. That, if said tax, which is presently the subject of litigation, is held to be invalid by the final judgment of a court of competent jurisdiction, Northern, upon receipt of any refunds of such tax which have been paid by Northern, or its subsidiaries Permian and Independent, on gas purchased on and after December 27, 1953, and later sold in interstate commerce to Northern's customers for resale, will distribute the amounts refunded in respect to such gas among said customers, without additional cost or liability to Northern. It is agreed that such distribution shall be in proportion to the total volume of gas purchased from Northern during the period from and after December 27, 1953.

That, if such tax be invalidated, then in reference to its sales of natural gas subject to the jurisdiction of the Federal Power Commission, Northern will, within ninety (90) days from the date of such invalidation file a reduction in its Rate Schedules CD–1 and R–1 equal to the saving resulting from such invalidation, subject to such sales, such reduction to be retroactively effective to the date of such invalidation: *Provided, however*, That in the event that prior to December 27, 1954, the Texas Legislature should pass a new Texas Gathering or similar tax, Northern will not be required to make such filing, and, if Northern has made such filing, no party will object to Northern's being permitted to withdraw the reduced filing, or to a new filing offsetting such reduced filing.

(c) That there is included in Northern's agreed over-all cost of service of $88,584,957 an amount of $37,826,207 for the cost of gas to be purchased during the twelve-month test period ending December 31, 1954. That in the event subsequent action by this Commission results in refunds to Northern of any portion of monies paid by Northern, or its subsidiaries, to their suppliers of natural gas under the terms of existing contracts, or because of orders of the Corporation Commission of Oklahoma and the State Corporation Commission of Kansas, or other State authority having comparable jurisdiction, such refunds accruing to Northern, or its subsidiaries, related to volumes purchased for resale to utility customers shall be distributed among Northern's utility customers, without additional cost or liability to Northern. It is also agreed that such distribution shall be in proportion to the total volume of gas purchased from Northern during the period from and after December 27, 1953.

It was further agreed by all parties that the proposed settlement, if accepted by the Commission, would dispose of all matters involved and issues presented in this proceeding, excepting the single issue respecting zones of service and differentials in rates between zones; that further hearings herein respecting such issue should be had at the earliest practicable date and the cost of service hereinbefore set forth and agreed upon for the purposes of this settlement shall be used to the extent that cost of service is involved.

Furthermore, it was agreed that the decision of the Commission respecting such issue of service zones and rate differentials, if it requires a change in the revised rate schedules filed pursuant to this agreement, shall not be made effective prior to December 27, 1954, nor result in revenues less than the agreed cost of service. It is also agreed that, if so required by decision of the Commission on further hearings herein, Northern shall incorporate in any revised rate schedules filed to become effective on or after December 27, 1954, the methods and principles found by the Commission, subject to judicial review, to be proper as to zones and rate differentials, with due regard to the recovery of reasonable cost of service.

On December 28, 1953, Northern filed a motion, pursuant to section 4 (e) of the act, to effectuate, as of December 27, 1953, those changes in rates, charges, classifications and services proposed in the aforesaid Fourth Revised Sheets Nos. 5, 12 and 13, or, in lieu thereof, to effectuate as of December 27, 1953, Fourth Revised Sheet No. 5 and Substitute Fourth Revised Sheets Nos. 12 and 13. The two last-mentioned substitute sheets were initially filed with said motion and are proposed to be made effective in accordance with § 154.66 of the Commission's general rules and regulations.

On October 26, 1953, in the course of hearings herein, the participating interveners moved the Commission to dismiss Northern's proposed rate increases. On December 8, 1953, Staff Counsel filed a Motion for an Interim Order Fixing Maximum Rates.

Since the Commission has not acted on any of said motions, the parties hereto have agreed that action thereon is neither required nor desired if the proposed settlement is accepted by the Commission.

The Commission finds:

(1) The proposed settlement of the rate proceedings on the basis heretofore described, subject to the terms and conditions hereinafter ordered, is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act and should be approved and made effective as hereinafter provided and ordered.

(2) In the event that the average effective Federal income tax payable by Northern is less than 52 percent for the year 1954, Northern should forthwith:

(a) File revised schedules covering its Contract Demand (CD–1) and Interruptible Over-Run (R–1) Service, subject to the jurisdiction of the Commission, which revised schedules shall reflect the decrease in Federal income taxes computed by reason of a change in the tax rate of 52 percent used in this settlement; and

(b) Refund to those entitled thereto monies representing the difference between Federal income tax computed at 52 percent on revenues received under the rates hereinafter ordered, subject to the jurisdiction of the Commission, and the Federal income tax recomputed on such revenues, for the period commencing December 27, 1953, and ending on the effective date of the revised schedules filed pursuant to subparagraph (a) above. Such decrease attributable to utility customers shall be equitably apportioned between said two rate schedules and said refunds shall be distributed pro rata among the utility customers according to the revenues contributed by them during the period covered by such refunds.

(3) If the so-called Texas gathering tax is held invalid by the final judgment of a court of competent jurisdiction, Northern, upon receipt of any refunds of such tax which have been paid by Northern, or its subsidiaries, Permian and Independent, on gas purchased on and after December 27, 1953, and later sold in interstate commerce to Northern's customers for resale, should distribute the amounts refunded in respect to such gas among said customers, without additional cost or liability to Northern. Such distribution shall be in proportion to the total volume of gas purchased from Northern during the period from and after December 27, 1953. Further, if such tax be invalidated, Northern should, in reference to its sales of natural gas subject to the jurisdiction of the Commission, within ninety (90) days from the date of such invalidation, file a reduction in its Rate Schedules CD–1 and R–1 equal to the saving resulting from such invalidation, subject to such sales, such reduction to be retroactively effective to the date of such invalidation: *Provided, however*, That in the event that prior to December 27, 1954, the Texas legislature should pass a new Texas Gathering or similar tax, Northern should not be required to make such filing.

(4) In the event subsequent action by this Commission results in refunds to Northern of any portion of monies paid by Northern, or its subsidiaries, to their suppliers of natural gas under the terms of existing contracts, or because of orders of the Corporaton Commission of Oklahoma and the State Corporation Commission of Kansas, or other State authority having comparable jurisdiction, such refunds accruing to Northern, or its subsidiaries, related to volumes purchased for resale to utility customers, should be distributed among Northern's utility customers, without additional cost or liability to Northern. Such distribution to be in proportion to the total volume of gas purchased from Northern during the period from and after December 27, 1953.

(5) It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act that all the issues in these proceedings, excepting the single issue respecting service zones and differentials in rates in areas served by Northern, be disposed of at this time, and that such remaining issue be and the same is hereby reserved for disposition by further order of the Commission. All parties, including Staff Counsel, have concurred in the waiver and omission of the intermediate decision procedure.

The Commission orders:

(A) Nothern shall, within ten (10) days after the date of issuance of this order, file revised rate schedules, in a form satisfactory to the Commission, superseding the aforementioned Fourth Revised Sheets Nos. 5, 12, 13, and 14 to its FPC Gas Tariff, First Revised Volume No. 2, and Northern shall also file such other revised tariff sheets, in a form satisfactory to the Commission, as may be necessary to conform Northern's said FPC Gas Tariff to the provisions and requirements of the order accompanying the aforesaid Opinion No. 228, with particular reference to Appendix A attached thereto and made a part thereof, excepting only the level of rates. Rate Schedule CD–1 for Contract Demand Service to be filed pursuant hereto shall contain a rate consisting of a demand charge of $2.21 per month per Mcf of billing demand based upon an 80 per cent ratchet of contract demand and a commodity charge of 22.1 cents per Mcf of gas delivered. Rate Schedule R–1 for Interruptible Over-Run Service shall contain a rate of 24.1 cents per Mcf of gas delivered.

(B) The revised tariff sheets to be filed pursuant to paragraph (A) above shall be subject to the conditions described in findings numbered (2) through (4) hereinbefore.

(C) Northern, over the signature of a responsible officer, shall file with the Commission within seven (7) days from the date of the issuance of this order, in writing and under oath, an original and four conformed copies of its acceptance of the terms and conditions of this order.

(D) The record in this proceeding shall remain open for further hearings to be held commencing on March 22, 1954, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., respecting the single remaining issue concerning service zones and differentials in rates in areas served by Northern.

(E) This order is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted against Northern.

Adopted: January 27, 1954.

Issued: January 28, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-2324]

PANHANDLE EASTERN PIPE LINE CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed December 2, 1953, pursuant to section 7 of the Natural Gas Act, to construct and operate certain transmission facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on December 17, 1953 (18 F. R. 8468).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 19, 1954, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however*, That the Commission may, after a non-contested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 27, 1954.

Issued: January 28, 1954.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 30-154]

NORTH CONTINENT UTILITIES CORP.

ORDER DECLARING THAT APPLICANT HAS CEASED TO BE A HOLDING COMPANY

JANUARY 27, 1954.

On February 23, 1950, the Commission, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), approved a plan of reorganization of North Continent Utilities Corporation ("North Continent"), a registered holding company, which plan was ordered enforced by the United States District Court for the District of Delaware by order dated April 4, 1950.

On December 15, 1953, the Commission approved an application-declaration with respect to the distribution by North Continent of its only remaining assets consisting of cash which included $533,639 representing the base cash proceeds from the sale of its only subsidiary, Great Northern Gas Company, Limited, a gas utility.

North Continent having filed an application under section 5 (d) of the act requesting the Commission to declare by order that North Continent has ceased to be a holding company:

The Commission finding that North Continent has ceased to be a holding company and that the registration of North Continent as a holding company shall cease to be in effect:

It is therefore ordered, Pursuant to the provisions of section 5 (d) of the act, that North Continent has ceased to be a holding company and that the registration of North Continent as a holding company shall cease to be in effect.

By the Commission.

CENTRAL MASSACHUSETTS GAS CO. ET AL.

NOTICE OF FILING REGARDING ISSUE AND SALE OF PROMISSORY NOTES TO BANK

JANUARY 28, 1954.

In the matter of central Massachusetts Gas Company, Mystic Valley Gas Company, North Shore Gas Company; File No. 70-3177.

Notice is hereby given that Central Massachusetts Gas Company ("Central Mass"), Mystic Valley Gas Company ("Mystic") and North Shore Gas Company ("North Shore"), public utility subsidiaries of New England Electric System, a registered holding company, have filed a joint declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (the "act"). Declarants have designated sections 6 (a) and 7 of the act and Rule U-42 (b) (2) promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

Under certain bank loan agreements, Central Mass, Mystic and North Shore propose to issue to The National City Bank of New York, from time to time but not later than December 31, 1954, unsecured promissory notes in the respective principal amounts of $700,000, $6,500,000 and $2,200,000. Each of such notes will mature on February 1, 1955, and will bear interest at the rate of 3½ percent per annum. According to the joint declaration, the proceeds derived from the issuance of the proposed notes will be used by Central Mass, Mystic and North Shore for the payment of note indebtedness due March 1, 1954, and outstanding in the respective amounts of $600,000, $5,550,000 and $1,950,000 and for construction and other corporate purposes in the respective amounts of $100,000, $950,000 and $250,000.

At the present time Mystic has pending before the Commission an application-declaration (File No. 70-3172) in which it seeks authority to issue and sell $5,500,000 principal amount of first mortgage bonds and therein states that the proceeds to be derived from such bond sale will be used to pay off its then outstanding note indebtedness. The bank loan agreement entered into by Mystic provides that the proceeds from such bonds financing, together with other funds, if necessary, will be used to pay the notes then outstanding whereupon the bank loan agreement will be terminated and Mystic has stipulated that thereafter all borrowing authority approved by this Commission pursuant to its request in this declaration will cease to exist.

The joint declaration states that incidental services in connection with the proposed note issues will be performed at cost by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $300 for each borrowing company, or an aggregate of $900.

The joint declaration further states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The borrowing companies request that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than February 15, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his request, the reason for such request and the issues of fact or law, if any, raised by the said joint declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after that date, said joint declaration, in whole or in part and as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[File No. 812-838]

SCUDDER FUND OF CANADA, LTD.

NOTICE OF APPLICATION BY CANADIAN INVESTMENT COMPANY FOR ORDER PERMITTING ITS REGISTRATION AND SALE OF ITS SECURITIES IN THE UNITED STATES

JANUARY 28, 1954

Notice is hereby given that Scudder Fund of Canada, Ltd. ("Applicant"), an investment company chartered under The Companies Act of 1934, of Canada, has filed an application, and an amendment thereto, under section 7 (d) of the Investment Company Act of 1940 (the "act") seeking an order of the Commission permitting Applicant to register as an investment company under the act and to make a public offering of its securities in the United States.

Section 7 (d) of the act prohibits a foreign investment company from selling its securities to the public through the mails or any means or instrumentalities of interstate commerce unless the Commission issues a conditional or unconditional order permitting such company to register under the act and to make a public offering of its securities in the United States. To issue such an order the Commission must find that, by reason of special circumstances or arrangements, it is both legally and practically feasible effectively to enforce the provisions of the act against such company and that the issuance of such order is otherwise consistent with the public interest and the protection of investors.

Applicant was organized on June 18, 1953, for the purpose of carrying on business as an investment company, concentrating its investments in securities of issuers substantially engaged in Canadian enterprises. Its authorized capital stock consists of 1,000,000 Common Shares of $1 par value and 1,000 Deferred Shares of $1 par value. Common Shares and Deferred Shares have the same rights except that Deferred Shares have no redemption rights. Applicant does not intend to issue its Deferred Shares. Applicant intends to make an initial public offering of its Common Shares to realize at least $5,000,000. When this amount has been received the Common Shares will become redeemable, pursuant to Applicant's Letters Patent ("Charter"), and Applicant proposes then to operate as a diversified open-end management investment company.

The application contains certain undertakings and agreements which together with the provisions of the Applicant's charter and by-laws are proposed by the Applicant as "special circumstances and arrangements" justifying the entry of the requested order.

Applicant's charter and by-laws contain, in substance and effect, the substantive provisions of the act applicable to closed-end and open-end investment companies. For example, where a provision of the act prohibits action by an investment company, or its directors, officers or employees, the charter or by-laws require that such persons shall refrain from such action; where the prohibition applies to others, the charter or by-laws also state that the company will not permit the prohibited conduct.

Applicant's by-laws also contain, among other things, provisions summarized as follows: (1) That all of it securities and cash, other than cash in an amount not in excess of $10,000, will be maintained in the sole custody of a bank in the United States, with which bank Applicant will also maintain a copy of its books and records; (2) that at least a majority of Applicant's directors and of its officers will be residents and citizens of the United States; (3) that Applicant will retain an independent public accountant with a permanent office and place of business in the United States; (4) that Applicant's investment adviser will maintain its books and records relating to Applicant in the United States; and (5) that Applicant's principal underwriter will be a resident and citizen of the United States. Applicant also agrees that if it makes a continuous public offering of its shares as an open-end company, its principal underwriter will also be a member of the National Association of Securities Dealers, Inc.

Applicant has undertaken and agreed in its application, among other things, (i) that its charter and by-laws will constitute a contract among Applicant, its shareholders, its officers, its directors and the Commission, and that such instruments will not be amended in material respect without permission of the Commission; (ii) that Applicant's present and future officers, directors, investment advisers, principal underwriters and custodian will enter into agreements to comply with the act, applicant's charter, by-laws, and undertakings contained in the instant application; (iii) that Applicant's agreements shall enure to the benefit of Applicant's shareholders as parties and beneficiaries; and (iv) that breach of the aforesaid agreements or violation of the act by any of the contracting parties will permit revocation of the requested order and the liquidation and distribution of Applicant's assets.

Other agreements and undertakings contained in the application are designed to facilitate the enforcement of the act by the Commission or Applicant's shareholders in appropriate courts of the United States or Canada. To that end each of the contracting parties who are not citizens and residents of the United States will appoint, irrevocably, an agent within the United States for service of process. To ensure the applicability of the act to purchases and sales of portfolio securities not made on established securities exchanges, Applicant has agreed that its custodian will consummate such transactions only in the United States and that the mails or means of interstate commerce will be employed.

Applicant states that a "heavy preponderance" of its portfolio securities will be traded on the Montreal or Toronto Stock Exchanges rather than the New York Stock Exchange. In view thereof Applicant seeks exemption from section 22 (e) (1) of the act to the extent that it may be permitted to suspend the right of redemption of its shares to periods when the Montreal or Toronto exchanges are closed as well as when the New York Stock Exchange is closed, as provided in section 22 (e) (1).

Applicant also states that The Companies Act of Canada requires that Applicant's auditors be selected by its shareholders and, therefore, seeks exemption from section 32 (a) of the act to the extent that that section requires such selection be made by Applicant's Board of Directors and ratified (rather than made) by its shareholders.

Notice is further given that any interested person may, not later than March 5, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28858]

WROUGHT IRON PIPE AND RELATED ARTICLES FROM NEW YORK, N. Y., TO SOUTHWESTERN TERRITORY

APPLICATION FOR RELIEF

JANUARY 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Wrought iron or steel pipe and related articles, carloads.

From: New York, N. Y.

To: Points in southwestern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, additional origin.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, ICC No. 3982, supl. 43.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28859]

CAUSTIC SODA FROM OHIO, PENNSYLVANIA, MICHIGAN, AND NEW YORK TO CINCINNATI, OHIO

APPLICATION FOR RELIEF

JANUARY 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Alternate Agent, for carriers parties to schedules listed below.

Commodities involved: Caustic soda (sodium hydroxide) in tank-car loads.

From: Specified points in Ohio, Pennsylvania, Michigan and New York.

To: Cincinnati, Ohio.

Grounds for relief: Competition with rail carriers, circuitous routes, market competition, to maintain grouping.

Schedules filed containing proposed rates: H. R. Hinsch, Alternate Agent, ICC No. 3098, supl. 212, and other carriers listed in the application.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

CAST IRON PIPE FROM RADFORD, VA., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

JANUARY 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Cast iron pipe and related articles, carloads.

From: Radford, Va.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, ICC No. 1374, supl. 15.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [4th Sec. Application 28865]

PHOSPHATE ROCK FROM FLORIDA TO PRAIRIE DU CHIEN, WISCONSIN

APPLICATION FOR RELIEF

JANUARY 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Atlantic Coast Line Railroad Company tariff ICC No. B-3232 and Seaboard Air Line Railroad Company tariff ICC No. A-8153.

Commodities involved: Phosphate rock (other than ground phosphate rock), carloads.

From: Points in Florida.

To: Prairie Du Chien, Wis.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28866]

VARIOUS COMMODITIES FROM SOUTHERN TERRITORY TO SOUTHERN, OFFICIAL, WESTERN TRUNK-LINE AND SOUTHWESTERN TERRITORIES

APPLICATION FOR RELIEF

JANUARY 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to tariffs listed in exhibit "A" of the application, pursuant to fourth section order No. 17220.

Commodities involved: Various commodities, carloads.

From: Points in southern territory.

To: Points in southern, official, western trunk-line and southwestern territories.

Grounds for relief: Competition with rail carriers, circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [4th Sec. Application 28867]

ACID FROM KINGS MILL, TEX., TO ILLINOIS, GEORGIA, LOUISIANA, AND SOUTH CAROLINA

APPLICATION FOR RELIEF

JANUARY 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Acids, viz: butyric, isobutyric and propionic, in packages, in carloads, and in tank-car loads.

From: Kings Mill, Texas.

To: Cairo and Metropolis, Ill., Krannert, Ga., Michoud, La., and Celriver, S. C.

Grounds for relief: Competition with rail carriers, circuitous routes, to apply rates constructed on the basis of the short line distance formula, additional destinations.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, ICC No. 3967, supl. 305.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon

a request filed within that period, may be held subsequently.

TILE FROM CHARLESTON, W. VA., TO AUGUSTA, GA.

APPLICATION FOR RELIEF

JANUARY 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Tile, carloads.

From: Charleston, W. Va.

To: Augusta, Ga.

Grounds for relief: Competition with rail carriers, circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, ICC No. 1127, supl. 36.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. NEWSPRINT PAPER FROM COOSA PINES AND CHILDERSBURG, ALA., TO KANSAS CITY, MO.-KANS.

APPLICATION FOR RELIEF

JANUARY 29, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The St. Louis-San Francisco Railway Company for itself and on behalf of the Central of Georgia Railway Company.

Commodities involved: Newsprint paper, carloads.

From: Coosa Pines and Childersburg, Ala.

To: Kansas City, Mo.-Kans.

Grounds for relief: Competition with rail carriers, market competition, operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [No. 31321]

COAL, LUMBER, AND SCRAP IRON

ALABAMA INTRASTATE RATES AND CHARGES

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 25th day of January A. D. 1954.

It appearing, that an amended petition, dated November 3, 1953, has been filed on behalf of the respondents in the above-entitled proceeding averring that by order of the Public Service Commission of Alabama dated August 24, 1953, in a proceeding entitled Docket 13389, In re: Proposed changes in Alabama intrastate freight rates on scrap iron, carloads, said respondents are required to maintain intrastate rates on scrap iron which are lower than the interstate level and that such rates cause and will continue to cause undue and unreasonable advantage, preference and prejudice as between persons and localities in intrastate commerce in Alabama, on the one hand, and, interstate commerce, on the other hand, and undue, unreasonable, and unjust discrimination against interstate commerce;

It further appearing, that the said amended petition brings in issue freight rates and charges made or imposed by authority of the State of Alabama.

And it further appearing, that in the said amended petition respondents pray for modification and clarification of the original order in this proceeding to the extent necessary to permit consideration of the order of the Public Service Commission of Alabama dated February 27, 1953, in its Docket 12865, Alabama Coal Agency, Incorporated v. Alabama Great Southern Railroad Company et al., in determining whether rates for the intrastate transportation of coal between points in Alabama cause undue prejudice and preference and unjust discrimination under the first ordering paragraph of the original order herein;

It is ordered, That in response to the said amended petition the hearing provided in the first ordering paragraph of the original order herein shall be for the additional purpose of receiving evidence from the respondents and any other persons interested, to determine whether the rates and charges of said respondents, or any of them, for the intrastate transportation of scrap iron between points in Alabama cause, or may cause, any undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce, on the one hand, and, interstate commerce, on the other hand, or any undue, unreasonable, or unjust discrimination against interstate commerce; and to determine what rates and charges, if any, or what maximum, or minimum, or maximum and minimum rates and charges, shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist;

It is further ordered, That nothing in the original order shall be interpreted as barring consideration of any order or decision of the Public Service Commission of Alabama which requires respondents to maintain the intrastate rates involved in this proceeding.

It is further ordered, That a copy of this order be served upon each of the respondents, and that the State of Alabama be notified of the action herein taken by sending copies of this order by registered mail to the Governor of said State and to the Public Service Commission of Alabama;

And it is further ordered, That a copy of this order be deposited in the office of the Secretary of the Commission at Washington, D. C., and a copy filed with the Director, Division of the Federal Register, Washington, D. C.

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD, *Secretary.*

FEDERAL REGISTER

VOLUME 19 NUMBER 24

Washington, Thursday, February 4, 1954

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter H—Determination of Wage Rates

[Sugar Determination 867.6]

PART 867—SUGARCANE; PUERTO RICO

FAIR AND REASONABLE WAGE RATES; CALENDAR YEAR 1954

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation, and consideration of the evidence obtained at the public hearing held in San Juan, Puerto Rico, on October 22 and 23, 1953, the following determination is hereby issued:

§ 867.6 *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in Puerto Rico during the calendar year 1954*—(a) *Requirements.* The requirements of section 301 (c) (1) of the act shall be deemed to have been met with respect to the production, cultivation, or harvesting of sugarcane in Puerto Rico for the calendar year 1954 if the producer complies with the following:

(1) *Wage rates.* All persons employed on the farm in the production, cultivation, or harvesting of sugarcane shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates as agreed upon between the producer and the worker, but after the date of issuance of this section, not less than the following:

(i) *Day rates*—(a) *Basic rates.* The basic day rate for the first 8 hours of work performed in any 24-hour period (except that for ditch diggers, ditch cleaners, or field flooders in Class E, as shown in the table below, the applicable day rate shall be for the first 7 hours of work performed in any 24-hour period) shall be as follows:

Class of work	Basic rates per day
A. All kinds of work not classified below	$2.60
B. Operators of mechanical equipment, such as tractors, trucks, tractor plows	3.55
C. Cartmen in cultivation work	2.70
D. Plow steersmen and operators of irrigation pumps, and all work connected with mixing and applying chemical weed killers	2.95
E. Ditch diggers, ditch cleaners, field flooders (per 7-hour day) [1]	2.95
F. Cartmen in harvest work	3.15
G. Sugarcane cutters (for grinding or planting), seed cutters, crane operators, dumpers	2.95
H. Portable track handlers, railroad or portable track car loaders	3.15
I. Cane cart or truck loaders	3.05

[1] Field flooders shall be deemed to be workers who set up or remove banks in drainage ditches when used for flooding sugarcane fields.

(b) *Wage increases.* For each 10 cents or fraction thereof that the price of raw sugar (duty paid basis, delivered) averages more than $5.50 per one hundred pounds, but not more than $7.00 per one hundred pounds for the four-week period immediately preceding the four-week period during which the work is performed, a wage increase of 6.5 cents per day above the rate prescribed under (a) of this subdivision shall be paid for each day of work during such four-week period: *Provided*, That the average price of raw sugar prevailing during the period from December 3 through December 30, 1953 shall determine the amount of wage increase effective during the work period January 1 through January 27, 1954, and thereafter the amount of wage increases in successive four-week work periods shall be determined by the average price of raw sugar prevailing in the immediately preceding four-week period. The four-week average price of raw sugar (duty paid basis, delivered) shall be determined by taking the simple average of the daily spot quotations of 96° raw sugar of the New York Coffee and Sugar Exchange (domestic contract) expressed in terms of a one hundred pound unit and adjusted to a duty paid basis, delivered, by adding to each daily quotation the United States duty prevailing on Cuban raw sugar on that day, except that, if the Director of the Sugar Division, Commodity Stabilization Service, determines that for any four-week period such average price does not reflect the true market value of raw sugar, because of inadequate volume or other factors, the Director may designate the average price to be effective under this section.

Part 16	652

(ii) *Hourly rates.* Where persons are employed on an hourly basis for a period not in excess of 8 hours (7 hours in Class E) in any 24-hour period, the hourly rate shall be determined by dividing the applicable day rate provided in subdivision (i) of this subparagraph by 8 (by 7 in Class E).

(iii) *Overtime.* Persons employed for more than 8 hours (or 7 hours in Class E) in any 24-hour period shall be paid for the overtime work at a rate double the applicable hourly rate provided in subdivision (ii) of this subparagraph

(iv) *Piecework rates.* If work is performed on a piecework basis, the average earnings for the time involved on each separate unit of work for which a piecework rate is agreed upon shall be not less than the applicable daily or hourly rate provided in subdivisions (i), (ii), and (iii) of this subparagraph

(2) *Compensable working time.* For work performed under subparagraph (1) of this paragraph, compensable working time includes all time which the worker spends in the performance of his duties except time taken out for meals during the work day. Compensable working time commences at the time the worker is required to start work in the field and ends upon completion of work in the field. However, if the producer requires the operator of mechanical equipment, driver of animals or any other class of worker to report to a place other than the field, such as an assembly point,

stable, tractor shed, etc., located on the farm, time spent in transit to and from the field is compensable working time. Any time spent in performing work directly related to the principal work performed by the worker such as servicing equipment, is compensable working time. Time of the worker while being transported from a central recruiting point or labor camp to the farm is not compensable working time.

(3) *Perquisites.* In addition to the foregoing, the producer shall furnish to the worker, without charge, the perquisites customarily furnished by him such as a dwelling, garden plot, pasture lot and medical services.

(b) *Subterfuge.* The producer shall not reduce wage rates to workers below those determined in this section through any subterfuge or device whatsoever.

(c) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this section may file a wage claim with the Caribbean Area Agricultural Stabilization and Conservation Office, San Juan, Puerto Rico, against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed. Detailed instructions and wage claim forms are available at that office. Upon receipt of a wage claim the Caribbean Area Office shall thereupon notify the producer against whom the claim is made concerning the representation made by the worker and, after making such investigation as it deems necessary, shall notify the producer and worker in writing of its recommendation for settlement of the claim. If the recommendation of the Area Office is not acceptable, either party may file an appeal with the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. Such appeal shall be filed within 15 days after receipt of the recommended settlement from the Area Office; otherwise such recommended settlement will be applied in making payments under the act. If a claim is appealed to the Director of the Sugar Division, his decision shall be binding on all parties insofar as payments under the act are concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable wage rates which a producer must pay, as a minimum, for work performed by persons employed on the farm in the production, cultivation, or harvesting of sugarcane in Puerto Rico during the calendar year 1954, as one of the conditions for payment under the act.

(b) *Requirements of the act and standards employed.* In determining fair and reasonable wage rates the act requires that a public hearing be held, that investigations be made, and that consideration be given to (1) the standards formerly established by the Secretary under the Agricultural Adjustment Act, as amended, and (2) the differences in conditions among various sugar producing areas.

A public hearing was held in San Juan, Puerto Rico, October 22 and 23, 1953, at which interested persons presented testimony with respect to fair and reasonable wage rates for the calendar year 1954. In addition, investigations have been made of the conditions affecting wage rates in Puerto Rico. In this determination the primary factors which have been considered are (1) cost of living; (2) prices of sugar and byproducts; (3) income from sugar; and (4) cost of production. Other economic influences also have been considered.

(c) *1954 wage determination.* This determination differs from the 1953 determination in the following respects: (1) Basic wage rates per day are stated at a raw sugar price level of $5.50 per one hundred pounds rather than $5.00; (2) the wage rates at the $5.50 price level are increased about 5 percent for all workers or in amounts ranging between 14 and 16 cents per 8-hour day (7-hour day for Class E workers); (3) the amount of the wage increase in the wage-price escalator is increased from 6 cents to 6½ cents per day; (4) the periods during which average raw sugar prices are determined and wage rates effective are extended from two weeks to four weeks; and (5) a provision is added defining compensable working time.

At the public hearing representatives of producer organizations and individual producers recommended no change in wage rates for two principal reasons: (1) That a large segment of the industry has a collective bargaining agreement with organized labor which does not expire until the end of 1954; and (2) an analysis by industry of the application of the standards considered by the Secretary of Agriculture in promulgation of the wage determinations affecting sugarcane production in Puerto Rico does not justify any wage increase. The industry representatives in consideration of suggestions made in the notice of hearing recommended, a four-week wage-price period in the wage-price escalator; a definition of compensable working time; and no provision be made for furnishing to workers equipment necessary to perform work assignments. A number of recommendations were made by representatives of labor unions for increasing the annual income of workers for the purpose of improving their standard of living. The representative of one labor union recommended an annual guaranteed wage for regular workers based on family budget requirements. For transient labor in the various job classifications he recommended daily wages approximately double the wage rates provided in this determination at the base raw sugar price level. Another recommendation was the specific addition of certain categories of skilled workers in the determination rate schedule. In a supplemental brief this representative recommended an examination of the concept of the term "fair and reasonable" as used in wage determinations and urged that such rates be higher than those which are merely "not oppressive." The union representative recommended the adoption of the definition of compensable working time, the provision for the furnishing of working tools necessary in the performance of work assignments and that the two-week wage and price periods of the wage-price escalator be continued. Other labor union recommendations included minimum wages of $4.00 and $5.00 per day; an increase in the amount of wage increment in the wage-price escalator from 6 cents to 7½ cents per 8-hour day; and the elimination of a work category for herbicide applicators.

Consideration has been given to the recommendations made at the hearing and in supplemental briefs, to current crop and price conditions, to anticipated costs, returns and profits to producers, to living costs of workers, to the impact of changes occurring in the production methods in Puerto Rico and to other pertinent factors. The analysis indicates that the increase provided in this determination will be within producers' ability to pay under conditions likely to prevail during 1954.

Although improvements in average labor productivity have made possible moderate increases in wages in recent years, wage rates in Puerto Rico are low in comparison with wages paid in other major domestic producing areas. One of the reasons for this is the high labor requirements per unit of production. However, there are broad opportunities for further improvements in production methods through cooperation of both workers and producers. The adoption and utilization of more efficient production methods will benefit producers and workers by lowering labor costs per unit of production and making possible higher wage levels.

The raising of the raw sugar base price at which the wage-price escalator becomes operative from $5.00 to $5.50 per hundred pounds of raw sugar gears base wages to a sugar price level which is more closely related to market prices. The wage-income relationship at the new level is slightly higher after consideration is given to the increases provided in this determination.

The price and wage periods of the wage-price escalator have been extended from two to four weeks to lengthen the periods in which the wage increase remains constant and to reduce the frequency of changes in wages. The lengthening of the periods should not adversely affect long term wage relationships.

Compensable working time is defined so that producers and workers may have full knowledge of this minimum requirement. It conforms with general practices currently prevailing in Puerto Rico. The provision suggested in the hearing notice with respect to the furnishing of equipment necessary in the performance of work assignments has not been adopted because testimony at the hearing indicated that workers generally furnished small hand tools which they prefer to keep in their possession for performing chores not related to work in the sugarcane fields.

After full consideration of all information available, the wage rates provided in this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup. 1131)

Issued this 29th day of January 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[Sugar Determination 868.6]

PART 868—SUGARCANE; VIRGIN ISLANDS

FAIR AND REASONABLE WAGE RATES; CALENDAR YEAR 1954

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948, as amended, (herein referred to as "act"), after investigation, and consideration of the evidence obtained at the public hearing held in Christiansted, St. Croix, Virgin Islands, on October 26, 1953, the following determination is hereby issued.

§ 868.6 *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in the Virgin Islands during the calendar year 1954*—(a) *Requirements.* The requirements of section 301 (c) (1) of the act shall be deemed to have been met with respect to the production, cultivation, or harvesting of sugarcane in the Virgin Islands for the calendar year 1954, if the producer complies with the following:

(1) *Wage rates.* All persons employed on the farm in the production, cultivation, or harvesting of sugarcane shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates as agreed upon between the producer and the laborer, but after the date of issuance of this determination, not less than the following:

(i) *Basic time rates.* The basic rates per hour for the first 8 hours of work performed in any 24-hour period shall be as follows:

Class of worker	Basic rate per hour
A. Operators of mechanical loaders	$0.65
B. Operators of tractors and trucks	.50
C. Chemical sprayers	.43
D. All others	.40

(ii) *Apprentice operators of mechanical loaders and tractors.* For a learner or apprentice the hourly wage rate for Class A work in subdivision (i) of this subparagraph may be reduced by not more than 15 cents per hour and the hourly rate for Class B tractor driver work in subdivision (i) of this subparagraph may be reduced by not more than 10 cents per hour: *Provided*, That the training period for such workers shall not exceed six work-weeks and: *Provided further*, That the employer shall have available for examination by the local supervisor of the Caribbean Area Agricultural Stabilization and Conservation Office, San Juan, Puerto Rico (hereinafter referred to as "Area Office"), a copy of the certificate of learner or apprentice status issued by the St. Croix Municipal Wage Commissioner in accordance with the provisions of section 6 (a) of St. Croix Municipal Council Bill No. 43, passed July 3, 1952.

(iii) *Handicapped workers.* For an individual whose productive capacity is impaired by age or physical or mental deficiency the hourly wage rates provided under subdivision (i) of this subparagraph may be decreased by not more than one-third: *Provided*, That the employer shall have available for examination by the local supervisor of the Area Office, a copy of the certificate of individual worker impairment issued by the St. Croix Municipal Council Wage Commissioner in accordance with the provisions of section 6 (a) of St. Croix Municipal Council Bill No. 43, passed July 3, 1952.

(iv) *Overtime.* Persons employed in excess of 8 hours in any 24-hour period or in excess of 44 hours in any one week shall be paid for the overtime work at a rate not less than one and one-half times the applicable hourly rate provided in subdivisions (i), (ii), and (iii) of this subparagraph: *Provided*, That this provision shall be inapplicable to workers who are employed under extraordinary emergencies as defined in section 4 (c) of St. Croix Municipal Council Bill No. 2, passed January 5, 1950.

(v) *Piecework rates.* If work is performed on a piecework basis, the rate shall be as agreed upon between the producer and the laborer: *Provided*, That the hourly rate of earnings for each worker for the time involved on each separate unit of work for which a piecework rate is agreed upon shall be not less than the applicable hourly rate provided under subdivisions (i), (ii), (iii), and (iv) of this subparagraph.

(2) *Compensable working time.* For work performed under subparagraph (1) of this paragraph, compensable working time includes all time which the worker spends in the performance of his duties except time taken out for meals during the work day. Compensable working time commences at the time the worker is required to start work in the field and ends upon completion of work in the field. However, if the producer requires the operator of mechanical equipment, driver of animals, or any other class of worker to report to a place other than the field, such as an assembly point, stable, tractor shed, etc., located on the farm, time spent in transit to and from the field is compensable working time. Any time spent in performing work directly related to the principal work performed by the worker such as servicing equipment, is compensable working time. Time of the worker while being transported from a central recruiting point or labor camp to the farm is not compensable working time.

(b) *Subterfuge.* The producer shall not reduce the wage rates to laborers below those determined herein through any subterfuge or device whatsoever.

(c) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this determination may file a wage claim with the Caribbean Area Agricultural Stabilization and Conservation Office, San Juan, Puerto Rico, against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed. Detailed instructions and wage claim forms are available at that office. Upon receipt of a wage claim the Area Office shall thereupon notify the producer against whom the claim is made concerning the representation made by the laborer and, after making such investigation as it deems necessary, shall notify the producer and laborer in writing of its recommendation for settlement of the claim. If the recommendation of the Area Office is not acceptable, either party may file an appeal with the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. Such appeal shall be filed within 15 days after receipt of the recommended settlement from the Area Office; otherwise, such recommended settlement will be applied in making payment under the act. If a claim is appealed to the Director of the Sugar Division, his decision shall be binding on all parties insofar as payment under the act is concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable wage rates which a producer must pay, as a minimum, for work performed by persons employed on the farm in the production, cultivation, or harvesting of sugarcane in the Virgin Islands during the calendar year 1954, as one of the conditions for payment under the act.

(b) *Requirements of the act.* In determining fair and reasonable wage rates, the act requires that a public hearing be held, that investigations be made, and that consideration be given to (1) the standards formerly established by the Secretary under the Agricultural Adjustment Act, as amended, (i. e. cost of living, prices of sugar and by-products, income from sugarcane and cost of production), and (2) the differences in conditions among the various sugar producing areas.

(c) *1954 wage determination.* This determination differs from the 1953 determination in three respects: (1) A provision has been added which permits producers to employ apprentice operators of mechanical loaders and tractors at reduced rates for a training period of not more than 6 weeks upon certification of the St. Croix Municipal Wage Commissioner; (2) compensable working time of the workers is defined; and (3) the perquisite provision is omitted. All other provisions of the 1953 determination continue unchanged.

A public hearing was held in Christiansted, St. Croix, Virgin Islands, on October 26, 1953, at which interested persons presented testimony with respect to fair and reasonable wage rates for the calendar year 1954. At the hearing a representative of the Virgin Islands Corporation made three principal recommendations: (1) The addition of wage rates for apprentice operators of mechanical loaders at 50 cents per hour and apprentice tractor drivers at 40 cents per hour, both to be limited to a six-week training period; (2) the broadening of the handicapped worker provision of the determination so that handicapped workers might be defined to include piecework employees who had failed to earn the hourly wage rate for a one week period; and (3) change the perquisite provision of the determination to stipulate that the producer shall furnish to the laborer, when available, houses and a garden plot at a nominal charge. A representative of the labor union recommended an increase of 10 cents per hour in the wage rates to compensate for the proposed rental charge for houses furnished workers. This representative also recommended that the piecework rate for cutting sugarcane negotiated by the union and the Virgin Islands Corporation be increased 20 cents per ton.

Consideration has been given to the recommendations made; to the economic position of producers and workers; to information resulting from investigations; to the required standards; and to other pertinent factors. An examination of the operations of the Island's largest employer—the federally-owned Virgin Islands Corporation—shows that recent improved production methods have increased average labor productivity and lowered the annual losses incurred in sugar operations. In 1950 and in 1952 the Municipal Council of St. Croix enacted minimum wage legislation which prescribed substantially higher wage minimums than had been in effect in prior years. These minimums were higher than those indicated by application of standards customarily considered in wage determinations under the Sugar Act. Wage determinations have conformed to the Council's minimum wage levels inasmuch as the Sugar Act requires payment of wages "in full" of agreed upon rates or determination rates whichever are higher. Such action had the effect of providing a uniform compliance standard for all producers since the Virgin Islands Corporation is not subject to local ordinances as are other producers.

The wage provision for apprentice operators of mechanical loaders and tractors for a six-week training period and the certification of such apprentices by the Wage Commissioner of the Island of St. Croix is in general conformity with the Island's minimum wage law. It provides a reasonable experience differential and reduces costs under high labor turnover. The provision for compensable working time is in conformity with practices followed and makes knowledge of this minimum requirement available to all producers and workers. The recommendation of the representative of the Virgin Islands Corporation to permit producers to employ workers at a reduced wage rate under the handicapped worker's provision of the determination, upon receipt of a worker's statement that he has been unable to earn at piecework during one week the minimum hourly rate of 40 cents per hour, has not been adopted because adequate provision is made in the local ordinance for certification of handicapped workers by the Wage Commissioner of the Island of St. Croix.

The perquisite provision is omitted because the Virgin Islands Corporation is required by applicable federal statutes and regulations to make a nominal charge for quarters furnished to resident employees. Medical services furnished workers in the past have been limited to accident compensation which will continue to be carried without cost to workers. An adjustment in wage rates is not made to compensate for the contemplated rental charge for the reason that the minimum wage increases established by local ordinance are in excess of rates indicated by standards customarily used in wage determinations under the act.

After consideration of all factors, the wage rates and other provisions in this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provision of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup. 1131)

Issued this 29th day of January 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[ACP-1954-P. R., Supp. 1]

PART 1102—AGRICULTURAL CONSERVATION; PUERTO RICO

EXCESS COTTON ACREAGE

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, the Department of Agriculture Appropriation Act, 1954, and section 348 of the Agricultural Adjustment Act of 1938, as amended, the 1954 Agricultural Conservation Program: Puerto Rico, issued December 17, 1953 (18 F. R. 8627), is amended as follows:

A new § 1102.446 is added as follows:

§ 1102.446 *Excess cotton acreage.* (a) Any person who makes application for payment of cost-shares with respect to any farm located in a district in which any kind of cotton is planted in 1954 shall file with such application a statement that he has not knowingly planted any kind of cotton or caused any kind of cotton to be planted during 1954 on any farm in which he has an interest in excess of the 1954 acreage allotment established for the farm for such kind of cotton under the Agricultural Adjustment Act of 1938, as amended.

(b) Any person who knowingly plants any kind of cotton or causes any kind of cotton to be planted on his farm in 1954 in excess of the 1954 acreage allotment for the farm for such kind of cotton under the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment of cost-shares whatsoever on that farm or on any other farm under 1954 programs authorized by sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended. Cotton of any kind shall not be deemed to have been planted on any farm in excess of the farm acreage allotment for such kind of cotton if, after the acreage originally planted to such kind of cotton has been determined and notice thereof sent to the operator of the farm, the acreage planted to such kind of cotton is adjusted to the farm acreage allotment for such kind of cotton in the period allowed under the notice. If the operator is notified that the acreage allotment for any kind of cotton has been exceeded and the acreage planted to such kind of cotton is not adjusted to such acreage allotment in the period allowed under the notice, the acreage allotment for such kind of cotton shall be deemed to have been knowingly exceeded by all producers having an interest in such kind of cotton on the farm. Notice of overplanting to the operator of the farm shall be deemed to be notice to all persons sharing in the production of any kind of cotton on the farm.

(c) For the purposes of this section "kind of cotton" shall be upland cotton or extra long staple cotton.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7-17, 49 Stat. 1148, as amended, sec. 348, 52 Stat. 59, as amended, Pub. Law 156, 83d Cong.; 7 U. S. C. 1348, 16 U. S. C. 590g-590q)

Done at Washington, D. C., this 29th day of January 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[ACP-1954—Alaska, Supp. 1]

PART 1104—AGRICULTURAL CONSERVATION; ALASKA

EXCESS COTTON ACREAGE

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, the Department of Agriculture Appropriation Act, 1954, and section 348 of the Agricultural Adjustment Act of 1938, as amended, the 1954 Agricultural Conservation Program; Alaska, issued December 11, 1953 (18 F. R. 8260), is amended as follows:

A new § 1104.345 is added as follows:

§ 1104.345 *Excess cotton acreage.* (a) Any person who knowingly plants any kind of cotton or causes any kind of cotton to be planted on his farm in 1954 in excess of the 1954 acreage allotment for the farm for such kind of cotton under the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment of cost-shares whatsoever on that farm or on any other farm under 1954 programs authorized by sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act,

as amended. Cotton of any kind shall not be deemed to have been planted on any farm in excess of the farm acreage allotment for such kind of cotton if, after the acreage originally planted to such kind of cotton has been determined and notice thereof sent to the operator of the farm, the acreage planted to such kind of cotton is adjusted to the farm acreage allotment for such kind of cotton in the period allowed under the notice. If the operator is notified that the acreage allotment for any kind of cotton has been exceeded and the acreage planted to such kind of cotton is not adjusted to such acreage allotment in the period allowed under the notice, the acreage allotment for such kind of cotton shall be deemed to have been knowingly exceeded by all producers having an interest in such kind of cotton on the farm. Notice of overplanting to the operator of the farm shall be deemed to be notice to all persons sharing in the production of any kind of cotton on the farm.

(b) For the purposes of this section "kind of cotton" shall be upland cotton or extra long staple cotton.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7–17, 49 Stat. 1148, as amended, sec. 348, 52 Stat. 59, as amended, Pub. Law 156, 83d Cong.; 7 U. S. C. 1348, 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 29th day of January, 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[ACP-1954—Hawaii, Supp. 1]

PART 1105—AGRICULTURAL CONSERVATION; HAWAII

EXCESS COTTON ACREAGE

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, the Department of Agriculture Appropriation Act, 1954, and section 348 of the Agricultural Adjustment Act of 1938, as amended, the 1954 Agricultural Conservation Program; Hawaii, issued December 11, 1953 (18 F. R. 8265), is amended as follows:

A new § 1105.359 is added as follows:

§ 1105.359 *Excess cotton acreage.* (a) Any person who knowingly plants any kind of cotton or causes any kind of cotton to be planted on his farm in 1954 in excess of the 1954 acreage allotment for the farm for such kind of cotton under the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment of cost-shares whatsoever on that farm or on any other farm under 1954 programs authorized by sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended. Cotton of any kind shall not be deemed to have been planted on any farm in excess of the farm acreage allotment for such kind of cotton if, after the acreage originally planted to such kind of cotton has been determined and notice thereof sent to the operator of the farm, the acreage planted to such kind of cotton is adjusted to the farm acreage allotment for such kind of cotton in the period allowed under the notice. If the operator is notified that the acreage allotment for any kind of cotton has been exceeded and the acreage planted to such kind of cotton is not adjusted to such acreage allotment in the period allowed under the notice, the acreage allotment for such kind of cotton shall be deemed to have been knowingly exceeded by all producers having an interest in such kind of cotton on the farm. Notice of overplanting to the operator of the farm shall be deemed to be notice to all persons sharing in the production of any kind of cotton on the farm.

(b) For the purposes of this section "kind of cotton" shall be upland cotton or extra long staple cotton.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7–17, 49 Stat. 1148, as amended, sec. 348, 52 Stat. 59, as amended, Pub. Law 156, 83d Cong.; 7 U. S. C. 1348, 16 U. S. C. 590g–590q)

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Rev., Amdt. 18]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

DESIGNATION OF AREAS IN WHICH SWINE ARE AFFECTED WITH VESICULAR EXANTHEMA

Pursuant to the authority conferred upon the Administrator of the Agricultural Research Service by § 76.27 of Subpart B, as amended, Part 76, Title 9, Code of Federal Regulations (18 F. R. 3637), § 76.27a of said Subpart B (18 F. R. 3829, as amended) is hereby amended to read as follows:

§ 76.27a *Designation of areas in which swine are affected with vesicular exanthema.* The following areas in the specified States are hereby designated as areas in which swine are affected with vesicular exanthema:

California

The entire State of California.

Connecticut

The Town of Manchester in Hartford County.

Maine

The Town of Lewiston in Androscoggin County.

That area consisting of the towns of Portland, South Portland, Westbrook, Cape Elizabeth, and Scarboro, in Cumberland County, and the Towns of Saco, Biddeford, Kennebunk, Alfred, and Sanford in York County.

That area consisting of the Towns of Cumberland and Yarmouth in Cumberland County.

That area consisting of the Towns of Chelsea and Hallowell in Kennebec County.

Massachusetts

That area consisting of Bristol, Essex, Hampden, Plymouth, and Suffolk Counties

All of Middlesex County except that part of the Town of Billerica lying northeast of U. S. Route No. 3, northwest of Andover Road, south of Dudley Road, west of Concord Road, east of Lexington Road, and southwest of U. S. Route No. 3; that part of the Town of Burlington lying southwest of U. S. Route No. 3, southeast of Francis Wyman Road, north of Bedford Street, southeast of Dug Way, northeast of Winn Street, and northwest of Peach Orchard Road; the Town of Carlisle; that part of the Town of Dracut lying east of Gumpas Avenue and west of Mammoth Road; that part of the Town of Hudson lying west of Chapin Street, northwest of Brigham Street and the Assabet River; that part of the Town of Lexington lying west of Westview Road and south of State Routes No. 4 and 25; that part of the Town of North Reading lying north of State Route No. 62 and east of State Route No. 28; that part of the Town of Tewksbury lying northwest of the Shawsheen River, northeast of State Route No 38, and south of Salem Street; that part of the Town of Weston lying north of U. S Route No. 20; and that part of the Town of Wilmington lying north of Salem Street, northwest of State Route No. 62, west of Ballardvale Street, southwest of the Salem and Lowell Branch of the Boston and Maine Railroad, east of the Portland Division of the Western Branch of the Boston and Maine Railroad, northeast of State Route No. 38, west of the Wilmington Branch of the Boston and Maine Railroad and south of Salem Street.

All of Norfolk County except that part of the Town of Sharon lying north of Main Street, and that part of the Town of Wrentham lying north of State Route No. 11 and south of State Route No. 140.

All of Worcester County except that part of the Town of Blackstone lying west of Mendon Street and north and east of Chestnut Street; the Town of Gardner; that part of the Town of Grafton lying east of State Routes No. 140 and No. 30; that part of the Town of Mendon lying north of Bellingham Road and south and east of Hartford Avenue East; the Town of Milford; that part of the Town of Oxford lying south of State Route No. 12; the Town of Templeton; and that part of the Town of Westboro lying north of State Route No. 9.

New Jersey

Atlantic, Bergen, Camden, Gloucester, Hudson, Hunterdon, and Morris Counties.

That area consisting of Union, Middlesex, Monmouth, and Ocean Counties.

That area in Lower Township in Cape May County lying east of U. S. Highway No. 9

That area in Dennis Township in Cape May County bounded by the Belleplain State Forest on the south and east and State Highway No. 550 on the north and west and State Highway Spur No. 550 on the west

All of Burlington County except Delran, Washington, Shamong, Tabernacle, and Bass River Townships.

New York

The Town of Poland in Chautauqua County

The Town of Poughkeepsie in Dutchess County.

That area in the Town of Clarkstown lying north of New York State Route No. 59 in Rockland County.

Pennsylvania

Bucks and Delaware Counties.

Rhode Island

Providence County.

Effective date. The foregoing amendment shall become effective upon issuance.

Section 76.27 of Subpart B, as amended, Part 76, Title 9, Code of Federal Regulations (18 F. R. 3637), quarantine the areas so designated.

The amendment designates the following as an area in which swine are affected with vesicular exanthema in addition to the areas heretofore designated:

Providence County in Rhode Island.

Hereafter, the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636, as amended), apply to this area.

The amendment excludes from the areas heretofore designated as areas in which swine are affected with vesicular exanthema:

That part of the Town of Billerica lying northeast of U. S. Route No. 3, northwest of Andover Road, south of Dudley Road, west of Concord Road, east of Lexington Road, and southwest of U. S. Route No. 3; that part of the Town of Burlington lying southwest of U. S. Route No. 3, southeast of Francis Wyman Road, north of Bedford Street, southeast of Dug Way, northeast of Winn Street, and northwest of Peach Orchard Road; the Town of Carlisle; that part of the Town of Dracut lying east of Gumpas Avenue and west of Mammoth Road; that part of the Town of Hudson lying west of Chapin Street, northwest of Brigham Street and the Assabet River; that part of the Town of Lexington lying west of Westview Road and south of State Routes No. 4 and 25; that part of the Town of North Reading lying north of State Route No. 62 and east of State Route No. 28; that part of the Town of Tewksbury lying northwest of the Shawsheen River, northeast of State Route No. 38, and south of Salem Street; that part of the Town of Weston lying north of U. S. Route No. 20; and that part of the Town of Wilmington lying north of Salem Street, northwest of State Route No. 62, west of Ballardvale Street, southwest of the Salem and Lowell Branch of the Boston and Maine Railroad, east of the Portland Division of the Western Branch of the Boston and Maine Railroad, northeast of State Route No. 38, west of the Wilmington Branch of the Boston and Maine Railroad, and south of Salem Street, in Middlesex County, in Massachusetts.

That part of the Town of Sharon lying north of Main Street, and that part of the Town of Wrentham lying north of State Route No. 11 and south of State Route No. 140, in Norfolk County, in Massachusetts.

That part of the Town of Blackstone lying west of Mendon Street and north and east of Chestnut Street; the Town of Gardner; that part of the Town of Grafton lying east of State Routes No. 140 and No. 30; that part of the Town of Mendon lying north of Bellingham Road and south and east of Hartford Avenue East; the Town of Milford; that part of the Town of Oxford lying south of State Route No. 12; the Town of Templeton; and that part of the Town of Westboro lying north of State Route No. 9, in Worcester County, in Massachusetts.

The Administrator of the Agricultural Research Service has determined that swine in these areas are not now affected with the disease, and that the quarantine of such areas is no longer required to prevent the dissemination thereof. Accordingly, these areas are no longer quarantined under said § 76.27, and the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR, Part 76, Subpart B, as amended, (18 F. R. 3636, as amended), no longer apply to such areas. However, the restrictions pertaining to such movement from nonquarantined areas contained in said Subpart D, as amended, apply thereto.

The effect of the amendment is to impose certain further restrictions necessary to prevent the spread of vesicular exanthema, a contagious, infectious, and communicable disease of swine, and to relieve certain restrictions presently imposed. The amendment must be made effective immediately to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 4, 5, 23 Stat. 32, as amended, sec. 2, 32 Stat. 792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 120, 111, 123, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended; 21 U. S. C. 117)

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 54-789; Filed, Feb. 3, 1954; 8:56 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter J—Procurement Procedures

PART 1007—TERMINATION OF CONTRACTS

REDISTRIBUTION AND DISPOSAL OF CONTRACTOR INVENTORY—FOREIGN

At the time Part 1007 was published in the FEDERAL REGISTER (18 F. R. 2690), material under the heading of Category B: Overseas, Subpart F—Termination Inventory, was reserved. This material, consisting of § 1007.618, is added to Subpart F, Part 1007, as follows:

CATEGORY B: OVERSEAS

§ 1007.618 *Redistribution and disposal of contractor inventory—foreign—*(a) *Redistribution.* Whenever any item of contractor inventory, as defined in Part 407 of this title, in the possession of a contractor is not required to complete the performance of work under a contract, it may be applied against known requirements existing under other Air Force contracts in the following order of precedence:

(1) If such contractor inventory can be utilized to satisfy known requirements existing under another Air Force contract within the same general locality (that is, same country or vicinity), it may be transferred to such other Air Force contract;

(2) If such contractor inventory can be utilized to satisfy known requirements existing under another Air Force contract located within the geographical jurisdiction of the major air command, it may be transferred to such other Air Force contract;

(3) If the contractor inventory can be utilized to satisfy known requirements existing under another Air Force contract located outside the geographical jurisdiction of the major air command (including zone of interior), it may be transferred to such other contract.

The United States diplomatic or consular representative in the country in which the property is located and such representative in the country to which the property may be transferred in accordance with the situations cited in this paragraph shall be consulted with regard to possible customs duties and taxes, or other limitations upon import or export of the property, applicable under the laws of the countries involved. Applicable laws shall be complied with; where compliance would make the transfer uneconomical, the property shall be disposed of as provided in paragraph (b) of this section.

(b) *Disposal.* If none of the foregoing situations prevails to the extent that the property cannot be utilized as indicated in paragraph (a) of this section, the property then may be disposed of in the following order of precedence:

(1) The property will be screened with the appropriate supply organization of the major oversea command where the property is located for the supply requirements of that command;

(2) The property will be screened with other military services within the major oversea command where such property is located;

(3) If no requirement exists thereafter property of line item cost in excess of $1,000 shall be listed on termination inventory schedules (as provided by Subpart G, Part 407 of this title), and screened with Field Operations Division, Headquarters, Air Materiel Command (Attention: Readjustment Branch), for Air Force supply requirements;

(4) If 90 days after submission of inventory schedules no shipping instructions have been issued, the property may be disposed of subject to the provisions of paragraphs (d) and (e) of this section.

United States Air Force excess critical and strategic materials, wherever located, including those obtained from scrap and salvage and which meet the specifications and requirements of the stockpiling program of the Department of Defense, will be reported to the Directorate of Procurement and Production, Headquarters, Air Materiel Command, Attention: Readjustment Branch, Field Operations Division, and will be held for disposition instructions.

(c) *Transfers and reimbursement.* (1) USAF excess material, if transferred

to another military department, generally will be without reimbursement or transfer of funds, for the material concerned;

(2) USAF excess material, if transferred to a Federal agency outside the Department of Defense, will require reimbursement for the fair value of the material concerned as well as packing, handling, and crating costs, except when otherwise authorized;

(3) Transportation charges incident to transfers mentioned in this paragraph will be handled by a Government bill of lading or other document, with the costs thereof charged direct to the transferee;

(4) Packing, handling, and crating charges incident to transfers cited in this paragraph will either be actual or estimated. Such charges will be subject to price negotiations between the departments concerned.

(d) *Foreign excess property.* (1) "Foreign excess property" means contractor inventory located outside the continental United States, Alaska, Hawaii, Panama Canal Zone, Puerto Rico, and the Virgin Islands, and excess to the needs of the oversea command in which located.

(2) Foreign excess property located in Canada will be disposed of through the Crown Assets Disposal Corporation (CADC), an agency of the Canadian Government, in accordance with the principles, price policies, and procedures, agreed upon by the United States and the Canadian Government.

(3) The disposal of foreign excess property shall conform to the foreign policy of the United States. In this connection, the commander of oversea major air command, or his designated representative, shall establish and maintain liaison with United States diplomatic representatives and consular offices, and will advise such personnel in advance regarding the disposition of foreign excess property, in order that the comments and suggestions of the Department of State may be obtained with respect to the proposed disposal, as relates to and affects the policies and economic condition of the country concerned. Disposal plans shall include, if possible, the names of prospective bidders of any proposed sale involving property having a total acquisition cost of $250,000 or more, and shall be reported to the United States diplomatic mission in the country or countries concerned. It is not intended that the diplomatic missions shall be concerned with the determinations of the value of items to be disposed of. The receipt of such plans prior to the conclusion of any sales will afford an opportunity to the diplomatic missions to consider possible foreign policy aspects, and to transmit to the Air Force activity concerned any views of such aspects, together with any available information regarding particular purchases or other matters which may be helpful in concluding a sale. Sales involving property having a total acquisition cost of less than $250,000, but in excess of $50,000, need not be reported to the diplomatic mission in advance of the sale, but will be reported at the completion of the sale.

(4) Notwithstanding the above, it is believed that any sales, regardless of the total acquisition cost of property which might have a significant effect on the economic or political situation in a particular area, shall be discussed with the appropriate diplomatic mission before the sale is made.

(5) The general policy of the Air Force is to sell foreign excess property by competitive bids. In exceptional or unusual cases sales may be made without competitive bids, provided that the sale price is fair and reasonable and is adequate in the light of reasonable knowledge or test of the market, due regard being had for current prices for any raw materials or products for which quotations are published, and for the circumstances, nature, condition, quantity, and location of the property. In some instances, the foreign government concerned may require that it shall either be the only authorized buyer or the only authorized sales agent. Accordingly, in those cases where a foreign government is a party to a contract or agreement for the sale of United States foreign property, the authorization and execution of such contract or agreement shall be effected only with the prior approval of the diplomatic mission in the country concerned.

(6) Custom duties, taxes, or similar charges may be levied by certain foreign governments against either the seller or purchaser of foreign excess property sold within their jurisdiction. Each sales offering shall include a statement and each contract shall include a clause providing that the purchaser shall pay all such duties, taxes, and so forth, and furnish the Air Force contracting officer copies of the receipts therefor, prior to the release of the property. Since the laws of each country in which foreign excess property may be sold will govern the assessment and collection of duties, taxes, and the like, the United States diplomatic or consular representative, in the area where the sales are to be made, shall be consulted and requested to effect appropriate arrangements with the foreign government concerned.

(7) All notices of sale and all sales contracts will include the following provision:

> The property sold hereunder shall not be imported into the United States of America, unless the Secretary of Agriculture (in the case of any agricultural commodity, food, or cotton or woolen goods), or the Secretary of Commerce (in the case of any other property) has determined that the importation of such property would relieve domestic shortages or otherwise be beneficial to the economy of the United States, and this sale is made expressly subject to this condition.

(e) *Foreign currency.* (1) Ordinarily, all sales of foreign excess property shall be made for United States dollars or for the equivalent in currency, which is readily convertible into United States dollars. When United States dollars are not available and it is proposed to accept foreign currency, prior approval shall be obtained from the treasury attaché of the staff of the United States diplomatic mission, except where the amount involved does not exceed $5,000 as set forth in subparagraph (2) of this paragraph.

(2) In countries where there is no treasury attaché on the Staff, such cases will be submitted direct to the Office of International Finance, United States Treasury Department, Washington 25, D. C. Where the amount involved in an individual transaction does not exceed $5,000, the Treasury Department has authorized the Department of Defense to accept such amounts without consultation: *Provided*, That:

(i) Assurance has been obtained through the local State Department representative that such currency may be used in payment of any and all United States Government expenditures in that country;

(ii) It is not feasible to sell the property for United States dollars or to ship such property to a country (but not United States, except where property is of a type authorized for return) where it may be sold for United States dollars or for a freely convertible foreign currency;

(iii) It is not a country under occupation by United States forces;

(iv) It is not a country whose assets in the United States are blocked under Treasury Department regulations; or

(v) It is not a country with which diplomatic relations are not maintained.

(f) *Disposal of Air Force foreign excess property by Army and Navy.* When Air Force foreign excess property is transferred to the Departments of Army and Navy activities for disposal, pursuant to local agreements or to orders of the theater commanders, the responsibility to comply with State Department requirements outlined in this part is the responsibility of the service making disposal.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 63]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

L F R STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If an L F R instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified fixes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation, facility class and identification, procedure No., effective date	Initial approach to facility from—	Course and distance (miles) to airport	Minimum altitude over facility on final approach course (ft.)	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished	Procedure turn (—) side of final approach course (southbound and inbound); altitudes, limiting distances

4 The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If a GCA instrument approach is indicated at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified route. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller. From initial contact with GCA to final authorized landing minimums, the instructions of the GCA controller are mandatory except when (a) visual reference with ground is established on final approach at or before descent to the authorized landing minimums, or (b) at pilot's discretion if it appears desirable to discontinue the approach.

City and State, airport name, elevation, effective date	Radar terminal area maneuvering altitudes by sectors and limiting distances	Runway No.	Ceiling and visibility minimums: Condition	Precision approach (PAR): 75 m. p. h. or less	Precision approach (PAR): More than 75 m. p. h. TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS

The Commission desires to make a change in Part 3—Radio Broadcast Services (revised to June 30, 1953) to correct a typographical error in the TV channel assignments for Lafayette, Indiana, as set forth in § 3.606. The asterisk for Channel 47 was inadvertently omitted when Part 3 was revised.

The amendment adopted herein is editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendment may become effective immediately.

The amendment adopted herein is issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and paragraph F–6 of the Commission's order Defining the Functions and Establishing the Organizational Structure of the Office of the Secretary, dated February 14, 1952, as amended.

It is ordered, This 29th day of January 1954, that, effective immediately, Part 3 of the Commission's rules and regulations is revised as set forth below:

Section 3.606 is amended to show the TV channel assignments for Lafayette, Indiana to be *47, 59.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended, sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Released: January 29, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54–777; Filed, Feb. 3, 1954; 8:53 a. m.]

PART 10—PUBLIC SAFETY RADIO SERVICES

PART 11—INDUSTRIAL RADIO SERVICES

PART 16—LAND TRANSPORTATION RADIO SERVICES

STANDARD FORMS TO BE USED

In the matter of adoption of Revised FCC Form 400 (Application for Radio Station Authorization in the Safety and Special Radio Services), associated instructions, and amendment of Parts 10, 11 and 16 of the Commission's rules to delete certain formal requirements concerning voluntary assignment of authorizations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of January 1954;

The Commission having under consideration certain modifications of FCC Form 400 and associated instructions, as well as simplication of §§ 10.55 (b), 11.56 (b) and 16.56 (b) governing voluntary assignment of radio station authorizations; and

It appearing, that certain editorial changes in the form and instructions, and in the spacing provided for some items in the form, appear to be desirable as a consequence of experience in its use since its adoption on September 10, 1952; and

It further appearing, that the notarization and certain other formal requirements presently applicable to letters assigning station authorizations under Parts 10, 11 and 16 appear to serve no useful purpose and should be deleted; and

It further appearing, that since the form and rules changes herein ordered are procedural in nature, general notice of proposed rule making under section 4 (a) of the Administrative Procedure Act is unnecessary and would serve no useful purpose; and

It further appearing, that the form and rules changes herein ordered impose no new burden on existing licensees, relax existing requirements, and may therefore be made effective immediately; and

It further appearing, that authority for this order is contained in sections 4 (i), 301, 303 (r) and 308 (b) of the Communications Act of 1934, as amended:

It is ordered, That effective immediately, the revised FCC Form 400 (Application for Radio Station Authorization in the Safety and Special Radio Services) [1] and "Instructions For Completion of FCC Form 400 (January 1954 Revision)" [1] are hereby adopted: *Provided, however*, That applications filed on the present FCC Form 400 (adopted 9/10 52) will be accepted by the Commission until July 1, 1954; and

It is further ordered, That Parts 10, 11 and 16 of the Commission's rules are amended as set forth below:

Amend §§ 10.55 (b), 11.56 (b) and 16.56 (b) to read as follows:

(b) When the holder of a station authorization desires to assign to another person the privilege to construct or use a radio station, he shall submit to the Commission a letter setting forth his desire to assign all right, title, and interest in and to such authorization, stating the call sign and location of station. This letter shall also include a statement that the assignor will submit his current station authorization for cancellation upon completion of the assignment. Enclosed with this letter shall be an application for Assignment of Authorization on FCC Form 400 prepared by and in the name of the person to whom the station is being assigned.

(Sec. 4, 48 Stat. 1066 as amended; 47 U S C. 154. Interprets or applies secs. 301, 303, 308, 48 Stat. 1081, 1082, as amended, 1085; 47 U. S. C. 301, 303, 308)

Released: January 29, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 907]

[Docket No. AO 212-A6]

HANDLING OF MILK IN MILWAUKEE, WISCONSIN, MARKETING AREA

PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in Room 322, Federal Building, 517 East Wisconsin Avenue, Milwaukee, Wisconsin, beginning at 10:00 a. m., c. s. t., February 9, 1954.

The hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Milwaukee, Wisconsin, marketing area and to the proposed amendments set forth herein below, or modifications thereof, to the tentative marketing agreement as heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the said marketing area. Consideration will be given also to the question of whether such conditions require emergency action with respect to any or all amendments deemed necessary as the result of the hearing. The amendments proposed have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed:

By the Milwaukee Cooperative Milk Producers, Pure Milk Products Cooperative, Dairyland Cooperative Association, Golden Guernsey Dairy Cooperative

1. Amend § 907.51 (a) by adding the following: "• • • but no more than 24 cents shall be added or subtracted from the Class I differential."

[1] Filed as part of original document

By the Dairy Division, Agricultural Marketing Service:

2. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the said order as amended; may be procured from the Market Administrator, 956 North Twelfth Street, Milwaukee 3, Wisconsin, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: February 1, 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54–787; Filed, February 3, 1954; 8:55 a. m.]

[7 CFR Part 925]

[Docket No. AO–226–A3–RO1]

HANDLING OF MILK IN PUGET SOUND, WASHINGTON, MARKETING AREA

NOTICE OF REOPENING OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the reopening of the public hearing held August 10–11, 1953, at Seattle, Washington, pursuant to notice issued July 23, 1953 (18 F. R. 4381), such reopened hearing to be held at the Federal Court House Building, Seattle, Washington, beginning at 10:00 a. m., P. s. t., February 10, 1954 for the purpose of receiving additional evidence with respect to proposals Nos. 1, 2, and 3 below, set forth in the original notice of hearing as proposals Nos. 3, 8, and 21, respectively, to amend the tentative marketing agreement heretofore approved by the Secretary of Agriculture and the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area, or appropriate modifications of any of such proposals. These proposed amendments have not received the approval of the Secretary of Agriculture.

Consideration will be given also to the question of whether economic and marketing conditions which relate to the handling of milk for the said marketing area require emergency action with respect to any or all amendments deemed necessary as the result of the hearing.

Proposed by the United Dairymen's Association on its own behalf and on behalf of certain member cooperatives:

Proposal No. 1. Delete § 925.13 and substitute therefor the following:

§ 925.13 *Producer milk.* "Producer milk" or "milk received from producers" means milk qualified as described in § 925.12 and either received directly from a farm at a fluid milk plant or country plant or caused to be diverted by a handler for his account from such a plant to a non-pool plant: *Provided first*, That milk so diverted shall be deemed to have been received by the diverting handler at the plant from which it was diverted: *And provided second*, That the first proviso hereof shall not apply to milk diverted from a plant located in one district to a plant located in another district with a different location adjustment unless it is actually received at the plant from which it is caused to be diverted at least 15 days during each month that diversion is claimed (exclusive of April, May, and June).

Proposal No. 2. Revise the provisions relating to location adjustments applicable to the Class I milk price and to the uniform prices to producers as follows:

1. Amend § 925.6 by taking Skagit County out of District 2 and creating a new district to be designated District 4, comprising only those portions of Skagit County which are within the marketing area.

2. Amend § 925.53 to read as follows:

§ 925.53 *Location adjustment to handlers on Class I milk.* In computing the value of each handler's milk, there shall be credited with respect to skim milk and butterfat respectively in producer milk received at a plant located in Districts 2 and 3, the sum of forty (40¢) cents per hundredweight, and at a plant located in District 4 of twenty (20¢) cents per hundredweight, and at a plant located in Clallam or Jefferson County of fifty (50¢) cents per hundredweight.

3. Amend § 925.81 (a) in conformity with the above suggested change for § 925.53.

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 3. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the aforesaid tentative marketing agreement and order may be procured from the market administrator, 200 Bigelow Building, Fourth and Pike Streets, Seattle, Washington, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: February 1, 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Parts 941, 967]

[Docket Nos. AO 101–A16, AO 170–A7]

MILK IN CHICAGO, ILLINOIS, AND SOUTH BEND-LA PORTE, INDIANA, MARKETING AREAS

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENTS AND ORDERS, AS AMENDED, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Madison Room, Morrison Hotel, Clark and Madison Streets, Chicago, Illinois, beginning at 10:00 a. m., c. s. t. on February 8, 1954.

The hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Chicago, Illinois, and South Bend-La Porte, Indiana, marketing areas and to the proposed amendments set forth herein below, or modifications thereof, to the tentative marketing agreements as heretofore approved by the Secretary of Agriculture and to the orders, as amended, regulating the handling of milk in the said marketing areas. Consideration will be given also to the question of whether such conditions require emergency action with respect to any or all amendments deemed necessary as the result of the hearing. The amendments proposed have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed:

By the Pure Milk Association, Consolidated Badger Cooperative, Associated Milk Dealers, Inc., Baldwin Cooperative Creamery Company, Barron Cooperative Creamery, Colfax Cooperative Creamery, Falls Dairy Company, Farmers Cooperative Creamery Company, Ladysmith Milk Producers Cooperative, St. Croix Valley Cooperative Dairies, Wisconsin Cooperative Dairies:

1. Amend § 941.52 (a) (1) of the Chicago order by adding: "But no more than 24 cents shall be added to or subtracted from the Class I price differential."

By Pure Milk Products Cooperative:

2. Eliminate further declines in Class I and Class II prices under the Chicago order.

By Pure Milk Association:

3. Amend § 967.51 (a) of the South Bend-La Porte order by adding: "• • • but such Class I price differential shall not be increased or decreased more than 24 cents thereby."

By the Dairy Division, Agricultural Marketing Service:

4. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the said order as amended, may be procured from the Market Administrators, 73 West Monroe Street, Chicago 3, Illinois, and 407 Strauss Building, Fort Wayne 2, Indiana, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: February 1, 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

Commodity Stabilization Service

[7 CFR Part 814]

SUGAR

NOTICE OF HEARING ON PROPOSED ALLOTMENT OF 1954 QUOTAS FOR PUERTO RICO

Pursuant to the authority contained in the Sugar Act of 1948, as amended (61 Stat. 922, as amended by 65 Stat. 318; 7 U. S. C. Sup. 1100), in accordance with the applicable rules of practice and procedure (7 CFR 801.1 et seq), and on the basis of information before me, I do hereby find that the allotment of (1) the 1954 sugar quota for Puerto Rico for consumption in the continental United States, (2) the direct-consumption portion thereof, and (3) the 1954 sugar quota for local consumption in Puerto Rico is necessary to prevent disorderly marketing and importation of such sugar and to afford all interested persons an equitable opportunity to market such sugar in the continental United States and Puerto Rico, respectively, and hereby give notice that a public hearing will be held at Santurce, Puerto Rico, in the Conference Room, Caribbean Area Office, ASC, Segarra Building on February 24, 1954, at 10:00 a. m. The quotas and portions thereof to be allotted are referred to herein as "mainland quota", "direct-consumption portion" and "local quota," respectively.

The purpose of such hearing is to receive evidence to enable the Secretary of Agriculture to make fair, efficient, and equitable allotments of the above-mentioned quotas among persons (1) who produce and market Puerto Rican sugar to be brought into the continental United States for consumption therein, (2) who produce or refine and market direct-consumption sugar to be brought into the continental United States for consumption therein and (3) who produce and market sugar for local consumption in Puerto Rico. The hearing will relate first to the allotment of the 1954 mainland and local quotas. Immediately upon completion of this part of the hearing, evidence will be received in regard to the allotment of the direct-consumption portion of the 1954 mainland quota.

The findings made above are in the nature of preliminary findings based on the best information now available. It will be appropriate to present evidence at the hearings on the basis of which the Secretary of Agriculture may affirm, modify, or revoke such preliminary findings and make or withhold allotment of any such quota or portion thereof in accordance therewith.

In addition, the subjects and issues of this hearing also include (1) the manner in which the statutory factors of "processings from proportionate shares," "past marketings," and "ability to market," as provided in section 205 (a) of the said act, should be measured; (2) the relative weightings which should be given to these factors; (3) participation in the allotments by producers of sugarcane who receive sugar in settlement therefor; (4) the transfer or exchange of allotments; and (5) the manner in which sugar is to be charged to allotments.

Issued this 29th day of January 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 54-763; Filed, Feb. 3, 1954; 8:50 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10783]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

1. On November 30, 1953, the Commission issued a notice of proposed rule making (FCC 53-1566) which was published in the FEDERAL REGISTER on December 3, 1953 (18 F. R. 7801) relating to a proposed amendment of the Table of Assignments contained in § 3.606 of the Commission's rules governing Television Broadcast Stations so as to assign Channel 11 to Lexington, Tennessee, Channel 7 to Rock Island, Tennessee, and Channel 2 to Sneedville, Tennessee and to reserve these assignments for noncommercial educational use.

2. The Commission now has before it for consideration a conflicting petition for rule making filed on December 29, 1953, by Frank Kyle Spain, Tupelo, Mississippi, requesting an amendment of § 3.606 *Table of assignments* as follows:

City	Channel No.	
	Present	Proposed
Tupelo, Miss	3*	9-, 3*
Jackson, Tenn	9-, 16+	11, 16+

This proposal would also require a change in the offset requirement only of the assignment of Channel 9 to Hattiesburg, Mississippi, from Channel 9— to Channel 9, and of the assignment of Channel 11 to Meridian, Mississippi, from Channel 11 to Channel 11—.

3. In support of the proposal petitioner urges that the proposed amendments conform to the Commission's rules and standards; that they represent a greater utilization of the available channels; and that in view of the fact that Station WDXI-TV authorized for operation on Channel 9 at Jackson, Tennessee, has not yet been constructed and will not commence operation before June 1954, the change from Channel 9 to 11 in Jackson can be made without unduly hindering the permittee of WDXI-TV. The Dixie Broadcasting Company, permittee of Station WDXI-TV filed a comment opposing the issuance of a Show Cause Order to it as requested by petitioner. The Commission finds, however, that the Dixie comments contain no allegations as to the extent of construction of WDXI-TV or of the problems and expense involved in the proposed change in assignment to that station.

4. The Commission has before it for consideration a third conflicting petition for rule making filed on December 29, 1953, by the Alabama Educational Television Commission, requesting an amendment of § 3.606 *Table of assignments* as follows:

City	Channel No.	
	Present	Proposed
Munford, Ala	None	*, None
University, Ala	*7	

5. In support of the proposal petitioner urges that the proposed amendment conforms to the Commission's rules and standards; that it would permit the utilization of Mt. Cheaha, the highest point in the State of Alabama for the educational station thereby providing the greatest possible coverage to the most populated areas of the State; and that an application will be filed for the use of the channel in the event the amendment as proposed is adopted.

6. Authority for the adoption of the proposed amendments is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

7. Any interested party who is of the opinion that the amendments proposed by petitioners or by the Tennesee Educational Television Committee should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before February 26, 1954, a written statement or brief setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant or require the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

8. In addition pursuant to section 316 of the Communications Act of 1934, as amended, the Dixie Broadcasting Company is hereby afforded an opportunity to show cause, if the rule change proposed by Frank Kyle Spain should be adopted, why its authorization should not be modified to specify Channel 11 in lieu of Channel 9. The Dixie Broadcasting Company shall make any reply it wishes to submit to the show cause order in this proceeding by February 26, 1954.

9. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: January 27, 1954.

Released: January 29, 1954.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-779; Filed, Feb. 3, 1954; 8:53 a. m.]

[1] Separate views of Commissioner Hennock filed as part of the original document.

NOTICES

DEPARTMENT OF JUSTICE

Office of the Attorney General

[Order No. 39-54]

DESIGNATION OF ORGANIZATIONS IN CONNECTION WITH FEDERAL EMPLOYEE SECURITY PROGRAM

The following change in the list of organizations designated by the Attorney General as coming within the purview of Executive Order No. 10450 in the FEDERAL REGISTER of May 12, 1953 (18 F. R. 2741) is hereby made: California Labor School, Inc., 216 Market Street, San Francisco, California, is changed to read California Labor School, Inc., 321 Divisadero Street, San Francisco, California.

Notice of proposed designation within the purview of Executive Order No. 10450 was sent to the American Polish League in accordance with the rules of procedure promulgated April 29, 1953 (18 F. R. 2619; 28 CFR 41.1 to 41.11). Due to its failure to file a notice of contest in the manner required by § 41.1 of the rules the American Polish League is designated pursuant to Executive Order No. 10450.

Following notice of proposed designation under Executive Order No. 10450, the organizations listed below filed notice of contest of such designation and were therefore forwarded by registered mail a statement of the grounds upon which the designation was proposed to be made, together with interrogatories with respect thereto. Section 41.3 of the rules of procedure with respect to notice, hearing and designation of organizations in connection with the Federal employee security program (18 F. R. 2619; 28 CFR 41.1 to 41.11) provides that within sixty days following receipt of such statement and interrogatories the organization shall file a verified reply, answering each interrogatory completely and with particularity. The following organizations have failed to comply in the manner required by said § 41.3 of the rules, and these organizations are therefore designated pursuant to Executive Order No. 10450:

American Lithuanian Workers Literary Association (also known as Amerikos Lietuviu Darbininku Literaturos Draugija).
American Peace Crusade.
American Women for Peace.
Association of Lithuanian Workers (also known as Lietuviu Darbininku Susivienijimas).
China Welfare Appeal, Inc.
Citizens Emergency Defense Conference.
Committee for the Negro in the Arts.
Connecticut Committee to Aid Victims of the Smith Act.
Daniels Defense Committee.
Families of the Baltimore Smith Act Victims.
Families of the Smith Act Victims.
Freedom Stage, Inc.
Massachusetts Minute Women for Peace.
National Association of Mexican Americans (also known as Asociacion Nacional Mexico-Americana).
National Negro Labor Council.
Palo Alto Peace Club.
Slavic Council of Southern California.
Washington Pension Union.
Yugoslav Seamen's Club, Inc.

Dated: January 22, 1954.

HERBERT BROWNELL, JR.,
Attorney General.

Federal Maritime Board

ANCHOR LINE LTD., ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to Section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. section 814.

(1) Agreement No. 7932, between Anchor Line Limited, and Alcoa Steamship Company, Inc., covers the transportation of general cargo under through bills of lading from United Kingdom of Great Britain and Northern Ireland to Puerto Rico, with transhipment at Baltimore or New York.

(2) Agreement No. 7933, between Bristol City Line of Steamships, Ltd., and Alcoa Steamship Company, Inc., covers the transportation of general cargo under through bills of lading from the United Kingdom to Puerto Rico, with transhipment at Baltimore or New York.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 1, 1954.

By order of the Federal Maritime Board.

[1954 Dept. Circ. 938]

1⅝ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES A-1955

OFFERING OF CERTIFICATES

FEBRUARY 1, 1954.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions from the people of the United States for certificates of indebtedness of the United States, designated 1⅝ percent Treasury Certificates of Indebtedness of Series A-1955, in exchange for 2¼ percent Treasury Certificates of Indebtedness of Series A-1954, maturing February 15, 1954, or 1⅜ percent Treasury Notes of Series A-1954, maturing March 15, 1954. Exchanges will be made par for par in the case of the maturing certificates and at par with an adjustment of interest as of February 15, 1954, in the case of the maturing notes. The amount of the offering under this circular will be limited to the amount of maturing certificates and notes tendered in exchange and accepted.

2. In addition to the offering under this circular, holders of the maturing certificates and notes are offered the privilege of exchanging all or any part of such certificates and notes for 2½ percent Treasury Bonds of 1961, which offering is set forth in Department Circular No. 939, issued simultaneously with this circular.

II. *Description of certificates.* 1. The certificates will be dated February 15, 1954, and will bear interest from that date at the rate of 1⅝ percent per annum, payable at the maturity of the certificates on February 15, 1955. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all taxes, now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority. Any premium paid on the acquisition of these certificates in the market may be amortized in accordance with section 125 of the Internal Revenue Code.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates with one interest coupon attached will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject or reduce any subscription, to close the books as to any or all subscriptions at any time without

notice, and to allot less than the amount of certificates applied for; any any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before February 15, 1954, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series A–1954, maturing February 15, 1954, or in Treasury Notes of Series A–1954, maturing March 15, 1954, which will be accepted at par, and should accompany the subscription. The full amount of interest due on the maturing certificates surrendered will be paid following acceptance of the certificates. Coupons dated March 15, 1954 must be attached to the notes when surrendered, and accrued interest from September 15, 1953 to February 15, 1954 ($5.81146 per $1,000) will be paid following acceptance of the notes.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] G. M. HUMPHREY,
Secretary of the Treasury.

[F. R. Doc. 54–774; Filed, Feb. 3, 1954; 8:52 a. m.]

[1954 Dept. Circ. 939]

2½ PERCENT TREASURY BONDS OF 1961

OFFERING OF BONDS

FEBRUARY 1, 1954.

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions from the people of the United States for bonds of the United States, designated 2½ percent Treasury Bonds of 1961, in exchange for which any of the following listed securities, singly or in combinations aggregating $500 or multiples thereof, may be tendered:

2¼ percent Treasury Certificates of Indebtedness of Series A–1954, maturing February 15, 1954.

1⅝ percent Treasury notes of Series A–1954, maturing March 15, 1954.

2 percent Treasury Bonds of 1952–54 (dated June 26, 1944), maturing June 15, 1954.

2¼ percent Treasury Bonds of 1952–55, to be called for redemption on June 15, 1954.

2¼ percent Treasury Bonds of 1954–56, to be called for redemption on June 15, 1954.

Exchanges will be made par for par in the case of the maturing certificates and at par with an adjustment of interest as of February 15, 1954, in the case of the other issues eligible for exchange. The amount of the offering under this circular will be limited to the amount of the eligible securities of the five issues enumerated above tendered in exchange and accepted.

2. In addition to the offering under this circular, holders of the maturing certificates and notes are offered the privilege of exchanging all or any part of such certificates and notes for 1⅝ percent Treasury Certificates of Indebtedness of Series A–1955, which offering is set forth in Department Circular No. 938, issued simultaneously with this circular.

II. *Description of bonds.* 1. The bonds will be dated February 15, 1954, and will bear interest from that date at the rate of 2½ percent per annum, payable on a semiannual basis on November 15, 1954, and thereafter on May 15 and November 15 in each year until the principal amount becomes payable. They will mature November 15, 1961, and will not be subject to call for redemption prior to maturity.

2. The income derived from the bonds shall be subject to all taxes now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The bonds shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $500, $1,000, $5,000, $10,000, $100,000 and $1,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject or reduce any subscription, to close the books as to any or all subscriptions at any time without notice, and to allot less than the amount of bonds applied for; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for bonds allotted hereunder must be made on or before February 15, 1954, or on later allotment, and may be made only in the securities of the five issues enumerated in section I hereof, which will be accepted at par, and should accompany the subscription. The full amount of interest due on the maturing certificates surrendered will be paid following acceptance of the certificates. Coupons dated March 15, 1954, must be attached to the notes when surrendered, and accrued interest from September 15, 1953, to February 15, 1954 ($5.81146 per $1,000) will be paid following acceptance of the notes. Coupons dated June 15, 1954, must be attached to coupon bonds of each of the three eligible issues when surrendered, and accrued interest from December 15, 1953, to February 15, 1954 ($3.40659 per $1,000 in the case of the 2 percent bonds and $3.83242 per $1,000 in the case of the 2¼ percent bonds) will be paid following acceptance of the bonds. In the case of registered bonds, accrued interest from December 15, 1953, to February 15, 1954, will be paid by check drawn in accordance with the assignments on the bonds surrendered, or by credit in any account maintained by a banking institution with the Federal Reserve Bank of its district.

V. *Assignment of registered bonds.* 1. Treasury Bonds of the three eligible issues in registered form tendered in payment for bonds offered hereunder should be assigned by the registered payees or assignees thereof to "The Secretary of the Treasury for exchange for 2½ percent Treasury Bonds of 1961 to be delivered to _____", in accordance with the general regulations of the Treasury Department governing assignments for transfer or exchange, and thereafter should be presented and surrendered with the subscription to a Federal Reserve Bank or Branch or to the Office of the Treasurer of the United States, Washington. The bonds must be delivered at the expense and risk of the holders.

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] G. M. HUMPHREY,
Secretary of the Treasury

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

NEW MEXICO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JANUARY 28, 1954.

An application, serial number Colorado 06890, for the withdrawal from prospecting, location, entry or purchase under the mining laws, of the lands described below was filed on June 12, 1953, by the Atomic Energy Commission.

The purposes of the proposed withdrawal: For use by Atomic Energy Commission.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region IV, Bureau of Land Management, Department of the Interior, at Salt Lake City, Utah, P. O. Box 659. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

NEW MEXICO PRINCIPAL MERIDIAN

T. 46 N., R. 17 W.,
Secs. 23, 25, 26, 35 and 36.
T. 45 N., R. 17 W.,
Secs. 1, 2, 11, 12, 13, 14, 23, 24, 25, 26, 35 and 36.
T. 44 N., R. 17 W.,
Secs. 1 to 28, inclusive, 34, 35 and 36.
T. 45 N., R. 19 W.,

[Docket DA–390, Idaho]

IDAHO

RESTORATION ORDER UNDER FEDERAL POWER ACT

JANUARY 27, 1954.

Pursuant to determination DA–390, Idaho of the Federal Power Commission and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to disposition under the public land laws as provided by law, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. sec. 818), as amended.

IDAHO

T. 60 N., R. 4 W., B. M., Sec. 21, lot 1 (approximately 5 acres).

The land described is situated on the east shore of Priest Lake at an elevation of 2,440 feet. The land is timbered with an uneven-aged stand of mixed species. The land is chiefly valuable for recreational purposes in connection with local recreational development by the State of Idaho and the land is classified as suitable for disposal to the State under the recreational act or by lieu selection.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, desert land, or any other non-mineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

The lands described shall be subject to application by the State of Idaho for a period of 90 days from that of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the lands shall become subject to application, petition, location and selection, subject to valid, existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90 day preference filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Information showing the periods during which and under which veterans and others may file application for these lands may be obtained on request in the Land Office, Boise, Idaho.

CHESLEY P. SEELY,
Acting Regional Administrator.

[F. R. Doc. 54–746; Filed, Feb. 3, 1954; 8:47 a. m.]

[Montana 04451]

MONTANA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JANUARY 28, 1954.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976), (43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

MONTANA PRINCIPAL MERIDIAN

T. 12 N., R. 22 E.,
Sec. 8: S½, SE¼NE¼.
Sec. 17: E½NE¼, SW¼NE¼, E½NW¼, NW¼NW¼, NE¼SW¼, NW¼SE¼.

The areas described aggregate 680 acres.

These lands are rolling to rough, steep and mountainous in topography. The vegetative cover consists primarily of wheatgrass, bluegrass and fescue. The timber cover consists of an open stand of yellow pine to a dense stand of stagnant pole-sized yellow pine on the steeper north slopes. The land is classified as primarily suitable for watershed purposes, timber production and grazing. Cultivation of the land is prohibited due to the rough and steep topography.

No applications for these lands may be allowed under the homestead, small tract, desert land, or any other nonmineral public land laws unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. It is unlikely that the lands will be classified for homestead, small tract, or desert land use.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application,

petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Billings, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to Manager, Land Office, Billings, Montana.

W. B. WALLACE,
Regional Administrator.

[F. R. Doc. 54-771; Filed, Feb. 3, 1954; 8:52 a. m.]

[Docket DA-384, 412, Oregon]

OREGON

RESTORATION ORDER UNDER FEDERAL POWER ACT

JANUARY 25, 1954.

Pursuant to determinations DA-384 and 412, Oregon, of the Federal Power Commission and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored to disposition under the public land laws as provided by law, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. sec. 818), as amended.

OREGON

T. 27 S., R. 11 W., W. M.,
Sec. 33, N½NE¼NW¼.
T. 28 S., R. 11 W., W. M.,
Sec. 5, S½NW¼NE¼, N½SE¼NE¼, S½S½NE¼NE¼.

The areas described aggregate 69.62 acres.

The lands described in section 33, above, are revested Coos Bay Wagon Road grant lands and its present cover consists of immature hard woods, brush and a limited number of Douglas fir seedlings. The tract is classified as forest land having potential agricultural value. The lands described in section 5, above, are revested Coos Bay Wagon Road grant lands and comprise a narrow strip of bottom land of which approximately 16 acres are tillable, while the balance is suitable for grazing. The lands described are considered primarily suitable for exchange purposes.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than that shown above. No application for the lands may be allowed under the homestead, desert land, or any other non-mineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

The lands described shall be subject to application by the State of Oregon for a period of 90 days from that of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the lands shall become subject to application, petition, location and selection, subject to valid, existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90 day preference filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and under which veterans and others may file application for these lands may be obtained on request in the Land Office, Portland, Oregon.

CHESLEY P. SEELY,
Acting Regional Administrator.

UTAH

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LAND

JANUARY 27, 1954.

An application, serial number Utah 010096, for the withdrawal from prospecting, location, entry or purchase under the mining laws of the lands described below was filed on July 3, 1953, by the Atomic Energy Commission.

The purposes of the proposed withdrawal: For use by Atomic Energy Commission.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region IV, Bureau of Land Management, Department of the Interior at Salt Lake City, Utah, P. O. Box 659. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

SALT LAKE MERIDIAN

T. 36 S., R. 18 E.,
Secs. 3, 4, 9, 10, 13, 14, 23, 24, 25, 26.
T. 35 S., R. 18 E.,
Secs. 34 and 35, unsurveyed.
T. 36 S., R. 19 E.,
Secs. 17, 18, 19, and 20, unsurveyed.
T. 35 S., R. 19 E.,
Secs. 1 to 4, inclusive, 9 to 16, inclusive, and 21 to 24, inclusive, unsurveyed.
T. 35 S., R. 20 E.,
Secs. 6, 7, 8, 17, 18 and 19.

RALPH J. MITCHELL,
Acting Regional Administrator.

WYOMING

CLASSIFICATION ORDER NO. 4, WYOMING NO. 1, AMENDED

JANUARY 29, 1954.

1. On May 16, 1941 the vacant public lands in the following described areas in the Cheyenne, Wyoming, Land District, were classified by the Secretary of the Interior as chiefly valuable for development under the five-acre tract act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), and opened for leasing under that act as cabin, health, convalescent, and recreational sites, but not home, camp, or business sites:

T. 32 N., R. 79 W., 6th P. M.
Sec. 7: Lots A and B of Tract 43.
Sec. 15: SW¼NW¼.
Sec. 17: Lots 11 and 12 in NE¼.
Sec. 18: Lot 12 in NE¼NE¼.
Sec. 21: W½SE¼, NE¼SE¼.
Sec. 22: SW¼.
Sec. 27: N½NW¼.
Sec. 28: NE¼NE¼.

2. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427, dated August 16, 1950 (15 F. R. 5639), I hereby amend the classification order of May 16, 1941 to provide for the classification of the following described lands for lease and sale for the same purposes as set forth in the original classification:

T. 32 N., R. 79W., 6th P. M.
Sec. 15: SW¼NW¼.
Sec. 17: Lots 11 and 12 in NE¼.
Sec. 18: Lot 12 in NE¼NE¼.
Sec. 21: W½SE¼, NE¼SE¼.
Sec. 22: SW¼.
Sec. 27: N½NW¼.
Sec. 28: NE¼NE¼.

3. This amended classification order does not change the original classification as to the lands described as Lots A and B of Tract 43, Sec. 7, T. 32N., R. 79W.

4. There are 91 lots included in this amended classification order, ranging in size from 1.24 acres to 5 acres. Most of the lots are rectangular in shape, approximaely 330 feet in width and 660 feet in length, containing approximately five acres. The lots are located on the north, south, and west slopes of Casper Mountain approximately 12 miles from the city of Casper, Wyoming. Access to the general area is provided by hard-surfaced State Secondary Highway No. 142.

5. Most of the lots included in this amended classification order are already

under lease and substantial improvements have been partially or wholly constructed on some of these lots. Therefore, this amended classification providing for the lease and sale of these small tracts is for the primary purpose of permitting the present qualified lessees to purchase the small tracts.

6. New or renewal lessees will be required within a reasonable time after execution of the lease to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which in the circumstances are presentable, substantial and appropriate for the use for which the lease is issued. Detailed specifications as to the improvement requirements will be made part of the lease terms. Existing lessees who qualify for purchase in accordance with existing regulations may submit applications to purchase at the appraised prices set forth in paragraph 8.

7. Lessees or their successors in interest shall comply with all Federal, State, county, and municipal laws and ordinances, especially those governing health and sanitation, and failure or refusal to do so may be cause for cancellation of the lease in the discretion of the authorized officer of the Bureau of Land Management.

8. All new leases, or renewals of existing leases, will be issued for a period of three (3) years and will contain an option to purchase clause at the appraised value of the lots as follows:

T. 32 N., R. 79 W., 6th P. M.

9. These lands were described in the original classification order by legal subdivisions. For purposes of clarity, each tract described by legal subdivision, except Lots 11 and 12 in NE¼ Sec. 17 and Lot 12 in NE¼NE¼ Sec. 18, has also been assigned a reference number shown opposite the legal subdivision and appraised value as set forth in paragraph 8 above.

10. The following described tracts will be leased and sold subject to a 60 foot right of way, 30 feet on each side of the center line of existing State Secondary Highway No. 142 for road purposes and public utilities:

Section 21: Tract Ref. Nos. 27, 28, 36, 37, 45 and 53.
Section 22: Tract Ref. Nos. 54, 60 and 72.
Section 27: Tract Ref. No's. 84 and 96.
Section 28: Tract Ref. Nos. 83, 92, 95 and 105.

11. The following described tracts will be leased and sold subject to a 33 foot right of way for existing secondary access roads extending from State Secondary Highway No. 142:

Section 21: Tract Ref. Nos. 26, 27, 34, 35, 36, 37, 42, 43, 44, 45, 50, 51, 52, 58, 65 and 70.
Section 22: Tract Ref. Nos. 30, 32, 33, 38, 39, 40, 41, 46, 47, 48, 54, 55, 56, 62, 63, 67, 68, 74, 75 and 80.
Section 27: Tract Ref. Nos. 84, 86, 87, 93, 99 and 100.

12. The following described tracts will be leased and sold subject to a right of way for road purposes as follows:

Section 15: Tract Ref. Nos. 106 and 110, 16½ feet in width along the entire south boundaries.
Tract Ref. Nos. 108 and 112, 16½ feet in width along the entire north boundaries.
Section 21: Tract Ref. Nos. 26 and 27, 33 feet in width along the entire south boundaries.
Tract Ref. Nos. 51, 59, 66, 71 and 78, 33 feet in width extending along the entire west boundaries.
Section 22: Tract Ref. No. 30, 33 feet in width extending westward along the south boundary from existing trail road to southwest corner of tract.
Tract Ref. Nos. 31 and 39, 33 feet in width extending north along the entire west boundaries.
Tract Ref. Nos. 40 and 41, 33 feet in width extending along the entire south boundaries.
Tract Ref. Nos. 49, 57, 64, 69, 76 and 81, 33 feet in width extending along the entire west boundaries.
Tract Ref. No. 60, 33 feet in width extending along north boundary of tract from existing State Secondary Highway to northeast corner of tract.
Tract Ref. No. 72, 33 feet in width extending eastward along north boundary of tract from existing State Secondary Highway to northeast corner of tract.
Tract Ref. No. 80, 33 feet in width extending westward along south boundary of tract from existing trail road to the southwest corner of tract.
Section 27: Tract Ref. No. 84, 33 feet in width extending eastward along north boundary of tract from State Secondary Highway to northeast corner of tract.
Tract Ref. No. 89, 33 feet in width extending along the entire west boundary of tract.
Tract Ref. Nos. 96 and 97, 33 feet in width extending eastward from existing county road along the entire north boundaries.
Tract Ref. Nos. 100, 101 and 102, 33 feet in width extending eastward along the entire north boundaries from existing trail road.
Section 28: Tract Ref. Nos. 83 and 95, 16½ feet in width extending westward from existing State Secondary Highway along the south boundaries to the southwest corner of the tracts.
Tract Ref. Nos. 92 and 105, 16½ feet in width extending westward from existing State Secondary Highway along the north boundaries to the northwest corner of the tracts.

13. All inquiries relating to this amended classification order should be addressed to the Manager, Land and Survey Office, Cheyenne, Wyoming.

W. B. WALLACE,
Regional Administrator

[F. R. Doc. 54-769; Filed, Feb. 3, 1954; 8:51 a. m.]

WYOMING

CLASSIFICATION ORDER NO. 13

JANUARY 29, 1954

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by order No. 427, dated August 16, 1950 (15 F. R. 5639), I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), the following described land in the Wyoming Land District, embracing approximately 14.342 acres.

For lease and sale for cabinsites and homesites:

T. 34 N., R. 109 W., 6th P. M., Wyoming:
Section 27: Lots 2 through 9 and Lots 11 through 19, as shown on the official plat of survey dated May 28, 1953.

Lots 1 and 20 as shown on the plat of survey are not available for small tract purposes.

2. The lots range in size from 0.55 to 1.42 acres and are located along Pine Creek approximately 1½ miles northeast of the town of Pinedale in Sublette County, Wyoming. A power line and the Pinedale water pipeline cross the small tract area. Water for irrigation can be obtained from wells at depths of 20 to 40 feet or less. Sewage disposal may be accomplished by septic tanks. Schools, stores and other public facilities are available at the town of Pinedale. The topography of these tracts is nearly level to gently sloping. Soils are sandy to stony loam of medium to shallow depth and suitable for lawns and gardens. Native vegetation consists of sagebrush and grass with an overstory of timber along the creek. This timber is of no commercial value. There is no evidence of metallic or non-metallic minerals. The mineral rights to the land will be reserved to the Federal government.

3. This land was withdrawn and included within Power Site Reserve No. 5, Power Project No. 662, by Executive Order of July 9, 1910. The land was restored to entry June 10, 1920 under the public land laws subject to provisions of Section 24 of the Federal Power Act. Therefore, these lots will be leased or sold subject to the reservation of the right of the United States or its permittees or licensees to enter upon, occupy and use any or all of such lands for power purposes.

4. Small tract applications that were filed prior to November 20, 1952, the date the Land Office records were noted as to the proposed small tract classification, will be allowed a preference in accordance with § 257.6 of the regulations where such applications are amended to conform to a tract in accordance with the official plat of survey. Four applications filed prior to November 20, 1952 for the same purpose for which the land is now classified have been amended to conform to surveyed Lots 2, 8, 9, and 12, as shown on the official plat of survey. Small tract applications involving Lots 2, 8, 9 and 12 will therefore be allowed in accordance with the classification on the date the order is signed.

5. As to lands not covered by applications referred to in paragraph 4, this order shall not become effective to change the status of the lands until 10:00 a. m. on the 35th day after the date of this order.

6. A multiplicity of filings by those persons entitled to claim veterans' preference for service in World War II only is anticipated during the simultaneous filing period. Therefore, in accordance with the provisions of 43 CFR 257, 8, Circular 1764, containing small tract regulations approved September 11, 1950, the special procedure and drawing outlined therein will be used. This special procedure does not apply to veterans of other wars of the United States.

7. Commencing at 10:00 a. m. on the date of this order and for a period of 35 days thereafter, the lands described herein shall be subject to the filing of drawing entry cards only by those persons entitled to claim World War II veterans' preference under the act of September 27, 1944 (58 Stat. 748, 43 U. S. C. 279–284), amended. Such veterans desiring to participate in the drawing may secure drawing entry cards, Form 4–775 from the Manager, Land and Survey Office in Cheyenne, Wyoming or the District Manager, Bureau of Land Management, Pinedale, Wyoming. The veteran will print clearly his name, post office address, and sign his full name in the space provided on the card, certifying that he is a citizen of the United States, over 21 years of age or the head of a family, and entitled to veterans' preference based upon service in World War II and honorably discharged from such service. Only one drawing entry card may be filed by an entrant. No filing fee or additional papers should accompany the drawing entry card. All drawing entry cards when completed as indicated shall be mailed to the Manager, Land and Survey Office, Cheyenne, Wyoming and must be forwarded in time to reach him not later than 10:00 a. m. on the 35th day after the date of this order. All cards of qualified entrants received not later than the hour and date mentioned will be placed in a box and at 2:00 p. m. on the business day following such 35th day thoroughly mixed in the presence of such persons as may desire to be present. The cards will then be drawn by a disinterested party, one at a time, and numbered in the order drawn to establish an adequate list of eligibles and of alternates to whom the available tracts will be allocated in consecutive order.

8. Each successful entrant to whom a lot is awarded will be sent by registered mail a decision making appropriate requirements with an offer to lease Form 4–776, in duplicate, bearing the description of the tract. The forms must be completely filled out, signed and returned by the successful entrant within the time allowed, accompanied by a $10 filing fee and $15 representing rental for a 3-year period; also a complete photostat, or other copy (both sides) of his certificate of honorable discharge, or of an official document of the branch of the service which shows clearly the period of service. An award to a successful entrant who was not qualified to enter the drawing, or who for any reason fails within the time allowed to comply with the requirements of the decision accompanying the lease forms, will be canceled upon the records, and the lot will become available to the alternate next in line as determined by the drawing.

Each entrant to whom no lot is allocated will be informed thereof by the return of his drawing entry card carrying a notation to that effect.

9. Lessees will be required within a reasonable time after execution of the lease to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which in the circumstances are presentable, substantial and appropriate for the use for which the lease is issued. Detailed specifications as to the improvement requirements will be made part of the lease terms and option to purchase.

10. Lessees or their successors in interest shall comply with all Federal, State, County and municipal laws and ordinances, especially those governing health and sanitation, and failure or refusal to do so may be cause for cancellation of the lease in the discretion of the authorized officer of the Bureau of Land Management.

11. Leases will contain an option to purchase clause at the appraised value of the lots as follows:

T. 34 N., R. 109 W., 6th P. M., Wyoming:
Section 27:

Lots 2, 3, 4, 5, 6, 13	$250
Lots 7, 11, 12	300
Lots 8, 9	350
Lots 14, 15, 16, 17, 18, 19	175

All lessees or their successors in interest will be afforded the right to purchase the tract at or after one year from the date the lease is issued, provided the lessees have complied with the requirements specified in paragraphs 9 and 10 of this order and other requirements of the lease.

12. The leases will be made subject to rights of way for roads, public access to Pine Creek, and public utilities as follows:

40 feet wide along the entire west boundary of Lots 2, 3, 4, 5, 6, and 7;
40 feet wide along the entire north boundary of Lots 11, 14, 15, 16, 17, 18 and 19;
30 feet wide along the entire south boundary of Lot 7;
30 feet wide through Lot 8 beginning at a point on the west boundary of Lot 8 about 230 feet northeast of the southwest corner of the tract, thence running in a southeasterly direction through the tract to a point on the east boundary about 20 feet north of the southeast corner of the tract;
30 feet wide along the east boundary of Lot 8 beginning at the southeast corner of Lot 8 common to Lots 8 and 9, and extending north 0° 18' W. a distance of 35 feet;
30 feet wide along the entire west boundary of Lots 11 and 12;
15 feet wide along the entire east boundary of Lots 2, 3, 4, 5, 6, 7, 11, 12 and 13 which adjoin Pine Creek;
15 feet wide along the entire west boundary of Lots 8 and 9 which adjoin Pine Creek.

Lease and sale of the lots will also be subject to rights of ways of record.

13. Such rights of way may be utilized by the Federal government, or the State, county, or municipality in which the tract is situated, or by any agency thereof. The rights of way, in the discretion of the authorized officer of the Bureau of Land Management, may be definitely located either prior to or after issuance of the patents.

14. The lots, if any, which are not leased as a result of the drawing, will not become subject to application by veterans who are not successful in the drawing or by the general public until a further order has been issued granting veterans of World War II a preference

right of application for a period of 90 days.

15. All inquiries relating to these lands should be addressed to the Manager, Land and Survey Office, Cheyenne, Wyoming.

W. B. WALLACE,
Regional Administrator.

TRI-STATE BROADCASTING SERVICE ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Sam C. Phillips, Clarence A. Camp and James E. Connolly, a partnership doing business as Tri-State Broadcasting Service, Memphis, Tennessee, Docket No. 10548, File No. BP-8775; Southern Broadcasting Service, Inc., Memphis, Tennessee, Docket No. 10549, File No. BP-8802; Newport Broadcasting Company (KNBY), Newport, Arkansas, Docket No. 10883, File No. BP-9081; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954:

The Commission having under consideration the above-entitled application of the Newport Broadcasting Company for a construction permit to change the facilities of Station KNBY, Newport, Arkansas, from 1280 kilocycles, 1000 watts, daytime only, to 730 kilocycles, 1000 watts, daytime only;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station KNBY as proposed; that the operation as proposed would result in mutually prohibitive interference with the above-entitled proposals of Tri-State Broadcasting Service and Southern Broadcasting Service, Inc. for construction permits for a new standard broadcast station to operate on 730 kilocycles, with a power of 250 watts, daytime only, at Memphis, Tennessee; and may involve interference to Station KTRY, Bastrop, Louisiana; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated December 9, 1953, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing, that a hearing in the above-mentioned Docket Nos 10458 and 10459 was scheduled to begin on December 9, 1953, but on that date an indefinite continuance was duly granted pending consolidation of the subject application, which was timely filed, in the said proceeding; and

It further appearing, that Station KTRY, in a reply dated December 14, 1953, requested that the subject application be designated for hearing; and

It further appearing, that the subject applicant filed a reply dated January 8, 1954, in which it requested that its application he designated for consolidated hearing with the above Memphis applications; and that the Hearing Examiner be directed to receive first only evidence relating to a section 307 (b) issues, and then, if the evidence supports a conclusion that the subject application should be granted under the said section, to suspend receipt of all other evidence and forthwith issue an Initial Decision granting the subject application; and

It further appearing, that, while a section 307 (b) issue might be dispositive of the proceeding, the same is true with regard to every single proceeding (in re Head of the Lakes Broadcasting Company, et al, 9 RR 1160); and

It further appearing, that upon due consideration of the above-entitled application and the replies to the above-mentioned letter, the Commission finds that a hearing is mandatory.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing in a consolidated proceeding with Docket Nos. 10548 and 10549, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether the operation proposed by Station KNBY would involve objectionable interference with Station KTRY, Bastrop, Louisiana, and, if so, the nature and extent thereof, the areas and populations affected thereby, the availability of other primary service to such areas and populations, and nature and character of the program service rendered by Station KTRY to such areas and populations.

2. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the applicants would provide the more fair, efficient and equitable distribution of radio service.

3. To determine, on a comparative basis, which of the operations proposed in the above-entitled applications would best serve the public interest, convenience or necessity in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programing service proposed in each of the above-mentioned applications.

It is further ordered, That the Morehouse Broadcasting Company, licensee of Station KTRY, Bastrop, Louisiana, is made a party to the proceeding.

Released: January 29, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-780; Filed, Feb. 3, 1954; 8:53 a. m.]

[Docket Nos. 10791, 10792]

MANSFIELD JOURNAL CO. AND FERGUM THEATRES, INC.

ORDER DELETING ISSUE

In re applications of Mansfield Journal Company, Mansfield, Ohio, Docket No. 10791, File No. BPCT-1178; Fergum Theatres, Inc., Mansfield, Ohio, Docket No. 10792, File No. BPCT-1179; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of January 1954;

The Commission having under consideration a request filed on December 2, 1953, for waiver of § 3.613 (a) of the Commission's rules and regulations to permit the location of its main studio outside the principal community to be served, and a Petition to Amend Issues filed on December 22, 1953, to delete an issue with respect to whether good cause exists for the location of its main studio outside the principal community to be served, by Fergum Theatres; and

It appearing, that Fergum Theatres, Inc., on November 23, 1953, filed an amendment to its application proposing to locate its main studio at its transmitter site outside the city of Mansfield, Ohio, without an adequate showing of good cause for the proposed location of its main studio; and

It further appearing, that in its order of December 2, 1953, the Commission in designating the application of Fergum Theatres, Inc., for hearing included an issue to determine whether good cause exists for the location of its main studio outside the principal community to be served and whether § 3.613 (a) of the Commission's rules and regulations should be waived; and

It further appearing, that Fergum Theatres, Inc., on December 2, 1953, filed a request for waiver of the provisions of § 3.613 (a) of the Commission's rules and regulations to permit location of its proposed main studio outside the city of Mansfield for the following reasons: (1) The unavailability of adequate or appropriate building space within the city of Mansfield, and (2) the greater economy of operations resulting from locating both studio and transmitter in the same building; and

It further appearing, that Fergum Theatres, Inc., has made an adequate showing that there is good cause for locating its main studio outside the principal community to be served and that to do so would not be inconsistent with the operation of the station in the public interest;

It is ordered, That the request for deletion of issue by Fergum Theatres, Inc., is granted; and

It is further ordered, That the Commission's order of December 2, 1953, released December 7, 1953, designating for hearing the above-described applications is modified by deletion of the following issue:

(4) To determine whether good cause exists for the location of the proposed main studio of Fergum Theatres, Inc., outside the principal community to be served; whether such location would be consistent with the operation of the station proposed by Fergum Theatres, Inc., in the public interest; and whether the provisions of § 3.613 (a) of the Commission's rules should be waived.

Released: February 1, 1954.

[Docket No. 10881, 10882]

SCOTT COUNTY BROADCASTING CO. AND COLUMBIA BROADCASTING CO., INC. (WCBI)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Roth E. Hook and William E. Farrar, a partnership doing business as Scott County Broadcasting Company, Forrest, Mississippi, Docket No. 10881, File No. BP-8857; Columbus Broadcasting Company, Inc. (WCBI), Columbus, Mississippi, Docket No. 10882, File No. BP-8977; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of January 1954;

The Commission having under consideration the above-entitled applications of the Scott County Broadcasting Company for a construction permit to operate a new standard broadcast station on 550 kilocycles, with a power of 1,000 watts, daytime only, at Forrest, Mississippi; and Columbus Broadcasting Company, Inc., licensee of Station WCBI, Columbus, Mississippi, for a construction permit to change the facilities thereof from 1340 kilocycles, 250 watts, unlimited time, to 550 kilocycles, 1,000 watts day and 500 watts night, directional antenna day and night, unlimited time;

It appearing, that each applicant is legally, technically, financially and otherwise qualified to operate the station proposed; but that operation of both stations as proposed would result in mutually prohibitive interference with each other and that WCBI, operating as proposed, may cause daytime interference to Station WHBQ, Memphis, Tennessee, and may otherwise not comply with the Standards of Good Engineering Practice; particularly with reference to providing interference-free service within the station's normally protected contour; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letters dated November 12, 1953, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing, that a third applicant, the Voice of the Confederacy, which was mutually exclusive with the subject applicants, filed no reply to the aforementioned letter, and its application was dismissed on January 13, 1954, for failure of prosecution, pursuant to § 1.381 of Commission rules and regulations; and

It further appearing, that the Scott County Broadcasting Company filed a reply dated December 3, 1953, in which it stated that it believed a hearing would be necessary; and

It further appearing, that a formal petition to designate the WCBI application for hearing was filed on December 9, 1953, by Harding College, licensee of Station WHBQ, Memphis, Tennessee, claiming the WCBI proposal would cause daytime interference to WHBQ; and

It further appearing, that in a reply dated December 14, 1953, WCBI amended its application with respect to programming, estimated construction costs and other business interests and stated that because of mutual exclusivity being involved it appeared that a hearing would be necessary; and

It further appearing, that in a letter dated December 21, 1953, WCBI stated that Scott County Broadcasting Company and Voice of the Confederacy had not replied within thirty days to the Commission's letter of November 12, 1953, and that their applications should be dismissed and that the above-mentioned petition by Harding College was defective; and that with dismissal of the aforesaid applications there was no reason for not granting the WCBI application; and

It further appearing, that upon due consideration of the above-entitled applications the various pleadings filed with respect thereto, and the replies to the above letters, the Commission finds that a hearing is necessary.

It is ordered, That, pursuant to section 309 (b) of the Communications Act, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether the operation proposed by Station WCBI would involve objectionable interference with Station WHBQ, Memphis, Tennessee, and, if so, the nature and extent thereof, the areas and populations affected thereby, the availability of other primary service to such areas and populations, and nature and character of the program service

rendered by Station WHBQ to such areas and populations.

2. To determine whether the installation and operation of the station proposed by Columbus Broadcasting Company, Inc. would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to providing interference-free service within the station's normally protected contour.

3. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the applicants would provide the more fair, efficient and equitable distribution of radio service.

4. To determine, on a comparative basis, which of the operations proposed in the above-entitled applications would best serve the public interest, convenience or necessity in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programing service proposed in each of the above-mentioned applications.

It is further ordered, That Harding College, licensee of Station WHBQ, Memphis, Tennessee, is made a party to the proceeding.

Released: February 1, 1954.

[Docket Nos. G-2093, G-2226]

CONNECTICUT GAS CO. AND HARTFORD GAS CO.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

In the matters of The Connecticut Gas Company, Docket No. G-2093; The Hartford Gas Company, Docket No. G-2226.

The Connecticut Gas Company, a Connecticut corporation having its principal office in Berlin, Connecticut, filed an application with the Federal Power Commission on November 24, 1952, and supplement thereto on October 22, 1953, for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing the transportation and sale of natural gas in interstate commerce, subject to the Commission's jurisdiction, as described in the application on file with the Commission and open to public inspection.

The Hartford Gas Company, a Connecticut corporation having its principal office in Hartford, Connecticut, filed an application with the Federal Power Commission on August 12, 1953, for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing the transportation of natural gas in interstate commerce, subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The operations sought to be certificated by the companies are interrelated and arise out of the conditions contained in Commission Opinion No. 259, in Docket No. G-1319, Algonquin Gas Transmission Company.

Temporary certificate authorizations were granted in the above matters on September 1, 1953.

The Commission finds:

(1) It is appropriate for the purposes of administration of the Natural Gas Act that the above proceedings be consolidated for hearing.

(2) These proceedings are proper matters for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicants having requested that their applications be heard under the shortened procedure provided by the aforesaid rule for uncontested proceedings, and no requests to be heard, protests or petitions having been filed subsequent to the giving of due notice of the filing of the applications, including publication in the FEDERAL REGISTER on December 11, 1952 (17 F. R. 11209) and August 29, 1953 (18 F. R. 5185), respectively.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, the above proceedings are consolidated for hearing only and a consolidated hearing be held on February 12, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning matters involved in and issues presented by the aforementioned applications: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of these proceedings pursuant to the provisions of § 1.32 (b) of its rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of said rules of practice and procedure.

Adopted: January 29, 1954.

Issued: January 29, 1954.

By the Commission.

ALGONQUIN GAS TRANSMISSION CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed on December 17, 1953, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on January 12, 1954 (19 F. R. 220).

The Commission orders:

(a) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 16, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however*, that the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(b) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 29, 1954.

Issued: January 29, 1954.

[Docket No. G-2359]

DOME GAS COMPANY, INC.

NOTICE OF APPLICATION

JANUARY 29, 1954.

Take notice that Dome Gas Company, Inc. (Applicant), an Indiana corporation having its principal place of business in Sullivan, Indiana, filed on January 25, 1954, an application for an order directing Texas Gas Transmission Corporation (Texas Gas) a "natural-gas company", a Delaware corporation with a principal office at Queensboro, Kentucky, to sell and deliver on a firm basis a maximum daily volume of 750 Mcf of natural gas at an existing point of connection of the facilities of Texas Gas with those of Applicant, pursuant to section 7 (a) of the Natural Gas Act.

The application recites the local gas wells supplying Applicant in the past have become seriously depleted, there is no adequate local supply available, and a firm supply is required from other sources. Texas Gas is presently supplying 225 Mcf of Applicant's requirements on an interruptible basis under authorization issued May 15, 1952, at Docket Nos. G-1807 and G-1830.

The Applicant alleges that no undue burden will be placed upon Texas Gas, nor will its ability to serve its customers be impaired by the granting to Applicant of the request made herein.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of February 1954. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3237]

ADOLF GOBEL, INC.

ORDER SUMMARILY SUSPENDING TRADING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 29th day of January A. D. 1954.

The Commission by order adopted March 13, 1953, pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, having summarily suspended trading in the $1.00 par value common stock of Adolf Gobel, Inc., on the American Stock Exchange for a period of ten days from that date, and subsequently having entered additional orders further suspending such trading in order to prevent fraudulent, deceptive or manipulative acts or practices; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on that Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C2-2 thereunder; for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, effective at the opening of the trading session on said Exchange on February 1, 1954, for a period of ten days.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3127]

DUQUESNE LIGHT CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION WITH RESPECT TO CERTAIN FEES AND EXPENSES

JANUARY 29, 1954.

The Commission by order dated November 30, 1953, having permitted to become effective on application-declaration filed by Duquesne Light Company ("Duquesne"), a public utility subsidiary of Standard Gas and Electric Company and Standard Power and Light Corporation, both registered holding companies, with respect to the issue and sale by Duquesne, pursuant to Rule U-50 of 100,000 shares of 4.20 percent Preferred Stock, par value $50 per share;

The Commission in its aforesaid order dated November 30, 1953, having reserved jurisdiction over, among other things, all fees and expenses incurred in connection with the issue and sale of said preferred stock;

Duquesne having on January 19, 1954, requested the Commission to release jurisdiction with respect to such fees and expenses, other than fees and expenses for accounting and legal services, and said fees and expenses having been estimated by Duquesne as follows:

Securities and Exchange Commission filing fee	$540 00
Federal and State stamp taxes	5, 500. 00
Pennsylvania stock excise tax	10, 000. 00
Printing	17, 050. 77
Engraving	9, 500. 00
Transfer agent and register fees	1, 200. 00
Qualifying under securities laws of various States	2, 000. 00
Listing on stock exchanges	1, 500. 00
Miscellaneous expenses	2, 510. 00
Total	49, 800. 77

The Commission finding that said estimated fees and expenses are not unreasonable, provided they do not exceed the foregoing amounts, and it appearing to the Commission that the jurisdiction heretofore reserved with respect thereto should be released:

It is ordered, That the jurisdiction heretofore reserved with respect to the above fees and expenses be, and the same hereby is, released, effective forthwith.

It is further ordered, That the jurisdiction heretofore reserved, other than as heretofore or herein expressly released, be, and the same hereby is, continued.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-756; Filed, Feb. 3, 1954; 8:49 a. m.]

[File No. 70-3174]

PUBLIC SERVICE CO. OF OKLAHOMA

ORDER REGARDING SALE OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING

JANUARY 29, 1954

An application having been filed with this Commission by Public Service Company of Oklahoma ("Oklahoma"), a public-utility subsidiary of Central and South West Corporation, a registered holding company, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder with respect to proposed transactions, which are summarized as follows:

Oklahoma proposes to issue and sell, at competitive bidding pursuant to Rule

U-50 of the general rules and regulations of the Commission under the act, $12,500,000 in principal amount of its First Mortgage Bonds, Series E, ___ percent, to be dated February 1, 1954, to mature February 1, 1984, and to be issued under and secured by the Indenture of Mortgage dated July 1, 1945, between the applicant and The First National Bank and Trust Company of Tulsa, as Trustee, as amended by the indentures supplemental thereto heretofore executed and by a proposed Supplemental Indenture to be dated February 1, 1954. The proposed Supplemental Indenture states the terms, provisions and characteristics of the bonds of Series E and supplements and amends said Indenture in certain related respects, and will confirm the lien of said Indenture on certain "after-acquired property" constructed or acquired by Oklahoma on or subsequent to March 1, 1953, and described therein.

The net proceeds (exclusive of accrued interest) to be received by applicant from the sale of the $12,500,000 principal amount of Series E Bonds proposed to be issued, will be used in payment or reimbursement of a part of the cost of additions, extensions and improvements made or to be made to its electric utility properties.

The issuance and sale of the proposed bonds are subject to the jurisdiction of the Corporation Commission of Oklahoma, the State commission of the State in which Oklahoma is organized and doing business and have been authorized by that Commission.

Applicant requests that this Commission's order to be entered herein become effective forthwith upon its issuance.

Fees and expenses of the issuance and sale, other than underwriting discounts and commissions are estimated as follows:

Securities and Exchange Commission filing fee	$1,300
Federal original issue stamp tax	13,750
Printing of registration statement, prospectus, bidding documents, supplemental indenture, etc	8,000
Preparation of bonds	2,600
Trustee's fees	6,250
Accountants' fees	1,500
Fees for recording supplemental indenture	1,000
Fees of Middle West Service Co	7,000
Miscellaneous expenses, including traveling, telephone, etc	2,400
Total estimated expenses	43,800

Counsel fees of Stevenson, Dendtler, Bailey & McCabe and T. M. Markley, counsel for the applicant are covered by annual retainer or salary agreement. The fees ($6,500) and disbursements (estimated at not more than $350) of Isham, Lincoln & Beale, counsel for the purchasers, are to be paid by the successful bidder. In addition, the company will reimburse the successful bidder for expenses and for counsel fees payable in whole or in part to Isham, Lincoln & Beale in an amount not to exceed $1,200 which is the estimated aggregate expenditures in connection with qualification or registration under state securities laws.

Due notice having been given of the filing of the application, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, that no adverse findings are necessary, and that the fees and expenses as estimated are not unreasonable, and deeming it appropriate in the public interest and the interest of investors and consumers that said application, as amended, be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application, as amended, be and it hereby is granted, effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-754; Filed, Feb. 2, 1954; 8:49 a. m.]

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28870]

GRAIN FROM MIDWEST AND SOUTHWEST TO BEAUMONT AND PORT ARTHUR, TEX., FOR EXPORT

APPLICATION FOR RELIEF

FEBRUARY 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Chicago, Rock Island and Pacific Railroad Company for itself and on behalf of the Kansas City Southern Railway Company and the Louisiana & Arkansas Railway Company.

Commodities involved: Grain, grain products and related articles, carloads.

From: Atchison, Kans., Council Bluffs, Iowa, Kansas City, Mo.-Kans., Omaha and South Omaha, Nebr., and St. Joseph, Mo., and other points in Colorado, Kansas, Nebraska and Oklahoma.

To: Beaumont and Port Arthur, Texas for export.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Schedules filed containing proposed rates: Chicago, Rock Island and Pacific Railroad Company, ICC No. C-13346, supl. 40.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 28874]

GRAIN FROM GREEN CITY AND UNIONVILLE, MO., TO GULF PORTS

APPLICATION FOR RELIEF

FEBRUARY 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Grain, grain products and related articles, carloads.

From: Green City and Unionville, Mo.

To: Gulf ports for export.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Schedules filed containing proposed rates: Chicago, Burlington and Quincy Railroad Company ICC No. 20396, supl. 37.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

FEDERAL REGISTER

VOLUME 19 NUMBER 25

Washington, Friday, February 5, 1954

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

SECURITIES EXEMPTED FROM REGISTRATION

On December 3, 1953, the Securities and Exchange Commission invited all interested persons to submit data, views and comments on the amendment of Rule X-12A-5, the rescission of §§ 240.12a-6, 240.12a-7, 240.12a-8, and 240.12a-9 (Rules X-12A-6, X-12A-7, X-12A-8, and X-12A-9), §§240.12d3-1 through 240.12d3-10 (Regulation X-12D3), and §§ 249.231 and 249.232 (Forms 1-J and 2-J) (see Securities Exchange Act Release No. 4969-X). The Commission has considered all the data, views and comments submitted and has adopted the proposals with certain modifications set forth below.

The Commission is engaged in a comprehensive review of the rules, regulations, forms and procedures adopted under the various statutes administered by it. It is attempting to eliminate duplication and to simplify its requirements wherever practicable without prejudice to the public interest or the protection of investors. The present action is part of this program.

Regulation X-12D3, which consists of §§ 240.12d3-1 through 240.12d3-10 (Rules X-12D3-1—X-12D3-10), provides for the registration for when issued trading on national securities exchanges of unissued short-term warrants, commonly called subscription rights, and for such registration of unissued securities other than short-term warrants. Form 1-J (17 CFR 249.231) is the appropriate form required to be filed for registration of such warrants, and Form 2-J (17 CFR 249.232) is required to be filed for registration of other unissued securities.

For all practical purposes, Regulation X-12D3 and Form 1-J have been obsolete as to warrants since June 22, 1950, when the Commission amended § 240.12a-4 (Rule X-12A-4) to provide that an unissued short-term warrant as well as an issued short-term warrant could be traded on an exchange as an exempted security pursuant to the filing of an exemption statement on Form AN-4 (17 CFR 249.235) by either the issuer or the exchange for both when issued and regular way trading. On December 29, 1952, the Commission further amended Rule X-12A-4 to substitute the filing by the exchange of a notice of intent to trade in lieu of the formal filing of an exemption statement on Form AN-4, and Form AN-4 was then rescinded.

On March 20, 1953, the Commission amended § 240.12a-5 (Rule X-12A-5) so that the conditional temporary exemption from registration provided by that rule for trading issued securities on exchanges would also provide such exemption for trading such securities on a when issued basis before they are issued. Since trading under § 240.12a-5 (Rule X-12A-5) is on the basis of a notice from the exchange, the amendment of March 20, 1953, made unnecessary the filing of formal applications for registration on Form 2-J for when issued trading in unissued securities proposed to be issued in stock splits, stock dividends, mergers, consolidations, reorganization plans, etc., to the holders of securities already traded on exchanges.

The only cases in which Regulation X-12D3 still served a substantial practical purpose is where the securities to be traded are the subject of a voluntary subscription or exchange right granted to the holders of a security traded on an exchange. Section 240.12a-5 (Rule X-12A-5) has been further amended to cover these cases and generally to simplify its requirements. The general time limit of the exemption has been extended from 60 to 120 days. The provisions of Rule X-12A-5, which are applicable whether the new security is issued or unissued, should be far less burdensome to issuers and exchanges than the provisions of Regulation X-12D3, while affording equivalent protection to investors.

It is believed that none of the ten rules or Regulation X-12D3 now serve a useful purpose and the Commission has, therefore, rescinded the entire regulation and Forms 1-J and 2-J (17 CFR 249.231 and 249.232) promulgated thereunder.

The Commission has also rescinded §§ 240.12a-6, 240.12a-7, 240.12a-8, and 240.12a-9 (Rules X-12A-6, X-12A-7, X-12A-8 and X-12A-9). The situation

to which §§ 240.12a–6 and 240.12–8 (Rules X-12A–6 and X-12A–8) relate are believed to be covered by § 240.12a–5 (Rule X-12A–5). Sections 240.12a–7 and 240.12a–9 (Rules X-12A–7 and X-12A–9) were promulgated in the light of particular circumstances and it is believed are no longer of general usefulness.

Statutory basis. The action described in this release has been taken pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 3 (a) (12), 12 and 23 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out its functions under the act.

Text of amendment. The text of the amendments to § 240.12a–5 is as follows:

§ 240.12a–5 *Temporary exemption of substituted or additional securities.* (a) (1) Whenever by operation of law or otherwise (i) the holders of a security admitted to trading on a national securities exchange (hereinafter called the "original" security) have the right to subscribe to or otherwise acquire all or any part of a class of another security (whether of the same or another issuer) in substitution for or in addition to the original security, or (ii) the instrument evidencing the original security has come to evidence another security (whether of the same or another issuer) in substitution for or in addition to the original security, then the entire class outstanding of such other security shall be exempted from the operation of section 12 (a) to the extent necessary to render lawful the effecting of transactions therein on any national securities exchange on which the original security is admitted to trading; provided that a registration statement is in effect under the Securities Act of 1933 as to such other security, to the extent required, or the terms of any applicable exemption from registration under such act have been complied with, if required.

(2) An unissued security shall be exempt from the operation of section 12 (a) of the act to the extent necessary to render lawful when issued trading in such security on a national securities exchange, provided (i) transactions in the security on such exchange would upon the issuance of the security be exempt under this rule from the operation of said section, (ii) a registration statement is in effect under the Securities Act of 1933 as to such unissued security, to the extent required, or the terms of any applicable exemption from registration under such act have been complied with, if required, (iii) the approval of stockholders of the issuance of such security has been obtained, if required, and (iv) all other necessary official action, other than the filing or recording of charter amendments or other documents with the appropriate State authorities, has been taken to authorize and assure the issuance of such security.

* * * * *

(b) The exemption provided by this section shall terminate on the earliest of the following dates.

* * * * *

(4) The close of business on the one hundred and twentieth day after the date on which the exempt security was admitted by action of the exchange to trading thereon as a security exempted from the operation of section 12 (a) by this section, unless prior thereto an application for registration of the exempt security or for admission of the exempt security to unlisted trading privileges on the exchange has been filed.

* * * * *

(d) The exchange shall notify the Commission in writing of any event within the purview of paragraph (a) of this section promptly after acquiring knowledge thereof. The notification shall briefly describe the event, shall state the date on which the substituted or additional security was or is proposed to be admitted to trading on the exchange as a security exempted from the operation of section 12 (a) by this section, and shall, unless a registration statement has been filed under the Securities Act of 1933 or an application has been filed under the Securities Exchange Act of 1934 with respect to such security, briefly describe the plan of issuance of such security. The exchange shall promptly notify the Commission of any material change in the foregoing.

Since the amendment of § 240.12a–5 expands the scope of an exemption, it has been made effective immediately, January 28, 1954. The rescission of §§ 240.12a–6, 240.12a–7, 240.12a–8, 240.12a–9, Regulation X–12D3, and Forms 1–J and 2–J (17 CFR 249.231 and 249.232) has been made effective March 1, 1954.

(Sec. 23, 48 Stat. 901, as amended; 15 U. S. C. 78w. Interprets or applies secs. 3, 12, 48 Stat. 882, 892; 15 U. S. C. 78c, 78l)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JANUARY 28, 1954.

[F. R. Doc. 54–810; Filed, Feb. 4, 1954; 8:49 a. m.]

PART 240—GENERAL RULES AND REGULATIONS UNDER THE SECURITIES EXCHANGE ACT OF 1934

EFFECTIVENESS OF REGISTRATION; EXCHANGE CERTIFICATION

On December 3, 1953, the Securities and Exchange Commission invited all interested persons to submit data, views and comments on the amendment of Regulation X-12D1 and Form 8–A and the rescission of Rule X-12D2–2 (b) (see Securities Exchange Act Release No. 4969–Y). The Commission has considered all of the data, views and comments submitted and has adopted the proposals with certain modifications set forth below.

The Commission is engaged in a comprehensive review of the rules, regulations, forms and procedures adopted under the various statutes administered by it. It is attempting to eliminate duplication and to simplify its requirements wherever practicable without prejudice to the public interest or the protection of investors.

As part of this program, the Commission has revised its registration rules under section 12 of the act, as set forth in this release. Under the prior practice, registration was effective only as to a specified amount of a class of security so that if additional shares or amounts of the same class were to be subsequently issued, a new application on Form 8–A had to be filed for registration of the additional amounts. Under the new practice the original application for registration will be deemed to apply for registration of the entire class, and the registration of unissued shares or amounts will become automatically effective when they are issued, without further application, certification or order. This should make unnecessary a large majority of the applications previously filed on Form 8–A since most such applications are for registration of

additional blocks of a class of security already registered in part. In view of the reporting requirements of Forms 8–K and 10–K, it is not believed that the filing of such applications is necessary in the interest of investors. Under the new procedure, applications on Form 8–A will have to be filed only in the event that a new class or series is to be registered. The time and expense saved by registrants, exchanges and the Commission itself should be considerable.

The new procedure will, of course, not affect the continuing right of exchanges to require certain filings with them prior to actual listing or issuance of specified blocks of the registered class or prior to modification thereof.

The provisions of Regulations X-12D1 which govern exchange certifications have been amended so as to eliminate requirements which will be unnecessary under the new procedure and paragraph (b) of Rule X-12D2 has been rescinded for the same reason.

A copy of the amended Form 8–A (17 CFR 249.208a), as adopted by the Commission, is attached.[1] It will be noted that the revision considerably simplifies the old form. This has been made possible principally by the deletion of certain requirements which are considered to be unnecessary in view of the current and annual reporting requirements of the registrant and in view of the class registration technique.

Statutory basis. The action described in this release has been taken pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 12 and 23 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out its functions under the act.

Text of amendment. The text of the amended Regulation X-12D1, as adopted by the Commission, is as follows:

Sec.

240.12d1–1 Registration effective as to class or series.
240.12d1–2 Acceleration of effectiveness of registration.
240.12d1–3 Requirements as to certification.
240.12d1–4 Date of receipt of certification by Commission.
240.12d1–5 Operation of certification on subsequent amendments.
240.12d1–6 Withdrawal of certification.

AUTHORITY: §§ 240.12d1–1 to 240.12d1–6 issued under sec. 23, 48 Stat. 901, as amended, 15 U. S. C. 78w. Interpret or apply sec. 12, 48 Stat. 892; 15 U. S. C. 781.

§ 240.12d1–1 *Registration effective as to class or series.* (a) An application filed pursuant to section 12 (b) and (c) of the act for registration of a security on a national securities exchange shall be deemed to apply for registration of the entire class of such security. Registration shall become effective, as provided in section 12 (d) of the act, (1) as to the shares or amounts of such class then issued, and (2), without further application for registration, upon issuance as to additional shares or amounts of such class then or thereafter authorized.

(b) This section shall apply to classes of securities of which a specified number of shares or amounts was registered or registered upon notice of issuance, and to applications for registration filed, prior to the close of business on January 28, 1954, as well as to classes registered, or applications filed, thereafter.

(c) This section shall not affect the right of a national securities exchange to require the issuer of a registered security to file documents with or pay fees to the exchange in connection with the modification of such security or the issuance of additional shares or amounts.

(d) If a class of security is issuable in two or more series with different terms, each such series shall be deemed a separate class for the purposes of this section.

§ 240.12d1–2 *Acceleration of effectiveness of registration.* A request for acceleration of the effective date of registration pursuant to section 12 (d) of the act and § 240.12d1–1 shall be made in writing by either the registrant, the exchange, or both and shall briefly describe the reasons therefor.

§ 240.12d1–3 *Requirements as to certification.* (a) Certification that a security has been approved by an exchange for listing and registration pursuant to section 12 (d) of the act and § 240.12d1–1 shall be made by the governing committee or other corresponding authority of the exchange.

(b) The certification shall specify (1) the approval of the exchange for listing and registration; (2) the title of the security so approved; (3) the date of filing with the exchange of the application for registration and of any amendments thereto; and (4) any conditions imposed on such certification. The exchange shall promptly notify the Commission of the partial or complete satisfaction of any such conditions.

(c) The certification may be made by telegram but in such case shall be confirmed in writing. All certifications in writing and all amendments thereto shall be filed with the Commission in duplicate and at least one copy shall be manually signed by the appropriate exchange authority.

§ 240.12d1–4 *Date of receipt of certification by Commission.* The date of receipt by the Commission of the certification approving a security for listing and registration shall be the date on which the certification is actually received by the Commission or the date on which the application for registration to which the certification relates is actually received by the Commission, whichever date is later.

§ 240.12d1–5 *Operation of certification on subsequent amendments.* If an amendment to the application for registration of a security is filed with the exchange and with the Commission after the receipt by the Commission of the certification of the exchange approving the security for listing and registration, the certification, unless withdrawn, shall be deemed made with reference to the application as amended.

§ 240.12d1–6 *Withdrawal of certification.* An exchange may, by notice to the Commission, withdraw its certification prior to the time that the registration to which it relates first becomes effective pursuant to § 240.12d1–1.

Since the amendments of Regulation X-12D1 and of Form 8–A (17 CFR 249.208a) are intended to simplify registration procedure under the Securities Act of 1934, they have been declared effective immediately, January 28, 1954; except that any registrant or exchange who so desires may operate under the regulation and forms, as previously in effect, prior to March 1, 1954. Since the rescission of § 240.12d2–2 (b) (Rule X-12D2–2 (b)) relieves a restriction, it has been made effective immediately, January 28, 1954.

By the Commission.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 146; 18 F. R. 351, 352, 1205, 1207, 1415, 1588, 2099, 2337, 2786, 2940, 3325, 3533, 3832, 3930, 4376, 4950, 4951, 5347, 5447, 5448, 5591, 6318, 6319, 6320, 6353, 6773, 6850, 7294, 7295, 7311, 7383, 7673, 7844, 8132, 8133, 8477) are amended as indicated below:

1. Section 146.24 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon, deleting the word "and", and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

2. Section 146.25 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

3. Section 146.26 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

4. Section 146.27 (c) (1) (vi) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

5. Section 146.28 (c) (1) (v) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

6. Section 146.29 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

7. Section 146.30 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

8. Section 146.31 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

9. Section 146.32 (c) (1) (iii) is amended by adding the following new sentence: "Such expiration dates may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

10. Section 146.33 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon, omitting the word "and", and adding the following new clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

11. Section 146.34 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

12. Section 146.35 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

13. Section 146.36 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

14. Section 146.38 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

15. Section 146.39 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

16. Section 146.40 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

17. Section 146.41 (c) (1) (iv) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

18. Section 146.42 (c) (3) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

19. Section 146.43 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

20. Section 146.44 (c) (3) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

21. Section 146.45 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

22. Section 146.46 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

23. Section 146.47 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

24. Section 146.48 (c) (3) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

25. Section 146.49 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

26. Section 146.51 (c) (1) (vi) is amended by changing the semicolon at the end thereof to a colon, omitting the word "and", and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

27. Section 146.53 (a) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container

if such immediate container is packaged in an individual wrapper or container."

28. Section 146.58 (c) (1) (iv) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

29. Section 146.59 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

30. Section 146.63 (c) (1) (v) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

31. Section 146.64 (c) (3) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

32. Section 146.65 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

33. Section 146.66 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

34. Section 146.67 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

35. Section 146.68 (c) (3) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

36. Section 146.69 (c) (1) (v) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

37. Section 146.74 (c) (3) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

38. Section 146.75 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

39. Section 146.76 (c) (1) (v) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

40. Section 146.77 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, that such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

41. Section 146.79 (c) (3) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

42. Section 146.80 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

43. Section 146.82 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

44. Section 146.86 (c) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

45. Section 146.88 (a) (2) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

46. Section 146.89 (b) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

47. Section 146.101 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon, omitting the word "and", and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

48. Section 146.102 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

49. Section 146.104 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon, omitting the word "and", and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

50. Section 146.105 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon, omitting the word "and", and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

51. Section 146.106 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following new clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

52. Section 146.107 (c) (1) (v) is amended by changing the period at the end thereof to a colon and adding the following new clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

53. Section 146.108 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following new clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

54. Section 146.109 (c) (1) (vi) is amended by changing the period at the end thereof to a colon and adding the following new clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

55. Section 146.110 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

56. Section 146.111 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

57. Section 146.112 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

58. Section 146.114 (c) (3) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

59. Section 146.115 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

60. Section 146.118 (c) (1) (vi) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

61. Section 146.201 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

62. Section 146.202 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

63. Section 146.203 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

64. Section 146.204 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

65. Section 146.205 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

66. Section 146.206 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

67. Section 146.208 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon, omitting the word "and", and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

68. Section 146.211 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

69. Section 146.212 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

70. Section 146.213 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

71. Section 146.214 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

72. Section 146.215 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

73. Section 146.217 (c) (1) (v) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

74. Section 146.301 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon, omitting the word "and", and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

75. Section 146.302 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

76. Section 146.303 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

77. Section 146.304 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

78. Section 146.305 (c) (3) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

79. Section 146.306 (c) (1) (iv) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

80. Section 146.307 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

81. Section 146.308 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

82. Section 146.309 (a) (4) is amended by changing the period at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

83. Section 146.401 (c) (1) (iv) is amended by changing the semicolon at the end thereof to a colon, by omitting the word "and", and by adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

84. Section 146.402 (c) (1) (iv) is amended by changing the semicolon at the end thereof to a colon, by omitting the word "and", and by adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

85. Section 146.403 (c) (1) (iii) is amended by changing the semicolon at the end thereof to a colon and adding the following clause: "*Provided, however*, That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

86. Section 146.404 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the

following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

87. Section 146.405 (c) (1) (iii) is amended by adding the following new sentence: "Such expiration dates may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

88. Section 146.408 (c) (1) (iv) is amended by changing the semicolon at the end thereof to a colon, omitting the word "and", and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container;".

89. Section 146.409 (a) (5) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

90. Section 146.411 (a) (2) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

91. Section 146.414 (a) (2) is amended by changing the period at the end of the first sentence to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

92. Section 146.416 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

93. Section 146.417 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

94. Section 146.418 (c) (3) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

95. Section 146.419 (c) (1) (iii) is amended by changing the period at the end thereof to a colon and adding the following clause: *"Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container."

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: February 1, 1954.

[SEAL] OVETA CULP HOBBY, *Secretary.*

[F. R. Doc. 54-836; Filed, Feb. 4, 1954; 8:54 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter K—Security of Vessels

[CGFR-54-4]

PART 121—SECURITY CHECK AND CLEARANCE OF MERCHANT MARINE PERSONNEL

APPEAL AND REVIEW PROCEDURES FOR PERSONS DENIED SECURITY CLEARANCE

The purpose for amending 33 CFR 121.21 (a) (3) (i) is to announce and state that the written statement or bill of particulars furnished to persons denied security clearance in appeal and review procedures will be prepared by the Commandant, United States Coast Guard, and that such statement or bill of particulars will be furnished by him to the Chairman, Local Appeal Board, for inclusion in the written notification required by 33 CFR 121.21 (a) (3). The revised appeal and review procedures for persons denied security clearance was published in the FEDERAL REGISTER dated November 3, 1953, and the amendment in this document is to clarify the responsibility with respect to the written statement or bill of particulars furnished appellants. The Chairman, Local Appeal Board, only transmits the written statement or bill of particulars to the appellant.

It is hereby found that compliance with the notice of proposed rule making, public rule making procedures thereon, and effective date requirements of the Administrative Procedure Act is impracticable since this change clarifies the appeal and review procedures followed for persons denied security clearance and in the public interest should be placed in effect as soon as possible.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Executive Order 10173, as amended, the following amendment is prescribed and shall become effective immediately upon publication of this document in the FEDERAL REGISTER:

Section 121.21 (a) (3) (i) is amended by adding the following sentence at the end thereof:

§ 121.21 *Chairman of the Board; duties and responsibilities.* (a) • • •

(3) • • •

(i) • • • This written statement or bill of particulars will be prepared by the Commandant and will be furnished by him to the Chairman of the Board for inclusion in the written notification required by this paragraph.

(40 Stat. 220, as amended; 50 U. S. C. 191. E. O. 10173, Oct. 18, 1950, 15 F. R. 7005; 3 CFR, 1950 Supp., as amended by E. O. 10277, Aug. 1, 1951, 16 F. R. 7537; 3 CFR, 1951 Supp., E. O. 10352, May 19, 1952, 17 F. R. 4607; 3 CFR, 1952 Supp.)

Dated: January 29, 1954.

[SEAL] MERLIN O'NEILL, *Vice Admiral, U. S. Coast Guard, Commandant.*

PART 53—MECHANIC SCHOOL CERTIFICATES

ENTRANCE EXAMINATIONS

The purpose of this supplement is to set forth the CAA policies regarding methods for determining the credit to be allowed an applicant for work completed in another school. A new § 53.53–2 is adopted to read:

§ 53.53–2 *Entrance examinations (CAA policies which apply to § 53.53).* A certificated mechanic school may apply credit toward the completion of its approved course for work an applicant has satisfactorily completed while a student at another mechanic school, accredited college, state-owned vocational or trade school, or military technical specialty school. The amount of credit to be allowed may be determined by requiring that the applicant pass an entrance examination equivalent to one given their own students at the completion of each course; phase; or by requiring that the applicant furnish a properly authenticated transcript of grades from the former school showing the curriculum in which he was enrolled, and the hours of attendance, as well as the grades for each subject. In lieu of a transcript of grades, the amount of credit to be allowed an applicant with military technical specialty training will be determined by the entrance examination. In any case, the credit given any applicant is to be shown in hours on the student record.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 607, 52 Stat. 1007, 1011; 49 U. S. C. 551, 557)

This suplement shall become effective February 5, 1954.

[SEAL] F. B. LEE, *Administrator of Civil Aeronautics.*

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 64]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Beginner, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Ceilings are in feet above airport elevation. If an LF radio range approach is combined with a VHF radio range, unless an airport clearance with a different procedure is specified, the following procedure for Civil Aeronautics Administration shall be in effect for each airport. Initial approaches shall be made over the LF radio range on the prescribed course, or as set forth below. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name; operator; facility class and identification procedure No; effective date	Initial approach to facility from—	Course and distance	Minimum altitude	Procedure turn (—) side of course; distance from facility; direction; minimum altitude	Ceiling and visibility minimums: Type aircraft: 85 m. p. h. or less — Condition	Ceiling and visibility minimums: Type aircraft: 85 m. p. h. or less — Minimum ceiling over facility	Ceiling and visibility minimums: Type aircraft: 85 m. p. h. or less — Visibility	Ceiling and visibility minimums: Type aircraft: More than 85 m. p. h. — Condition	Ceiling and visibility minimums: Type aircraft: More than 85 m. p. h. — Minimum ceiling over facility	Ceiling and visibility minimums: Type aircraft: More than 85 m. p. h. — Visibility	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

[Amdt. 57]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows:

1. Section 610.102 *Amber civil airway No. 2* is amended to read in part:

From—	To—	Minimum altitude
Craig (INT), Mont.	Great Falls, Mont. (LFR).[1]	8,500

[1] 6,600′—Minimum crossing altitude at Great Falls (LFR), southwest-bound.

2. Section 610.103 *Amber civil airway No. 3* is amended to read in part:

From—	To—	Minimum altitude
Lewistown, Mont. (LFR).	Great Falls, Mont. (LFR).[1]	9,[illegible]

[1] 6,600′—Minimum crossing altitude at Great Falls (LFR), eastbound.

3. Section 610.104 *Amber civil airway No. 4* is amended to read in part:

From—	To—	Minimum altitude
Fort Worth, Tex. (LFR)	Decatur (INT), Tex.	2,000
Decatur (INT), Tex.	Ringling (INT), Okla.	2,[illegible]
Ringling (INT), Okla.	Oklahoma City, Okla. (LFR)	2,700
Oklahoma City, Okla. (LFR).	Shawnee (INT), Okla.	2,700
Shawnee (INT), Okla.	Tulsa, Okla. (LFR)	2,[illegible]

4. Section 610.235 *Red civil airway No. 35* is amended to read in part:

From—	To—	Minimum altitude
Cassoday (INT), Kans.	Forbes AFB, Kans. (LFR).	2,000

5. Section 610.277 *Red civil airway No. 77* is amended to read in part:

From—	To—	Minimum altitude
Tappahannock, Va. (LFR)	Dover, Del. (LFR)	1,500
Dover, Del. (LFR)	Atlantic City, N. J. (LFR).	1,500

6. Section 610.300 *Red civil airway No. 100* is added to read:

From—	To—	Minimum altitude
South Bend, Ind. (LFR).	Battle Creek, Mich. (LFR).	2,300

7. Section 610.603 *Blue civil airway No. 3* is amended to read in part:

From—	To—	Minimum altitude
Goshen, Ind. (LFR)	Union (INT), Mich.	2,200
Union (INT), Mich.	Kalamazoo (INT), Mich.	2,300
Kalamazoo (INT), Mich.	Grand Rapids, Mich. (LFR).	2,300

8. Section 610.605 *Blue civil airway No. 5* is amended to read in part:

From—	To—	Minimum altitude
Pilot Point (INT), Tex.	Ardmore, Okla. (LF RBN).	2,200
Ardmore, Okla. (LF RBN).	Tinker AFB, Okla. (LFR).	2,700

9. Section 610.606 *Blue civil airway No. 6* is amended to read in part:

From—	To—	Minimum altitude
South Bend, Ind. (LFR).	Benton Harbor (INT), Mich.	2,300

10. Section 610.628 *Blue civil airway No. 28* is amended to read in part:

From—	To—	Minimum altitude
Spartanburg, S. C. (LFR)	Fairview (INT), N. C.	6,300
Fairview (INT), N. C.	Bulls Gap (INT), Tenn.	8,000

11. Section 610.635 *Blue civil airway No. 35* is amended to read in part:

From—	To—	Minimum altitude
Camarillo, Calif. (LFR).[1]	Wheeler Ridge (INT), Calif.	10,000

[1] 7,000′—Minimum crossing altitude at Camarillo (LFR), northbound.

12. Section 610.1001 *Direct route, United States* is amended by adding:

From—	To—	Minimum altitude
Crescent (INT), Okla.	Tulsa, Okla. (LFR)	2,400

13. Section 610.6003 *VOR civil airway No. 3* is amended to read in part:

From—	To—	Minimum altitude
Miami, Fla. (VOR)	Golden Beach (INT), Fla.[1]	1,500
Golden Beach (INT), Fla.	West Palm Beach, Fla. (VOR).	[1] 2,400

[1] 2,100′—Minimum reception altitude.
[2] 1,500′—Minimum terrain clearance altitude.

14. Section 610.6019 *VOR civil airway No. 19* is amended to read in part:

From—	To—	Minimum altitude
Lewistown, Mont. (VOR).	Great Falls, Mont. (VOR).[1]	9,000

[1] 6,800′—Minimum crossing altitude at Great Falls (VOR), eastbound.

15. Section 610.6020 *VOR civil airway No. 20* is amended to read in part:

From—	To—	Minimum altitude
Palacios, Tex. (VOR).	Houston, Tex. (VOR).	1,600

16. Section 610.6021 *VOR civil airway No. 21* is amended to read in part:

From—	To—	Minimum altitude
Helena, Mont. (VOR)	Great Falls, Mont. (VOR)[1]	9,500

[1] 6,600′—Minimum crossing altitude at Great Falls (VOR), southwest-bound.

17. Section 610.6022 *VOR civil airway No. 22* is amended by adding:

From—	To—	Minimum altitude
New Orleans, La. (VOR).	Horn (INT), Miss.	[1] 5,000
Horn (INT), Miss.[2]	Mobile, Ala. (VOR).	2,000

[1] 1,000′—Minimum terrain clearance altitude.
[2] 5,000′—Minimum reception altitude.

18. Section 610.6038 *VOR civil airway No. 38* is amended to read in part:

From—	To—	Minimum altitude
Mentone (INT), Ind.	Fort Wayne, Ind. (VOR).	

19. Section 610.6115 *VOR civil airway No. 115* is amended to read in part:

From—	To—	Minimum altitude
Crestview, Fla. (VOR)	Andalusia (INT), Ala.	1,[illegible]
Andalusia (INT), Ala.	Montgomery, Ala. (VOR).	1,700

20. Section 610.6120 *VOR civil airway No. 120* is amended to read in part:

From—	To—	Minimum altitude
Great Falls, Mont. (VOR).[1]	Lewistown, Mont. (VOR).	[illegible]

[1] 6,900′—Minimum crossing altitude at Great Falls (VOR), eastbound.

21. Section 610.6131 *VOR civil airway No. 131* is amended by adding:

From—	To—	Minimum altitude
Paso Robles, Calif. (VOR).	Modesto, Calif. (VOR).	7,000

22. Section 610.6145 *VOR civil airway No. 145* is added to read:

From—	To—	Minimum altitude
Utica, N. Y. (LFR).	Watertown, N. Y. (VOR).	3,000

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective February 9, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[6th General Rev. of Export Regs., Amdt. 79 [1]]

PART 368—MUTUAL ASSISTANCE ON U. S. IMPORTS AND EXPORTS (AS APPLIED TO SELECTED U. S. IMPORTS)

PART 371—GENERAL LICENSES

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 383—APPEALS

MISCELLANEOUS AMENDMENTS

1. Section 368.1 *Import certificate and delivery verification on selected imports into the United States*, paragraph (b) *Import certificate covering imports into United States*, subparagraph (2) *Where to file* is amended by adding the following paragraphs at the end thereof:

(iii) The import certificate will be stamped with a validity period of 90 days from the date of the certification by the Department of Commerce official.[2]

This document will not be acceptable to the authorities of the exporting country unless presented within 90 days from the date of certification. Importers are cautioned that this time limitation for the presentation of the import certificate to the exporting country in no way relieves them of their responsibility to adhere to the commitments made therein.

(iv) Where the validity period of an import certificate has expired before its presentation to the foreign government and an extension is desired, the United States importer should apply for a new import certificate.

2. Section 368.1 *Import certificate and delivery verification on selected imports into the United States, paragraph* (d) *Delivery verification on imports into the United States* is amended by designating the present text as paragraph (c) and by adding the following paragraphs at the beginning thereof:

(a) U. S. importers may be requested by their foreign exporters to supply them with certified delivery verifications (Form IT-908) covering materials imported into the United States. These requests are made by the various foreign governments for the purpose of assuring that strategic goods shipped to the United States are not diverted from their intended destination. The issuance of export licenses in these instances was conditioned upon the subsequent receipt of certified delivery verifications from U. S. importers.

(b) Failure on the part of the U. S. importer to comply with his foreign exporter's request will result in the exporter's inability to fulfill this obligation to his government and may result in his being denied further export licenses. This action obviously would prevent the U. S. importer's participation in further import transactions with such foreign exporter. It also may result in the U. S. importer being cut off from any trade with the exporting country requesting the delivery verification. In addition, the foreign exporter may be subjected to other penalties for his failure to furnish his government a certified delivery verification.

3. Section 371.4 *Reexportation from country of destination*, paragraph (b) *Permissive reexportations* is amended to read as follows:

(b) *Permissive reexportations.* Any commodity which has been exported from the United States may be reexported from any destination to any other destination: *Provided*, That at the time of reexportation, the commodities to be reexported may be exported directly from the United States to the new country of destination either under General License GO, GRO, GHS, or GHK, or where the value of the reexportation does not exceed the GLV dollar value limit shown on the Positive List with reference to the country of destination.

[The note following paragraph (b) remains unchanged.]

4. Section 371.9 *General in-transit license GIT*, paragraph (a) *General provisions*, subparagraph (1) *Scope* is amended to read as follows:

(1) *Scope.* (i) There is hereby established a general license, designated GIT, authorizing, subject to the other provisions of this section, the exportation from the United States of commodities which originate in and are destined to any foreign country except Subgroup A destinations: *Provided*, That such commodities are moving in transit through the United States under a Transportation and Exportation (T. & E.) customs entry or an Immediate Exportation (I. E.) customs entry made at a United States customhouse.

(ii) Commodities which originate in a foreign country include commodities which were originally grown, produced, or manufactured in the United States but which have been so altered by further processing, manufacture, or assembly in the foreign country that such commodities have either thereby been substantially enhanced in value, or have lost their original identity with respect to form.

(iii) Only those exportations of foreign origin which, if of United States origin, could be made respectively to Hong Kong or Macao under the provisions of a general license may be exported to Hong Kong or Macao, respectively, under this general license.

Section 372.2 *Applications for licenses*, paragraph (b) *Separate applications for each Positive List entry* is amended to read as follows:

(b) *Separate applications for each Positive List entry.* A separate and complete application must be submitted for each Positive List entry to each consignee in each country of destination except as otherwise specifically provided in the export regulations.

[The note following paragraph (b) is deleted.]

6. Section 372.7 *Unit-process applications* is deleted.

7. Section 372.11 *Issuance and use of export licenses* is amended in the following particulars: The note following paragraph (a) *Issuance of license document* is deleted. The note following paragraph (b) *Unit-process licenses* is substituted therefor. Paragraph (b) *Unit-process licenses* is deleted.

8. Section 372.14 *Reexportation from country of destination*, paragraph (c) *Reexportations* is amended to read as follows:

(c) *Reexportations.* Any commodity which has been exported from the United States may be reexported from any destination to any other destination: *Provided*, That at the time of reexportation, the commodities to be reexported may be exported directly from the United States to the new country of destination either under General License GO, GRO, GHS, or GHK, or where the value of the reexportation does not exceed the GLV dollar value limit shown on the Positive

[1] This amendment was published in Current Export Bulletin No. 723, dated January 28, 1954, and in the reprint pages, dated January 28, 1954.

[2] Import certificates issued prior to January 28, 1954, do not bear a validity period stamp and are not affected by the 90-day validity period provision.

List with reference to the country of destination.

9. Section 373.2 *Confirmation of country of ultimate destination and verification of actual delivery*, note 5 following paragraph (c) *Submission of import certificates* is amended to read as follows:

5. *Return of import certificates.* U. S. exporters may be requested by their foreign importers to return unused or partially used import certificates. In such cases, the U. S. exporter shall forward the certificate to his importer as soon as he determines that the certificate will not be used with a new or resubmitted application, or an appeal.

Failure on the part of the U. S. exporter to comply with his foreign importer's request will result in the importer's inability to fulfill his obligations to his government and may result in the foreign importer being denied further import certificates. This action obviously would prevent the U. S. exporter's participation in further export transactions with such foreign importer. In addition, the foreign importer may be subjected to other penalties for his failure to return the certificate.

The Bureau of Foreign Commerce will not return import certificates to the U. S. exporter where the total quantity shown on the import certificate has been shipped or is covered by an outstanding export license(s). In order to comply with a foreign importer's request for the return of an unused or partially used import cetificate, import certificates on file in the Bureau of Foreign Commerce will be returned to exporters in accordance with the procedures described below:

(a) Where an import certificate covers a quantity in excess of the export license applications submitted against it, or does not specify the quantity covered the BFC will retain the import certificate until such time as the exporter requests the return thereof. When requesting the return of the import certificate, the exporter should submit his request in writing, showing the name and address of the named importer, applicable BFC case numbers to which the certificate applies, import certificate number, and a statement that such import certificate will not be used in connection with a new or resubmitted application for export. Appropriate notation will be made on the certificate by the Bureau of Foreign Commerce.

(b) The BFC will automatically return the applicable import certificate to the U. S. exporter (applicant) whenever an application for export covers the same type and amount of the commodity as that shown on the import certificate, but such application is rejected or approved in a reduced quantity. Appropriate notation will be made on the certificate by the BFC.

(c) In instances where the U. S. exporter does not intend to ship the total quantity of commodities for which a license has been issued and desires the return of the import certificate, he should submit his request in writing for return of the certificate together with request for cancellation or amendment of the unexpired license to show the quantity which he intends to ship. (See § 380.2.) In such cases exporters shall submit the amendment form, Form IT-763 (in addition to the letter request), as provided by the regular amendment procedure. Appropriate notation will be made on the import certificate by the BFC.

10. Section 373.33 *Diamonds* is amended to read as follows:

§ 373.33 *Diamonds*—(a) *Definitions.* The commodities covered by this section are loose diamonds (except cut gem diamonds).

(1) "Industrial diamonds", Schedule B Nos. 599005 and 540910, unmounted industrial-purpose diamonds, in any form, including ballas, carbonados, crushing bort, and diamond fragments, as well as diamond powder, dust, and compounds, or

(2) "Cuttable diamonds", Schedule B No. 599010, diamonds suitable for cutting into gems and not reserved for industrial use.

(b) *Application requirements.* Separate license applications (Form IT-419) must be submitted for each Schedule B classification of loose diamonds. Each application must include a detailed statement regarding the end use of the commodity and must contain a complete description of each named commodity or commodities, including any customary trade sub-classifications. Diamonds must be listed on the application by one of the following methods:

(1) *Industrial stones.* List by classes, quality, and size as specified in Munitions Board Spec. P-19 dated April 1, 1949, and show price per carat of each diamond or of similar groups.

NOTE: The classes specified in National Stockpile Materials Purchase Specifications P-19[1] are:

Class I—Core drilling stones.
Class II—Thread and gear grinder stones.
Class III—Tool stones.
Class IV—Grinding wheel dressers stones.
Class V—Shaping, boring, turning tool stones.
Class VI—Points and elongated stones.
Class VII—Flats.
Class VIII—Wire die stones.
Class IX—Indenter stones.
Class X—Ballas.
Class XI—Carbons.

(2) *Powder, dust, compounds.* Give total carat weight, total price, and average price per carat. In the case of dust and powder, give mesh sizes. For compounds give total carat content and mesh sizes.

(3) *Cuttable diamonds.* List in groups by packets, giving the number of diamonds, the total carat weight, total price, average price per carat for each group, and also the trade description (i. e., mells, flats, rounds, bloc, etc.)

(c) *Export clearance of loose diamonds.* (1) Every shipment of loose diamonds in any form must be inspected by the U. S. Appraiser of Merchandise at New York, regardless of the means of exportation or the port of exit.

(2) The Appraiser will compare the contents of the shipment with the description on the shipper's export declaration authenticated by the collector of customs. If the contents and description on the authenticated shipper's export declaration agree, the Appraiser shall place his seal on the package or parcel.

(3) If the contents of the shipment do not agree with the description set forth on the authenticated export declaration, the Appraiser will submit the authenticated shipper's export declaration, together with a statement of his findings, to the Department of Commerce via the collector of customs.

(4) Post offices will not accept packages or parcels containing such commodities for mailing to a foreign destination unless they have been inspected by the U. S. Appraiser of Merchandise at New York, and the unbroken seal of that official appears on each package or parcel.

(d) *Return of loose industrial diamonds and diamond dust, or powder without license.* Notwithstanding the foregoing provisions of this section (which relate only to diamond exports which require a license), the provisions of § 371.9 (c) of this subchapter (which relate to exceptions from the general license GIT for intransit shipments), and the provisions of § 370.10 of this subchapter (which permit certain exports from foreign trade zones without license), any person in the United States to whom loose industrial diamonds, Schedule B No. 599005, or diamond dust or powder, Schedule B No. 540910, are consigned by a foreign supplier, with the privilege of selection and purchase or return, may return to such foreign supplier such of those diamonds or such dust or powder as are not selected for purchase, without securing an export license therefor, provided the following procedure and conditions are observed:

(1) *Deposit in New York Foreign Trade Zone.* The entire consignment to such person from his foreign supplier, upon arrival in the United States and prior to opening or inspection, must be taken directly from Customs custody into the New York Foreign Trade Zone and must be continuously kept there while inspection and selection are made and, with respect to those diamonds or such dust or powder not selected for purchase and to be returned to the foreign supplier, until released for immediate exportation to the foreign supplier.

(2) *Examination by Federal Supply Service.* The Federal Supply Service, General Services Administration, must be given an opportunity to examine and purchase the diamonds or dust or powder proposed to be returned and, after having purchased any which it desires to purchase, must furnish to the New York Foreign Trade Zone Operators, Inc., its certificate, in duplicate, to the effect that it has been afforded such opportunity and that, with respect to those diamonds or such dust or powder remaining for return to the foreign supplier (which must be sufficiently identified by lot number, quantity, weight, description, etc.), it has elected not to purchase them.

(3) *Certificates required for release from Zone.* The New York Foreign Trade Zone Operators, Inc., shall not release the diamonds or dust or powder from the Zone unless and until the above-mentioned certificate has been furnished, and, at the time of such release, there shall be attached to the original thereof a duly executed Certificate of Constructive Transfer, Zone Form C, revised (i. e., the official document by which commodities are released from the Zone). Both certificates will be delivered to the proposed exporter.

(4) *Export clearance.* No collector of customs shall authenticate any declaration for the export of loose industrial diamonds or diamond dust or powder pursuant to this procedure unless the certificate of the Federal Supply Service and the attached Certificate of Constructive Transfer, Zone Form C, revised, provided for above, shall accompany the declaration filed with the collector.

NOTE: The use of the procedure set forth in paragraph (c) of this section will be expedited if diamond dealers desiring to use the facilities of the New York Foreign Trade Zone will make such arrangements as soon as they know when a consignment of diamonds or diamond dust or powder is due to arrive. Persons using the procedure are also responsible for notifying the Federal Supply Service when a proposed shipment is ready for inspection.

(e) *Tools incorporating industrial diamonds.* Applications for licenses to export tools, tool parts, or devices containing diamonds must be submitted in accordance with the provisions of § 373.49 (f).

11. Section 373.34 *Asbestos, crude and spinning fibers* is deleted.

12. Section 373.40 *Iron and steel*, paragraph (e) *Iron and steel scrap* is amended to read as follows:

(e) *Iron and steel scrap*—(1) *General.* An open-end export quota has been established for the first quarter of 1954 for iron and steel scrap, Schedule B Nos. 601010, 601040, 601050, 601070 and 601090.

(2) *"Domestic" scrap.* Except as provided in subparagraph (5) of this paragraph, license applications to export "domestic" scrap (scrap located within the continental United States) shall be accompanied by an inspection certificate executed by an inspecting firm, recognized by the trade, certifying to a physical inspection of the grades, location (i. e., name and address of yard), and tonnage of the scrap to be exported.

(3) *"Offshore" scrap.* License applications to export "offshore" scrap (scrap located in American possessions outside the continental U. S.) must be accompanied by:

(i) The name and address of the person who has the scrap in his possession.

(ii) A statement as to whether or not the scrap was originally owned by the U. S. Government and if so, the name of the person to whom the U. S. Government sold it as well as the U. S. Government contract number.

(iii) A statement as to whether the scrap is collected and ready for export.

(iv) The name and address where the material may be inspected.

In addition, if the scrap was collected by the applicant himself, a certification must be made by the applicant as to the ownership and as to the completion of the collection. If the scrap was not collected by the applicant himself, the application must be accompanied by a copy of the contract of sale to the applicant, or a statement showing the following items appearing on the contract: Parties to the contract, date of contract, contract number or other identification number and quantity.

(4) *Validity period.* (i) Except as provided in subparagraph (5) of this paragraph, a license to export "domestic" iron and steel scrap will be issued for a validity period ending on the last day of the second month following the month during which the license is validated (for example a license issued January 25, 1954, will expire on March 31, 1954).

(ii) A license to export "offshore" iron and steel scrap will be issued for a validity period ending on the last day of the sixth month following the month during which the license is validated.

(5) *Requirements for Mexico.* (i) License applications to export iron and steel scrap to Mexico are subject to all of the provision of subparagraph (2), (3), and (4) of this paragraph, except that applications to export normal iron and steel scrap requirements to a foreign consignee in Mexico who is traditionally dependent upon the United States for his scrap requirements need not be accompanied by inspection certificate mentioned in subparagraph (2) of this paragraph.

(ii) A license to export iron and steel scrap to such foreign consignee in Mexico who is traditionally dependent upon the United States for his scrap requirements will be issued for a validity period ending on the last day of the sixth month following the month in which the license is validated.

13. Section 373.45 *Tools incorporating industrial diamonds* is amended to read as follows:

§ 373.45 *Tools incorporating industrial diamonds.* Applications for licenses to export tools, tool parts, or devices containing diamonds must be submitted in accordance with the provisions of § 373.49 (f).

14. Section 373.49 *Machinery and parts*, paragraph (f) *Tools incorporating diamonds* is amended to read as follows:

(f) *Tools incorporating diamonds*—(1) *Commodities included.* Any tool incorporating diamonds requires a validated license for export to all R and O country destinations, whether or not the tool is shipped with the machine with which it is to be used.

(2) *Definition.* As used in this section, the term "tools incorporating diamonds" means any tools, tool parts or devices, including metal slugs, which contain diamonds. Such "tools" do not include the machines which may make use of the tools incorporating diamonds.

(3) *Application requirements.* License to export a tool incorporating diamonds as a spare or replacement part shall be applied for under the Schedule B number applicable to such tool. When a diamond tool is to be shipped with a machine with which it is to be used, whether such machine is on the Positive List, the diamond tool shall be entered on the license application under the Schedule B number of the machine.

If a validated license is required for the machine, a single license application shall be submitted and the description shall specify that a tool containing diamonds is to be shipped with the machine.

In addition to information required by paragraph (a) of this section, applications for licenses to export tools incorporating diamonds must comply with the following requirements:

(i) Tools, tool parts, or devices (including metal slugs) must be listed separately on license applications, or by groups of identical tools, giving the name and type of tool and approximate carat weight of diamonds.

(ii) License applications to export rock drill bits, core drill bits, and reamers containing diamonds, Schedule B No. 730875, which have been shipped to the United States for reprocessing or resetting must show for each type or size of tool listed the approximate total carat weight of contained diamonds before and after reprocessing or resetting.

(iii) License applications to export diamond grinding wheels, sticks, hones, and laps, Schedule B No. 540905, must state the quantity, the approximate carat weight and grit size of the diamond content of each commodity.

(iv) Diamond dies must be listed on the license applications as unmounted or encased, and the quantity and carat weight, must be given.

(4) *Preparation of shipper's export declaration.* (i) A tool incorporating diamonds exported under validated license as a part of a machine exported under general license shall be reported on the same shipper's export declaration as a unit. The value stated in column (15) shall reflect the combined value of the machine and the diamond tool.

(ii) Separate data for the diamond tool shall be shown only in column (10). The description of the machine shall specify that it includes a tool containing diamonds, together with the same information required on a license application for the diamond tool, as set forth in subparagraph (3) of this paragraph.

15. Section 373.53 *Vessels to be scrapped abroad* is deleted.

16. Section 373.61 *Tools incorporating diamonds* is amended to read as follows:

§ 373.61 *Tools incorporating diamonds.* Applications for licenses to export tools, tool parts, or devices (including dental instruments, Schedule B No. 915000) containing diamonds must be submitted in accordance with the provisions of § 373.49 (f).

17. Section 373.71 *Supplement 1: Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended to read as follows:

[1] This list is identical with that previously printed in Munitions Board Specifications P-19. Copies of National Stockpile Materials Purchase Specifications P-19 are obtainable from Emergency Procurement Service, General Services Administration, Seventh and D Streets SW., Washington 25, D. C.

2. The following commodities are deleted from the Positive List:

Dept. of Commerce Schedule B No.	Commodity
660012	Cryolite, natural and artificial, except Raymond mill dust (specify grade).
795100	Merchant ships excluding converted military watercraft):
795115	Passenger ships, of U. S. registry, for scrapping (specify gross registered tonnage).
795117	Barges, of U. S. registry, for scrapping (specify gross registered tonnage).
795120	Tankers, of U. S. registry, for scrapping (specify gross registered tonnage).
795125	Cargo ships, except barges and tankers, of U. S. registry, for scrapping (specify gross registered tonnage).
795130	Tugs and towboats, of U. S. registry, for scrapping (specify gross registered tonnage).
795135	Dredges, of U. S. registry, for scrapping (specify gross registered tonnage).
795140	Merchant ships, n. e. c., of U. S. registry, for scrapping (specify gross registered tonnage).
795150	Floating and self-propelled equipment (excluding converted military watercraft), of U. S. registry, for scrapping (specify gross registered tonnage).

This part of the amendment shall become effective as of January 28, 1954.

3. The revised entries set forth below are substituted for entries presently on the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity Group	GLV dollar-value limits	Validated license required
617901*	Tools (all metals) n. e. c.: Tools incorporating industrial diamonds, n. e. c. (including rings containing diamonds) Group 7, [§ 373.48-3(f)-(3)], special commodities for consumption [§ 373.6(a)(3)(ii)]. Tools of diamond, not including tools of diamonds incorporating diamonds, not included elsewhere on the Positive List.[2]	No. and carat.	TOOL	25	RO
..... ★		No. and carat.	TOOL	25	RO

★The commodities described in this Positive List entry are excepted from the provisions of General Import Licenses GIT, Sec. § 371.6(a)(3)(ii) of this subchapter.

[1] The unit "carat" is added.

[2] The above entry is added to the Positive List to make it conform with § 373.49 (f) of this subchapter which provides that such commodities require validated licenses for export to K and O country destinations.

This part of the amendment shall become effective as of 12:01 a. m., January 28, 1954.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations as a result of changes set forth in item 1 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., February 4, 1954, may be exported under the previous general license provisions up to and including February 27, 1954. Any such shipment not laden aboard the exporting carrier on or before February 27, 1954, requires a validated license for export.

b. In § 399.2 *Appendix B—commodity interpretations, Interpretation 2: Export of Machines Containing a Tool or Device Incorporating Diamonds* is amended to read as follows:

INTERPRETATION 2: EXPORT OF MACHINES CONTAINING A TOOL OR DEVICE INCORPORATING DIAMONDS

See § 373.49 (f) of this subchapter.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 67 Stat. 62; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 10033, Feb. 8, 1949, 14 F. R. 561; 3 CFR, 1949 Supp.)

[6th General Rev. of Export Regs., Amdt. H. L. 67[1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

a. Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
836020	Other boric acid and borates (including Borax), crude and refined.[1]	L.T.	SALT	500	RO

[1] These commodities may be exported under the Periodic Requirements licensing procedure (see Part 376 of this subchapter) or the Foreign Distribution licensing procedure (see Part 378 of this subchapter).

This part of the amendment shall become effective as of 12:01 a. m., February 4, 1954.

[1] This amendment was published in Current Export Bulletin No. 723, dated January 28, 1954.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 128—TRANSACTIONS IN FOREIGN EXCHANGE, TRANSFERS OF CREDIT, AND EXPORT OF COIN AND CURRENCY

SUBPART B—DESCRIPTION OF FORMS

1. *Revocation of § 128.12.* Section 128.12 is hereby revoked.

2. *Foreign Exchange Form S–4; foreign debit and credit balances.* Section 128.16 is hereby amended to read as follows:

§ 128.16 *Foreign Exchange Form S–4: foreign debit and credit balances.* On this form brokers, dealers, etc., are required to report semi-annually to a Federal Reserve bank, the debit and credit balance in their accounts carried by or for "foreigners", as of June 30 and December 31.

3. *Revocation of § 128.17.* Section 128.17 is hereby revoked.

(Sec. 5, 40 Stat. 415, as amended; 50 U. S. C. App. 5. Interpret or apply sec. 8, 59 Stat. 515; 22 U. S. C. 286f. E. O. 6560, Jan. 15, 1934, E. O. 10033, Feb. 8, 1949, 14 F. R. 561; 3 CFR, 1949 Supp.)

NOTE: The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective as of March 31, 1954.

[SEAL] A. N. OVERBY,
Acting Secretary of the Treasury.

[F. R. Doc. 54-855; Filed, Feb. 4, 1954; 8:56 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter IV—Joint Regulations of the Armed Forces

Subchapter A—Armed Services Procurement Regulation

PART 400—GENERAL PROVISIONS

SUBPART B—DEFINITION OF TERMS

The Armed Services Textile and Apparel Procurement Agency has been eliminated from the following sections in accordance with the current Department of Defense Appropriation Act.

§ 400.201–3 *Procuring activity.* The term "procuring activity" includes, for the Army, the technical services, the continental armies, the National Guard Bureau, the Military District of Washington, and the major oversea commands; for the Navy, each Bureau of the Navy Department, the Office of Naval Research, the Aviation Supply Office, the Military Sea Transportation Service and the United States Marine Corps; for the Air Force, the Air Materiel Command. It also includes the Armed Services Medical Procurement Agency, the Armed Services Petroleum Purchasing Agency, and any other procuring activity hereafter established. The number and designation of particular procuring activities of any Department may be changed by directive of the Secretary of that Department.

§ 400.201–4 *Head of a procuring activity.* The term "Head of a Procuring Activity" includes, for the Army, the chiefs of the technical services, the continental army commanders, the Chief of the National Guard Bureau, the Commanding General of the Military District of Washington, and the commanding generals of the major oversea commands; for the Navy, the Chief of each Bureau, the Chief of Naval Research, the Aviation Supply Officer, the Commander, Military Sea Transportation Service, and the Commandant of the United States Marine Corps; for the Air Force, the Commanding General of the Air Materiel Command. It also includes the Chief of the Armed Services Medical Procurement Agency, the Executive Officer of the Armed Services Petroleum Purchasing Agency, and the head of any other procuring activity hereafter established. The number and designation of Heads of Procuring Activities within any Department may be changed by directive of the Secretary of that Department.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 22, 1954.

[F. R. Doc. 54-801; Filed, Feb. 4, 1954; 8:48 a. m.]

PART 400—GENERAL PROVISIONS

SUBPART B—DEFINITION OF TERMS

SUBPART C—BASIC POLICIES

1. The definition of the term "source of supplies" is clarified to include "construction contractors" in § 400.201–9 (a) as follows:

§ 400.201–9 *Source of supplies.* (a) The term "source of supplies" shall include only (1) manufacturers, (2) construction contractors, and (3) regular dealers in the supplies to be procured. A "regular dealer" shall be deemed to be any one of the following:

* * * * *

2. An additional reference to ASPR procedures is pointed up in paragraph (b) of § 400.201–9, which reads as follows:

(b) A manufacturer, construction contractor, or regular dealer may bid, negotiate and contract through an authorized agent: *Provided,* That the agency is disclosed, and the agent acts and contracts in the name of his principal. In this connection, see the clause entitled "Covenant Against Contingent Fees" set forth in § 406.103–20 of this subchapter and the procedures prescribed for obtaining information concerning contingent or other fees, as set forth in Subpart E of this part.

3. This amended section eliminates "ineligible contractors and disqualified bidders" from the scope, and reads as follows:

§ 400.300 *Scope of subpart.* This subpart sets forth the general procurement policies of the Departments with respect to (a) methods of procurement, (b) sources of supply (including governmental and foreign purchases), (c) types of contracts, and (d) specifications.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 26, 1954.

[F. R. Doc. 54-791; Filed, Feb. 4, 1954; 8:45 a. m.]

PART 400—GENERAL PROVISIONS

MISCELLANEOUS AMENDMENTS

1. Change § 400.302–4 *Foreign Purchases* to § 400.302–5, and add a new § 400.302–4, incorporating the general policies in connection with Defense Manpower Policy No. 4, revised November 5, 1953 (18 F. R. 6995), which directs the placement of supply contracts, at prices no higher than might otherwise be obtainable elsewhere, with such suppliers as will perform contracts substantially in current labor surplus areas. This section and such sections referred to herein are effective on and after January 15, 1954.

§ 400.302 *Sources of supplies.*

[400.302–1 through 3 remain unchanged.]

§ 400.302–4 *Firms performing contracts in labor surplus areas*—(a) *Definitions.* (1) "Labor surplus areas" are those designated as Group IV Areas in the Department of Labor publication "Bi-Monthly Summary of Labor Market Developments in Major Areas" under the heading "Classification of Labor Market Areas According to Relative Adequacy of Labor Supply."

(2) "Set-asides," as used in this subchapter, designates a method of procurement whereby a portion of the requirement, as determined by the procurement activity, is withheld from general solicitation (either formally advertised or negotiated), is reserved for negotiation exclusively with firms located in labor surplus areas, and is to be performed substantially within such labor surplus areas.

(b) *Policy.* Defense Manpower Policy No. 4 (revised 5 November 1953), issued by the Director of Defense Mobilization, directs the placement of supply contracts, at prices no higher than might otherwise be obtainable elsewhere, with such suppliers as will perform contracts substantially in current labor surplus areas. Accordingly, the Departments shall comply with the following:

(1) Use their best efforts to award negotiated procurements to contractors located within labor surplus areas for performance substantially within such labor surplus areas to the extent that procurement objectives will permit; provided, that in no case shall price differentials be paid for the purpose of carrying out this policy.

(2) Where deemed appropriate, set aside portions of procurements for negotiation exclusively with firms located in labor surplus areas at prices no higher than those paid on the non-set-aside portion; provided, that performance shall be substantially within labor surplus areas. (For detailed procedures see §§ 401.205, 402.105, and 402.219 of this subchapter.)

(3) Assure that firms in labor surplus areas which are on appropriate bidders' lists are given the opportunity to submit bids or proposals on all procurements for which they are qualified and on which small business joint determinations have not been made. Whenever the number of firms on a bidders' list is excessive, a representative number of firms from labor surplus areas shall be included for the particular procurement.

(4) In the event of tie bids or proposals on any procurement, the contract shall be awarded in accordance with § 401.406–4 of this subchapter.

(5) Encourage prime contractors to award subcontracts to firms in labor surplus areas.

(6) Cooperate with other agencies listed in Defense Manpower Policy No. 4 in achieving the objectives of this policy.

(c) *Application.* The policy in paragraph (b) of this section shall be applicable to procurements estimated to be in excess of $25,000.

(d) *Implementation.* (1) The Departments shall cause information identifying labor surplus areas as defined above to be disseminated to appropriate procurement personnel. When an entire industry is depressed, the Director of Defense Mobilization may establish appropriate measures upon an industry-wide, rather than a normal geographical, basis. Designations of such industries will be accomplished by ODM Notifications, and such industries will thereafter be given special treatment as specified therein.

(2) Procedures shall be established with respect to the issuance of Invitations for Bids and Requests for Proposals, as set forth in §§ 401.205–3 and 402.105 of this subchapter. Awards of contracts involving labor surplus areas shall be made in accordance with § 402.219 of this subchapter.

(3) Contract files shall be documented to indicate the extent to which labor surplus areas were considered and the action taken with regard thereto.

§ 400.302–5 *Foreign purchases.* Foreign purchases shall be made in accordance with the provisions of Part 405 and upon compliance with any other applicable provisions of this subchapter.

2. Section 400.605–1 has been revised by eliminating paragraph (b). It now reads as follows:

§ 400.605 *Suspension of bidders.*

§ 400.605–1 *Causes and conditions under which departments may suspend contractors.* The Secretary of a Department or his authorized representative may, in the interest of the Government, suspend a firm or individual suspected of having committed fraud or a criminal offense as an incident to obtaining, attempting to obtain, or in the performance of a contract.

This revision is effective on or after 1 March 1954.

3. A new § 400.609 establishes Subpart P of Part 400 as a guide for oversea procurement operations, and provides for notification to the Secretaries with respect to certain actions taken by major oversea commanders. Specific attention is drawn to firms or individuals to whom United States Government contracts are denied, pursuant to the Economic Defense Administrative Action Program.

§ 400.609 *Procurement outside United States.* Although the provisions of this subpart and this part are not applicable to procurement outside the United States, its territories and possessions, the principles and procedures set forth therein shall be used as a guide by oversea commanders in the establishment and maintenance of a consolidated list of firms and individuals to whom contracts will not be awarded and from whom bids or proposals will not be solicited, giving due consideration to laws or customs of the local foreign governments in which such lists are to be applicable. Advice of any debarment, ineligibility, or suspension, or release therefrom, by major oversea commanders will be furnished to the Secretary of the Department concerned and to the local representatives of the other military departments. Major oversea commanders will advise both the Secretary of the Department concerned and the Chief of the United States Diplomatic Missions in the country concerned of actions contemplated under this section which may have important political significance. In addition to firms or individuals included on any consolidated list by major oversea commanders, such list shall also include the names of firms or individuals to whom United States government contracts will be denied pursuant to the Economic Defense Administrative Action Program, as implemented by the Department of Defense, or pursuant to any other applicable statute, executive order, directive or regulation.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 27, 1954.

[F. R. Doc. 54–796; Filed, Feb. 4, 1954; 8:46 a. m.]

PART 401—PROCUREMENT BY FORMAL ADVERTISING

SUBPART B—SOLICITATION OF BIDS

1. Section 401.202 is amended by adding "construction contractors", as follows:

§ 401.202 *Methods of soliciting bids.* Manufacturers, construction contractors, and regular dealers, as defined in § 400.201–9, regardless of size, who can establish or have established their fitness and ability to fulfill contract requirements, will be placed on mailing lists for bids or notices in advance of bids. Contracting Officers may elect to send either invitations for bids or advance notices, but shall use one method exclusively in each separate procurement action. Bids shall be solicited by the methods prescribed in §§ 401.202–1 and 401.202–2, and by the methods prescribed in §§ 401.202–3 and 401.202–4 to the extent deemed necessary by the Contracting Officer in order to assure full and free competition: *Provided*, That (a) bids shall be solicited sufficiently in advance of the opening of bids to allow bidders an adequate opportunity to prepare and submit their bids, and (b) bids with respect to classified purchases shall be solicited in accordance with procedures prescribed by each respective Department. Synopses of invitations for bids shall be prepared and distributed as prescribed in § 401.202–5.

§ 401.202–1 *Mailing or delivering to prospective bidders.* The form or forms to be used in the solicitation of bids shall be filled out and mailed (or delivered) to each prospective bidder. Invitations for Bids shall not be mailed to persons or firms other than manufacturers, construction contractors, or regular dealers, but may be mailed to Federal Government agencies, including procurement information offices.

§ 401.202–2 *Displaying in public place.* Copies of the form or forms to be used in the solicitation of bids shall be filled out and displayed at the purchasing office or at some other appropriate public place. To the extent that unclassified invitations for bids are available, they shall be provided at the purchasing office to manufacturers, construction contractors, and regular dealers, and to others having a legitimate interest therein, such as publishers, trade associations, procurement information services and others who disseminate information concerning invitations for bids; otherwise, the purchasing office may limit the availability of invitations to perusal at such office.

§ 401.202–3 *Publishing in trade journals.* A brief announcement of the proposed purchase may be made available for free publication to trade journals or magazines whose subscribers are manufacturers of, construction contractors for, or dealers in the supplies or services being procured.

2. "Construction contractor" is added to § 401.406–1 as a "responsible bidder."

§ 401.406 *Award.*

§ 401.406–1 *Responsible bidder.* A "responsible bidder" is a bidder who satisfies all of the following requirements

(a) Is a manufacturer, construction contractor, or regular dealer, as defined in § 400.201–9 of this subchapter.

* * * * *

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 26, 1954.

[F. R. Doc. 54–792; Filed, Feb. 4, 1954; 8:45 a. m.]

PART 401—PROCUREMENT BY FORMAL ADVERTISING

MISCELLANEOUS AMENDMENTS

1. A parenthetic reference to § 400.302–4 (b) (3) is added as follows to § 401.204 to implement Defense Manpower Policy No. 4, November 5, 1953.

§ 401.204 *Bidders' mailing lists.*

[401.204–1 through 6 remain unchanged.]

§ 401.204–7 *Excessively long bidders' mailing lists.* When the number of names on a bidders' mailing list is deemed to be excessive in relation to a specific procurement, such methods as (a) rotation of bidders' mailing lists, (b) use of pre-invitation notices, or (c) otherwise determined to be advantageous in this respect, may be employed to provide a reduced list of names for use in making the specific procurement. (But see § 400.302–4 (b) (3) of this subchapter with respect to firms located in labor surplus areas.)

2. A new section is added to implement Defense Manpower Policy No. 4, November 5, 1953.

§ 401.205 *"Set-asides" for firms in labor surplus areas.*

§ 401.205–1 *General.* When "set-asides" are used in compliance with § 400.302–4, of this subchapter, the procedures set forth in this section shall be applicable.

§ 401.205–2 *Determination of the quantity of "set-aside".* When the use of "set-asides" is deemed appropriate, procuring activities shall determine the optimum quantity which would probably result in the most favorable price, considering the manufacturing processes involved and the quantity required for an economical production run. Invitations for bids shall be issued for not less than such optimum quantity. The resulting "set-aside" shall also not be less than such optimum quantity. After award of the quantity not set aside, procurement of the "set-aside" shall be effected by negotiation pursuant to § 402.219 of this subchapter.

§ 401.205–3 *Special conditions to be inserted in invitations for bids.* Whenever it has been determined to set aside a quantity of a procurement in accordance with § 400.302–4, of this subchapter, the Invitation for Bids covering procurement of the items not set aside shall provide that:

(a) "Set-asides" in aid of labor surplus areas may be utilized.

(b) The right to participate in subsequent negotiation for any "set-asides" shall be conditioned upon the submission of a bid upon the items not set aside at a unit price within 120 percent of the highest award made with respect to quantities not set aside.

3. Amendments in the following paragraphs change the wording from "distressed employment area" to "labor surplus area".

§ 401.406–4 *Equal low bids.* (a) * * *

(2) Where two or more equal low bids are received from small business concerns, one of which is submitted by a bidder who will perform the contract in a labor surplus area as defined in § 400.302–4 of this subchapter, award shall be made to the small business concern who will perform the contract in such labor surplus area.

(3) In the case of equal low bids, two or more of which are submitted by small business concerns which will perform the contract in a labor surplus area, award shall be made by a drawing by lot limited to the small business concerns in the labor surplus area.

(4) Where two or more equal low bids are received, one bid being from a business concern (whether small or not) not in a labor surplus area and the other being from a bidder who, although not a small business concern, will perform the contract in a labor surplus area, award shall be made to the latter.

* * * * *

§ 401.406–5 *Statement and certificate of award.* In connection with every purchase made by formal advertising, the Contracting Officer shall prepare and execute a statement and certificate of award on U. S. Standard Form 1036, which shall be attached to the original documents and papers constituting the contract which are forwarded to the General Accounting Office. Such certificate shall either (a) state that the accepted bid was the lowest bid received, or (b) list all lower bids and set forth reasons for accepting a bid other than the lowest. In each case where an award is made pursuant to subparagraphs (1), (2), (3), or (4) of § 401.406–4 (a), such certificate shall briefly recite the circumstances under which award was made and shall contain a statement that it has been administratively determined that the award will further the Congressional policy with respect to small business expressed in section 2 (b) of the Armed Services Procurement Act of 1947 or will further the policy with respect to labor surplus areas, or both, as the case may be.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 27, 1954.

[F. R. Doc. 54–797; Filed, Feb. 4, 1954; 8:47 a. m.]

PART 402—PROCUREMENT BY NEGOTIATION

MISCELLANEOUS AMENDMENTS

1. New §§ 402.105 and 402.219 are added to implement Defense Manpower Policy No. 4, November 5, 1953.

§ 402.105 *Aids to labor surplus areas in negotiated procurements.* In implementing the policy set forth in § 400.302–4 quantities of negotiated procurements may be set aside in the same manner as provided in § 401.205 of this subchapter for formally advertised procurements. Requests for Proposals shall contain the provision required to be inserted in Invitations for Bids by § 401.205–3 (a) of this subchapter and shall provide that the right to participate in subsequent negotiation for any "set-asides" shall be conditioned upon the submission of an initial quotation upon the items not set aside, at a unit price within 120 percent of highest award made with respect to the quantities not set aside. The determination of quantities to be set aside shall be governed by § 401.205–2 of this subparagraph. The procedures for negotiation of "set-asides" are set forth in § 402.219.

§ 402.219 *Negotiation of "set-asides" for labor surplus areas.*

§ 402.219–1 *Authorization.* When "set-asides" are used in compliance with § 400.302–4 of this subparagraph, such "set-asides" shall be negotiated in accordance with procedures set forth in § 402.219.

§ 402.219–2 *Limitation.* Pursuant to section 644 of the Department of Defense Appropriation Act of 1954 (Public Law 179, 83d Congress), and any subsequent similar statutory limitations, no price differentials shall be paid for the purpose of aiding labor surplus areas.

§ 402.219–3 *Eligible bidders and offerors.* Negotiation for "set-asides" shall be conducted only with such responsible bidders or offerors which have previously submitted bids or proposals on the quantities not set aside conforming to the Invitation for Bids or Request for Proposals, providing such bids or initial proposals offered a unit price within 120 percent of the highest award made on the quantities not set aside, and provided further that contracts for such "set-asides" will be performed substantially in labor surplus areas.

§ 402.219–4 *Method of negotiation.* (a) Negotiation for "set-asides" shall be conducted with small business concerns prior to negotiation with other firms in such labor surplus areas. Within each such group, negotiation shall begin with the bidder or offeror which submitted the lowest responsive bid or proposal in connection with the procurement of the quantities not set aside.

(b) If procurement of the entire "set-aside" cannot be effected by the procedure set forth in paragraph (a) of this section, the unplaced portion of the "set-aside" may be procured in the most appropriate manner.

(c) In conducting negotiations for the "set-aside," it is permissible to reveal the unit price of the lowest award; however, in instances where the non-set-aside portion is procured by means of negotiation, cost or other pricing data pertaining to such award may not be divulged.

§ 402.219–5 *Limitations on contract price.* (a) When the procurement of quantities not set aside has resulted in one contract only, or in multiple awards all at the same price, awards for "set-asides" shall not exceed the contract price for the quantities not set aside.

(b) When the procurement of the quantities not set aside has resulted in multiple awards at different contract

prices, awards for "set-asides" shall be at a price determined by the Contracting Officer to be fair and reasonable, but in no event higher than the highest price awarded in connection with the quantities not set aside. In the absence of changes in market trends and other factors requiring consideration, the Contracting Officer shall consider the weighted average price of all awards made in connection with the quantities not set aside as being a fair and reasonable price. The weighted average shall be ascertained by adding the total dollar amounts of all awards in connection with the quantities not set aside and dividing the grand total by the total number of units included in all such awards.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 27, 1954.

[F. R. Doc. 54-798; Filed, Feb. 4, 1954; 8:47 a. m.]

PART 406—CONTRACT CLAUSES

SUBPART A—CLAUSES FOR FIXED-PRICE SUPPLY CONTRACTS

The clause in § 406.103–12 is unchanged, but the instructions with respect to the clause are amended as follows:

§ 406.103–12 *Disputes.*

* * * * *

(a) With respect to inclusion of a "Disputes" clause in construction contracts, see § 415.004–3 (d) of this subchapter.

(b) In accordance with Department procedures, the foregoing clause may be modified to provide for intermediate appeal to the head of the procuring activity concerned. The decision of the Contracting Officer referred to in the above clause shall, if mailed, be sent by registered mail, return receipt requested.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 22, 1954

[F. R. Doc. 54-802; Filed, Feb. 4, 1954; 8:48 a. m.]

PART 406—CONTRACT CLAUSES

SUBPART A—CLAUSES FOR FIXED-PRICE SUPPLY CONTRACTS

1. Section 406.104–11 (a) is revised by eliminating the phrase, "except contracts any of the receipts or accruals from which are subject to the Renegotiation Act of 1951 (See § 406.104–10), and amends the clause by inserting the phrase "unless otherwise provided by law."

§ 406.104 *Clauses to be used when applicable.*

§ 406.104–11 *Vinson-Trammell Act.* (a) In accordance with the requirement of section 3 of the Vinson-Trammell Act as amended and extended (34 U. S. C. 496 and 10 U. S. C. 311), and except as provided in paragraphs (b) and (c) of this section, any contract in an amount which exceeds or may exceed $10,000, known to be for the construction or manufacture of any complete aircraft or naval vessel, or any portion thereof, shall contain the following clause, except that in any advertised contract there may be inserted at the beginning of such clause the words "if this contract is in an amount which exceeds $10,000,":

VINSON-TRAMMELL ACT

The Contractor agrees that, unless otherwise provided by law, this contract shall be subject to all the provisions of the Vinson-Trammell Act as amended and extended (34 U. S. Code 496, and 10 U. S. Code 311) and shall be deemed to contain all the agreements required by Section 3 of said Act: Provided, however, that this clause shall not be construed to enlarge or extend by contract the obligations imposed by said Act. In compliance with said Act, the Contractor agrees to insert in such subcontracts hereunder as are specified in said Act either the provisions of this clause or the provisions required by said Act.

* * * * *

2. The security classification "Restricted" is omitted wherever there is such a reference in § 406.104–12 *Military security requirements.*

3. The clause in the following paragraph is amended to reflect the prohibitions in the current Department of Defense Appropriation Act.

§ 406.104–13 *Domestic food, clothing, cotton or wool.* In all contracts for the procurement of any article of food, clothing, cotton or wool, not excepted from the prohibition of annual appropriation acts as set forth in §§ 405.106–1 and 405.107 of this subchapter, insert the following clause:

DOMESTIC FOOD, COTHING, COTTON OR WOOL

The Contractor agrees that there will be delivered under this contract only such articles of food, clothing, cotton or wool (whether in the form of fiber or yarn or contained in fabrics, materials, or manufactured articles) as have been grown, reprocessed, reused, or produced in the United States or its possessions.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 26, 1954.

[F. R. Doc. 54-793; Filed, Feb. 4, 1954; 8:45 a. m.]

PART 406—CONTRACT CLAUSES

SUBPART E—CLAUSES FOR PERSONAL SERVICES CONTRACT

Sections 406.503–1 to 406.503–8 remain unchanged.

The following section is amended as follows:

§ 406.503–9 *Patents.* Insert the clause set forth in § 408.112, which is based on Executive Order 10096: *Provided, however,* That upon written request by the prospective contractor and approval by the head of the procuring activity or his authorized representative, the clause may be modified or omitted, as the case may be, where (a) the period of employment is to be not more than 90 days in any 1 calendar year, or (b) both the following conditions are present: (1) The period of employment called for in the contract, or in any renewal thereof, is more than 90 days but not more than 1 year of full-time service, and (2) the prospective contractor is bound by an obligation which existed prior to entering into the proposed contract with the Government and which was not entered into contemplation thereof, the discharge of which would be inconsistent with the discharge of any obligation arising under Executive Order 10096.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 27, 1954.

[F. R. Doc. 54-799; Filed, Feb. 4, 1954; 8:46 a. m.]

PART 408—PATENTS AND COPYRIGHTS

MISCELLANEOUS AMENDMENTS

A revised § 408.109 sets forth the policy with respect to adjustment of royalties in view of the expiration of certain sections of the Royalty Adjustment Act of 1942. Revisions of the Patents clause for use in personal service contracts, and instructions for the inclusion of either Patents or Copyrights clauses in such contracts, are issued in the following sections:

§ 408.109 *Adjustment of royalties.* (a) Sections 1 and 2 of the Royalty Adjustment Act of 1942 (35 U. S. C. 89–90, 1946 edition), so far as they related to authority to initiate new actions, expired on 1 July 1953. Sections 1 and 2 provided, after due notice, for adjustment of royalties by issuance of an order by the head of the Department or his authorized delegate and specified the remedies of a licensor against whom an order was issued. The remaining sections of the Royalty Adjustment Act (35 U. S. C. 91–96, 1946 Ed.) are by the terms of said act permanent legislation. They are partly ancillary to sections 1 and 2, and in part provide for other patent matters. Section 3 is particularly important as providing authority to settle administratively claims against the United States accruing to the owners or licensors of patents or inventions under the Royalty Adjustment Act or any other law.

(b) If the contracting officer believes that any royalties paid or to be paid under a contract or prospective contract are unreasonable or otherwise improper, he should promptly report the matter to personnel having cognizance of patent matters for the procuring activity concerned. Such personnel shall review the royalties thus reported and such royalties as are reported under § 408.103. In coordination with the contracting officer, such personnel shall:

(1) Take prompt action to protect the Government against payment of royalties on supplies or services (i) with respect to which the Government has a royalty-free license, or (ii) at a rate in excess of the rate at which the Government is licensed, or (iii) where the royalties in whole or in part constitute an improper charge.

(2) In appropriate cases enter into negotiation for a voluntary reduction of royalties.

§ 408.112 *Patent rights under contracts for personal services.* The following clause shall, except as otherwise provided in § 406.503–9 of this subchapter, be inserted in all personal services contracts for services to be performed by an individual as set forth in § 406.502 of this subchapter.

PATENTS

(a) For the purpose of determining the rights of the Government and the Contractor in and to inventions, the Contractor agrees to be bound by all the provisions of Executive Order 10096, 23 January 1950, and any orders, rules, regulations, or the like issued thereunder.

(b) The Contractor further agrees as follows: (i) to make written disclosure promptly to the Contracting Officer of all inventions of the Contractor which are conceived or first reduced to practice during the term of this contract, and to sign and execute all papers necessary for conveying to the Government the rights to which the Government is entitled in accordance with the determination made under the provisions of Executive Order 10096, or (ii) to certify to the Contracting Officer that, to the best of the Contractor's knowledge and belief, no inventions have been conceived or first reduced to practice during the term of this contract.

§ 408.205 *Contracts for personal services.* The following clause shall be inserted in all personal services contracts as defined in § 406.502 of this subchapter, except under the circumstances described in § 408.203 or when the use of the clause in § 408.204 is deemed more appropriate:

[The clause is unchanged.]

(Sec. 1, 54 Stat. 712, as amended, sec. 201, 55 Stat. 839, 62 Stat. 20; 50 U. S. C. App. 1171, 611, 41 U. S. C. Sup., 151–161; E. O. 9001, 6 F. R. 6787, as amended by E. O. 9296, 8 F. R. 1429; 3 CFR, 1943 Cum. Supp.)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 27, 1954.

[F. R. Doc. 54-800; Filed, Feb. 4, 1954; 8:47 a. m.]

PART 411—LABOR

SUBPART D—LABOR STANDARDS IN CONSTRUCTION CONTRACTS

SUBPART F—WALSH-HEALEY PUBLIC CONTRACTS ACT

The following amendments to § 411.404 and 411.603 reflect in detail recent regulations of the Department of Labor with respect to administration and enforcement of contract provisions relating to construction contracts, and responsibilities of contracting officers with respect to enforcement of the provisions relating to the Walsh-Healey Public Contracts Act.

§ 411.404 *Administration and enforcement.*

§ 411.404–1 *In general.* Whenever the clauses under § 411.403–1 are applicable, the following action shall be taken or required in accordance with procedures prescribed by each respective Department. Whenever the clauses under §§ 411.403–2, 411.403–3 and 411.403–4 are applicable, the following action shall be taken or required, in accordance with procedures prescribed by each respective Department, to the extent pertinent to the applicable clauses.

§ 411.404–2 *Wage determinations.* (a) *Requests for.* Requests for the determination of wage rates by the Secretary of Labor shall be submitted on Department of Labor Form DB–11 (see §415.011 of this subchapter) at least 30 calendar days before required for the advertisement of negotiation of the contract for which the determination is sought. In exceptional cases, the Secretary of Labor may be requested to make a wage determination in less than 30 calendar days upon a proper showing of unusual circumstances justifying the need therefor.

(b) *Limitations.* If the proposed contract for which a wage determination has been secured has not been awarded within 90 calendar days from the date of such wage determination, a new wage determination shall be obtained and made a part of the proposed contract.

(c) *Modifications.* Modifications by the Secretary of Labor of an original wage determination shall be made part of the proposed contract if received prior to the award of the contract, provided that, in a formally advertised procurement, any modification received by the Department concerned less than 5 calendar days before the opening of bids may be disregarded if award is made within 30 calendar days after the opening of bids or within 90 calendar days from the date of the original wage determination, whichever is the earlier.

(d) *Posting.* The Contracting Officer shall ascertain that a copy of the wage determination is kept posted at the site of the work in a prominent place where it can be easily seen by the workers.

§ 411.404–3 *Additional classifications.* If any laborers or mechanics not listed in the wage determination attached to the contract are to be employed, their classifications and minimum wage rates shall be established by the contractor or subcontractor, with the approval of the Contracting Officer, conformably to the attached wage determination. A report of any such determination shall be transmitted to the Secretary of Labor. If the interested parties cannot agree upon any such additional classification and wage rate, the matter, accompanied by the recommendation of the Contracting Officer, shall be referred to the Secretary of Labor for final determination.

§ 411.404–4 *Apprentices.* The contractor or subcontractors shall be required to furnish certification or other evidence that each apprentice employed is registered in an approved apprenticeship program. (For certification form, see § 415.011–1 (c) of this subchapter.)

§ 411.404–5 *Subcontracts.* The Contracting Office shall obtain a list of all subcontracts, together with a description of the work to be performed thereunder, and shall ascertain that the required contract clauses have been incorporated in all subcontracts.

§ 411.404–6 *Payrolls and affidavits.* (a) *Submission.* Within 7 calendar days after the regular payment date of the payroll week covered, the contractor shall submit, or cause to be submitted for himself and his subcontractors, (1) copies of certified weekly payrolls in compliance with Clause (d) of § 411.403–1 and (2) weekly payroll affidavits in the form prescribed by § 415.011–1 (c) of this subchapter.

(b) *Examination.* The Department concerned shall make such examination of the certified payrolls and affidavits as may be necessary to assure compliance with contract, statutory and regulatory requirements. Particular attention should be given to the correctness of classifications and any disproportionate employment of laborers, helpers or apprentices.

(c) *Preservation.* Certified payrolls and affidavits shall be preserved by the Department concerned for a period of 3 years from completion of the contract and shall be produced at the request of the Secretary of Labor at any time during such period.

§ 411.404–7 *Investigations.* (a) The Department concerned shall make such investigations as may be necessary to assure compliance with contract, statutory and regulatory requirements. Contracts of 6 months or less duration shall be investigated before final payment is made, if feasible. Longer contracts shall be investigated with such frequency as may be necessary. Such investigations shall include interviews of employees on a sampling basis.

(b) Special investigations in detail shall be made when required by complaints or other evidence of violations. Complaints of violations shall be given priority.

(c) Statements, written or oral, made by an employee shall be treated as confidential and shall not be disclosed to the employer without the consent of the employee.

§ 411.404–8 *Reports of violation.* (a) A report of violations shall be made by the Department concerned to the Secretary of Labor except in cases of nonwillful violations where less than $200.00 is involved, restitution is made, and assurance is given of future compliance by the contractor or subcontractor concerned. Such reports shall include a statement of the findings as to the violations and information as to restitution made, payment deductions, contract terminations,

and the names and addresses of the workers, contractors and subcontractors concerned.

(b) Where there is substantial evidence that violations are willful and in breach of the False Affidavits Act (18 U. S. C. 1001) or other criminal statute, the matter shall be forwarded to the Attorney General for prosecution and the Secretary of Labor shall be informed of such action.

§ 411.404–9 *Suspensions and deductions of contract payments.* In the event of failure or refusal to pay all or any part of the wages due workers, the Contracting Officer may suspend further contract payments to the contractor in amounts equal to such unpaid wages until either restitution has been made directly by the contractor or subcontractor concerned or deductions against payment vouchers are made as provided below. If such failure or refusal appears continuing and willful, or in the event of any other failure or refusal to comply with contract, statutory, and regulatory requirements, the Contracting Officer may suspend all future contract payments to the contractor until such violations have ceased. If restitution is not made directly by the contractor or subcontractor within a reasonable time, or, in any event, prior to final payment under the contract, the Contracting Officer shall submit with the contractor's payment voucher or vouchers a "Schedule of Deductions from Payments to Contractors (act of August 30, 1935)" on Standard Form 1093 (see § 415.011–1 (b) of this subchapter), and the amount so shown to be due workers shall be deducted from the payments made to the contractor and shall be deposited in the Treasury in accordance with Department procedures.

§ 411.404–10 *Restitution.* Restitution of amounts due workers may be permitted at any time at the volition of the contractor or subcontractor and may be ordered by the Department concerned whenever wage underpayments are found to be nonwillful.

§ 411.404–11 *Contract terminations.* Whenever a contract is terminated for violation of the labor standards provisions, a report shall be submitted by the Department concerned to the Secretary of Labor and the Comptroller General. The report shall include the name and address of the terminated contractor or subcontractor, the name and address of the contractor or subcontractor who is to complete the work, the amount and number of the latter's contract, and a description of the work thereunder.

§ 411.404–12 *Cooperation with Department of Labor.* The Department concerned shall cooperate with representatives of the Department of Labor in the inspection of records, interviews with workers and all other aspects of investigations undertaken by the Department of Labor. When requested, the Departments shall furnish to the Secretary of Labor any available information with respect to contractors, subcontractors, their contracts and the nature of the contract work.

§ 411.603 *Responsibilities of contracting officers.* Whenever the Walsh-Healey Public Contracts Act is applicable, the Contracting Officer shall, pursuant to regulations or instructions issued by the Secretary of Labor and in accordance with procedures prescribed by each respective Department—

(a) Inform prospective contractors of the possible applicability of minimum wage determinations;

(b) Furnish to the contractor a poster (Form PC–13) (see § 415.011–2 of this subchapter);

(c) Furnish to the contractor a form letter (Form PC–12) explaining the Walsh-Healey Act (see § 415.011–2 of this subchapter);

(d) Prepare and transmit two copies of DD Form 350 (top portion) or any alternate form approved by the Department of Labor and the Department concerned (see § 415.011–2 of this subchapter);

(e) Report to the Department of Labor any violation of the representations or stipulations required by the Walsh-Healey Act.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 26, 1954.

[F. R. Doc. 54–794; Filed, Feb. 4, 1954; 8:46 a. m.]

PART 413—INSPECTION AND ACCEPTANCE

APPENDIX D—RULES FOR NOTICE AND HEARING UNDER GRATUITIES CLAUSE IN ARMED SERVICES PROCUREMENT REGULATION 406.104–16

Appendix D is unchanged except for the insertion of the following phrase in the first sentence of Section 1 *Introduction:* Between the words "82d Congress" and "requires all contracts" insert the phrase, "and similar statutory requirements in subsequent Department of Defense appropriation acts", and change the word "requires" to "require".

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 22, 1954.

[F. R. Doc. 54–804; Filed, Feb. 4, 1954; 8:48 a. m.]

PART 415—PROCUREMENT FORMS

MISCELLANEOUS AMENDMENTS

1. Section 415.008–1 (e) is changed as follows:

§ 415.008 *Order and Voucher for Purchase of Supplies or Services (DD Form 738).*

§ 415.008–1 *General.* • • •

(e) The Departments may authorize installations to utilize reproducible masters in circumstances when it would be impracticable to use the 8-part form

2. Section 415.010 is added to promulgate DD Form 748, General Provisions for Cost—Reimbursement Supply Contracts. Use of this form, in conjunction with DD Form 351 (Cover Page), will eliminate, to a large degree, the necessity for typewriting or otherwise reproducing in the contract, general provisions which are either mandatory or in frequent use. DD Form 748, may be used immediately, but is mandatory for use after 31 March 1954.

§ 415.010 *General Provisions for Cost-Reimbursement Supply Contracts (DD Form 748).* DD Form 748 (General Provisions for Cost-Reimbursement Supply Contracts) is prescribed for use in conjunction with DD Form 351 (see § 415.005).

§ 415.010–1 *Conditions for use.* DD Form 748 will be attached to any contract to which Subpart B of Part 406 of this subchapter is applicable, pursuant to § 406.202 thereof.

§ 415.010–2 *Instructions for use.* (a) DD Form 748 contains (1) all of the clauses required to be inserted in accordance with § 406.203 of this subchapter and (2) some of the clauses set forth in §§ 406.204 and 406.205 of this subchapter.

(b) The addition of clauses set forth in §§ 406.204 and 406.205 of this subchapter or of other clauses not inconsistent with requirements of this subchapter shall be accomplished by appending such clauses as "Additional General Provisions", numbered consecutively.. The deletion or modification of clauses contained in the form or in the "Additional General Provisions" shall be accomplished by appropriate reference or provision in an "Alteration in Contract" clause to be included in the Schedule.

(c) These instructions must be read in conjunction with Subpart B of Part 406 of this subchapter to make certain that current clauses are in use at all times. In the event that the contents of a contract clause are changed before issuance of a revised DD Form 748, appropriate changes will be made in the contract by means of an "Alterations in Contract" clause. In any case, care must be exercised to see that current contracts have attached thereto the latest revision of DD Form 748.

§ 415.010–3 *Existing forms.* DD Form 748 replaces existing departmental forms currently in use for this purpose. Continued use of the replaced forms is authorized until existing stocks are exhausted or until 31 March 1954, whichever date is earlier.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 22, 1954.

[F. R. Doc. 54–803; Filed, Feb. 4, 1954; 8:48 a. m.]

PART 415—PROCUREMENT FORMS

MISCELLANEOUS AMENDMENTS

1. A new § 415.011 collates information with respect to all forms which may be required to be completed for the purpose of compliance with the contract clauses relating to labor.

§ 415.011 *Compliance with labor clauses.* This section prescribes standardized forms for use in complying with labor laws, regulations, and clauses.

§ 415.011–1 *Construction contracts.* (a) Department of Labor Form DB–11 (Request for Determination) shall be used, in accordance with the provisions of § 411.404–2, for the submission of requests for the determination of wage rates by the Secretary of Labor.

(b) Standard Form 1093 (Schedule of Deductions from Payments to Contractors) shall be used, in accordance with the provisions of § 411.404–9 of this subchapter, to report deductions against payment vouchers of contractors on account of failure to comply with labor laws, regulations and clauses.

(c) When required by § 411.404–6 (a) of this subchapter and the contract clauses prescribed by § 411.403–1 or § 411.403–4 of this subchapter, a "Weekly Payroll Affidavit and Certification" form, as set forth below, shall be used by the contractor. When the contract clauses prescribed by § 411.403–2 of this subchapter are applicable, the form set forth below shall be used by the contractor with the omission of paragraphs (2) and (3). Reproduction and supply of this form shall be the obligation of the contractors.

CONTRACTOR'S WEEKLY PAYROLL AFFIDAVIT

Payroll No. ---------- Sheets 1 to ----------
Payroll date ---------- Gross amount ----------
State of ----------
County of ----------} ss:

I, ----------
(Name of party signing affidavit)
----------, being duly sworn do depose and say:
(Title)

(1) That I pay or supervise the payment of the persons employed by ----------
(Contractor
---------- on Contract No. ----------,
(Subcontractor)
at ----------; that, during the payroll period commencing on the ---- day of ----------, 19--, and ending the ---- day of ----------, 19--, all persons employed on said project have been paid the full weekly wages earned, that no rebates have been or will be made either directly or indirectly to or on behalf of said ----------
(Contractor subcontractor)
from the full weekly wages earned by any person and that no deductions have been made or will be made, either directly or indirectly, from the weekly wages earned by any person, other than permissible deductions, as defined in the Regulations under the Copeland (Anti-Kickback) Act (18 U. S. C. 874 and 40 U. S. C. 276 (c) as amended) and described below:

---

(2) That the payrolls submitted for the above period are correct and complete; that the wage rates for laborers and mechanics contained therein are not less than the minimum wage rates shown in the contract; that the classifications therein set forth for each laborer and mechanic conform with the work he performed; and that all laborers and mechanics shown on such payroll have been paid for all hours of work beyond eight in a single day at a rate not less than time and one-half the straight-time hourly wage rate therein set forth.

(3) That all apprentices employed on the contract during the above payroll period are duly registered in a bona fide apprenticeship program registered with a State apprenticeship agency recognized by the Federal Committee on Apprenticeship, U. S. Department of Labor, or if no such recognized agency exists in a State, are registered with the Bureau of Apprenticeship, U. S. Department of Labor.

(Signature and title)

Sworn to before me this ---- day of ----------, 19--.

[SEAL] ----------
Notary public

§ 415.011–2 *Supply contracts.* (a) Department of Labor Form PC–12 (Rev. 3/49), a form letter explaining the Walsh-Healey Act, shall be furnished to the contractor in accordance with the provisions of § 411.603 of this subchapter.

(b) Department of Labor Form PC–13 (Rev. 1/50), is a poster required to be furnished to the contractor in accordance with the provisions of § 411.603 of this subchapter.

(c) DD Form 350 or any alternate approved form shall be used in accordance with the provisions of § 411.603 of this subchapter to furnish the Department of Labor certain information in lieu of utilizing the Department of Labor Form PC–1 as required by administrative regulations of the Secretary of Labor.

2. New §§ 415.012 and 415.013 prescribe standardized forms for Department of Defense-wide use in connection with the solicitation of quotations and proposals in negotiated procurements.

§ 415.012 *Request for quotation (DD Form 747).*

§ 415.012–1 *General.* DD Form 747 (Request for Quotations) is designed to obtain price, cost, delivery, or any other information from suppliers in connection with negotiated procurements for supplies and services (other than personal) in excess of $5,000. DD Form 747 may also be used in connection with procurements of $5,000 or less when the Contracting Officer considers written quotations necessary. With respect to the solicitation of written quotations for small purchases, i. e., less than $1,000, § 402.603 of this subchapter will be complied with.

§ 415.012–2 *Conditions for use.* DD Form 747 is authorized for use in connection with the negotiation of contracts or purchase orders for supplies or services (other than personal) when it appears reasonably certain that the procurement will be consummated by (a) a purchase order, (b) a fixed price type contract involving extensive negotiation and signature by both parties, or (c) a cost reimbursement type contract. Where information pertaining to financial data or additional facilities is required, the use of properly approved departmental forms for these purposes is authorized.

§ 415.012–3 *Forms superseded.* The form prescribed herein supersedes the following departmental forms: (a) Department of the Army-War Department Form 104, War Department Form 105; (b) Department of the Navy-NAVSANDA 109, NAVAER 2894, NAVAER 2896, ASPPA Form RFP 400, NAVSHIPS 4504 (9–53), BUORD Request for Proposals Forms; (c) Department of the Air Force-War Department Form 104, War Department Form 105; and (d) all other forms used by the Departments for requesting proposals and quotations under the conditions set forth in § 415.012–2. The continued departmental use of the replaced forms is authorized until existing printed stocks are exhausted or until April 30, 1954, whichever is earlier.

§ 415.013 *Forms for request for proposals, proposal and acceptance.*

§ 415.013–1 *General.* The following Department of Defense forms are prescribed for use under the condition set forth in § 415.013–2 below in connection with negotiated procurements for supplies or services (other than personal) in excess of $5,000.00:

DD Form 746 Request for Proposals and Proposal (Negotiated Fixed-Price Contract)
DD Form 746–1 Schedule, Request for Proposals and Proposal
DD Form 746–2 Acceptance of Proposal (Negotiated Fixed-Price Contract)

These forms may also be used for negotiated procurements of $5,000 or less when the contracting officer considers written proposals necessary. With respect to the solicitation of written proposals for small purchases, i. e., less than $1,000, § 402.603 of this subchapter will be complied with.

§ 415.013–2 *Conditions for use.* (a) DD Forms 746 and 746–1 (together with U. S. Standard Form 32 and any other applicable provisions) shall be used in connection with the negotiation of contracts for supplies or services when it appears practicable and desirable to commence negotiations by soliciting written offers from potential suppliers which, upon written acceptance by the Government, would create a binding contract without further action by either party.

(b) When proposals have been submitted on DD Forms 746 and 746–1, and it is in the interest of the Government to accept a supplier's proposal without further negotiation, price and other factors considered, DD Form 746–2 shall be used. In such instances the contract will consist of (1) the Request for Proposals and proposal (including any written amendments), (2) the Schedule, (3) the General Provisions, (4) the Acceptance of the Proposal, and (5) any continuation sheets attached to the foregoing documents.

(c) When a proposal, submitted by a supplier, is not acceptable to the Government without further negotiation, a resulting contract may be prepared on DD Form 351 for signature by both parties. If the circumstances are such that the supplier can amend his proposal in writing to reflect the further negotiations,

the amended proposal may be accepted on DD Form 746–2.

(d) When a continuation sheet is necessary, U. S. Standard Form 36 (Continuation Sheet (Supply Contracts)) shall be used.

(e) When a cost breakdown is required in connection with a proposal, DD Form 633 (Cost and Price Analysis) shall be used, to the extent provided in § 415.002.

(f) Where information pertaining to financial data or additional facilities is required, the use of properly approved Departmental forms for these purposes is authorized.

(g) Authorization for use of the above forms does not preclude the use of purchase order forms prescribed in other sections of this part.

§ 415.013–3 *Forms superseded.* The forms prescribed in this subpart supersede the following Departmental forms: (a) Department of the Army-War Department Form 104, War Department Form 105, War Department Form 47 (except for the purchase of subsistence and other supplies wherein price quotations are subject to daily fluctuation); (b) Department of the Navy-NAVAER 2894, NAVAER 2896, ASPPA-RFP-400, ASPPA-A-400, NAVSANDA-109, NAVSHIPS 4504 (9–53) and BUORD Request for Proposals; (c) Department of the Air Force-AMC Form 98; and (d) all other forms used by the Departments under the conditions set forth in § 415.013–2. The continued Departmental use of the replaced forms is authorized until existing printed stocks are exhausted or until April 30, 1954, whichever is earlier.

(R. S. 161; 5 U. S. C. 22)

T. P. PIKE,
Deputy Assistant Secretary of Defense (Supply and Logistics).

JANUARY 26, 1954.

[F. R. Doc. 54–795; Filed, Feb. 4, 1954; 8:46 a. m.]

Chapter VII—Department of the Air Force

Subchapter F—Reserve Forces

PART 864—ENLISTED RESERVE

SERVICE OBLIGATIONS UNDER THE UNIVERSAL MILITARY TRAINING AND SERVICE ACT

Sections 864.31 to 864.40 (32 CFR 864.31 to 864.40) are revoked and the following new sections are issued in lieu thereof:

Sec.
- 864.31 Purpose.
- 864.32 General.
- 864.33 Definitions.
- 864.34 Reserve obligation.
- 864.35 Fulfillment of five-year Reserve obligation.
- 864.36 Fulfillment of six-year Reserve obligation.
- 864.37 Fulfillment of eight-year service obligation.
- 864.38 Administrative discharge.
- 864.39 Policy regulating transfers between Reserve components.
- 864.40 Transfers to other services by members of the Air Force Reserve.
- 864.41 Maintenance of records.
- 864.42 Air Force Reserve Officers' Training Corps program.
- 864.43 Ready and Standby Reserve status of obligated Reservists.

AUTHORITY: §§ 864.31 to 864.43 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply sec. 4, 62 Stat. 605, as amended; 50 U. S. C. App., 454.
SOURCE: AFR 45–35.

§ 864.31 *Purpose.* (a) The regulations contained in §§ 864.31 to 864.43:

(1) Define the obligations of certain Reserves of the Air Force.

(2) Determine the applicability of these obligations to those persons who have been transferred to the Air Force Reserve after a period of active duty, and to those persons who were initially enlisted or appointed in the Reserve components of the Air Force after June 19, 1951.

(3) Implement the approved policy of the Secretary of Defense regulating transfers between Reserve components of the Armed Forces.

(4) Establish credit for service in one or more Reserve components of the same or another Armed Force against the requirements of section 4 (d) of the Universal Military Training and Service Act (sec. 4 (d), 62 Stat. 607, as amended; 50 U. S. C. App., 454 (d)).

(b) Sections 864.31 to 864.43 should not be construed as requiring the discharge of any member of the Air National Guard of the United States while not in the Federal service.

§ 864.32 *General.* After June 25, 1948, and prior to the enactment of the June 19, 1951, amendments to the Universal Military Training and Service Act (65 Stat. 75), the obligation to serve in the Reserve components applied only to those persons otherwise subject to induction, who, after serving a period of active service, were transferred to a Reserve component of an Armed Force for periods of either 5 or 6 years. After June 19, 1951, however, any person under 26 years of age who is initially enlisted, inducted, or appointed in any of the Armed Forces of the United States including the Reserve components thereof will assume, as of the date of such initial enlistment or appointment, a service obligation which will continue in effect until a total of 8 years of service has been completed. The 8-year period may be composed of Regular or Reserve component service or any combination thereof, either on active duty or by participation in Reserve training program, as prescribed in §§ 864.31 to 864.43.

§ 864.33 *Definitions.* For the purpose of §§ 864.31 to 864.43, unless otherwise specifically indicated, the following definitions apply:

(a) *Five-year Reservist.* A person who, being subject to induction, was inducted or enlisted for active military service between June 24, 1948, and June 19, 1951 (both dates inclusive), and who:

(1) At time of induction or enlistment was under 26 years of age,

(2) Served for a period of less than 3 years, except those persons who completed at least 21 months of active service and who, thereafter, served satisfactorily on active service under a voluntary extension for a period of at least 1 year, and

(3) Upon completion of such period of active military service was required by law to serve in, and was transferred to the Air Force Reserve for a period of 5 years.

(b) *Six-year Reservist.* A person who, while subject to induction, enlisted for a period of 1 year between June 24, 1948, and June 19, 1951 (both dates inclusive), and who:

(1) At enlistment was between 18 and 19 years of age, and

(2) Upon completion of such term of enlistment, was required by law to serve in, and was transferred to, the Air Force Reserve for a period of 6 years.

(c) *Eight-year obligor or eight-year Reservist.* A person who, subsequent to June 19, 1951, and prior to his 26th birthday, is initially inducted, enlisted or appointed under any provision of law in any of the Armed Forces of the United States, including the Reserve components. Such persons are required to complete a total period of 8 years of active service and/or service in a Reserve component. While such a person is in a Reserve of the Air Force status, he may be referred to as an "eight-year Reservist." A reenlistment or appointment from enlisted status or the induction of a person already possessing Reserve status, does not constitute an initial enlistment, appointment, or induction for the purpose of §§ 864.31 to 864.43. Persons enlisted or appointed in the Regular Air Force may complete the 8-year service obligation while in such status.

(d) *Satisfactory participation in an organized unit.* The term "organized unit," as used in §§ 864.31 to 864.43 applies only to those units and training program elements of the Reserve components of the Air Force which require a minimum of 35 scheduled drills or training periods or days of active Federal service, or any combination thereof each year. These units and program elements are listed in subparagraph (1) of this paragraph. The term "satisfactory participation" includes membership in an organized unit and attendance at not less than 90 percent of the scheduled training activities thereof.

(1) *Organized units of the Reserve components of the Air Force.* Each of the following units and program elements is deemed to be an organized unit:

(i) All units of the Air National Guard of the United States.

(ii) Combat support wings and units.

(iii) Combat wings and units.

(iv) Flying training wings and units.

(v) Replacement training squadrons.

(vi) Specialist training units, provided that the person is in a pay status.

(vii) Mobilization assignment Reserve sections (mobilization assignees will be deemed to be members of organized units).

(2) *Participation.* Minimum participation standards are established for each unit and program element of the Reserve components of the Air Force and are set forth in applicable directives pertaining thereto. Persons whose obligation under the Universal Military Training and Service Act is predicated upon satisfactory participation also must meet all of the following requirements:

(i) Assignment to an organized unit.

(ii) Attendance at all scheduled drills, unit training assemblies, training periods or days of active Federal service of the unit, unless excused by proper authority, provided that such excused absences will not exceed 10 percent of those scheduled activities.

(iii) Satisfactory performance of duties as determined by unit commanders.

(e) *Constructive credit points.* As used in §§ 864.31 to 864.43 and only for the purpose described herein, the phrase "constructive credit points" or the word "points" refer to that credit which is awarded to 6-year Reservists and 5-year Reservists for membership in a Reserve component, satisfactory participation as a member of an organized unit, or performance of active duty. This credit is accumulated only for the purpose of determining fulfillment of the Reserve obligation imposed by the law. Constructive credit for points for determining fulfillment of the service obligation will not be awarded to 8-year Reservists.

(f) *Active military service.* Full-time duty with the active establishment, either on extended active duty or on active duty for training. The terms "active military service" and "active duty" are synonymous.

§ 864.34 *Reserve obligation.* (a) Five-year Reservists are required to retain membership in one of the Reserve components of the Air Force for a period of 5 years. This period may be reduced as hereinafter provided.

(b) Six-year Reservists are required to retain membership in one of the Reserve components of the Air Force for a period of 6 years. This period may be reduced as hereinafter provided. It is the duty of each such person to participate satisfactorily in an organized unit or an officer training program provided that he is mentally and physically qualified, provided further that such an assignment or training program is available, and can, without undue personal hardship, be filled by him.

(c) Eight-year Reservists are required to retain membership in one of the Reserve components of the Air Force during such time as they are not members of one of the Regular components of the Armed Services until a total of 8 years of service has been completed. Such period of 8 years may be composed of Regular or Reserve service or a combination thereof, either on active duty or by participation in Reserve training programs, or a combination thereof, as hereinafter prescribed. This 8-year service obligation may not be reduced. It is the duty of each such person to participate satisfactorily in an organized unit or an officer training program provided that he is mentally and physically qualified, provided further that such an assignment or training program is available, and can without undue personal hardship, be filled by him.

§ 864.35 *Fulfillment of five-year Reserve obligation.* (a) A 5-year Reservist will be considered as having completed his Reserve obligation when he has accumulated 180 consecutive credit points and will be discharged and issued an appropriate certificate of discharge or service unless:

(1) His enlistment or obligated period of service is extended, either voluntarily or involuntarily, under any provisions of law, or

(2) He is on active military service, in which case, subject to the following exceptions, the accrual of 180 points will not serve as a basis for his release from such service prior to expiration of the period for which ordered into active military service. Except as otherwise provided herein, the Reserve obligation with regard to a 5-year Reservist who has accrued 180 points will not exceed 3 years in the event he had been performing satisfactory service in an organized unit or an officer training program (while a member of a Reserve component) immediately prior to reporting for active military service, and will not exceed 5 years in other cases.

(b) Constructive credit points will be awarded at the rate of three points for each month of membership in a Reserve component after the date of transfer thereto. Thus, a 5-year Reservist can accrue 180 points and complete his period of obligated Reserve service in exactly 5 years. Accelerated fulfillment of the 5-year Reserve obligation, however, is encouraged. The activities of the person and extent of Reserve participation can materially reduce the obligated period of Reserve service. For example, five points will be awarded for each month of active service performed prior to the date that a person who remained subject to induction, was inducted, enlisted, or appointed on or after June 24, 1948.

(1) Five-year Reservists with 21 months or more of original active military service will accumulate:

(i) 5 points for each month of satisfactory participation in an organized unit. Fulfillment of the Reserve obligation could thus be accomplished in 3 years.

(ii) 5 points for each month of active military service performed at any time prior to enlistment, induction, or appointment on or after June 24, 1948.

(iii) 15 points for each month of active military service performed subsequent to transfer to the Reserve. Fulfillment of the Reserve obligation could thus be accomplished in 1 year.

(2) Five-year Reservists with less than 21 months of original active service will accumulate:

(i) 3.75 points for each month of satisfactory participation in an organized unit. Fulfillment of the Reserve obligation could thus be accomplished in 4 years.

(ii) 5 points for each month of active military service performed at any time prior to enlistment, induction, or appointment on or after June 24, 1948.

(iii) 8.5 points for each month of active military service performed subsequent to his transfer to the Reserve. Fulfillment of the Reserve obligation could thus be accomplished in 21 months.

(3) Accelerated fulfillment of Reserve obligation (accrual of 180 points) will not, in time of war or national emergency declared by Congress, relieve a 5-year Reservist from his obligation to serve in a Reserve component of the Air Force for the full period of 5 years.

(c) Termination of Reserve status by discharge or separation in legal effect terminates the Reserve obligation, except that a discharge or other type of separation for the purpose of immediate entry or reentry into the Air Force Reserve, the Air National Guard of the United States, the Regular Air Force, or any other Reserve or Regular component of the Armed Forces, or to enter an officer training program in which the person has a military status, will not constitute a termination of such obligation. Additional service performed after such a discharge or other type of separation will be counted toward fulfillment of the obligation.

§ 864.36 *Fulfillment of six-year Reserve obligation.* A 6-year Reservist will be considered as having completed his Reserve obligation when he has accumulated 144 constructive credit points and will be discharged and issued an appropriate certificate of discharge, unless his enlistment or obligated period of service is extended either voluntarily or involuntarily under any provision of law, or except as provided in paragraphs (b) and (d) of this section. The awarding of constructive credit points and fulfillment of Reserve obligations will be in accordance with the following:

(a) 3 credit points will be awarded for each month or fractional part thereof of satisfactory service in an organized unit of any Reserve component or in an officer training program (while a member of a Reserve component). This would enable the 6-year Reservist to complete his obligation in 4 years, except as provided in paragraph (d) of this section.

(b) 6.75 credit points will be awarded each month or fractional part thereof of active military service performed after transfer to a Reserve component, regardless of whether active military service was performed voluntarily or involuntarily under any provision of law. This would enable the 6-year Reservist to complete his obligation after a minimum of 21 months of additional active military service, except as provided in this paragraph or in paragraph (d) of this section. The accrual of 144 credit points by a 6-year Reservist who is performing active military service will not serve as a basis for his release from such service prior to the expiration of the period for which ordered into active military service unless:

(1) Subsequent to his transfer to the Reserve component, his total service, including time spent in active military service, equals 6 years, or

(2) Subsequent to his transfer to the Reserve component, his total active military service, combined with satisfactory service in an organized unit of a Reserve component or satisfactory service in an officer training program while a member of a Reserve component, or both, amounts to 4 years.

(c) 2 credit points will be awarded for each month of service or fractional part thereof in other training program elements of the Reserve components. This would require the full 6 years in a Reserve component.

(d) Notwithstanding paragraphs (a) and (b) of this section, the accrual of 144 credit points will not, in time of war or national emergency declared by Congress, relieve a 6-year Reservist from his obligation to serve in a Reserve component.

(e) Notwithstanding paragraphs (a) through (d) of this section, the Air Force may, for cogent reasons, and at any time prior to completion of the Reserve obligation, discharge any 6-year Reservist. Such discharge terminates the Reserve obligation and an appropriate certificate of discharge will be issued. However, a discharge or other type of separation for the purpose of immediate entry or reentry in the same or any other Reserve component of the Armed Forces, in the same or any other status, or to enter an officer training program in which the person has a military status, will not terminate the Reserve obligation. Additional service performed after such discharge or separation will be counted toward fulfillment of such obligation.

§ 864.37 *Fulfillment of eight-year service obligation.* The 8-year service obligation will be considered to have been fulfilled or terminated:

(a) Upon discharge for the purpose of complete separation from any military status or upon revocation or termination of commission or appointment, acceptance of resignation in place of elimination action or under conditions other than honorable, being dropped from the rolls, dismissal, or

(b) Pursuant to §§ 864.31 to 864.43, the person concerned has served as a member of one or more of the Regular or Reserve components of the Armed Forces for a total of 8 years. Upon completion of such service, the 8-year Reservist may, if otherwise eligible, be discharged.

§ 864.38 *Administrative discharge.* The Air Force may discharge administratively, at any time prior to the completion of the Reserve obligation, any 5-year Reservist, 6-year Reservist, or 8-year Reservist, in accordance with procedures established in applicable regulations.

§ 864.39 *Policy regulating transfers between Reserve components.* Interservice transfers of persons who have an obligation for service under the Universal Military Training and Service Act (62 Stat. 604, as amended; 50 U. S. C. App., 451–470), between Reserve components of the Armed Forces should be accomplished only in instances wherein the Reservist requests or consents to such transfer and wherein the two services concerned mutually agree that such transfers are in the best interest of the Armed Forces. An Armed Force may request the transfer of a particular Reservist from a Reserve component of another Armed Force.

(a) Requests will normally be made only when:

(1) The initiating Armed Force has a specific vacancy for the person concerned in an organized unit within a reasonable distance of the person's domicile or place of business, or

(2) The person concerned applied for and the gaining Armed Force desires his enrollment in its officer training program.

(b) Requests will be approved only when:

(1) The losing Armed Force does not have an organized unit within a reasonable distance of the domicile or place of business of the person to which the Reservist may be usefully assigned, or

(2) The Reservist has special experience or professional, educational, or technical background which is clearly of greater use to the gaining Armed Force and which use outweighs the value of his previous training in the losing Armed Force, or

(3) The person concerned will be enrolled in an officer training program of the gaining Armed Force without regard to subparagraph (1) of this paragraph.

(c) Interservice transfers between Reserve components of the Armed Forces will be accomplished by discharge from the Reserve component in which serving for the purpose of immediate enlistment or appointment in the Reserve component of the service concerned. Where membership in the officer training program does not confer military status, discharge will be for the purpose of immediate enlistment in the Reserve component of the gaining service. Discharge for this purpose will not constitute a fulfillment of the obligation under section 4 (d) of the Universal Military Training and Service Act (sec. 4 (d), 62 Stat. 607, as amended; 50 U. S. C. App., 454 (d)). Additional service performed after such discharge will be counted toward fulfillment of such obligation.

§ 864.40 *Transfers to other services by members of the Air Force Reserve.* Individual members of the Air Force Reserve when not on active duty may be transferred to Reserve components of other services as provided in this section:

(a) *Requests initiated by a service.* (1) The Departments of the Army and Navy may request the services of a particular Air Force Reservist.

(2) Transfer will be approved only when the requirements established in § 864.39 are met.

(3) Requests will include:

(i) Statement that there is a specific vacancy for the person in an organized unit within a reasonable distance of his domicile or place of business where he will receive inactive duty training.

(ii) Statement that the person concerned will accept such change and will participate in inactive duty training as prescribed by the Secretary of Defense for members of units who are given exemption under section 6 (c) (1) of the Universal Military Training and Service Act (sec. 6 (c), 62 Stat. 610, as amended; 50 U. S. C. App., 456 (c)).

(iii) Statement, when applicable, on the Reservist's special experience, or professional or technical background, and the need thereof by the initiating service.

(4) Requests for the service of a member of the Air Force Reserve may be initiated by State senior Army instructors or naval district commanders and transmitted directly to the commander of the Continental Air Command numbered air force of the area in which the Reservist resides. Such requests will not be forwarded to Headquarters USAF, except in the event of disapproval where the requesting agency feels that adjudication by higher authority is necessary to the best interests of the Department of Defense.

(b) *Requests initiated by individual members of the Air Force Reserve.* (1) Individual Reservists may initiate requests for transfer to a Reserve component of another Service.

(2) Requests will be approved only when all of the requirements of § 864.39 are met.

(3) Requests will include:

(i) A statement from the State senior Army instructor or naval district commander of the service to which transfer is desired, covering in sufficient detail the requirements specified by paragraph (a) (3) of this section, when applicable.

(ii) A statement by the person on whether he is or is not assigned to an organized unit and, if not, whether he has applied for such assignment, and stating further that, if the transfer is approved, he will accept assignment to the organized unit of the gaining service.

(iii) A detailed statement by the person on the experience and qualifications which indicate the transfer is in the best interests of the Department of Defense.

(4) Individually initiated requests for transfers will be forwarded to the commander of the Continental Air Command numbered air force concerned through the local unit commander, if applicable, for approval.

(c) *Approval action.* Approval action will include informing the person in writing that appropriate action will be taken to effect his discharge as a Reserve of the Air Force upon receipt of documentary evidence that he has been accepted for enlistment or appointment as a Reserve of the Armed Force to which transfer has been requested. Discharge will not be accomplished, however, until notification of the person's enlistment or appointment in the new service has been received.

§ 864.41 *Maintenance of records—*(a) *Record of constructive credit points.* The custodian of the Reservists' records will maintain accurate record of constructive credit points earned by each Reservist toward fulfilling his obligation. Upon transfer of a Reservist, including transfers between the Air Force Reserve and the Air National Guard of the United States, an itemized statement showing the number of points earned to date of transfer and inclusive date thereof will be entered in his WD AGO Form 24A or DD Form 230, "Service Record (For Enlisted Personnel)". In the event the Reservist is discharged due to enlistment or appointment as a Reserve of another Armed Force, the gaining agency will be informed of the person's Reserve obligation and credits earned toward fulfilling that obligation.

(b) *Counting fractional parts of months.* In computing constructive credit points, fractional parts of months will be counted only when the fractional part equals half a month or more. When a person serves for half a month in an organized unit and half a month in another training program element, or half a month on active military service and half a month not on active duty, he will be credited for the month involved with the number of points applicable for the type of service which accrues the larger number of points.

§ 864.42 *Air Force Reserve Officers' Training Corps program.* Personnel participating in the Air Force Reserve Officers' Training Corps (ROTC) program may remain enlisted members of the Air Force Reserve during such enrollment. The Air Force commander having jurisdiction over such personnel will be furnished with a statement showing satisfactory participation in the Air Force ROTC program by the professor of air science and tactics at the end of each year during such enrollment. If the Reservist is dropped from enrollment in the Air Force ROTC at any time, the professor of air science and tactics will immediately notify the Air Force commander concerned. Reserves of other Armed Forces who are selected for enrollment in the advanced course of Air Force ROTC must be transferred to the Air Force Reserve as provided in § 864.39 prior to formal enrollment.

§ 864.43 *Ready and Standby Reserve status of obligated Reservists.* All Reserves of the Air Force are Ready Reservists and remain subject to involuntary active military service in the event of an emergency proclaimed by the President unless and until they qualify for and elect Standby Reserve status. Five-year Reservists, 6-year Reservists, and 8-year Reservists are not precluded by their obligation from electing Standby status at any time they become qualified. Such Reservists may also agree to remain Ready Reservists or to assume Ready Reserve status in order to participate in certain Reserve training activities. Acceptance of Standby status does not reduce or otherwise affect the obligation to remain a member of a Reserve component and the duty to participate satisfactorily in an organized unit.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 922]

[Docket No. AO–250]

HANDLING OF VALENCIA ORANGES GROWN IN ARIZONA AND A DESIGNATED PART OF CALIFORNIA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of Valencia oranges grown in Arizona and a designated part of California. Such marketing agreement and order would be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 1353, South Building, Washington 25, D. C. Any such exceptions should be filed in quadruplicate, and must be received prior to the close of business on the fifteenth day after the publication of this recommended decision in the FEDERAL REGISTER.

Preliminary statement. A public hearing, on the record of which the proposed marketing agreement and marketing order (hereinafter referred to as the "order") were formulated, was held at Los Angeles, California, from December 7 to December 10, 1953, both dates inclusive. Such hearing was held pursuant to a notice thereof which was published in the FEDERAL REGISTER (18 F. R. 7358) on November 20, 1953. Said notice contained a draft of a proposed marketing agreement and order which had been presented to the Department of Agriculture by the Sunkist Growers, Incorporated, a cooperative association of orange growers in California and Arizona, with a petition for a hearing thereon. The objective of the proposed marketing agreement and order is to bring to the Valencia orange industry of California and Arizona the benefits of the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act").

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The need for the proposed regulatory program to effectuate the declared purposes of the act;

(2) The existence of the right to exercise Federal jurisdiction in this instance;

(3) The definition of the commodity and determination of the production area to be affected by the marketing agreement and order;

(4) The identity of the persons and transactions to be regulated;

(5) The specific terms and provisions to be incorporated in the proposed marketing agreement and order, such as:

(a) The definitions of such terms as "Secretary," "act," "production area," "person," "fiscal year," "marketing year," "grower," "oranges available for current shipment," "tree crop," "early maturity oranges," "general maturity," "box," "central marketing organization," "carload," and "export";

(b) The establishment and maintenance of an administrative agency, to be known as the Valencia Orange Administrative Committee (hereinafter referred to as the "committee") for conducting marketing agreement and order operations, the powers and duties of such committee, and its manner of doing business;

(c) The incurring of expenses by the committee and the levying of assessments;

(d) The formulation and adoption of a marketing policy for each prorate district each season;

(e) The issuance of volume regulations;

(f) The issuance of size regulations, and the relaxation of such regulations in hardship cases;

(g) The issuance of internal quality regulations;

(h) The division of the production area into prorate districts;

(i) The specification of the purposes for which oranges may be handled free from regulation;

(j) The keeping of records and filing of reports by handlers;

(k) The requirement of compliance with all provisions of the marketing agreement and order and with regulations issued pursuant thereto; and

(l) Additional terms and conditions as set forth in §§ 922.81 through 922.90 and published in the FEDERAL REGISTER (18 F. R. 7358) on November 20, 1953, which are common to marketing agreements and orders, namely, right of the Secretary, effective time, termination, effect of termination or amendment, duration of immunities, agents, derogation, personal liability, and separability, and certain other terms and conditions as set forth in §§ 922.91 through 922.93, and also published in the said issue of the FEDERAL REGISTER, which are common to marketing agreements only, namely, counterparts, additional parties, and order with marketing agreement.

Findings and conclusions. The findings and conclusions on the foregoing material issues, all of which are based on the evidence adduced at the hearing and the record thereof, are as follows:

(1) It is concluded that a marketing agreement and order program is needed to regulate the handling of Valencia oranges grown in the production area to

establish and maintain such orderly marketing conditions thereof as will tend to establish parity prices for such oranges.

The average price received by producers in California-Arizona for oranges shipped for fresh consumption during the 1950–51 marketing season was $2.28 per box, on tree, or 54 percent of the parity price for such oranges. During the 1951–52 and 1952–53 seasons the comparable pfices received by producers were $2.37 and $1.78 per box, respectively, or 57 and 44 percent of the respective parity prices for such oranges. During July, August, September, and October of the 1952–53 season average on-tree prices received by producers for California-Arizona oranges shipped for fresh consumption were $1.16, $0.91, $1.46, and $1.11 per box, respectively. These prices were 29, 23, 36, and 28 percent, respectively of the parity prices for such oranges.

Average prices received for oranges by producers in California and Arizona have been low in relation to parity during recent seasons. During the 1952–53 marketing season, prices received by such producers for Valencia oranges were especially low in relation to the parity levels.

Valencia oranges produced in California and Arizona are marketed primarily during the summer months. The heaviest shipments usually occur in June, July, August, and September. The Valencia orange lends itself to processing as well as shipment to market in fresh form, and during the 3 seasons ending in 1951–52 an average of nearly 40 percent of such orange production was used in other than fresh fruit channels.

The increase in the production of oranges in Florida during recent years and the increased processing of orange products, especially frozen concentrated orange juice, have resulted in increased competition to California-Arizona Valencia orange producers. For example, during the 5 seasons ending in 1943–44 Florida orange and tangerine production averaged 34 million boxes annually. During the same period an average of less than 5 million cases (equivalent 24 No. 2's) per year of canned orange juice was packed in the United States and there was no commercial production of frozen concentrated orange juice. During that period, with relatively little competition from processed orange juice products, California-Arizona Valencia orange producers shipped an average of 84 percent annually of the total crop of Valencia oranges to fresh fruit channels.

During the 3 seasons ending 1951–52, production of Florida oranges averaged nearly 73 million boxes annually. During these seasons the average annual U. S. pack of canned orange juice exceeded 21 million cases (equivalent 24 No. 2 cans), and an average pack in excess of 36 million gallons of frozen concentrated orange juice was produced annually. In the face of this competition from processed orange products, the share of the California-Arizona Valencia crop shipped to fresh markets was reduced to 61 percent.

The nature of the present total market for fresh oranges and processed orange products during the California-Arizona Valencia season, therefore, is such that only approximately two-thirds or less of the California-Arizona Valencia orange crop can be expected, on the average, to be shipped to market in fresh form.

Oranges may be stored on the tree after reaching maturity; and when the crop of oranges in a particular producing district has reached maturity, all of the fruit is capable of being shipped. Producers usually are anxious to harvest their fruit early in order to avoid loss from drop or deterioration in grade and quality. Average returns to producers of California-Arizona Valencia oranges used for processing are lower than those received from sales in fresh fruit channels, although prices received for the discounted grades and sizes of fruit sold in fresh fruit channels tend to equal those received from fruit sold for processing. As a consequence, producers exert strong pressures upon handlers to ship their fruit to fresh markets as rapidly as possible. It is extremely difficult for operators of packing houses to ignore such pressures during the marketing season and to limit shipments of such oranges to the requirements of the then current market demand.

The authority to regulate shipments to fresh markets each week under a marketing program provides a means to withstand such pressures to ship and thereby to limit the quantity of fruit shipped to that required in marketing channels. In addition, the proposed marketing agreement and order makes readily available to handlers knowledge of the quantity which is to be shipped each week, as well as more accurate information concerning the quantity of fruit available in and en route to consumer markets. Receivers of California-Arizona Valencia oranges, moreover, would be provided with a basis for maintaining their commercial operations in the light of information with respect to the rate at which supplies will be made available to them.

Such conditions do not exist in the absence of a marketing agreement and order, and the evidence indicates that there exists a tendency on the part of handlers, in the absence of some program providing restraint of shipments, to ship excessive quantities because of desires of producers to pick their fruit and thereby avoid losses through damage or deterioration in the groves. Moreover, no individual handler or group of handlers successfully can increase the level of prices by reducing shipments because other handlers can nullify such action by increasing their shipments accordingly.

A recent study of consumer purchases indicates that about one-half of the fresh Valencia oranges purchased by consumers was used for slicing or eating out of hand and the remainder used for juice.

The greatest competition, in terms of volume, to sales of fresh California-Arizona Valencia oranges is provided by sales of processed orange juice, especially frozen concentrated orange juice. Average prices to consumers per ounce of equivalent single-strength juice are substantially higher in the case of fresh oranges than in the case of processed orange products. The behavior of market prices of California-Arizona fresh Valencia oranges reveals that when sales of such oranges are maintained at quantities approximating those required by consumers who desire fruit for slicing or who prefer to prepare juice from fresh oranges, prices in consuming markets tend to be maintained at levels substantially in excess of comparable levels for the processed juice. When supplies of California-Arizona Valencia oranges offered for sale, however, exceed those which are required by such consumers, the prices of the fresh oranges tend to become more directly competitive with those at which the processed juice is offered for sale. Such prices are substantially below those at which fresh California-Arizona Valencia oranges profitably can be packed and shipped for sale in fresh commercial channels.

Returns to producers of California-Arizona Valencia oranges will be increased if the rate of shipments of fresh Valencia oranges is maintained at quantities commensurate with those required by consumers preferring slices or juice from fresh oranges, rather than increased to quantities in excess of these. If California-Arizona Valencia oranges are diverted from fresh fruit channels as a result of regulation, they will be used in processing outlets where additional quantities used have no or little significant effect upon price. This is because such additional quantities would be small in relation to the total quantities used for processing orange products, the great bulk of which are produced in Florida. Hence, such regulation will improve returns to producers because the oranges would be transferred from fresh fruit outlets, where the reduction in supplies would increase prices, to outlets where the increase in supplies would have little or no effect upon prices.

Therefore, it is concluded that a marketing agreement and order is needed to effectuate the declared policy of the act by establishing orderly marketing conditions for Valencia oranges grown in the production area through providing a means of limiting, each week, the quantity of such oranges that may be shipped to fresh channels.

Market prices of fresh California-Arizona Valencia oranges reveal the existence of price differentials, with the most preferred sizes receiving premiums and the less preferred sizes receiving discounts from the average. These differentials, when considered in relation to the quantities sold, provide an indication of market preferences for various sizes of such oranges.

Prices to producers and total returns could be augmented by making only the more preferred sizes of fruit available in fresh fruit channels. Such results could be obtained under the marketing agreement and order by prohibiting the handling of a portion or all of some of the discounted sizes of oranges. Size limitation would tend to increase consumer satisfaction and stimulate demand. Competition in the marketing of oranges is based to a considerable extent on price; and the offering of oranges of less desirable sizes at discounts tends to depress prices for better sizes.

Often, shipments are made of sizes of oranges that do not receive prices covering the cash costs of harvesting and marketing. Limitation of shipments of such sizes would not only improve the size composition of the oranges shipped but also improve average returns to producers by preventing losses incurred through the shipment in fresh form of such sizes.

The objective to be followed under the marketing agreement and order is that of tailoring the supply of oranges available for sale in fresh fruit channels to the demand in these outlets. Such tailored supply should include the more preferred sizes of oranges, and the least desirable sizes should be diverted from fresh outlets. The marketing agreeemnt and order is designed to effectuate the declared policy of the act by establishing orderly market conditions for Valencia oranges grown in the production area through limiting the quantity of Valencia oranges that may be handled each week in fresh outlets and also through limitation on the sizes of oranges handled in such channels.

(2) Any handling of California-Arizona Valencia oranges in fresh fruit channels exerts an influence upon all other handling of such oranges in fresh form. Sellers of such Valencia oranges, as of other commodities, transact their business in a manner designed to achieve the highest return for the quantities of oranges they have available for sale. In effecting these transactions, the sellers survey all accessible markets in an endeavor to take advantage of the best opportunities to market the fruit. Markets within the State of California or within the State of Arizona provide opportunities to dispose of fresh Valencia oranges in the same fashion as do markets within other States, or within Canada. A sale of a particular quantity of Valencia oranges within a market in the State of California or in the State of Arizona exerts a direct influence upon all other sales of such oranges, as does a sale of Valencia oranges in a market within another State.

The pattern of the prices received for sales of oranges in markets located within the State of California and in markets located outside thereof indicates parallel movement on a weekly and on a monthly basis. This pattern of price behavior follows from the manner in which handlers transact their business in response to conditions of supply and demand, and indicates the interdependence or interplay of the price structures of such markets. Moreover, if prices in any particular market, whether it is situated within the State of California or the State of Arizona or any other State, rise above comparable prices in all other markets, supplies of oranges are diverted to that market. Conversely, if prices fall in any particular market, supplies are diverted away from that market. For example, relatively low prices in the States of California and Arizona would result in a greater quantity of Valencia oranges shipped to markets in other States. The converse of this is also the case. The diversion of carloads, while in transit, from an original destination to another destination is a common practice. The record shows that half of the oranges shipped unsold by one large marketing organization is diverted at least once en route to market. Such diversions provide examples of handlers' responses to changes in demand conditions as between markets.

If shipments of oranges to markets outside the States of California and Arizona were regulated while at the same time shipments of oranges to markets within the States of California and Arizona were not so regulated, prices received by growers for sales in such intrastate markets would tend to be reduced to levels below those prevailing in markets in other States. Producers would have to receive higher prices for oranges marketed in interstate commerce as a result of the lower prices received in intrastate markets in order to achieve the level of prices which it is the policy of Congress, as expressed in the act, to establish. Lower prices for intrastate shipments have a serious effect upon total returns to producers, because a large portion of the Valencia orange crop is marketed in fresh form in such intrastate markets. About one-eighth of the total sales in fresh fruit channels of Valencia oranges grown in the States of California and Arizona is destined to markets within such States. In addition, the population in California and in Arizona has been increasing and is expected to continue to increase, and such percentage will increase accordingly.

Oranges sold in fresh markets, whether they are located within the State of California or the State of Arizona or in any other State, are prepared for shipment prior to packaging in exactly the same fashion. Some of the Valencia oranges sold in the State of California are not packed in a standard orange box and are sold as "loose" oranges. For those oranges which are sold as "packed" oranges, regardless of their ultimate destination, the preparation for market is identical. In most cases, the ultimate destination of the oranges is not known at the time of packaging and there is a commingling of the fruit ultimately destined for sale within the States of California and Arizona with that ultimately destined for sale in other States. In addition, oranges shipped to terminal markets within the production area often are diverted from such markets to markets outside of the production area. Usually it is not known at the time of shipment to terminal markets within the production area whether such oranges will be reshipped to markets in other states. Oranges destined for markets within the States of California and Arizona are so inextricably intermingled with oranges destined for markets within other States that it would be extremely difficult effectively to regulate shipments to interstate markets only.

All handling within the State of California or within the State of Arizona of Valencia oranges grown in the production area directly burdens, obstructs, and affects interstate and foreign commerce in such oranges. It is found, therefore, that all handling of Valencia oranges grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(3) The term "oranges," as used in the marketing agreement and order, identifies the kind of orange referred to therein, as distinguished from all other kinds of oranges. The term "oranges" should be defined to mean any and all strains of the Valencia variety of oranges. The Valencia variety is separate and distinct from other varieties of oranges. Valencia oranges are commonly recognized and distinguished from other varieties of oranges by persons who are engaged in the handling of oranges. This variety of orange grown in the production area is marketed principally during the summer months.

The term "production area" should be incorporated in the marketing agreement and order as the means of specifying the area within which Valencia oranges must be produced before the handling thereof is subject to regulation. The definition of such term is such as to include the State of Arizona and that part of the State of California south of the 37th Parallel. Production of Valencia oranges north of the 37th Parallel in the State of California is negligible, and is of no commercial significance. Those Valencia oranges grown north of the 37th Parallel are produced in quantities too small to be handled in a commercial fashion.

Oranges produced in the various producing districts south of the 37th Parallel in the State of California and in the State of Arizona cannot readily be distinguished from each other, are marketed at approximately the same time, and compete with each other in the markets. Most of the oranges produced in the proposed production area are handled by large marketing organizations which market oranges grown throughout the entire area. This area embraces three principal producing regions which are referred to as prorate districts and are discussed in issue 5 (h) of this recommended decision. The grade, size, and container specifications, and packing and selling operations are similar throughout the entire production area, and the freight rates from each of the producing districts to the primary eastern terminal markets are identical. Because of these facts, the exclusion of any part of the proposed production area would tend to make the operation of the proposed program ineffective. It is concluded that the production area, as defined, is the smallest regional production area found practicable, consistently with carrying out the declared policy of the act.

(4) The term "handler" should be defined to identify those persons who handle oranges in the manner described in the term "handle," because such persons are subject to the marketing agreement and order regulations.

The term "handle" should be defined to identify those activities which are

subject to regulation under the marketing agreement and order. Such activities with respect to Valencia oranges grown in the production area should include purchasing, selling, consigning, transporting, or shipping oranges. Each of the foregoing activities is a handling function in the current of commerce with respect to Valencia oranges grown in the production area and should be subject to regulation under the marketing agreement and order. In addition, the placing of oranges in the current of commerce in any other manner should be subject to regulation thereunder. Moreover, the performance of any one or more of these activities should constitute handling irrespective of the ultimate destination or end use of the oranges. Handling for export markets, and for other specified markets or uses enumerated in § 922.67 of the proposed marketing agreement and order, is not subject to regulation, however, for the reasons set forth in issue 5 (i) of this recommended decision.

The "handling" function occurs prior to every sale of such oranges at retail by a person in his capacity as a retailer. The handling of Valencia oranges grown in the production area commences immediately after such oranges are picked. Therefore, it is necessary to define handling as commencing after the separation of the orange from the tree so as to include all handling transactions and thereby include all handlers within the provisions of the marketing agreement and order. The term, however, should be limited by particular exceptions in order to make its applicability specific and to simplify the administration of the program.

With the exception of the processes specifically excluded in the definition of the term "handle," all activities from the time the orange is picked until it is offered for sale at retail, by a person in his capacity as a retailer, are included in the process of handling. However, the movement for hire by a carrier, common or otherwise, of oranges owned by another person should not constitute handling because such carrier has no proprietary interest in the fruit. Moreover, a common carrier is required, in providing service, to transport commodities at the request of the shipper.

The specific exceptions to the term "handle" should include the sale of oranges on the tree. This exception is stated to preclude any misunderstanding. The handling process does not actually begin until the oranges have been separated from the tree.

The transportation of oranges to a packinghouse, for the purpose of having such oranges prepared for market, also should not be included in the term "handle," because it is not necessary to regulate such transactions to accomplish the purposes of the marketing agreement and order. Nor should such preparation for market be included within the definition of the term "handle." The regulatory scheme proposed in this program should be applied at the earliest stages when oranges begin their movement to market even though handling has occurred prior thereto. If oranges are sold or shipped to market immediately after picking, the regulation should be applied when they are so sold or shipped. However, it would serve no useful purpose to apply regulations prior to the preparation for market of oranges in a packinghouse. Practically all of the oranges in the production area are prepared for market at packinghouses. It is after oranges are so prepared, when a packinghouse is utilized, that the regulation should be applied. The preparation of oranges for market includes, but is not limited to, cleansing and sorting of the fruit, as well as placing it in a container (if necessary) preparatory to offering it for sale or movement to market.

Although often it is the practice to store oranges in the packinghouse, or in nearby storages within the production area before the fruit is offered for sale by the first handler, the preparation of oranges for market should not include all such storage of oranges. Subsequent to the sale of the fruit, the oranges often are stored by the purchaser. Thus, the storage of oranges within the area of production, under such rules and regulations as the committee may, with the approval of the Secretary prescribe, should be provided in the marketing agreement and order. It is impracticable to set forth such rules or regulations in the marketing agreement and order, because conditions affecting storage practices are subject to rapid changes. The marketing agreement and order provisions should authorize the committee, with the approval of the Secretary, to establish, and amend, such rules and regulations as are necessary to effectuate such exemption.

A fourth exemption from the term "handle," excluding the sale of oranges at retail by a person in his capacity as such retailer, should be specified in order to set forth clearly the exclusion of such sales as required by the act. However, the occasional sale of a small quantity of oranges by a packinghouse to a consumer should not come within this exemption, because such sale is not by a retailer in his capacity as such retailer.

The act also prohibits the application of the proposed marketing agreement and order program to a producer of Valencia oranges grown in the production area in his capacity as a producer. Any person, however, who handles oranges, as such term is defined in the marketing agreement and order, should be subject to regulation as a handler thereunder as to such handling transactions.

The term "handle" should relate to transactions involving markets in the continental United States, Canada, and Alaska. The continental United States and Canadian markets are combined because such markets are considered by sellers of Valencia oranges grown in the production area to be, and are, one "domestic" market. Alaska should be included in the "domestic" market because it is supplied principally by shipments moving through northwest ports. Hence, its inclusion tends to assure compliance with the regulations of the program on the part of handlers shipping to northwest and Canadian markets. Shipments to other—the export—markets are not proposed to be regulated under the marketing agreement and order because sales in or to those markets do not directly compete with, and are considered as diversions from, the "domestic" market.

The act permits regulation, on the basis of volume or size, or both, of all handling of Valencia oranges grown in the production area which is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects such commerce. Since all handling of Valencia oranges grown in the production area is in interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce, it is concluded that the handling of all such oranges, with the exceptions hereinbefore noted, should be subject to regulation under the marketing agreement and order.

(5) (a) Certain terms applying to specific individuals, agencies, legislation, concepts, or things are used throughout the recommended marketing agreement and order. Those terms should be defined for the purpose of designating specifically their applicability, and establishing appropriate limitations of their respective meanings wherever they are used.

The definition of "Secretary" should include not only the Secretary of Agriculture of the United States, the official charged by law with the responsibility for programs of this nature, but also, in order to recognize the fact that it is physically impossible for him to perform personally all functions and duties imposed upon him by law, any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to act in his stead.

The definition of "act" provides the correct legal citation for the statute pursuant to which the proposed regulatory program is to be operative.

The definition of "person" follows the definition of that term as set forth in the act, and is intended to cover all possible legal entities.

The term "fiscal year" should be defined to identify the 12-month period with respect to which the financial records of the Valencia Orange Administrative Committee—the agency established to administer the program—are to be maintained. It is the practice of handlers in the production area to maintain their records on a 12-month period ending October 31. Moreover, practically all handlers of Valencia oranges are regulated under Order No. 14 (7 CFR Part 914; 18 F. R. 5638), and the Naval Orange Administrative Committee, which administers Order No. 14, operates on a similar fiscal year basis. The fiscal year established for the Valencia Orange Administrative Committee should be the 12-month period ending October 31 because such a period corresponds to the fiscal year utilized by handlers, and its use would facilitate the maintenance of financial records in connection with program operations. The initial fiscal year should, however, commence with the effective date of the program and end on October 31, 1954.

The term "marketing year" should be defined to identify a period within which the marketing of a given crop of

Valencia oranges takes place and the regulatory operations of the agency are conducted. Valencia oranges grown in the production area are marketed during the period usually beginning in February and continuing into December. Testimony at the hearing proposes that a calendar year be established for such a period. The marketing year, however, should be established as a 12-month period ending January 31 of each year in order to enable the agency members selected for a given marketing year to conduct the annual meeting held prior to January 31 and also to allow adequate time for the nomination and selection of subsequent members and alternate members of the agency.

The term "grower" should be synonymous with "producer" and should be defined to mean any person who is engaged in the production of oranges for market and who has a proprietary interest therein. A definition of such term is necessary for such determinations as eligibility to vote for, and to serve as, a grower member or alternate grower member of the Valencia Orange Administrative Committee, and for other reasons. The term should be limited to those who have an ownership interest in the oranges produced. It should not include laborers or others who perform work for a fee for hire in producing the oranges. Evidence at the hearing indicates that each business unit (such as a corporation, partnership, or community property ownership) engaged in the production of oranges for market should, when voting, be entitled to only one vote.

The term "oranges available for current shipment" should be defined to mean all oranges as measured by the tree crop. Such quantity is used in determining the amount of oranges that may be shipped by an individual handler each week when volume regulation is in effect and thus provides the basis for the establishment of equity between handlers under such regulation. The testimony indicates that the use of the tree crop as a basis for this computation is the only practical and equitable means of measuring the availability of oranges for shipment. While conceivably the merchantable supplies of oranges should be used to determine the quantity of oranges available for current shipment, it was shown to be impossible to measure accurately such merchantable supplies. For example, it is not possible to determine with precision the extent of frost damage in a particular grove; nor is it possible to forecast accurately the size composition of oranges on the tree in a particular grove. Therefore, the oranges available for current shipment should be measured by the total quantity of oranges on the tree.

The term "tree crop" should be defined to mean the total quantity of oranges on the trees as determined by the committee. This term provides the basis for the measurement of oranges available for current shipment. Since the oranges are stored on the trees, the term "tree crop" is appropriate. However, the measurement of the tree crop is determined finally by the number of boxes of oranges delivered to the packinghouse. Therefore, the tree crop as estimated by the committee should be calculated as an estimate of the number of boxes of oranges to be delivered to the packinghouse.

The term "early maturity oranges" should be defined to identify those oranges which have reached maturity in advance of "general maturity" in the same prorate district. Because of variations in climatic conditions, oranges in particular groves attain maturity at earlier dates than oranges in other groves. Maturity should mean that stage of ripeness as measured by applicable State laws. The applicable State laws provide minimum requirements for color and minimum sugar-acid ratios as criteria for maturity. Although there is a slight variation between the present maturity requirements of the State of California and of the State of Arizona, such differences in the requirements are so slight as to be negligible and will not adversely affect the use of these standards in the operation of the program. The provisions of the marketing agreement and order relating to early maturity oranges authorize the issuance of allotments to handlers of such oranges in advance of the time that allotments are given to handlers of all oranges in the same prorate district, thereby providing a basis for equitable treatment of handlers of such early maturity oranges.

The term "general maturity" should be defined to identify the time at and after which the committee determines allotments shall be distributed to all handlers in a particular prorate district, because allotments are issued separately for each prorate district. The committee should consider the maturity of the fruit, as well as other factors, in making this determination.

The term "box" should be defined to identify the common unit of measurement of quantity of oranges currently used in California and Arizona. This unit is described in terms of cubic capacity, and the net weight of the fruit contained therein will vary with the size of the oranges. The net weight of a standard box of average size oranges is 77 pounds. The State of Arizona definition of a standard two-compartment orange box is the same as that found in section 828.83 of the Agricultural Code of California, referred to in the marketing agreement and order. It is also necessary to provide for the equivalent of a box in order to convert the oranges that may be marketed in other types of containers to a standard box basis. If the standard container presently used in the marketing of oranges should be replaced, in the future, by a container with a different cubic capacity, the committee should have the authority, with the approval of the Secretary, to redefine "box" in accordance with the common unit of measurement then in existence.

The term "central marketing organization" should be defined to identify those organizations which market oranges for more than one handler in the production area. Such marketing organizations predominate in the selling of oranges produced in California and Arizona, and occupy important roles in the selection of members for the administrative agency under the marketing agreement and order.

The term "carload" should be defined to identify the unit of loading of oranges in railroad cars for shipment to fresh markets. Volume regulations may be recommended and issued in terms of carloads of oranges for each prorate district. At the present time, a normal loading of railroad cars in California and Arizona is 462 standard boxes of oranges. In the event standard carloadings are changed, because of changes in containers or carloading practices, the committee should have the authority, with the approval of the Secretary, to redefine carload to conform to existing loading practices.

The term "export" should be defined to mean the handling of oranges to foreign markets which are not under the provisions of the marketing agreement and order. Shipments to markets within the continental United States, Canada, and Alaska are regulated within the provisions of the proposed program.

(b) It is necessary to establish an agency to act in administering the proposed marketing agreement and order under and pursuant to the act, as an aid to the Secretary in carrying out the declared policy of the act. The term "Valencia Orange Administrative Committee" or "Committee" is a proper identification of the agency and reflects the administrative character thereof. It should be composed of 11 members, of whom 6 should represent producers, 4 should represent handlers, and 1 should represent neither growers nor handlers. Alternate members should be provided to act in the place and stead of the members. Such a committee would give adequate representation to the different segments of the industry and would not be unwieldy. The foregoing division of the members between producers and handlers would provide suitable producer representation and handler experience and information. A majority of the committee should consist of producers because the program is designed to benefit producers. The provision for handler members tends to give balance to the committee and an opportunity for presentation of handling and marketing viewpoints and problems from the handlers' standpoint. The "neutral" member, representing neither growers nor handlers (other than a charitable or educational institution which is a grower or handler), is provided to represent the general public and contribute stability to the operations of the committee.

Except for the initial members and alternates, the term of office of members of the committee and of their respective alternates should be 2 marketing years. Two years would permit the continuance in office of experienced members and alternates. It would also give producers an opportunity to recommend to the Secretary changes in their representatives at reasonable intervals. The initial term of office should begin with the effective date of the order and should terminate on January 31, 1956. Subsequent terms of office should begin on February 1, 1956, and on February 1 of each even-numbered year thereafter. Members and alternate members should

continue to serve until successors have been selected and have qualified in order to provide continuity to the membership of the committee. Nominations for members of the committee and their alternates should be submitted to the Secretary as the result of a nomination procedure prescribed by him. The Secretary would have the benefit of the industry recommendations in respect to committee membership, and should select persons for each member or alternate member position from such recommendations or from other qualified persons.

Nomination for membership and representation on the committee should reflect the situation existing in the marketing of Valencia oranges grown in the production area. Marketing organizations predominate in the marketing of oranges grown in such area. There are 3 large cooperative central marketing organizations in the production area, one of which handles in excess of one-half of the total tonnage of oranges. Most of the independent shippers are members of an independent association. The central marketing organizations market oranges produced throughout the production area. The interests of these organizations, therefore, are closely identified with producer interests in each of the important producing regions. Furthermore, such organizations must consider marketing problems affecting the producing area as a whole. It is appropriate, therefore, in view of the institutional structure of the marketing function in the production area, to provide for nominations by, and producer and handler representation obtained through, such marketing organizations or growers affiliated therewith. This procedure would tend not only to result in representation from all producing districts on a small commttee but also to reflect the industry organization.

The marketing agreement and order should, therefore, prescribe a nomination and selection plan for committee members and their alternates which would provide representation on the committee as follows: (1) Three grower and 2 handler members to represent any cooperative marketing organization which handles more than 50 percent of the total volume of oranges handled during the marketing year in which nominations for members are submitted, except that the marketing year for initial nominations should be the marketing year ending January 31, 1954; (2) two grower and 1 handler members to represent all other cooperative marketing organizations; (3) one grower and 1 handler members to represent all producers and handlers not affiliated with cooperative marketing organizations; and (4) the members so selected should meet and by a concurring vote of at least 6 members should select nominees for a neutral member and alternate member of the committee.

When voting for nominees, each grower should be entitled to cast one vote to assure an equal voice in the election. The votes of cooperative marketing organizations which did not handle more than one-half of the oranges handled during the marketing year in which nominations are submitted (or the preceding marketing year in the case of initial nominations), or the growers affiliated therewith, should be weighted by the tonnage handled during such marketing year in order to reflect the relative magnitudes of such organizations in selecting nominees.

An alternate member should be provided for each member. Provision for alternate members assures a full committee when it meets and would tend to insure that each group having representation on the committee would be fully represented at the committee meetings. Provision also should be made for a member to designate an alternate other than his own alternate to act in his stead, if the alternate member so designated was selected from the same group which was authorized to nominate the member. This permits full attendance at meetings without creating an undue burden on the members and alternate members selected.

Any person selected by the Secretary as a member or alternate member of the committee should indicate his willingness to serve as such by filing a written acceptance with the Secretary within 10 days after being notified of his selection. Provision should be made for the filling of any vacancies on the committee, including selection by the Secretary where nominations are not conducted as prescribed, in order to provide for maintaining a full membership on such committee.

The committee should be given those specific powers which are set forth in section 8c (7) (C) of the act. Such powers are necessary to enable an administrative agency of this character to function.

The committee's duties, as set forth in the marketing agreement and order, are necessary for the discharge of its responsibilities. The duties are generally similar to those specified for administrative agencies under other marketing programs of this character. It is intended that any activities undertaken by members of the committee will be confined to those which reasonably are necessary for the committee to perform the duties specified in the program.

One of such duties should provide for the reapportionment, with the approval of the Secretary, of the representation of producer members or handler members of the committee nominated pursuant to § 922.22 (c) and (d), respectively. Recently there was a change in the corporate structure of a central marketing organization from an independent to a cooperative status. Changes in producers' or handlers' marketing affiliations take place, from time to time, in the production area. Such changes may be so significant that either growers affiliated with cooperative marketing organizations or growers not affiliated with cooperative marketing organizations may contribute the largest share of the volume of oranges handled by organizations not qualified under § 922.22 (a). Such changes may necessitate a reapportionment of the committee membership to effectuate proportionate representation. However, in the event changes in handler affiliations are of such a magnitude that either of such groups should not be represented by at least one handler and one grower member, the change in the marketing institutional structure should be considered of such significance that a hearing to amend the marketing agreement and order program should be held.

A quorum should consist of at least 6 members and any action of the committee should require at least 6 concurring votes. These requirements are necessary to prevent any action being taken without the concurrence of a majority of the committee. The committee should be permitted to vote by telephone, telegram, or other means in order to save the time of its members, to conserve its funds, and to permit rapid action in the case of emergency. Any votes cast in this fashion should be confirmed promptly in writing, to provide an accurate record of the votes so cast. All voting at an assembled meeting, however, should be cast in person.

The members of the committee, and their respective alternates when acting as members, should be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties. They should also receive compensation at a rate to be determined by the committee, which rate should not exceed $10 per day for each day devoted to the performance of their duties. Compensation and reimbursement are necessary to offset expenditures incurred because of service on the committee.

The marketing agreement and order should provide for an annual report of its operations to acquaint producers and handlers of the activities performed during the marketing season. This report should review regulatory operations separately for each prorate district because regulations are issued on such basis. It should be mailed to the Secretary and to each handler and grower of record in order to acquaint all interested parties with the policies and operations of the program during the marketing season. The report should be prepared and mailed prior to December 15, and a public meeting should be held prior to January 31, in order to review the season's activities as soon after their completion as reasonably possible. The report should deal with the influence of regulations upon the competitive position of California-Arizona Valencia oranges with other fresh and processed oranges, because an economically sound marketing program requires continuous review of its operations in the light of long-run economic changes. The annual report should be reviewed and discussed at an open meeting to provide interested handlers and producers an opportunity to clarify any questions they may have with respect to the program policies or operations. Moreover, such a meeting would serve to acquaint the committee with the views or suggestions of interested handlers or producers concerning such matters.

(c) The committee should be authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each fiscal year for its maintenance and functioning and for such other purposes as the Secretary may, pursuant to the provisions of the marketing agreement and order, determine to be appropriate. The funds to cover the expenses of the committee should be obtained through the levying of assessments on handlers. The act specifically authorizes the Secretary to approve the incurring of such expenses by an administrative agency such as the Valencia Orange Administrative Committee, and requires that each marketing program of this nature contain provisions requiring handlers to pay pro rata the necessary expenses. Moreover, in order to assure the continuance of the committee, the payment of assessments may be required even if particular provisions of the marketing agreement and order are suspended or become inoperative.

Each handler should pay to the committee upon demand with respect to all oranges handled by him, as the first handler thereof, his pro rata share of such expenses which the Secretary finds will be incurred necessarily by the committee during each fiscal year. Each handler's share of such expenses should be equal to the ratio between the total quantity of oranges handled by him as the first handler thereof during the applicable fiscal year and the total quantity of oranges so handled by all handlers during the same fiscal year. In this way, payment by handlers of assessments would be proportionate to the respective quantities of oranges handled by each handler. Also, assessments would be levied on the same oranges only once.

Handlers should be permitted to make advance payments of assessments and the committee should be permitted to borrow a limited sum of money in order to function during the initial fiscal year and to continue operations during succeeding fiscal years. This provision should be included because the committee will need funds to set up an office, employ and retain personnel, and incur such other expenses as would be necessary to administer the provisions of the program.

The Secretary should have the authority, at any time during a fiscal year, or thereafter, to increase the rate of assessment when necessary to obtain sufficient funds to cover any later finding by the Secretary relative to the expenses of the committee. Since the act requires that administrative expenses shall be paid by all handlers pro rata, it is necessary that any increased rate apply retroactively against all oranges handled during the particular fiscal year.

If, at the end of any fiscal year, the assessments collected exceed the expenses incurred, each handler's share of such excess should be credited to him against the operations for the following fiscal year. If any handler makes a demand for payment thereof, refund should be made to him. The right of every handler to the return of his pro rata share of the excess funds would be recognized by providing for the payment of such share to him in case he requests it. However, good business practice requires that any such refund may be applied by the committee first to any outstanding obligations due the committee from any person who has paid in excess of his pro rata share of expenses.

All assessment monies received by the committee should be used solely for the purposes, and accounted for in the manner, specified in the marketing agreement and order.

The Secretary should be authorized to require the committee, at any time, to account for all receipts and disbursements. Such authority would aid in assuring careful administration of assessment funds.

(d) The committee should formulate and adopt a marketing policy in advance of its recommendation for regulation for each prorate district during any particular season. The committee should give notice to all producers by publication in newspapers and to handlers by mail of meetings held for the purpose of formulating such marketing policy, and should transmit a report of the marketing policy to the Secretary and to each grower and handler who files a request for such report. The policy so established would serve to inform persons in the industry, in advance of the marketing of the crop in a particular prorate district, of the committee's plans for regulation and the basis therefor. Handlers and producers then could plan their operations in accordance therewith. The policy also would be useful to the committee in making specific recommendations to the Secretary of proposed volume and size regulations. The committee's marketing policy report would assist the Secretary in determining whether regulations should be placed into effect.

In preparing its marketing policy report the committee should provide data showing (1) the available supplies of oranges in the prorate district; (2) the estimated utilization of such oranges in the alternative channels; (3) the schedule of estimated weekly quantities to be recommended to be shipped to fresh markets; (4) available supplies of competitive oranges, as well as other competitive citrus commodities; and (5) the level and trend of consumer income, as well as other pertinent factors affecting market conditions of oranges, to assure the development of an economically sound and practical marketing policy.

Testimony at the hearing indicates that the problems involved in arriving at a carefully constructed marketing policy might be considered more completely if marketing policy statements for each of the prorate districts were developed simultaneously. Such a procedure would permit the development of a plan for an orderly transition of allotments from earlier to later prorate districts by giving simultaneous consideration to problems affecting each of the districts and the production area as a whole. Consequently, to the extent that the information available to the committee enables the preparation of marketing policies for each prorate district at the same time, and prior to the recommendation of any regulation, such practice should be followed.

The marketing policy statement should be revised if changes in the supply or demand conditions necessitate a marked change in the policy set forth by the committee at the beginning of the season for each prorate district. Each report of any such changed marketing policy should be submitted promptly by the committee to the Secretary and to each grower and handler requesting such report, along with the data considered by the committee in revising such statement.

(e) The declared policy of the act is to establish and maintain such orderly marketing conditions for oranges grown in the production area as will tend to establish parity prices for such oranges. The regulation of the volume of weekly shipments of oranges provides a means of carrying out such policy.

The order should provide for the committee to recommend, and the Secretary to issue, regulations limiting the quantity of oranges which may be shipped during weekly periods from the production area whenever such regulations will effectuate the policy of the act. The marketing agreement and order should contain provisions relating to (1) the method of recommending and fixing the quantities so limited; (2) the calculation of shares of individual handlers of the quantities so limited under regulation; and (3) adjustments of such shares which may be made to provide flexibility of operations for handlers under regulation.

(f) The marketing agreement and order should provide that the committee may meet and recommend to the Secretary the total quantity of oranges which it considers advisable to be handled the next succeeding week in each prorate district. In arriving at its recommendations, the committee should obtain and consider complete information with respect to each significant factor affecting market conditions for oranges. Among such factors, the market opportunities for Valencia oranges, the available supplies and condition of Valencia oranges in each prorate district, and the seasonal pattern of shipments from each prorate district, are of particular significance.

The record shows that the committee should not recommend that no oranges may be handled in any prorate district for any week. Prior to the adoption of a marketing policy relating to a particular prorate district, oranges produced in such district would be handled without restriction. After the adoption of such marketing policy, handlers possessing early maturity oranges would be entitled to receive early maturity allotments, as discussed hereinafter, unless no limitation of shipments was issued which, of course, would eliminate the need for early maturity allotments. Moreover, the testimony shows that the maturity of oranges shipped is regulated under State laws and that this program is not designed to prescribe more stringent maturity requirements, or to prohibit shipments to accomplish such an end.

The marketing agreement and order should authorize the committee to recommend an increase in the quantity that the Secretary has fixed to be shipped during any week in the event market conditions warrant such increase. There should be no authorization for a decrease in any quantity fixed by the Secretary to be shipped during any given week, because handlers could not be expected to reduce their shipping schedules

without reasonable and timely notice. Furthermore, inequities could result thereby if some handlers had shipped their total allotment prior to such reduction.

The Secretary should fix, or increase, the quantity of oranges which may be handled in any prorate district during a particular week whenever he finds from the recommendations and information submitted by the committee, or from other available information, that to so limit the quantity of oranges shipped would tend to effectuate the declared policy of the act.

(2) A program of this nature should provide a method for allotting the total quantity of the regulated commodity which may be handled during a specified period so that such quantity may be apportioned equitably among all of the handlers thereof. Under the provisions of the proposed marketing agreement and order, this is achieved by providing that each handler in a particular prorate district should be given the same opportunity to market oranges under volume regulation as each other handler in that district. The equality of opportunity to market oranges should exist among handlers within a particular prorate district, because the market opportunities vary as between prorate districts as the result of the different timing of maturity and shipping life of the oranges grown in such prorate districts.

The act requires, in effect, that such equitable apportionment should be on the basis of the quantity of the regulated commodity which each handler has available for current shipment, or upon the quantity of such commodity shipped by each such handler in such prior period as the Secretary determines to be representative, or both. Under this program, an individual handler's equity or share of the limited quantity which may be handled from a particular prorate district during any week should be based upon the quantity of oranges currently controlled, as hereinafter discussed, by such handler. Testimony at the hearing indicates that the quantities of oranges controlled and handled vary between handlers from year to year. Therefore, the determination of an individual handler's share on the basis of past performance, or a combination of past performance and current control, would not truly reflect the current status of each handler in relation to all others. However, the use of the quantity of oranges currently under control as a basis for determining individual handler's equities is practical under this program as it is possible to determine such quantity with reasonable precision.

The equity of each handler in the total quantity which may be handled in a prorate district during any week should be expressed as his prorate base. A prorate base should be the ratio between the quantity of oranges available for current shipment of the particular handler and the total quantity of oranges available for current shipment of all such handlers in the particular prorate district. Thus each handler's share of the limited quantity of Valencia oranges which may be shipped from a given prorate district each week under volume regulation would represent the same percentage as his share of the total quantity of Valencia oranges available for current shipment in such prorate district.

The marketing agreement and order should provide that each person who controls oranges available for current shipment and proposes to handle such oranges, should make application to the committee for a prorate base and for allotments, to assure an orderly basis for establishing equities. This application should contain the information set forth in the proposed marketing agreement and order. Such information is necessary to substantiate the quantity of oranges available for current shipment of each handler, in order to insure that the determination of allotments issued to individual handlers will be correct. Such application should include only such oranges as the handler has title to, or a bona fide contract to handle or purchase, because the right to handle should be contingent upon actual control over the marketing of such oranges.

The marketing agreement and order should provide for adjusting the quantity of oranges under control of individual handlers as such handlers gain or lose control of the marketing of such oranges during the marketing season. Producers should be given the opportunity of transferring the marketing of their crops from one handler to another. A handler who thus has gained or lost control over the handling of oranges should have the amount of his oranges available for current shipment adjusted to reflect such change. The provisions of the marketing agreement and order, however, should be so drawn that a handler will not gain an unfair advantage if a producer transfers his marketing affiliations. For example, a handler could obtain more than his proportionate share of allotments if he is allowed to retain allotments which were earned by the transferring producer's tree crop and use them "for handling other producers' oranges. As a consequence, the marketing agreement and order should provide that, if the committee determines that a handler who has lost control of oranges has not handled his share of such oranges, the quantity of his remaining oranges available for current shipment correspondingly should be reduced over a period of time. This adjustment should place such handler in the relative position he would have occupied had he never controlled the transferred portion of the oranges. On the other hand, the provisions of the program should discourage widespread transfers by producers, because such transfers would make the operation of the program and the maintenance of equity among handlers difficult. Accordingly, when a producer transfers the marketing of his oranges to another handler, such new handler's quantity of oranges available for current shipment should be increased at the time of transfer, but such new handler should not receive such allotments as were earned by the transferring producer's oranges prior to the time of transfer.

The committee should be authorized to correct errors of estimates of the quantity of oranges available for current shipment of each handler and to adjust accordingly all such quantities of oranges available for current shipment to offset any such errors found to exist in order to insure that the equities of individual handlers are maintained. Such adjustments should increase or reduce, by such quantity and for such a period as may be necessary and reasonable, the quantity of oranges available for current shipment of the particular handler whose quantity has been erroneously estimated so that the total allotments issued to such handler will equal the total allotments the handler would have received had his quantity of oranges available for current shipment been correctly estimated. The individual handler should be required to report to the committee any change in his control of oranges in order to assist the committee in making adjustments and to simplify the administration of this provision.

The committee should compute each week during the marketing season, when volume regulation is likely to be recommended by the committee, the total quantity of oranges available for current shipment of each person who has applied for a prorate base and for allotments. If volume regulation is recommended, the committee should also compute a prorate base for each such person, and should notify the Secretary and each person of his prorate base.

Whenever the Secretary has fixed the total quantity of oranges that may be handled during any week from any prorate district, the allotments to each individual handler should be determined by multiplying the total quantity fixed by the Secretary to be handled by the prorate base computed for such handler. The committee should perform this operation and provide notice to each person of the allotment so computed for him. This procedure is needed to set forth clearly the manner in which the equities of handlers are calculated and in which each handler is notified of his allotment under volume regulation.

The committee should give any central marketing organization, upon its request, the same notice with respect to prorate bases and allotments applicable to each handler for whom it markets oranges as is given to such handler. Such notice would aid the marketing operations of such organizations.

The evidence indicates that the equities of handlers under regulation are not disrupted seriously in seasons of minor damage from frost or wind or rain. This is because those handlers who suffer such damage would, since their equities would be based on the respective tree crops they control, have the opportunity to ship a share of their merchantable oranges larger than before their crops had been so damaged. However in seasons of major freezes, such as occurred in 1937, 1949, and 1950, with heavy and varying degrees of damage affecting groves, it would not be possible to maintain individual handler's equities determined on the basis of oranges available for current shipment. Therefore, volume regulation should not be undertaken in seasons when major freezes result in heavy and differing degrees of damage to groves.

(3) The marketing agreement and order should contain provisions authorizing adjustments in allotments issued to individual handlers in order that rigidities imposed by the calculation of equities provided for in the program may be made workable in response to current changes in handlers' activities. Such adjustments should authorize overshipments, undershipments, and loans between individual handlers. Also, the committee should be authorized to withhold allotments from all handlers and loan such allotments to particular handlers to offset conditions with respect to the marketing life and maturity of oranges controlled by such individual handlers.

The marketing agreement and order should provide that, during any week when volume regulation is in effect, any person may handle, in addition to his weekly allotment, a quantity of oranges equal to 10 percent of such allotment, or one carload, whichever is greater, with the proviso that the quantity of oranges so handled be deducted from his allotment for the next week and for succeeding weeks until repaid. This provision is necessary in order that handlers be permitted to conduct their business in an orderly fashion. Thus, particular orders, or carlot quantities, may be fulfilled to the extent of such additional quantity of oranges during any given week, even though the allotment issued does not equal such orders. The overshipments should be deducted from succeeding allotments issued to such handlers so that the total allotments issued to each such handler not exceed his fair share of all such allotments. In addition, such overshipments should not be permitted during any week in which a handler's allotment has been reduced to offset a previous overshipment, where his total weekly allotment is required to repay an allotment loan, or where a handler has not received an allotment under the marketing agreement and order for such week. These limitations are necessary, because unrestricted overshipments would enable any or all handlers to handle quantities in excess of their weekly allotments in any particular week and thus tend to defeat the purposes of volume regulation for that week. However, it would be impractical and serve no useful purpose to require that an overshipment incurred, but not repaid, during a given marketing season, be repaid in the following season. Therefore, the requirement to repay an overshipment should not be carried over to the following marketing season.

The marketing agreement and order should contain a provision permitting any handler who handled a quantity of oranges less than his allotment of oranges during a particular week to handle for the next week only an additional quantity of oranges equal to such undershipment. This provision is necessary, because at times weather or other conditions do not permit handlers to ship their allotments and they should be permitted to offset such reduction in shipments by handling them in a subsequent period.

The limitation of handling of undershipments for the next week only, and the requirement for immediate repayment of overshipments of allotment, are necessary to enable the committee to anticipate the quantity of oranges which may be handled as a result of prior undershipments or which may not be handled as a result of prior overshipments in recommending the volume to be shipped under regulation for a particular week.

Provision should be made for the lending and borrowing of allotments between persons within the same prorate district. Such loans are needed to enable handlers to operate efficiently by offsetting difficulties encountered as a result of the supply of labor, rate of harvest, and other factors affecting the rate of harvesting and packing of oranges. Loans should be confined within the same prorate district, because equities are established and maintained on a prorate district basis. Allotment loans should be confined to handlers to whom allotments have been issued, since indiscriminate loaning of allotments would complicate unduly the administration of this provision.

Loans of short life allotments should be made only to handlers to whom short life allotments have been issued, and the repayment thereof should be made only with short life allotments, because short life allotments may be used only in the handling of short life oranges. Loans of early maturity allotments, however, may be repaid with general maturity allotments because their due date may be subsequent to general maturity.

Transactions with respect to allotment loans should include a date for the repayment of such loans during the then current marketing season and should be confirmed to the committee within 48 hours to assure that there will be no abuse of the loan provision and in order to simplify the operations of this provision.

Allotment loans should be used only during the week for which such allotment was issued, because the allotment represents the right to ship during that week. No allotment which has been loaned should again be loaned by the borrower, or by the lender after repayment thereof, because the added flexibility of operation which thus could be provided is not necessary and would lead to confusion. If the borrower has insufficient allotment to repay such loan on the due date, he should repay it as soon as possible.

The committee should be authorized to reduce a borrower's weekly allotment for the week when repayment is required by the amount of the loan and credit the lender's allotment accordingly. If the allotment of a borrowing handler for a particular week is insufficient to repay loans due such week, all subsequent allotments of such handler should be reduced until such loans are repaid. This authority is necessary to assure the repayment of loans. However, for the reasons previously stated with respect to the repayment of overshipments, loans made in a given season should not be required to be repaid from allotments issued during the following season.

The committee should be authorized to facilitate loans of allotments in order to assist individual handlers in obtaining allotment loans. Transactions consummated by the committee should be confirmed immediately by written memorandum addressed to the parties concerned in order clearly to reflect the loan agreement made and to notify the parties.

The marketing agreement and order should provide that each handler who first handles oranges, transported by means other than rail shipment, should, at the time of such handling, issue to the person receiving the shipment an assignment of allotment certificate covering each quantity of oranges so handled. This provision is necessary to assist in the enforcement of compliance with the regulatory provisions of the program. In connection with shipments by rail, shipping manifests are made available by the rail carriers. This is not true with regard to truck shipments, and the assignment of allotment certificates would aid in identifying and tracing shipments of oranges. Each such assignment of allotment certificate should be made in the manner and on the form prescribed by the committee so that information needed in connection with such enforcement can be ascertained.

The marketing agreement and order should provide that, during any week in which a person has the right to handle a quantity of oranges in addition to the quantity represented by the allotment issued to him, and such person handles a quantity of oranges less than the total quantity which such person may handle during such week, the amount of oranges handled should first apply to the allotment issued for such week, or that portion of such allotment that is not loaned or required to repay a loan or offset a previous overshipment. This provision is necessary because, if the quantity handled were first applied to the additional quantity, such as that which might be made available by previous undershipments, or loan repayments, handlers could carry forward or pyramid the unused portion of their allotments and thus defeat the purpose of the program by shipping greatly in excess of the total quantity of oranges fixed for the particular week.

The marketing agreement and order should contain provisions for the issuance of early maturity allotments and short life allotments, to increase further the flexibility of allocations under the program. These allotments are needed to adapt the allotment procedure to unique situations encountered by handlers of oranges which mature earlier, or which have a shorter period during which they may be shipped, than most oranges in the same prorate district. Such provisions are designed to mitigate the rigidity of the program requirements for handlers confronted with such unique situations while maintaining equity between all handlers. These problems should be considered separately, and calculations of the respective allotments should be undertaken separately, because they are unrelated as to their nature and cause.

The marketing agreement and order should provide that the committee shall, prior to the reaching of general maturity, issue early maturity allotments to handlers for the handling of early maturity oranges. Such a provision is necessary because otherwise the shipment of a few oranges from a district which is just beginning to ship would require the issuance of a large quantity of allotments to enable the few handlers who have available oranges meeting maturity requirements to receive sufficient allotments to handle such oranges. Therefore, it is reasonable at the start of the marketing season in a particular prorate district to issue allotments only to those handlers controlling oranges meeting shipping qualifications.

Handlers controlling early maturity oranges should apply to the committee for such allotments and furnish the committee with information necessary to describe such early maturity oranges in order to enable the committee properly to administer this provision.

Each handler who applies for early maturity allotments in accordance with the procedure established by the committee, and who controls oranges possessing the requisite qualifications, should receive early maturity allotments. Conceivably such early maturity allotments could be issued to handlers in more than one prorate district during a particular week. The total quantity of early maturity allotments issued by the committee should be based upon consideration of all factors relating to market opportunities for the fruit and conditions of supplies in the producing area. The total quantity of early maturity allotments issued to applying handlers, therefore, may be less than the total quantity applied for if the committee so decides.

Total early maturity allotments issued by the committee in a particular prorate district should be distributed to each handler who qualifies therefor in the ratio that each such handler's request for such allotment is to the total of such requests of all such qualified handlers. Distribution on the basis of quantity requested is utilized because there are no tangible criteria available with which to measure the quantity of early maturity oranges available. The marketing agreement and order should contain a proviso, however, that such granting of early maturity allotments should not permit a particular handler to handle more than his share of the total quantity estimated in the utilization schedule contained in the marketing policy to be handled by all handlers in the same prorate district. This proviso is necessary to prevent a particular handler from receiving more than his equitable share of the total quantity to be handled in his prorate district as a result of the distribution of early maturity allotments.

The marketing agreement and order should provide that, upon the reaching of general maturity, the early maturity allotments issued to a particular handler should be offset or repaid by reducing such handler's quantity of oranges available for current shipment by the quantity of early maturity allotments issued to him, plus his share of the oranges estimated in the utilization schedule contained in the marketing policy to be used for by-products or elimination in the particular prorate district in relation to the early maturity allotments issued to him. The initial utilization schedule contained in the marketing policy should be used for such computations because revisions of such utilization schedule, if made, probably would result in such minor adjustments as would make a modification of such computations in response thereto impracticable and of little value.

The procedure for the offset of early maturity allotments issued will result in the particular handler receiving total allotments slightly in excess of his proportionate share of the allotments issued to all handlers in the particular prorate district. Were such handler's quantity of oranges available for current shipment reduced, upon the reaching of general maturity, by his proportionate share of exports estimated to be shipped from the prorate district, as well as products and elimination, his share of allotments for the season would be equal to that of all other handlers. It seems reasonable, however, to provide this slight advantage to the handler of early maturity oranges, because there is normally an advantage in the marketing of oranges accruing to handlers who ship fruit ahead of other handlers in a particular district.

The committee should adopt rules and regulation, with the approval of the Secretary, to establish detailed procedures for issuing and allocating early maturity allotments. It is impractical to provide such rules in the marketing agreement and order, because of the flexibility that may be required to administer properly this provision. All early maturity allotments should be computed on a prorate district basis, because equities to individual handlers under the program are established on such a basis.

Because of climatic conditions in some producing localities, oranges are produced which do not possess the keeping quality of other oranges produced in the same prorate district. The shipping life of such oranges, therefore, is shorter than the shipping life of other oranges in the same district. To require handlers of such oranges to market their oranges at the same rate as other handlers would result in a greater loss to such handlers than to other handlers, because the oranges shipped during the latter part of the shipping season would not be capable of being shipped to consuming markets in good condition. It would not be fair, therefore, to require such handlers to ship such oranges at the same rate as all other handlers, and the marketing agreement and order should contain provisions permitting a more rapid rate of movement of such oranges. These provisions should permit the issuance of "short life" allotments to handlers of such fruit.

The testimony shows that oranges which do not possess the same shipping life as other oranges produced in the same district do not always exist in clearly delineated regions. As a consequence, this problem is one which, for the production area as a whole, cannot be met on the basis of isolated areas to be given special treatment. Moreover, there are handlers shipping oranges of both short and normal life, and some of these handlers customarily intermingle their short life and normal life oranges in their operations and thus handle their total supply of oranges without undue difficulty. Therefore, the difficulties experienced by a handler in handling his short life oranges, together with his other oranges, provides the basis for determining his need for accelerated movement of his short life oranges.

The marketing agreement and order should provide that the committee shall withhold from the allotments of all handlers, on a uniform proportionate basis for all handlers, an amount sufficient to permit handlers of short life oranges to handle, during the normal marketing period of such short life oranges, as large a proportion of oranges as the average which will be handled by all handlers in the same prorate district.

A handler of short life oranges is a handler who is unable to handle, during the normal marketing period of the oranges grown in the prorate district, as large a proportion of oranges as the average which will be handled by all handlers in the same prorate district. The committee should determine the extent to which each handler needs short life allotments, and allocate such allotments to each such handler at a uniform weekly rate, insofar as practicable, during the normal marketing period of his short life oranges. After a handler of short life oranges has received sufficient short life allotments to make the total allotments issued to him equal proportionately to the average allotment to be issued to all handlers in the same prorate district, the allotments that would have been due to such handler of short life oranges in the absence of accelerated movement should thereafter be allocated to handlers from whom the allotments were withheld. This procedure should be carried out in such a fashion that equities resulting from such computations will be maintained for all handlers in each prorate district. The mechanics of the issuance and pay back of short life allotments under the former orange order, i. e., Order No. 66, as amended, proved satisfactory and should serve as a basis for operation of the short life provision under the proposed marketing agreement and order.

Handlers desirous of receiving short life allotments should apply for such allotments on the basis of forms and in the light of procedures formulated by the committee, with the approval of the Secretary, governing the issuance of short life allotments, as a regular and orderly procedure should be established to carry out these provisions of the program.

(f) There is a tendency for handlers to ship in fresh fruit channels small oranges if they are available for shipment even when greater returns would have been received had they been diverted to other channels. The marketing agreement and order should contain provisions authorizing the recommendation by the committee, and the issuance by the Secretary, of regulations limiting the sizes of oranges that may be handled, thereby improving returns to producers. Such regulations would improve marketing conditions, because the limitation of discounted sizes shipped to consuming markets would improve the size composition of the remaining quantity of oranges shipped to consuming markets, thereby improving the average quality, as measured by market preference for sizes, of all shipments. The discounted sizes also tend to depress prices received for adjacent sizes. In addition, regulation of sizes would prevent shipments of oranges of sizes so heavily discounted that they do not receive prices covering the direct costs of harvesting and marketing such oranges.

The demand for particular sizes of oranges varies depending upon the composition of sizes of oranges shipped to fresh markets, not only from the production area, but from other areas in competition with Valencia oranges. Therefore, the marketing agreement and order should authorize the recommendation of limitation of oranges by sizes, and the fixing of such limitations by the Secretary, during any period for which it is determined that the supply and demand conditions for sizes of oranges warrants such regulation. Such period may be an entire marketing season or any part thereof.

The nature of the demand for sizes of oranges is such, at times, that only a certain quantity of a particular size category of oranges is desired by the various consuming markets. Therefore, the committee should have the authority to recommend, and the Secretary to fix, limitations of a portion of a particular size or sizes or all of a particular size or sizes of oranges that may be shipped to consuming markets. It may be found, for example, that to restrict entirely a particular size would eliminate the shipment of some oranges of that size which, if shipped, would result in higher average prices and, therefore, effectuate the declared purpose of the act.

Recommendations for regulation by size, and issuance of such size regulations, should be made on a prorate district basis, because the composition of sizes of oranges grown in the respective prorate districts usually varies. Therefore, to require the issuance of uniform size regulations for the production area as a whole might result in a substantial limitation in one prorate district with little or no limitation in another. In recommending size regulation to the Secretary, the committee should give careful consideration to each principal factor affecting market conditions, including market prices, availability and composition of supplies, and other related factors, in order to assure that the recommendation is arrived at on a sound economic basis.

Regulation by size should not be dependent upon volume regulation, because each of these types of regulation seeks to attain orderly marketing conditions by a different method. The committee should be authorized to recommend, and the Secretary to issue, regulations limiting a portion or all of a particular size or sizes even though volume regulation is not in effect.

The marketing agreement and order should contain provisions authorizing the committee to issue exemption certificates to any producer who furnishes evidence satisfactory to the committee that, because of a size regulation in effect, he will be prevented from having as large a proportion of his crop of oranges handled as the average proportion which may be handled by all other producers in the same prorate district. Such certificate should permit the shipment of an appropriate quantity of oranges which fail to meet the size requirement of the regulations then in effect so as to enable such producer to have handled as large a proportion of his oranges as the proportion that may be handled for all other producers in the prorate district. Evidence at the hearing indicates that the sizes of the oranges grown in the production area are not capable of being altered by cultural practices. Hence, the size composition of the crop of oranges of a producer is the result of conditions beyond his control. This exemption provision is designed to afford relief to producers from the imposition of inequities which may accrue from size regulation.

The provisions of the marketing agreement and order relating to the issuance of exemption certificates should specify that exemption certificates do not constitute an exemption from regulations limiting the volume of shipments of oranges. Exemption certificates are issued to producers to permit them to ship an equitable portion of their oranges when they otherwise would suffer undue hardship under the effective size regulation. Such oranges, however, should be subject to any limitations on the volume of shipments of oranges the same as the oranges of other producers.

Provision should be made for the transfer of exemption certificates from a producer to the handler of such producer's oranges, because producers customarily do not pack and ship their own oranges. The committee should adopt procedural rules to govern the issuance of exemption certificates. Such rules are necessary in order that all producers may be informed with respect to the requirements for, and the procedure for, the issuance of exemption certificates. It is impractical to set forth detailed rules in the marketing agreement and order, because to do so would destroy the flexibility which is needed to reflect variations in conditions affecting the production of oranges.

(g) Regulation of shipments by internal quality was proposed in the notice of hearing. Testimony was not offered in support of such proposal, however, and accordingly it should not be included in the proposed marketing agreement and order.

(h) There are differences between various producing regions in the production area as to the time of maturity of the oranges produced therein and the length of the period during which such oranges may be shipped in prime condition. These differences are due to differences in climatic conditions. Soil conditions and cultural practices exercise little, if any, influence upon maturity and keeping life of the fruit.

In order to assure the maintenance of equities as between individual handlers, the production area should be separated into prorate districts, with individual producing regions possessing similar marketing periods grouped into the same prorate district. The number of prorate districts should be reduced to a minimum so as not to complicate unduly the administration of the provisions of the marketing agreement and order. Marketing periods and the times of the reaching of maturity of oranges produced in the same prorate district are much more uniform than such factors between prorate districts. Furthermore, such variations of times of maturity and length of shipping periods as exist in the oranges controlled by individual handlers within a particular prorate district may be treated readily by use of the adjustment provisions of the marketing agreement and order, particularly those relating to early maturity and short life.

The evidence at the hearing revealed that oranges produced in Central California—that part of the State between the 35th and 37th Parallels—possessed for the most part common characteristics with respect to maturity and periods of marketing. Shipments of Valencia oranges produced in Central California normally begin during the latter part of April, and the fruit is in prime condition until early June.

The maturity and marketing periods of Valencia oranges produced in Southern California—that part of the State south of the 35th Parallel exclusive of the desert valley area—are roughly comparable. The fruit does not generally reach maturity until May, and is marketed throughout the summer months with shipments continuing until December.

The desert valleys of California and the State of Arizona produce Valencia oranges which reach maturity in February, and are in prime condition during March, April, May, and June.

Testimony at the hearing indicates that if Valencia oranges are planted in the southeastern part of San Bernardino County, California—where lemons have been planted recently—they would possess the characteristics of Valencia oranges produced in the desert valleys of California and in the State of Arizona. Accordingly, the north boundary of the desert valley area of California provided in the notice of hearing should be changed to anticipate this possibility. The area north of such north boundary and south of the 35th Parallel is desert and mountainous in nature and contains no plantings of citrus fruits except lemons. Such area should be included in the desert valley area, because its climatic conditions are similar to those in Arizona and the desert valleys of California. This should be accomplished by incorporating that area of Riverside and San Bernardino Counties, California, east of a line due north and south through the town of White Water, and south of the 35th Parallel, into the desert

valley area of California. It is not necessary to define the boundary through White Water with greater precision because there are no orange groves within several miles of such a line. A corresponding change in the area contained in the southern California district provided in the notice of hearing should be made to conform with the change in the desert valley area of California.

In order to permit the movement of oranges from each of the described areas during their normal marketing periods and during the time that the fruit is in the best shipping condition, it is necessary to establish the separate prorate districts, identified in the marketing agreement and order as Districts 1, 2, and 3.

(i) The marketing agreement and order should provide for the exemption from its provision of such handling of oranges which it is not necessary to regulate in order to effectuate the declared purposes of the act. Such exempted handling should be stated explicitly in the marketing agreement and order so that handlers will have knowledge of such handling as is not subject to the provisions of the program. Such exempted handling for the specified purposes should be made available only to the person directly performing the activity which it is not necessary to regulate since to relate the exemption back to all prior handling could result in the establishment of avenues for circumventing the purposes of the program. For example, one of the activities which it is not necessary to regulate is the handling of oranges for commercial processing into products. The only person who should be permitted so to handle oranges for such purpose is the person who handles the fruit directly to the processor. Conversely, the handling of oranges by one person to another from whom a processor may subsequently acquire the fruit for commercial processing should not be exempted. Similarly, while the exporting of oranges should not be subject to regulation, all prior handling of such oranges should be regulated. Hence, a second or subsequent handler should be required to procure regulated oranges, even though such handler uses them for one of the exempted purposes specified in the provisions of the program.

Oranges which are handled for consumption by charitable institutions or for distribution to relief agencies should not be regulated under the program, because such handling of oranges does not affect the commercial markets to which shipments of oranges are regulated under the marketing agreement and order. The handling of oranges for commercial processing into products, including juice, should be exempted from the provisions of this program, because processed products are either exempt under the provisions of the act or their regulation would encourage replacement of fresh juice by frozen concentrated orange juice. Processed products, such as peel products, pectin, citric acid, and orange oil clearly enter commercial channels different from fresh fruit channels and do not compete directly with fresh oranges. Oranges for canning or freezing are exempted from regulation by the provisions of the act. Juice extracted from Valencia oranges for commercial sale as fresh juice is competitive with sales of processed oranges especially frozen concentrated orange juice. To compel commercial juice extractors to purchase regulated fruit for such purpose would increase their costs of raw products and thus encourage the replacement of fresh Valencia orange juice by processed juice. Commercial processing under this exemption should mean processing for sale at the wholesale level. Therefore, the handling of oranges to commercial juice extractors who sell extracted juice primarily to outlets for resale to distributors or consumers should be considered exempt from the provisions of the marketing agreement and order. Since handlers, who are subject to regulation under the program, generally would not have direct knowledge of the ultimate use of oranges sold or otherwise handled to establishments which are not commercial processors, such exemption should not apply to oranges sold to hotels, restaurants, and similar outlets where juice may be extracted from the oranges and sold direct to consumers.

The exporting of oranges should not be regulated under the program, because, as indicated heretofore, sales in export channels do not compete directly with sales in domestic commercial channels. The handling of oranges by parcel post or by express should be exempt, because such shipments, due to the relatively high transportation charges incurred, usually are shipped as gift packages to consumers. Thus parcel post or express shipments of oranges are relatively small in magnitude, and do not affect significantly conditions in regular commercial channels.

Provision should be made to authorize the committee, with the approval of the Secretary, to exempt the handling of certain small quantities, or types of shipments, of oranges which it is not necessary to regulate in order to effectuate the declared purposes of the act. Such authorization is necessary to enable the committee to exempt such handling which is found not feasible administratively to regulate and which does not materially affect marketing conditions in commercial channels. It should be discretionary with the committee, subject to the approval of the Secretary, whether small quantities or types of shipments should be exempted from regulation and the period during which such exemptions should be in effect. The allowance of such exemptions may be found to result in avenues of escape from regulation which, if they are found to exist, should be closed. It is impractical to set forth specific quantities or types of shipments to be exempted in the marketing agreement and order, because to do so would destroy the flexibility which is necessary to reflect conditions affecting the handling of oranges in the production area.

The committee should prescribe, with the approval of the Secretary, rules necessary to prevent oranges handled for any of the exempted purposes from entering into regulated channels of trade and thereby tending to defeat the objective of the program.

(j) Handlers should be required to submit certain reports to the committee so that it will have available information necessary for administering the program. Handlers have such necessary information in their possession, and the requirement that they furnish such information to the committee in the form of reports would not constitute an undue burden.

Each handler should be required to file with the committee each week information with respect to the total quantities of all oranges disposed of by him during the previous week, segregated into the quantities for manufacture into by-products, for export, to persons on relief, parcel post or express, and otherwise disposed of. The quantities diverted to other than regulated channels should show the destination of each such diversion, because such reports are needed to ascertain whether the regulatory measures of the marketing agreement and order are being properly complied with. In addition, such information is of value for use in appraising the marketing picture and in recommending future regulations.

Handlers should be required to furnish to the comittee data indicating the sizes of oranges shipped each day of shipment during the marketing season. This information is necessary to ascertain whether the size regulations issued pursuant to the program are being properly complied with. Prompt reporting of such information is necessary for the efficient administration of size regulations. In the event the size regulation is not in effect, such information is necessary to determine whether or not size regulation should be recommended by the committee to the Secretary.

Upon the request of the committee, approved by the Secretary, handlers should furnish such other reports and information as the committee needs to perform its functions under the marketing agreement and order. It is impossible to anticipate every type of report, or kind of information, which the committee may need in administering the program; but it should have the authority to obtain such reports and information if needed. Reports furnished to the committee should be submitted in such manner and upon such forms as may be designated by the committee. It is impractical to specify such reporting procedures in the marketing agreement and order, because changing conditions may warrant changes in the forms or methods of reporting to the committee.

(k) Except as provided in the marketing agreement and order, no handler should be permitted to handle Valencia oranges grown in the production area, the handling of which is prohibited pursuant to the marketing agreement and order, and no handler should be permitted to handle such oranges except in conformity with the marketing agreement and order. If the program is to be effective, no handler should be permitted to evade its provisions since such action on the part of one handler, although possibly of small impact on the industry measured by the proportion of oranges handled by him, would be demoralizing to other handlers and would tend to impair operation of the program.

(l) The provisions of §§ 922.81 through 922.90, as hereinafter set forth, are, except as indicated below with respect to § 922.83 (c), provisions similar to those which are included in other marketing agreements and orders now operating. The provisions of § 922.91 through § 922.93, as hereinafter set forth, are also included in other marketing agreements now operating. All such provisions are incidental to and not inconsistent with the act and are necessary to effectuate the other provisions of the recommended marketing agreement and order and are necessary to effectuate the declared policy of the act. Testimony at the hearing supports the inclusion of each such provision.

Those provisions which are applicable to both the proposed marketing agreement and order, identified by both section number and heading, are as follows: § 922.81 *Right of the Secretary;* § 922.82 *Effective time;* § 922.83 *Termination;* § 922.84 *Proceedings after termination;* § 922.85 *Effect of termination or amendment;* § 922.86 *Duration of immunities;* § 922.87 *Agents;* § 922.88 *Derogation;* § 922.89 *Personal liability;* and § 922.90 *Separability.*

Those provisions which are applicable to the proposed marketing agreement only, identified by both section number and heading, are as follows: § 922.91 *Counterparts;* § 922.92 *Additional parties;* and § 922.93 *Order with marketing agreement.*

In addition to the basis for termination of the marketing agreement and order contained in § 922.83 (a), (b), and (d) thereof, termination of the program should be required at the end of any marketing year, whenever the Secretary finds that continuation of the marketing agreement and order is not favored by producers, provided notice is given prior to January 15 of the marketing year. The act contains special provisions with respect to producer approval of the issuance of a marketing order regulating the handling of citrus fruits produced in any area producing what is known as California citrus fruits. The record indicates that successful operation of this program so as to effectuate the purposes of the act requires the same degree of producer support as that required for the issuance of the program. Accordingly, continuance of the marketing agreement and order after issuance thereof should be determined by the same percentage of producer approval as is required for the initiation of the marketing agreement and order.

In connection with such determination, the Secretary should conduct prior to December 15, 1956, and prior to December 15 of each even-numbered year thereafter, a referendum to ascertain whether continuance of the marketing agreement and order is desired by producers. Such procedure should contribute to the effectiveness of the program, because it would provide producers with a regular opportunity to express approval of the operations of the program, and thereby compel awareness of producer interest in the administration of the provisions of the program by the committee.

As heretofore stated, the seasonal average price to producers of Valencia oranges grown in the production area for the 1952 crop of such oranges has not as yet been determined, but the record shows that it will be considerably below parity. It is anticipated that the seasonal average price to producers for the 1953 crop of Valencia oranges grown in the production area will not exceed the prescribed parity level.

General findings. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The marketing agreement and order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act with respect to Valencia oranges grown in the production area by establishing and maintaining such orderly marketing conditions therefor as will tend to establish parity prices to producers thereof and protect the interests of consumers by (a) approaching the level of prices which it is declared in the act to be the policy of Congress to establish by gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumer demand; and (b) by authorizing no action which has for its purpose the maintenance of prices to the producers of such oranges above the level which it is declared in the act to be the policy to establish;

(2) Such marketing agreement and order regulate the handling of Valencia oranges grown in the production area in the same manner as, and are applicable only to persons in the respective classes of commercial and industrial activity specified in, a proposed marketing agreement and order upon which a hearing has been held;

(3) The said marketing agreement and order are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to any subdivision of the production area would not effectively carry out the declared policy of the act;

(4) The marketing agreement and order prescribe, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of Valencia oranges covered thereby; and

(5) All handling of Valencia oranges, as defined in said marketing agreement and order, is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

Rulings on proposed findings and conclusions. December 31, 1953, was set by the Presiding Officer at the hearing as the latest date by which briefs would have to be filed by interested parties with respect to facts presented in evidence at the hearing and the conclusions which should be drawn therefrom. No briefs were filed.

Recommended marketing agreement and order. The following proposed marketing agreement and order [1] are recommended as the detailed means by which the aforesaid conclusions may be carried out:

DEFINITIONS

§ 922.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be authorized to exercise the powers and perform the duties of the Secretary of Agriculture of the United States.

§ 922.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 922.3 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 922.4 *Production area.* "Production area" means the State of Arizona and that part of the State of California south of the 37th Parallel.

§ 922.5 *Oranges.* "Oranges" means any and all strains of the Valencia variety of oranges grown in the production area.

§ 922.6 *Fiscal year.* "Fiscal year" means the twelve-month period ending October 31 of each year: *Provided, however,* That the initial fiscal year shall begin with the effective date of this part and end October 31, 1954.

§ 922.7 *Marketing year.* "Marketing year" means the twelve-month period ending January 31 of each year.

§ 922.8 *Committee.* "Committee" means the Valencia Orange Administrative Committee established pursuant to § 922.20.

§ 922.9 *Grower.* "Grower" and "producer" are synonymous and mean any person who produces oranges for market.

§ 922.10 *Handler.* "Handler" means any person who handles oranges.

§ 922.11 *Handle.* "Handle" means to buy, sell, consign, transport, or ship oranges (except as a common or contract carrier of oranges owned by another person), or in any other way to place oranges in the current of commerce, between the State of California and any point outside thereof in the continental United States, Alaska, or Canada, or within the State of California, or between the State of Arizona and any point outside thereof in the continental United States, Alaska, or Canada, or within the State of Arizona. The term "handle" does not include (a) the sale of oranges on the tree; (b) the transportation of oranges to a packinghouse for the purpose of having such oranges prepared for market and such preparation for market; (c) the transportation of oranges for storage within

[1] The provisions identified with an asterisk (*) apply only to the proposed marketing agreement and not to the proposed order.

the production area under such rules and regulations as the committee, with the approval of the Secretary, may prescribe; or (d) the sale of oranges at retail by a person in his capacity as such retailer.

§ 922.12 *Oranges available for current shipment.* "Oranges available for current shipment" means all oranges as measured by the tree crop.

§ 922.13 *Tree crop.* "Tree crop" means the total quantity of oranges on the trees as determined by the committee.

§ 922.14 *Early maturity oranges.* "Early maturity oranges" means any oranges that have reached maturity, as measured by applicable State laws, in advance of general maturity in the same prorate district.

§ 922.15 *General maturity.* "General maturity" shall have been reached in any prorate district at such time as the committee determines that allotment shall be distributed to all handlers in such prorate district.

§ 922.16 *Box.* "Box" means a standard two-compartment orange box, as defined in section 828.83 of the Agricultural Code of California, of a capacity of approximately 77 pounds of oranges, or such other container and weight as may be established by the committee with the approval of the Secretary, or the equivalent thereof.

§ 922.17 *Central marketing organization.* "Central marketing organization" means any organization which markets oranges for more than one handler pursuant to a written contract between such organization and each such handler.

§ 922.18 *Carload.* "Carload" means a quantity of oranges equivalent to 462 boxes of oranges or such other quantity of oranges as may be established by the committee with the approval of the Secretary.

§ 922.19 *Export.* "Export" means to ship oranges to points outside the continental United States, Canada, and Alaska.

ADMINISTRATIVE BODY

§ 922.20 *Establishment and membership.* There is hereby established a Valencia Orange Administrative Committee consisting of eleven members; for each of whom there shall be an alternate member who shall have the same qualifications as the member for whom each is an alternate. Six of the members and their respective alternates shall be growers who shall not be handlers, or employees of handlers, or employees of central marketing organizations. Four of the members and their respective alternates shall be handlers, or employees of handlers, or employees of central marketing organizations. One member of the committee and the alternate of such member shall be persons possessing the qualifications provided in paragraph (f) of § 922.22. The six members of the committee who shall be growers and who shall not be handlers, or employees of handlers, or employees of central marketing organizations are hereinafter referred to as "grower" members of the committee and the four members who shall be handlers, or employees of handlers, or employees of central marketing organizations are hereinafter referred to as "handler" members of the committee.

§ 922.21 *Term of office.* The term of office of each initial member and alternate member of the committee shall begin with the effective date of this part and shall terminate on January 31, 1956. The term of office of each subsequent member and alternate member of the committee shall be for a period of two marketing years, and such terms shall begin on February 1 of each even-numbered year: *Provided*, That such members and alternates shall serve in such capacities for the portion of the term of office for which they are selected and qualify and until their respective successors are selected and have qualified.

§ 922.22 *Nominations.* (a) The time and manner of nominating members and alternate members of the committee shall be prescribed by the Secretary.

(b) Any cooperative marketing organization, or the growers affiliated therewith, which handled more than 50 percent of the total volume of oranges handled during the marketing year in which nominations for members and alternate members of the committee are submitted (except that the marketing year for initial nominations shall be the year beginning February 1, 1953 and ending January 31, 1954), shall nominate three grower members, three alternate grower members, two handler members, and two alternate handler members.

(c) All cooperative marketing organizations which market oranges and which are not qualified under paragraph (b) of this section, or the growers affiliated therewith, shall nominate two grower members, two alternate grower members, one handler member, and one alternate handler member.

(d) All growers who are not affiliated with a cooperative marketing organization which markets oranges shall nominate one grower member, one alternate grower member, one handler member, and one alternate handler member.

(e) When voting for nominees, each grower shall be entitled to cast one vote which shall be cast on behalf of himself, his agents, subsidiaries, affiliates, and representatives. The votes of cooperative marketing organizations voting pursuant to paragraph (c) of this section shall be weighted in accordance with the volume of oranges handled during the marketing year in which such nominations are made, except that the marketing year for initial nominations shall be the year beginning February 1, 1953, and ending January 31, 1954.

(f) The members of the committee selected by the Secretary pursuant to § 922.23 shall meet on a date designated by the Secretary and, by a concurring vote of at least six members, shall nominate a member and an alternate member of the committee, which persons shall not be growers or handlers, or employees, agents, or representatives of a grower or handler (other than a charitable or educational institution which is a grower or handler), or of a central marketing organization.

§ 922.23 *Selection.* From the nominations made pursuant to § 922.22 (b) or from other qualified growers and handlers the Secretary shall select three grower members of the committee and an alternate to each of such grower members; also two handler members of the committee and an alternate to each of such handler members. From the nominations made pursuant to § 922.22 (c) or from other qualified growers and handlers the Secretary shall select two grower members of the committee and an alternate to each of such grower members; also one handler member of the committee and an alternate to such handler member. From the nominations made pursuant to § 922.22 (d) or from other qualified growers and handlers the Secretary shall select one grower member of the committee and an alternate to such grower member; also one handler member of the committee and an alternate to such handler member. From the nominations made pursuant to § 922.22 (f) or from other qualified persons the Secretary shall select one member of the committee and an alternate to such member.

§ 922.24 *Failure to nominate.* If nominations are not made within the time and in the manner specified by the Secretary pursuant to § 922.22 (a), the Secretary may, without regard to nominations, select the members and alternate members of the committee on the basis of the representation provided for in § 922.23.

§ 922.25 *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 922.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify or in the event of death, removal, resignation, or disqualification of any member or alternate member of the committee, a successor to the unexpired term of such member or alternate member of the committee shall be selected by the Secretary from nominations made in the manner specified in § 922.22 or from other qualified persons. If the names of nominees to fill any such vacancy are not made available to the Secretary within fifteen days after such vacancy occurs the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in § 922.23.

§ 922.27 *Alternate members.* An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member: *Provided*, That a member may designate an alternate member other than his own alternate member to serve in the place and stead of such member, if the alternate member so designated was selected from the same group which was authorized to nominate the member. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified.

§ 922.28 *Powers.* The Committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make and adopt rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 922.29 *Duties.* The committee shall have the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the compensation and to define the duties of each;

(c) To submit to the Secretary at the beginning of each fiscal year a budget for such fiscal year, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such fiscal year;

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;

(e) To prepare a monthly statement of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a certified public accountant at least once each fiscal year, and at such other times as the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To provide an adequate system for determining the total quantity of oranges available for current shipment, and to make such determinations, including determinations by grade, size, and maturity conditions, as it may deem necessary, or as may be prescribed by the Secretary, in connection with the administration of this part;

(i) To investigate the growing, handling, and marketing conditions with respect to oranges, and to assemble data in connection therewith;

(j) To submit to the Secretary such available information, including verified reports as he may request;

(k) To notify producers and handlers of meetings of the committee to consider recommendations for regulation;

(l) To consult with such representatives of growers or groups of growers as may be deemed necessary and to pay the travel expenses incurred by such representatives in attending committee meetings at the request of the committee: *Provided*, That the committee shall not pay the travel expenses of more than three such representatives in connection with any one meeting of the committee;

(m) To investigate compliance with the provisions of this part; and

(n) With the approval of the Secretary, to reapportion the number of grower members or handler members on the Valencia Orange Administrative Committee who are nominated pursuant to paragraphs (c) and (d) of § 922.22. Any such changes shall be based, insofar as practicable, upon the proportionate amount of Valencia oranges handled by the respective types of marketing organizations, provided that each of the grower groups described in paragraphs (c) and (d) of § 922.22 shall be entitled to nominate at least one grower and one handler member together with their respective alternates.

§ 922.30 *Procedure.* (a) A majority of the committee shall constitute a quorum; and any action of the committee shall require at least six concurring votes.

(b) The committee may vote by telegraph, telephone, or other means of communication; and any votes so cast shall be confirmed promptly in writing: *Provided*, That if an assembled meeting is held, all votes shall be cast in person.

§ 922.31 *Expenses and compensation.* The members of the committee, and their respective alternates when acting as members, shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties under this part and shall receive compensation at a rate to be determined by the committee, which rate shall not exceed $10 per day or portion thereof spent in performing such duties.

§ 922.32 *Annual review and meeting.* The committee shall, prior to December 15 of each marketing year, prepare and mail an annual report to the Secretary and to each handler and grower of record. This annual report shall contain at least: (a) A complete review, by prorate districts, of the regulatory operations during the marketing year, as conducted under the marketing policy established pursuant to § 922.50 (a); (b) an appraisal of the effect of such regulatory operations upon the competitive status of the Valencia orange industry; (c) recommendations for changes in the program; and (d) notice of the time and place of an open meeting, to be held prior to January 31, to review the whole record of the operations of this part.

EXPENSES AND ASSESSMENTS

§ 922.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds may be necessary to enable the committee to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal year.

§ 922.41 *Assessments.* (a) Each person who first handles oranges shall, with respect to the oranges so handled by him, pay to the committee, upon demand, such person's pro rata share of the expenses which the Secretary finds are necessary during each fiscal year. Each such person's share of such expenses shall be equal to the ratio between the total quantity of such oranges handled by him as the first handler thereof during the applicable fiscal year, and the total quantity of such oranges so handled by all persons during the same fiscal year. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expense which may be incurred. Such increase shall be applied to all oranges handled during the applicable fiscal year. In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance, and may borrow money in any amount not to exceed 10 percent of the estimated expenses set forth in its budget for the then current fiscal year.

(c) The committee may, with the approval of the Secretary, maintain a suit in its own name, or in the names of its members, to enforce the payment of assessments levied under this section.

§ 922.42 *Accounting.* (a) If, at the end of a fiscal year, the assessments collected are in excess of the expenses incurred, each person entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year. Any handler may demand payment of such a refund, and the refund shall be paid to him: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal year may be applied by the committee at the end of such fiscal year to any outstanding obligations due the committee from such person.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part, and shall be accounted for in the manner provided in this part. The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements.

REGULATION

§ 922.50 *Marketing policy.* (a) Prior to the recommendation for regulation for each prorate district, the committee shall submit to the Secretary its marketing policy for the ensuing season. Such marketing policy shall contain the following information: (1) The available crop of oranges in the prorate district, including estimated quality and composition of sizes; (2) the estimated utilization of the crop, showing the quantity and percentages of the crop that will be marketed in domestic, export, and by-product channels, together with quantities otherwise to be disposed of; (3) a schedule of estimated weekly shipments to be recommended to the Secretary during the ensuing season; (4) available

supplies of competitive oranges in all producing areas of the United States; (5) level and trend of consumer income; (6) estimated supplies of competitive citrus commodities; and (7) any other pertinent factors bearing on the marketing of oranges. In the event that it becomes advisable substantially to modify such marketing policy, the committee shall submit to the Secretary a revised marketing policy setting forth the information as required in this paragraph.

(b) All meetings of the committee held for the purpose of formulating such marketing policies shall be open to growers and handlers. The committee shall give notice to growers by publication of notice of such meetings in such newspapers as they deem appropriate and shall advise all handlers by mail of such meetings.

(c) The committee shall transmit a copy of each marketing policy report or revision thereof to the Secretary and to each grower and handler who files a request therefor. Copies of all such reports shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 922.51 *Recommendations for volume regulation.* (a) The committee may recommend to the Secretary the total quantity of oranges which it deems advisable to be handled during the next succeeding week in each prorate district. If, for any reason, the committee recommends the issuance of volume regulation but fails to recommend to the Secretary the total quantity of oranges which it deems advisable to be handled during the next succeeding week in each prorate district, reports representing the respective views of the committee members with respect to its failure to act shall be submitted to the Secretary.

(b) In making its recommendations, the committee shall give due consideration to the following factors: (1) Market prices for oranges, including market prices by grades and sizes; (2) supply of oranges on track at, and en route to, the principal markets; (3) supply, maturity, and condition of oranges in the area of production, including the grade and size composition thereof; (4) market prices and supplies of citrus fruits from California, Arizona, and competitive producing areas, and supplies of other competitive fruits; (5) trend and level in consumer income; and (6) other relevant factors.

(c) At any time during a week for which the Secretary, pursuant to § 922.52, has fixed the quantity of oranges which may be handled, the committee may recommend to the Secretary that such quantity be increased for such week. Each such recommendation, together with the committee's reasons for such recommendation, shall be submitted promptly to the Secretary.

§ 922.52 *Issuance of volume regulation.* Whenever the Secretary shall find, from the recommendations and information submitted by the committee, or from other available information, that to limit the quantity of oranges which may be handled in each prorate district during a specified week will tend to effectuate the declared policy of the act, he shall fix such quantity. The quantity so fixed may be increased by the Secretary at any time during such week.

§ 922.53 *Prorate bases.* (a) Each person who has oranges available for current shipment and who desires to handle such oranges, shall submit to the committee, at such time and in such manner as may be designated by the committee, and upon forms made available by it, a written application for a prorate base and for allotments as provided in this part.

(b) Such application shall be substantiated in such manner and shall be supported by such evidence as the committee may require, and shall include at least (1) the name and address of the producer or duly authorized agent, if any, for each grove or portion thereof, the fruit of which is included in the quantity of oranges available for current shipment by the applicant; (2) an accurate description of the location of each such grove or portion thereof, including the number of acres contained therein; and (3) an estimate of the total quantity of oranges available for current shipment by the applicant in terms of the unit of measure designated by the committee.

(c) Such application shall include only such oranges available for current shipment which the applicant controls (1) by a bona fide written contract giving the applicant authority to handle such oranges, or (2) by having legal title or possession thereof, or (3) by having executed a bona fide written agreement to purchase such oranges. If an applicant controls oranges pursuant to subparagraphs (1) or (3) of this paragraph, he shall submit a copy of each type of such contract or agreement to the committee, together with a statement that no other types of contracts or agreements are used, and shall maintain a file of all original contracts evidencing such control which shall be subject to examination by the committee.

(d) If the quantity of oranges available for current shipment by any person is increased or decreased by the acquisition or loss of the control required by paragraph (c) of this section, such person shall submit promptly a report thereon to the committee upon forms made available by it, which report shall be verified in such manner as the committee may require.

(e) If any person gains or loses the control of oranges required by paragraph (c) of this section, there shall be a corresponding increase or decrease in the quantity of oranges available for current shipment by such person. If it is determined by the committee that any person who has lost the control of oranges required by paragraph (c) of this section has handled a quantity of such oranges less than the quantity that could have been handled under the allotments issued thereon, the quantity of oranges available for current shipment by such person shall be adjusted by deducting therefrom, over such period as may be determined by the committee, a quantity of oranges equivalent to the quantity upon which allotments were issued but which were not utilized thereon.

(f) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the committee the factors considered in making the correction. If it is determined that an error, omission, or inaccuracy has resulted in the establishment of a smaller or a larger quantity of oranges available for current shipment than that to which a person was entitled under this part, such quantity shall be increased or decreased, over such period as may be determined by the committee, by an amount necessary to correct the error, omission, or inaccuracy.

(g) Each week during the marketing season when volume regulation is likely to be recommended the committee shall compute, with respect to each prorate district, the total quantity of oranges available for current shipment by each person who has applied for a prorate base and for allotments. On the basis of such computation, the committee shall fix a prorate base for each person who is entitled thereto. Such prorate base shall represent the ratio between the total quantity of oranges available for current shipment in the particular prorate district by such applicant and the total quantity of oranges available for current shipment in such district by all such applicants. The committee shall notify the Secretary of the prorate base fixed for each person and shall notify each such person of the prorate base fixed for him.

§ 922.54 *Allotments.* Whenever the Secretary has fixed the quantity of oranges which may be handled during any week in a prorate district, the committee shall calculate the quantity of oranges which may be handled by each person during such week. The said quantity shall be the allotment of such person and shall be in an amount equivalent to the product of the prorate base for such person and the total quantity of oranges grown in such prorate district and fixed by the Secretary as the total quantity of oranges which may be handled during such week. The committee shall give reasonable notice to each person of the allotment computed for him pursuant to this part.

§ 922.55 *Overshipments.* During any week for which the Secretary has fixed the total quantity of oranges which may be handled, any person who has received an allotment and is not required to reduce the quantity of oranges which he may handle during such week, as provided in this section, or whose total allotment is not required for the repayment of an allotment loan, may handle in addition to his allotment an amount of such oranges equivalent to 10 percent of his allotment or one carload of oranges, whichever is greater. The quantity of oranges so handled in excess of such person's allotment (but not exceeding an amount equivalent to the excess shipments permitted under this section) shall be deducted from such person's allotment for the next week. If such person's allotment for such week is in an amount less than the excess shipments permitted under this section, the remaining quantity shall be deducted from succeeding weekly allotments issued to such person until such excess has been entirely offset: *Provided*, That no overshipment incurred during a marketing year shall be deducted from allotments issued during the following marketing year.

§ 922.56 *Undershipments.* If any person handles during any week a quantity of oranges, covered by a regulation issued pursuant to § 922.52, in an amount less than his allotment of oranges for such week, he may handle, in addition to his allotment for the next week only, a quantity of such oranges equivalent to such undershipment.

§ 922.57 *Allotment loans.* (a) A person to whom allotments have been issued, whether under the provisions of early maturity, short life, or general maturity, may lend such allotments to other persons within the same prorate district to whom allotments have also been issued: *Provided*, That allotments issued under the short life provisions of this part may be loaned only to other persons to whom such allotments have also been issued. Such loans shall be confirmed to the committee by both parties thereto within 48 hours after any such agreement has been entered into, and such agreements shall include a date for the repayment of such allotments to the lender during the then current marketing year. If, on the date of repayment specified in the loan agreement, the borrower has insufficient allotment to repay such loan, he shall repay such loan as soon after the repayment date as he has allotments available to him for that purpose: *Provided*, That no loans made during a marketing year shall be required to be repaid from allotments issued during the following marketing year.

(b) The committee may act on behalf of persons desiring to arrange allotment loans. In each case, the committee shall confirm all such transactions immediately after the completion thereof by memorandum addressed to the parties concerned, which memorandum shall be deemed to satisfy the requirements of paragraph (a) of this section as to a confirmation of the loan agreement to the committee.

(c) An allotment shall be loaned, pursuant to paragraph (a) of this section for use only during the week for which such allotment was issued. Persons securing repayment of an allotment loan may use such allotment only during the week in which the repayment is made.

(d) No allotment which has been loaned may again be loaned by the borrower, or by the lender after the repayment thereof.

§ 922.58 *Assignment of allotment certificates.* In connection with all handling of oranges other than shipments by rail car, each handler who first handles oranges shall at the time of handling issue to the consignee thereof, or his agent, an assignment of allotment certificate covering each quantity of oranges so handled. Such assignment of allotment certificate shall be on such forms and shall be issued in such manner as prescribed by the committee and shall contain such information as the committee may require.

§ 922.59 *Priority of allotments.* During any week in which a person receives an allotment, and has the right to handle a quantity of oranges in addition to the quantity represented by his allotment, by reason of (a) an undershipment of an allotment, pursuant to § 922.56; or (b) the repayment of a loaned allotment, pursuant to § 922.57; or (c) a borrowed allotment, pursuant to § 922.57; and such person handles a quantity of oranges which is less than the total quantity of such oranges which such person may handle during such week, the amount of such oranges handled shall first apply to such person's current weekly allotment (or to that portion which is not used pursuant to § 922.55 or § 922.57). The remainder, if any, shall be applied in the following order; second, to any undershipment of allotments, pursuant to § 922.56; third, to any allotment repaid to him, pursuant to § 922.57; fourth, to any allotment borrowed, pursuant to § 922.57.

§ 922.60 *Early maturity allotments.* Notwithstanding the provisions of § 922.54 the committee shall, prior to the reaching of general maturity, issue special allotments for the handling of early maturity oranges. Handlers controlling early maturity oranges may apply to the committee for such allotments on forms prescribed by the committee and shall furnish to the committee such information as it may require. On the basis of all available information and after consideration of all of the factors enumerated in § 922.51 (b), the committee shall determine the extent to which early maturity allotment shall be granted. Total early maturity allotments approved by the committee for each prorate district shall be distributed to all handlers who qualify therefor in proportion to the quantity requested by each handler in his application: *Provided, however*, That early maturity allotments issued to any handler prior to the reaching of general maturity shall not permit the handling of a larger share of the oranges available for current shipment controlled by such handler than the share of oranges available for current shipment in the prorate district estimated to be allotted to all handlers in the utilization schedule established by the committee at the beginning of the season. Early maturity allotments may be loaned only to handlers to whom early maturity allotments have been granted. Upon the reaching of general maturity, allotments issued for early maturity oranges shall be offset or repaid by reducing the oranges available for current shipment of each handler who has received early maturity allotments by the quantity of oranges for which early maturity allotments were issued him, plus his proportionate share of the quantity of oranges that will be used for by-products and elimination in his prorate district. Such proportionate share shall be based upon the utilization schedule established by the committee at the beginning of the season. The committee shall, with the approval of the Secretary, adopt procedural rules and regulations to effectuate the provisions of this part. Allotments issued and allocated under this section shall be on a prorate district basis.

§ 922.61 *Short life allotments.* Notwithstanding the provisions of § 922.54 the committee shall withhold from the allotment of handlers on a uniform proportionate basis for all handlers, an amount sufficient to permit handlers controlling oranges of short life to handle during the normal marketing period of such short life oranges as large a proportion of oranges as the average which will be handled by all handlers. Handlers controlling oranges of short life may apply for such withheld allotment, and such application shall be made on forms supplied by the committee and shall be accompanied by information necessary to permit the committee to determine the validity of such applicant's claim to allotment. The committee shall determine, on the basis of all available information, the extent to which a handler needs allotment under the provisions of this section and pursuant to such determination shall allocate such allotment to such handler at a uniform weekly rate, insofar as practicable, during the normal marketing period of his short life oranges. Such determination and allotment issued pursuant thereto shall not permit a handler to receive more allotment proportionately than the average allotment to be issued to all handlers of oranges. After a handler of short life oranges has received allotment sufficient to make the total allotment issued to him equal proportionately to the average allotment to be issued to all handlers of oranges, allotment thereafter due such handler of short life oranges shall be allocated to handlers from whom allotment has been withheld. Short life allotments may be used only in the handling of short life oranges. The committee shall, with the approval of the Secretary, adopt procedural rules and regulations to effectuate the provisions of this part. Allotments issued and allocated under this section shall be on a prorate district basis.

§ 922.62 *Information to central marketing organizations.* The committee shall give any central marketing organization, upon its request, the same notice with respect to prorate bases and allotments applicable to each handler for whom it markets oranges as is given to such handler.

§ 922.63 *Recommendations for size regulation.* (a) Whenever the committee finds that the supply and demand conditions for sizes of oranges make it advisable to regulate the handling of sizes of oranges during any period, it shall recommend to the Secretary the sizes of oranges grown in each prorate district which it deems advisable to be handled during said period. The com-

mittee shall promptly submit such findings and recommendations, together with supporting information to the Secretary.

(b) In making its recommendations the committee shall give due consideration to the factors referred to in § 922.51 (b).

§ 922.64 *Issuance of size regulation.* Whenever the Secretary shall find, from the findings, recommendations, and information submitted by the committee, or from other available information, that to limit the handling of oranges grown in any prorate district or districts by sizes would tend to effectuate the declared policy of the act, he shall fix the sizes of oranges grown in each such prorate district which may be handled during the specified period. The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give adequate notice thereof to all handlers.

§ 922.65 *Exemptions from size regulation.* In the event the handling of oranges is limited pursuant to § 922.64, the committee shall issue one or more exemption certificates to any producer who furnishes evidence satisfactory to the committee that he will be prevented by reason of such regulation from having as large a proportion of his oranges handled as the average proportion of oranges which may be handled by all other producers in the same prorate district. Such exemption certificate shall permit the respective producer to whom the certificate is issued to handle or have handled a percentage of his oranges equal to the percentage determined as aforesaid. Shipments of oranges under exemption certificates issued pursuant to this section shall be subject to and limited by such regulations as may be effective under § 922.52 at the time of the respective shipment. The committee shall adopt, with the approval of the Secretary, procedural rules by which such exemption certificates will be issued to producers. Such exemption certificates may be transferred to handlers when accompanied by oranges covered by such certificates.

§ 922.66 *Prorate districts.* For purposes of administration of this part and in recognition of the fact that there are general differences in maturity and keeping quality of oranges between certain geographical sections of the production area, the production area shall be divided in three prorate districts as follows:

(a) District 1 shall include that portion of the State of California which is north of the 35th Parallel and south of the 37th Parallel.

(b) District 2 shall include that portion of the State of California which is south of the 35th Parallel, but shall exclude Imperial County and that area in Riverside and San Bernardino counties situated east of a line due north and south through White Water, California.

(c) District 3 shall include the State of Arizona, Imperial County, California, and that area in Riverside and San Bernardino Counties, California, situated south of the 35th Parallel and east of a line due north and south through White Water, California.

§ 922.67 *Oranges not subject to regulation.* Except as otherwise provided in this section, nothing contained in this subpart shall be construed to authorize any limitation of the right of any person to: (a) Handle oranges to charitable institutions for consumption by such institutions or for distribution by relief agencies; (b) handle oranges to commercial processors for processing into products, including juice; (c) export oranges; (d) handle oranges by parcel post or by express; or (e) handle oranges in such minimum quantities or types of shipments as the committee may, with the approval of the Secretary, prescribe. No assessment shall be levied pursuant to § 922.41 on oranges disposed of for any of the purposes specified in this section. The committee shall prescribe, with the approval of the Secretary, such rules, regulations, and safeguards as it may deem necessary to prevent oranges disposed of under the provisions of this section from entering into commercial channels of trade contrary to or in violation of this part.

REPORTS

§ 922.70 *Weekly report.* On or before such day of each week as may be designated by the committee, each handler shall report to the committee, in such manner as may be designated and on forms made available by it, the following information with respect to the total of all oranges disposed of by each such handler during the immediately preceding week: (a) The total quantity handled; (b) the total quantity disposed of for manufacture into by-products, showing the identity of each by-product processor involved and the quantity of each; (c) the total quantity disposed of for export, showing the destination and quantity of each such disposition; (d) the total quantity shipped for disposition to persons on relief, including quantities donated for charitable purposes; (e) the total quantity shipped by parcel post or express, showing the destination and quantity of each such shipment; and (f) the total quantity disposed of otherwise, showing the manner and quantity of each such disposition.

§ 922.71 *Manifest report.* Each handler shall furnish to the committee information regarding the size of oranges in each box handled by such handler and shall mail or deliver such information to said committee or its duly authorized representative within 24 hours after shipment is made in such manner as the committee shall prescribe and upon forms prepared by it.

§ 922.72 *Other reports.* Upon request of the committee, made with the approval of the Secretary, every person subject to regulation under this part shall furnish to the committee, in such manner and at such times as it may prescribe, such other information as will enable the committee to perform its duties under this part.

MISCELLANEOUS PROVISIONS

§ 922.80 *Compliance.* Except as provided in this part, no person shall handle oranges during any week in which a regulation issued by the Secretary pursuant to § 922.52 is in effect, unless such oranges are, or have been, handled pursuant to an allotment therefor, or unless such person is otherwise permitted to handle such oranges under the provisions of this part; and no person shall handle oranges except in conformity with the provisions of this part and the regulations issued under this part.

§ 922.81 *Right of the Secretary.* The members of the committee (including successors and alternates), and all agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary. If the committee, for any reason, fails to perform its duties or exercise its powers under this part, the Secretary may designate another agency to perform such duties and exercise such powers.

§ 922.82 *Effective time.* The provisions of this part shall become effective at such time as the Secretary may declare above his signature to this part, and shall continue in force until terminated in one of the ways specified in § 922.83.

§ 922.83 *Termination.* (a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) (1) The Secretary shall terminate the provisions of this part at the end of any marketing year, whenever he finds that continuance is not favored by producers; but such termination shall be effective only if announced on or before January 15 of the then current marketing year.

(2) To determine whether continuance is favored by producers, the required percentages set forth in the act with respect to producer approval of the issuance of a marketing order regulating the handling of citrus fruits produced in any area producing what is known as California citrus fruits (approval by three-fourths of the producers who, during a representative period, determined by the Secretary, have been engaged within the production area in the production of Valencia oranges for market; or by producers who, during such representative period, have produced for market at least two-thirds of the volume of Valencia oranges produced within the production area for market) shall be used. In the event that a referendum is utilized to aid in making this determination, such required percentages for continuance shall be held to be complied with if, of the total number of producers, or the total volume of Valencia oranges produced for market, as the case may be, represented in such referendum, the percentage favoring continuance is equal to or in excess of the percentage required.

(3) The Secretary shall, prior to December 15, 1956, conduct a referendum to ascertain whether continuance of this part is favored by the producers. The Secretary shall conduct such a referendum prior to December 15 of each evennumbered year thereafter.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 922.84 *Proceedings after termination.* (a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and (3) upon the request of the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 922.85 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 922.86 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 922.87 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 922.88 *Derogation.* Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 922.89 *Personal liability.* No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 922.90 *Separability.* If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 922.91 *Counterparts.* This agreement may be executed in multiple counterparts, and, when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.

§ 922.92 *Additional parties.* After the effective date hereof, any handler may become a party to this agreement if a counterpart thereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.

§ 922.93 *Order with marketing agreement.* Each contracting handler hereby requests the Secretary to issue, pursuant to the act, an order regulating the handling of oranges by all handlers in the same manner as is provided herein.*

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 2d day of February 1954.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 141, 187]

[No. 31450]

FREIGHT SCHEDULES AND FREIGHT RATE TARIFFS, SCHEDULES AND CLASSIFICATIONS

RULES AND CHARGES FOR ACCESSORIAL SERVICES BY RAIL AND MOTOR CARRIERS

In the matter of regulations governing the separation of charges for protection against the weather, such as heating, icing, and refrigeration, from the line-haul rates or charges.

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 22d day of January A. D. 1954.

It appearing, that there is a need for revision of the regulations governing special services contained in Rule 10 of Tariff Circular No. 20 (49 CFR 141.10); Rule 8 of Tariff Circular MF No. 2 (49 CFR 187.8); and Rule 11 of Tariff Circular MF No. 3 (49 CFR 187.35), which were prescribed under sections 6, 217, and 218 of the Interstate Commerce Act, and good cause appearing:

It is ordered, That pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003), notice is hereby given of the proposed revision of the tariff rules and regulations §§ 141.10, 187.8, and 187.35, so as to read as follows:

1. Proposed amendment to Rule 10 (a) of Tariff Circular No. 20:

§ 141.10 *Terminal and special services; distance and mileage rates*—(a) *Terminal and special services.* (1) Each carrier or its agent shall publish, post, and file tariffs which shall contain in clear, plain, and specific form and terms all the rules governing and rates and charges for demurrage, switching, floating, lighterage, wharfage, and other terminal services, storage, transfer and drayage, weighing, diversion, reconsignment, icing, refrigeration, heat elevation, feeding, grazing, and other transit services, absorptions, allowances, and all other services which are not part of line-haul transportation and for which compensation is not included in line-haul rates. Tariffs authorizing such services, or providing charges therefor or for the absorption of such charges, must clearly show their application in connection with traffic moving under less-than-carload or any quantity rates.

(2) *Protective service.* Rates, charges, rules, and regulations, covering protective service against the weather such as heating, icing, and refrigeration shall be stated separately and apart from line-haul charges.

NOTE: This paragraph shall not be construed as exempting charges for other accessorial or special services from the requirement of being published separately from the line-haul rates.

2. Proposed amendment to Rule 8 of Tariff Circular MF No. 2: Paragraph

(p) (8) reading as follows is added thereto:

§ 187.8 *Form and contents of schedules.* • • •

(p) *Tables of minimum rates or charges.* • • •

(8) Minimum rates and charges, and rules and regulations covering protective service against the weather such as heating, icing, and refrigeration shall be stated separately and apart from line-haul charges.

NOTE: This paragraph shall not be construed as exempting charges for other accessorial or special services from the requirement of being published separately from the line-haul rates.

3. Proposed amendment to Rule 11 (a) of Tariff Circular MF No. 3:

§ 187.35 *Terminal and special services—*(a) *Terminal and special services.* (1) Each carrier or its agent shall publish, post, and file tariffs which shall contain in clear and explicit terms all of the rates and charges for and rules governing detention of vehicles, storage, weighing, diversion, reconsignment, icing, refrigeration, heat, C. O. D. services, transit services, absorptions, allowances, and other terminal services, and all other services which are not part of line-haul transportation and for which compensation is not included in line-haul rates. Tariffs authorizing such services, or providing charges therefor, shall clearly show their application.

(2) *Protective service.* Rates, charges, rules, and regulations covering protective service against the weather such as heating, icing, and refrigeration shall be stated separately and apart from line-haul charges.

NOTE: This paragraph shall not be construed as exempting charges for other accessorial or special services from the requirement of being published separately from the line-haul rates.

It is further ordered, That the respondents herein and other interested parties may file, on or before April 12, 1954, with this Commission, written statements containing data, views, or arguments concerning the proposed revised rules covering said protective service against the weather, such as heating, icing, and refrigeration.

It is further ordered, That any written statements filed as provided in the next preceding paragraph shall conform to the specifications provided in Rule 15 of this Commission's general rules of practice and that an original signed copy and 5 additional copies shall be furnished for the use of the Commission.

It is further ordered, That no oral hearing be held with respect to the proposed regulations, but that, if deemed necessary or advisable, the matter may be assigned for informal conference at which those interested may discuss the proposed revised rules with designated officials of this Commission, and if deemed necessary or advisable assigned for oral argument before this Division.

It is further ordered, That all carriers subject to section 6 and all motor common and contract carriers of property subject to sections 217 or 218 of the Interstate Commerce Act be, and they are hereby, made respondents to this proceeding.

And it is further ordered, That notice to the respondents and to the general public shall be given by depositing a copy in the Office of the Secretary of the Commission for public inspection and by filing a copy with the Director, Division of the Federal Register.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD, *Secretary.*

CERTAIN FISH

TARIFF-RATE QUOTA

JANUARY 27, 1954.

The tariff-rate quota for the calendar year 1954 on certain fish dutiable under paragraph 717 (b), Tariff Act of 1930, as modified pursuant to the General Agreement on Tariffs and Trade (T. D. 51802).

In accordance with the proviso to item 717 (b) of Part I, Schedule XX, of the General Agreement on Tariffs and Trade (T. D. 51802), it has been ascertained that the average aggregate apparent annual consumption in the United States of fish, fresh or frozen (whether or not packed in ice), filleted, skinned, boned, sliced, or divided into portions, not specially provided for: Cod, haddock, hake, pollock, cusk, and rosefish, in the three years preceding 1954, calculated in the manner provided for in the cited agreement, was 226,335,907 pounds. The quantity of such fish that may be imported for consumption during the calendar year 1954 at the reduced rate of duty established pursuant to that agreement is, therefore, 33,950,386 pounds. (343.3)

[SEAL] D B. STRUBINGER, *Acting Commissioner of Customs.*

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended June 2, 1952, 17 F. R. 3818).

B. & F. Manufacturing Co., Inc., Mocksville, N. C., effective 2-16-54 to 2-15-55; 10 learners for normal labor turnover purposes (sport shirts).

Barnesville Manufacturing Co., Inc., 315-319 South Gardner Street, Barnesville, Ohio, effective 1-25-54 to 1-24-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' pajamas).

Barry Bob Sportswear Co., 144 East Blaine Street, McAdoo, Pa., effective 1-21-54 to 1-20-55; 5 learners for normal labor turnover purposes. (Learners are not authorized to be employed at subminimum wage rates in the production of skirts.) (Ladies' shorts and peddlepushers.)

Bobanok Corp., 111 Garrison Avenue, Fort Smith, Ark., effective 1-22-54 to 1-21-55; 10 learners for normal labor turnover purposes (misses' and ladies' blouses and dresses etc.).

Cal-Crest Outerwear, Inc., 17 North Fourteenth Street, Murphysboro, Ill., effective 1-23-54 to 1-22-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' jackets).

Campus Shirt Co., Barnesville, Ohio, effective 1-23-54 to 1-22-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Candy Frocks, 945 South Main Street, Old Forge, Pa., effective 1-22-54 to 1-21-55; 5 learners for normal labor turnover purposes (dresses).

City Shirt Co., 19-21 West Vine Street, Mahanoy City, Pa., effective 1-25-54 to 1-24-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts, blouses, etc.).

Clairmont, Inc., 2114 Peachtree Road NW., Atlanta, Ga., effective 1-20-54 to 1-19-55; 10 learners for normal labor turnover purposes (slips and gowns).

Don Juan Manufacturing Co., Hertford, N. C., effective 1-22-54 to 1-21-55; 10 learners for normal labor turnover purposes (sport shirts).

Evergreen Garment Co., Inc., 306 Martin Street, Evergreen, Ala., effective 1-22-54 to 1-21-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Eastwill Sportswear Co., Inc., Greenwood, S. C., effective 2-2-54 to 2-1-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Hartsville Garment Corp., Gallatin Road, Hartsville, Tenn., effective 1-22-54 to 1-21-55, 10 learners or 10 percent of the total number of factory production workers, whichever is greater (sport shirts).

Joseph Horowitz & Sons, Inc., 43 Liberty Street, Batavia, N. Y., effective 1-19-54 to 1-18-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts).

J. B. C. Co. of Madera, Madera, Pa., effective 1-26-54 to 7-25-54; 20 learners for expansion purposes (trousers).

Jersey Shore Manufacturing Corp., 148 South Main Street, Jersey Shore, Pa., effective 1-26-54 to 1-25-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's pajamas, sport shirts, etc.).

Karman Manufacturing Co., Demorest, Ga., effective 1-22-54 to 1-21-55; 10 learners for normal labor turnover purposes (men's shirts).

Karman Manufacturing Co., Demorest, Ga., effective 1-22-54 to 7-21-54; 10 learners for plant expansion purposes (men's shirts).

Lafayette Pants Corp., 401 Lafayette Boulevard, Fredericksburg, Va., effective 1-5-54 to 2-4-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (trousers).

Lenoir Shirt Co., 501 East Caswell Street, Kinston, N. C., effective 1-22-54 to 1-21-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Major Shirt Corp., 1106 Cunnius Street, Freeland, Pa., effective 1-18-54 to 1-17-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport jackets).

Mount Airy Pants Factory, Mount Airy, Md., effective 1-23-54 to 1-22-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (work pants).

The Mountain-Top Co., 220 South Church Street, Hendersonville, N. C., effective 1-21-54 to 1-20-55; 10 learners for normal labor turnover purposes (misses' and children's playwear).

Oshkosh B'Gosh Inc., Celina Division, Celina, Tenn., effective 2-1-54 to 7-30-54; 75 learners for expansion purposes (work pants and shirts).

Ottenheimer Bros. Manufacturing Co., Inc., Victory at Second Streets, Little Rock, Ark., effective 2-12-54 to 2-11-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (dresses, uniforms, aprons, etc.).

Phillips-Jones Factory, Brinkley, Ark., effective 1-25-54 to 7-24-54; 70 learners for expansion purposes (dress shirts).

Pleasant Hill Garment Co., Pleasant Hill, Ill., effective 1-20-54 to 1-19-55; 10 learners for normal labor turnover purposes (boys' and girls' sportswear).

Rival Dress Co., Inc., 110 West Blaine Street, McAdoo, Pa., effective 1-26-54 to 1-25-55; 10 learners for normal labor turnover purposes (dresses).

Rocket Manufacturing Co., Inc., 1000 Spring Street, Little Rock, Ark., effective 2-12-54 to 2-11-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (women's and misses' blouses and jackets).

Snelbaker Manufacturing Co., 17-19 East Simpson Street, Mechanicsburg, Pa., effective 2-11-54 to 2-10-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts and pants).

Ben Weisberg & Co., 54-56 North Main Street, Carbondale, Pa., effective 1-20-54 to 1-19-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (children's dresses).

Wright Garment Co., Bowman, Ga., effective 1-20-54 to 1-19-55; 10 percent of the total number of production workers for normal labor turnover purposes (work pants).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as amended November 19, 1951, 16 F. R. 10733).

Acme Hosiery Dye Works, Inc., Pulaski, Va., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Archer Mills, Inc., Columbus, Ga., effective 2-6-54 to 2-5-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Athens Hosiery Mills, Inc., Athens, Tenn., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Crewe Hosiery Co., Inc., Crewe, Va., effective 1-25-54 to 1-24-55; 5 learners for normal labor turnover purposes.

Fieldcrest Hosiery Mill, Fieldale, Va., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Virginia Maid Hosiery Mills, Inc., Pulaski, Va., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Walnut Hosiery Mills, Inc., Fifth and Walnut Streets, Shamokin, Pa., effective 2-18-54 to 2-17-55; 5 learners for normal labor turnover purposes.

Wilkes Hosiery Mills Co., 401 F Street, North Wilkesboro, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Williamson Hosiery Mills, Inc., Athens, Tenn., effective 1-25-54 to 1-24-55; 5 learners for normal labor turnover purposes.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

See-Gal Manufacturing Co., 220 Franklin Street, Johnstown, Pa., effective 2-1-54 to 1-31-55; 5 learners for normal labor turnover purposes. Machine operators (except cutting), 320 hours at 65 cents an hour (ladies' belts, covered buckles and covered buttons).

The following special learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Walden Hosiery Mills of Puerto Rico, Inc., Cindra, P. R., effective 1-15-54 to 7-14-54; 10 learners; inspecting, 240 hours at 30 cents an hour; mending, 240 hours at 30 cents an hour, 240 hours at 35 cents an hour; looping, knitting (transfer top); each 480 hours at 30 cents an hour, 480 hours at 35 cents an hour (infants' hosiery).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 25th day of January 1954.

MILTON BROOKE, *Authorized Representative of the Administrator.*

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

ASSISTANT ADMINISTRATOR FOR LOAN OPERATIONS

DELEGATION AND ASSIGNMENT OF AUTHORITIES, POWERS, FUNCTIONS AND DUTIES RELATING TO LOAN OPERATIONS

Pursuant to authority contained in section 116 in Title 9 of the Administrative Regulations of the Department of Agriculture and in section 116 in the order of the Acting Secretary of Agriculture dated December 24, 1953 (19 F. R. 74), there are hereby delegated and assigned to the position of Assistant Administrator for Loan Operations, subject to the general direction and supervision of the Administrator, all authorities, powers, functions and duties that have been, and that hereafter may be, vested in the Secretary of Agriculture and delegated and assigned to the Administrator, with respect to the administration of the loan making and loan servicing functions of the following programs:

1. The farm ownership program (7 U. S. C. 1001).

2. The production and subsistence loan program (7 U. S. C. 1007).

3. The water facilities loan program (16 U. S. C. 590r–z).

4. The production disaster and economic disaster loan programs (12 U. S. C. 1148a).

5. The special livestock loan program (P. L. 115, 83d Congress).

6. The fur loan program (12 U. S. C. 1148a; P. L. 255, 83d Congress).

7. The orchard loan program (12 U. S. C. 1148a).

8. The farm housing program of loans and grants (42 U. S. C. 1471).

9. Liquidation and collection functions under the Farmers Home Administration Act of 1946, and under the act of April 6, 1949, abolishing the Regional Agricultural Credit Corporation of Wash Agricultural Credit Corporation of Washington, D. C., and servicing and collection functions with respect to loans made under the item "Loans to Farmers, 1948 Flood Damage", in the Second Deficiency Appropriation Act, 1948, and under the item "Loans to Farmers, Property Damage", in the First Deficiency Appropriation Act, 1949.

10. The exercise of such compromise, adjustment and cancellation authorities, functions, powers and duties vested in the Secretary of Agriculture under the act of December 20, 1944 (12 U. S. C. 1150), as may have applicability to the programs enumerated herein.

11. The disposal of such surplus real property under the jurisdiction of the Farmers Home Administration as the Secretary may be authorized to dispose of by the Administrator of the General Services Administration.

This order supersedes and revokes the order of the Administrator of the Farmers Home Administration dated August 31, 1953 (18 F. R. 5556).

Done at Washington, D. C., this 2d day of February 1954.

[SEAL] R. B. McLEAISH,
Administrator,
Farmers Home Administration.

PACIFIC GAS AND ELECTRIC CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application, filed October 23 and supplemented December 28, 1953, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity to construct and operate certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on November 17, 1953 (18 F. R. 7283).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 16, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: February 1, 1954.

Issued: February 1, 1954.

By the Commission.

[SEAL] LEON M FUQUAY,
Secretary.

[Docket No. G–2344]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION

FEBRUARY 1, 1954.

Take notice that on December 28, 1953, El Paso Natural Gas Company, Applicant, a Delaware corporation, having its principal place of business at El Paso, Texas, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas facilities, namely, a main line tap and high pressure regulator, to be located on Applicant's 30-inch San Juan crossover line in Mohave County, Arizona. Such facilities will be operated in conjunction with Applicant's existing facilities for the purpose of making deliveries of natural gas to Southern Union Gas Company for resale by the latter to District School No. 12, located at Topock, Arizona.

The Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 19th day of February 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary

[F. R. Doc. 54–819; Filed, Feb. 4, 1954; 8:51 a. m.]

[Docket No. G–2351]

EL PASO NATURAL GAS CO. AND NEVADA NATURAL GAS PIPE LINE CO.

NOTICE OF APPLICATION

FEBRUARY 1, 1954.

Take notice that on January 14, 1954, El Paso Natural Gas Company (El Paso), a Delaware corporation having its principal place of business in El Paso, Texas, and the Nevada Natural Gas Pipe Line Co. (Nevada), a Nevada corporation with its principal place of business at Las Vegas, Nevada, filed a joint application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act authorizing the leasing and operation of certain natural gas facilities as hereinafter described.

Nevada requests permission and authority to lease to El Paso approximately 14 miles of a 10¾-inch O. D. pipeline proposed and now being constructed by Nevada within the State of Arizona. The construction of said pipeline was authorized in the amended certificate of public convenience and necessity in Docket No. G–1888 and is to extend from a point near El Paso's existing Topock meter station in a northwesterly direction to a point on the Arizona-California boundary known as "Pebble Beach."

El Paso requests permission and authority to lease and operate and maintain the pipe line referred to above.

Nevada and El Paso have entered into a lease agreement dated December 15, 1953, providing for the leasing by Nevada to El Paso of the pipe line described. The lease is for a term of 15 years and thereafter from month to month, as long as the Service Agreement entered into between El Paso and Nevada, dated December 15, 1953, continues in effect, all as more fully set forth in the joint application in the above-entitled matter.

El Paso and Nevada request that their application be heard under the shortened procedure, pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 19th day of February 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket Nos. G–2352, G–2353]

TENNESSEE GAS TRANSMISSION CO. AND NORTHEASTERN GAS TRANSMISSION CO.

NOTICE OF APPLICATION

FEBRUARY 1, 1954.

Take notice that Tennessee Gas Transmission Company (Tennessee), a Delaware corporation having its principal place of business in Houston, Texas, on January 14, 1954, filed an application, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Tennessee to acquire and operate the facilities of its wholly owned subsidiary, Northeastern Gas Transmission Company (Northeastern).

Tennessee proposes to acquire and operate all the facilities now operated by Northeastern subject to the Commission's jurisdiction and to acquire, construct and operate any facilities which Northeastern may have under construction pursuant to authorization granted by the Commission. Tennessee also seeks authority to succeed to all other rights and obligations of Northeastern over which this Commission has jurisdiction.

The facilities to be acquired by Tennessee consist of a transmission system extending from a point on the New York-Massachusetts State line near Pittsfield, Massachusetts, in an easterly direction across the State of Massachusetts to the northeastern corner of the State, thence northerly to Concord, New Hampshire; also with a main transmission line extending from a point near Springfield, Massachusetts, in a southwesterly direction through the State of Connecticut to a point near Greenwich, Connecticut.

Tennessee represents that it will acquire Northeastern's facilities by a merger, with Tennessee continuing in existence. Tennessee will cancel Northeastern's capital stock in the amount of $9,000,000 all owned by Tennessee and will also cancel demand notes of Northeastern held by Tennessee in the amount of $8,915,700. The outstanding bonded indebtedness and all outstanding obligations of Northeastern will be assumed by Tennessee.

Tennessee states that upon consummation of the proposed acquisition, it will continue to operate the facilities and to provide the service now rendered by Northeastern without change other than in the rate schedules and similar technical changes required to effect the acquisition. Tennessee further represents that upon acquisition of the facilities Northeastern's tariff will be cancelled and initial service will be rendered under Tennessee's tariff at the rates presently in effect under Northeastern's tariff.

Concurrently, Northeastern Gas Transmission Company, a Delaware corporation having its principal place of business in Springfield, Massachusetts, on January 14, 1954, filed an application pursuant to section 7 (b) of the Natural Gas Act for permission and approval to abandon the service rendered through its facilities, which facilities it proposes to transfer to Tennessee and for which Tennessee filed application for a certificate of public convenience and necessity in Docket No. G–2352.

Protests or petitions to intervene may be filed with the Federal Power Commission, 441 G Street NW., Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 19th day of February 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G–2354]

TEXAS ILLINOIS NATURAL GAS PIPELINE CO.

NOTICE OF APPLICATION

FEBRUARY 1, 1954.

Take notice that Texas Illinois Natural Gas Pipeline Company (Applicant), a Delaware corporation having its principal place of business in Chicago, Illinois, on January 14, 1954, filed an application, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity for authority to increase the daily contract quantity of natural gas it is presently authorized to sell and deliver to the City of Sullivan, Illinois.

In the same application, Applicant seeks authority, pursuant to section 7 (b) of the Natural Gas Act, to abandon service by decreasing the daily contract quantity of natural gas which it is now authorized to sell and deliver to Southeastern Illinois Gas Company (Southeastern).

Applicant represents that it is presently authorized to sell and deliver up to 1800 Mcf of natural gas per day to Southeastern for a twenty year period ending November 1, 1971. Applicant states that Southeastern has requested a change in the contract quantities to provide for the following schedule of deliveries:

By such a change Southeastern would permanently relinquish 400 Mcf of the maximum daily contract quantity allocated to it.

Applicant further represents that at the present time it has 70 Mcf per day of unallocated delivery or sales capacity previously authorized of which no disposition has been made.

Applicant states that the City of Sullivan, Illinois, desires an additional daily contract quantity of 470 Mcf of gas, effective November 1, 1954.

Applicant states that no new physical facilities or change in facilities now authorized will be required to effect the authorizations requested.

Protests or petitions to intervene may be filed with the Federal Power Commission, 441 G Street NW., Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 19th day of February 1954. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54–97, 59–73, 59–38]

UNITED PUBLIC UTILITIES CORP. ET AL.

SUPPLEMENTAL ORDER APPROVING PAYMENT OF FEES AND EXPENSES

JANUARY 29, 1954.

In the matter of United Public Utilities Corporation, applicant, File No. 54–97; United Public Utilities Corporation and its subsidiary companies, respondents, File No. 59–73; United Public Utilities Corporation and its subsidiary companies, respondents, File No. 59–38.

The Commission having on October 10, 1946, February 20, 1948, July 27, 1948, and May 27, 1949 approved plans filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 by United Public Utilities Corporation;

Each of said plans having provided that fees and expenses in connection therewith be subject to approval of the Commission and the Commission in its said orders having reserved jurisdiction over the payment of certain of such fees and expenses and the Commission by orders dated December 7, 1948, May 27, 1949, and May 13, 1952 having continued the reservation of jurisdiction over such

fees and expenses except to the extent that payment thereof had been approved;

Applications and amendments thereto for allowances of fees and expenses having been filed; and

The Commission having considered such applications and the amounts requested and having concluded that the allowances requested as hereinafter itemized are reasonable:

It is ordered, That payment of the fees and expenses relating to the plans approved by the Commission's orders dated October 10, 1946, February 20, 1948, and July 27, 1948, set forth below be, and the same hereby is, approved:

Evans, Bayard & Frick, counsel:	
Fees	$35,000.00
Expenses	3,173.76
Printing and mailing	16,009.58
Publication of notices	6,527.71
Paying agent	9,820.19
Miscellaneous	4,892.42
Total	75,423.66

It is further ordered, That payment of fees and expenses for 1953, relating to the plan approved by the Commission's order dated May 27, 1949, in amounts not exceeding those set forth below, be, and the same hereby is, approved:

Trustee's salary	$6,000.00
Office and clerical	3,100.00
Paying agent	640.00
Tracer's fees	500.00
Miscellaneous	910.00
Total	11,150.00

It is further ordered, That the reservation of jurisdiction over fees and expenses contained or continued in the aforementioned orders of the Commission be, and it hereby is, released with respect to the fees and expenses allowed herein.

By the Commission.

COLUMBIA GAS SYSTEM, INC., AND KEYSTONE GAS CO., INC.

ORDER AUTHORIZING ISSUE AND SALE OF INSTALLMENT NOTES BY SUBSIDIARY TO [redacted]

FEBRUARY 1, 1954.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and the Keystone Gas Company, Inc. ("Keystone"), a wholly owned public-utility subsidiary of Columbia, having filed with this Commission a joint application-declaration and two amendments thereto pursuant to sections 7, 9 and 10 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following proposed transactions:

Keystone proposes to issue and sell from time to time not later than March 31, 1954, and Columbia proposes to purchase at face value, $100,000 principal amount of Keystone's installment notes. The notes will be payable in twenty-five equal annual installments on February 15 of each of the years 1955 to 1979, inclusive, with interest payable semi-annually on the unpaid principal balance at the rate of 4 percent per annum. If Columbia's next sale of debentures results in a cost of money to Columbia lower than 4 percent per annum by ⅛ of 1 percent or more, Columbia will surrender the installment notes to Keystone in exchange for a like principal amount of notes of the same maturity and having the same terms except that such notes shall bear interest at the lowest rate, being a multiple of ⅛ of 1 percent, which is not less than the cost of money to Columbia in respect of its next sale of debentures.

Keystone proposes to use the funds accruing from the sale of said notes in financing its current construction program.

Due notice having been given of the filing of said joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration as amended be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said application-declaration as amended be, and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

COLUMBIA GAS SYSTEM, INC., AND BINGHAMTON GAS WORKS

ORDER AUTHORIZING ISSUE AND SALE OF COMMON STOCK AND INSTALLMENT NOTES BY SUBSIDIARY TO PARENT

FEBRUARY 1, 1954.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and Binghamton Gas Works ("Binghamton"), a wholly owned public-utility subsidiary of Columbia, having filed with this Commission a joint application-declaration and two amendments thereto pursuant to sections 7, 9 and 10 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following proposed transactions:

Binghamton proposes to issue and sell from time to time as funds are required but not later than March 31, 1954, and Columbia proposes to purchase at par or face value, (a) not to exceed 8,000 shares of Binghamton's common stock, $25 par value, and (b) upon completion of the purchase of said stock, not to exceed $125,000 principal amount of Binghamton's installment notes. The notes will be payable in twenty-five equal annual installments on February 15 of each of the years 1955 to 1979, inclusive, with interest payable semi-annually on the unpaid balance at the rate of 4 percent per annum. If Columbia's next sale of debentures results in a cost of money to Columbia lower than 4 percent per annum by ⅛ of 1 percent or more, Columbia will surrender the installment notes to Binghamton in exchange for a like principal amount of notes of the same maturity and having the same terms except that such notes shall bear interest at the lowest rate, being a multiple of ⅛ of 1 percent, which is not less than the cost of money to Columbia in respect of its next sale of debentures.

Binghamton proposes to use the funds accruing from the sale of said securities in financing its current construction program.

Due notice having been given of the filing of said joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration as amended be granted and made effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration as amended be, and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

ELECTRIC BOND AND SHARE CO.

ORDER RELEASING JURISDICTION WITH RESPECT TO LEGAL FEE

FEBRUARY 1, 1954.

The Commission having heretofore granted the application and permitted the declaration to become effective of Electric Bond and Share Company concerning the sale through private negotiation of 10,000 shares of common stock of its gas utility subsidiary, United Gas Corporation; the Commission having reserved jurisdiction over fees and expenses incurred in connection with said transaction; the record having been completed with respect to the fee of $750 proposed to be paid to the law firm of Simpson Thacher & Bartlett, and the Commission finding that said fee is not unreasonable:

It is ordered, That jurisdiction heretofore reserved with respect to the fees and expenses incurred in connection with these transactions be, and the same hereby is, released insofar as it relates to the fee of Simpson Thacher & Bartlett.

By the Commission.

MYSTIC VALLEY GAS CO.

ORDER AUTHORIZING SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING

FEBRUARY 1, 1954.

Mystic Valley Gas Company ("Mystic"), a public-utility subsidiary of New England Electric System ("NEES"), a registered holding company, having filed an application, pursuant to the public Utility Holding Company Act of 1935 ("act"), in which it designates section 6 (b) of the act and Rules U-42 (b) (2) and U-50 thereunder as applicable to the following proposed transactions:

Mystic proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $5,500,000 principal amount of its First Mortgage Bonds, Series A, due 1974. The price of the bonds which shall be not less than the principal amount nor more than 102¾ percent thereof and the interest rate which shall be a multiple of ⅛ of 1 percent and not in excess of 4½ percent will be determined by competitive bidding.

The proceeds (exclusive of accrued interest) derived from the sale of the bonds will be used by Mystic to pay an equal principal amount of its promissory notes. Mystic presently has outstanding $5,500,000 principal amount of 3¼ percent notes maturing March 1, 1954.

Mystic is organized and doing business in The Commonwealth of Massachusetts and the issue and sale of its bonds have been expressly authorized by the Department of Public Utilities of that State.

The fees and expenses to be incurred in connection with the issue and sale of the bonds, except underwriting discounts and commissions, are estimated by Mystic as follows:

Registration fee—S. E. C.	$572
Federal original issue tax	6,050
New England Power Service Co.	20,000
Printing	16,000
Lybrand, Ross Bros. & Montgomery, accountants	3,200
Choate, Hall & Stewart, counsel for Underwriters (to be paid by the underwriters)	5,300
Trustee under indenture	5,500
Miscellaneous	4,878
Total	61,500

Mystic requests that the Commission's order become effective upon issuance.

Due notice having been given of the filing of the application, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied, and it appearing to the Commission that the estimated fees and expenses are not unreasonable, provided they do not exceed the amounts estimated, and that the application should be granted:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said application be, and the same hereby is, granted forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[File No. 70-3176]

GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING OF DECLARATION REGARDING CAPITAL CONTRIBUTIONS BY REGISTERED HOLDING COMPANY TO SUBSIDIARY COMPANIES

JANUARY 29, 1954.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company, has filed a declaration with the Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") regarding certain capital contributions proposed to be made by GPU to its subsidiaries, Associated Electric Company ("Aelec"), a registered holding company, and New Jersey Power & Light Company ("NJP&L"), a public-utility company. Declarant has designated section 12 (b) of the act and Rule U-45 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

GPU proposes to make cash capital contributions in the aggregate amount of $200,000 to its subsidiary, Aelec, and in the aggregate amount of $175,000 to its subsidiary NJP&L. Each such contribution will be initially credited by the recipient thereof to its capital surplus account and, in the case of NJP&L, an amount equal to such contribution will promptly thereafter be transferred from capital surplus to the stated capital applicable to its no par value common stock. The amounts to be thus invested by GPU in Aelec and NJP&L include amounts equal to GPU's prior receipts of $321,535.96 and undetermined prospective receipts from the sale (pursuant to prior orders of the Commission as being necessary or appropriate to effectuate the provisions of section 11 (b) of the act) of (1) shares of common stock of South Carolina Electric & Gas Company (a former subsidiary of GPU) received by GPU as a result of the termination of exchanges under the Plan of Reorganization of Associated Gas and Electric Company and Associated Gas and Electric Corporation, predecessors of GPU, and (2) shares of 5 percent preferred stock of South Carolina Electric & Gas Company and shares of common stock of Florida Power Corporation received by GPU as a result of the termination of exchanges under the Plan of Divestment of General Gas & Electric Corporation, a former registered holding company and subsidiary of Associated Gas and Electric Corporation.

GPU has requested that the order of the Commission permitting the declaration to become effective recite, in accordance with the requirements of Supplement R of the Internal Revenue Code, that the investment by GPU in Aelec and in NJP&L of the sums received or to be received from the sale as aforesaid of the shares of preferred and common stock of South Carolina Electric & Gas Company and the shares of common stock of Florida Power Corporation is necessary or appropriate to the integration or simplification of the holding company system of GPU.

GPU has requested that the Commission's order herein issue as early as possible and that such order become effective upon issuance.

Notice is further given that any interested person may not later than February 15, 1954 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after February 15, 1954, said declaration, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[File No. 70-3179]

MIDDLE SOUTH UTILITIES, INC.

NOTICE OF FILING REGARDING RECLASSIFICATION OF COMMON STOCK

FEBRUARY 1, 1954.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), a registered holding company, has filed a declaration, pursuant to the Public Utility Holding Company Act of 1935 ("act") and has designated sections 6 (a) (2) and 7 thereof as being applicable to the proposed transactions which are summarized below:

Middle South proposes that the 12,000,000 shares of its authorized Common Stock without par value, including the outstanding 7,125,000 shares of such stock, be reclassified into 12,000,000 shares of Common Stock having a par value of $10 each, whereby the Capital

Stock account of Middle South will be stated at $71,250,000, and whereby the sum of $56,345,800 will be transferred from Capital Stock to Capital Surplus (Paid-In Surplus). The proposal will be submitted to the Company's stockholders for their approval.

It is stated that no State or Federal Commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than February 12, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said filing which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after February 12, 1954, such declaration, as filed or as amended, may be granted, or permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10889]

W. GORDON ALLEN

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of W. Gordon Allen, Springfield, Oregon, File No. BP-8910, Docket No. 10889; for construction permit.

1. The Commission has under consideration a joint protest filed on January 14, 1954, pursuant to section 309 (c) of the Communications Act of 1934, as amended, by KUGN, Inc., licensee of Station KUGN, Eugene, Oregon; Radio Airway, Inc., licensee of Station KASH, Eugene, Oregon and Lane Broadcasting Company, licensee of Station KORE, Eugene, Oregon, requesting the Commission to reconsider its action of December 17, 1953, granting the above-entitled application for a construction permit which authorized the construction of a new standard broadcast station (KRGA) at Springfield, Oregon; and designate same for hearing to determine whether or not under the provisions of § 3.35 of the Commission's rules and regulations, the public interest, convenience and necessity would be served by a grant of such application.

2. On June 22, 1953, W. Gordon Allen filed an application requesting a construction permit for a new station at Springfield, Oregon, to operate on 1240 kc, 250 w, unlimited time on a site to be determined basis. On November 2, 1953, the application was amended changing frequency to 1050 kc, power to 1 kw and time of operation to daytime only. The application as amended, was granted by the Commission on December 17, 1953, subject to the condition, among others, that a transmitter site be selected which meets with the approval of the Commission. At the present time, the applicant has not applied for a modification of the construction permit specifying a transmitter site; thus, no site has been approved by the Commission.

3. Protestants are the licensees of Station KUGN (590 kc, 1,000 w, unlimited time), KASH (1600 kc, 1,000 w, unlimited time) and KORE (1450 kc, 250 w, unlimited time), all located in Eugene, Oregon. Eugene is three miles west of Springfield. The protestants contend, by way of their joint protest, that the action of the Commission in issuing the grant to W. Gordon Allen was in violation of § 3.35 of the rules and regulations of the Commission regarding multiple ownership of broadcast facilities.

4. Protestants have submitted engineering data in support of their protest and such data shows that a station operating approximately three miles west of Springfield, Oregon, on a frequency of 1050 kc with 1,000 watts of power would provide a 2 mv/m signal over the entire community of Cottage Grove, Oregon. Since W. Gordon Allen owns a 70 percent interest in Station KSGA located in Cottage Grove and also is a grantee of the subject construction permit for Station KRGA in Springfield, Oregon, protestants contend that the operation of Station KRGA in Springfield will provide primary service to Cottage Grove and thus be in conflict with the Commission's rules and regulations regarding multiple ownership. Cottage Grove is 17½ miles south of Springfield and has a population of 3,536.

5. It is clear in this instance that the question of whether the protestants are parties in interest within the meaning of section 309 (c) of the Communications Act is to be decided on the basis of whether or not they will suffer economic injury by the establishment of the station authorized by the Commission. Protestants have alleged that there are four standard broadcast stations in the city of Eugene, Oregon; that additional service is provided to the Eugene-Springfield area by other stations located in nearby communities; that the population of Eugene is 35,879; that of Springfield is 10,807; and that the two cities are approximately three miles apart. In light of such allegations as to protestants' status, the Commission is of the view that there exists sufficient facts to indicate a reasonable possibility of economic injury resulting from the grant in question so as to warrant the finding that protestants are parties in interest. T. E. Allen & Sons, Inc., 9 RR 192; Eugene Television, Inc., 9 RR 601; and Midwest Television, Inc., 9 RR 611.

6. The Commission further finds that the protestants have specified with particularity the facts and matters relied upon as required by section 309 (c) of the Communications Act to warrant the designation of the application herein for hearing on the issue of multiple ownership. In making this finding, the Commission does not determine or imply that the issue, even if the facts with respect thereto are as alleged by protestants, is such that could result in a determination that the grant was improper, contrary to public interest or should be set aside. Accordingly, said issue is not adopted by the Commission.

7. In view of the foregoing: *It is ordered*, That, effective immediately the effective date of the grant of the above-entitled application is postponed pending a final determination by the Commission with respect to the joint protest filed herein pursuant to section 309 (c) of the Communications Act of 1934, as amended, and the above-entitled application is designated for hearing at the offices of the Commission in Washington, D. C., on the 15th day of February 1954 at 10:00 a. m. on the following issue: To determine whether or not under the provisions of § 3.35 of the Commission's rules and regulations, the public interest, convenience and necessity would be served by a grant of such application.

It is further ordered, That KUGN, Inc., licensee of Station KUGN, Eugene, Oregon, Radio Airway, Inc., licensee of Station KASH, Eugene, Oregon, and Lane Broadcasting Company, licensee of Station KORE, Eugene, Oregon, and the Chief of the Broadcast Bureau are made parties to the proceeding herein.

Adopted: January 28, 1954.

Released: February 2, 1954.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] WM. P. MASSING, *Acting Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28871]

CRUDE PUMICE AND VOLCANIC SCORIA, ASH OR SLAG FROM CRATER, COLO., TO IOWA, KANSAS AND NEBRASKA

APPLICATION FOR RELIEF

FEBRUARY 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Pumice, crude or crushed, not ground, and volcanic scoria, ash, or slag, carloads.

From: Crater, Colo.

To: Council Bluffs and Sioux City, Iowa and points in Kansas and Nebraska.

Grounds for relief: Competition with rail carriers, circuitous routes, to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: W. J. Prueter, Agent, ICC No. A-3560, supl. 233.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

ROOFING AND BUILDING MATERIALS BETWEEN POINTS IN SOUTHERN TERRITORY, SOUTHERN TERRITORY AND WASHINGTON, D. C., ST. LOUIS, MO., AND POINTS IN ILLINOIS AND INDIANA

APPLICATION FOR RELIEF

FEBRUARY 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Roofing and building materials and related articles as described in item 150 of Agent C. A. Spaninger's tariff ICC No. 1421, also slate roofing, carloads.

Territory: Between points in southern territory, also between points in southern territory, on the one hand, and Washington, D. C., St. Louis, Mo., and points in Illinois and Indiana, on the other.

Grounds for relief: Competition with rail carriers, circuitous routes, competition with motor carriers, to maintain grouping, operation through higher-rated territory, to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, ICC No. 1421.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

TIN PLATE, TERNE PLATE AND TIN MILL BLACK PLATE FROM FAIRFIELD, ALA., TO NEW ORLEANS AND CHALMETTE, LA.

APPLICATION FOR RELIEF

FEBRUARY 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Tin plate, terne plate and tin mill black plate, in packages or on platforms, carloads.

From: Fairfield, Ala.

To: New Orleans and Chalmette, La.

Grounds for relief: Competition with rail carriers, circuitous routes, competition with water, or water-rail carriers.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, ICC No. 1258, supl. 60.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by

the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

NEW YORK, NEW HAVEN & HARTFORD RAILROAD CO.

MOVEMENT OF HIGHWAY TRAILERS BY RAIL

FEBRUARY 2, 1954.

In the notice of January 6, 1954 (19 F. R. 223), in the above proceeding, interested persons were invited to offer suggestions for formulation of proposed rules respecting the movement of highway trailers by rail. It was stated that Division 3 would receive suggestions filed on or before February 15, 1954.

Upon consideration of representations made by persons desiring to avail themselves of this invitation, but who find it impracticable to submit their views by February 15, it appears advisable to extend this period. Accordingly, the division will receive suggestions for formulation of the proposed rules on or before March 15, 1954.

By the Commission.

CAUSTIC SODA FROM MCINTOSH, ALA., TO CENTRAL AND ILLINOIS TERRITORIES

APPLICATION FOR RELIEF

FEBRUARY 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Caustic soda, liquid, in tank-car loads.

From: McIntosh, Ala.

To: Specified points in central and Illinois territories, including Louisville, Ky., and Cincinnati, Ohio.

Grounds for relief: Competition with rail carriers, circuitous routes, market competition, operation through higher-rated territory.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, ICC No. 1351, supl. 50.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 28876]

GRAIN FROM ST. LOUIS, MO., DISTRICT TO TEXAS GULF PORTS AND LAKE CHARLES, LA.

APPLICATION FOR RELIEF

FEBRUARY 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The St. Louis-San Francisco Railway Company for itself and on behalf of carriers parties to schedule listed below.

Commodities involved: Grain, grain products, and related articles, carloads.

From: East St. Louis, Ill., St. Louis, Mo., and adjacent points in Missouri.

To: Texas gulf ports and Lake Charles, La., for export.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Schedules filed containing proposed rates: St. Louis-San Francisco Railway Company, ICC No. A-532, supl. 3.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 28878]

VARIOUS COMMODITIES FROM ARKANSAS AND TENNESSEE TO CENTRAL AND NEW ENGLAND TERRITORIES

APPLICATION FOR RELIEF

FEBRUARY 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed in exhibit A of the application pursuant to fourth section order No. 17220.

Commodities involved: Aluminum castings also cottonseed hull shavings pulp and related articles, carloads.

From: Specified points in Arkansas and Tennessee.

To: Specified points in central and New England territories.

Grounds for relief: Competition with rail carriers, circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

FEDERAL REGISTER

THE NATIONAL ARCHIVES OF THE UNITED STATES — LITTERA SCRIPTA MANET — 1934

VOLUME 19 NUMBER 26

Washington, Saturday, February 6, 1954

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

Subchapter F—Marine Engineering

[CGFR 54-2]

MATERIALS, CONSTRUCTION, UNFIRED PRESSURE VESSELS, AND PIPING FOR MERCHANT VESSELS

A notice regarding proposed miscellaneous changes in the Marine Engineering Regulations for merchant vessels was published in the FEDERAL REGISTER dated September 9, 1953, 18 F. R. 5433, as items IX, X, and XI on the agenda to be considered by the Merchant Marine Council, and a public hearing was held by the Merchant Marine Council on September 29, 1953, at Washington, D. C. All comments, views, and data submitted were considered and where practicable were incorporated into the regulations.

The amendments to 46 CFR 51.04–1, 51.07–1, 51.13–1, 51.22–1, 51.25–1, 51.34–1, 51.46–1, 51.49–1, 51.58–1, 51.61–1, 51.67–1, 51.70–1, 51.73–1, and 51.76–1 revise and bring up to date the requirements with respect to standard specifications issued by the American Society for Testing Materials. These amendments are based on item IX of the agenda.

The cancellation of 46 CFR 52.01–80, regarding boilers on barges, and 46 CFR 52.20–10 (i), regarding detailed requirements for manhole and handhole openings in externally fired boilers, is because these regulations are no longer necessary. These changes are based on item IX of the agenda.

Table 52.05–10 (a) in 46 CFR 52.05–10 is amended by adding maximum allowable stress values for steel forgings (ASTM designation A182–52aT) and steel castings (ASTM designation A351–52T), and by revising the maximum allowable stresses for certain other ferrous materials. This change is based on item IX of the agenda.

The amendments to 46 CFR 52.05–5 (a), 52.05–12 (g), 52.15–5 (a), 52.20–5 (a), and 52.22–5 (a) clarify the intent of the regulations with respect to the materials to be used in the shells and heads of boilers. These changes are based on item IX of the agenda.

The amendment to 46 CFR 52.35–20 (f) permits stays and staybolts in fire tube boilers to be attached by welding in addition to the methods previously permitted. This change is in substantial agreement with the requirements of the American Society of Mechanical Engineers' boiler code. This amendment is based on item IX of the agenda.

Table 52.55–10 (a2) in 46 CFR 52.55–10 (a) (2) is made applicable to seamless low carbon steel tubes subject to internal pressure where expanded into drums or headers. The values set forth in this table may be used in the computations to determine the maximum allowable pressures for electric-resistance-welded low carbon steel tubes when used as either boiler, waterwall, economizer, or superheater tubes when fully enclosed within the boiler setting. When such tubes are to be used outside the boiler casing the maximum allowable pressures shall not exceed 85 percent of the values set forth in table 52.55–10 (a2). This amendment is based on item IX of the agenda.

The amendments to 46 CFR 54.03–15, 54.03–20, and 54.03–35, regarding the design and construction of unfired pressure vessels, are intended to bring Coast Guard requirements into closer agreement with the standards of the Tubular Exchangers Manufacturers Association and to clarify the intent of the regulations. The amendment to 46 CFR 54.03–35, regarding access and inspection openings, will bring Coast Guard requirements into closer agreement with the requirements of the American Society for Mechanical Engineers. These changes are based on item X of the agenda.

The amendments to 46 CFR 55.07–1 and 55.07–5 revise the requirements regarding seamless alloy steel pipe and will require that alloy steel bent pipe should be heat treated in order to remove locked up stresses as well as to refine the grain structure. The specification references and grade designations have been revised and brought up to date. These changes are based on item XI of the agenda.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective 90 days after the date of publication of this document in the FEDERAL REGISTER:

PART 51—MATERIALS

SUBPART 51.04—MARINE BOILER STEEL PLATE

1. Section 51.04–1 *Scope* is amended by revising the references to A. S. T. M. specification designations (column 1) in table 51.04–1 from "A201–52T" to "A201–52aT"; from "A212–52T" to "A212–52aT"; and from "A204–52T" to "A204–52aT".

SUBPART 51.07—STAYBOLT AND RIVET STEEL

2. Section 51.07–1 *Scope* is amended by revising the reference to A. S. T. M. specification designation (column 1) in table 51.07–1 from "A202–52T" to "A202–52aT".

SUBPART 51.10—STEEL BARS AND SHAPES

3. Section 51.10–1 *Scope* is amended by revising the A. S. T. M. designation from "A107–52T" to "A107–52aT".

SUBPART 51.13—STAYBOLT AND RIVET IRON

4. Section 51.13–1 *Scope* is amended by revising the reference to A. S. T. M. specification designation (column 1) in table 51.13–1 from "A84–39" to "A84–52T".

SUBPART 51.22—FLANGE AND FIRE BOX STEEL PLATE

5. Section 51.22–1 *Scope* is amended by revising the reference to A. S. T. M. specification designation (column 1) in table 51.22–1 from "A285–52T" to "A285–52aT".

SUBPART 51.25—CARBON AND ALLOY-STEEL AND WROUGHT IRON TUBES

6. Section 51.25–1 (a) is amended by revising table 51.25–1 (a) to read as follows:

§ 51.25–1 *Scope.* (a) * * *

TABLE 51.25–1 (a)—MATERIAL SPECIFICATIONS

A. S. T. M. designation	A. S. T. M. grade	Coast Guard grade
Carbon-steel and iron:		
A83–52T	Type A (low-carbon seamless steel).	T83–A.
A178–51T	Type A (low-carbon electric-resistance-welded steel).	T178–A.
A178–51T	Type B (electric-resistance welded iron).	T178–B.
A178–51T	Type C (medium-carbon electric resistance-welded steel).	T178–C.
A179–51T	Low-carbon seamless steel condenser tubes.	T179.
A192–51T	Low-carbon seamless steel.	T192.
A210–52T	Medium-carbon seamless steel.	T210.
A226–51T	Electric-resistance welded steel.	T226.
Alloy-steel:		
A209–51T	T1 (C-Mo)	T1.
A209–51T	T1a (C-Mo)	T1a.
A209–51T	T1b (C-Mo)	T1b.
A213–52T	T3 (1.75 Cr-0.75 Mo)	T3.
A213–52T	T3b (2 Cr-0.50 Mo)	T3b.
A213–52T	T5 (5 Cr-0.50 Mo)	T5.
A213–52T	T11 (1.25 Cr-0.50 Mo)	T11.
A213–52T	T12 (1 Cr-0.50 Mo)	T12.
A213–52T	T21 (3 Cr-1 Mo)	T21.
A213–52T	T22 (2.25 Cr-1 Mo)	T22.
A213–52T	TP321 (18 Cr-8 Ni+Ti)	TP321.
A213–52T	TP347 (18 Cr-8 Ni+Cb)	TP347.

SUBPART 51.34—CARBON AND ALLOY-STEEL, AND WROUGHT IRON PIPE

7. Section 51.34–1 is amended by revising table 51.34–1 to read as follows:

§ 51.34–1 *Scope.* * * *

TABLE 51.34–1—MATERIAL SPECIFICATIONS

A. S. T. M. designation	A. S. T. M. grade	Coast Guard grade
Carbon-steel and iron:		
A53–52T	Lap-welded steel	P53–LW.
A53–52T	Butt-welded steel	P53–BW.
A53–52T	A (seamless steel)	P53–A.
A53–52T	B (seamless steel)	P53–B.
A53–52T	A (electric-resistance-welded steel).	P53–RW–A.
A53–52T	B (electric-resistance-welded steel).	P53–RW–B.
A106–52T	A (seamless steel)	P106–A.
A106–52T	B (seamless steel)	P106–B.
A135–51T	A (electric-resistance-welded steel).	P135–A.
A135–51T	B (electric-resistance-welded steel).	P135–B.
A72–52T	Lap-welded wrought iron.	P72–LW.
A72–52T	Butt-welded wrought iron.	P72–BW.
Alloy-steel:		
A335–52aT [1]	P1 (C-Mo) (A206)	P1.
A335–52aT [1]	P2 (0.50 to 0.70 Cr-0.50 Mo) (A280).	P2 (P280).
A335–52aT [1]	P3 (1.75 Cr-0.70 Mo) (A158).	P3.
A335–52aT [1]	P3b (2 Cr-0.50 Mo) (A158).	P3b.
A335–52aT [1]	P11 (1.25 Cr-0.50 Mo) (A158).	P11.
A335–52aT [1]	P12 (1 Cr-0.50 Mo) (A315).	P12 (P315).
A335–52aT [1]	P21 (3 Cr-0.90 Mo)	P21.
A335–52aT [1]	P22 (2.25 Cr-1 Mo)	P22.
A312–51T [2]	TP321 (18 Cr-8 Ni+Ti) (A158).	TP321.
A312–51T [2]	TP347 (18 Cr-8 Ni+Cb) (A158).	TP347.

[1] This A. S. T. M. specification for seamless ferritic alloy-steel pipe for high temperature service is a combination of, and is intended to replace A. S. T. M. specifications A206–51T, A280–51T, A158–51T, and A315–51T, with the addition of two new grades P21 and P22.

[2] The austenitic grades TP321 and TP347 formerly in A. S. T. M. specification A158 have been incorporated in specification A312.

SUBPART 51.46—STEEL FORGINGS

8. Section 51.46–1 is amended by revising table 51.46–1 to read as follows:

§ 51.46–1 *Scope.* * * *

TABLE 51.46–1—MATERIAL SPECIFICATIONS

A. S. T. M. designation	A. S. T. M. grade	Coast Guard grade
Carbon-steel:		
A105–48	I	F105–I.
A105–48	II	F105–II.
A181–49	I	F181–I
A181–49	II	F181–II.
Alloy-steel:		
182–52aT	F1 (C-Mo)	F1.
182–52aT	F5 (5 Cr-0.50 Mo)	F5.
182–52aT	F11 (1.25 Cr-0.50 Mo)	F11.
182–52aT	F12 (1 Cr-0.50 Mo)	F12
182–52aT	F22 (2.25 Cr-1 Mo)	F22
182–52aT	F316 (18 Cr-8 Ni+Mo)	F316.
182–52aT	F321 (18 Cr-8 Ni+Ti)	F321.
182–52aT	F347 (18 Cr-8 Ni+Cb)	F347.

SUBPART 51.49—CARBON AND ALLOY-STEEL BOLTING AND NUT MATERIAL

9. Section 51.49–1 is amended by revising table 51.49–1 to read as follows:

§ 51.49–1 *Scope.* * * *

TABLE 51.49–1—MATERIAL SPECIFICATIONS

A. S. T. M. designation	A. S. T. M. grade	Coast Guard grade
Carbon-steel bolting:		
A307–52T	BQ	BQ.
A307–52T	B	B.
Alloy-steel bolting:		
A193–52T	B5 (5 Cr-0.50 Mo)	B5.
A193–52T	B6 (12 Cr)	B6.
A193–52T	B7 (1 Cr-0.20 Mo)	B7.
A193–52T	B7a (1 Cr-0.60 Mo)	B7a.
A193–52T	B14 (1 Cr-0.35 Mo-0.25 Va)	B14.
A193–52T	B16 (1 Cr-0.55 Mo-0.30 Va)	B16.
A193–52T	B8c (18 Cr-8 Ni+Cb)	B8c.
A193–52T	B8t (18 Cr-8 Ni+Ti)	B8t.
A193–52T	B8F (18 Cr-8 Ni)	B8F.
Carbon and alloy-steel nuts:		
A194–51	1 (carbon-steel)	1.
A194–51	2 (carbon-steel)	2.
A194–51	2H (carbon-steel)	2H.
A194–51	3 (5 Cr-0.50 Mo-1W)	4.
A194–51	4 (0.15 Si-0.20 Mo)	4.

SUBPART 51.58—STEEL CASTINGS

10. Section 51.58–1 (a) is amended by revising table 51.58–1 to read as follows:

§ 51.58–1 *Scope.* (a) * * *

TABLE 51.58–1—MATERIAL SPECIFICATIONS

A. S. T. M. designation	A. S. T. M. grade	Coast Guard grade
Carbon-steel:		
A95–44		A.
A216–47T	WCA	WCA.
A216–47T	WCB	WCB.
Alloy-steel:		
A217–49T	WC1 (C-Mo)	WC1.
A217–49T	WC4 (1 Ni-0.65 Cr-0.50 Mo)	WC4.
A217–49T	WC5 (0.80 Ni-0.70 Cr-1 Mo)	WC5.
A217–49T	WC6 (1.25 Cr-0.50 Mo)	WC6.
A217–49T	WC9 (2.25 Cr-1 Mo)	WC9.
A217–49T	C5 (5 Cr-0.50 Mo)	C5.
A217–49T	C12 (9 Cr-1 Mo)	C12
A351–52T	CF8C (18 Cr-8 Ni)	CF8C.

SUBPART 51.61—MALLEABLE IRON AND GRAY IRON CASTINGS

11. Section 51.61–1 *Scope* is amended by revising the reference to A. S. T. M. specification designation (column 1) in table 51.61–1 from "A47–48" to "A47–52".

SUBPART 51.67—COPPER AND COPPER-ALLOY PLATE

12. Section 51.67–1 *Scope* is amended by revising the reference to A. S. T. M. specification designation (column 1) for copper-alloy in table 51.67–1 from "B171–51" to "B171–52".

SUBPART 51.70—SEAMLESS COPPER AND COPPER-ALLOY PIPE

13. Section 51.70–1 *Scope* is amended by revising references to A. S. T. M. specification designation (column 1) in table 51.70–1 from "B42–51" to "B42–52", and from "B43–51" to "B43–52".

SUBPART 51.73—SEAMLESS COPPER AND COPPER-ALLOY TUBES

14. Section 51.73–1 *Scope* is amended by revising certain references to A. S. T. M. specification designations (column 1) in table 51.73–1 from "B75–51T" to "B75–52" and from "B111–51" to "B111–52".

SUBPART 51.76—COPPER-ALLOY CASTINGS

15. Section 51.76–1 *Scope* is amended by revising references to A. S. T. M. specification designations (column 1) in table 51.76–1 from "B62–51" to "B62–52"; from "B61–51" to "B61–52"; and from "B143–49" to "B143–52".

SUBPART 51.79—ALUMINUM-ALLOY PLATE

16. Section 51.79–1 *Scope* is amended by revising reference to A. S. T. M. specification designation (column 1) in table 51.79–1 from "B178–51T" to "B178–52T".

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426–4431, 4433, 4434, 4453, 4491, as amended, sec. 14, 29 Stat. 690, 41 Stat. 305, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. PART 52—CONSTRUCTION

SUBPART 52.01—PROCEDURE AND GENERAL REQUIREMENTS

1. Section 52.01–80 *Boilers on barges* is canceled.

SUBPART 52.05—CYLINDRICAL SHELLS

2. Section 52.05–5 (a) is amended to read as follows:

§ 52.05–5 *Materials.* (a) Plates shall be of marine boiler steel complying with subpart 51.04 of this subchapter, except that boilers designed for pressures not exceeding 150 pounds per square inch may be constructed of steel plate meeting the specifications of subpart 51.22 of this subchapter, and which are tested, inspected, and stamped in conformance with the requirements for class A materials.

3. Section 52.05–10 (a) is amended by revising table 52.05–10 (a) to read as follows:

§ 52.05–10 *Computations.* (a) • • •

TABLE 52.05–10 (a)—MAXIMUM ALLOWABLE STRESSES[1] FOR FERROUS MATERIALS

[1] In general, the allowable *S* values in table 52.05–10 (a), except for welded pipe and tubing, and bolting, are based on one-fourth of the minimum of the specified tensile range of the material for temperatures of 650° and below; and on creep stress or stress-rupture for temperatures above 650° F.

[2] Intermediate values of *S* may be obtained by interpolation.

[3] Carbon-molybdenum alloy-steel plate, pipe, forging, and cast material shall be limited to a maximum temperature of 875° F.

[4] The minimum tensile strength employed not given in the specification; tensile strength value assumed.

[5] Permitted only for use as tube material in heat exchangers.

[6] This material shall be limited to a temperature of 875° F. when used in the design of pressure vessels.

[7] Maximum allowable stress values for temperatures below 700° F. are as follows:

A. S. T. M. designation	Grade	For metal temperatures not exceeding °F.: −20 to 400	500	600	650
A213	T5	15,000	14,500	14,000	13,700
A182	F12	17,500	17,500	17,500	16,900
A182	F5	22,500	21,600	20,100	19,400

[8] These stresses include weld joint efficiency of 0.85.

[9] These stress values are limited in use to boiler, waterwall, economizer and superheater tubes that are fully enclosed within the boiler setting, and to heat exchanger tubes. When material conforming to this specification is used for pipe outside the boiler casing, or when used for shells of pressure vessels, the stress values shall be multiplied by a weld joint efficiency of 0.85.

[1] In general, the allowable *S* values in table 52.05–10 (a), except for welded pipe and tubing, and bolting, are based on one-fourth of the minimum of the specified tensile range of the material for temperatures of 650° and below; and on creep stress or stress-rupture for temperatures above 650° F.

[2] Carbon-molybdenum alloy-steel plate, pipe, forging, and cast material shall be limited to a maximum temperature of 875° F.

[10] Between temperatures of −20° to 400° F., stress values equal to the lower of the following will be permitted: 20 percent of the minimum tensile strength or 25 percent of the minimum yield strength.

[11] This stress not permitted for temperatures exceeding 450° F.

[12] To these stresses a quality factor as specified in § 52.05–13 shall be applied.

[13] These stresses apply to the normalized material only.

4. Section 52.05–12 (g) (1) (iv) is corrected to read as follows:

§ 52.05–12 *Maximum allowable stress.* • • •

(g) (1) • • •

(iv) Hemispherical or ellipsoidal heads with flanged-in or other unreinforced manholes.

SUBPART 52.15—DOMES AND STEAM CHIMNEYS

5. Section 52.15–5 (a) is amended to read as follows:

§ 52.15–5 *Materials and workmanship.* (a) Steel plates used in the construction of domes and steam chimneys shall conform to the specifications and requirements for the shell plates.

SUBPART 52.20—DISHED HEADS

6. Section 52.20–5 (a) with note is amended to read as follows:

§ 52.20–5 *Materials and workmanship.* (a) Steel plate used in the fabrication of dished heads shall conform to the specifications and requirements for the shell plates. Welding caps, conforming to the requirements of subpart 51.34 of this subchapter, may be used as end closures in water drums and headers, provided the diameter does not exceed 24 inches. Flanged or dished heads if pressed or flanged cold shall be stress-relieved as required by § 56.01–70 of this subchapter after the cold forming operations are completed. Heads that are flanged or dished hot need not be stress-relieved.

NOTE: It is not mandatory in fresh and salt water service systems that flanged or dished heads be stress-relieved for use on compression tanks with an air cushion containing liquids operating at temperatures not exceeding 212° F.

SUBPART 52.22—FLAT HEADS

7. Section 52.22–5 (a) is amended to read as follows:

§ 52.22–5 *Materials and workmanship.* (a) Steel plate used in the fabrication of flat heads shall conform to the specifications and requirements for the shell plates, except that small end closures in headers may be made of material complying with subpart 51.22 of this subchapter.

SUBPART 52.24—ACCESS AND INSPECTION OPENINGS

8. Section 52.24–10 *Detail requirements* is amended by canceling paragraph (i).

SUBPART 52.35—STAYS AND REINFORCEMENTS

9. Section 52.35–20 (f) is amended to read as follows:

§ 52.35–20 *Detail requirements.* • • •

(f) Arc welding may be used in lieu of threading or riveting for the attachment of stays or staybolts to plates in conformance with the following requirements:

(1) The stays or staybolts shall be inserted into holes through the plate, except as provided for in subparagraph (5) of this paragraph, and the area of the weld in shear measured parallel to that portion of the stay extending through the plate shall be not less than 1.25 times the required cross-sectional area of the stay, but in no case shall the leg of the weld be less than ⅜ inch.

(2) The face of the weld shall not terminate below the outside surface of the plate.

(3) The ends of the stays or staybolts inserted through the plate shall not project more than ⅜ inch beyond surfaces exposed to the products of combustion.

(4) When flat heads are supported by diagonal stays protruding through the shell, the cross-sectional area of the portion of the stay extending through the shell shall not be less than 1.25 times the required cross-sectional area of the stay.

(5) Diagonal stays may be attached to the inner surface of the shell, but not the head, by fillet welds only, provided:

(i) The leg of the welds is not less than ⅜ inch;

(ii) The cross-sectional area of the portion of the stay welded to the shell and also the cross-sectional area of the fillet welds parallel to the axis of the shell, measured at the throat, are not less than 1.25 times the cross-sectional area of the stay;

(iii) The fillet welds shall be continuous around the full length of the sides and ends of the stay; and,

(iv) The palm end of the stay shall be hot formed to the radius of curvature of the shell.

(6) If the stay or staybolt is not normal to the plate, the point where the projection of the longitudinal center line of the stay or staybolt intersects the inner surface of the plate shall fall within the outer boundaries of the weld (projected if necessary).

(7) Welded collars may be used in lieu of nuts around the end of screw staybolts, provided the depth of the collar, measured on the staybolt, and the width, measured on the plate, are not less than one-half the diameter of the staybolt.

(8) The welding, except where welded collars are used, shall be stress-relieved in accordance with § 56.01–70 of this subchapter.

(9) Tell-tale holes are not required in stays or staybolts attached by welding, except where screw staybolts are used.

SUBPART 52.55—BOILER AND SUPERHEATER TUBES

10. Section 52.55–10 (a) (2) is revised by changing the footnotes 1 and 2, and by adding a footnote 3 to table 52.55–10 (a2) (but no change made in the text of the table), to read as follows:

§ 52.55–10 *Computations.* (a) * * * (2) * * *

TABLE 52.55-10 (a2)—MAXIMUM ALLOWABLE PRESSURES FOR SEAMLESS AND ELECTRIC-RESISTANCE WELDED LOW CARBON STEEL TUBES SUBJECT TO INTERNAL PRESSURE WHERE EXPANDED INTO DRUMS OR HEADERS [1] [3]

[1] These values have been calculated by Formula (1) in § 52.55–10 (a) using allowable stress values at 700° F. for Grades T83–A, T193, and T178–A tubing.

[2] Where calculated allowable pressures exceed an even unit of 10 by more than 1, the next higher unit of 10 is given in the table.

[3] The maximum allowable pressures for electric-resistance-welded low carbon steel tubes shall be limited to boiler, waterwall, economizer, and superheater tubes that are fully enclosed within the boiler setting. For electric-resistance-welded tubing outside the boiler casing, the maximum allowable pressures shall not exceed 85 percent of the values listed in the table.

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426–4431, 4433, 4434, 4453, 4491, as amended, sec. 14, 29 Stat. 690, 41 Stat. 305, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391a, 392, 399, 401–409, 411, 412, 435, 489, 366, 363, 367, 526p, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 54—UNFIRED PRESSURE VESSELS

SUBPART 54.03—DESIGN AND CONSTRUCTION

1. Section 54.03–15 is amended to read as follows:

§ 54.03–15 *Tube sheets.* (a) The maximum allowable pressure and the minimum thickness of tube sheets shall be calculated by the following formulas:

(1) Stationary or floating tube sheets of monoplate construction clamped between opposing contacts within the bolt circle and freely supported at edge with straight tubes attached by expanding.

$$P=\frac{ST^2}{0.25D^2} \quad (1)$$

$$T=D\sqrt{\frac{0.25P}{S}} \quad (2)$$

(2) Fixed or integral channel-tube sheets firmly secured all around edge, with straight tubes attached by expanding.

$$P=\frac{ST^2}{0.16D^2} \quad (3)$$

$$T=D\sqrt{\frac{0.16P}{S}} \quad (4)$$

(3) Bolted tube sheet having gaskets inside bolt circle, where the setting of the bolts tends to dish the tube sheet, with straight tubes attached by expanding.

$$P=\frac{ST^2}{D^2\left[0.30+\frac{1.4\,Whg}{HD}\right]} \quad (5)$$

$$T=D\sqrt{\frac{P\left[0.30+\frac{1.4\,Whg}{HD}\right]}{S}} \quad (6)$$

(4) Floating tube sheets which are of noncircular design with straight tubes attached by expanding.

$$P=\frac{ST^2}{0.50D^2} \quad (7)$$

$$T=D\sqrt{\frac{0.50P}{S}} \quad (8)$$

where:

P = maximum allowable pressure, in pounds per square inch.

S = maximum allowable stress, 80 percent of the values as given in tables 52.05–10 (a) or 54.03–10 (c), in pounds per square inch.

T = minimum thickness of unreinforced tube sheet, measured at bottom of partition groove, in inches.

D = mean gasket diameter for flanged attachment; inside diameter of shell when bolted attachment is not employed; or shortest span for noncircular tube sheets measured to center line of gasket if bolted construction is employed; or to point of support if welded construction is employed; in inches.

W = flange design bolt load, in pounds. (See § 54.03–25 (c).)

hg = radial distance from the bolt-circle diameter to the diameter D, in inches.

H = total hydrostatic end force on area bounded by the mean diameter of the gasket or joint contact surface, in pounds.

(b) The minimum thickness of a tube sheet in which tubes are attached by expanding shall be not less than the outside diameter of the tubes.

(c) Tube sheet of a thickness less than that required by paragraph (a) may be considered by the Commandant where stiffened by ribs secured to the tube sheet by continuous penetration or double fillet welds. Such stiffeners will not be considered effective for a distance exceeding 30 plate thicknesses in calculating the section modulus.

(d) Where tubes are welded or brazed to a tube sheet and no expansion joint is employed in the shell construction, consideration may be given by the Commandant to the use of a tube sheet of lesser thickness than required by the formulas in this section, provided the tube pitch is adequate for welding or brazing.

(e) U-tube tube sheets shall have a thickness of at least 1.25 times the thickness required for tube sheets with straight tubes.

(f) The pitch of tubes attached to tube sheets by expanding shall be not less than that given in table 54.03–15 (f).

(g) Some types of arc- or gas-welded tube sheet attachments which are acceptable are illustrated in figure 54.03–15 (g).

TABLE 54.03–15 (f)—MINIMUM PITCH OF TUBES

Outside diameter of tube (in inches):	Pitch of tube (in inches)
½ and below	⅝
⅝	1 5/16
¾	1 5/16
1	1¼
1¼	1 5/16
1½	1⅜

2. Section 54.03–20 (a) is amended by revising the description of the value "S" used in formulas (1) and (2) to read as follows:

§ 54.03–20 *Heat exchanger tubes.* (a) * * *

where:

* * * * *

S = maximum allowable stress, in pounds per square inch, as given in table 52.05–10 (a) or table 54.03–10 (c), at not less than the maximum expected mean wall temperature. The mean wall temperature is defined as the sum of the outside and inside surface temperatures divided by 2 where the temperature of the heating medium is considered to be for saturated steam at the design conditions and the temperature of the liquid or vapor being heated is the maximum temperature of the fluid at the hot terminal.

3. Section 54.03–35 is amended by revising paragraphs (c) and (d) to read as follows:

§ 54.03–35 *Access and inspection openings.* * * *

(c) (1) Vessels not exceeding 12 inches in inside diameter are not required to have inspection openings.

(2) Vessels over 12 inches but not exceeding 16 inches in inside diameter need not be provided with inspection openings if the vessels are fitted with two pipe connections of at least 1½ inches in pipe size which can be disconnected for inspection.

(d) All unfired pressure vessels which require access or inspection openings shall be equipped as follows:

(1) Vessels over 12 inches but less than 18 inches in inside diameter shall have at least two plugged, threaded inspection openings of not less than 1½ inches pipe size.

(2) Vessels 18 to 36 inches, inclusive, in inside diameter shall have at least two threaded pipe plug inspection openings

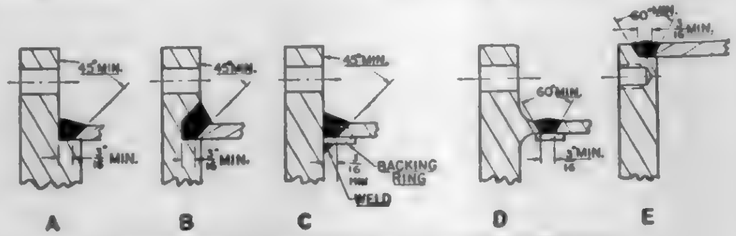

FIGURE 54.03–15 (g)—Acceptable types of tube sheet attachments.

of not less than 2 inches pipe size, or two handholes, or one manhole.

(3) Vessels over 36 inches in diameter shall have a manhole, except those whose shape or use make it impracticable, in which case they shall have at least two 4 x 6 inch handholes or two handholes of equivalent area.

(4) When handholes or plugged openings are used for inspection openings in place of a manhole, where permitted, one handhole or one plugged opening shall be placed in each head or in the shell near each head.

(5) Removable heads or cover plates may be used in place of the required openings provided they are equal at least to the required size of the required inspection openings.

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426–4431, 4433, 4434, 4453, 4491, as amended, sec. 14, 29 Stat. 690, 41 Stat. 305, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391a, 392, 399, 401–409, 411, 412, 435, 489, 366, 363, 367, 526p, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 55—PIPING SYSTEMS, PUMPS, REFRIGERATION MACHINERY, AND FUEL TANKS

SUBPART 55.07—DETAIL REQUIREMENTS

1. Section 55.07–1 *Material* is revised by changing the grade designation (column 3) for seamless-alloy steel pipe in table 55.07–1 (b) from "P3a, P3b" to "P3, P3b".

2. Section 55.07–5 *Design pressures and thickness of pipes* is amended by changing the A. S. T. M. and CG grade designation (columns 3 and 4) for seamless alloy steel in table 55.07–5 (a) from "P3a'" to "P3".

3. Section 55.07–5 is also amended by adding a new paragraph (g), reading as follows:

§ 55.07–5 *Design pressures and thickness of pipes.* * * *

(g) Sections of ferritic alloy steel piping shall be furnished in the full-annealed or normalized and drawn condition prior to installation. If the material is subject to hot bending or hot forming operations, the piping shall be re-normalized before welding. Following the normalizing treatment, piping over 2½ inches shall be re-drawn either before welding or after welding when a combined stress relief and drawn treatment may be performed simultaneously in the furnace. Material which is bent cold need not be re-normalized. The heat treatment of austenitic alloy steel piping subject to hot bending or other hot forming operations will receive special consideration by the Commandant. All scale shall be removed from normalized pipe prior to installation.

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426–4431, 4433, 4434, 4453, 4491, as amended, sec. 14, 29 Stat. 690, 41 Stat. 305, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391a, 392, 399, 401–409, 411, 412, 435, 489, 366, 363, 367, 526p, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

Dated: February 2, 1954.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard, Commandant.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 16, Amdt. 1]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

Findings. (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of navel oranges grown in Arizona and designated part of California.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 914.316 (Navel Orange Reg. 16, 19 F. R. 527) are amended to read as follows:

(ii) District 2, 231,000 boxes.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 3d day of February 1954.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54–865; Filed, Feb. 5, 1954; 8:50 a. m.]

[Navel Orange Reg. 17]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.317 *Navel Orange Regulation 17*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on February 4, 1954, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., February 7, 1954, and ending at 12:01 a. m., P. s. t., February 14, 1954, is hereby fixed as follows:

(i) District 1: 231,000 boxes;

(ii) District 2: 254,100 boxes;

(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(4) As used in this section "handled," "handler," "boxes," "prorate base," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D C., this 5th day of February 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Reg. 523]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.630 *Lemon Regulation 523*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on February 3, 1954, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., February 7, 1954, and ending at 12:01 a. m., P. s. t., February 14, 1954, is hereby fixed as follows:

(i) District 1: 35 carloads;
(ii) District 2: 190 carloads;
(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 4th day of February 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS UNDER THE SECURITIES EXCHANGE ACT OF 1934

APPLICATIONS AND REPORTS; DEFINITIONS

In connection with the adoption of revised Forms 8-K and 10-K (17 CFR 249.308 and 249.310), the rescission of Forms 12-K and 12A-K (17 CFR 249.312 and 249.312a), § 240.12b-2 (Rule X-12B-2), containing definitions of terms used in the rules and regulations, has been amended as follows:

1. The definition of the terms "previously filed" and "previously reported" is amended to read as follows:

§ 240.12b-2 *Definitions.* * * *

(m) *Previously filed or reported.* The terms "previously filed" and "previously reported" mean previously filed with, or reported in, an application under section

12, a report under section 13 or 15 (d), a definitive proxy statement under section 14 of the act, or a registration statement under the Securities Act of 1933: *Provided*, That information contained in a report under section 15 (d) of the act or in a registration statement under the Securities Act of 1933 shall be deemed to have been previously filed with, or reported to, an exchange only if such report or registration statement is filed with such exchange.

2. The following new definitions are added at the end of the rule:

(v) *Voting securities.* The term "voting securities" means securities the holders of which are presently entitled to vote for the election of directors.

(w) *Wholly-owned subsidiary.* The term "wholly-owned subsidiary" means a subsidiary substantially all of whose outstanding voting securities are owned by its parent and/or the parent's other wholly-owned subsidiaries.

The foregoing action is taken pursuant to the Securities Exchange Act of 1934, particularly sections 12, 13, 15 (d) and 23 (a) thereof. Such action shall become effective immediately upon publication January 28, 1954: *Provided*, That any report filed with the Commission prior to March 4, 1954 may at the option of the registrant be filed on the forms as in effect immediately prior to such effective date.

(Sec. 23, 48 Stat. 901, as amended; 15 U. S. C. 78w. Interprets or applies secs. 12, 13, 15, 48 Stat. 892, 894, 895; 15 U. S. C. 781, 78m, 78o)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JANUARY 28, 1954.

[F. R. Doc. 54-847; Filed, Feb. 5, 1954; 8:45 a. m.]

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

FORMS FOR ANNUAL AND OTHER REPORTS OF ISSUERS HAVING SECURITIES REGISTERED ON NATIONAL SECURITIES EXCHANGES

On November 12, 1953, the Securities and Exchange Commission published for comments and suggestions proposed revisions of Forms 8-K[1] and 10-K[1] (17 CFR 249.308 and 249.310). These forms are used for current reports and annual reports, respectively, pursuant to sections 13 and 15 (d) of the Securities Exchange Act of 1934. After considering all of the comments and suggestions received, the Commission has determined that the proposed revisions should be adopted, with certain modifications.

The revision of Form 8-K eliminates certain items calling for information which the Commission feels need not be the subject of a current report. In addition, the requirements with respect to exhibits are restricted to matters of special importance and the requirements with respect to financial statements have been clarified.

[1] Filed as part of the original document.

One of the principal changes effected in the revision of Form 10-K was to conform its requirements with the corresponding requirements of Schedule 14A of the Commission's proxy rules and to provide that, if an appropriate proxy statement has been filed under those rules, items 4 through 9 of the Form 10-K may be omitted. No refiling or incorporation by reference of the proxy statement for this purpose is required. In addition, financial statements contained in such proxy statements or in annual reports to security holders may be incorporated by reference where such statements substantially meet the requirements of Form 10-K. The Commission has clarified the provision which permits companies filing reports with the Federal Power Commission to substitute their reports to that Commission in large part in satisfaction of the requirements of Form 10-K.

A new general instruction has been added to Form 10-K to make the form available for use by railroads, motor carriers and communication companies which formerly used Forms 12-K or 12A-K (17 CFR 249.312 or 249.312a), on substantially the same basis, i. e., use of annual reports to the Interstate Commerce Commission or the Federal Communications Commission and of annual reports to stockholders to satisfy substantially all requirements of the form. The Commission believes use of the new Form 10-K should make the annual reporting requirements of such companies more comparable with those of other issuers than they have been in the past. In addition the annual reporting requirements of Form 10-K have been closely correlated with the monthly reporting requirements of Form 8-K, so that use of Form 10-K instead of Form 12-K or 12A-K, should present a more consistent and understandable over-all reporting pattern. Under the circumstances, rescission of Forms 12-K and 12A-K will result in simplification and standardization of reporting requirements and will avoid the present duplication of certain information in current and annual reports. The Commission has therefore rescinded Forms 12-K and 12A-K (17 CFR 249.312 and 249.312a) finding that notice and public procedure thereon are unnecessary.

The foregoing action is taken pursuant to the Securities Exchange Act of 1934, particularly sections 12, 13, 15 (d) and 23 (a) thereof. Such action shall become effective immediately upon publication January 28, 1954: *Provided*, That any report filed with the Commission prior to March 4, 1954 may at the option of the registrant be filed on the forms as in effect immediately prior to such effective date.

(Sec. 23, 48 Stat. 901, as amended; 15 U. S. C. 78w. Interprets or applies secs. 12, 13, 15, 48 Stat. 892, 894, 895; 15 U. S. C. 781, 78m, 78o)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JANUARY 28, 1954.

[F. R. Doc. 54-848; Filed, Feb. 5, 1954; 8:46 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

PART 182—INDUSTRIAL ALCOHOL

REQUIREMENTS FOR ALTERNATE OPERATION OF INDUSTRIAL ALCOHOL PLANT AS REGISTERED DISTILLERY OR FRUIT DISTILLERY

Correction

In Federal Register Document 53-9541, appearing at page 7172 of the issue for Wednesday, November 11, 1953, § 182.279 should be designated § 182.279e.

[T. D. 6062; Regs. 11, 15, Amdt.]

PART 189—BOTTLING OF TAX-PAID DISTILLED SPIRITS

PART 190—RECTIFICATION OF SPIRITS AND WINES

ADDITIONAL MARKS

In order to permit bottlers of taxpaid spirits and wines to affix bottle labels, or other concise data, descriptive of the contents of the cases, including indications of payment of State taxes, or symbols in lieu thereof, on the Government side of cases, provided such additional information does not conflict with, or detract from, the prescribed marks on cases, the following amendments to regulations are hereby adopted:

PARAGRAPH 1. Regulations 11 (26 CFR Part 189) is amended by inserting immediately following § 189.270 the following new section:

§ 189.270a *Additional marks.* The Assistant Regional Commissioner may, upon written application from the proprietor, authorize the affixing of bottle labels or other concise data, or symbols in lieu thereof, to the Government side of cases, to describe, for commercial identification purposes, the contents of the cases and to show the payment of State taxes thereon: *Provided*, That such additional information is set apart from and does not in any way detract from, conflict with, or obscure, any of the markings required by this part.

PAR. 2. Regulations 15 (26 CFR Part 190) is amended by substituting a colon for the period at the end of § 190.805 and adding the following: "*Provided*, That the Assistant Regional Commissioner may, upon written application from the proprietor, authorize the affixing of bottle labels or other concise data, or symbols in lieu thereof, to the Government side of cases, to describe, for commercial identification purposes, the contents of the cases and to show the payment of State taxes thereon: *Provided further*, That such additional information is set apart from and does not in any way detract from, conflict with, or obscure, any of the markings required by this part."

(R. S. 161, 68 Stat. 375; 5 U. S. C. 22, 26 U. S. C. 3176)

Because the changes made are of a liberalizing character, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitations of section 4 (c) of said act.

This Treasury decision shall be effective upon the date of publication in the FEDERAL REGISTER.

[SEAL] T. COLEMAN ANDREWS, *Commissioner of Internal Revenue.*

Approved: February 3, 1954.

M. B. FOLSOM, *Acting Secretary of the Treasury.*

[F. R. Doc. 54-864; Filed, Feb. 5, 1954; 8:49 a. m.]

[T. D. 6063; Regs. 21]

PART 191—IMPORTATION OF DISTILLED SPIRITS, WINES, AND FERMENTED LIQUORS

RECORD AND REPORT, FORM 52E

In order to exempt wholesale liquor dealers who import or purchase distilled spirits in customs bond, for exportation, or who acquire distilled spirits in a foreign country for direct shipment to a foreign customer, from the requirements of keeping Form 52E or Record 52, Regulations 21 (26 CFR Part 191) are hereby amended as follows:

PARAGRAPH 1. Section 191.139 is amended by adding a new sentence at the end thereof to read as follows: "Wholesale liquor dealers who import or purchase in customs bond distilled spirits for exportation, or who acquire distilled spirits in a foreign country for direct shipment to a foreign customer, are not required to keep Form 52E or Record 52 and need not submit transcripts or monthly summaries thereof as to such operations."

(53 Stat. 375, 467; 26 U. S. C. 3176, 3791)

Because the amendment made by this Treasury decision is of a liberalizing character, it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitations of section 4 (c) of said act.

This Treasury decision shall be effective on the date of its publication in the FEDERAL REGISTER.

(53 Stat. 375, 467; 26 U. S. C. 3176, 3791)

[SEAL] T. COLEMAN ANDREWS, *Commissioner of Internal Revenue.*
D. B. STRUBINGER, *Acting Commissioner of Customs.*

Approved: February 3, 1954.

M. B. FOLSOM, *Acting Secretary of the Treasury.*

[F. R. Doc. 54-863; Filed, Feb. 5, 1954; 8:49 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter XVI—Selective Service System

[Amdt. 53]

PART 1621—PREPARATION FOR CLASSIFICATION

PREPARING COVER SHEETS

Section 1621.8 of the Selective Service regulations is amended to read as follows:

§ 1621.8 *Preparation of Cover Sheets (SSS Form No. 101).* Before mailing a Classification Questionnaire (SSS Form No. 100) to a registrant the local board shall open an individual file for him by preparing a Cover Sheet (SSS Form No. 101) on which shall be entered the date of mailing of the Classification Questionnaire (SSS Form No. 100). These Cover Sheets (SSS Form No. 101) shall be maintained in a file in the local board, and shall be filed either by classification of the registrants and within each classification in the order of the dates of birth of the registrants or in the manner prescribed by the State Director of Selective Service. Every paper pertaining to the registrant, except his Registration Card (SSS Form No. 1) and such other papers and documents as may be designated by the Director of Selective Service shall be filed in his Cover Sheet (SSS Form No. 101) until authorization to remove it has been received from the Director of Selective Service.

(Sec. 10, 62 Stat. 618, as amended; 50 U. S. C. App. 460; E. O. 9979, July 20, 1948, 13 F. R. 4177; 3 CFR 1948 Supp.)

The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

[SEAL] LEWIS B. HERSHEY, *Director of Selective Service.*

FEBRUARY 2, 1954.

[F. R. Doc. 54-856; Filed, Feb. 5, 1954; 8:47 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 204—DANGER ZONE REGULATIONS

ATLANTIC OCEAN OFF DELAWARE COAST

Pursuant to the provisions of Chapter XIX of the Army Appropriations Act of July 9, 1918 (40 Stat. 892; 33 U. S. C. 3), § 204.25 (b), is hereby amended as follows to prescribe the periods of use of Army antiaircraft artillery firing areas in the Atlantic Ocean off the Delaware coast beginning with 1954, effective on and after publication of this amendment in the FEDERAL REGISTER due to the urgent necessity for commencing operations in 1954 at the earliest possible time, as follows:

§ 204.25 *Atlantic Ocean off Delaware coast; antiaircraft artillery firing areas, Second Army.* * * *

(b) *The regulations.* (1) All firing during the months November to April, inclusive, will be conducted between 8:00 a. m. and 6:30 p. m., e. s. t. All firing during the months May to October, inclusive, will be conducted between 12:00 m. and 6:00 p. m., e. s. t. Such firings as are conducted prior to 12:00 m. during this latter period will be occasional individual rounds fired at fixed points for testing purposes in accordance with established Department of the Army Safety Regulations, and will involve no restrictions on navigation. No firing will be conducted during hours of darkness.

(2) Firing in the various areas will take place on certain days other than Saturdays, Sundays, and national holidays, as listed in public notices to be issued about January 1 of each year by the District Engineer, Corps of Engineers, Philadelphia, Pennsylvania.

NOTE: Firing in the various areas is scheduled to take place on the following days in 1954 (all dates inclusive):

February 1 to 5, 8 to 12, 15 to 19, 23 to 26.
March 1 to 5, 8 to 12, 15 to 19, 22 to 26, 29 to 31.
April 1, 2, 5 to 9, 12 to 16, 19 to 23, 26 to 30
May 3 to 7, 10 to 14, 17 to 21, 24 to 28.
July 1, 2, 6 to 9, 12 to 16, 19 to 23, 26 to 30.
August 2 to 6, 9 to 13, 16 to 20, 23 to 27, 30, 31.
October 1, 4 to 8, 11 to 15, 18 to 22, 25 to 29
November 1 to 5, 8 to 10, 12, 15 to 19, 22 to 24, 26, 29, 30.
December 1 to 3, 6 to 10, 13 to 17 and 20 to 24.

(3) When it is determined that no firing will take place on any of the days for which firing is scheduled, the public will be so advised by radio and other practicable means as far in advance as possible.

(4) Except as provided in subparagraph (6) of this paragraph, no vessel shall enter or remain in the danger zones during the time of firing unless specific permission is granted in each case by one of the representatives of the enforcing agency policing the area in patrol boats.

(5) Prior to the conducting of each firing practice, the danger zones will be adequately patrolled to insure that no watercraft are within the danger zones and to warn any watercraft in a danger zone that firing practice is to take place. Any such watercraft shall, upon being so warned, immediately leave the area designated and shall remain outside the area until the conclusion of the firing practice.

(6) The regulations in this section shall not deny traverse of portions of the danger zones by regular cargo-carrying vessels, or commercial fishing vessels based at Lewes, Delaware. In case of the presence of any such vessel in a danger zone, the officer in charge of firing operations will cause the cessation or postponement of fire until the vessel has cleared the area. The vessel shall proceed on its normal course and shall not delay its progress.

(7) This section shall be enforced by the Commanding General, Second Army, Fort George G. Meade, Maryland, and such agencies as he may designate.

[Regs., Jan. 29, 1954, 800.2121 (Atlantic Ocean, Del.)-ENGWO] (40 Stat. 892; 33 U. S. C. 3)

PROPOSED RULE MAKING

FEDERAL POWER COMMISSION

[18 CFR Part 201]

[Docket No. R-130]

UNIFORM SYSTEM OF ACCOUNTS FOR NATURAL GAS COMPANIES

NOTICE OF EXTENSION OF TIME FOR FILING COMMENTS

FEBRUARY 2, 1954.

In the matter of amendment of § 201.134, Part 201 Uniform System of Accounts for Natural Gas Companies, of the Commission's general rules and regulations, relating to accounting for inventories of natural gas stored underground, Docket No. R-130.

Upon consideration of the motions and requests for extension of time for filing comments with respect to the proposed rules in the above-designated matter;

Notice is hereby given that an extension of time to and including March 1, 1954, is granted within which to submit said comments.

[SEAL] LEON M. FUQUAY,
Secretary.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

ALABAMA

DISASTER ASSISTANCE; DESIGNATION OF PRODUCTION DISASTER AREA AND DELINEATION AND CERTIFICATION OF COUNTIES IN ECONOMIC DISASTER AREA

Pursuant to authority contained in section 2 (a) of Public Law 38, 81st Congress, it is found that a production disaster has caused a need for agricultural credit in the counties listed below.

Pursuant to delegation of authority from the Administrator of the Federal Civil Defense Administration (18 F. R. 4609) and for the purpose of making economic disaster loans under section 2 (b) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, the counties listed below are determined to be in the area affected by the major disaster occasioned by drought determined by the President on November 28, 1953, pursuant to Public Law 875, 81st Congress.

After December 31, 1954, production and economic disaster loans will not be made in the above named counties except to borrowers who previously received such assistance.

Done at Washington, D. C., this 3d day of February 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 54-866; Filed, Feb. 5, 1954; 8:50 a. m.]

CALIFORNIA

REDESIGNATION OF PRODUCTION DISASTER AREA

Pursuant to the authority contained in section 2 (a) of the act of April 6, 1949 (63 Stat. 44; 12 U. S. C. 1148a-2), it has on this date been found that a production disaster in Kern County, California, occasioned by severe earthquake damage in 1952, has caused a need for additional agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

After June 30, 1954, production disaster loans will not be made in Kern County, California, except to borrowers who previously received such assistance.

Done at Washington, D. C., this 3d day of February 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

MISSISSIPPI

DISASTER ASSISTANCE; DESIGNATION OF PRODUCTION DISASTER AREA AND DELINEATION AND CERTIFICATION OF COUNTY IN ECONOMIC DISASTER AREA

Pursuant to authority contained in section 2 (a) of Public Law 38, 81st Congress, it is found that a production disaster has caused a need for agricultural credit in Sunflower County, Mississippi.

Pursuant to delegation of authority from the Administrator of the Federal Civil Defense Administration (18 F. R. 4609) and for the purpose of making economic disaster loans under section 2 (b) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, Sunflower County, Mississippi is determined to be in the area affected by the major disaster occasioned by drought determined by the President on September 16, 1953, pursuant to Public Law 875, 81st Congress.

After December 31, 1954, production and economic disaster loans will not be made in the above named county except to borrowers who previously received such assistance.

Done at Washington, D. C., this 3d day of February 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 54-869; Filed, Feb. 5, 1954; 8:51 a. m.]

NEVADA

DESIGNATION OF DISASTER AREAS

Pursuant to the authority delegated to the Secretary of Agriculture by the Administrator of the Federal Civil Defense Administration (18 F. R. 4609) and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, the area described below is determined as of January 26, 1954, to be in the area affected by the major disaster occasioned by drought determined by the President on August 1, 1953, pursuant to Public Law 875, 81st Congress:

NEVADA

Beginning at the junction of Churchill, Lander and Pershing Counties, west along the county line between Churchill and Pershing Counties to the Stillwater range of mountains; thence southwest along the ridge of mountains to U. S. Highway 50 at Sand Springs; thence south to county line dividing Churchill and Mineral Counties; thence east along the county line to Lander County; thence to point of beginning on the county line dividing Churchill County from Lander County.

Done this 3d day of February 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 54-870; Filed, Feb. 5, 1954; 8:51 a. m.]

SOUTH DAKOTA

DESIGNATION OF PRODUCTION DISASTER AREAS

Pursuant to the authority contained in section 2 (a) of the act of April 6, 1949 (63 Stat. 44; 12 U. S. C. 1148a-2), to designate areas where a production disaster, occasioned by adverse weather conditions, has caused a need for agricultural credit, the following designations were made on this date:

SOUTH DAKOTA

Brown.	Hyde.
Beadle.	Jackson.
Clark.	Jones.
Corson.	Lyman.
Codington.	Meade.
Campbell.	Marshall.
Day.	McPherson.
Deuel.	Perkins.
Dewey.	Potter.
Edmunds.	Roberts.
Faulk.	Sully.
Grant.	Spink.
Hamlin.	Washabaugh.
Haakon.	Walworth.
Hand.	Ziebach.

After December 31, 1954, production disaster loans will not be made in the above counties, except to borrowers who previously received such assistance.

Done at Washington, D. C., this 3d day of February 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 54-871; Filed, Feb. 5, 1954; 8:51 a. m.]

UTAH

DESIGNATION OF DISASTER AREAS

Pursuant to the authority delegated to the Secretary of Agriculture by the Administrator of the Federal Civil Defense Administration (18 F. R. 4609) and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, the following parts of five counties are determined as of January 26, 1954, to be in the area affected by the major disaster occasioned by drought determined by the President on November 25, 1953, pursuant to Public Law 875, 81st Congress:

UTAH

Parts of Millard, Beaver, and Iron Counties described as the non-irrigated winter range area lying west of the Union Pacific Railroad tracks; parts of Utah and Tooele Counties described as non-irrigated winter range areas in Cedar Valley and Rush Valley.

Done this 3d day of February 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

[Administrative Order 438]

ADMINISTRATOR'S ADVISORY COMMITTEE ON SHELTERED WORKSHOPS

APPOINTMENT

This order is an editorial consolidation of currently effective administrative orders of appointment of members of the Administrator's Advisory Committee on Sheltered Workshops.

Pursuant to the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060; 29 U. S. C. 201), I, Wm. R. McComb, Administrator of the Wage and Hour Division, United States Department of Labor, do hereby appoint the following persons to constitute the Administrator's Advisory Committee on Sheltered Workshops:

Linton Collins, Bingham, Collins, Porter & Kistler, Washington, D. C.

John M. Convery, National Association of Manufacturers, New York, N. Y.

Mrs. Jane Devereaux, Detroit League for the Handicapped, Detroit, Mich.

Willis C. Gorthy, Institute for the Crippled and Disabled, New York, N. Y.

Rt. Rev. Msgr. John O'Grady, National Conference of Catholic Charities, Washington, D. C.

Lewis Hines, American Federation of Labor, Washington, D. C.

Edward Hochhauser, Altro Health & Rehabilitation Services, Inc., New York, N. Y

S. L. Hoffman, S. L. Hoffman Manufacturing Company, New York, N. Y.

Dr. Henry H. Kessler or (serving as alternate), Miss Florence Stattel, The Kessler Institute for Rehabilitation, West Orange, N. J.

Colonel J. F. McMahon, Volunteers of America, New York, N. Y.

Harry Read, Congress of Industrial Organizations, Washington, D. C.

Peter J. Salmon, Industrial Home for the Blind, New York, N. Y.

Percy J. Trevethan, Goodwill Industries of America, Inc., Washington, D. C.

Miss Louise McGuire (nonvoting member), Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington, D. C.

The above persons shall constitute the full membership of the Committee until

such time as this order is amended or revoked.

The Committee shall perform the functions of the Administrator's Advisory Committee on Sheltered Workshops as provided in Part 525 of the regulations issued under the Fair Labor Standards Act—Employment of Handicapped Clients in Sheltered Workshops (29 CFR Part 525).

Signed at Washington, D. C., this 2d day of February 1954.

WM. R. MCCOMB,
Administrator.
Wage and Hour Division.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[Public Announcement 17]

COLUMBIA BASIN PROJECT, WASHINGTON

SALE OF FULL-TIME FARM UNITS

JANUARY 19, 1954.

Columbia Basin Project, Washington, Quincy-Columbia Basin Irrigation District; public announcement of the sale of full-time farm units.

LANDS COVERED

SECTION 1. *Offer of farm units for sale.* It is hereby announced that certain farm units in the Quincy-Columbia Basin Irrigation District, Columbia Basin Project, Washington, will be sold to qualified applicants in accordance with the provisions of this announcement. Applications to purchase farm units may be submitted beginning at 2 p. m., February 5, 1954.

a. *Farm units presently owned.* The farm units which are presently owned by the United States, and hereby offered for sale, are described as follows:

Irrigation block No.	Farm unit No.	Total acreage	Tentative irrigable acreage				Non-irrigable	Price
			Total	Class 1	Class 2	Class 3		
76	66	82.2	61.0	1.1	56.2	3.7	21.2	$1,025.50
	67	113.8	75.6	5.5	56.3	13.8	38.2	1,397.30
	85	112.8	67.1	45.3	6.8	15.0	45.7	1,432.90
	87	101.2	92.2	.9	12.3	79.0	9.0	1,255.70
	88	110.9	102.6	.....	43.1	59.5	17.3	1,445.60
	89	110.9	103.7	.....	1.1	102.6	16.2	1,432.50
	90	96.0	77.3	.....	9.9	67.4	18.7	1,196.60
	91	120.0	104.6	.....	1.8	102.8	15.4	1,445.40
	92	119.9	108.7	.....	26.6	82.1	11.7	1,491.80
	99	170.8	141.7	.....	45.8	95.9	29.1	2,098.40
78	18	59.7	47.8	28.6	16.2	3.0	11.9	1,016.50
	19	59.7	51.0	43.1	5.4	2.5	8.7	980.20
	20	59.6	54.1	53.2	.9	.....	5.5	817.00
	21	60.0	54.4	51.3	3.1	.....	5.6	821.60
	22	79.7	69.4	42.2	27.2	.....	10.3	1,077.40
	30	64.0	60.0	54.9	4.2	.9	4.0	909.40

	92	100.6	88.4	61.6	26.8	.....	12.2	3,028.60
	95	78.2	64.5	39.0	15.5	.....	23.7	922.50

b. *Additional farm units.* It is expected that, through the operation of its land acquisition program the United States may, within twelve (12) months following the date of this announcement, own additional farm units in Irrigation Blocks 76 and 78, and in other irrigation blocks in the Quincy-Columbia Basin Irrigation District which are scheduled to receive water before the close of the 1955 irrigation season. Such farm units may be offered for sale under the provisions of this announcement.

The official plats of these irrigation blocks are on file in the office of the County Auditor of Grant County, at Ephrata, Washington, and copies are on file in the offices of the Bureau of Reclamation at Ephrata, Washington, and Boise, Idaho.

SEC. 2. *Limit of acreage which may be purchased.* The lands covered by this announcement have been divided into farm units. Each of the farm units represents the acreage which, in the opinion of the Regional Director, Region 1, Bureau of Reclamation, will support an average-size family at a suitable level of living. The law provides that with certain minor exceptions not more than one farm unit in the entire project may be held by any one owner or family. A family is defined as comprising husband or wife, or both, together with their children under 18 years of age, or all of such children if both parents are dead.

PREFERENCE OF APPLICANTS

SEC. 3. *Nature of preference.* Except for a prior preference given applicants for exchange under the provisions of the Act of August 13, 1953 (67 Stat. 566), a preference right to purchase the farm units described above will be given to veterans (and in some cases to their husbands or wives or guardians of minor children) who submit applications during a 45-day period beginning at 2 p. m., February 5, 1954, and ending at 2 p. m., March 22, 1954, and who, at the time of making application, are in one of the following five classes:

a. Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard of the United States for a period of at least ninety (90) days at any time between September 16, 1940, and July 3, 1952, inclusive, and have been honorably discharged.

b. Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, Air Force, or Coast Guard of the United States during the period prescribed in subsection a. of this section regardless of length of service, and who have been discharged on account of wounds received or disability incurred during such period in the line of duty, or subsequent to a regular discharge, have been furnished hospitalization or awarded compensation by the Government on account of such wounds or disability.

c. The spouse of any person in either of the first two classes listed in this section, if the spouse has the consent of such person to exercise his or her preference right. (See subsection 7. c. of this announcement, regarding the provision that a married woman must be head of a family.)

d. The surviving spouse of any person in either of the first two classes listed in this section, or in the case of the death or marriage of such spouse, the minor child or children of such person by guardian duly appointed and qualified and who furnishes to the examining board acceptable evidence of such appointment and qualification.

e. The surviving spouse of any person whose death has resulted from wounds received or disability incurred in the line of duty while serving in the Army, Navy, Marine Corps, Air Force, or Coast Guard during the period described in subsection a. of this section, or in the case of death or marriage of such spouse, the minor child or children of such person by a guardian duly appointed and qualified and who furnishes to the examining board acceptable evidence of such appointment and qualification.

SEC. 4. *Definition of honorable discharge.* An honorable discharge means:

a. Separation from the service by means of an honorable discharge or by the acceptance of resignation or a discharge under honorable conditions.

b. Release from active duty under honorable conditions to an inactive status, whether or not in a reserve component or retirement.

Any person who obtains an honorable discharge as herein defined shall be entitled to veterans preference even though such person thereafter resumes active military duty.

QUALIFICATIONS REQUIRED OF PURCHASERS

SEC. 5. *Examining boards.* An examining board of three members has been appointed by the Regional Director, Region I, Bureau of Reclamation, to determine the qualifications and fitness of applicants to undertake the purchase, development, and operation of a farm on the Columbia Basin Project. The board will make careful investigations to verify the statements and representations made by applicants. Any false statements may constitute ground for rejection of an application, and cancellation of the applicant's right to purchase a farm unit.

SEC. 6. *Minimum qualifications.* Certain minimum qualifications have been established which are considered necessary for the successful development of farm units. Applicants must meet these qualifications in order to be eligible for the purchase of farm units. Failure to meet them in any single respect will be sufficient cause for rejection of an application. No added credit will be given for qualifications in excess of the required minimum. The minimum qualifications are as follows:

a. *Character and industry.* An applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct, and a bona fide intent to engage in farming as an occupation.

b. *Farm experience.* Except as otherwise provided in this subsection, an applicant must have had a minimum of two years (24 months) of full-time farm experience, which shall consist of participation in actual farming operations, after attaining the age of 15 years. Time spent in agricultural courses in an accredited agricultural college or time spent in work closely associated with farming, such as teaching vocational agriculture, agricultural extension work, or field work in the production or marketing of farm products, which, in the opinion of the board will be of value to an applicant in operating a farm, may be substituted for full-time farm experience. Such substitution shall be on the basis of one year (academic year of at least nine months) of agricultural college courses or one year (twelve months) of work closely associated with farming for six months of full-time farm experience. Not more than one year of full-time farm experience of this type will be allowed. A farm youth who actually resided and worked on a farm after attaining the age of 15 and while attending school may credit such experience as full-time experience.

Applicants who have acquired their experience on an irrigated farm will not be given preference over those whose experience was acquired on a nonirrigated farm, but all applicants must have had farm experience of such nature as in the judgment of the examining board will qualify the applicant to undertake the development and operation of an irrigated farm by modern methods.

c. *Health.* An applicant must be in such physical condition as will enable him to engage in normal farm labor.

d. *Capital.* An applicant must possess assets worth at least $4,500 in excess of liabilities. Assets must consist of cash, property readily convertible into cash or property such as livestock, farm machinery and equipment, which, in the opinion of the board, will be useful in the development and operation of a new, irrigated farm. In considering the practical value of property which will be useful in the development of a farm, the board will not value household goods at more than $500 or a passenger car at more than $500. Assets not useful in the development of a farm will be considered if the applicant furnishes, at the Board's request, evidence of the value of the property and proof of its conversion into useful form before execution of a purchase contract.

SEC. 7. *Other qualifications required.* Each applicant (except guardian) must meet the following requirements:

a. Be a citizen of the United States or have declared an intention to become a citizen of the United States.

b. Not own outright, or control under a contract to purchase, more than ten acres of crop land or a total of 160 acres of land at the time of execution of a purchase contract for a farm unit.

c. If a married woman, or a person under 21 years of age who is not eligible for veterans preference, be the head of a family. The head of a family is ordinarily the husband, but a wife or a minor child who is obliged to assume major responsibility for the support of a family may be the head of a family.

WHERE AND HOW TO SUBMIT AN APPLICATION

SEC. 8. *Filing application blanks.* Any person desiring to purchase a farm unit offered for sale by this announcement must fill out the attached application blank and file it with the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, in person or by mail. Additional application blanks may be obtained from the office of the Bureau of Reclamation at Ephrata, Washington; Post Office Box 937, Boise, Idaho; or Washington, D. C. No advantage will accrue to an applicant who presents an application in person. Each application submitted, including the evidence of qualification to be submitted following the public drawing, will become a part of the records of the Bureau of Reclamation and cannot be returned to the applicant.

SELECTION OF QUALIFIED APPLICANTS

SEC. 9. *Priority of applications.* All applications, except those received from qualified exchange applicants prior to 2 p. m., March 22, 1954, which shall be given prior preference, will be classified for priority purposes as follows:

a. *First Priority Group.* All complete applications filed prior to 2 p. m., March 22, 1954, by applicants who claim veterans' preference. All such applications will be treated as simultaneously filed.

b. *Second Priority Group.* All complete applications filed prior to 2 p. m., March 22, 1954, by applicants who do not claim veterans' preference. All such applications will be treated as simultaneously filed.

c. *Third Group.* All complete applications filed after 2 p. m., March 22, 1954. Such applications will be considered in the order in which they are filed if any farm units are available for sale to applicants within this group.

SEC. 10. *Public drawing.* After the priority Classification, the board will conduct a public drawing of the names of the applicants in the First Priority Group as defined in subsection 9a of this announcement. Applicants need not be present at the drawing to participate therein. The names of a sufficient number of applicants (not less than four times the number of farm units to be offered for sale) shall be drawn and numbered consecutively in the order drawn for the purpose of establishing the order in which the applications drawn will be examined by the board to determine whether the applicants meet the minimum qualifications prescribed in this announcement, and to establish the priority of qualified applicants for the selection of farm units. After such drawing, the Board shall notify each applicant of his respective standing as a result of the drawing.

SEC. 11. *Submission of evidence of qualification.* After the drawing, a sufficient number of applicants, in the order of their priority as established by the drawing, will be supplied with forms on which to submit evidence of qualification, showing that they meet the qualifications set forth in sections 6 and 7 of this announcement and, in case veterans preference is claimed, establishing proof of such preference, as set forth in section 3 of this announcement. Full and accurate answers must be made to all questions. The completed form must be mailed or delivered to the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, within 20 days of the date the form is mailed to the last address furnished by the applicant. Failure of an applicant to furnish all of the information requested or to see that information is furnished by his references within the time period specified will subject his application to rejection.

SEC. 12. *Examination and interview.* After the information outlined in section 11 of this announcement has been received or the time for submitting such statements has expired, the Board shall examine in the order drawn a sufficient number of applications together with the evidence of qualification submitted to determine the applicants who will be permitted to purchase farm units. This examination will determine the sufficiency, authenticity, and reliability of

the information and evidence submitted by the applicants.

If the applicant fails to supply any of the information required or the Board finds that the applicant's qualifications do not meet the requirements prescribed in this announcement, the applicant shall be disqualified and shall be notified by the Board, by registered mail, of such disqualification and the reasons therefor and of the right to appeal to the Regional Director, Region 1, Bureau of Reclamation. All appeals must be received in the office of the Land Settlement Branch, Bureau of Reclamation, Ephrata, Washington, within 15 days of the applicant's receipt of such notice or, in any event, within 30 days from the date when the notice is mailed to the last address furnished by the applicant. The Land Settlement Branch will promptly forward the appeal to the Regional Director.

If the examination indicates that an applicant is qualified, the applicant may be required to appear for a personal interview with the Board for the purpose of: (a) Affording the Board any additional information it may desire relative to his qualifications; (b) affording the applicant any information desired relative to conditions in the area and the problems and obligations relative to development of a farm unit; and (c) affording the applicant an opportunity to examine the farm units.

If an applicant fails to appear before the Board for a personal interview on the date requested, he will thereby forfeit his priority position as determined by the drawing.

If the Board finds that an applicant's qualifications fulfill the requirements prescribed in this announcement, such applicant shall be notified, in person or by registered mail, that he is a qualified applicant and shall be given an opportunity to select one of the farm units available then for purchase. Such notice will require the applicant to make a field examination of the farm units available to him and in which he is interested, to select a farm unit, and to notify the Board of such selection within the time specified in the notice.

SELECTION OF FARM UNITS

SEC. 13. *Order of selection.* The applicants who have been notified of their qualification for the purchase of a farm unit will successively exercise the right to select a farm unit in accordance with the priority established by the drawing. If a farm unit becomes available through failure of a qualified applicant to exercise his right of selection or failure to complete his purchase, it will be offered to the next qualified applicant who has not made a selection at the time the unit is again available. An applicant who is considered to be disqualified as a result of the personal interview will be permitted to exercise his right to select, notwithstanding his disqualification, unless he voluntarily surrenders this right in writing. If, on appeal, the action of the Board in disqualifying an applicant as a result of the personal interview is reversed by the Regional Director, the applicant's selection shall be effective, but if such action of the Board is upheld by the Regional Director, the farm unit selected by this applicant will become available for selection by qualified applicants who have not exercised their right to select.

If any of the farm units listed in this announcement remain unselected after all qualified applicants whose names were selected in the drawing have had an opportunity to select a farm unit, and if additional applicants remain in the First Priority Group, the Board will follow the same procedure outlined in section 10 of this announcement in the selection of additional applicants from this group.

If any of the farm units remain unselected after all qualified applicants in the First Priority Group have had an opportunity to select a farm unit, the Board will follow the same procedure to select applicants from the Second Priority Group, and they will be permitted to exercise their right to select a farm unit in the manner prescribed for the qualified applicants from the First Priority Group.

Any farm units remaining unselected after all qualified applicants in the Second Priority Group have had an opportunity to select a farm unit will be offered to applicants in the Third Group in the order in which their applications were filed, subject to the determination of the Board, made in accordance with the procedure prescribed herein, that such applicants meet the minimum qualifications prescribed in this announcement.

If any farm units offered by or under this announcement remain unsold for a period of two years following the date of this announcement, the District Manager, Columbia River District, Bureau of Reclamation, may sell, lease or otherwise dispose of such units to qualified applicants without regard to the provisions of section 10 of this announcement.

SEC. 14. *Failure to select.* If any applicant refuses to select a farm unit or fails to do so within the time specified by the Board, such applicant shall forfeit his position in his priority group and his name shall be placed last in that group.

PURCHASE OF SELECTED UNIT

SEC. 15. *Execution of purchase contract.* When a farm unit is selected by an applicant as provided in section 13 of this announcement, the District Manager will promptly give the applicant a written notice confirming the availability to him of the unit selected and will furnish the necessary purchase contract, together with instructions concerning its execution and return. In that notice the District Manager will also inform the applicant of the amount of the irrigation charges assessed by the Quincy-Columbia Basin Irrigation District or, if such charges have not been assessed, of an estimate of the amount of the charges for the first year of the development period, to be deposited with the District Manager.

If the purchase is made subsequent to April 1 of any year following the first year of the development period, a deposit will be required to cover the payment of water charges for the next full irrigation season following the purchase.

SEC. 16. *Terms of sale.* Contracts for the sale of farm units pursuant to this announcement will contain, among others, the following principal provisions:

a. *Down payment.* An initial or down payment of not less than 20 per cent of the purchase price of the lands being purchased from the United States will be required. Larger proportions, or the entire amount of the price, may be paid initially at the purchaser's option.

b. *Schedule for payment of balance; Interest rate.* If only a portion of the purchase price is paid initially, the remainder will be payable within a period of 20 years following the date of the contract. No payments on the principal, except the down payment, will be required during the first three years and the District Manager may postpone such payments for as long as the first five years of the contract. Interest on the unpaid balance at the rate of three per cent per annum, however, will be payable annually. When payments on the principal are resumed, they will be payable each year. The schedule of principal payments, which will be established by the District Manager, will provide for relatively small payments during the first years and larger payments during the later years of the contract period. Payment of any or all installments, or any portion thereof, may be made before their due dates at the purchaser's option.

c. *Development requirements.* In order that the irrigable area of the entire farm unit shall be developed with reasonable dispatch, each purchaser will be required, as a minimum, to clear, level, irrigate, and plant to crops by the end of each of the calendar years indicated below, and to maintain in crops thereafter, the following percentages of irrigable land as tentatively or finally classified:

Size of farm unit in irrigable acres	Percentage of land classified tentatively or finally as irrigable to be developed by end of each year. (Period will begin with year of purchase if contract is executed and water is available on or before May 1 of that year; otherwise period will begin with the next calendar year.)			
	2d year	3d year	4th year	5th year
10 to 40	75	.....	.....	.....
41 to 60	50	75	.....	.....
61 to 80	50	65	75	.....
81 to 100	40	60	65	75
101 to 160	35	60	65	75

d. *Residence requirements.* A major objective of the settlement program for the Columbia Basin Project is to assist and encourage the permanent settlement of farm families. In keeping with this objective, each purchaser will be required to do the following with respect to residence: (1) within one year from the date of his contract, or within one year from the date that water is available to the irrigation block in which the farm unit is located, whichever is later, to initiate residence by actually moving onto the unit, such residence to be maintained by living thereon for not less than 12 months within an 18-month period following the initial date of residence, and (2) before receiving title to the unit under the purchase contract, to establish a permanent and habitable dwelling on the unit. The time for compliance with the initiation of residence may be extended by the District Manager for periods of as long as six months, upon his determination that an extension is necessary to avoid undue hardship to the purchaser and that it will not be detrimental to the orderly development of the irrigation block. The latest permissible date for initiating residence, however, will not be extended for more than one year in addition to the one-year period specified above. In extraordinary situations, the requirements under (1) and (2) above may be waived entirely upon the determination by the Regional Director, after recommendation by the District Manager, that such waiver will be in the interest of orderly development of the block. Any such waiver, however, shall be conditioned on the requirement that the purchaser reside close enough to his unit to permit him to develop it through his own efforts.

e. *Speculation and landholding limitations.* Purchase contracts and deeds covering farm units offered by this announcement will include provisions governing (1) maximum permissible sizes of holdings of irrigable land; (2) continued conformance of land to the area and boundaries of the farm unit plat for the block; (3) prices at which land can be resold during a period of five years following the date on which water is made available to the irrigation block; (4) disposal of land should it become excess at any time; and (5) limitations as to total area that may be operated on the project whether as lessee or as owner or both.

f. *Copies of contract form.* The terms listed above, and all other standard contract provisions, are contained in the purchase contract form, copies of which may be obtained by writing to the Bureau of Reclamation, Ephrata, Washington.

IRRIGATION CHARGES

SEC. 17. *Water rental charges.* During the irrigation season of 1955, while some construction activities will be continuing and the system is being tested, it is expected that water will be furnished on a temporary rental basis to those desiring it. The terms of payment, which will be at a fixed rate per acre-foot of water used, will be announced by the Regional Director before the beginning of the irrigation season.

SEC. 18. *Development period charges.* Pursuant to the provisions of the repayment contract of October 9, 1945, between the United States and the Quincy-Columbia Basin Irrigation District in the Columbia Basin Project, the Secretary of the Interior will announce a development period of ten years during which time payment of construction charge installments will not be required. This period probably will commence with the calendar year 1956. During the development period, water rental charges will average an estimated $5.50 per year for each irrigable acre as tentatively or finally classified. This figure is preliminary and subject to change because all the data needed to fix the charges are not available nor can they be obtained now. In any event, there will be a minimum charge per farm unit each year whether or not water is used. A notice establishing the details of the plan to be followed and announcing charges and governing provisions for the first year of the development period will be issued prior to January 1 of that year, by the Regional Director, who has the responsibility for fixing charges.

The present plans of the Regional Director are (a) to vary the minimum charge according to the anticipated relative repayment ability of the various land classes; (b) to provide for a small minimum charge for the first year and to increase it each year thereafter so that the charge for the tenth year will be approximately equal to the combined construction and operation and maintenance charge for the following year; and (c) to charge for water in excess of the amount furnished for the minimum charge on an acre-foot basis. The minimum charge will entitle each user to a quantity of water to be specified by the Regional Director, varying with the water requirement classification of the land and the size of the farm unit.

In addition to the water rental charges, the Irrigation District will levy an additional charge to cover administrative costs and probable delinquencies in collections.

SEC. 19. *Construction period repayment charges—a. Operation and maintenance charges.* After the development period has ended, water users will pay a charge for operation and maintenance of the project irrigation system which will be uniform for the irrigation blocks throughout the project. These charges may or may not be graduated among land classes. Assessment procedure will be left for the Irrigation District Board of Directors to determine, but, in any case, there will be an annual minimum charge per acre. In order to encourage careful use of water, this annual minimum charge will entitle the water user to one-half acre-foot of water per acre less than the amount of water normally required. The normal requirements for the various classes of land will be determined and announced as provided in the repayment contract with the Quincy-Columbia Basin Irrigation District. Water in excess of the quantity covered by the minimum charge will be paid for on an acre-foot basis in accordance with an ascending, graduated scale.

b. *Construction charges.* The contract between the United States and the Quincy-Columbia Basin Irrigation District requires the payment of construction charges for the project irrigation system during the forty years following the development period. The average construction charge per irrigable acre for the entire project will be $2.12 per year. Thus, the total construction charge payment will average $85 per irrigable acre, but that amount was predicated on an estimated total direct irrigation cost of not to exceed $280,782,180 as indicated by Article 6 of the repayment contract, an amount that it now appears is likely to be exceeded. The contract further provides that construction charges shall be graduated according to the relative repayment ability of the land; consequently, the charge per irrigable acre will be larger for the better lands than for the poorer lands. This allocation of construction charges by classes of land will be made as soon as practicable.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

Office of the Secretary

[Order No. 2747]

ACTING OFFICIALS, BUREAU OF LAND MANAGEMENT

DELEGATION OF POWERS AND FUNCTIONS

FEBRUARY 2, 1954.

This order revises existing provisions with respect to acting officials in the Bureau of Land Management to authorize the Chief, Division of Cadastral Engineering, to perform the duties of Assistant Director in certain circumstances.

SECTION 1. *Acting Director.* (a) The Associate Director shall perform the duties of the Director in case of the death, resignation, absence, or sickness of the Director.

(b) The Assistant Director shall perform the duties of the Director in case of the death, resignation, absence, or sickness of the Director and the Associate Director.

(c) The Chief, Division of Administration, shall perform the duties of the Director in case of the death, resignation, absence, or sickness of the Director, the Associate Director, and the Assistant Director.

SEC. 2. *Acting Associate Director.* (a) The Assistant Director shall perform the duties of the Associate Director in case of the death, resignation, absence, or sickness of the Associate Director.

(b) The Chief, Division of Administration, shall perform the duties of the Associate Director in case of the death, resignation, absence, or sickness of the Associate Director and the Assistant Director.

SEC. 3. *Acting Assistant Director.* (a) The Chief, Division of Administration, shall perform the duties of the Assistant Director in case of the death, resignation, absence, or sickness of the Assistant Director.

(b) The Chief, Division of Cadastral Engineering, shall perform the duties of the Assistant Director in the absence or sickness of the Assistant Director and the Chief, Division of Administration.

SEC. 4. *Title of "acting" officer.* An officer acting under authority of sections 1, 2, or 3 of this order shall sign documents as "Acting Director," "Acting Associate Director," or "Acting Assistant Director," as the case may be.

SEC. 5. *Revocation.* Order No. 2730 (18 F. R. 5517) is revoked.

(5 U. S. C. 1952 ed., sec. 22a; sec. 2, Reorganization Plan No. 3 of 1950, 5 U. S. C., 1952 ed., sec. 133z-15, note.)

RALPH A. TUDOR,
Acting Secretary of the Interior.

FEDERAL POWER COMMISSION

[Docket Nos. G-2106, G-2270, G-2283]

EL PASO NATURAL GAS CO. AND PERMIAN BASIN PIPELINE CO.

NOTICE OF FINDINGS AND ORDER

FEBRUARY 2, 1954.

Notice is hereby given that on February 1, 1954, the Federal Power Commission issued its order adopted February 1, 1954, in the above-entitled matters, amending order of June 29, 1953 (18 F. R. 3975) issuing certificate of public convenience and necessity to El Paso Natural Gas Company, Docket No. G-2106; issuing certificate of public convenience and necessity to Permian Basin Pipeline Company, Docket No. G-2283, and permitting and approving abandonment of facilities by El Paso Natural Gas Company, Docket No. G-2270.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-859; Filed, Feb. 5, 1954; 8:48 a. m.]

[Docket No. G-2360]

EAST TENNESSEE NATURAL GAS CO.

NOTICE OF APPLICATION

FEBRUARY 2, 1954.

Take notice that East Tennessee Natural Gas Company (Applicant), a Tennessee corporation, with its principal place of business near Knoxville, Tennessee, filed, on January 25, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a physical connection together with necessary metering and regulating equipment located near the northern terminus of its existing so-called "Kingsport Lateral" pipeline.

The facilities are proposed to be used to sell and deliver to the United States of America (Department of the Army) for use in its Holston Ordnance Works, a maximum of 4,500 Mcf of natural gas per day on a firm basis and up to 1,500 Mcf of natural gas per day on an interruptible basis.

Applicant requests that the intermediate decision procedure be omitted and that its application be disposed of pursuant to the shortened procedure provided for in § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)).

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with its rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 22d day of February 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 70-3167, 70-3181]

CITIES SERVICE CO. ET AL.

ORDER CONCERNING POSTPONEMENT OF HEARING

FEBRUARY 1, 1954.

In the matter of Cities Service Company, the Gas Service Company, Gas Advisers, Inc., File No. 70-3167; Missouri Public Service Company, File No. 70-3181.

The Commission by its order of January 22, 1954, having directed that upon conclusion of the hearing in the above proceedings commencing on January 26, 1954, the hearing be adjourned until February 2, 1954, in order to afford to the State Corporation Commission of the State of Kansas opportunity to cross-examine witnesses and to offer such further evidence as it might wish to present; and

The State Corporation of the State of Kansas having filed a further motion requesting that the hearing be further postponed for an additional period of three weeks from February 2, 1954; and

The Commission being fully advised in the premises and considering that good cause has been shown for a postponement of such hearing, for the purpose of aforesaid, for a period of one week from February 2, 1954, or until February 9, 1954, at 10:00 a. m.:

It is ordered, That said hearing now set for February 2, 1954, be and the same hereby is postponed until February 9, 1954, at 10:00 a. m., but that in all other respects such motion be denied.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28877]

HIDES, PELTS OR SKINS FROM MEMPHIS, TENN., TO READING, PA.

APPLICATION FOR RELIEF

FEBRUARY 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. A. Spaninger's tariff ICC No. 1324, pursuant to fourth section order No. 16101.

Commodities involved: Hides, pelts or skins, carloads.

From: Memphis, Tenn.

To: Reading, Pa.

Grounds for relief: Competition with rail carriers, circuitous routes, operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28879]

VARIOUS COMMODITIES FROM TRUNK LINE AND NEW ENGLAND TERRITORIES TO SOUTHERN AND OFFICIAL TERRITORIES

APPLICATION FOR RELIEF

FEBRUARY 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and Frank Van Ummersen, Agents, for carriers parties to schedules listed in exhibit A of the application, pursuant to fourth section order No. 17220.

Commodities involved: Various commodities, carloads.

From: Points in trunk-line and New England territories.

To: Points in southern and official territories.

Grounds for relief: Competition with rail carriers, circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28880]

BITUMINOUS COAL FROM COLORADO, NEW MEXICO, UTAH, AND WYOMING TO IOWA

APPLICATION FOR RELIEF

FEBRUARY 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Christie, Agent, for carriers parties to schedule listed below.

Commodities involved: Bituminous coal, carloads.

From: Points in Colorado, New Mexico, Utah and Wyoming.

To: Points in Iowa.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping.

Schedules filed containing proposed rates: W. J. Christie, Agent, ICC No. 54.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28882]

PETROLEUM RESIDUAL FUEL OIL FROM DICKINSON, N. DAK., TO MINNESOTA AND SUPERIOR, WIS.

APPLICATION FOR RELIEF

FEBRUARY 3, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Northern Pacific Railway Company.

Commodities involved: Petroleum residual fuel oil, in tank-car loads.

From: Dickinson, N. Dak.

To: Minneapolis, St. Paul, Minnesota Transfer and Duluth, Minn., Superior, Wis., and other stations in Minnesota.

Grounds for relief: Competition with rail carriers, market competition.

Schedules filed containing proposed rates: Northern Pacific Railway Company, ICC No. 9602, supl. 81.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28884]

WALLBOARD FROM RIO GRANDE RIVER CROSSINGS TO CHARLOTTE, N. C.

APPLICATION FOR RELIEF

FEBRUARY 3, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Building, wall or insulating boards, viz fibreboard, pulpboard or strawboard, etc., carloads.

From: Brownsville, Eagle Pass, El Paso, Laredo, Hidalgo, and Presidio, Texas (on traffic originating in Mexico).

To: Charlotte, N. C.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, additional destination.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, ICC No. 3843, supl. 46.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to

investigate and determine the matters involved in such aplication without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54-854; Filed, Feb. 5, 1954; 8:47 a. m.]

[No. 31270; Investigation & Suspension Docket 6110 & 1st Supp. Order]

LOUISVILLE CHAMBER OF COMMERCE, INC., v. KENTUCKY AND INDIANA TERMINAL RAILROAD CO. ET AL.

SWITCHING RATES AT LOUISVILLE, KY.

In the matters of (1) assigning the time for hearings, and (2) prescribing special rules directing interchange of prepared material prior to hearing.

It appearing, that upon consideration of the record made in the above-entitled proceedings at the prehearing conference held at Washington, D. C., on January 11, 1954, and for good cause appearing therefor:

It is ordered, That the above-entitled proceeding be, and they are hereby, assigned for hearing upon a consolidated record at the Hotel Kentucky, Louisville, Ky., at 9:30 o'clock a. m., U. S. s. t. (or 9:30 o'clock a. m. local daylight saving time, if that time is observed), on June 22, 1954, before Examiner Oren G. Barber:

It is further ordered, That the following special rules shall be applicable herein:

1. *Prepared statement interchange before hearing.* The complainant in No. 31270, parties supporting complainant, respondents in I. & S. No. 6110, and parties supporting respondents shall prepare in writing all evidence in chief of their witnesses and serve upon all the other parties, shown on the list later to be issued pursuant to rule 3 hereof, copies thereof together with any exhibits they intend to offer in evidence, such testimony and exhibits to be served by said parties on or before March 15, 1954. The filing and service of all direct evidence in chief by the defendants in No. 31270, parties supporting defendants, protestants in I. & S. No. 6110, and parties supporting protestants shall be made on or before May 3, 1954. The filing and service of all testimony and exhibits by all parties in rebuttal of such direct evidence shall be made on or before June 7, 1954. One copy of all testimony and exhibits so served shall also be mailed to the examiner at his office in Washington, D. C. No other copies thereof need be filed with the Commission prior to hearing.

2. *Participation limited.* Any person not a complainant, respondent, or defendant who had not prior to or at the prehearing conference held herein on January 11, 1954, intervened in these proceedings, and who desires to submit evidence herein, shall, not later than 10 days prior to the due date herein provided for the submission of direct evidence (March 15, or May 3, as the case may be), file a petition for leave to intervene; and the subsequent reception of evidence, except as good cause therefor shall otherwise be shown at the hearing, will be limited to complainant, respondents, and defendants, to the parties supporting them who, prior to, or upon the record made at, the prehearing conference on January 11, 1954, intervened herein, and to those who shall have been permited to intervene as herein provided. Only an original and four copies of said petition need be filed with the Commission, as service thereof upon other parties of record is not contemplated.

3. *Notification of desire to be served with testimony and exhibits.* Any respondent, defendant, or other party desiring to be served with exhibits and testimony as hereinbefore provided and who did not indicate such desire upon the record at said prehearing conference, must notify the Secretary of the Interstate Commerce Commission on or before February 15, 1954, of such desire, indicating the number if more than one copy is desired. Thereafter, a list of parties upon whom such service should be made will be compiled, and a copy thereof served upon all parties.

4. *General specifications.* Prepared statements shall conform to Rule 15 of the general rules of practice in respect to style, mimeographing or printing, etc. Evidence offered should be prepared carefully with conciseness and clarity and so as to avoid extraneous, immaterial, and irrelevant matter, and undue cumulation of testimony upon any point. The statements should be factual in character, and argument not be incorporated in the testimony. If not so limited the prepared statement may be excluded in whole or in part. Also the Commission on its own motion or on objection may exclude a statement or any portion thereof which is (a) not material or relevant to the questions presented in the proceeding, or (b) obviously incompetent.

5. *Verification; relief from cross examination and personal appearance.* There is no requirement that a prepared statement shall have an affidavit attached, but this does not preclude attaching an affidavit to the prepared statement. If that is done the following, or its equivalent, should appear in the margin on the top of the first sheet of the statement:

> This statement is verified. Unless written request for cross examination is received by affiant or his attorney not later than June 14, 1954, affiant desires that the statement be considered for incorporation in the record without his personal appearance as a witness.

A witness making such a request and thereafter receiving a demand for cross examination must personally report at the hearing, or his verified statement may not be received. If there is no demand for cross examination as above provided (indiscriminate demands for cross examination should be avoided), the privilege of cross examination will be deemed to be waived if the statement is verified and the witness making the statement has requested to be relieved from personal appearance as above provided. It will be presumed that a witness preparing an unsworn statement intends personally to appear at the hearing for cross examination and to be sworn at that time. An unsworn statement will be admitted only if the affiant is personally present at the hearing.

6. *Oral evidence limited.* Implementing oral evidence to correct errors or to supply inadvertent omissions in prepared statements is permissible, but evidence in chief or rebuttal not previously interchanged in writing as herein provided may not be admitted except as good cause therefor shall be shown at the hearing.

7. *How admitted to the record.* To become a part of the record it is necessary for the witness, or some one qualified to represent him, formally to offer the prepared statement in evidence at the hearing; and unless good reason shall otherwise appear, the statement will be admitted as an exhibit.

8. *Materially reserved.* A prepared statement received in evidence with or without objection as to its admissibility is subject to subsequent challenge as to the weight to be accorded to the facts in such statement.

9. *Witness examination.* The examination of a witness should be conducted in a manner so as to make it rapid, distinct, and as little annoying to the witness as is consistent with eliciting the facts, and to this end counsel on the same side of an issue should agree upon one person to examine a witness.

10. *Due dates defined.* All dates specified in these rules are the latest dates on which the parties in the performance of an act contemplated by these rules may make deposit in the mails, except (a) as to any date respecting which there is an express provision otherwise, and (b) any date herein provided for the filing of a petition with, or dispatch of notification to, the Commission shall be governed by the provisions of Rule 4 (b) of the general rules of practice, namely, receipt in the Commission and not the date of deposit in the mails shall be determinative.

And it is further ordered, That in addition to service hereof upon all parties of record, a copy hereof also shall be filed with the Director, Division of the Federal Register.

Dated at Washington, D. C., this 19th day of January A. D. 1954.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture.

Subchapter C—International Wheat Agreement

PART 571—COMMODITY CREDIT CORPORATION WHEAT AND WHEAT-FLOUR EXPORT PROGRAM

SUBPART—TERMS AND CONDITIONS OF 1953–54 PROGRAM

CROSS REFERENCE: For transfer and redesignation of above regulations, see Chapter V of this title, *infra*.

Chapter V—Agricultural Marketing Service, Department of Agriculture

Subchapter B—Export and Diversion Programs

PART 571—WHEAT

CHANGE IN CODIFICATION

In order to conform Title 6 of the Code of Federal Regulations to the present organizational structure of the Department of Agriculture, the following change is made in the codification of this title:

Subpart A of Part 571 of Subchapter B of Chapter V and the regulations therein are transferred to Chapter IV and redesignated "Subchapter C—International Wheat Agreement," "Part 571—Commodity Credit Corporation Wheat and Wheat-Flour Export Program," "Subpart—Terms and Conditions of 1953–54 Program."

Done at Washington, D. C., this 4th day of February 1954.

HOWARD H. GORDON, *President, Commodity Credit Corporation.*

[F. R. Doc. 54-895; Filed, Feb. 8, 1954; 8:50 a. m.]

TITLE 7—AGRICULTURE

MISCELLANEOUS AMENDMENTS

In Federal Register Document 54-465, published at page 395 of the issue for Friday, January 22, 1954, the following changes are made pursuant to the authorities recited in said document:

1. In enumerated paragraph 20, at line 8, the word "Production" should read "Conservation."

2. In enumerated paragraph 21, at line 8, the word "Agricultural" should be inserted following the word "Area."

3. In enumerated paragraph 23, at line 6, the word "Agricultural" should be inserted following the word "Area."

4. In enumerated paragraph 24, at line 5, the word "Agricultural" should be inserted following the word "Area."

5. In enumerated paragraph 29 subparagraph (a), the term "ACS" should read "ASC."

6. In enumerated paragraph 30, at line 5, the period should be change to a semicolon, the word "and" inserted thereafter, and the following subparagraphs added thereunder:

(a) The definition of the term "State committee" appearing in Part 1104 is amended to read "'State committee' means the persons designated by the Secretary as the Agricultural Stabilization and Conservation State Committee in Alaska";

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 250]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.665 *Orange Regulation 250*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than February 10, 1954. Shipments of all oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until February 22, 1954; the recommendation and supporting information for regulation, in the manner herein provided, for the period February 10, 1954, to February 17, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on February 4; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) Notwithstanding the provisions of Orange Regulation 249 (§ 933.663; 19 F. R. 530), no handler shall ship, during the period beginning at 12:01 a. m., e. s. t., February 10, 1954, and ending at 12:01 a. m., e. s. t., February 17, 1954, any Valencia, Lue Gim Gong and similar late-maturing oranges of the Valencia type, grown in the State of Florida:

(i) Which do not grade at least U. S. No. 1; or

(ii) Which are of a size smaller than a size that will pack 126 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, the terms "handler," "ship," "Valencia, Lue Gim Gong, and similar late-maturing oranges of the Valencia type" and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1," "standard pack," and "standard nailed box," shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§§ 51.1140 to 51.1186 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 5th day of February 1954.

S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-936; Filed, Feb. 8, 1954; 8:51 a. m.]

[Grapefruit Reg. 194]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.666 *Grapefruit Regulation 194*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than February 10, 1954. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and, unless sooner terminated, will so continue until February 15, 1954, the recommendation and supporting information for continued regulation subsequent to February 9, 1954, and in the manner herein provided, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on February 4; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) Grapefruit Regulation 193 (§ 933.662; 19 F. R. 529) is hereby terminated at 12:01 a. m., e. s. t., February 10, 1954.

(2) During the period beginning at 12:01 a. m., e. s. t., February 10, 1954, and ending 12:01 a. m., e. s. t., March 1, 1954, no handler shall ship:

(i) Any seeded grapefruit, grown in the State of Florida, (a) which do not grade at least U. S. No. 1; or (b) which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(ii) Any seedless grapefruit, grown in Regulation Area I, (a) which do not grade at least U. S. No. 1; or (b) which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iii) Any seedless grapefruit, grown in Regulation Area II, (a) which do not grade at least U. S. No. 2 Russet; or (b) which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(3) As used in this section, "handler," "ship," "Growers Administrative Committee," "Regulation Area I," "Regulation Area II" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1," "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 5th day of February 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-935; Filed, Feb. 8, 1954; 8:51 a. m.]

[Tangerine Reg. 147]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.667 *Tangerine Regulation 147*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publica-

tion thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than February 10, 1954. Shipments of tangerines, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and, unless sooner terminated, will so continue until July 31, 1954; the recommendation and supporting information for continued regulation subsequent to February 9, and in the manner herein provided, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on February 4; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time of this section.

(b) *Order.* (1) Tangerine Regulation 146 (§ 933.664; 19 F. R. 530) is hereby terminated at 12:01 a. m., e. s. t., February 10, 1954.

(2) During the period beginning at 12:01 a. m., e. s. t., February 10, 1954, and ending at 12:01 a. m., e. s. t., July 31, 1954, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 2 Russet; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than the size that will pack 246 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(3) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2 Russet" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. [illegible])

Done at Washington, D. C., this 5th day of February 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-937; Filed, Feb. 8, 1954; 8:52 a. m.]

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 263—REGISTRATION OF ALIENS IN THE UNITED STATES: PROVISIONS GOVERNING SPECIAL GROUPS

PART 475—ADMISSION OF AGRICULTURAL WORKERS UNDER SPECIAL LEGISLATION

REGISTRATION AND ANNUAL REPORTING OF ADDRESS BY AGRICULTURAL WORKERS

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

1. Section 263.2 is amended to read as follows:

§ 263.2 *Certain Canadian citizens and British subjects; agricultural workers.* (a) The duty imposed on aliens in the United States by section 262 of the Immigration and Nationality Act to apply for registration shall not be applicable to Canadian citizens or British subjects admitted to the United States under the provisions of § 212.3 (a) or (b) of this chapter who depart from the United States within 6 months of admission. If such an alien's stay in the United States is to exceed six months, an application for registration in accordance with the provisions of section 262 of the Immigration and Nationality Act shall be made prior to the expiration of the six-month period.

(b) The duty imposed on aliens in the United States by section 262 of the Immigration and Nationality Act to apply for registration shall not be applicable to agricultural workers admitted to the United States under the provisions of Part 214k or 475 of this chapter during the time such workers maintain their nonimmigrant status. If such a worker fails to maintain the nonimmigrant status under which he has been or may be admitted, an application for registration in accordance with the provisions of section 262 of the Immigration and Nationality Act shall be made immediately.

2. The fourth sentence of § 475.21 *Recruitment centers; preliminary inspection* is amended to read as follows: "Aliens whose conditional permits have been noted by immigration officers shall be conveyed directly from the recruitment center to a reception center at or near a port of entry under the supervision of representatives of the Secretary of Labor for completion of immigration inspection."

3. Section 475.22 is amended to read as follows:

§ 475.22 *Immigration inspection at reception centers; authority to admit; hearings before special inquiry officer* (a) An alien who presents a conditional permit, as described in § 475.21, duly noted by an immigration officer at a recruitment center, and who is found to be admissible under this part as an agricultural worker may be so admitted by the examining immigration officer, at which time such officer shall fingerprint the alien:

(1) By placing the rolled impression of the right index finger on the Form I-100a, Alien Laborer's Permit and Identification Card, which shall be prepared in duplicate in each such case; and

(2) By placing complete fingerprints of both hands on one copy of Form AR-4.

(b) The examining immigration officer shall execute the obverse of Form AR-4 and shall place thereon the serial number of Form I-100a and a stamped notation reading "Admitted as agricultural worker"; and shall mail the executed form direct to the Federal Bureau of Investigation, Washington 25, D. C.

(c) The alien shall be given the Form I-100a bearing his photograph and stating his name, place of birth, and citizenship. Such form shall be duly noted by an immigration officer to show the date, place, and period of the alien's admission to the United States and shall be signed by such officer across the bottom of the photograph, partly on the photograph and partly on the card. Such noted card shall be the sole document required for admission to the United States as an agricultural worker under this part.

(d) In any case in which the examining immigration officer at the reception center is not satisfied that an alien seeking admission under this part is admissible, the alien shall be held for hearing before a special inquiry officer, and the hearing procedure applicable generally to aliens seeking admission to the United States under the immigration laws shall be followed: *Provided, however,* That the case of an alien believed to be inadmissible to the United States under the provisions of paragraph (27), (28), or (29) of section 212 (a) of the Immigration and Nationality Act shall be handled in accordance with the provisions of section 235 (c) of that act and § 235.15 of this chapter.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order relieve restrictions and are clearly advantageous to persons affected thereby.

Dated: February 2, 1954.

HERBERT BROWNELL, Jr.,
Attorney General.

Recommended: January 18, 1954.

ARGYLE R. MACKEY,
Commissioner of Immigration and Naturalization.

[F. R. Doc. 54-887; Filed, Feb. 8, 1954; 8:49 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supplement 3]

PART 40—SCHEDULED INTERSTATE AIR CARRIER AND OPERATION RULES

MISCELLANEOUS CAA RULES

Correction

In F. R. Doc. 53-10489, appearing at page 8676 of the issue for Thursday, December 24, 1953, the following change should be made:

In the first sentence of § 40.90-1, the words "paragraph (b) of this section" should read "§ 40.91-1 (b)."

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[ODM Regulation 1]

ODM REG. 1—ISSUANCE OF NECESSITY CERTIFICATES UNDER SECTION 124A OF THE INTERNAL REVENUE CODE

The following regulations are hereby prescribed by the Office of Defense Mobilization with the approval of the President pursuant to the authority contained in Executive Order 10480, dated August 14, 1953, and section 124A of the Internal Revenue Code.

Sec.
1. Definitions.
2. Criteria for determination of necessity.
3. Criteria for determination of portion of the adjusted basis attributable to defense purposes for computing the amortization deduction.
4. Procedures and responsibilities.
5. Exercise of powers of Certifying Authority.

AUTHORITY: Sections 1 to 5 issued under sec. 216, 64 Stat. 939; 26 U. S. C. Sup. 124A; E. O. 10480, Aug. 14, 1953, 18 F. R. 4939.

SECTION 1. *Definitions.* As used throughout this regulation:

(a) "Emergency facility" means any facility, land, building, machinery or equipment, or any part thereof, the construction, reconstruction, erection, installation or acquisition of which was completed after December 31, 1949, and with respect to which a Necessity Certificate has been made.

(b) "Emergency period" means the period beginning January 1, 1950, and ending on the date on which the President proclaims that the utilization of a substantial portion of the emergency facilities with respect to which Necessity Certificates have been made is no longer required in the interest of national defense.

(c) "Certifying Authority" means the Director of the Office of Defense Mobilization.

(d) "Necessity Certificate" means a certificate made by the Certifying Authority pursuant to section 124A (e) of the Internal Revenue Code, certifying that the construction, reconstruction, erection, installation or acquisition of the facilities referred to in the certificate is necessary in whole or in part in the interest of national defense during the emergency period, and stating the portion of the adjusted basis thereof which has been determined to be attributable to defense purposes within the meaning of such section 124A (e) for computing the amortization deduction under section 124A (a).

(e) "Material" means raw materials, articles, commodities, products, supplies, components, technical information and processes.

SEC. 2. *Criteria for determination of necessity.* Determination will be made by the Certifying Authority as to whether the construction, reconstruction, erection, installation or acquisition of the facility (in whole or in part) is necessary in the interest of national defense during the emergency period.

(a) *Material or service required for national defense.* In making the determination of necessity, a determination will be made that the material or service to be produced with the proposed facility is required in whole or in part in the interest of national defense during the emergency period. A material or service will not be found to be so required unless it is directly required for the Armed Services of the United States or auxiliary personnel, for civil defense, for the Atomic Energy Commission, or for any operations or activities in connection with the Mutual Defense Assistance Act of 1949, as amended; or unless it is necessary for the production of a material or service directly required in the interest of national defense during the emergency period; or unless it is otherwise necessary in the interest of national defense.

(b) *Shortage of facilities for the production of material or service required for national defense.* In making the determination of necessity, a determination will be made that at the time of the beginning of construction, reconstruction, erection, installation or acquisition of the facility, there was or is an existing or prospective overall shortage of facilities for the production of the material or service produced or to be produced by the facility sought to be certified. Consideration will be given to the necessity for and adequacy of facilities for the production of a material or service in a particular region, the necessity for stand-by capacity, and any other factors contributing to or threatening a shortage of facilities for producing such material or service. A shortage will be found to exist only with respect to facilities required to meet expansion goals determined by the Office of Defense Mobilization.

(c) *Other considerations.* In making the determination of necessity, consideration will also be given to other factors such as: new or improved technology; assurance of a fair opportunity for participation by small business; the promotion of competitive enterprise; the competence, performance record and other factors bearing upon the ability of the applicant to construct or acquire, and manage the proposed facility; location of the facility with due regard to military security and dispersion criteria and standards; the degree to which the facility will alleviate the shortage of production; other forms of financial assistance provided by the Government; and the availability of manpower, housing, community facilities, transportation and other factors of production. An existing or prospective shortage of facilities for the production of a material or service necessary in the interest of national defense will not be considered alleviated by:

(1) The acquisition of the productive assets of a going concern or second-hand facilities unless:

(i) Clear prospect of a substantial increase in the usefulness of such facilities for national defense exists and such increase cannot be obtained by other practical means; or

(ii) Substantial loss of usefulness for national defense would probably result in the absence of such acquisition.

(2) The construction, reconstruction, erection, installation or acquisition of that part of a facility which is or will be used in lieu of existing facilities, except to the extent considered extraordinary and necessitated by reason of the emergency.

SEC. 3. *Criteria for determination of portion of the adjusted basis attributable to defense purposes for computing the amortization deduction.* Determination will be made by the Certifying Authority as to the portion of the adjusted basis upon which the amortization deduction under section 124A (a) shall be computed.

(a) In determining the portion to be certified, the Certifying Authority will consider the probable economic usefulness of the facility after five years and the additional incentives to the minimum amount deemed necessary to secure the expansion of industrial capacity in the interest of national defense during the emergency period. For this purpose, consideration will be given to such factors as the character of the business, including the source, amount and nature of the materials required for the expansion and the material or service to be produced; the manufacturing or servicing processes involved; normal depreciation rates; expansion in competitive fields; the extent of risk assumed, including the amount and source of capital employed; the potentiality of recovering capital or retiring debt through tax savings or pricing; the relative expansion needed; the economic consequences of the location of the facility due to security or other emergency factors; increased costs due to expedited construction or emergency conditions; the historical background of the industry; the extent to which the facility is being or will be used in lieu of existing facilities; assistance to small business and the promotion of competitive enterprise; compliance with Government policies, e. g., manpower and dispersion; and other relevant factors. Land will not ordinarily be certified. The percentage certified shall be closely related to the provision of other financial incentives provided by the Government to encourage the construction of facilities, such as direct Government loans, guarantees and contractual arrangements, so that these incentives separately or in combination will secure the needed expansion at mini-

mum cost to the Treasury. Where percentage certification patterns for individual industries are established, adjustments upward or downward may be made for special factors.

SEC. 4. *Procedures and responsibilities*—(a) *Application form.* Formal application shall conform to the standard form prescribed by the Certifying Authority and shall be executed in the manner and by the person prescribed by the form. The standard form of application for a Necessity Certificate may be obtained from the Office of Defense Mobilization, Washington 25, D. C., or from Department of Commerce field offices.

(b) *Classified information.* If the application or its filing would involve the disclosure of information which has a security classification, the applicant shall, prior to the filing of his application, request instruction from the Government agency with which he has classified contract relations.

(c) *Filing of application.* All applications for Necessity Certificates shall be filed with the Office of Defense Mobilization in Washington, D. C., and shall be deemed to be filed when received by that agency.

(d) *Time of filing applications, and cases in which determination of necessity must be made before beginning of construction.* (1) Application for a Necessity Certificate for facilities the construction, reconstruction, erection or installation of which was begun or which were acquired prior to March 1, 1952, or for facilities acquired on or subsequent to March 1, 1952, must be filed before the expiration of six months after the beginning of such construction, reconstruction, erection or installation, or the date of such acquisition.

(2) (i) Applications for Necessity Certificates for any building, structure or other real property, or for the installation of facilities which will become an integral and permanent part of any building, structure or other real property the construction, reconstruction, erection or installation of which is begun on or after March 1, 1952, must be filed prior to the beginning of such construction, reconstruction, erection or installation, except that,

(ii) An application for a Necessity Certificate for any building, structure or other real property or for the installation of facilities which will become an integral and permanent part of any building, structure or other real property the construction, reconstruction, erection or installation of which is begun subsequent to the closing of an expansion goal and prior to the reopening of such expansion goal, must be filed before the expiration of 30 days after the reopening of such expansion goal. Certification in such cases may be made for only that part of any facility which is constructed, reconstructed, erected, installed, or acquired not earlier than six months prior to the date of filing of such application.

(3) (i) Facilities at any one location involving the construction, reconstruction or erection of any building, structure or other real property, or the installation of facilities which will become an integral and permanent part of any building, structure or other real property, and which are estimated by the applicant to cost $100,000 or more, excluding the cost of land, the construction, reconstruction, erection or installation of which is begun on or after March 1, 1952, and prior to December 3, 1953, will not be eligible for certification within the meaning of this regulation unless a determination of necessity is made by the Certifying Authority as evidenced by the issuance of a Necessity Certificate or a Letter of Predetermination prior to the beginning of such construction, reconstruction, erection or installation.

(ii) The term "Letter of Predetermination" shall mean a written communication to the applicant from the Certifying Authority stating that there is a shortage of the facilities for which certification is requested, that the material or service to be produced thereby is necessary in the interest of national defense, and that thereafter the beginning of construction, reconstruction, erection or installation of the facilities for which certification is requested will not in itself prejudice the applicant's eligibility for a Necessity Certificate.

(4) For purposes of subparagraphs (1), (2) (i) and (ii), and (3) (i) and (ii) of this paragraph, the following definition shall apply: Construction, reconstruction, erection or installation is deemed to begin with the incorporation in place on the site by the applicant or by any other person pursuant to any contract, understanding or arrangement, directly or indirectly for or with the applicant, of physical materials as an integral and permanent part of any building, structure or other real property (for example, the pouring or placing of footings or other foundations). Acquisition of land; engineering; contracting for construction; preparation of site; building of access roads; excavation; demolition; installation of service utilities required for construction; the fabrication, production or processing of building materials or building equipment; or the acquisition of personal property to be installed in the building, structure or other real property does not constitute beginning of construction, reconstruction, erection or installation.

(e) *Modification of regulations.* The provisions of this regulation concerning the filing of applications for Necessity Certificates may be changed by the Certifying Authority. Such change shall be made effective not less than 15 days after publication in the FEDERAL REGISTER.

(f) *Referral of application.* Each application, after acknowledgement, will be referred to that agency or officer of the Government according to its respective assigned responsibilities under the Defense Production Act of 1950, as amended. The military department or other Government agency directly interested in the production of the material or service involved in the application for a Necessity Certificate shall on request of any agency or officer to whom the application has been referred, and may in any case, supply such information and advice as may aid the agency or officer in making his report and recommendation to the Certifying Authority.

(g) *Responsibilities of agencies and officers other than Certifying Authority.* Delegate agencies or officers of the Government to which an application is referred, shall be responsible for making a report and recommendation for specific action to the Certifying Authority regarding each application. Such report and recommendation shall be based upon a thorough examination and investigation conducted by the delegate agency or officer or by other competent Government agencies or officers. Such reports shall conform to instructions issued by the Certifying Authority.

(h) *Action by the Certifying Authority.* After consideration of relevant factors, including but not limited to the reports of the delegate agencies and officers of the Government, the Certifying Authority will take action upon the application.

(i) *Necessity Certificates.* Upon approval of an application, a Necessity Certificate will be forwarded to the Commissioner of Internal Revenue and will constitute conclusive evidence of certification by the Certifying Authority that the facilities therein described are necessary in the interest of national defense and of the portion of the adjusted basis upon which the amortization deduction under section 124A (a) shall be computed. The Certifying Authority will not certify the accuracy of the cost of any facility nor of any date relative to the construction, reconstruction, erection, installation or acquisition thereof. It will be incumbent upon taxpayers electing to take the amortization deduction to establish to the satisfaction of the Commissioner of Internal Revenue the identities of the facilities, the costs thereof, and the dates relative thereto.

(j) *Further description after certification.* (1) Where the actual description or cost of a certified facility varies or will vary so materially from the description or cost in the application for a Necessity Certificate as to put in question the identity of the facility, the taxpayer may request an amendment of the certificate by filing a statement with the Certifying Authority setting forth the revised description or cost.

(2) The statement should consist of four copies of an amended Appendix A setting forth all of the emergency facilities certified with their revised descriptions or costs in the same order in which such emergency facilities were listed on the original Appendix A. However, where the original Appendix is lengthy and only a few variations or changes are involved, the four copies of the amended Appendix A may list only the facilities changed. In all instances, the amended descriptions or costs should be identified, by item and page number, with the descriptions or costs contained in the original Appendix A and should be accompanied by a letter explaining all changes with the reasons therefor.

(3) If the Certifying Authority is of the opinion that the varied or changed costs or descriptions are within the scope of the original certification, the amended Appendix A will be forwarded by the Certifying Authority to the Commissioner of Internal Revenue for substitution for the original Appendix A attached to the original certificate to have the effect of an amendment thereof. A copy of the amendment will be transmitted to the taxpayer.

(4) Although reasonable substitutions for facilities previously certified may be determined to be within the scope of the original certification, additional facilities, as a general rule, will not be considered to be within the scope of the original certification and will require a separate new application which may be subject to the provisions of paragraph (d) (3) (i) of this section. The Certifying Authority may, however, afford a filing date for such separate application which will correspond to the date on which the application for amendment was filed for the facilities found to be outside the scope of the original certification.

(k) *Cancellation or amendment of Necessity Certificate.* The Certifying Authority may (1) cancel any Necessity Certificate where it has been obtained by fraud or misrepresentation or has been issued through error or inadvertence, or (2) amend any Necessity Certificate for sufficient cause.

SEC. 5. *Exercise of powers of Certifying Authority.* (a) Any actions taken in exercise of the powers and authority vested in the Director of the Office of Defense Mobilization, by Executive Order 10480, dated August 14, 1953, under section 124A (e) of the Internal Revenue Code may be taken in the name of the Office of Defense Mobilization by the Director's authorized representative.

(b) The Director may for good and sufficient reason in the interest of national defense make exceptions to the requirements for filing in section 4 (d) (2) (i) and (ii) and the requirements of section 4 (d) (3) (i).

DPA Regulation No. 1, as amended, dated February 14, 1952, is hereby superseded.

Effective date: December 3, 1953.

ARTHUR S. FLEMMING,
Director of the Office of Defense Mobilization.

Approved: February 2, 1954.

DWIGHT D. EISENHOWER,
The White House.

[F. R. Doc. 54-906; Filed, Feb. 8, 1954; 8:51 a. m.]

Chapter VI—Business and Defense Services Administration, Department of Commerce

[BDSA Order M-41, as Amended February 5, 1954]

M-41—METALWORKING MACHINES—DELIVERY

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of BDSA Order M-41, as amended, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

BDSA Order M-41 (formerly NPA Order M-41) as amended February 27, 1953, has been amended to eliminate certain items from Exhibit D (redesignated as Exhibit B) and to reduce required deliveries of metalworking machines (other than those listed in Exhibit B as redesignated) to service purchasers from 60 percent to 40 percent. At the same time, the order has been generally revised both for purposes of clarification and to conform its provisions to comparable provisions of more recent BDSA orders and regulations. Sections 11 and 13 have been deleted and the various sections have been renumbered.

Sec.
1. What this order does.
2. Definitions.
3. Scheduling of deliveries to service purchasers.
4. Distribution of production among service groups.
5. Treatment of fractions.
6. Operation of Numerical Preference List.
7. Information to be furnished with new purchase orders.
8. Changes and amendments.
9. Rejection of rated orders.
10. Effect of this order on BDSA Reg. 2.
11. Pool orders.
12. Request for adjustment or exception.
13. Records and reports.
14. Communications.
15. False statements.
16. Violations.

AUTHORITY: Sections 1 to 16 issued under sec. 704, 64 Stat. 816, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply Sec. 101, 64 Stat. 799, Pub. Law 95, 83d Cong.; 50 U. S. C. App. Sup. 2071; E. O. 10480, Aug. 14, 1953, 18 F. R. 4939.

SECTION 1. *What this order does.* This order regulates the delivery of metalworking machines pursuant to rated orders. It requires all producers to schedule their deliveries pursuant to such orders in accordance with the provisions of this order. While it applies particularly to rated orders of service purchasers (as defined), it also has application to rated orders of other persons (including specifically the Atomic Energy Commission and its contractors).

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or of any other government.

(b) "BDSA" means the Business and Defense Services Administration of the United States Department of Commerce.

(c) "GSA" means the General Services Administration.

(d) "Metalworking machine" means any new, nonportable, power-driven item of plant equipment which is listed in Exhibit A, appearing at the end of this order, and has a producer's list price for the basic machine itself of $1,000 or more. The producer's list price for the basic machine itself means the sale price at which the producer's catalog or other price publication lists the basic machine, exclusive of the motor, motor drive, or any attachments therefor, unless the motor, motor drive, or attachments are initially built into the basic machine itself, as an integral part thereof, in which case the producer's list price for the basic machine shall be the sale price at which the producer lists the machine as an assembled unit. The term "metalworking machine" includes all fixtures, equipment, and tooling covered by the original purchase order which are required to be delivered with the basic machine to make it usable in production for the purposes intended. It does not include replacements, spare parts or equipment, or extra tooling.

(e) "Producer" means any person engaged in the manufacture and production of metalworking machines.

(f) "Service group" means a subdivision of the Department of Defense. For the purposes of this order, there are deemed to be seven such subdivisions, consisting of the following: Ordnance, Army less Ordnance, Bureau of Ordnance (Navy), Bureau of Ships (Navy), Miscellaneous Bureaus and Offices (Navy), Bureau of Aeronautics (Navy), and Air Force.

(g) "Service purchasers" means those persons whose purchase orders for metalworking machines call for delivery to a service group, or to one of such group's prime contractors, or to a subcontractor of such a prime contractor. However, no such purchaser shall be considered a service purchaser unless his order is accompanied by a DO rating in accordance with existing regulations.

(h) "Size" includes all of those dimensions or variations of a particular type of metalworking machine which can be used interchangeably for production purposes. Size classification shall be that used by each producer on the effective date of this order, unless he is hereafter authorized to use a different classification. Producers may apply for such permission by letter to the BDSA.

SEC. 3. *Scheduling of deliveries pursuant to rated orders.* (a) Subject to the provisions of paragraphs (b), (c), and (d) of this section and starting March 1, 1954, and on the first day of each succeeding month, each producer shall schedule in accordance with the provisions of this order his deliveries of metalworking machines during the fourth ensuing month pursuant to rated orders whether placed by service purchasers or by other persons; for example, such deliveries for the month of June 1954 would be scheduled on March 1, 1954.

(b) To the extent that a producer has rated orders on hand from service purchasers requiring delivery in the month being scheduled, he shall arrange his schedule so as to deliver to service purchasers (i) all such orders up to 70 percent of his production of each size of the classifications listed in Exhibit B of this order, and (ii) all such orders up to 40 percent of each size of any classification not listed in Exhibit B.

(c) To the extent that a producer has rated orders on hand from service purchasers requiring delivery in the month being scheduled of more than 70 percent of his production in that month

of any size of the classifications listed in Exhibit B, he shall not be required in any such case to schedule for delivery more than 70 percent to service purchasers, even though there be fewer rated orders from other purchasers than the equivalent of 30 percent of his production of such size. To the extent that a producer has rated orders on hand from service purchasers requiring delivery in the month being scheduled of more than 40 percent of his production in that month of any size of any classification not listed in Exhibit B, he shall not be required in any such case to schedule for delivery more than 40 percent to service purchasers, even though there be fewer rated orders from other purchasers than the equivalent of 60 percent of his production of such size.

(d) After scheduling his deliveries of any size of metalworking machine to service purchasers for any month in accordance with paragraphs (b) and (c) of this section, a producer shall schedule the balance of his production of that size of machine for such month so as to fill to the extent possible all rated orders from other purchasers requiring delivery in that month.

(e) Deliveries of metalworking machines during each of the months February 1954 through May 1954 shall be made in accordance with the provisions of BDSA Order M-41 (formerly NPA Order M-41) as amended February 27, 1953.

SEC. 4. *Distribution of production among service groups.* (a) In scheduling deliveries of any size of metalworking machine in fulfillment of rated orders placed by service purchasers, each producer shall schedule such deliveries as between the several service groups in accordance with monthly service quotas for each service group to be determined as provided in this section.

(b) Each producer shall determine the quantity of each size of metalworking machine represented by rated orders on his books for each service group as of a date 90 days prior to the first day of the month then being scheduled, or, at the producer's option, the nearest date within 10 days thereof on which he may have compiled his records of orders. Only those rated orders which by their terms require delivery in the month being scheduled, or in a month previous thereto, shall be considered for this purpose. The number of machines of each size so determined for each service group shall be termed the "net backlog" of that service group for that size of metalworking machine.

(c) Each producer shall then determine the "total net backlog" for each size of metalworking machine by adding together the net backlogs of all service groups for each particular size of metalworking machine.

(d) Each producer shall then determine, subject to the provisions of section 3 of this order, the total number of metalworking machines of a particular size being scheduled by him for delivery pursuant to rated orders of service purchasers for that month and such total shall be termed the "total service group quota." The monthly quota of each size of metalworking machine for any particular service group shall be that proportion of the total service group quota which the net backlog of such particular service group bears to the total net backlog. Each producer shall then schedule deliveries pursuant to rated orders of service purchasers for the month being scheduled so that each service group will be scheduled for its service quota for that month determined as provided in this section.

(e) During each month each producer shall deliver, pursuant to rated orders of service purchasers of each service group, a total number of metalworking machines of each size equal to the quota of that service group of that size for that month. However, no producer shall schedule delivery of any metalworking machine for any service group earlier than the date on which the purchaser requires delivery, unless all required delivery dates on other rated orders for the same size of metalworking machine are being met.

SEC. 5. *Treatment of fractions.* Where the number of metalworking machines which results from any computation required by this order contains a fraction of one-half or more, the fraction shall be counted as a whole metalworking machine. A fraction under one-half shall be disregarded. Where each of the computations of two or more different service quotas for the same month shows a fraction of one-half or more, and there is only one remaining metalworking machine to which such fraction can apply, such metalworking machine shall be allotted to the service group having the largest service quota.

SEC. 6. *Operation of Numerical Preference List.* A Numerical Preference List covering the various service groups will be supplied to producers. In connection with scheduling deliveries for each month pursuant to sections 3 and 4 of this order, this list shall determine the sequence of scheduling of purchase orders for delivery as between service purchasers within each service group as follows:

(a) In scheduling purchase orders for delivery, service purchasers who are on the list shall take precedence over service purchasers who are not on the list.

(b) As between purchase orders having conflicting required delivery dates, delivery of which is to be made to service purchasers on the list within the particular service group, the purchase order of the service purchaser with the higher urgency standing shall be scheduled for delivery ahead of the service purchaser with the lower urgency standing. The highest urgency standing is No. 1.

(c) Scheduling for delivery to a subcontractor or a subcontractor of a subcontractor shall be made in accordance with the urgency standing of his prime contractor and the prime contract number. However, no such subcontractor may use the urgency standing of the prime contractor unless such use is approved by the prime contractor and endorsed by the service department, supply arm, or bureau concerned.

(d) If the urgency standing certified by the purchaser differs from the urgency standing shown for the particular contractor for the particular contract in question on the Numerical Preference List, the latter shall govern.

(e) If the urgency standing of a prime contract is changed by virtue of a revision of the Numerical Preference List, a producer shall not require the purchaser to furnish the new urgency standing, provided such purchaser has furnished to the producer all of the information required under section 7 of this order.

(f) Regardless of the urgency standing certified with the purchase order, no delivery of metalworking machines shall be made prior to the required delivery dates, unless all required delivery dates on other orders for the same size of metalworking machines are being met.

(g) Changes may be made in the Numerical Preference List from time to time by BDSA. Such changes will be effective when scheduling for the next "delivery month." If an interim change is made, the new urgency standing will consist of a number including a decimal. Such an urgency standing will take a position in the sequence of deliveries as indicated by the following example: Urgency standing 92.1 will be delivered after 92 and before 93. Complete revisions of the Numerical Preference List may be made from time to time, and at such times the interim changes will be integrated in the revised Numerical Preference List. Such revised Numerical Preference List will use whole numbers and will be dated. Scheduling under this order will be controlled by the Numerical Preference List in force on the date of scheduling, irrespective of the urgency standing furnished by the purchaser at the time of the placing of the order.

(h) The sequence of conflicting deliveries to service purchasers who are not listed on the Numerical Preference List within each service group shall be determined in accordance with the provisions of BDSA Reg. 2.

SEC. 7. *Information to be furnished with new purchase orders.* (a) All purchasers must indicate specifications or other descriptions of the metalworking machines being ordered in sufficient detail to enable the producer to place the same on his production schedule and must indicate the required delivery date thereof.

(b) All service purchasers must indicate the service group which placed or sponsored the prime contract or subcontract for which the metalworking machine being purchased is to be used, the specific prime contract number, claimant agency number and the urgency standing, if any. If such service purchaser is a subcontractor or a subcontractor of a subcontractor, he must also state the name of the prime contractor.

SEC. 8. *Changes and amendments.* Notwithstanding any other provision of this order, BDSA may amend this order and any of its exhibits, may direct or change any schedule of production or delivery of metalworking machines, may allocate any order for metalworking machines from one producer to another producer, and may divert or otherwise direct the delivery of any metalworking machine from one person to another person.

SEC. 9. *Rejection of rated orders.* A producer need not accept a rated order which he receives less than 3 months prior to the first day of the month in which delivery is requested.

SEC. 10. *Effect of this order on BDSA Reg. 2.* To the extent that this order is in conflict with BDSA Reg. 2 (formerly NPA Reg. 2), the provisions of this order shall control. In all other respects, BDSA Reg. 2 shall continue in full force and effect.

SEC. 11. *Pool orders.* BDSA will from time to time furnish GSA with recommendations for ordering metalworking machines. Under a working arrangement between GSA and BDSA, GSA will place firm orders (herein sometimes called "pool orders") with producers of metalworking machines in accordance with such recommendations. The pool orders so placed by GSA will contain, among other provisions, a provision requiring any producer, on or after the date therein specified, to eliminate items from any such order to the extent that equivalent items manufactured by such producer are invoiced or shipped (whichever is earlier) pursuant to purchase orders from others or to orders and directions of BDSA.

SEC. 12. *Request for adjustment or exception.* Any person subject to any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. The filing of a request for adjustment or exception shall not relieve any person of his obligation to comply with any such provision. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 13. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the Business and Defense Services Administration, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the Business and Defense Services Administration as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 14. *Communications.* All communications concerning this order shall be addressed to the Business and Defense Services Administration, Washington 25, D. C., Ref: BDSA Order M-41.

SEC. 15. *False statements.* The furnishing of false information or the concealment of any material fact by any person in the course of operation under this order constitutes a violation of this order by such person.

SEC. 16. *Violations.* Violation of any provision of this order may subject any person committing or participating in such violation to administrative action to suspend his privilege of making or receiving further deliveries of materials, or using materials or facilities, under priority or allocation control and to deprive him of further priority and allocation assistance. In addition to such administrative action an injunction and order may be obtained prohibiting any such violation and enforcing compliance with the provisions hereof. Any person who wilfully violates any provision of this order, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order, as amended, shall take effect February 5, 1954.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

LAKE WORTH, FLA.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.440 governing the operations of Flagler Memorial and Royal Park bridges over Lake Worth between Palm Beach and West Palm Beach, Florida, from January 1 to April 30 and November 15 to December 31 of each year, is hereby prescribed as follows:

§ 203.440 *Lake Worth (Intracoastal Waterway), Fla.; Flagler Memorial and Royal Park bridges, Palm Beach, Florida.* (a) During the period November 15 to April 30, both dates inclusive, the owner of or agency controlling these bridges will not be required to open the drawspans between the hours of 7:30 a. m. and 9:30 a. m., and between the hours of 4:30 p. m. and 6:30 p. m., except on the hour and the half-hour when the draws shall be opened to allow all accumulated vessels to pass, and except as provided in paragraph (b) of this section.

(b) The draws shall be opened to allow the passage of a vessel in distress or of a commercial tow at any time upon the sounding by the vessel of four blasts of a whistle or horn.

(c) The owner of or agency controlling these bridges shall erect signs on both sides of each bridge which clearly indicate the nature of the regulations

and which meet the approval of the District Engineer in charge of the locality.

[Regs., Jan. 14, 1954, 823.01 (Lake Worth, Fla.)—ENGWO] (38 Stat. 362; 33 U. S. C. 499)

[SEAL] WM. E. BERGIN,

PART 204—DANGER ZONE REGULATIONS

CHOCTAWHATCHEE BAY, FLORIDA, AND GULF OF MEXICO IN VICINITY OF CHOCTAWHATCHEE BAY

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1) and Chapter XIX of the Army Appropriations Act of July 9, 1918 (40 Stat. 892; 33 U. S. C. 3), § 204.130 establishing and governing the use and navigation of waters of Choctawhatchee Bay, Florida, and the Gulf of Mexico in the vicinity of Choctawhatchee Bay, comprising aerial gunnery ranges of the Air Proving Ground Command, Eglin Air Force Base, Florida, is hereby amended by changing the heading and subparagraph (4) of paragraph (a) to read as follows:

§ 204.130 *Gulf of Mexico from St. Andrew Bay to Choctawhatchee Bay, and Choctawhatchee Bay; aerial gunnery and bombing ranges, Air Proving Ground Command, Eglin Air Force Base, Florida*—(a) *The danger zones.* • • •

(4) *Aerial gunnery range along north shore of Choctawhatchee Bay.* The waters of Choctawhatchee Bay within an area described as follows: Beginning at a point in the waters of Choctawatchee Bay at latitude 30°26'00", longitude 86°25'30"; thence north to the shore at longitude 86°25'30"; thence southeasterly and northeasterly along the shore to longitude 86°15'00"; thence south to latitude 30°26'29", longitude 86°15'00"; thence southwesterly to latitude 30°26'12", longitude 86°20'35"; thence north to latitude 30°26'57", longitude 86°20'35"; thence southwesterly to the point of beginning.

• • • • •

PART 210—PROCUREMENT ACTIVITIES OF THE CORPS OF ENGINEERS

Part 210, including §§ 210.1 to 210.4, is revised to read as follows:

Sec.
210.1 Advance notices to prospective bidders.
210.2 Notice of award.
210.3 Notice to proceed.
210.4 Appeals.

AUTHORITY: §§ 210.1 to 210.4 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. 151-161.

§ 210.1 *Advance notices to prospective bidders.* In connection with all construction projects estimated to cost $100,000 or more for which an invitation is scheduled to be issued, an advance notice to prospective bidders will be prepared sufficiently in advance of the actual issuance of the invitation to stimulate interest on the part of the greatest possible number of contractors. Advance notices may also be prepared on projects estimated to cost less than $100,000 and for supplies where considered desirable. However, when an advance notice is used to circularize prospective bidders, copies of the invitation, when issued, will not be used to again circularize all prospective bidders but will be furnished to only those requesting same. Information on several projects for which invitations are scheduled to be issued may be grouped in one advance notice provided that information on any project or projects is not unduly delayed in order to be grouped with others. Advance notices will contain in general the following information:

(a) Name and address of contracting office.

(b) Invitation number of proposed invitation.

(c) Tentative dates for issuance of invitation and opening of bids or period of advertising.

(d) Description of the work to be performed or supplies to be furnished including approximate quantities except that where a large number of items are involved in a construction project only the most important will be shown or in the case of a supply invitation items may be grouped under general headings.

(e) Location of the project including state, county and nearest railhead or point of access, or in the case of supplies the point of delivery.

(f) Time allowed for commencement and completion of the work or delivery time.

(g) Bond requirements.

(h) Any other contract provisions or requirements, such as liquidated damages, considered of special interest to bidders.

(i) Information on obtaining drawings, specifications and bidding papers, including any deposit required. A suitable form request will be attached to the advance notice for the convenience of prospective bidders and or subcontractors in requesting copies of the bidding documents.

§ 210.2 *Notice of award.* The successful bidder will be notified in writing of the acceptance of its bid. Under construction contracts this notice may accompany the contract papers which are forwarded to him for execution. To avoid error, or confusing the notice of award with a notice to proceed, the notice of award will be in substantially the following form:

You are hereby notified that your bid dated _____ in the sum of _____ is accepted. A formal contract will be prepared for execution. Acceptable performance and payment bonds (if required) must be furnished upon execution of the formal contract. If approval of the contract is required by its express terms, the contract is not fully executed until such approval is obtained.

Under supply contracts an award mailed (or otherwise furnished) to the successful bidder within the time for acceptance specified in the bid results in a binding contract without further action by either party. This may be accomplished by executing Standard Form 26 when using the long form contract or Standard Form 33 when using the short form contract.

§ 210.3 *Notice to proceed*—(a) *General.* When the contract specifies the time when the contractor is to proceed with the work under the contract, a notice to proceed will not be required. However, in any case where the contract requires the issuance of notice to proceed, the notice will be forwarded by registered mail, return receipt requested, and will fix the time for the commencement of the work and also, if appropriate, will fix the time for the completion of the work. The notice to proceed will be executed in triplicate, and will bear the contract number in the upper right-hand corner of the notice.

(b) *Contractor's acknowledgment.* When a notice to proceed is issued, the contractor will acknowledge receipt thereof by signing and dating the acknowledgment in triplicate. The original and one copy will be returned to the contracting officer and the third copy retained by the contractor.

(c) *Commencing performance.* Contractors in no case will be required to begin performance prior to the commencement date fixed in the contract or in a notice to proceed. If they voluntarily do so they act at their own risk, if the contract is ultimately not signed (and approval when required). Contractors will not be required to commence performance until (1) the contractor has furnished performance and payment bonds, when required, and (2) the contract is signed by the contractor and the contracting officer, and approved, when approval is required.

§ 210.4 *Appeals*—(a) *Provisions for appeal.* The standard contract forms provide an orderly method of taking appeals from decisions of the contracting officer.

(b) *Findings of fact*—(1) *Construction contracts.* If the contractor appeals from the contracting officer's decision on any dispute involving a question of fact, the contracting officer will make thorough findings of fact and serve a true copy thereof upon the contractor and invite his prompt response thereto.

(2) *Supply contracts.* In rendering a decision on any dispute involving a question of fact, the contracting officer will prepare and sign findings of fact, a true copy of which with his written decision will be promptly furnished the contractor.

(c) *Rules of the Corps of Engineers Claims and Appeals Board; introduction.* The following rules are promulgated by the Corps of Engineers Claims and Appeals Board, Office of the Chief of Engineers, for the guidance of contractors having contracts with the Corps of Engineers, and others concerned.

(1) *Rule 1: Appeals, how taken.* An appeal from the decision of a contracting officer must be in writing, addressed to the appellate authority named in the contract and filed with the officer from whose decision the appeal is taken, within the time allowed by the contract. Where the findings of fact are furnished to the contractor with the decision of the contracting officer as in the case of supply contracts and the contractor seasonably files an appeal from such decision, he shall respond to the findings of fact within 15 days from the date upon which his appeal is filed, or such longer period as may be granted by the contracting officer. In the event the appellant fails to respond to the findings of fact within such period of time the contracting officer will transmit the record to the appellate authority without such response. In the case of construction contracts it is not customary to furnish findings of fact until after the contractor has filed an appeal. In such case if the appellant fails to respond within 15 days to the findings of fact, or such longer period as the contracting officer may grant, the record will be transmitted to the appellate authority without such response.

(i) *Form, size and number of papers filed.* Appeals, notices, motions, applications, stipulations, briefs, depositions, and other papers if typewritten, filed with the Board shall be typewritten on one side of the paper only, with margin of 1½ inches on the left of the page, and, as far as practicable shall be upon paper 8½ x 11 inches in size. The papers shall be fastened on the left side with covers or backs. Four copies of each of such papers, whether typewritten or not, except stipulations and depositions, will be filed.

(ii) *Number to be assigned to proceedings.* The recorder shall assign a number to each appeal coming before the Board, which number will be placed on all papers in the case. An appeal as used herein means one or more disputes which, in the opinion of the Board, can be conveniently considered as a group at the same time.

(2) *Rule 2: Forms of appeals.* An appeal may take the form of a notice of appeal. A notice of appeal should indicate that an appeal is thereby intended, and should identify the contract (by number), the decision from which the appeal is taken, the date of the decision, the contractual provisions concerned in the dispute, the nature of the dispute and the relief sought by the appeal. Specific facts and argument in support of the appeal, complete in reasonable detail, should either be included in the notice of appeal, or submitted directly to the Board within 30 days of the filing of the notice of appeal, or within such longer period of time as may be allowed by the Board. A suggested form of notice of appeal is contained in paragraph (d) of this section but the notice of appeal may be in the form of a letter or in any other form which presents the necessary information. The notice of appeal should be signed personally by the contractor taking the appeal, or by an officer of the appellant corporation or member of the appellant firm, or by the contractor's duly authorized representative.

(3) *Rule 3: Time of filing to be endorsed.* When a notice of appeal in any form has been received by the contracting officer, he shall endorse thereon the date of filing and forward the appeal through channels to the Corps of Engineers Claims and Appeals Board, Office of the Chief of Engineers, Washington 25, D. C.

(4) *Rule 4: Scope of hearing.* Attention is invited to the Disputes Article of the contract which establishes this Board's jurisdiction. That article provides that disputes over questions of fact are to be decided by the contracting officer subject to written appeal within the time prescribed in the contract. Therefore this Board is without jurisdiction to consider appeals from a decision by the contracting officer if filed after the time permitted by the contract. Equally it has no jurisdiction to consider disputes which have not heretofore been presented to and decided by the contracting officer. The Board determines what issues were before the contracting officer and hence will be before the Board by examination of the record with particular reference to the claim, the decision of the contracting officer, the findings of fact and response to the findings of fact. If either side desires that additional data be presented, supplementary to that contained in the record before the Board, this may be done by the filing of appropriate memoranda or at a hearing, if a hearing is desired. Such evidence may be submitted as is pertinent to the issues presented to and decided by the contracting officer from whose decision appeal has been made. The hearing will be recorded and a transcript will be made available to the appellant at cost if prior request for same has been made. If counsel is employed by the appellant he, as well as the appellant, will be required to conform with Army Special Regulation No. 600-785-1 (32 CFR 582.1) dealing with representative activities before an agency of the Department of the Army.

(5) *Rule 5: Notice of hearings.* The appellant will be given at least 15 days' notice of the time and place of hearing. Continuances will not be granted except upon written request and for good cause.

(6) *Rule 6: Place of hearing.* Ordinarily the place of hearing will be in the Office of the Chief of Engineers, Washington, D. C. If the appellant desires that a hearing be held at a place other than Washington, D. C., he will, at the time of taking his appeal, or within a reasonable time thereafter, but before service of notice of hearing, make a written request therefor, stating the place preferred for the hearing, and stating fully the reason for such request. The representative of the Government handling the case may, within 10 days after an appeal has been filed in the office of the Board, file with the Board a written request for hearing at a place other than the office of the Board and will in such request state fully the reasons therefor. If the appellant does not request a hearing at a place other than at the office of the Board, the Board may, nevertheless, on its own motion hold a hearing at another place.

(7) *Rule 7: Absence of parties or counsel.* The unexcused absence of appellant or his counsel at the time and place set for the hearing of any proceeding will not be the occasion for delay, but the hearing will proceed and the case will be regarded as submitted on the part of the absent party.

(8) *Rule 8: Applications for rehearings.* Rehearing, further hearing or reconsideration of a decision, may be had, if in the judgment of the Board sufficient reason therefor appears.

(d) *Suggested form of notice of appeal.*

Date _____

Appeal of _____
(Name of contractor)

Under Contract No. _____

To the _____
(Secretary of the Army or the Chief of Engineers, U. S. Army, as appropriate, throught the Contracting Officer)

The undersigned contractor hereby appeals to the _____ from the decision of (Insert the name of title of the contracting officer, or other authority, as the case may be) rendered on the ____ day of _____ 19 __, to the effect that:

(Insert the decision, or a summary thereof, from which the appeal is taken.)

The dispute arises under or concerns the following contract provisions:

(Insert pertinent contract provisions.)

The decision here appealed from was erroneous for the following reasons:

(State specific facts and circumstances upon which the contractor relies in taking this appeal. Indicate which of those facts the contractor understands are not disputed by the contracting officer.)

This appeal is taken pursuant to the provisions of the contract, Article No. _____ (Insert reference to the pertinent disputes article of the contract, or indicate other basis of the appeal.)

PROPOSED RULE MAKING

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 270]

REGISTRATION OF MANAGEMENT INVESTMENT COMPANIES ORGANIZED UNDER CANADIAN LAW

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration the adoption of Rule N-7D-1 under the Investment Company Act of 1940. The proposed rule is declarative of the conditions and arrangements to be entered into by a management investment company organized under the laws of Canada, so that an order permitting registration of the company under section 7 (d) of the act may be issued as of course and without the necessity for hearing, if such order is otherwise appropriate. Section 7 (d) of the act authorizes the Commission to issue a conditional or unconditional order permitting a foreign investment company to register under the act and to make a public offering of its securities if the Commission finds that "by reason of special circumstances or arrangements, it is both legally and practically feasible effectively to enforce the provisions of [the act] against such company and that the issuance of such order is otherwise consistent with the public interest and the protection of investors."

In line with the policy of this government to facilitate and encourage foreign investments, the Commission directed its staff to endeavor to formulate the "special arrangements" which would meet the standards of section 7 (d). After extended discussions with certain Canadian companies which have applied for registration, conditions and arrangements have been formulated which are embodied in the proposed rule. It is believed that such a rule will provide definitive standards upon which Canadian investment companies may rely and will aid in the disposition of applications filed under section 7 (d).

The conditions and arrangements have been established in the light of the high degree of comity that has prevailed between this country and Canada, the existing treaties, the proximity of the two countries, their joint heritage of the common law, and the essential similarity of statutes and law relating generally to corporations and the rights of stockholders. Accordingly, the rule is applicable only to Canadian management investment companies. Conditions and arrangements proposed by investment companies organized under the laws of other foreign countries will be considered by the Commission on a case by case basis in the light of the statutory standards.

In order to implement the statutory means of enforcement of the act against the company and to assure their legal and practical effectiveness, the rule provides that the charter and bylaws of the company contain the substantive provisions of the act which the company will agree may be enforced as a matter of contract right in the United States or Canada by shareholders or the Commission. The officers and directors, of whom a majority are required to be citizens of the United States, will also agree to comply with the act and will consent to the enforcement of their agreements in a similar manner. In furtherance of this purpose the rule also requires the company to maintain its assets in the United States and agree to their liquidation and distribution upon direction of the Commission, or the courts, upon a finding of non-compliance by the company or its officers and directors with their agreements or the Commission's order.

Compliance with the rule will impose duties and obligations both on the company and certain of its affiliated persons and create concomitant rights by agreement, which in the over-all, it is believed, will accord protection to investors, equal to, though not necessarily identical with, the protection accorded by the act to investors in the usual domestic company.

The text of the proposed rule follows:

§ 270.7d–1 *Specification of conditions and arrangements for Canadian management investment companies requesting order permitting registration.* (a) A management investment company organized under the laws of Canada or any province thereof may obtain an order pursuant to section 7 (d) permitting its registration under the act and the public offering of its securities, if otherwise appropriate, upon the filing of an application complying with paragraph (b) of this section. All such applications will be considered by the Commission pursuant to the procedure set forth in § 270.0–5 and other applicable rules. Conditions and arrangements proposed by investment companies organized under the laws of other countries will be considered by the Commission in the light of the special circumstances and local laws involved in each case.

(b) An application filed pursuant to this section shall contain, inter alia, the following undertakings and agreements of the applicant:

(1) Applicant will cause each present and future officer, director, investment adviser, principal underwriter and custodian of the applicant to enter into an agreement, to be filed by applicant with the Commission upon the assumption of such office by such person, which will provide, among other things, that each such person agrees (i) to comply with the applicant's Letters Patent (Charter) and By Laws, the act and the rules thereunder, and the undertakings and agreements contained in said application insofar as applicable to such person; (ii) to do nothing inconsistent with the applicant's undertakings and agreements required by this section; (iii) that the undertakings enumerated as subdivisions (i) and (ii) of this subparagraph constitute representations and inducements to the Commission to issue its order in the premises and continue the same in effect, as the case may be; (iv) that each such agreement constitutes a contract between such person and the Commission, applicant and its shareholders with the intent that applicant's shareholders shall be beneficiaries of and shall have the status of parties to such agreement so as to enable them to maintain actions at law or in equity within the United States and Canada for any violation thereof. In addition the agreement of each officer and director will contain provisions similar to those contained in subparagraph (6) of this paragraph.

(2) That every agreement and undertaking of the applicant, its officers, directors, investment adviser, principal underwriter and custodian required by this section (i) constitute inducements to the Commission for the issuance and continuance in effect of, and conditions to, the Commission's order to be entered under this section; (ii) constitute a contract among applicant and the Commission and applicant's shareholders with the same intent as set forth in subparagraph (1) (iv) of this paragraph; and (iii) failure by the applicant or any of the above enumerated persons to comply with any such agreement and undertaking, unless permitted by the Commission, shall constitute a violation of the order entered under this section.

(3) That the Commission, in its discretion, may revoke its order permitting registration of the applicant and the public offering of its securities if it shall find after notice and opportunity for hearing that there shall have been a violation of such order or the act and may determine whether distribution of applicant's assets is necessary or appropriate in the interests of investors and may so direct.

(4) That applicant will perform every action and thing necessary to cause and assist the custodian of its assets to distribute the same, or the proceeds thereof, if the Commission or a court of competent jurisdiction, shall have so directed by a final order.

(5) That any shareholder of the applicant or the Commission on its own motion or on request of shareholders shall have the right to initiate (i) a proceeding before the Commission for the revocation of the order permitting registration of the applicant or (ii) before a court of competent jurisdiction for the liquidation of applicant and a distribution of its assets to its shareholders. Such court may enter such order in the event that it shall find, after notice and opportunity for hearing, that applicant, its officers, directors, investment adviser, principal underwriter or custodian shall have violated any provision of the act or the Commission's order of registration of the applicant

A court of competent jurisdiction for the purpose of subparagraphs (4) and (5) of this paragraph means any District Court of the United States in the State of the United States in which the assets of the applicant are maintained.

(6) That any shareholder of the applicant or the Commission on its own motion or on request of shareholders shall have the right to bring suit at law or in equity in any court of the United States or Canada having jurisdiction over applicant, its assets or any of its officers or directors to enforce compliance by applicant, its officers and directors with any provision of applicant's Charter or By Laws, the act and the rules thereunder, or undertakings and agreements required by this section, insofar as applicable to such persons. That such court may appoint a trustee or receiver with all powers necessary to implement the purposes of such suit, including the administration of the estate, the collection of corporate property including choses-in-action, and distribution of applicant's assets to its creditors and stockholders. That applicant and its officers and directors waive any objection they may be entitled to raise and any right they may have to object to the power and right of the Commission or any shareholder of the applicant to bring such suit, reserving, however, their right to maintain that they have complied with the aforesaid provisions, undertakings and agreements, and otherwise to dispute such suit on its merits. Applicant, its officers and directors also agree that any final judgment or decree of any United States court as aforesaid, may be granted full faith and credit by a court of competent jurisdiction of Canada and consent that such Canadian court may enter judgment or decree thereon at the instance of the Commission or any stockholder of the applicant.

(7) Applicant will file, and will cause each of its present or future directors, officers, or investment advisers who is not a resident of the United States to file with the Commission irrevocable designation of the applicant's custodian as an agent in the United States to accept service of process in any suit, action or proceeding before the Commission or any appropriate court to enforce the provisions of the acts administered by the Commission, or to enforce any right or liability based upon applicant's Charter, By Laws, contracts, or the respective undertakings and agreements of any such person required by this section, or which alleges a liability on the part of any such persons arising out of their service, acts or transactions relating to the applicant.

(8) Applicant's Charter and By Laws, taken together, will contain, so long as applicant is registered under the act, in substance the following:

(i) The provisions of the act as follows: section 2 (a); *Provided*, That the term "Government securities" defined in section 2 (a) (16) may include securities issued or guaranteed by Canada or any instrumentality of the government of Canada; the term "value" defined in section 2 (a) (39) may be defined solely for the purposes of sections 5 and 12 in accordance with the provisions of § 270.2a–1 (Rule N-2A–1) if the same shall be necessary or desirable to comply with Canadian regulatory or revenue laws or rules or regulations thereunder; the term "bank" defined in section 2 (a) (5) shall be defined solely for the purposes of sections 9 and 10, as any banking institution; section 4; section 5; section 6 (c); section 9; section 10 (a), (b), (c), (e), (f), and (g); *Provided*, That the provisions of section 10 (d) may be substituted for the provisions of sections 10 (a) and 10 (b) (2) if applicable; section 11; section 12 (a), (b), (c), and (d); section 13 (a); section 15 (a), (b), and (c); section 16 (a); sections 17, 18, 19, 20 and 21; section 22 (d); section 22 (e); *Provided*, That the Toronto Stock Exchange or the Montreal Stock Exchange or both may be included in addition to the New York Stock Exchange; section 22 (f); section 22 (g); section 23; section 25 (a) and (b); section 30 (a), (b), (d), (e), and (f); section 31; section 32 (a); *Provided*, That provision may be made for the selection and termination of employment of the accountant in compliance with The Companies Act of Canada; section 32 (b). Where a provision of the act prohibits or directs action by an investment company, or its directors, officers or employees, the Charter or By Laws shall state that the applicant or its directors, officers or employees shall or shall not act, as the case may be, in conformity with the intent of the statute; where the provision applies to others, such as principal underwriters, investment advisers, controlled companies and affiliated persons, the Charter or By Laws shall also state that the applicant will not permit the prohibited conduct or will obtain the required action. Any of the provisions of sections 11, 12, 15, 18, 22, 23, 30, and 31 may be omitted if not applicable to a company of applicant's classification or sub-classification as defined in section 4 or 5 of the act or if not applicable because the subject matter of such provisions is prohibited by the Charter or By Laws. Other provisions of the act not specified above may be incorporated in the applicant's Charter or By Laws at its option.

(ii) Any question of interpretation of any term or provision of the Charter or By Laws having a counterpart in or otherwise derived from a term or provision of the act shall be resolved by reference to interpretations, if any, of the corresponding term or provision of the act by the courts of the United States of America or, in the absence of any controlling decision of any such court, by rules, regulations, orders or interpretations of the Commission.

(iii) Applicant will maintain the original or duplicate copies of all its books and records at the office of its custodian or other office located within the United States.

(iv) At least a majority of the directors and of the officers of the applicant will be United States citizens of whom a majority will be resident in the United States.

(v) Applicant will appoint, by contract, a bank, as defined in section 2 (a) (5) and having the qualification described in section 26 (a) (1), to act as trustee of, and maintain in its sole custody in the United States, all of applicant's securities and cash, other than cash necessary to meet applicant's current administrative expenses. Said contract will provide, inter alia, that said custodian will (a) consummate all purchases and sales of securities by applicant, other than purchases and sales on an established securities exchange, through the delivery of securities and receipt of cash, or vice versa as the case may be, within the United States, and (b) redeem in the United States such of applicant's shares as shall be surrendered therefor, and (c) distribute applicant's assets, or the proceeds thereof, to applicant's creditors and shareholders, upon service upon the custodian of an order of the Commission or court directing such distribution as provided in subparagraphs (3) and (5) of this paragraph.

(vi) Applicant's principal underwriter for the sale of its shares will be a citizen and resident of the United States or a corporation organized under the laws of a state of the United States, and having its principal place of business therein, and a member in good standing of a securities association registered under section 15A of the Securities Exchange Act of 1934.

(vii) Applicant will appoint an accountant, qualified to act as an independent public accountant for the applicant under the act and the rules thereunder, who maintains a permanent office and place of business in the United States.

(viii) Any contract entered into between the applicant and its investment adviser and principal underwriter will contain provisions in compliance with the requirements of sections 15, 17 (i) and 31 and the rules thereunder, and require that the investment adviser maintain in the United States its books and records or duplicate copies thereof relating to applicant.

(ix) Applicant's Charter and By Laws will not be changed in any manner inconsistent with this paragraph or the act and the rules thereunder unless authorized by the Commission.

(9) Applicant's Charter and By Laws constitute a contract, not only among the governmental body issuing such Charter, applicant, and its stockholders, but also among such governmental body, applicant, its stockholders, its officers, its directors, and the Commission.

(10) Contracts of the applicant, other than those executed on an established securities exchange which do not involve affiliated persons, will provide that:

(i) Such contracts, irrespective of the place of their execution or performance, will be performed in accordance with the requirements of the act, the Securities Act of 1933, and the Securities Exchange Act of 1934, if the subject matter of such contracts is within the purview of such acts; and

(ii) In effecting the purchase or sale of assets the parties thereto will utilize the United States mails or means of interstate commerce.

(11) Applicant will furnish to the Commission with its registration statement filed under the act a list of persons

affiliated with it and with its investment adviser and principal underwriter and will furnish revisions of such list, if any, concurrently with the filing of periodic reports required to be filed under the act.

All interested persons are hereby invited to submit views and comments on the proposed rule addressed to the Securities and Exchange Commission, 425 Second Street NW., Washington, 25, D. C., on or before March 5, 1954.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARIZONA

STOCK DRIVEWAY WITHDRAWAL NO. 164, ARIZONA NO. 6, REDUCED

JANUARY 29, 1954.

By virtue of the authority contained in section 10 of the act of December 29, 1916, 39 Stat. 865, as amended by the act of January 29, 1929, 45 Stat. 1144 (43 U. S. C. 300), and pursuant to the authority delegated to me by the Director, Bureau of Land Management, in section 2.22 (a) (1) of Order No. 427 dated August 16, 1950, 15 F. R. 5641, it is ordered as follows:

The order of the Secretary of the Interior dated June 6, 1923, establishing Stock Driveway Withdrawal No. 164, Arizona No. 6, as amended July 29, 1924, is hereby revoked insofar as it affects the following described lands:

GILA AND SALT RIVER MERIDIAN

T. 1 N., R. 8 E.,
Sec. 21, E½ and NW¼.

The areas described aggregate 480.00 acres.

The NW¼NW¼ is withdrawn for use by the State of Arizona for road material pursuant to sec. 17 of the act of November 9, 1921, 42 Stat. 212. The remaining lands have been classified in Arizona Small Tract Classification No. 28, dated January 29, 1954, for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a).

Information as to preference-right filing period for veterans of World War II and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) may be obtained from the Manager, Land and Survey Office, Post Office Building, Phoenix, Arizona.

E. R. SMITH,
Regional Administrator.

[F. R. Doc. 54-878; Filed, Feb. 8, 1954; 8:46 a. m.]

ARIZONA

CLASSIFICATION ORDER

JANUARY 29, 1954.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427, dated August 16, 1950, 15 F. R. 5639, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following described lands in the Arizona land district, embracing approximately 440 acres.

ARIZONA SMALL TRACT CLASSIFICATION NO. 28

For lease and sale for home or business sites:

T. 1 N., R. 8 E., G. & S. R. M.,
Sec. 21, W½NW¼NE¼NW¼, W½SW¼SW¼SE¼.

For lease and sale for homesites only:

T. 1 N., R. 8 E., G. & S. R. M.,
Sec. 21, E½NW¼NE¼NW¼, NE¼NE¼NW¼, S½NE¼NW¼, S½NW¼, NE¼, E½SW¼SW¼SE¼, SE¼SW¼SE¼, N½SW¼SE¼, SE¼SE¼, N½SE¼.

The lands are located just east of the junction of U. S. Highway 60 and State Highway 68 in the area known as Apache Junction, and approximately 16 miles east of Mesa, Arizona. The topography is flat to rolling, cut by numerous washes. The soil varies from a sandy loam to coarse gravel with scattered rock outcroppings. Vegetation is typical of the southwestern desert. The only utility available at present is electric power. Water for domestic purposes must be obtained from drilled wells.

2. The lands described in the NW¼ sec. 21 were placed under consideration for small tract classification on March 14, 1951 at 10:45 a. m. The lands in the E½ sec. 21 were placed under consideration for small tract classification on October 9, 1953 at 11:53 a. m.

3. As to applications filed on the lands embraced in this order at or prior to the time they were placed under consideration for small tract classification, this order shall become effective upon the date it is signed, provided the applications conform to or are made to conform to the provisions of this order.

4. This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to applications under the Small Tract Act as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject to applications under the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II, subject to the requirements of applicable law. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to disposal under the Small Tract Act only. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

5. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. The lands will be leased in tracts of approximately 5 acres, 660 feet by 330 feet. In the W½SW¼NW¼ and in the E½E½E½ the longer dimension of each tract will extend east and west. In the remaining lands the longer dimension of each tract will extend north and south. Leases will be for a period of three years. For homesites, the annual rental is $5.00 payable for the entire lease period in advance of the issuance of the lease. For business sites, the minimum annual rental is $20.00 payable for the entire lease period in advance of the issuance of the lease. The lessee for a business site shall be obligated to pay any additional rental at the rate fixed by the schedule of rentals in effect at the date of the approval of his lease.

7. Leases will contain an option to purchase clause at the appraised values. The W½NW¼NE¼NW¼ and W½SW¼SW¼SE¼ are appraised at $200 00 per tract. All remaining tracts are appraised at $175 00 per tract.

(a) Applications for purchase may be filed during the term of the lease but not more than 30 days prior to the expiration of one year from the date of the lease, provided minimum improvements suitable for the purpose for which the lands are leased shall have been constructed prior to the date of application to purchase. Minimum improvements for homesites shall consist of a habitable house of substantial construction containing at least three rooms and a minimum floor area of 500 square feet.

(b) Leases issued under the terms of this order shall not be subject to assignment unless and until improvements as mentioned in (a) shall have been completed.

(c) Leases for lands upon which the improvements mentioned above shall not have been constructed at or before the expiration thereof shall not be renewed.

8. Lessees and/or their successors in interest shall comply with all Federal, State, County and municipal laws and ordinances, especially those governing health and sanitation, and failure or refusal to do so may be cause for cancellation of the lease in the discretion of the authorized officer of the Bureau of Land Management.

9. Tracts will be subject to all existing rights-of-way and to 33-foot rights-of-way along all sides of each 40-acre subdivision of the regular survey for road purposes and public utilities.

The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of patent. If not so located, they may be subject to location after patent is issued. All rights-of-way herein mentioned and reserved may be utilized by the Federal Government, or the State, County or municipality in which the tract is situated, or by any agency thereof.

10. All inquiries relating to these lands should be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

E. R. SMITH,
Regional Administrator.

STRAWBERRY VALLEY PROJECT, UTAH

ORDER OF REVOCATION

JULY 10, 1952.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Orders of January 30, 1906, February 29, 1912, April 16, 1913, May 2, 1914, June 16, 1915, January 6, 1923, and January 10, 1923, insofar as said orders affect the following described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said orders or affect any other orders withdrawing or reserving the lands hereinafter described:

SALT LAKE BASE AND MERIDIAN

T. 8 S., R. 1 E.
Sec. 2: Lot 1;
Sec. 3: Lots 1 and 2;
Sec. 9: Lots 1, 2, 4, 5, and 6, and S½SE¼;
Sec. 10: Lots 9, 11, 12, and 13, SW¼NE¼, SE¼NW¼, SW¼, and NW¼SE¼;
Sec. 11: Lots 1, 2, 3, and 4, W½SW¼, N½SE¼, and SE¼SE¼;
Sec. 12: Lots 1, 2, 3, and 4, and S½;
Sec. 13: N½, NE¼SW¼, S½SW¼, and SE¼;
Sec. 14;
Sec. 15: Lots 1, 2, 3, 4, 5, 6, 7, and 8;
Sec. 16: Lots 3, 4, 5, and 6, NE¼, E½NW¼, and S½;
Sec. 17: 1, 3, and 4;
Sec. 20: 1, 2, 3, and 4, and E½E½;
Sec. 21: W½W½;
Sec. 22: Lots 3 and 4;
Sec. 23;
Sec. 24;
Sec. 25: Lots 1 to 8, incl., S½N½, and S½;
Sec. 26: Lots 1 to 8, incl., S½N½, and S½;
Sec. 27: Lot 1;
Sec. 29: Lots 2, 3, 5, 6, 7, and 8, NE¼, E½SW¼, and W½SE¼;
Sec. 32: Lots 3, 4, 5, 6, 7, 8, 9, and 10, NE¼, NE¼NW¼, and N½SE¼;
Sec. 35;
Sec. 36.
T. 9 S., R. 1 E.,
Sec. 1: Lots 1, 2, 3, and 4, S½N½, and S½;
Sec. 2: Lots 1, 2, 3, and 4, S½N½, and S½;
Sec. 5: Lots 2, 3, 4, 6, and 7, SW¼NE¼, W½E½SW¼, and NW¼SE¼;
Sec. 6: Lot 1;
Sec. 7: Lots 1, 2, 3, 4, and 5, NE¼SE¼, and S½SE¼;
Sec. 8: W½NW¼, W½SW¼, SE¼SW¼, and SW¼SE¼;
Sec. 11: E½, W½NW¼, and SW¼;
Sec. 12;
Sec. 13;
Sec. 14: Lot 1, E½, E½NW¼, and NE¼SW¼;
Sec. 15: NE¼, and N½SE¼;
Sec. 16;
Sec. 17: N½, N½SW¼, and SE¼;
Sec. 18: NE¼NE¼;
Sec. 20: E½NE¼, and SE¼;
Sec. 21: NW¼NE¼, S½NE¼, NW¼, and S½;
Sec. 22: W½SW¼, and SE¼SW¼;
Sec. 23: E½, and SE¼SW¼;
Sec. 24;
Sec. 25;
Sec. 26: NE¼, NE¼NW¼, S½NW¼, and S½;
Sec. 27: NW¼;
Sec. 28;
Sec. 29;
Sec. 30: Lots 1, 2, 3, and 4, E½W½, and E½;
Sec. 31: Lots 1, and 2, E½, and E½W½;
Sec. 32;
Sec. 33;
Sec. 34: SE¼NE¼, W½, and SE¼;
Sec. 35;
Sec. 36.

The above areas aggregate 23,674.88 acres.

[SEAL] G. W. LINEWEAVER,
Assistant Commissioner.

FEBRUARY 3, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The following-described public land occupies rolling foothills and is primarily valuable for grazing purposes. It is unlikely that it will be classified for any other use, but any application that is filed will be considered on its merits:

SALT LAKE BASE AND MERIDIAN

T. 8 S., R. 1 E.,
Sec. 32, lots 5 and 6, and S½NW¼NE¼, E½NE¼, NE¼SE¼.

The remaining lands included in this order are either State or privately owned.

This order shall not otherwise become effective to change the status of the public lands released from withdrawal until 10:00 a. m. on the 35th day after date of this order. At that time the said lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended.

Inquiries concerning the lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Salt Lake City, Utah.

WILLIAM PINCUS,
Assistant Director,
Bureau of Land Management.

FEDERAL POWER COMMISSION

[Docket No. G-2348]

TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION

FEBRUARY 3, 1954.

Take notice that on January 11, 1954, Texas Eastern Transmission Corporation (Texas Eastern), a Delaware corporation having its principal place of business at Shreveport, Louisiana, filed an application, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to sell and deliver to Waynesburg Home Gas Company (Waynesburg), under the terms of Texas Eastern's WPS Rate Schedule, to and including March 31, 1954, certain quantities of natural gas, not less than the winter contract quantity of 6,060 Mcf (14.73 psia) and the maximum daily quantity of 137 Mcf. Applicant states on information that Waynesburg has been unable to obtain sufficient quantities of gas on peak days, and that due to unforeseen demands upon Waynesburg and one of its suppliers, Waynesburg will suffer a deficiency in supply if it is unable to obtain additional volumes of given peak days until March 31, 1954. A temporary certificate was granted on January 18, 1954, authorizing the service proposed. No new facilities would be required.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and

procedure (18 CFR 1.8 or 1.10) on or before the 24th day of February 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-884; Filed, Feb. 8, 1954; 8:48 a. m.]

[Docket Nos. G-1277, G-2015, G-2114]

TRANSCONTINENTAL GAS PIPE LINE CORP. ET AL.

ORDER GRANTING IN PART AND DENYING IN PART PETITION FOR REHEARING

In the matters of Transcontinental Gas Pipe Line Corporation, Docket No. G-1277; Mid-Georgia Natural Gas Company, Docket No. G-2015; City of Covington, Georgia, Docket No. G-2114.

On January 8, 1954, the City of Covington, Georgia (Applicant), filed a petition for rehearing in the above-entitled matters and requested that the Commission grant the following relief, or such other relief as it may deem just and proper:

1. Vacate the order adopted December 10, 1953, and issued December 11, 1953, in the above-captioned proceedings.

2. Issue a new order for the purpose of:

(a) Modifying the decision of the Presiding Examiner in the above-captioned proceedings by striking paragraph (E) therefrom and substituting therefor a new paragraph, such new paragraph to provide for the severance of Docket No. G-2114 from Docket No. G-2015, the reopening and consolidation of Docket No. G-2114 with Dockets Nos. G-1277, et al., G-1335, G-1407, and G-1411 for the purpose of authorizing your Petitioner to participate in the further proceedings to be held in such consolidated dockets and for the purpose of deferring a final decision in Docket No. G-2114 until such time as the matters before the Commission in such other consolidated dockets are finally disposed of.

(b) Affirming in all other respects the Presiding Examiner's decision in the above-captioned proceedings.

Paragraph (E), above referred to, denied the application of the Applicant in Docket No. G-2114 for an order pursuant to section 7 (a) of the Natural Gas Act directing Transcontinental Gas Pipe Line Corporation to establish physical connection of its facilities with a lateral line proposed to be constructed by the City of Covington, and to sell and deliver to said city a supply of natural gas sufficient to meet the natural gas requirements of its proposed municipal project.

The Presiding Examiner's decision, issued October 26, 1953, as modified by the Commission's order issued December 11, 1953, became the final decision of the Commission.

Applicant's request for a rehearing appears to stem primarily from the modification by the Commission of the Presiding Examiner's decision resulting from its order issued December 11, 1953, which order, among other things, authorized the construction and operation of certain transportation facilities, in Docket No. G-2015, which included facilities interconnecting the communities of Porterdale and Covington, Georgia, and was conditioned as follows:

(c) The issuance of the certificate to Mid-Georgia herein provided is granted upon the express condition that Mid-Georgia shall obtain from the City of Covington, and the Town of Oxford, Georgia, which it proposes to serve, new franchises properly validated pursuant to Georgia law, or a ratification by the aforementioned communities of franchises previously issued, or obtain from the proper courts of Georgia an affirmative declaratory judgment of the validity of such franchises. Mid-Georgia shall within 6 months from the date of issuance of the order herein, file with the Commission in satisfaction of this condition and as evidence that it possesses appropriate franchise authorization from said communities, certified copies of the authority which it asserts constitutes lawful franchise grants to construct and operate distribution systems for the purpose of supplying natural gas in the City of Covington and the Town of Oxford.

The Applicant herein, due to certain recent developments, all as more fully set forth in its petition for rehearing, requests that it be afforded an opportunity to present additional evidence bearing upon the mandate of its citizens for the construction and operation of a municipal system, and to demonstrate the financial feasibility of such project as a result of Transcontinental Gas Pipe Line Corporation's new rates, approved by the Commission's order issued December 30, 1953, in Docket No. G-2075.

On January 22, 1954, the City of Covington, Georgia, filed a petition to intervene in Docket Nos. G-1277 and G-1411[1] for the purpose of permitting its participation in said proceedings set to commence on February 8, 1954, as provided by the Commission's order issued December 11, 1953.

Applicant, by its petition to intervene, seeks to obtain an allocation of natural gas from Transcontinental Gas Pipe Line Corporation's existing system, should it develop during the course of hearing, to commence on February 8, 1954, that there is available a supply of natural gas from the Company's system which may be subject to future allocation. The relief sought by said petition to intervene is substantially the same as requested in the above-entitled matter, insofar as it relates to Docket No. G-2114. Therefore, the relief requested by the City can more appropriately be dealt with in the reopened and consolidated proceedings at Docket Nos. G-1277 and G-1411. An appropriate order permitting the intervention of the City of Covington in the consolidated proceedings at Docket Nos. G-1277 and G-1411 has been adopted concurrently with the adoption of our order herein.

[1] The proceedings at Docket Nos. G-1277, G-1335, G-1407, and G-1411 were reopened and consolidated for the purpose of hearing by the Commission's order issued December 11, 1953.

The Commission finds:

(1) Under the circumstances outlined in the petition for rehearing filed by the City of Covington at Docket No. G-2015, it is in the public interest that both the City of Covington and the Town of Oxford, Georgia, and the Mid-Georgia Natural Gas Company be afforded an opportunity to submit further evidence bearing upon their respective positions relating to the introduction of natural gas into the City of Covington and the Town of Oxford, Georgia, and Applicant's petition for rehearing at Docket No. G-2015 should be granted.

(2) The grounds for rehearing and other relief, as related to Docket Nos. G-1277 and G-2114, which have been duly considered, are not sufficient to warrant the granting of said petition for rehearing or other relief in said proceedings.

The Commission orders:

(A) The petition for rehearing, filed on January 8, 1954, at Docket No. G-2015, be and the same is hereby granted, but limited to that Docket, said rehearing to be held at a time and place to be hereafter fixed by the Commission.

(B) The petition for rehearing in Docket Nos. G-1277 and G-2114 in all other respects be and the same is hereby denied.

Adopted: February 2, 1954.

Issued: February 3, 1954.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 59-93, 70-1804]

ARKANSAS NATURAL GAS CORP. ET AL.

ORDER WITH RESPECT TO FILING OF REPORTS CONCERNING FEES AND EXPENSES

FEBRUARY 2, 1954.

In the matter of Arkansas Natural Gas Corporation, Cities Service Company, File No. 54-186; Arkansas Natural Gas Corporation and its subsidiaries and Cities Service Company, File Nos. 59-93 and 70-1804.

The above-entitled consolidated proceedings involve a plan and amendments thereto filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") and a proceeding instituted pursuant to section 11 (b) (2) of the act designed to bring the system of Arkansas Natural Gas Corporation (now, by change of name, Arkansas Fuel Oil Corporation), a registered holding company, into compliance with section 11 (b) of the act. The Commission has heretofore reserved jurisdiction with respect to the fees and expenses paid or to be paid by the several companies concerned with this plan for services rendered in connection therewith and related proceedings.

Applications for allowances or approval of amounts already paid have been filed with the Commission but no procedure with respect to the disposition of such applications has been fixed.

The Commission has decided it to be necessary or appropriate in the public interest or for the protection of investors or consumers that, as a first step in fixing the ultimate procedure to be followed and as an aid to the Commission in determining what fees and expenses it should ultimately approve, an order should be entered, under the authority conferred by section 11 (f) of the act, requiring that the companies concerned with said section 11 (e) plans, file with the Commission, either jointly or severally, a report or reports setting forth certain information.

It is therefore ordered, That on or before April 15, 1954, Cities Service Company and Arkansas Fuel Oil Corporation shall file with the Commission, either jointly or severally, 10 copies of a report or reports which shall set forth in a manner so as to indicate the proposed allocation thereof between such companies:

(1) The amounts of fees and expenses claimed by the respective applicants for services rendered in connection with the above-entitled and related proceedings;

(2) The amounts of fees and expenses which the paying company has already paid or is prepared to pay without modification;

(3) The amounts of fees and expenses, if any, which each company is willing to pay and which the claimants after negotiation with the company or companies involved have indicated a willingness to accept; and

(4) In cases where such negotiations have been unsuccessful, the amounts of fees and expenses which each company considers to be reasonable and which it is willing to pay.

It is further ordered, That any agreement as to amounts as contemplated by paragraph (3) above shall be subject to the provisions of the respective plans and to approval by the Commission and the exercise by the Commission of its full powers with respect to fees and expenses conferred by the act in connection with plans filed under section 11 (e) thereof.

It is further ordered, That with respect to the information required to be furnished by paragraph (4) above, such information shall be submitted directly to the Chairman of this Commission and be kept confidential unless and until a further order of this Commission shall require otherwise.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-881; Filed, Feb. 8, 1954; 8:47 a. m.]

[File Nos. 70-3124, 70-3139]

STANDARD POWER AND LIGHT CO.

SUPPLEMENTAL ORDER APPROVING CERTAIN ACCOUNTING ENTRIES

FEBRUARY 2, 1954.

The Commission by order dated August 25, 1953, having granted an application (File No. 70-3124) filed by Standard Power and Light Company ("Standard Power"), a registered holding company, with respect to the acquisition by Standard Power of 290,000 shares of common stock of its public utility subsidiary, Duquesne Light Company ("Duquesne"), from Standard Gas and Electric Company ("Standard Gas"), a registered holding company and also a subsidiary of Standard Power, as a distribution in partial liquidation of Standard Gas, and the record not having been completed with respect to the accounting entries to be made by Standard Power to record such acquisition;

The Commission by orders dated November 9 and November 30, 1953, having permitted to become effective a declaration, as amended (File No. 70-3139) filed by Standard Power with respect to its proposals (a) to pay a dividend of 25 cents per share, which was represented would be paid out of capital surplus, to the holders of its outstanding Common Stock and (b) to sell, at a private negotiated sale, from 10,000 to 15,000 shares of the aforementioned 290,000 shares of common stock of Duquesne;

The Commission, in said orders dated November 9 and November 30, 1953, having reserved jurisdiction over, among other things, the appropriateness of the accounting entries to be made by Standard Power in recording said dividend and said sale of Duquesne common stock;

Standard Power having advised the Commission that it has acquired the said 290,000 shares of Duquesne common stock, paid the proposed dividend out of capital surplus, and offered 10,000 shares of the said Duquesne stock, of which 8,500 shares were sold, and the record now having been completed with respect to Standard Power's proposed accounting entries for the recording of such transactions;

The Commission having considered the proposed accounting entries and observing no basis for adverse findings with respect thereto, and deeming it appropriate that said accounting entries be approved and that the jurisdiction heretofore reserved in said orders dated November 9 and November 30, 1953, with respect to accounting entries be released;

It is ordered, That the accounting entries to be made by Standard Power to record the acquisition of the said 290,000 shares of Duquesne common stock, the payment of said dividend and the sale of said 8,500 shares of Duquesne stock be, and hereby are, approved, and that the jurisdiction heretofore reserved in said orders dated November 9 and November 30, 1953, with respect to accounting entries be, and it hereby is, released.

It is further ordered, That the jurisdiction heretofore reserved over all other matters described in the Commission's order dated November 9, 1953, be, and the same hereby is, continued.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28883]

GRAIN FROM OKLAHOMA TO TEXAS

APPLICATION FOR RELIEF

FEBRUARY 3, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for the Atchison, Topeka and Santa Fe

Railway Company, Gulf Colorado and Santa Fe Railway Company and Panhandle and Santa Fe Railway Company.

Commodities involved: Grain, grain products and related articles, carloads.

From: Points in Oklahoma.

To: Points in Texas.

Grounds for relief: Competition with rail carriers, circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, ICC No. 3941, supl. 73, Atchison, Topeka and Santa Fe Railway Company, ICC 14530, supl. 31.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

FEDERAL REGISTER

VOLUME 19 NUMBER 28

Washington, Wednesday, February 10, 1954

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas), Department of Agriculture

PART 722—COTTON

AMENDMENT 1 TO PROCLAMATION OF NATIONAL ACREAGE ALLOTMENT FOR THE 1954 CROP OF UPLAND COTTON AND AMENDMENT 3 TO MARKETING QUOTA REGULATIONS RELATING TO THE 1954 CROP OF UPLAND COTTON

Basis and purpose. The amendments set forth herein are made to give effect to the provisions of Public Law 290, 83d Congress, approved January 30, 1954, relating to cotton. Section 1 of the said Public Law adds a new subsection (m) to section 344 of the Agricultural Adjustment Act of 1938, as amended, and section 2 of the said Public Law adds a new sentence to section 344 (h) of the act. Paragraphs (1) and (3) of the new subsection (m) of section 344 apply only to the 1954 crop of cotton, while paragraph (2) applies to both the 1954 and 1955 crops of cotton.

Farmers in the southernmost areas of the cotton-belt have begun planting their 1954 cotton crops and farmers in the other areas are making plans and purchasing seed, fertilizer, and other supplies and equipment for the planting and production of cotton this year. In order that the provisions of sections 1 and 2 of the said Public Law may be carried out promptly by the State and county Agricultural Stabilization and Conservation Committees, it is essential that the amendments set forth herein be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act (5 U. S. C. 1003) is impracticable and contrary to the public interest, and the amendments contained herein shall be effective upon filing of this document with the Director, Division of the Federal Register.

1. Section 722.503 of the Proclamation Relating to National Marketing Quota and National Acreage Allotment for the 1954 Crop of Upland Cotton (18 F. R. 6556) is amended by adding a new sentence at the end thereof as follows:

"Pursuant to Public Law 290, 83d Congress, approved January 30, 1954, the national acreage allotment of 17,910,448 acres determined as described above is hereby increased to 21,000,000 acres and to such increased allotment there is added an additional 379,358 acres."

2. The Marketing Quota Regulations Relating to Apportionment of the National Acreage Allotment for the 1954 Crop of Upland Cotton to States, Counties and Farms (18 F. R. 7527), as amended, are hereby amended as follows:

a. Section 722.515 is amended to read as follows:

§ 722.515 *Apportionment of national acreage allotment among States*—(a) *Apportionment of original national acreage allotment.* The national acreage allotment of 17,910,448 acres proclaimed October 9, 1953, for the 1954 crop of cotton (18 F. R. 6556), less the acreage required pursuant to section 344 (k) of the act to provide any State an allotment not less than the smaller of 4,000 acres or the highest acreage planted to cotton in any of the years 1951, 1952, or 1953, is apportioned among the other States on the basis of the average acreage planted to cotton in each such State for the years 1947, 1948, 1950, 1951 and 1952. It has been determined that, on the basis of the latest available data and information, no adjustments in State cotton acreages for abnormal weather conditions are required for any of the aforementioned years. The acreage allotted to a State pursuant to the provisions of this paragraph is herein referred to as the State acreage allotment.

(b) *Apportionment of national acreage allotment increase.* Pursuant to Public Law 290, 83d Congress, approved January 30, 1954, the national acreage allotment increase of 3,468,910 acres is apportioned to States as follows:

(1) Three million eighty-nine thousand five hundred and fifty-two acres (21,000,000 acres minus 17,910,448 acres) are apportioned among the States of Alabama, Arizona, Arkansas, California, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia, on the basis of the same average acreage

twenty-one million acres allocated pursuant to paragraph (a) of this section and subparagraph (1) of this paragraph,

(3) Thirty-six thousand and five hundred (36,500) acres are apportioned to the State of Arizona and twenty-two thousand eight hundred and ninety (22,890) acres are apportioned to the State of California in order to provide each such State a total State acreage allotment of not less than 66 percent of the acreage planted to cotton in the State in 1952.

(4) Four thousand nine hundred and sixty-eight (4,968) acres are apportioned to the State of Florida, which acreage shall be used by the State committee as a reserve to make equitable adjustments in farm acreage allotments on the basis of land, labor, and equipment available for the production of cotton, crop-rotation practices, past acreages of cotton, soil, and other physical factors affecting the production of cotton.

(c) *State acreage allotments.* The total acreage allotted to each State pursuant to paragraph (b) of this section shall be referred to herein as the "State acreage allotment increase". The sum of the State acreage allotment established pursuant to paragraph (a) of this section and the State acreage allotment increase shall be referred to herein as the "total State acreage allotment". The State acreage allotment, the State acreage allotment increase, and the total State acreage allotment for each State for the 1954 crop of cotton are as follows:

State	State acreage allotment	State acreage allotment increase	Total State acreage allotment
Alabama	1,139,121	207,280	1,346,401
Arizona	288,223	125,597	413,820
Arkansas	1,562,684	284,352	1,847,036
California	697,806	238,602	936,408
Florida	33,[illegible]	10,994	44,116
Georgia	1,005,862	183,032	1,188,894
Illinois	14,000	0	14,000
Kansas	180	0	180
Kentucky	9,536	1,663	10,799
Louisiana	634,906	115,530	750,436

North Carolina	528,638	96,193	624,831
Oklahoma	929,302	169,081	1,098,383
South Carolina	786,006	143,034	929,040
Tennessee	575,891	104,792	680,683
Texas	7,376,858	1,342,320	8,719,178
Virginia	18,341	3,338	21,682
United States, total	17,910,448	3,468,910	21,379,358

[1] Minimum State acreage allotments determined in accordance with section 344 (k) of the Agricultural Adjustment Act of 1938, as amended.

b. Section 722.516 is amended by adding thereto the following:

(g) *Apportionment of State acreage allotment increase to counties.* Unless the State committee apportions the State acreage allotment increase as provided in paragraph (h) of this section, such increase (excluding the acreage apportioned to the State of Florida pursuant to § 722.515 (b) (4)) shall be apportioned to counties on the basis of their respective shares of the State acreage allotment apportioned to counties prior to January 30, 1954, pursuant to paragraphs (a) to (f), inclusive, of this section.

(h) *Apportionment of State acreage allotment increase directly to farms.* If the State committee determines that such action will result in a more equitable distribution of the State acreage allotment increase (excluding the acreage apportioned to the State of Florida pursuant to § 722.515 (b) (4)), it shall apportion the additional acreage directly to farms so as to provide, insofar as such acreage is adequate, each farm with an allotment equal to the larger of 65 percent of the average acreage planted to cotton on the farm in 1951, 1952, and 1953 (as determined and used by the county committee in establishing allotments under paragraphs (a) to (g), inclusive, of § 722.517) or 40 percent of the highest acreage planted to cotton on the farm in any one of such three years as so determined and used: *Provided*, That the State committee in each State shall limit the increased allotment so computed to an acreage not in excess of 50 percent of the cropland on the farm, or a lower percentage of the cropland on the farm as determined by the State committee on the basis of the system of farming, soil, crop-rotation practices, and other physical factors affecting the production of cotton in the State. If the State total of the indicated additional allotments so computed for all farms exceeds the State acreage allotment increase, such indicated additional allotments shall be reduced pro rata to the amount of the State acreage allotment increase. Any portion of the State acreage allotment increase which is not used for increasing farm acreage allotments as provided above shall be apportioned by the State committee to counties on the basis of the acreages planted to cotton during a period of years selected by the State committee from the period 1947 to 1953, inclusive (the period of years shall be not less than three years and shall not include the year 1949), using for 1953 the county total of measured cotton acreages for farms and for other years the same acreage data as was used in determining computed county acreage allotments pursuant to paragraph (b) of this section. Before apportioning such unallotted acreage to counties as provided in the preceding sentence, the State committee may, if it determines that such action is required to provide equitable allotments within the State, apportion such unallotted acreage directly to farms to the extent required to increase each farm's allotment to the minimum acreage allotment described in section 344 (f) (1) of the act.

(i) *Apportionment of acreage unallotted because of highest planted acreage limitation.* Any part of the acreage allotted prior to January 30, 1954, to a county pursuant to paragraphs (a) to (f), inclusive, of this section which was not apportioned to farms because of the provision contained in section 344 (f) (2) of the act which limits the factored farm allotment to the highest acreage planted to cotton on the farm in any of the years 1951, 1952, and 1953, shall be available to the State committee and used in the same manner as that prescribed in paragraph (h) of this section for apportionment of unallotted acreage of the State acreage allotment increase.

(j) *Apportionment of excess released acreage to counties.* The acreage allotment surrendered to the State committee pursuant to § 722.517 (k) shall be apportioned by the State committee to counties on the basis of trends in acreage, abnormal conditions adversely affecting plantings, or for small or new farms.

(k) *Farm cropland percentage limits established by State Committees.* The cropland limitation percentages determined by the State committees for use in conjunction with the provisions for increasing farm acreage allotments under the "65–40" formula contained in the proviso in paragraph (h) of this section and in paragraph (i) (1) of § 722.517 are as follows:

State:	Cropland limitation percentage
Alabama	40
Arkansas	50
Arizona	50
California	50
Florida	40
Georgia	50
Kentucky	40
Louisiana	50
Mississippi	40
Missouri	40
New Mexico	40
North Carolina	50
Oklahoma	50
South Carolina	50
Tennessee	50
Texas	47
Virginia	50

c. Section 722.517 is amended by adding thereto the following:

(i) *Apportionment of additional acreage allotment to farms.* The additional acreages made available to the county committee pursuant to paragraphs (g), (h), (i), and (j) of § 722.516 shall be apportioned to farms as follows:

(1) The acreage allotment apportioned to the county under paragraph (g) of § 722.516 shall be apportioned to farms in the county in accordance with paragraphs (a) to (d), inclusive, of this section: *Provided*, That, if the county committee determines that such action will result in a more equitable distribution of such acreage allotment among farms in the county, such acreage allotment shall be apportioned by the county committee to farms so as to provide, insofar as such acreage is adequate, each farm with an allotment equal to the larger of 65 percent of the average acreage planted to cotton on the farm in 1951, 1952, and 1953 (as determined and used by the county committee in establishing allotments under paragraphs (a) to (g), inclusive, of this section) or 40 percent of the highest acreage planted to cotton on the farm in any one of such three years as so determined and used: *Provided*, That the State commit-

tee in each State shall limit the increased allotment so computed to an acreage not in excess of 50 percent of the cropland on the farm, or a lower percentage of the cropland on the farm as determined by the State committee on the basis of the system of farming, soil, crop-rotation practices, and other physical factors affecting the production of cotton in the State. If the acreage allotment available to the county pursuant to § 722.516 (g) is insufficient to meet the total of the indicated additional allotments so computed, such indicated additional allotments shall be reduced pro rata to an amount equal to such acreage allotment available; if the acreage allotment available to the county is in excess of the total of the indicated additional allotments so computed, the acreage remaining after making such indicated additional allotments shall be allotted to farms pursuant to the provisions of paragraph (d) of this section.

(2) The portion of the State acreage allotment increase which is not apportioned directly to farms pursuant to paragraph (h) of § 722.516 but which is apportioned to the county pursuant to that paragraph, plus the acreage apportioned to the county pursuant to § 722.516 (i), shall be used by the county committee for adjusting farm acreage allotments on the basis of one or more of the following: The past acreages of cotton on the farm, the percentage of cropland heretofore determined under paragraph (e) of this section and the factors enumerated in paragraph (d) of this section.

(3) The acreage apportioned to the county under paragraph (j) of § 722.516 may be used for establishing and adjusting farm acreage allotments for new farms or small farms in accordance with the provisions of paragraphs (d) and (e) of this section.

(j) *Reallocation of allotments for flooded farms.* In any county in which a major flood control reservoir constructed by the United States Government is located wholly or in part, farm acreage allotments established pursuant to the provisions of this section and § 722.516 (h) for the production of cotton on the lands within such reservoir, which lands, because of permanent or perennial flooding occasioned by the construction of such reservoir, shall be unfit for further cotton production, may be reallocated, within the discretion of the county committee, to other farms within the county as will in the opinion of the committee best serve the public interest.

(k) *Release and reapportionment of cotton acreage allotments.* Any part of any 1954 farm cotton acreage allotment on which cotton will not be planted in 1954 and which is voluntarily released to the county committee by the closing date established by the State committee for the entire State, or for areas in the State if there is a substantial difference in planting dates for different areas in the State, which shall be the date on which the planting of cotton normally becomes general on farms in the State or area, shall be deducted from the cotton acreage allotment for such farm and may be reapportioned by the county committee not later than the date established by the State committee, which shall be the latest date on which cotton can normally be planted on farms in the State or area with reasonable expectations of producing an average crop, to other farms receiving allotments in the same county in amounts determined by the county committee to be fair and reasonable on the basis of past acreages of cotton, land, labor, and equipment available for the production of cotton, crop-rotation practices, and soil and other physical facilities affecting the production of cotton. If all of the allotted acreage voluntarily released is not needed in the county, the county committee may surrender the excess acreage to the State committee for reapportionment to counties as provided in § 722.516 (j). Any farm acreage allotment released for 1954 only shall, in determining future farm cotton acreage allotments, be regarded as having been planted on the farm releasing such allotments if cotton was planted on such farm in at least one of the years in the three-year farm base period. Any part of any farm acreage allotment may be permanently released in writing to the county committee by the owner and operator of the farm, and reapportioned as provided in this paragraph. In determining future farm cotton acreage allotments, the planting in 1954 of reapportioned acreage allotment shall not be considered. For purposes of determining future State and county acreage allotments, reapportioned acreage will be credited to the State and to the county in which such acreage was planted.

d. Section 722.520 is amended by adding a new sentence at the end thereof reading as follows: "Immediately after acreage allotments for farms in a county or other local administrative area are established pursuant to § 722.516 (h) and paragraphs (i), (j), and (k) or § 722.517 and approved by the State committee as provided in § 722.529 (a), the county committee shall mail to the operator of each farm in the county for which an allotment is established for the 1954 crop of cotton a written notice of the farm acreage allotment and marketing quota for the farm."

e. Section 722.529 (a) is amended by changing the first sentence to read as follows: "The State committee shall review all acreage allotments and may correct or require correction of any determinations made under § 722.516 (h) or §§ 722.517 to 722.527."

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 342–348, 361–368, 373–374, 388, 52 Stat. 38, as amended. Pub. Law 290, 83d Cong.; 7 U. S. C. 1301, 1342–1348, 1361–1368, 1373–1374, 1388)

Done at Washington, D. C., this 8th day of February 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54-969; Filed, Feb. 8, 1954; 2:05 p. m.]

TITLE 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

[Domestic Uranium Program Circular 7]

PART 60—DOMESTIC URANIUM PROGRAM

URANIUM LEASES ON LANDS AFFECTED BY FEDERAL MINERAL LEASING LAWS

§ 60.7 *Uranium leases on lands affected by Federal mineral leasing laws—*

(a) *What this section does.* This section provides for the issuance of leases by the United States Atomic Energy Commission to make certain public lands available for uranium mining purposes. It is designed to encourage the search for, development and production of uranium-bearing ores. It is intended to apply to public lands which at the time of leasing for uranium are not subject to location of mining claims under the United States mining laws because such lands are embraced within an offer, application, permit, or lease under the Mineral Leasing Act of 1920 (41 Stat. 437; 30 U. S. C. 181 et seq.), as amended, or because such lands are known to be valuable for minerals leasable under that act.

(b) *Statutory authority.* The Atomic Energy Act of 1946, as amended (60 Stat. 755–775; 67 Stat. 240; 42 U. S. C. 1801–1819) is authority for this section.

(c) *Procedure for acquiring a lease.* (1) The lands as to which a lease is sought must be in tracts, preferably rectangular, not to exceed 1,500 feet in length by 600 feet in width, which must be distinctly identified and marked on the ground by suitable monuments at each corner so that the surface boundaries thereof may be readily found and traced. When the true point for a tract corner falls upon an inaccessible place, a witness corner should be established. Monuments should be posts not less than 4 inches in diameter or stone monuments at least 18 inches high and must be marked with the name of the tract and the designation of the corner, either by number or cardinal point.

(2) There must be posted conspicuously at one of the corner monuments for each tract of land so marked, a written or printed "Notice of Lease Application" containing the name(s) of the applicant(s), the name of the tract, the date of posting, the length and general course of the boundary lines of the tract and the position of the tract referenced to a corner of the public land survey or, if there is no public land survey, a natural object or permanent monument.

(3) The applicant or applicants shall record the "Notice of Lease Application" for each tract in the office of the county recorder of the county in which such tract is situated within thirty days after the identification, marking and posting of such tract on the ground as provided for in subparagraphs (1) and (2) of this paragraph.

(4) An application for a lease provided for by this section must be filed with the Atomic Energy Commission, Grand Junction Operations Office, P. O. Box 270, Grand Junction, Colorado, on a form prescribed for this purpose, within sixty days after the recordation

required by subparagraph (3) of this paragraph, and must be accompanied by a certified copy or copies of the recorded "Notice of Lease Application", the rental required by paragraph (f) of this section, and a map satisfactory to the Commission on which one inch equals 500 feet or less, showing (i) land subdivision if surveyed, (ii) tract pattern with courses and distances of the boundary lines, and reference to a corner of the public land survey, if surveyed, or reference to a natural object or permanent monument, if unsurveyed, by which the location of the tract(s) on the ground can be readily and accurately ascertained, and (iii) position of conflicting claims of which the applicant or applicants are aware. The Commission may require additional information in connection with consideration of the application.

(d) *Eligibility of applicants.* Uranium mining leases under this section will be issued only to qualified applicants who are (1) citizens of the United States, (2) associations of such citizens, or (3) corporations organized under the laws of the United States or of any state or territory thereof. A uranium mining lease will not be issued to anyone under 21 years of age.

(e) *Commission decisions.* All matters connected with issuance and administration of leases will be determined by the Commission, using the provisions of this section as criteria. Although priority in posting a tract, provided there is timely compliance with the other provisions of paragraph (c) of this section, will normally be the controlling criterion in cases where more than one application has been filed for part or all of a particular tract, consideration may be given to other factors. The Commission reserves the right to refuse to issue a lease as to any or all the tracts included in an application even though there has been compliance with the terms of this section if it believes such refusal is desirable in the national interest.

NOTE: Misrepresentation or falsification of facts in a notice of application for lease or in the application may subject the offender to criminal penalties under pertinent provisions of the United States Code including section 1001 of Title 18. Any such offenses also will disqualify the offender from receiving a lease.

(f) *Royalty and rentals.* Leases under this section will be on a royalty-free basis. Rental shall be ten dollars ($10) per lease year per tract of 1,500 feet by 600 feet, or fraction thereof, payable in advance by certified check or money order made payable to Treasurer of United States, at the time of application for a lease and prior to the beginning of each lease year thereafter. No refund of rental will be made by the Commission to the lessee or lessees should the lease be relinquished or canceled as provided for in paragraphs (k) and (l) of this section. If an insufficient rental payment is made, the Commission may, at its discretion, select the tracts under the lease to which the payment is applicable.

(g) *Work requirements.* A condition of every lease entered into under this section will be the conduct on the leased premises of exploration, development or mining activities with reasonable diligence, skill and care for the purpose of achieving and maintaining maximum production of uranium ore consistent with good mining practice and the size of the deposit, unless other arrangements are specified in writing by the Commission. In any event, but not in limitation of the lease condition set forth in the preceding sentence, such activities must include for each 1,500 feet by 600 feet tract, or fraction thereof constituting a tract, one hundred dollars ($100) worth of labor performed or improvements made on or beneath the surface of the leased premises during each lease year. Labor performed or expenditures made in marking or posting the tract or tracts comprising the leased premises, expenditures attributable to travel of personnel to and from the premises and acquisition cost of equipment may not be applied to satisfy work requirements of the lease. A statement signed by the lessee or lessees must be submitted to the Commission within fifteen (15) days after the close of each lease year listing the work performed under the lease as measured in lineal feet of each type of drilling, cubic yards of surface excavation in rock, gravel, earth or other material, cubic feet of underground excavation, indicated by type, or other work performed or improvements made on the leased premises. Whenever cost of labor is used as a measure of work performed, the statement must include the name or names of the workmen performing the labor, date or dates on which work was performed and a description of the work performed. In determining the cost of labor, actual wage rates shall be used unless they are in excess of rates prevailing in the area for similar work at the time the work was done, in which case the prevailing rates shall be used for the purposes of this computation. Labor performed or improvements made on any one tract may be applied to not more than nine (9) additional contiguous tracts under the same lease in the order designated by the lessees. Labor performed or improvements made under one lease may not be applied to satisfy work requirements under any other lease issued under this section.

(h) *Size of lease.* Ordinarily no lease containing in excess of 100 tracts will be issued.

(i) *Lands to be in a reasonably compact body.* The area covered by a lease under this section should be in a reasonably compact body and will ordinarily consist of adjoining tracts or tracts closely situated to each other. No lease under this section shall convey extralateral rights.

(j) *Term of lease.* A lease issued under this section ordinarily will be for a term of five (5) years and renewable as to any or all of the tracts for not more than five (5) additional periods of three (3) years each upon written application made by a lessee or lessees in good standing within sixty (60) days prior to expiration of the lease or any extension thereof. If a tract leased under this section becomes open in whole or in part to location of mining claims under the United States mining laws during the lease term, the Commission may refrain from thereafter extending such lease as to the land so opened to such entry.

(k) *Relinquishment.* A lease or any of the tracts under a lease may be relinquished by the lessee or lessees by written notification sent to the Commission at its Grand Junction, Colorado, office. Relinquishment shall take effect on the date such notification is received by the Commission as evidenced by the written acknowledgement of the Commission. The lessee or lessees within fifteen (15) days of receipt of the Commission's acknowledgement of relinquishment shall file the acknowledgement in the office of the county recorder for the county in which such leased tracts are located.

(l) *Cancellation.* Should the lessee or lessees fail to comply with any of the terms and conditions of the lease within thirty (30) days after receipt of written notice from the Commission specifying such failure and requesting compliance, or should there be any falsification or misrepresentation of a material fact, whether or not intentional, in the notice of lease application or in the application for uranium mining lease, the Commission shall have the right to terminate such lease in whole or in part and the Commission shall then be entitled and authorized to take immediate possession of the affected land and dispossess all persons occupying the same under the authority of the lease.

(m) *Effective date of lease.* A lease issued under this section will ordinarily be effective as of the date it is signed by the Commission.

(n) *Assignment.* Leases issued under this section may be assigned as to all or any of the leased tracts subject to approval by the Commission. To procure such approval, all instruments of transfer of the lease must be filed at the Commission's Grand Junction, Colorado, office and must contain all of the terms and conditions agreed upon by the parties thereto. The application for approval of assignment must be accompanied by a statement of the assignee or assignees setting forth his or their qualifications to hold a lease and that he or they accept and agree to be bound by the terms and conditions of the lease, provided the assignment is approved by the Commission. No assignment of a lease will be approved which provides for royalties on uranium-bearing ore production from the leased premises which amount to more than fifteen percent (15%) of gross ore receipts, or which when added to royalties already created amount to more than fifteen percent (15%) of gross ore receipts. In calculating gross ore receipts for the purpose of this paragraph, development and haulage allowances payable pursuant to § 60.5 (Commission's Domestic Uranium Program Circular 5, Revised) or any further revision thereof or equivalent allowances will be first excluded. With the approval of the Commission, less than all the tracts described in the lease may be assigned. In such an event

the Commission may require the execution of a new lease by the assignor or assignee or both. The Commission will not grant approval if it determines that the terms and conditions of the proposed assignment do not embody terms and conditions equivalent to those of the original lease to the extent applicable. After the effective date of approval, the assignee or assignees will be responsible for the performance of all such obligations.

(o) *Designation of representative.* When leases are issued or assigned under this section to a group of two or more persons or legal entities, they shall designate one person to represent them for the receipt of communications or notices or to make reports or statements on their behalf, together with the address of the representative. This designation shall be binding on the lessees until the Commission has received notice in writing from the lessees of a new designee and his address.

(p) *Initial production bonus.* The provisions of § 60.6 (Domestic Uranium Program Circular 6) shall be applicable to ores produced from the leased premises.

(q) *Form of lease.* Leases will be issued on forms prescribed by the Atomic Energy Commission.

(r) *Recording of lease.* The holder or holders of a lease or assignment under this section shall, unless otherwise authorized by the Commission, record the lease or assignment within fifteen (15) days of the date thereof in the office wherein the "Notice of Lease Application", required by paragraph (c) (3) of this section, is recorded.

(s) *Withdrawn lands.* Lands withdrawn from mineral entry by the Secretary of the Interior for the use of the Atomic Energy Commission or embraced within an Atomic Energy Commission application for such land withdrawal are not available for leasing under this section. However, tracts situated on lands not open to location of mining claims under the United States mining laws because of the existence of a lease, permit, application, or offer under the Mineral Leasing Act of 1920 as amended, or because such lands are known to be valuable for minerals leasable under that act, which lands are subsequently withdrawn by the Secretary of the Interior and reserved for the use of the Atomic Energy Commission, or included in an application for withdrawal filed by the Commission, will be eligible for this type of lease provided that such tracts have been identified and marked on the ground and the "Notice of Lease Application" posted and recorded as required by paragraph (c) of this section, prior to the effective date of the withdrawal or segregation, and further provided there is compliance with the other provisions of this section.

(t) *Multiple use of lands.* Leases issued under this section will also provide that operations under them will be conducted in such manner as not to interfere with the lawful operations of any third party having a lease, permit, easement or any other right or interest in the premises.

(u) *Reservation of rights.* The right is reserved by the Commission to revise, modify or terminate the regulations in this section at any time without prejudice to rights of leaseholders established under existing leases.

(v) *Definitions as used in this section.* (1) "Commission" means the Atomic Energy Commission created by the Atomic Energy Act of 1946, or its duly authorized representative.

(2) "Lease Year" shall be the annual period commencing on the date of the lease or any anniversary thereof during the lease term.

(60 Stat. 755–775, 67 Stat. 240; 42 U. S. C. 1801–1819)

Dated at Washington, D. C., this 29th day of January 1954.

By order of the Commission.

K. D. NICHOLS,
General Manager.

[F. R. Doc. 54-898; Filed, Feb. 9, 1954; 8:45 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs. Amdt. 43-11]

PART 43—GENERAL OPERATION RULES

AIRCRAFT ELECTRONIC NAVIGATION EQUIPMENT ACCURACY

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 5th day of February 1954.

This amendment to Part 43 of the Civil Air Regulations provides for certain VOR equipment accuracy checks prior to flight under instrument flight rules.

It has been determined that errors may exist in omnidirectional radio range (VOR) airborne receivers due to inherent characteristics or to inadequacies in equipment installation or maintenance. Such errors may be of sufficient magnitude as to make the use of a VOR system of airways, using the established lateral separation criteria, extremely hazardous unless proper precautions are taken. This amendment undertakes to correct this situation by requiring that certain checks shall be performed on VOR equipment prior to flight under instrument flight rules.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 43 of the Civil Air Regulations (14 CFR Part 43, as amended) effective March 12, 1954:

By adding a new § 43.31 to read as follows:

§ 43.31 *Aircraft electronic navigation equipment accuracy.* Except for aircraft in which the omnidirectional radio range (VOR) equipment is maintained, checked, and inspected in accordance with a procedure approved [1] by the Administrator, no person shall operate an aircraft under instrument flight rules using the VOR system of radio navigation unless the aircraft VOR equipment has been operationally checked, both within the preceding ten hours of aircraft flight time and within the preceding ten days, and found to be within the limits of the indicated bearing error specified in this section for the particular check. The checks shall be conducted in accordance with either paragraph (a) or (b) of this section as follows:

(a) (1) If a CAA operated or approved test signal [2] is available at the airport of intended departure, a check of the VOR equipment shall be accomplished using this test signal. The maximum permissible indicated bearing error is plus or minus 4°.

(2) If a CAA operated or approved test signal is not available at the airport of intended departure, a check shall be accomplished using a point on an airport surface designated [3] by the Administrator as a VOR system check point. The maximum permissible indicated bearing error is plus or minus 4°.[4]

(3) If neither a CAA operated or approved test signal nor a designated check point on the airport surface is available, a check shall be accomplished using an airborne check point designated [3] as such by the Administrator. The maximum permissible indicated bearing error is plus or minus 6°.

(4) In the event none of the checks prescribed in subparagraphs (1), (2), and (3) of this paragraph can be accomplished, because of the unavailability of a check signal or point, the following airborne procedure shall be accomplished.

(i) Select the VOR radial which lies along the center line of an established VOR airway,

(ii) Choose a prominent ground point along the selected radial preferably more than 20 miles from the VOR ground facility and maneuver the aircraft directly over the point at a reasonably low altitude, and

(iii) Note the VOR bearing indicated by the receiver when over the point. The maximum permissible difference between the published radial and the indicated bearing is plus or minus 6°.

(b) If dual systems (defined as VOR units independent of each other with the exception of the antenna) are installed in the aircraft, one system may be checked against the other in the following manner in lieu of the check procedures specified above: Both systems shall be tuned to the same VOR ground facility and the indicated bearings to that station noted. The maximum permissible variation between the two indicated bearings is 4°.

(c) The person making the VOR operational check as specified in paragraphs (a) or (b) of this section shall make an entry of such check in the aircraft log or other permanent record showing the date, place, bearing error, and his signature.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 605, 52 Stat. 1007, 1010; 49 U. S. C. 551, 555)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-931; Filed, Feb. 9, 1954; 8:52 a. m.]

[1] An approved continuous maintenance and inspection program specified in Operations Specifications issued by or approved by the Administrator or any equivalent maintenance and inspection system specifically approved by the Administrator.

[2] CAA operated or approved test signals, and ground check points on an airport surface and airborne check points designated by the Administrator, will be shown in the Airman's Guide.

[3] In making this check, caution should be exercised to head the aircraft in a direction to prevent the aircraft structure from interfering with the ground signal.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

LABEL DECLARATION OF VITAMIN B_{12} AND FOLIC ACID IN FOODS FOR SPECIAL DIETARY USES

Pursuant to section 3 of the Administrative Procedure Act (sec. 3, 60 Stat. 237, 238; 5 U. S. C. 1002), the following statement of policy is issued:

§ 3.32 *Label declarations of vitamin B_{12} and folic acid in foods for special dietary uses.* (a) Section 125.3 (a) (2) of this chapter, issued under the authority of section 403 (j) of the Federal Food, Drug, and Cosmetic Act (sec. 403 (j), 52 Stat. 1048; 21 U. S. C. 343 (j)) requires that if a food purports to be or is represented for special dietary use by man by reason, in whole or in part, of a vitamin for which the need in human nutrition has not been established, the label of such food shall bear the statement "The need for _____ in human nutrition has not been established," the blank to be filled in with the name of such vitamin.

(b) Heretofore this Department has considered vitamin B_{12} and folic acid as among those vitamins for which the need in human nutrition has not been established. However, recent scientific evidence shows that these vitamins are needed in human nutrition. The Department therefore considers the requirement of § 125.3 (a) (2) quoted in paragraph (a) of this section as no longer applicable to food offered for special dietary use by reason of these vitamins.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 403, 52 Stat. 1048; 21 U. S. C. 343)

Dated: February 4, 1954.

[SEAL] OVETA CULP HOBBY,
Secretary.

[F. R. Doc. 54-926; Filed, Feb. 9, 1954; 8:51 a. m.]

TITLE 31—MONEY AND FINANCE: TREASURY

Subtitle A—Office of the Secretary of the Treasury

PART 3—CLAIMS REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Paragraph (d) (8) of § 3.2 is amended to read as follows:

§ 3.2 *Action by claimant—* • • •

(d) *Evidence to be submitted by claimant.* • • •

(8) *Signatures.* The claim and all other papers requiring the signature of the claimant should be signed by the claimant personally or by a duly authorized agent or legal representative. Section 287 of the Criminal Code (18 U. S. C. 287) imposes a fine of not more than $10,000 or imprisonment for not more than five years, or both, for presenting false, fictitious, or fraudulent claims against the Government. Section 1001 of the Criminal Code (18 U. S. C. 1001) imposes a fine of not more than $10,000 or imprisonment for not more than five years, or both, for making false, fictitious or fraudulent statements or representation in connection with any matter under the jurisdiction of the Government.

2. Section 3.3 is amended to read as follows:

§ 3.3 *Approval of claim.* (a) Claims not exceeding $1,000, submitted under the Federal Tort Claims Act and the Small Claims Act, are aproved or disapproved by the head of the bureau, division or office out of whose activities the accident or incident arose, or his designee, upon the recommendation of the Chief Counsel or other legal officer in immediate charge of the legal affairs of the bureau, division or office.

(b) Claims not exceeding $1,000, submitted under the Coast Guard Claims Act, are approved or disapproved by the Commandant, United States Coast Guard, or his designee.

(c) Claims not exceeding $3,000, submitted under the Damages by Coast Guard Vessels Act, are approved or disapproved by the Commandant, United States Coast Guard, or his designee. Claims under said act exceeding $3,000, but not exceeding $25,000, are approved or disapprovd by the Secretary. Claims under said act exceeding $25,000 are approved or disapproved by the Secretary and are certified to Congress for payment.

3. Section 3.5 is amended to read as follows:

§ 3.5 *Coast Guard investigations.* Coast Guard courts of inquiry and investigations may be convened in accordance with the Uniform Code of Military Justice, the Manual for Courts-Martial, U. S., 1951, and the Coast Guard Supplement to said Manual, to inquire into the facts and circumstances of accidents and incidents growing out of Coast Guard activities.

4. Section 3.20 is amended to read as follows:

§ 3.20 *General.* The so-called Federal Tort Claims Act (28 U. S. C. 2672) conferred upon the head of each Federal agency, or his designee, acting on behalf of the United States authority to ascertain, adjust, and settle certain claims against the United States for money only, accruing on and after January 1, 1945.

5. a. The first paragraph of § 3.22 is amended to read as follows:

§ 3.22 *Exclusions.* As provided in 28 U. S. C. 2680, claims not payable under the Federal Tort Claims Act and this subpart include:

b. Section 3.22 is further amended by deleting paragraph (j).

6. The second and third sentences of § 3.23 are amended to read as follows:

§ 3.23 *Application to claims not previously adjusted.* • • • Claims arising out of accidents or incidents occurring prior to January 1, 1945 and claims not cognizable under this subpart may be considered under the provisions of the Act of December 28, 1922 (42 Stat. 1066) or, in the case of the Coast Guard, under the provisions of 14 U. S. C., 645 or 14 U. S. C. 646. See Subparts C, D and E of this part.

7. Section 3.24 is amended to read as follows:

§ 3.24 *Statute of limitations.* Claims under this subpart must be presented in writing to the Department within two years after the claim accrued.

8. Section 3.26 is amended by deleting "section 410 (b) of the Federal Tort Claims Act" and by inserting in lieu thereof "28 U. S. C. 2675 (b)".

9. Section 3.27 is amended to read as follows:

§ 3.27 *Attorneys' fees.* In accordance with 28 U. S. C. 2678, reasonable attorneys' fees may be paid under this subpart out of, but not in addition to, the amount of the award or settlement. If the award or setlement is $500 or less, reasonable attorneys' fees, but not in excess of $50, may be allowed. If the award is $500 or more, reasonable attorneys' fees, but not in excess of ten percent of the amount of the award or settlement, may be allowed. Any attorney who charges, demands, receives, or collects for services rendered in connection with any claim any amount in excess of that allowed by this section shall be subject to a fine of not more than $2,000 or imprisonment of not more than one year, or both. The authority to allow attorneys' fees as set forth in this section may be exercised only upon the written request of both the claimant and his attorney.

10. Section 3.28 is amended by adding at the end thereof the following sentence:

§ 3.28 *Contributory negligence, subrogation, and pain and suffering.* • • • However, whether an officer or employee of the United States was "acting within the scope of his office or employment"

within the meaning of the Federal Tort Claims Act, involves a question of statutory construction as to which local decisions are not binding.

11. Section 3.40 is amended to read as follows:

§ 3.40 *General.* The so-called Coast Guard Claims Act (63 Stat. 547; 14 U. S. C. 645) authorized the Secretary of the Treasury to consider, ascertain, adjust, determine, settle and pay certain claims for damage caused by military personnel or civilian employees of the Coast Guard, arising on or after May 27, 1941, not exceeding $1,000.

12. a. The first paragraph of § 3.41 is amended to read as follows:

§ 3.41 *Allowable claims.* (a) The following claims are cognizable under the so-called Coast Guard Claims Act (63 Stat. 547; 14 U. S. C. 645) and this subpart:

b. Paragraph (2) of § 3.41 (a) is amended by deleting the word "noncombatant" and substituting therefor the word "noncombat".

13. a. The first paragraph of § 3.42 is amended to read as follows:

§ 3.42 *Exclusions.* (a) The following claims are not cognizable under the so-called Coast Guard Claims Act (63 Stat. 547; 14 U. S. C. 645) and this subpart:

b. Subparagraph (4) of § 3.42 (a) is amended to read as follows:

(4) Personnel claims of either military or civilian personnel of the Coast Guard for damages to, or loss, destruction, capture, or abandonment of, personal property which occurred as an incident to their service and which are administered under the so-called Coast Guard Personnel Claims Act (63 Stat. 534; 14 U. S. C. 490) and the Coast Guard Comptroller Manual.

14. Section 3.44 is amended to read as follows:

§ 3.44 *Statute of limitations.* Claims under this subpart must be presented in writing within one year after the occurrence of the accident or incident out of which the claim arises, except that if the accident or incident occurs in time of war, or if war intervenes within one year after its occurrence, a claim may, if good cause for the delay is shown, be presented within one year after the war is terminated. The provision permitting a showing of good cause for delay shall be liberally construed, and any reasonable doubt as to the existence of good cause for delay shall be resolved in favor of the claimant.

15. The second sentence of § 3.49 is amended by deleting therefrom "act of July 3, 1943, 57 Stat. 342, as amended (31 U. S. C. 223b–d) as extended to the Coast Guard by the Act of March 20, 1946" and by substituting in lieu thereof "so-called Coast Guard Claims Act (63 Stat. 547; 14 U. S. C. 645)."

16. Section 3.60 is amended by deleting therefrom "42 Stat. 1060 (31 U. S. C. 215–217)" and substituting in lieu thereof "42 Stat. 1066".

(R. S. 161, sec. 1, 63 Stat. 545; 5 U. S. C. 22, 31 U. S. C. 633. Interpret or apply sec. 1, 62 Stat 983, as amended, sec. 1, 63 Stat. 547–549; 28 U. S. C. 2672, 14 U. S. C. 645–647)

17. Part 3 is amended by inserting immediately following subpart D the following:

Sec.
3.70 General.
3.71 Allowable claims.
3.72 Exclusions.
3.73 Act not exclusive.
3.74 Limitations of settlement.
3.75 Payment of claims.
3.76 Claims on behalf of the United States.

AUTHORITY: §§ 3.70 to 3.76 issued under R. S. 161, sec. 1, 63 Stat. 545; 5 U. S. C. 22, 31 U. S. C. 633. Interpret or apply sec. 1, 62 Stat. 983, as amended, sec. 1, 63 Stat. 547–549; 28 U. S. C. 2672, 14 U. S. C. 645–647.

SUBPART E—ADMIRALTY AND MARITIME CLAIMS (COAST GUARD)

§ 3.70 *General.* The so-called Damages by Coast Guard Vessels Act (14 U. S. C. 646), authorizes the Secretary to consider, ascertain, adjust, determine, compromise, settle and pay certain claims caused by vessels in the Coast Guard service.

§ 3.71 *Allowable claims.* Claims not in excess of $25,000 are payable by this Department under the Damages by Coast Guard Vessels Act and this subpart for damages caused by vessels in the Coast Guard service, and for compensation for towage and salvage services, including contract salvage, rendered to such vessels. Claims in excess of $25,000 may be considered by the Department but must be certified to the Congress for payment.

§ 3.72 *Exclusions.* No claim in excess of $3,000, which accrued prior to September 8, 1939, shall be considered under the act or this subpart.

§ 3.73 *Act not exclusive.* The authority granted under the Damages by Coast Guard Vessels Act to determine, compromise, settle and pay claims is supplementary to, and not in lieu of, other provisions of law authorizing the determination, compromise and settlement of claims.

§ 3.74 *Limitations of settlement.* Claims under this subpart must be presented in writing and their settlement authorized and accepted by the claimant within two years after the date of the origin of the cause of action. The filing of a claim, or its consideration by the Department or correspondence or negotiation does not waive or extend the two-year limitation. Where damages have not been liquidated, settlements on the issue of liability can be effected during the two-year period, leaving the question of the extent of damage for later determination.

§ 3.75 *Payment of claims*—(a) *Claims under $25,000.* Upon approval of claims not in excess of $25,000 cognizable under this subpart, the Treasury Department draws a check in payment thereof and mails it to the claimant.

(b) *Claims over $25,000.* Upon approval claims in excess of $25,000, they are forwarded to the Budget Section of the Bureau of Accounts. Pursuant to call by the Bureau of the Budget, a letter will be prepared for the signature of the budget officer transmitting the claim to that Bureau for inclusion in a deficiency appropriation bill. After the enactment of the bill by the Congress, it will be the duty of the claimant to contact the General Accounting Office, which will require the claimant to execute a claim. After receipt of the certificate of settlement issued by the General Accounting Office, the Bureau of Accounts will draw a check and mail it to the claimant.

§ 3.76 *Claims on behalf of the United States*—(a) *General.* The act of August 4, 1949 (63 Stat. 549; 14 U. S. C. 647) authorizes the Secretary to determine, compromise and settle claims on behalf of the United States for damages cognizable in admiralty in a District Court of the United States and all claims for damage caused by a vessel or floating object to property of the United States under the jurisdiction of the Coast Guard or property for which the Coast Guard may have assumed, by contract or otherwise, any obligation to respond for damage thereto, where the matter is not in litigation. The Secretary is further authorized to receive in payment of any such claim the amount due the United States pursuant to such determination, compromise or settlement and to execute on behalf of the United States and to deliver in exchange for such payment, a full release of such claim.

(b) *Claims not exceeding $3,000.* The Secretary has delegated to the Commandant, Assistant Commandant and Chief Counsel of the Coast Guard authority to determine, compromise and settle claims under 14 U. S. C. 647 where the amount of such determination, compromise or settlement does not exceed $3,000, and to receive in payment of such claims the amounts due the United States, and to execute on behalf of the United States and to deliver in exchange for such payments, full releases of such claims.

(c) *Claims exceeding $3,000, but not exceeding $25,000.* Authority to determine, compromise and settle claims under 14 U. S. C. 647, where the amount of such determination, compromise or settlement exceeds $3,000, but does not exceed $25,000, is vested in the Secretary.

(d) *Section not exclusive.* The authority granted under 14 U. S. C. 647 to determine, compromise and settle claims is supplementary to, and not in lieu of, all other provisions of law authorizing the determination, compromise and settlement of claims for damage to property described in 14 U. S. C. 647.

(e) *Excluded claims.* No settlement or compromise where there is involved a payment in the net amount of more than $25,000 is authorized under 14 U. S. C. 647.

(f) *Settlement conclusive.* Upon the acceptance of the amount due the United States pursuant to determination, compromise or settlement under 14 U. S. C. 647, such determination, compromise or settlement becomes final and conclusive for all purposes.

(g) *Disposition of payments.* All payments received under 14 U. S. C. 647 shall be covered into the Treasury of the United States as miscellaneous receipts.

[SEAL] M. B. FOLSOM,
Acting Secretary of the Treasury.

[F. R. Doc. 54–932; Filed, Feb. 9, 1954; 8:51 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS CLAIMS

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. In Part 3, paragraph (b) (2) of § 3.102 is amended to read as follows:

§ 3.102 *Wartime service-connection.* • • •

(b) • • •

(2) Such chronic disease is shown by satisfactory evidence to have been present to a 10 percent disabling degree within 1 year from date of termination of active wartime service, or where service began prior to January 1, 1947, and extended thereafter, within 1 year from July 25, 1947, whichever is the earlier, and is subsequently shown by proper diagnosis, in cases of veterans who had such service in a locality having a high incidence of the disease under consideration, and the record is without evidence of inception prior to service or subsequent to discharge or July 25, 1947, whichever is the earlier: *Provided*, That residence during the year following discharge or July 25, 1947, whichever is earlier, was not in a region where the particular disease is endemic. In malaria cases if it is shown by satisfactory evidence from Veterans' Administration or private sources that malaria was present within 1 year from date of discharge or July 25, 1947, whichever is the earlier, following service in a region where the disease was endemic, the malarial condition will be considered a relapse and, consequently, entitled to service-connection and the assignment of a compensable rating. In those cases, however, where the facts preclude such assumption and the evidence clearly indicates that the malaria present within the first year after discharge or July 25, 1947, whichever is the earlier, was an initial attack, service-connection will not be conceded. Once service-connection has been established, lay evidence relative to the occurrences or relapses and use of quinine, etc., is acceptable for the purpose of establishing evaluations to cover a period up to 1 year; but it is necessary over longer periods that medical confirmation as to the persistence of the disease be obtained. (For criteria applicable on and after June 24, 1948, see §§ 3.80 and 3.86.)

• • • • •

2. Sections 3.105 and 3.106 are revised to read as follows:

§ 3.105 *Determination of service-connection.* Determinations relative to the origin or aggravation in active service of dental conditions will be in accordance with the requirements of paragraph I (a), Part I, and paragraph I (a), Part II, respectively, of the Veterans Regulation No. 1 series, as amended (38 U. S. C. ch. 12), and section 28, Title III, Public No. 141, 73d Congress. Service-connection will not be considered as having been established when the evidence clearly shows that the disabilities or conditions existed or were recorded at the time of enlistment subject to the provisions of § 3.107 (a) or originated subsequent to discharge from causes not related to service.

(Sec. 28, 48 Stat. 524, Pars. I (a), Parts I and II, Veterans Regulatiog 1 (a), as amended; 38 U. S. C. 722, ch. 12 note)

§ 3.106 *Evidence to establish service-connection.* (a) Service-connection for dental disabilities will be established by service records, documentary evidence in the form of reports of examinations (dental or physical), duly certified statements of dentists or physicians, or certified statements of fact from two or more disinterested parties. The disability must be shown to have been incurred in or aggravated by service as provided in this section. Statements certified by dentists or physicians must give the claimant's full name, the date he was first examined or treated, the date of subsequent treatments, if any, and contain a complete and detailed statement of the symptoms observed and diagnosis made. The name or number of all defective or missing teeth noted and the character and extent of any pathological condition of the investing tissues observed should be included. If exact dates cannot be given, the expression "on or about" an approximate date may be considered. Certified statements from disinterested parties must show the circumstances under which knowledge of the claimant's disability was obtained and as far as possible describe the symptoms and location of the disability observed.

(b) Where, however, after all sources of information have been exhausted and all variations in the records reconciled, there remains notation of filled teeth at time of discharge or release from active service and there was no notation of these teeth as defective or filled at induction or entrance into active service, service-connection may be granted in exceptional cases for such teeth, notwithstanding there is no record of treatment during active service, provided the veteran alleges treatment in service, giving the time and place of treatment, and the conditions and circumstances of his service at the time support his allegation and inception in service is consistent with sound dental judgment. Exceptional cases contemplated in this category are where the veteran had a considerable period of service, particularly in a combat area where records of treatment may not always have been recorded due to the stress and strain encountered under battle conditions or where extenuating circumstances are shown in those instances where the veteran served in this country or in other than combat. Service-connection should not be granted for the 3d molars at any time unless there is a definite record showing such teeth to have been diseased after a reasonable period of service. The 3d molars shown as present at induction and missing at discharge will not be granted service-connection unless there is an actual record of extraction for reasons other than malposition or impaction.

3. In Part 4, paragraph (b) (3) (xi) of § 4.176 is amended to read as follows:

§ 4.176 *World War I; establishment of service-connected disability of less than 10 per centum (Public No. 484, 73d Congress, act of June 28, 1934, as amended, Public No. 198, 76th Congress, act of July 19, 1939).* • • •

(b) *Definition of term "disability" as used herein.* • • •

(3) • • •

(xi) Otitis media, chronic, symptomatic, or loss of hearing of one foot or more (conversational voice), or loss of 20 decibels or more (adjusted speech decibel loss), or average loss of 15 decibels or more or one more than 30 (pure tone audiometry decibel loss).

• • • • • •

(Sec. 5, 43 Stat. 608 as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective February 10, 1954.

[SEAL] H. V. STIRLING,
Deputy Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 936]

ILLINOIS, IOWA, MINNESOTA, MISSOURI AND WISCONSIN

REVOKING EXECUTIVE ORDERS NOS. 7185, 7212, 7452 AND 8331, AND PUBLIC LAND ORDERS NOS. 195, 379, 380, AND 381

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141), and otherwise and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Orders No. 7185 of September 20, 1935, No. 7212 of October 24, 1935, No. 7452 of September 19, 1936, and No. 8331 of January 24, 1940, and Public Land Order No. 195 of December 7, 1943, reserving certain lands as a part of the Upper Mississippi River Wildlife and Fish Refuge are hereby revoked.

2. Public Land Orders No. 379 of July 2, 1947, No. 380 of July 2, 1947, and No. 381 of July 2, 1947, reserving certain lands for use of the Department of the

Interior as wildlife refuge and management areas are hereby revoked.

3. The lands included in this revocation are acquired lands of the United States under the primary jurisdiction of the Department of the Army, and are not subject to the provisions of the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting a preference right of application to veterans of World War II and others.

ORME LEWIS.
Assistant Secretary of the Interior.

PART 17—LIST OF AREAS

NATIONAL WILDLIFE REFUGES

EDITORIAL NOTE: For order affecting the tabulation in § 17.3, see Public Land Order 936 in the Appendix to Title 43, Chapter I, *supra*, revoking certain Executive orders and Public Land Order 195 reserving certain lands as part of the Upper Mississippi River Wildlife and Fish Refuge.

PROPOSED RULE MAKING

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[15 CFR Part 361]

BRITISH TOKEN IMPORT PLAN FOR 1954

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the regulations set forth below, in tentative form, governing the operation of the British Token Import Plan for the year 1954 are proposed to be issued by the Bureau of Foreign Commerce, Department of Commerce. Prior to the final adoption of such regulations, consideration will be given to any views pertaining thereto which are submitted in writing, in duplicate, to the British Commonwealth Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., and which are received not later than the close of business of the 15th day after publication of this notice in the FEDERAL REGISTER.

As indicated in the following regulations, in continuing the Token Plan for the year 1954, the British Government has adhered to the basic principle of the Token Plan of previous years—that shipments by U. S. firms of commodities subject to the Token Plan shall be on the basis of trade with the United Kingdom in such commodities during the base period years 1936, 1937 and 1938. However, one new feature has been added, namely, a limited participation by firms not having a prewar export base.

In connection with the Token Plan, as revised for 1954, it is proposed that different procedures and forms be substituted. These include "Token Quota Vouchers" in place of the Token Plan "scrip" of previous years and a requirement that eligible firms must have in their possession accepted orders (contracts) from their British customers before Token Quota Vouchers will be issued to them. It is believed that the proposed changes set forth in detail in the regulations will more effectively carry out the purposes of the Token Plan.

The British Commonwealth Division, Bureau of Foreign Commerce, will consider written requests, based upon a showing of hardship (such as the seasonal nature of the commodity) by U. S. firms having a prewar export base, for approval to ship commodities to the United Kingdom against their prospective Token Plan Quota, pending the final adoption of these regulations.

Sec.
361.1 Introduction.
361.2 What the Plan is.
361.3 Procedure for obtaining certification for prewar exports.
361.4 Issuance of token quota vouchers.
361.5 Use and transfer of token quota vouchers.
361.6 Validity period of token quota vouchers.
361.7 Procedure for distribution of quota balances not issued by June 30.
361.8 Additional information and reports.
361.9 Effect on United States export restrictions.
361.10 How to obtain information.
361.11 Denial of token plan privileges.
361.12 Inquiries on British Token Import Plan participants.
361.13 Commodities subject to the plan.

AUTHORITY: §§ 361.1 to 361.13 issued under R. S. 161; 5 U. S. C. 22.

§ 361.1 *Introduction.* The procedures governing administration of the British Token Import Plan, and the role of the Bureau of Foreign Commerce, Department of Commerce, therein, have been revised for the Plan year 1954 as set forth in this part.

§ 361.2 *What the Plan is.* (a) The "British Token Import Plan" is an arrangement with the British Government which permits United States manufacturers, their authorized agents, or other qualified exporters with established prewar trade connections in the United Kingdom (England, Scotland, Wales, and Northern Ireland) to export to that area token shipments of the specified commodities listed in § 361.13, the importation of which the British Government generally prohibits from dollar sources of supply under United Kingdom licensing procedure.

(b) Under the Plan, the British Government will permit imports in a yearly amount not to exceed 30 percent of the value of the average annual shipments of the specified commodities of each qualified exporter during a base period consisting of the years 1936, 1937, and 1938. The British Government requires appropriate evidence, issued under authority of the United States Government, that manufacturers wishing to take advantage of opportunities under the arrangement did in fact make shipments of the commodities to the United Kingdom during the base period. The Bureau of Foreign Commerce has agreed to act as certifying agent and issue appropriate certificates, in the form of token quota vouchers, which the exporter forwards to the British importer for presentation to the British Board of Trade as a basis for obtaining an import license. The procedure for obtaining certification for prewar exports is set forth in § 361.3.

(c) An overall national quota, mutually accepted by the Department of Commerce and the British Board of Trade, has been computed for each commodity group from official trade statistics for the base period years 1936, 1937 and 1938. Priority in the distribution of this overall national quota will continue to be given (as in prior years) until June 30 to those firms which are able to furnish appropriate evidence substantiating the value of their prewar trade with the United Kingdom during the base period in the specified commodities. However, such priority is subject to the conditions set forth in § 361.4.

(d) In addition, the procedures make possible a limited participation by firms not having a prewar export base under certain conditions, as hereinafter more fully explained in § 361.7.

§ 361.3 *Procedure for obtaining certification for prewar exports*—(a) *Eligibility for certification.* (1) Manufacturers who exported any of the items on the commodity list (§ 361.13) to the United Kingdom (England, Scotland, Wales, and Northern Ireland) during the base period 1936, 1937, and 1938, are eligible for certification under the Plan. "Manufacturer" means an individual, firm, or corporation that manufactures products sold through established markets. Such manufacturers must themselves request certification under the Plan and not through any agent. However, manufacturers may, under the procedure set forth in § 361.4 (b), authorize an agent to make application for their Token Quota Vouchers and to handle the distribution and sale of their products under the Token Plan.

(2) Individuals or firms, other than manufacturers, having an established export trade from the United States to the United Kingdom during the years 1936, 1937, and 1938 in the items on the commodity list (§ 361.13), may be eligible if they can demonstrate clearly that such trade was developed by them and not by a manufacturer. Persons or firms, not manufacturers, who believe that they are eligible to participate in the Token Plan may request a determination of eligibility from the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, Washington 25, D. C. Such a request must fully identify their export connections with the United Kingdom during the years 1936, 1937, and 1938 and must contain a detailed description of the manner in which such trade was developed. Such individuals or firms must themselves and not through any agent request certification under the Plan. Moreover, it is expected that such individuals or firms will themselves actively participate in the distribution and sale to United Kingdom importers of the commodities for which certification is required.

(b) *Requests for Certification.* All applicants requesting certification under the British Token Import Plan are required to submit a "Request for Certification of Prewar Exports to the United Kingdom", Form FC ____.[1] Requests for Certification need be submitted only one time for each commodity group, unless otherwise required by the Bureau of Foreign Commerce. A separate Request for Certification (one copy only) must be submitted on Form FC ____[2] for each commodity group covered by the Plan. Requests for Certification must be submitted to the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. prior to June 30; no applications will be considered after that time. Requests for Certification must be signed by one of the following persons: In the case of an individual owner, by that individual applicant; in the case of a partnership, by a partner; in the case of a corporation, by an officer. The quantity and value of exports listed under item 3 must cover only the permitted items of each commodity group shown on the commodity list (§ 361.13). The applicant must certify that statements contained in his Request are correct and complete and that the data supplied are information taken from verifiable records and other documentary evidence which are available for inspection by any duly authorized representative of the U. S. Department of Commerce. The name and title of the responsible official(s) designated to sign applications, on behalf of the applicant, for Token Quota Vouchers must also be stated on the form. All applications should be filed as early in the year as possible.

(c) *Certificates of Eligibility.* (1) Firms certified as eligible to participate in the Token Plan on the basis of their prewar exports to the United Kingdom of items on the commodity list (§ 361.13) will be issued by the Bureau of Foreign Commerce at the beginning of the Plan year a Certificate of Eligibility, Form FC ____.[1] This Certificate will inform certified firms of the amount of quota in each commodity group(s) which has been reserved for them until June 30 of the Plan year. The quota specified on the Certificate will amount to 30 percent of the average annual value (to the nearest $25.00) of the certified firm's exports to the United Kingdom during the years 1936, 1937 and 1938 as shown by the verifiable figures listed in their "Request for Certification of Prewar Exports to the United Kingdom", Form FC ____.[2] In all cases, the Certificates of Eligibility when issued will be forwarded by the British Token Import Plan Unit directly to the certified firms named on them. Those certified firms which have appointed duly authorized agents in accordance with the provisions of § 361.4 (b) may transmit their Certificates of Eligibility to such agents if necessary to enable the agents to carry out their functions under the Token Plan. A duplicate of this Certificate of Eligibility will be forwarded through the U. S. Embassy in London to the British Board of Trade and a triplicate retained by the British Token Import Plan Unit.

(2) Certificates of Eligibility serve only as a notice of the Token Plan quotas which will be made available to the eligible firm named on the Certificates (or in the case of manufacturers only, to their duly authorized agents), providing that such firms meet the conditions specified in § 361.4. These Certificates, by themselves, do not entitle the firms named on them to make any shipments under the Token Plan. Certificates of Eligibility are neither transferable nor negotiable; they apply only to the certified firms named on them.

§ 361.4 *Issuance of Token Quota Vouchers*—(a) *To certified firms.* (1) A Certificate of Eligibility entitles the United States firm named on the Certificate to apply prior to June 30, for one or more Token Quota Vouchers to the amount of the quota specified on the Certificate. Token Quota Vouchers serve the same purpose as token scrip issued in previous years by the Office of International Trade (now the Bureau of Foreign Commerce) under the Token Plan.[3] The British Board of Trade will issue import licenses to British importers on the basis of these Token Quota Vouchers.

(2) Token Quota Vouchers will be issued (to the nearest $5.00) by the Bureau of Foreign Commerce to firms which have received Certificates of Eligibility, providing that such firms have in their possession at the time they apply for the Vouchers an accepted order(s) from their British customer(s) for the amount of quota for which application is made. "Accepted order" means a contract with a British buyer involving the sale and purchase of the certified firm's products. In the case of a certified manufacturer or his authorized agent the products involved must be those produced by the certified manufacturer and by no other person or firm. Accepted orders may be conditioned upon the issuance of a Token Quota Voucher, or, a validated export license by the Department of Commerce (if an export license is required for the commodity) or the issuance to the British importer of an import license by the British Board of Trade, or such other government document as may be required in connection with the transaction. Evidence of an "accepted order" must be in writing and consist of documents which set forth in definite terms the offer of the British buyer to buy and the U. S. seller's acceptance, or the acceptance by the British buyer of the United States seller's offer. Such documents may take the form of an original or photostatic copy of either the contract signed by both the U. S. seller and the British buyer, or of letters, telegrams, cables or other documents resulting in a contract between the parties. Such evidence must be kept available for production and inspection upon demand by the Bureau of Foreign Commerce for 3 years from the date of receipt of the application for Token Quota Vouchers covering the accepted orders. Where the export transaction does not involve a normal purchase and sale contract in the customary form or where for other stated reasons the term "accepted order" as used herein does not apply, the applicant must attach to his application a full description of the nature of the transaction.

(3) A separate application for a Token Quota Voucher must be submitted for each British customer. One application may list a number of accepted orders for items in the same commodity group placed by the same British customer. If applicant is certified in more than one commodity group, a separate application for a Token Quota Voucher must be made for each such commodity group and for each customer.

(4) Applications for Token Quota Vouchers must be made on FC Form ____;[1] "Application for Token Quota Voucher (Form A.—Firms Certified on Basis of Prewar Exports)" and must be signed by one of the following persons: the individual owner; a partner; a corporate officer; or other designated responsible official. Such applications must be submitted in duplicate to the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., prior to June 30. In exceptional circumstances, the Bureau of Foreign Commerce will consider written requests from certified firms for a reasonable extension of the June 30th time limit on submission of Form FC ____;[2] "Applications for Token Quota Voucher (Form A.—Firms Certified on Basis of Prewar Exports)". Such requests must be received by the British Token Import Plan Unit not later than June 15, and must contain a full and detailed explanation of the circumstances requiring the extension.

(5) The application for a Token Quota Voucher becomes the Token Quota Voucher only after it has been stamped with the Bureau of Foreign Commerce validation stamp, and returned to the applicant by the Bureau of Foreign Commerce. Any application form not so stamped, is not valid and will not be honored by the British Board of Trade. A certified copy of the application will be returned to the applicant to be forwarded by him to the British importer who has placed the accepted order, for attachment to the latter's Application for Import License.

(b) *To duly authorized agents.* (1) A manufacturer who has been certified

[1] Filed as part of the original document. Copies may be obtained upon request from the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

[2] See Title 15, Code of Federal Regulations, 1952 Supplement, § 361.3.

under the Token Plan and who has been issued a Certificate of Eligibility may authorize an agent to make application for and to receive Token Quota Vouchers against the manufacturer's Certificate of Eligibility on the same basis as described in paragraph (a) of this section. "Authorized agent" means an export merchant, export commissioner, or any other person who has been authorized by the manufacturer to handle products produced by that manufacturer.

(2) Such a certified manufacturer must submit a single copy of Form FC ____,[1] "Authorization of Agent to Act for Manufacturer" for each commodity group in which he elects to authorize an agent to act for him under the Token Plan. Such authorization will be considered valid for only one Plan year unless sooner modified or revoked by the manufacturer. Such forms must be submitted by the certified manufacturer to the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

(3) Certified individuals or firms, other than manufacturers, may not authorize an agent to make application for and to receive any Token Quota Vouchers available to them.

§ 361.5 *Use and transfer of Token Quota Vouchers*—(a) *By certified manufacturers.* Token Quota Vouchers are neither transferable nor negotiable. Vouchers are issued to a certified manufacturer or to his duly authorized agent on the basis of accepted orders from his British customer for products produced by that manufacturer. This means that Token Quota Vouchers issued by the Bureau of Foreign Commerce to a manufacturer certified to participate in the British Token Import Plan must be used only to ship to the United Kingdom those products specified on the Voucher which are produced by that manufacturer and by no other person or firm.

(b) *By authorized agents of certified manufacturers.* Under the Token Plan an agent can only be authorized by a certified manufacturer to handle products produced by that manufacturer and by no other person or firm. This means that a Token Quota Voucher issued to an agent must be used only to ship to the United Kingdom those products specified on the Voucher which are produced by the certified manufacturer who has authorized him to act as his agent and not those produced by any other person or firm.

(c) *By certified individuals or firms other than manufacturers.* The Bureau of Foreign Commerce will certify as eligible to participate as principals in the Token Plan those individuals or firms other than manufacturers who have been able to demonstrate clearly that they and not the manufacturer whose products were shipped, developed an established export trade in an item on the commodity list (§ 361.13) from the United States to the United Kingdom during the years 1936, 1937 and 1938. Such individuals or firms may use the Token Quota Vouchers which have been issued to them, to ship to the United Kingdom products which may be purchased on the open market from any supplier in the United States, up to the amount specified on the Voucher. However, Token Quota Vouchers are neither transferable nor negotiable. This means that individuals or firms other than manufacturers, which have been issued Vouchers, must use such Vouchers themselves and must not permit any other person or firm to use such Vouchers.

(d) *Responsibility.* Manufacturers, their authorized agents, and those individuals or firms other than manufacturers who have been issued Token Quota Vouchers by the Bureau of Foreign Commerce under the Token Plan shall take every reasonable precaution to assure that those Vouchers are used in conformity with the provisions and conditions of this part (British Token Import Plan regulations); the terms of the Token Quota Vouchers; and any other specific instructions issued by Bureau of Foreign Commerce relating thereto.

§ 361.6 *Validity period of Token Quota Vouchers.* Token Quota Vouchers issued during any calendar year (whether before or after June 30) for which the British Token Import Plan is operative will be valid through February of the following year. In no event will import licenses granted by the Board of Trade against Token Quota Vouchers issued under any calendar year program be valid beyond March 31 of the following year. Accordingly, all shipments must be landed in the United Kingdom by that date.

§ 361.7 *Procedure for distribution of quota balances not issued by June 30*—(a) *Announcement of quota balances available for distribution.* (1) Announcements of the amount of quota balances available for issue in each specified commodity group after June 30 will be published in the Foreign Commerce Weekly starting with the issue published during the second week of July. Announcements will also be made in press releases which will be available to trade journals.

(2) "Quota balances" means the balance of quota in any specified commodity group not issued by the Bureau of Foreign Commerce in the form of Token Quota Vouchers under the conditions set forth in § 361.4 to firms certified on the basis of their prewar exports to the United Kingdom, as announced in the Foreign Commerce Weekly after June 30.

(b) *Eligibility for participation.* (1) In addition to firms certified on the basis of their prewar exports as provided in § 361.3, U. S. manufacturers of a commodity for which a quota balance is available (or their duly authorized agents), whether or not such manufacturers had an established prewar trade with the United Kingdom during 1936, 1937 and 1938 or had been issued Token Quota Vouchers in that commodity group prior to June 30, will be considered eligible to share in the distribution of that quota balance subject to the conditions set forth in this section. Firms other than manufacturers are eligible to share in the distribution of quota balances only if they have been certified on the basis of their prewar exports. (See definitions of "Manufacturer" in § 361.3 (a) and of "Authorized Agent" in § 361.4 (b)).

(2) Any quota balance so distributed during any one year of Token Plan operations in no way establishes a precedent or a claim to a quota for that applicant in any future Token Plan arrangements.

(c) *Application for quota balance; Token Quota Vouchers*—(1) *Time and manner.* To share in the distribution of quota balances application for Token Quota Vouchers may be made by the eligible firms described in paragraph (b) of this section. Such applications together with any supporting documents required by the Bureau of Foreign Commerce must be received in the British Token Import Plan Unit not later than September 30; no applications will be considered after that date unless with respect to a specific commodity group, an announcement is published in the Foreign Commerce Weekly extending the time limit for that commodity group. Applications must be made on Form FC ____,[1] "Application for a Token Quota Voucher (Form B.—Share in Distribution of Quota Balances)", and submitted in triplicate to the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. A separate "Application for a Token Quota Voucher", Form FC ____[1] must be submitted for each British customer in each commodity group. One application may list a number of accepted orders for items in the same commodity group placed by the same British customer. Applications must be signed by one of the following persons: The individual owner; a partner; or a corporate officer. At the time that they apply for Token Quota Vouchers, all applicants must have in their possession an accepted order(s) (as defined in § 361.4 (a)) from their British customer(s) for the amount of quota balance for which application is made. Evidence of such accepted orders must be kept available for production and inspection upon demand by the Bureau of Foreign Commerce for 3 years from the date of receipt of application for Token Quota Vouchers covering the accepted orders.

(2) *Evidence of agent's authority.* If an "Application for a Token Quota Voucher (Form B—Share in Distribution of Quota Balances)", Form FC ____[2] is made by an agent, evidence of the agent's authority must be submitted to the British Token Import Plan Unit as provided in § 361.4 (b).

(d) *Apportionment of quota balances by Bureau of Foreign Commerce.* (1) The balance of quota available for distribution in any specified commodity group after June 30 will be distributed among eligible applicants who have submitted, prior to October 1 (except where time limit is extended as provided in paragraph (c) (1) of this section), their "Application for a Token Quota Voucher (Form B—Share in Distribution of Quota Balances)", Form FC ____[2] Such an apportionment of quota balances will be made only once during each Token Plan year.

(2) In the distribution of the total quota balance in any specified commodity group consideration will be given to the amount of the accepted order supporting the application; the number of applicants who have applied for the quota balance available in that commodity group; the total amount applied for against that quota balance; the total amount of the available quota balance; the minimum amount of quota balance which applicant has stated that he is willing to accept; and, such other factors as may aid to assure, insofar as practicable, a fair and equitable distribution among all eligible applicants.

(e) *Token Quota Voucher.* (1) Upon determination by the Bureau of Foreign Commerce of the distribution which can be made of the quota balances, Token Quota Vouchers will be issued against approved applications. The original copy of such approved applications becomes a Token Quota Voucher, only after it has been stamped with the Bureau of Foreign Commerce validation stamp and returned to the applicant by the Bureau of Foreign Commerce. A duplicate copy of the Voucher will be forwarded through the U. S. Embassy in London to the British Board of Trade and triplicate retained by the British Token Import Plan Unit.

(2) The provisions of § 361.5 with respect to the permissible use and transfer, of Token Quota Vouchers, and of § 361.6 with respect to their validity period are also applicable to Token Quota Vouchers issued by the Bureau of Foreign Commerce under the procedure for distribution of quota balances set forth.

§ 361.8 *Additional information and reports*—(a) *Concerning changes in information submitted to the Bureau of Foreign Commerce.* All information submitted in any Request for Certification, Form FC ____,[1] in any Applications for Token Quota Vouchers, Form FC ____ or Form FC ____,[1] or other information submitted in connection therewith, shall be deemed to be continuing representations of the existing facts and circumstances. Any material or substantive change in the information submitted, including the terms of the accepted orders or contracts whether the request or application has been granted or is still under consideration, shall be reported promptly to the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

(b) *Concerning requests and applications.* Every person or firm who has filed a Request for Certification, Form FC ____,[1] or an Application for a Token Quota Voucher, Form FC ____ or Form FC ____[1] shall (in addition to the information called for in Part 361 in connection therewith) furnish such information with respect to such request or application, including accepted orders, as may be required from time to time by the Bureau of Foreign Commerce.

(c) *Concerning Certificates of Eligibility and Token Quota Vouchers.* Every person or firm to whom a Certificate of Eligibility or a Token Quota Voucher has been issued shall also furnish such other information as may be required from time to time by the Bureau of Foreign Commerce including a report as to the use of the Token Quota Vouchers issued or to be issued to them and the submission of bills of lading, shipper's export declarations, and other related documents.

§ 361.9 *Effect on United States export restrictions.* The issuance of Certificates of Eligibility or Token Quota Vouchers in no way affects United States export restrictions which may be applicable to commodities coming under the Plan. A validated export license must be obtained where required.

§ 361.10 *How to obtain information.* Announcements regarding the British Token Import Plan will be published in the Foreign Commerce Weekly. Announcements also will be made in press releases which will be available to trade journals. Copies of announcements and copies of all forms needed in connection with the Plan may be obtained from the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., or from Field Offices of the Department of Commerce.

§ 361.11 *Denial of Token Plan privileges.* (a) Upon notice and opportunity to be heard, the privilege of participating, directly or indirectly, under the British Token Import Plan of any manufacturer, agent, or any other person or firm may be modified, suspended or revoked at any time by the Bureau of Foreign Commerce upon a determination that the public health, interest or safety requires such action, or that the person or firm has willfully violated any provisions of this part (British Token Import Plan regulations), including the terms and conditions of Token Quota Vouchers, or has willfully furnished false information or concealed any material fact in the course of operation under the regulations. Where appropriate, a temporary order may be issued without notice, pending the making of a final order.

(b) In the absence of such a determination, no modification, suspension or revocation order will be made unless prior to the institution of such action facts or conduct warranting such action have been called to the attention of the person or firm involved, in writing, and such person or firm has been accorded opportunity to demonstrate or achieve compliance with all lawful requirements.

(c) Appeals from orders issued under this section may be taken to the Appeals Board, Department of Commerce, Washington 25, D. C.

§ 361.12 *Inquiries on British Token Import Plan participants.* (a) The Bureau of Foreign Commerce will consider requests from persons or firms in the United States, such as resident buyers, interested in obtaining the names and addresses of persons or firms who have been certified to participate in the British Token Import Plan on the basis of their prewar exports to the United Kingdom. Complete lists of such participants are generally not available until after June 30 which is the closing date for requesting such certification. The list which is made available will be comprised of those persons or firms certified in the preceding Token Plan year plus any other participants certified in the current Plan as of the date of the request.

(b) Inquiries of this nature have been directed to the Department of Commerce from time to time for the purpose of locating eligible U. S. participants in the British Token Import Plan with whom export orders for goods may be placed.

(c) To receive consideration, such requests must be made in writing, addressed to the British Token Import Plan Unit, British Commonwealth Division, Bureau of Foreign Commerce, U. S. Department of Commerce, Washington 25, D. C., and must contain information showing the requisite legitimate interest, including the following items.

(1) Name of the applicant.

(2) Nature of his business.

(3) Commodity in which he is interested.

(4) Purpose for which the applicant requests a list of names and addresses of persons or firms dealing in that commodity under the British Token Import Plan.

(d) Such lists, when made available by the Bureau of Foreign Commerce, must not be published or circulated in any form.

(e) An application charge of $5.00 will be made for each list (by commodity group). The charge should accompany the request and is not refundable. Check or money order payable to the Treasurer of the United States will be accepted.

§ 361.13 *Commodities subject to the Plan.* The commodities listed below have been approved by the British Board of Trade as those to which the British Token Import Plan shall apply. The number preceding each commodity is the "Commodity Group Number", which must be entered on all forms which require this information.

FOOD AND DRINK

156. Bottled fruits, processed for serving with ice cream.
85. Canned lobster.
75. Canned macaroni and spaghetti.
76. Canned pork and beans.
74. Canned soups.
84. Canned vegetables, other than tomatoes and tomato puree (including tomato juice).
87. Cheese rennet.
118. Glacé cherries.
1. Jelly powder.
120. Marshmallow (cooking ingredient).
82. Mustard.
83. Olives preserved in salt or brine.
188. Onion and garlic salt.
219. Pectin, domestic pack.
157. Pickles.
185. Quick-frozen fruits.
119. Quick-frozen peas.
73. Rolled or flaked oats.

[1] See footnote 1, p. 771.

[2] See footnote 1, p. 771.

178. Sugar confectionery of all kinds, excluding cocoa preparations.
86. Vegetable butter coloring.
77. Whisky.

TOBACCO MANUFACTURES

186. Cigarettes.
187. Manufactured smoking tobacco and plug tobacco.

LEATHER PRODUCTS

151. Fancy leather goods, excluding trunks, traveling bags, handbags, wallets, and pochettes.
221. Leather footwear.
138. Leather gloves, excluding industrial gloves.

RUBBER MANUFACTURES

142. Elastic braid.
91. Household rubber gloves.
68. Rubber bands.
67. Rubber bathing caps.
47. Rubber belting, other than conveyor belting.
69. Rubber erasers.
152. Rubber garden hose.
15. Rubber heels and soles.
80. Rubber hot-water bottles.
94. Rubber soling slabs.
16. Surgeon's rubber gloves.
10. Waterproof rubber footwear of all types.

COTTON FABRICS AND MANUFACTURES

169. Bed ticking.
141. Cotton boot and shoe and corset laces and braid.
143. Cotton ribbon and tapes; trimmings of cotton and cotton-rayon mixtures.
79. Embroidery and embroidered articles (other than apparel) of descriptions currently manufactured in the United Kingdom for the home market, of which the base fabric is wholly or mainly of cotton.
170. Finished cotton sewing thread.
167. Furnishing fabrics of cotton and cotton-rayon mixtures.
169. Quilts, counterpanes, and other bed coverings of cotton and cotton-rayon mixtures.
166. Woven cotton piece goods of all kinds.

WOOLEN FABRICS

147. Wool and mohair plushes and other wool pile fabrics.
146. Woolen damasks, tapestries, and brocades.
145. Woolen tissues.

SYNTHETIC FIBER MANUFACTURES

63. Artificial silk woven fabric of a width not exceeding 12 inches.
7. Woven fabric of a width exceeding 12 inches of artificial silk or of artificial silk mixed with other materials except silk. (Furnishing fabrics of cotton-rayon mixtures under group 167.)

LINEN MANUFACTURES

164. Finished linen thread.
163. Linen canvas not under 12 ounces per square yard.
161. Printed or dyed linen piece goods.

[redacted]

6. Artificial silk clothing, excluding hose. (Women's hose under group 179.)
64. Athletes' supporters.
108. Children's outer garments, knitted, netted, or crocheted, excluding hose. (Artificial silk clothing under group 6; cotton and woolen stockings under group 200.)
203. Corsets, girdles, and brassieres.
202. Garter and sanitary belts.
107. Men's and boys' outer garments of material other than artificial silk, excluding knitted, netted, or crocheted. (Artificial silk clothing under group 6; men's shirts under group 139.)
140. Men's felt hats, unlined.
139. Men's shirts.
201. Men's socks.
106. Underwear of material other than artificial silk, excluding corsets, girdles, and brassieres. (Artificial silk clothing under group 6.)
92. Proofed clothing of all kinds (including blankets, baby pants, and crib sheets).
200. Women's and children's cotton and woolen stockings.
199. Women's dresses other than of silk or artificial silk. (Women's dresses of artificial silk under group 6.)
5. Women's felt hats.
179. Women's full-fashioned stockings of silk and artificial silk.

WOOD MANUFACTURES

31. Domestic woodware (clothes pegs, etc.).
222. Manufactures of muiga wood.
158. Wood wool (excelsior).
62. Wooden mouldings for picture and mirror frames.
61. Wooden picture and mirror frames.
70. Wooden spring blind or shade rollers.

PAPER AND RELATED PRODUCTS

210. Adhesive labels.
112. Blotting paper.
117. Bristol boards.
116. Duplicating paper.
211. Indexing or filing cards.
65. Paper dress patterns.
114. Printing paper of the following types: book, text, cover, litho, offset.
113. Stationery paper in uncut form and writing paper in large sheets (bond ledger).
66. Wallpaper.
123. Yellow varnished paper for bottle-cap linings.

GLASS, CLAY, AND MANUFACTURES

148. Bottles other than ornamental, pharmaceutical, medicine, wine, and spirit bottles.
171. Colored sheet and plate window glass.
122. Glazed wall tiles.
154. Illuminating glassware of the following: Oil-lamp chimneys, hurricane-lamp glasses, globes, and shades.
4. Industrial porcelain insulators.
177. Mirrors conforming in shape and size to those in current use for utility furniture.
78. Table glassware as follows: Plain stemware, tumblers, tableware, and heat-resisting glassware.

IRON AND STEEL MANUFACTURES

49. Axes.
197. Belt fasteners for conveyor belts.
56. Bolts and nuts of all kinds, other than precision bolts and nuts.
99. Carpet sweepers and repair parts.
23. Domestic cutlery (includes only knives, forks, and spoons).
127. Domestic hand-operated meat mincers, coffee and spice mills.
217. Furniture casters and parts thereof.
20. Furniture of metal (other than domestic furniture).
89. Gasoline and kerosene pressing irons.
96. Hard haberdashery, such as eyelets and hooks for boots and shoes, hooks and eyes, safety and other pins, snap fasteners, studs, steel fasteners, etc. (excluding hair combs).
218. Ladies' handbag and purse frames.
21. Locks, padlocks, keys, and key blanks.
124. Machine knives.
55. Nails and staples of all kinds except for decorative purposes (including hobnails and boot and shoe studs and spikes).
125. Paper machine wires.
134. Pipe joints of iron and steel excluding malleable cast iron and nonmalleable cast iron.
133. Pipe joints of nonmalleable cast iron.
184 Precision screws and other precision turned parts of metal.
57. Rivets of iron and steel.
190. Safety razors.
25. Slide fasteners.
194. Spectacle frames other than of gold or gold-filled.
139. Stropping machines, razor grinders, and razor sharpeners, all hand-operated.
172. Weighing apparatus of less than 5-hundredweight capacity, and sold at a retail price not exceeding 50 pounds sterling.
126. Woven wire cloth, gauze, fabric, or meshing.

ALUMINUM AND MANUFACTURES

174. Aluminum and aluminum alloys in sheets, disks, wire, tubes, rods, angles, shapes, and sections.
54. Aluminum cooking utensils.
175. Aluminum kitchen utensils other than cooking utensils.
173. Beer barrels, made of aluminum or aluminum alloys.

ELECTRICAL MACHINERY, SUPPLIES, AND APPARATUS

2. Carbon electrodes.
29. Dry batteries (high tension).
28. Dry batteries (torch).
104. Electrical equipment for cycles and motorcycles.
130. Electric fans complete with motors for domestic use.
132. Electric-light bulbs.
103. Electric-light fixtures.
102. Electric meters.
153. Electric switches.
101. Electric refrigerators and parts for domestic purposes.
131. Electrically operated domestic washing machines.
27. Vacuum cleaners and parts.

INDUSTRIAL MACHINERY AND APPARATUS

129. Gear transmissions and gears.
24. Mechanical valves.
128. Pulley blocks.

AGRICULTURAL AND GARDEN MACHINERY AND EQUIPMENT

46. Beehives and frames, bee veils, bee smokers, and other beekeepers' accessories.
53. Hand cultivators for garden and farm use.
50. Forks for garden and farm use.
191. Hand seeders for garden and farm use.
51. Hoes for garden and farm use.
17. Lawn mowers.
100. Milk churns, cans, pails, and strainers.
52. Rakes for garden and farm use.

AUTOMOTIVE EQUIPMENT

19. Antiskid chains.
212. Automotive cables.
216. Chemical maintenance products for motorcars except oils and polishes (includes valve-grinding compounds; radiator leak stop, weather sealer, gasket cement, radiator flush, hydraulic-brake fluid, rubbing compound, mechanics' blue for marking valves, bearings, etc., and tar remover).
30. Spark plugs.
213. Windshield wipers and parts.

CHEMICALS AND RELATED PRODUCTS

204. Bone black.
136. Fuses and detonators.
206. Medicinal preparations packed ready for retail sale under proprietary or trade names (excluding veterinary medicinals).
110. Meta fuel (solidified mentholated spirits).
3. Paints and varnishes.
37. Petroleum-jelly preparations.
205. Porcelain enamel frit.
72. Powder for sporting cartridges.
155. Shampoos, nonliquid, in containers holding no more than 1 ounce.
182. Toilet preparations, including tooth paste and powder, but excluding perfumery and soap.

PHOTOGRAPHIC AND PROJECTION GOODS

105. Cinematographic cameras and projectors (for 16-mm. film or less).
26. Film for photographers' use.
60. Photographic coated paper (not sensitized).
59. Photographic paper and cloth, unexposed, sensitized.
58. Photographers' plates.

OFFICE SUPPLIES

176. Carbon paper.
198. Filing boxes or filing trays (of wood or cardboard).
42. Fountain pens and parts.
215. Miscellaneous office supplies: telephone indexes, numbering machines, staplers and stapler refills, eyeletting machines and eyelets.
43. Propelling pencils and parts.
137. Typewriter ribbons.

SPORTING GOODS

41. Ice skates, roller skates, ice hockey equipment, and other sports equipment.
214. Loaded sporting cartridges and loaded shotgun shells.
71. Sporting cartridges, primed, empty.
135. Sporting guns, sporting rifles, and spare parts thereof.[3]

MISCELLANEOUS

196. Aquarium equipment (includes aquarium pumps).
193. Artificial teeth.
183. Baskets and basketware.
32. Brushes.
44. Buttons of all kinds other than vegetable-ivory and dum buttons.
18. Cooking and heating appliances and parts.
192. Dental equipment and instruments.
95. Goldsmiths' and silversmiths' wares.
160. Granite pavement kerbs and setts.
88. Ice-cream cabinets.
33. Imitation jewelry (excluding jewelry findings, cigarette cases, cigarette lighters, hair ornaments, insignia, lipstick cases, match boxes, military ornaments, rhinestone buckles, Ronson repeaters, shoulder devices, and watch containers).
144. Jute webbing.
207. Laundry soap.
90. Manufactured abrasive cloths, papers, and disks.
97. Musical boxes.
22. Oil lamps and lanterns for illumination.
8. Papermakers' felts.
220. Pocket watches, except watches in cases made of gold or other precious metals.
165. Saddlers' thread.
150. Sun goggles and sun glasses.
40. Toilet requisites (includes only powder bowls or boxes, powder puffs, nail polishes, nail clippers, nail files, denture bowls, manicure sets, compacts, vanity cases, and pancake cases).
9. Toys, dolls, and parts, of all kinds except those made of hemp.
93. Varnished cambric insulating material.

Washington, D. C., February 4, 1954.

LORING K. MACY,
Director,
Bureau of Foreign Commerce.

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Treasury Department Order No. 145; Rev. 1]

HEADS OF BUREAUS AND THE COMMANDANT OF THE COAST GUARD

DELEGATION OF AUTHORITY WITH RESPECT TO CERTAIN DUTIES AND FUNCTIONS

MAY 6, 1953.

By virtue of the authority vested in the Secretary of the Treasury by Reorganization Plan No. 26 of 1950, the following delegation of functions is hereby made:

1. To the head of each bureau:

(a) The functions authorized by 28 U. S. C. 2672, to consider, ascertain, adjust, determine, settle, and pay claims for money damages of $1,000 or less, for injury, loss, or death, caused by the negligent or wrongful act or omission of any employee of the bureau concerned; and

(b) The functions authorized by the Act of December 28, 1922, 42 Stat. 1066, to consider, ascertain, adjust, and determine claims.

2. To the Commandant, United States Coast Guard:

(a) The functions authorized by 14 U. S. C. 645, to consider, adjust, determne, settle, and pay in an amount not in excess of $1,000, claims incident to activities of the Coast Guard, and to prescribe regulations pertaining thereto;

(b) The functions authorized by 14 U. S. C. 646, to consider, ascertain, adjust, compromise, settle, and pay claims for damages caused by vessels in the Coast Guard service, and for compensation for towage and salvage services, where the settlement of any such claim does not exceed $3,000; and

(c) The functions authorized by 14 U. S. C. 647, to consider, ascertain, adjust, determine, compromise, or settle claims for damage to property of the United States, where the settlement of any such claim does not exceed $3,000.

The authority herein delegated to the heads of bureaus and to the Commandant of the Coast Guard may be redelegated by them to any officer or employee of their respective bureaus.

[SEAL] M. B. FOLSOM,
Acting Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Blackfoot 037698]

IDAHO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JANUARY 27, 1954.

The State of Idaho has certified that the hereinafter-described lands patented to the State under the provisions of section 4 of the act of August 18, 1894 (28 Stat. 422, 43 U. S. C. sec. 641), as amended, commonly known as the Carey Act, have not been reclaimed as required by the Carey Act and that water is not available for the irrigation of these tracts. The State of Idaho, therefore, has reconveyed the lands to the United States:

BOISE MERIDIAN

T. 6 S., R. 13 E.,
Sec. 4, NW¼SE¼.
T. 6 S., R. 14 E.,
Sec. 17, W½SE¼, SE¼SW¼, NW¼SW¼, SW¼NW¼.
Sec. 18, N½SE¼.
Sec. 20, S½NE¼, W½SE¼, E½SW¼, SE¼NW¼.
T. 7 S., R. 14 E.,
Sec. 14, N½SW¼.
Sec. 15, N½SE¼, SE¼SW¼.
Sec. 22, W½SW¼.
Sec. 27, NW¼NW¼.
T. 7 S., R. 15 E.
Sec. 6, lots 1, 3, E½SE¼.
T. 8 S., R. 14 E
Sec. 8, SE¼NE¼.
Sec. 9, S½NE¼, NW¼SE¼.
Sec. 14, E½SE¼, NW¼SE¼, SW¼NE¼.
T. 8 S., R. 15 E.,
Sec. 18, SW¼NE¼, N½SE¼, NE¼SW¼, NE¼NW¼.
Sec. 21, NW¼SW¼.
Sec. 23, NW¼NE¼.
T. 8 S., R. 17 E.,
Sec. 27, SE¼NW¼, SW¼NE¼.
T. 9 S., R. 15 E.,
Sec. 1, SW¼NE¼, W½SE¼, S½SW¼.
Sec. 6, lots 1, 2.

The lands are located north of the Snake River between Jerome and Bliss. Portions of the lands are too rough, rocky, or irregular for cultivation. Portions are suitable for cultivation, provided that a satisfactory supply of irrigation water can be obtained. The lands generally lie above existing canals.

No application for these lands may be allowed under the homestead, small tract, desert land, or any other non-

[3] Imported sporting guns and sporting rifles will be subject to the provisions of the British 1937 Firearms Act, except smooth-bore guns having a barrel not less than 20 inches in length.

mineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

At 10:00 a. m. on the 35th day after the date of this order the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Boise, Idaho, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Boise, Idaho.

EDWARD WOOZLEY,
Director.

[No. 20 (R-IV)]

UTAH

AIR-NAVIGATION SITES REVOKED

JANUARY 29, 1954.

By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), and pursuant to section 2.22 (a) (2), of Delegation Order No. 427 of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Executive Order No. 4872, dated May 3, 1928, withdrawing the following described land for use by the Department of Commerce for maintenance of air navigation facilities, intermediate landing fields, Site No. 56, San Francisco-Salt Lake Airway, is hereby revoked, effective immediately:

SALT LAKE MERIDIAN

T. 1 S., R. 12 W.,
Sec. 14, SW¼.
Sec. 15, SE¼.
Sec. 22, NE¼.
Sec. 23, NW¼.

The above-described lands are within the Wendover Bombing Range and are not restored to entry under the public land laws or the mineral laws.

Air Navigation Site Withdrawal No. 228, dated February 20, 1946, is also revoked immediately insofar as it affects the NE¼NW¼ section 13, T. 28 S., R. 11 E., SLM, Utah. This tract is primarily valuable for grazing, will be administered as part of Utah District No. 5, and is not open to entry or location until further notice.

RALPH J. MITCHELL,
Acting Regional Administrator.

Federal Maritime Board

MEMBER LINES OF PACIFIC COAST AUSTRALASIAN TRAFFIC BUREAU

NOTICE OF AGREEMENT FILED WITH BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. section 814.

Agreement No. 50–11 between the Member Lines of the Pacific Coast Australasian Tariff Bureau, modifies the basic agreement of that Conference (50–1)—(a) by deleting Suva, Fiji Islands, from the scope of the agreement as to direct service; (b) by changing the resignation notice period from 60 to 90 days; (c) by renumbering, rearranging and clarifying various provisions of the basic agreement; and (d) by including a number of other provisions relating to the internal functioning of the Conference.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to this agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 5, 1954.

By order of the Federal Maritime Board.

A. J. WILLIAMS,
Secretary.

[F. R. Doc. 54-912; Filed, Feb. 9, 1954; 8:48 a. m.]

[Docket No. S-46]

GRACE LINE INC.

NOTICE OF HEARING

Application of Grace Line Inc. for extension of its present service on Trade Route No. 25 (U. S. Pacific ports—West Coasts of Mexico, Central America and South America) to include certain ports within the area of Trade Route No. 23 (U. S. Pacific ports—Caribbean ports) and for increase in number of ships and minimum and maximum subsidized sailings on the proposed extended service, from a minimum of 18 to 30, and from a maximum of 26 to 36.

Notice is hereby given that a public hearing will be held upon said application under section 605 (c) of the Merchant Marine Act, 1936, as amended, at a time and place hereafter to be announced.

The purpose of the hearing is to receive evidence relevant to the following: (1) Whether or not the contract contemplated by the application is one with respect to a vessel or vessels to be operated on a service, route, or line served by citizens of the United States which would be in addition to the existing service, or services, and, if so, whether the service already provided by vessels of United States registry in such service, route, or line is inadequate, and in the accomplishment of the purposes and policy of the act additional vessels should be operated thereon; (2) if the contract contemplated by the application is one with respect to a vessel operated or to be operated in a service, route, or line served by two or more citizens of the United States with vessels of United States registry, whether or not the award of the contract would give undue advantage or be unduly prejudicial, as between citizens of the United States, in the operation of vessels in competitive services, routes, or lines, and, if so, (3) whether it is nevertheless necessary to enter into such contract in order to provide adequate service by vessels of United States registry.

The hearing, which will be conducted in accordance with the Board's rules of practice and procedure (18 F. R. 3716), will be consolidated with the hearing in Docket S–46 (Sub. 1), Redescription of Essential Foreign Trade Route No. 25, notice of which appears in this issue of the FEDERAL REGISTER.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to intervene in this proceeding are requested to notify the Board within fifteen (15) days of the date of publication of this notice, and should file intervening petitions in accordance with the rules of practice and procedure.

Dated: February 5, 1954.

By order of the Federal Maritime Board.

A. J. WILLIAMS,
Secretary.

[F. R. Doc. 54-911; Filed, Feb. 9, 1954; 8:48 a. m.]

Maritime Administration

[Docket No. S-46 (Sub. 1)]

REDESCRIPTION OF ESSENTIAL FOREIGN TRADE ROUTE NO. 25

NOTICE OF HEARING

Notice is hereby given of the application of Grace Line Inc., seeking a redescription of Essential Foreign Trade Route No. 25, and of hearing thereon.

Under the provisions of section 211 (a), of the Merchant Marine Act, 1936, as amended (46 U. S. C. A. 1121) the Maritime Administration, by authority delegated by the Secretary of Commerce pursuant to Reorganization Plan No. 21 (15 F. R. 3178), is authorized and directed to investigate, determine, and keep current records of the ocean services, routes, and lines from ports in the United States to foreign markets which are, or may be, determined by the Administration to be essential for the promotion, development, expansion and maintenance of the foreign commerce of the United States.

Essential Foreign Trade Route No. 25, as determined by the Maritime Administration, is presently described as follows:

Between United States Pacific Coast ports and a port or ports on the West Coast of Mexico, ports on the West Coast of Central America, and ports on the West Coast of South America, with the privilege of calling at British Columbia and Balboa.

Grace Line Inc., has applied to the Maritime Administration for a redescription of Essential Foreign Trade Route No. 25, as follows:

Between U. S. Pacific ports, and port or ports on the West Coast of Mexico; ports on the West Coast of Central America; ports

on the West Coast of South America; ports on the North Coast of Colombia; port or ports on the Gulf of Venezuela and Lake Maracaibo in Venezuela with the privilege of calling at other ports in Venezuela and the Netherlands West Indies ports to handle way cargo, and with the privilege of calling at ports in Panama, ports in the Panama Canal Zone and ports in British Columbia.

Hearing will be held at a time and place to be fixed for the purpose of receiving evidence relevant to the trade route redescription proposed by Grace Line Inc.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to intervene in this proceeding are requested to notify the Board within fifteen (15) days of the date of publication of this notice, and should file intervening petitions in accordance with the rules of practice and procedure.

Grace Line Inc., has also filed an application with the Federal Maritime Board for an extension of its operating differential subsidy contract to cover operations over the route described in its proposed redescription. Notice of hearing on said application (Docket No. S–46) appears in this issue of the FEDERAL REGISTER.

Hearing on the proposed trade route redescription (Docket No. S–46—Sub. 1) will be conducted in accordance with the Board's rules of practice and procedure (18 F. R. 3716) and will be consolidated with the hearing on the application of Grace Line Inc., for extension of its operating-differential subsidy contract (Docket No. S–46).

Dated: February 5, 1954.

By order of the Maritime Administrator.

A. J. WILLIAMS,
Secretary.

[F. R. Doc. 54–910; Filed, Feb. 9, 1954; 8:47 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-2080]

SOUTH JERSEY GAS CO.

ORDER FIXING DATE OF HEARING

South Jersey Gas Company (South Jersey), on September 25, 1952, filed with the Commission First Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1, increasing the rates and charges to its wholesale customer, New Jersey Natural Gas Company (New Jersey Natural). On October 23, 1952, the Commission issued an order making the rate increase effective March 26, 1953 upon furnishing of bond.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing pursuant to the authority contained in sections 4 and 15 of the act, concerning the lawfulness of South Jersey's FPC Gas Tariff, Original Volume No. 1, as proposed to be amended by First Revised Sheet No. 4.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held commencing February 23, 1954, at 9:00 a. m., e. s. t. in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the lawfulness of rates, charges, classifications, and services contained in South Jersey's FPC Gas Tariff, Original Volume No. 1, as proposed to be amended by First Revised Sheet No. 4.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: February 3, 1954.

Issued: February 4, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54–902; Filed, Feb. 9, 1954; 8:46 a. m.]

[Docket Nos. G–2269, G–2282]

COLORADO INTERSTATE GAS CO., AND NATURAL GAS PIPELINE CO., OF AMERICA

ORDER CONSOLIDATING PROCEEDINGS, DENYING REQUESTS FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

Colorado Interstate Gas Company (Colorado), a Delaware corporation, with its principal place of business in Colorado Springs, Colorado, filed in Docket No. G–2269, on October 7, 1953, supplemented on December 7, 1953, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of transmission facilities in Morton County, Kansas, to sell additional gas to Natural Gas Pipeline Company of America (Natural) as described in said application.

Natural, a Delaware corporation, with its principal place of business in Chicago, Illinois, filed in Docket No. G–2282, on October 15, 1953, supplemented on December 10, 1953, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of facilities to receive the additional volumes of gas from Colorado, as described in said application.

Due notice of the filing of said applications has been given, including publication in the FEDERAL REGISTER on November 3, 1953 (Docket No. G–2269) (18 F. R. 6948), (Docket No. G–2282) (18 F. R. 6949).

Applicants have requested that their respective applications be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for noncontested proceedings.

It appears that the above-entitled proceedings involve common questions of law and fact with respect to the public interest, the requirements and availability of gas for all of Colorado's customers, the availability of the Morton County gas reserves, and the form and level of Colorado's proposed rate to Natural.

The Commission finds:

(1) It is appropriate for carrying out the provisions of the Natural Gas Act and good cause exists for consolidating the proceedings at Docket Nos. G–2269 and G–2282 for the purpose of hearing.

(2) Good cause has not been shown for granting Applicants' requests that their respective applications filed at Docket Nos. G–2269 and G–2282 be heard under the shortened procedure as provided by the Commission's rules of practice and procedure, and requests therefor should be denied as hereinafter ordered.

The Commission orders:

(A) The proceedings in Docket Nos. G–2269 and G–2282 be and the same hereby are consolidated for the purpose of hearing.

(B) The requests of Colorado Interstate Gas Company at Docket No. G–2269 and Natural Gas Pipeline Company of America at Docket No. G–2282, that the applications filed therein be heard under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, be and the same hereby are denied.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7, 15 and 16 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held commencing on February 24, 1954, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by applications, and supplements thereto.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)).

Adopted: February 3, 1954.

Issued: February 4, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54–903; Filed, Feb. 9, 1954; 8:46 a. m.]

[Docket No. G-2339]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed December 21, 1953, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on January 12, 1954 (19 F. R. 220).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 23, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: February 3, 1954.

Issued: February 4, 1954.

By the Commission.

LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 7–1582, 7–1583]

ALUMINUM LTD. AND YORK CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 4th day of February A. D. 1954.

In the matter of application by the Boston Stock Exchange for unlisted trading privileges in: Aluminum Limited, Common Stock, No Par Value, 7–1582; York Corporation, Common Stock, $1 Par Value, 7–1583.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X–12F–1 thereunder, has made application for unlisted trading privileges in the Common Stock, No Par Value, of Aluminum Limited, listed and registered on the New York Stock Exchange and on the San Francisco Stock Exchange; and the Common Stock, $1 Par Value, of York Corporation, listed and registered on the New York Stock Exchange.

Rule X–12F–1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to February 18, 1954, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28885]

VARIOUS COMMODITIES FROM MUSCATINE, IOWA, AND BELLE, W. VA., TO TRUNK LINE AND NEW ENGLAND TERRITORIES

APPLICATION FOR RELIEF

FEBRUARY 5, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Alternate Agent, for carriers parties to his tariff ICC No. 4542, pursuant to fourth section order No. 17220.

Commodities involved: Alcohol, in bond, in tank-car loads, and dimethysulphate, carloads.

From: Muscatine, Iowa, and Belle, W. Va.

To: Specified points in trunk-line and New England territories.

Grounds for relief: Competition with rail carriers, circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28889]

CASTOR POMACE FROM ANDARKO AND HOBART, OKLA., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

FEBRUARY 5, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Castor pomace, carloads.

From: Andarko and Hobart, Okla.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, market competition, additional origins.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, ICC No. 3746, supl. 138.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54-917; Filed, Feb. 9, 1954; 8:49 a. m.]

[4th Sec. Application 28890]

SUGAR FROM BALTIMORE, MD., AND PHILADELPHIA, PA., TO POINTS IN SOUTHERN TERRITORY

APPLICATION FOR RELIEF

FEBRUARY 5, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to schedule listed below.

Commodities involved: Sugar, carloads.

From: Baltimore, Md., and Philadelphia, Pa.

To: Specified points in Tennessee, North Carolina and Virginia.

Grounds for relief: Competition with rail carriers, circuitous routes, market competition.

Schedules filed containing proposed rates: C. W. Boin, Agent, ICC No. A-827, supl. 37.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28891]

BITUMINOUS FINE COAL FROM WESTERN KENTUCKY MINES TO KRANNERT AND YATES, GA.

APPLICATION FOR RELIEF

FEBRUARY 5, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules listed below.

Commodities involved: Bituminous fine coal, carloads.

From: Western Kentucky mines.

To: Krannert and Yates, Ga.

Grounds for relief: Competition with water carriers, competition with motor-water carriers, market competition.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, ICC No. 1311, supl. 10; Illinois Central Railroad Company, ICC No. E-1860, supl. 30.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28892]

CYLINDERS AND TANKS FROM BATON ROUGE, LA., TO THE MIDWEST

APPLICATION FOR RELIEF

FEBRUARY 5, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Fernwood, Columbia & Gulf Railroad Company, and the Illinois Central Railroad Company.

Commodities involved: Cylinders, steel, for shipping air, gas or liquids under pressure, and tanks, butane or propane gas system, carloads.

From: Baton Rouge, La.

To: Cincinnati, Ohio, East St. Louis, Ill., Evansville, Ind., and St. Louis, Mo.

Grounds for relief: Competition with rail carriers, circuitous routes, additional routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28893]

MERCHANDISE IN MIXED CARLOADS FROM CHICAGO, ILL., GROUP, MILWAUKEE, WIS., AND PEORIA, ILL., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

FEBRUARY 5, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to schedule listed below.

Commodities involved: Merchandise in mixed carloads.

From: Chicago, Ill., and points grouped therewith, Milwaukee, Wis., and Peoria, Ill.

To: Specified points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes.

Schedules filed containing proposed rates: R. G. Raasch, Agent, ICC No. 789, and supl. 1 thereto.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28894]

MERCHANDISE IN MIXED CARLOADS FROM ILLINOIS TERRITORY TO BIRWAT, GREENS, KETONA AND MT. PINSON, ALA.

APPLICATION FOR RELIEF

FEBRUARY 5, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to schedule listed below.

Commodities involved: Merchandise in mixed carloads.

From: Points in Illinois territory.

To: Birwat, Greens, Ketona, and Mt. Pinson, Ala.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, additional destination.

Schedules filed containing proposed rates: R. G. Raasch, Agent, ICC No. 789, and supl. 1 thereto.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

FEDERAL REGISTER

VOLUME 19 NUMBER 29

Washington, Thursday, February 11, 1954

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture.

Subchapter B—Loans, Purchases, and Other Operations

[1954 C. C. C. Corn Bulletin A]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954 CORN PRICE SUPPORT PROGRAM

Sec.

421.476 Administration.
421.477 Applicability of §§ 421.476 through 421.483.
421.478 Definitions.
421.479 Determination of the producer's share in corn acreage.
421.480 Compliance requirements; producers (commercial corn producing area).
421.481 Compliance requirements; corn (commercial corn producing area).
421.482 Compliance requirements; producers and corn (outside commercial corn producing area).
421.483 Appeals.

AUTHORITY: §§ 421.476 to 421.483 issued under sec. 4, 62 Stat. 1070 as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 401, 408, 63 Stat. 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup. 1421, 1428.

§ 421.476 *Administration.* The program will be carried out under the general supervision and direction of the President, Commodity Credit Corporation, by the Commodity Stabilization Service (hereinafter referred to as CSS) through State and County Agricultural Stabilization and Conservation Committees (hereinafter referred to as State and county committees).

§ 421.477 *Applicability of §§ 421.476 through 421.483.* Sections 421.476 through 421.483 shall govern the eligibility of producers and corn under the 1954 Corn Price Support Operations insofar as corn acreage is concerned.

§ 421.478 *Definitions.* As used in this subpart and in all instructions, forms and documents in connection herewith, the words and phrases defined in this section shall have the meaning herein assigned to them unless the context or subject matter otherwise requires.

(a) *Farm.* Means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee in accordance with instructions issued by the Deputy Administrator for Production Adjustment, CSS, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with workstock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(b) *Person.* Means an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and, wherever applicable, a State, political subdivision of a State, the Federal Government, or any agency thereof.

(c) *Operator.* Means the person who is in charge of the supervision and conduct of the farming operations on the entire farm and has an interest in crops produced on the farm.

(d) *Producer.* Means any person having an interest in the corn crop as landlord, tenant, sharecropper, or farm owner.

(e) *Corn acreage.* Means the number of acres of land on which field corn, including sweet corn produced for feed or silage, is planted alone or interplanted with other crops. Any acreage planted to corn will not be considered as corn acreage to the extent that (1) it has been totally destroyed by any cause beyond the control of the producer and cannot be replanted on the same acreage, and (2) an additional acreage

of corn, subsequently planted with prior approval of the county committee is substituted for the destroyed acreage.

(f) *Overplanted corn acreage.* Means the number of acres by which the 1954 corn acreage on the farm exceeds the farm acreage allotment.

(g) *Underplanted corn acreage.* Means the number of acres by which the 1954 corn acreage on the farm is less than the farm acreage.

(h) *Farm acreage allotment.* Means that corn acreage allotment established for the farm under 7 CFR Part 721—Corn, Subpart—Farm Acreage Allotments for 1954 Crop, as published in the FEDERAL REGISTER under date of November 25, 1953.

(i) *Commercial corn-producing area.* Means the area designated by the Secretary of Agriculture pursuant to section 301 (b) (4) of the Agricultural Adjustment Act of 1938, as amended, and includes all counties in which the average production of corn (excluding corn used for silage) during the 10 calendar years, 1944–53, after adjustment for abnormal weather conditions, is 450 bushels or more per farm and 4 bushels or more for each acre of farm land in the county, and also includes any county bordering on such commercial corn-producing area which the Secretary finds is likely to produce 450 bushels or more per farm and 4 bushels or more for each acre of farm land in 1954, or in which there is a minor civil division which the Secretary finds is likely to produce 450 bushels or more per farm and 4 bushels or more for each acre of farm land in 1954. The designation of the commercial corn-producing area for 1954 appears in 7 CFR 721.502 (18 F. R. 8715).

§ 421.479 *Determination of producer's share of overplanted or underplanted corn acreage.* The overplanted or underplanted corn acreage shall be divided according to each producer's share in the 1954 corn acreage on the farm at the time the corn is planted. Determination of eligibility as of the time of planting will not make a producer eligible or ineligible in the aggregate because he buys, sells, or otherwise acquires or disposes of a farm after planting. The corn produced on any farm acquired or disposed of will be eligible only if the corn was eligible at the time of planting and the producer acquiring the farm was not ineligible at the time of planting. This means that even though the corn acreage on the farm may not be in excess of the allotment, if the producer disposing of such tract or farm was ineligible under § 421.480, the corn produced on such tract or farm will not be eligible for price support.

§ 421.480 *Compliance requirements; producers (commercial corn-producing area).* (a) A producer shall be eligible for price support on eligible corn of the 1954 crop if such producer's share of the overplanted corn acreage on all farms in the county in which he has an interest in the corn crop does not exceed his share of the underplanted corn acreage on all farms in the county in which he has an interest in the corn crop, as determined by the county committee, unless the State committee determines that such producer's share of the overplanted corn acreage on all farms, wherever situated in the commercial corn-producing area, exceeds such producer's share of the underplanted corn acreage on all such farms. If the State committee makes such determination, the producer shall not be eligible for price support on 1954 crop corn.

(b) The 1954 corn acreage on the farm shall not be deemed to be in excess of the farm corn acreage allotment unless the producer operating such farm knowingly exceeded the allotment. If the allotment is in fact exceeded, such allotment shall be considered as having been knowingly exceeded unless it is determined by the county committee on the basis of evidence submitted by such producer that the allotment was unknowingly exceeded: *Provided, however,* That if the allotment is in fact exceeded by more than two percent or two acres, whichever is larger, the county committee shall submit its findings and recommendations to the State committee which shall make the determination as to whether the allotment was unknowingly exceeded. If the producer made no direct effort, by measuring or otherwise, to comply with the allotment, he shall be determined to have knowingly exceeded the allotment.

(c) If the producer operating the farm is determined to have unknowingly exceeded the farm acreage allotment, the corn acreage on the farm shall be deemed to be equal to such allotment in determining eligibility for price support.

§ 421.481 *Compliance requirements; corn (commercial corn-producing area).* No corn produced in the commercial corn-producing area other than corn which is produced by an eligible producer in 1954 on a farm on which the farm acreage allotment is not knowingly exceeded shall be eligible for price support. Corn produced on a farm located in the commercial corn-producing area for which an allotment is not established shall not be eligible for price support.

§ 421.482 *Compliance requirements; producers and corn (outside commercial corn-producing areas).* Acreage will not be a factor in determining eligibility for price support on corn produced outside the commercial corn producing area.

§ 421.483 *Appeals.* Any producer who is dissatisfied with any determination of the county committee respecting his compliance or eligibility may, within 15 days after notification to him of such determination by the county committee, appeal to the State committee in writing. Such appeal should contain all the facts constituting the basis of his claim that the county committee determination is improper.

Done at Washington, D. C., this 8th day of February 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

DESIGNATION OF DIFFERENTIAL POSTS

Section 325.11 *Designation of differential posts,* is amended as follows, effective on the dates indicated:

1. Effective as of the beginning of the first pay period following February 13, 1954, paragraph (a) is amended by the deletion of the following posts:

Boela Koemba, Indonesia.
Gutingsaga, Indonesia.
Kabandjahe, Indonesia.
Lho Sukon, Indonesia.
Pakistan, all posts except Lahore and Lyallpur.

2. Effective as of the beginning of the first pay period following February 13, 1954, paragraph (b) is amended by the deletion of the following posts:

Brazil, all posts in states and territories other than those named under Brazil above, except Araraquara, Belo Horizonte, Fazenda Ipanema, Kilometer 47 (Research and Teaching Center 28 miles west of Rio de Janeiro), Pocos de Caldas, Porto Alegre, Recife (Pernambuco), Rio de Janeiro, Salvador (Bahia), Santos, Sao Paulo and Vicosa.
Comayagua, Honduras.
Lyallpur, Pakistan.

3. Effective as of the beginning of the first pay period following February 13, 1954, paragraph (c) is amended by the deletion of the following posts:

Port-au-Prince, Haiti.
Valles, Mexico.
Vicosa, Brazil.

4. Effective as of the beginning of the first pay period following February 13, 1954, paragraph (d) is amended by the deletion of the following posts:

Ciudad Trujillo, Dominican Republic.
Hong Kong, Hong Kong.
Robert Espagne, France.

5. Effective as of the beginning of the first pay period following June 6, 1953, paragraph (a) is amended by the addition of the following posts:

Kume Island, Ryukyus.
Okinoerabu Island, Ryukyus.

6. Effective as of the beginning of the first pay period following February 13, 1954, paragraph (a) is amended by the addition of the following posts:

Pakistan, all posts except Lahore, Karachi, Peshawar and Quetta.

7. Effective as of the beginning of the first pay period following February 13, 1954, paragraph (b) is amended by the addition of the following posts:

Brazil, all posts in states and territories other than those named under Brazil above except Araraquara, Belo Horizonte, Fazenda Ipanema, Kilometer 47 (Research and Teaching Center 28 miles west of Rio de Janeiro), Pocos de Caldas, Porto Alegre, Recife (Pernambuco), Rio de Janeiro, Salvador (Bahia), Santos and Sao Paulo.

Karachi, Pakistan.
Peshawar, Pakistan.
Quetta, Pakistan.

8. Effective as of the beginning of the first pay period following September 12, 1953, paragraph (c) is amended by the addition of the following post:

Los Mochis, Mexico.

9. Effective as of the beginning of the first pay period following February 13, 1954, paragraph (d) is amended by the addition of the following post:

Port-au-Prince, Haiti.

(Sec. 102, Part I, E. O. 10000, 13 F. R. 5453; 3 CFR, 1948 Supp.)

For the Secretary of State.

DONOLD B. LOURIE,
Under Secretary for Administration.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 26]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote saftey of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required. Part 600 is amended as follows:

1. Section 600.16 *Green civil airway No. 6 (Laredo, Tex., to Norfolk, Va.)* is amended between the Lake Charles, La., radio range station and the New Orleans, La., radio range station by adding the following: "Lafayette, La., nondirectional radio beacon;".

2. Section 600.107 *Amber civil airway No. 7 (Key West, Fla., to United States-Canadian Border)* is amended between the Hartford, Conn., radio range station and the Boston, Mass., radio range station to read: "Hartford, Conn., radio range station; the intersection of a direct line between the Hartford, Conn., radio range station and the Bedford, Mass., nondirectional radio beacon with the west course of the Boston, Mass., radio range; Boston, Mass., radio range station;".

3. Section 600.246 *Red civil airway No. 46 (United States-Canadian Border to Rochester, Minn.)* is amended by changing the first portion to read: "That airspace over United States territory from the Regina, Saskatchewan, Canada, radio range station via the Minot, N. Dak., radio range station to the Jamestown, N. Dak., radio range station. From the Aberdeen, S. Dak., radio range station to the Watertown, S. Dak., radio range station."

4. Section 600.260 *Red civil airway No. 60 (Oakland, Calif., to Stockton, Calif.)* is amended by changing Lat. 37°54'35", Long. 120°45'30" to read: "Lat 37°55'-10", Long. 120°44'25"."

5. Section 600.272 is amended by changing caption to read: "*Red civil airway No. 72 (Millville, N. J., to Patterson, N. J.).*" and by deleting the last portion which reads: "From the Idlewild, N. Y., radio range station to the intersection of the southeast course of the Idlewild, N. Y., radio range and the southwest course of the Islip, N. Y., VHF radio range."

6. Section 600.292 *Red civil airway No. 92 (New York, N. Y. to Islip, N. Y.)* is revoked.

7. Section 600.609 *Blue civil airway No. 9 (Springfield, Mo., to United States-Canadian Border)* is amended by deleting the portion between the Columbia, Mo., radio range station and the Des Moines, Iowa, radio range station and by changing the first portion to read: "From the Springfield, Mo., radio range station to the Columbia, Mo., radio range station. From the Des Moines, Iowa, radio range station via the intersection of the north course of the Des Moines, Iowa, radio range and the southwest course of the La Crosse, Wis., radio range;".

8. Section 600.613 *Blue civil airway No. 13 (Houston, Tex., to Minneapolis, Minn.)* is amended by changing the last portions to read: "From the intersection of the northeast course of the Kansas City, Mo., radio range and the south course of the Des Moines, Iowa, radio range to the Des Moines, Iowa, radio range station. From the Mason City, Iowa, nondirectional radio beacon to the Stanton, Minn., nondirectional radio beacon."

9. Section 600.636 is amended to read:

§ 600.636 *Blue civil airway No. 36 (Thurman, Colo., to Kimball, Nebr.).* From the intersection of the south course of the Akron, Colo., radio range and a line bearing 281° True from the Goodland, Kans., nondirectional radio beacon via the Akron, Colo., radio range station to the intersection of the north course of the Akron, Colo., radio range and the east course of the Cheyenne, Wyo., radio range.

10. Section 600.6010 *VOR civil airway No. 10 (Pueblo, Colo., to New York, N. Y.)* is amended between the Dodge City, Kans., omnirange station and the Emporia, Kans., omnirange station to read: "Dodge City, Kans., omnirange station; Hutchinson, Kans., omnirange station, including a south alternate and also a north alternate via the intersection of the Dodge City omnirange 060° True and the Hutchinson omnirange 296° True radials excluding the airspace between this north alternate and the main airway; Emporia, Kans., omnirange station, including a north alternate;" and by deleting that portion which reads "excluding the portion which overlaps the Osage City danger area (D-405)".

11. Section 600.6012 *VOR civil airway No. 12 (Palmdale, Calif., to Philadelphia, Pa.)* is amended by deleting that portion which reads: "excluding the portion which overlaps the Osage City danger area (D-405)".

12. Section 600.6024 is amended to read:

§ 600.6024 *VOR civil airway No. 24 (Aberdeen, S. Dak., to Redwood Falls, Minn.).* From the Aberdeen, S. Dak., omnirange station via the Watertown, S. Dak., omnirange station, including a north alternate, to the Redwood Falls, Minn., omnirange station, including a north alternate.

13. Section 600.6052 is amended to read:

§ 600.6052 *VOR civil airway No. 52 (Des Moines, Iowa, to St. Louis, Mo.).* From the Des Moines, Iowa, omnirange station via Ottumwa, Iowa, omnirange station, including a south alternate; Quincy, Ill., omnirange station, including a north alternate, to the St. Louis, Mo., omnirange, including a north alternate.

14. Section 600.6065 *VOR civil airway No. 65 (Columbia, Mo., to Des Moines, Iowa)* is revoked.

15. Section 600.6125 is amended to read:

§ 600.6125 *VOR civil airway No. 125 (Anthony, Kans., to Hutchinson, Kans.).* From the Anthony, Kans., omnirange station to the Hutchinson, Kans., omnirange station.

16. Section 600.6132 is added to read:

§ 600.6132 *VOR civil airway No. 132 (Goodland, Kans., to Hutchinson, Kans.).* From the Goodland, Kans., omnirange station to the Hutchinson, Kans., omnirange station.

17. Section 600.6144 is added to read:

§ 600.6144 *VOR civil airway No. 144.* [Unassigned.]

18. Section 600.6145 is added to read:

§ 600.6145 *VOR civil airway No. 145 (Utica, N. Y., to Watertown, N. Y.).* From the Utica, N. Y., radio range station via the intersection of the Utica radio range northwest course and the Watertown omnirange 155° True radial to the Watertown, N. Y., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t., February 16, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-938; Filed, Feb. 10, 1954; 8:45 a. m.]

[Amdt. 26]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.272 is amended to read:

§ 601.272 *Red civil airway No. 72 control areas (Millville, N. J., to Paterson, N. J.).* All of Red civil airway No. 72.

2. Section 601.292 *Red civil airway No. 92 control areas (New York, N. Y., to Islip, N. Y.)*, is revoked.

3. Section 601.636 is amended to read:

§ 601.636 *Blue civil airway No. 36 control areas (Thurman, Colo., to Kimball, Nebr.).* All of Blue civil airway No. 36.

4. Section 601.1082 is amended to read:

§ 601.1082 *Control area extension (Montgomery, Ala.).* That airspace bounded on the north by Lat. 32°52'00", on the east by Long. 86°00'00", on the south by Lat. 31°45'00", and on the west by Long. 87°30'00".

5. Section 601.1212 *Control area extension (Craig AFB, Selma, Ala.)* is revoked.

6. Section 601.1248 *Control area extension (Grantsburg, Wis.)* is revoked.

7. Section 601.1260 *Control area extension (Redwood Falls, Minn.)* is revoked.

8. Section 601.2054 *Hutchinson, Kans., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of the north course of the Hutchinson radio range extending from the radio range station to a point 10 miles north."

9. Section 601.2070 *St. Louis, Mo., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of the back course of the St. Louis ILS localizer extending from the airport to a point 10 miles southwest of the Lake nondirectional radio beacon."

10. Section 601.2116 is amended to read:

§ 601.2116 *Moline, Ill., control zone.* Within a 5-mile radius of Quad City Airport and within 2 miles either side of the ILS localizer course extending from the localizer to a point 16 miles west.

11. Section 601.4016 *Green civil airway No. 6 (Laredo, Tex., to Norfolk, Va.)* is amended after "Lake Charles, La., radio range station;" by adding the following reporting point: "Lafayette, La., nondirectional radio beacon;".

12. Section 601.104 *Amber civil airway No. 4 (Brownsville, Tex., to Minot, N. Dak.)*, is amended after "the intersection of the south course of the Fort Worth, Tex., radio range and the west course of the Dallas, Tex., radio range;" by adding the following reporting point: "the intersection of the south course of the Oklahoma City, Okla., radio range and a line bearing 259° True from the Ardmore, Okla., nondirectional radio beacon;".

13. Section 601.4272 is amended to read:

§ 601.4272 *Red civil airway No. 72 (Millville, N. J., to Paterson, N. J.).* Willow Grove, Pa. (Navy), radio range station.

14. Section 601.4292 *Red civil airway No. 92 (New York, N. Y., to Islip, N. Y.)* is revoked.

15. Section 601.4635 is amended to read:

§ 601.4635 *Blue civil airway No. 35 (Oxnard, Calif., to Bakersfield, Calif.).* Lebec, Calif., fan marker.

16. Section 601.4636 is amended to read:

§ 601.4636 *Blue civil airway No. 36 (Thurman, Colo., to Kimball, Nebr.).* No reporting point designation.

17. Section 601.6024 is amended to read:

§ 601.6024 *VOR civil airway No. 24 control areas (Aberdeen, S. Dak., to Redwood Falls, Minn.).* All of VOR civil airway No. 24 including north alternates.

18. Section 601.6065 *VOR civil airway No. 65 control areas (Columbia, Mo., to Des Moines, Iowa)* is revoked.

19. Section 601.6125 is amended to read:

§ 601.6125 *VOR civil airway No. 125 control areas (Anthony, Kans., to Hutchinson, Kans.).* All of VOR civil airway No. 125.

20. Section 601.6132 is added to read:

§ 601.6132 *VOR civil airway No. 132 control areas (Goodland, Kans., to Hutchinson, Kans.).* All of VOR civil airway No. 132.

21. Section 601.6144 is added to read:

§ 601.6144 *VOR civil airway No. 144 control areas.* [Unassigned.]

22. Section 601.6145 is added to read:

§ 601.6145 *VOR civil airway No. 145 control areas (Utica, N. Y. to Watertown, N. Y.).* All of VOR civil airway No. 145.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. February 16, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6064]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

RAY R. GOLDIE ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.70 *Fictitious or misleading guarantees;* § 3.155 *Prices:* Exaggerated as regular and customary; usual as reduced, special, etc.; § 3.200 *Sample, offer or order conformance:* § 3.235 *Source or origin:* Maker; place: *Imported products or parts as domestic;* § 3.240 *Special or limited offers;* § 3.260 *Terms and conditions;* § 3.275 *Undertakings in general.* Subpart—*Appropriating trade name or mark wrongfully:* § 3.295 *Appropriating trade name or mark wrongfully:* Product. Subpart—*Misbranding or mislabeling:* § 3.1325 *Source or origin:* Maker or seller; place: *Imported product or parts as domestic.* Subpart—*Misrepresenting oneself and goods*—Goods: § 3.1745 Source or origin: Maker; place: *Imported product or parts as domestic;* Subpart—*Misrepresenting oneself and goods*—Prices: § 3.1805 *Exaggerated as regular and customary;* § 3.1825 *Usual as reduced or to be increased.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1980 *Guarantee, in general;* § 3.2000 *Limited offers or supply;* § 3.2060 *Sample, offer or order conformance;* § 3.2080 *Terms and conditions;* § 3.2090 *Undertakings, in general.* Subpart—*Passing off:* § 3.2105 *Passing off.* Subpart—*Simulating competitor or another or product thereof:* § 3.2240 *Trade name of competitor or another.* Subpart—*Using misleading name*—Goods: §3.2345 *Source or origin:* Maker; place: *Foreign product or parts as domestic.* In connection with the offering for sale, sale, and distribution of sewing machines, vacuum cleaners, or other merchandise in commerce: (1) Offering for sale, selling or distributing sewing machines, of which foreign-made heads are a part, without clearly and conspicuously disclosing on the heads the country of origin thereof; (2) using the word "Universal" or any simulation thereof as a brand or trade name or in any other manner to designate, describe, or refer to sewing machines or representing, through the use of any other words or in any other manner that respondents' sewing machines or any part thereof are made by any other than the actual manufacturer; (3) representing, directly or by implication, that certain merchandise is offered for sale when such offer is not a bona fide offer to sell the merchandise so offered; (4) representing, directly or by implication, that attachments are included with their rebuilt vacuum cleaners unless such is the fact; (5) representing, directly or by implication, that offers are limited as to time when they are continuous offers; (6) representing, directly or by implication, that any merchandise is guaranteed unless the nature and extent of the guarantee and the manner and form in which the guarantor will perform thereunder are clearly and conspicuously disclosed; and (7) representing, directly or by implication, that the usual or customary price of any merchandise is in excess of the price at which said merchandise is regularly and customarily sold in the normal course of business, or that the price at which any merchandise is regularly and customarily sold in the normal course of business is a reduced price; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45)

[Cease and desist order, Ray R. Goldie et al, d. b. a. Mercury Vacuum Stores, etc., San Bernardino, Calif., Docket 6064, January 14, 1954.]

In the Matter of Ray R. Goldie and David Bachman, Individually and as Copartners Doing Business as Mercury Vacuum Stores and Mercury Vacuum Cleaner Stores

This proceeding was instituted by complaint which charged respondents with the use of unfair and deceptive acts and practices and unfair methods of competition in commerce in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice", dated January 21, 1954, through the consent settlement procedure provided in Rule V of the Commission's Rules of Practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on January 14, 1954, and ordered entered of record as the Commission's findings as to the facts,[1] conclusion,[1] and order in disposition of this proceeding.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

Said order to cease and desist, thus entered of record, following the findings as to the facts and conclusion, reads as follows:

It is ordered, That the respondents Ray R. Goldie and David Bachman, individually and as copartners doing business as Mercury Vacuum Stores and Mercury Vacuum Cleaner Stores, or doing business under any other name, and their representatives, agents and employees, directly or through any corporate or other device in connection with the offering for sale, sale and distribution of sewing machines, vacuum cleaners or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale, selling or distributing sewing machines, of which foreign made heads are a part, without clearly and conspicuously disclosing on the heads the country of origin thereof.

2. Using the word "Universal" or any simulation thereof as a brand or trade name or in any other manner to designate, describe or refer to sewing machines or representing, through the use of any other words or in any other manner that their sewing machines or any part thereof are made by any other than the actual manufacturer.

3. Representing, directly or by implication, that certain merchandise is offered for sale when such offer is not a bona fide offer to sell the merchandise so offered.

4. Representing, directly or by implication, that attachments are included with their rebuilt vacuum cleaners unless such is the fact.

5. Representing, directly or by implication, that offers are limited as to time when they are continuous offers.

6. Representing, directly or by implication, that any merchandise is guaranteed unless the nature and extent of the guarantee and the manner and form in which the guarantor will perform thereunder are clearly and conspicuously disclosed.

7. Representing, directly or by implication, that the usual or customary price of any merchandise is in excess of the price at which said merchandise is regularly and customarily sold in the normal course of business, or that the price at which any merchandise is regularly and customarily sold in the normal course of business is a reduced price.

It is further ordered, That the respondents, Ray R. Goldie and David Bachman, individually and as copartners doing business as Mercury Vacuum Stores and Mercury Vacuum Cleaner Stores, shall within sixty (60) days after service upon them of this order file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: January 21, 1954.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, JR., *Secretary.*

[F. R. Doc. 54-966; Filed, Feb. 10, 1954; 8:52 a. m.]

[1] Filed as part of the original document.

TITLE 30—MINERAL RESOURCES

Chapter I—Bureau of Mines, Department of the Interior

Subchapter A—Helium and Coal

PART 1—PRODUCTION AND SALE OF HELIUM

PURCHASE PRICE AND INITIAL ADVANCE FOR PURCHASE OF HELIUM

The regulations governing the production and sale of helium, §§ 1.1 to 1.21, are hereby amended by the amendment of § 1.2 and by the amendment of § 1.7 to take effect thirty days after publication in the FEDERAL REGISTER.

The principal effect of the amendment to § 1.2 is to increase the unit sale price of helium commensurate with increased production costs.

The amendment of § 1.7 is to make the requirements of this section consistent with the new price established in § 1.2.

1. Section 1.2 is amended to read as follows:

§ 1.2 *Purchase price of helium.* (a) The purchase price per unit of helium, at a helium plant to be selected by the Bureau, for helium of normal plant purity of 99.5 percent or more delivered at pressures not exceeding the normal plant pressure of approximately 2,500 pounds per square inch gage, shall be $19.00.

(b) *Minimum charge.* Notwithstanding the provisions of paragraph (a) of this section, the minimum charge for the helium delivered under any one contract shall be $380.00.

2. Section 1.7 is amended to read as follows:

§ 1.7 *Initial advance for purchase of helium.* The initial cash advance for purchase of helium may be computed as follows:

(a) *On account of purchase price.* (1) With applications for 500 units of helium or less: The full purchase price (not less than $380).

(2) With applications for more than 500 units of helium: $9,500, but the Bureau may require more.

(b) *On account of services.* The full amount of the estimated charges for the services to be rendered, not including charges for use of containers or tractors furnished by the Bureau.

(Sec. 3, 43 Stat. 1111, as amended; 50 U. S. C. 164)

The foregoing amendments are recommended for approval this 26th day of January 1954.

DOUGLAS MCKAY, *Secretary of the Interior.*

Approved: February 2, 1954.

DWIGHT D. EISENHOWER, *The White House.*

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter S—Organized Reserves

PART 561—ARMY RESERVE

COMPOSITION

In § 561.1, paragraph (e) is amended to read as follows:

§ 561.1 *Composition.* • • •

(e) *Branches.* All members of the Army Reserve, except those in Retired Reserve, are assigned to one of the following branches:

(1) *Basic branches.* (i) Adjutant General's Corps.
(ii) Armor.
(iii) Artillery.
(iv) Chemical Corps.
(v) Corps of Engineers.
(vi) Finance Corps.
(vii) Infantry.
(viii) Military Police Corps.
(ix) Ordnance Corps.
(x) Quartermaster Corps.
(xi) Signal Corps.
(xii) Transportation Corps.

(2) *Special branches.* (i) Chaplains.
(ii) Judge Advocate General's Corps.
(iii) The following corps of the Army Medical Service:
(a) Army Nurse Corps.
(b) Dental Corps.
(c) Medical Corps.
(d) Medical Service Corps.
(e) Veterinary Corps.
(f) Women's Medical Specialists Corps.

(3) Women's Army Corps.

(4) Other branches, to which only Reserve personnel not on active duty may be assigned.
(i) Army Security.
(ii) Military Intelligence.
(iii) Staff Specialist.

[C1, AR 140-305, Jan. 20, 1954] (Sec. 251, 66 Stat. 495)

[SEAL] WM. E. BERGIN, *Major General, U. S. Army, The Adjutant General.*

[F. R. Doc. 54-972; Filed, Feb. 10, 1954; 8:54 a. m.]

PART 561—ARMY RESERVE

APPOINTMENT AS RESERVE COMMISSIONED OFFICERS OF THE ARMY FOR ASSIGNMENT TO ARMY MEDICAL SERVICE BRANCHES

In § 561.18 subdivisions (i) and (ii) of paragraph (d) (1) are amended, subparagraphs (1) and (2) of paragraph (k) are amended and a new subparagraph (3) is added to paragraph (k) as follows:

§ 561.18 *Appointment as Reserve Commissioned Officers of the Army for assignment to Army Medical Service branches.* • • •

(d) *Eligibility.* Applicants must meet the following requirements in addition to those shown in §§ 561.2 to 561.8.

(1) *Age.* (i) • • •

Grade	Age		
	WMSC	ANC	Other
Second lieutenant	20	20	26
First Lieutenant	33	33	33
Captain	39	39	39
Major	45	45	48
Lieutenant colonel		45	51
Colonel			55

(ii) • • •

Grade	Age		
	WMSC	ANC	Other
Second lieutenant	35	35	33
First lieutenant	40	40	38
Captain	43	43	43
Major			50
Lieutenant colonel			53

• • • • •

(k) *Army Nurse Corps.* (1) Applicants qualifying for appointment and assignment to the Army Nurse Corps branch must meet the following requirements:

(i) Be a graduate of a school of nursing offering not less than a 3-year basic curriculum acceptable to the Department of the Army. In the case of graduates of foreign schools, who are citizens of the United States, and otherwise qualified for appointment, applications will be forwarded to The Surgeon General, Department of the Army, Washington 25, D. C., Attn: MEDCM-OP, for final determination of the applicant's professional acceptability.

(ii) Be currently registered and/or licensed to practice professional nursing within the United States, Puerto Rico, Alaska and Hawaii. Waiver of registration or licensure may be granted to graduates of schools of nursing acceptable to the Department of the Army who apply for appointment within a period not later than 6 months subsequent to graduation. Such waiver will terminate on the first anniversary of date of appointment. Applicants failing to obtain professional registration and/or licensure by this date will be separated and their appointment terminated.

(2) • • •

Grade authorized for appointment	Minimum experience and type	Minimum education and content
Second lieutenant	No years	Graduate from basic nursing program.
First lieutenant	3 years active professional experience. Noncollege credit postgraduate clinical courses pursued in a hospital will be considered professional experience. or 2 years active and professional experience. } and	Graduate from basic nursing program. At least 15 semester credit hours in the physical, biological and social sciences, communications, humanities, or nursing earned in an accredited college or university. Such credits must be exclusive of those earned in the basic nursing program. Postgraduate clinical courses for which college credits have been granted may be honored toward the 15 semester credit requirement. Clinical courses credited toward the educational factor will not be credited toward experience.

(3) Applications for appointment and concurrent active duty may be accepted from senior students of nursing schools. If acceptable, such applicants should be furnished their appointments upon the successful completion of, or upon the day of graduation from schools of nursing. Recipients of appointments under this paragraph if not licensed or registered, must comply with the provisions of subparagraph (1) (ii) of this paragraph.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter XIV—General Services Administration

[Regulation 10, Revision 1, Amdt. 4]

REG. 10—COLUMBIUM-TANTALUM PURCHASE PROGRAM

DELIVERIES AND CERTIFICATIONS

Pursuant to the authority vested in me by Executive Order 10480, dated August 14, 1953 (18 F. R. 4939), this regulation, as revised and amended, is further amended as follows:

Delete, in its entirety, section 7, and in lieu thereof substitute the following:

SEC. 7. *Deliveries and certification.* Deliveries of all purchases made under this program shall be in lots of not less than 2,000 pounds: *Provided, however*, That lots of not less than 1,000 pounds of material may be delivered under paragraphs (b) and (c) of section 5 of this regulation meeting the following content requirements:

	Percent
Ta_2O_5 minimum	40
Ta_2O_5 plus Cb_2O_5 minimum	70
TiO_2 maximum	4
SnO_2 maximum	4
TiO_2 plus SnO_2 maximum	5

All deliveries shall be (a) in the case of materials of foreign origin, c. i. f. Atlantic ports, and (b) in the case of materials of domestic source, f. o. b. depot of purchasing agent. Each lot offered to the Government hereunder shall be accompanied by a certificate disclosing the identity of the actual producer. In the event the seller is not the actual producer of the ore, the seller shall receive payment only in the amount of the base purchase price and the bonus payment shall be paid by the Government direct to the actual producer.

(Sec. 704, 64 Stat. 816, as amended; 67 Stat. 129; 67 Stat. 417; 50 U. S. C. App. Sup. 2154)

All other provisions of this regulation remain in full force and effect.

This amendment is effective immediately.

Dated: February 4, 1954.

EDMUND F. MANSURE, *Administrator.*

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 202—ANCHORAGE REGULATIONS

NEWARK BAY, NEW JERSEY

Pursuant to the provisions of section 7 of the River and Harbor Act of March 4, 1915 (38 Stat. 1053; 33 U. S. C. 471), and the provisions of the act of Congress approved April 22, 1940 (54 Stat. 150; 33 U. S. C. 180), § 202.60 (r) is hereby prescribed designating a special anchorage area on the southwesterly side of Newark Bay, and § 202.60 (q) is amended by a change in title and § 202.155 (b) (1) is amended by the insertion of a cross-reference note to § 202.60 (r), as follows:

§ 202.60 *Port of New York and vicinity.* • • •

(q) *Newark Bay, southeast area.* • • •

(r) *Newark Bay, southwest area.* That portion of the waters on the southwesterly side of Newark Bay, north of a line ranging from Kill Van Kull Light 16 through Kill Van Kull Light 18 and Kill Van Kull Channel Buoy 20, northeast of a line through Kill Van Kull Channel Buoy 20 perpendicular to the Singer Manufacturing Company's bulkhead, and southeast of a line 150 feet east of and parallel to the Singer Manufacturing Company's bulkhead, and south of a line 250 feet south of and parallel to the Central Railroad Company of New Jersey ridge and west of a line perpendicular to the dike at Kill Van Kull Light 16, excluding therefrom the "Pipe Line Area."

NOTE: The greater portion of this special anchorage is within the limits of general anchorage No. 34, described in § 202.155 (h) (1).

§ 202.155 *Port of New York.* • • •

(h) *Newark Bay*—(1) *Anchorage No. 34.* • • •

NOTE: A portion of this general anchorage is described as a special anchorage in § 202.60 (r).

[Regs., Aug. 22, 1953, 800.212 (Newark Bay)—ENGWO] (38 Stat. 1053, 54 Stat. 150; 33 U. S. C. 180, 471)

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 201]

Geological Survey

[30 CFR Part 250]

OUTER CONTINENTAL SHELF

OIL AND GAS AND SULPHUR LEASES AND OPERATIONS

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Outer Continental Shelf Lands Act of August 7, 1953 (67 Stat. 462), it is proposed to issue regulations governing the issuance and recognition of mineral leases covering submerged lands in the outer Continental Shelf, together with oil and gas and sulphur lease forms, and also regulations governing operations under oil and gas and sulphur leases covering submerged lands in the outer Continental Shelf. Tentative drafts of the proposed regulations and lease forms submitted by the Director of the Bureau of Land Management and the Geological Survey, respectively, are set forth as Appendices A and B to this notice.

Interested persons may submit in triplicate written comments, suggestions, or objections with respect to the proposed regulations or forms to the Office of the Solicitor, Department of the Interior, Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER. Among other things, comment is invited respecting the advisability of specifying in these regulations the sections or parts of sections which are regarded as being a "rule or regulation prescribed by the Secretary for the prevention of waste, the conservation of natural resources, or the protection of correlative rights" within the meaning of section 5 (a) (2) of the act, and, if advisable, which sections or parts of sections should be so designated. Comment is also invited as to the desirability of limiting the proposed regulations to oil and gas and adopting separate regulations to cover sulphur and other minerals.

It is contemplated that well spacing, field rules, and field and well allowables will be the subject of additional regulations as to which the public will have an opportunity to present its views prior to promulgation.

Dated: February 4, 1954.

RALPH TUDOR,
Acting Secretary of the Interior.

APPENDIX A

Title 43, Chapter I

[Circular No. —]

PART 201—MINERAL DEPOSITS IN THE OUTER CONTINENTAL SHELF

A new Part 201 is added, reading as follows:

GENERAL PROVISIONS

Sec.
201.1 Purpose and authority.
201.2 Persons qualified to hold leases.
201.3 Leasing units.
201.4 Helium.
201.5 Fissionable materials.
201.6 Payments due under lease.

COOPERATIVE CONSERVATION PROVISIONS

201.10 Unit plans, pooling, and drilling agreements.
201.11 Application for approval of unit plan.
201.12 Pooling or drilling agreements.
201.13 Subsurface storage of oil or gas.
201.14 Directional drilling.

ISSUANCE OF LEASES

201.20 Kind and term.
201.21 Notice of lease offer.
201.22 What must accompany bids.
201.23 Award of lease.
201.24 Form.
201.25 Dating of leases.

RENTALS AND ROYALTIES

201.40 Rentals.
201.41 Royalties.
201.42 Minimum royalty.
201.43 Limitation of overriding royalty.
201.44 Compensatory payments; extension of lease.

[redacted]

201.50 Amount of bond required of lessee.
201.51 Form of bond.

ASSIGNMENTS OR TRANSFERS

201.60 Assignment of leases or interests therein.
201.61 Requirement for filing of transfers.
201.62 Separate assignments required for transfer of record title to leases.
201.63 Effect of assignment of particular tract.

TERMINATION OF LEASES

201.80 Relinquishment of leases or parts of leases.
201.81 Cancellation of leases.

SUSPENSION OF OPERATIONS AND PRODUCTION; ROYALTY AND RENTAL RELIEF

201.90 Suspension of operations and production; royalty and rental relief.

MINERAL LEASES AFFECTED BY SECTION 6 OF OUTER CONTINENTAL SHELF LANDS ACT

201.110 Effect of regulations on provisions of lease.
201.111 Leases of other minerals.
201.112 Bonds.
201.113 Wells.
201.114 Contracts for disposal of products.
201.115 Inspection.
201.116 Diligence; compliance with regulations and orders.
201.117 Wages, freedom of purchase.
201.118 Nondiscrimination.
201.119 Purchase of production.
201.120 Suspension of operations during war or national emergency.
201.121 Restriction of exploration and operations.
201.122 Geological and geophysical exploration; rights-of-way.
201.123 Leases of sulphur and other mineral.
201.124 Removal of property on termination of lease.
201.125 Remedies in case of default.
201.126 Heirs and successors in interest.

APPEALS

201.150 Appeals.

AUTHORITY: §§ 201.1 to 201.150 issued under sections 5, 6 and 8, 67 Stat. 464.

GENERAL PROVISIONS

§ 201.1 *Purpose and authority.* The Outer Continental Shelf Lands Act of August 7, 1953 (67 Stat. 462), referred to in this part as "the act", among other things, authorizes the Secretary of the Interior to issue on a competitive basis leases for oil and gas, sulphur, and other minerals in submerged lands of the outer Continental Shelf, as defined in section 2 of the act.

§ 201.2 *Persons qualified to hold leases.* Mineral leases issued pursuant to section 8 of the act can be held only by citizens of the United States over 21 years of age, associations of such citizens, States, political subdivisions of a State, or private, public, or municipal corporations organized under the laws of the United States or of any State or Territory thereof.

§ 201.3 *Leasing units.* (a) Any area of the outer Continental Shelf which has been designated as a leasing unit and appropriately platted as provided in paragraph (b) of this section is subject to lease for any mineral not included in a subsisting lease issued under the act or meeting the requirements of subsection (a) of section 6 of the act, unless before any lease is offered or issued the unit is (1) withdrawn from disposition pursuant to section 12 (a) of the act, or (2) designated as an area or part of an area restricted from operation under section 12 (d) of the act.

(b) As the need arises, the Bureau of Land Management will prepare official leasing maps of areas of the outer Continental Shelf, which will be subdivided into leasing units. These maps shall be prepared in such detail as will afford an official description with dimensions and the acreage of each leasing unit, together with its position with reference to established official monuments on the mainland. The area included in each mineral lease shall be described in accordance with the official leasing map. Where leasing units were established by a State with respect to the outer Continental Shelf, those units will be adopted and new units will conform to the pattern thus established.

(c) Each oil and gas or sulphur lease issued pursuant to section 8 of the act shall cover a compact area, which shall not exceed 5,760 acres.

§ 201.4 *Helium.* Each lease issued or continued under the act shall be subject to a reservation by the United States of the ownership of and the right to extract helium from all gas produced from under the lease, subject to such rules and regulations as shall be prescribed by the Secretary of the Interior. In case the United States elects to take the helium, the lessee shall deliver all gas containing helium, or the portion of gas desired, to the United States at any point on the leased area in the manner required by the United States, for the extraction of helium in such plant or reduction works for that purpose as the United States may provide, whereupon the residue shall be returned to the lessee with no substantial delay in the delivery of gas produced from the well to the purchaser thereof. The lessee shall not suffer a diminution of value of the gas from which the helium has been extracted, or loss otherwise, for which he is not reasonably compensated, save for the value of the helium extracted. The United States shall have the right to erect, maintain, and operate on the leased area any and all reduction works and other equipment necessary for the extraction of helium.

§ 201.5 *Fissionable materials.* In accordance with section 12 (e) of the act each lease issued shall contain a reservation to the United States of all uranium, thorium, and all other materials determined pursuant to paragraph (1) of subsection (b) of section 5 of the Atomic Energy Act of 1946, as amended, to be peculiarly essential to the production of fissionable material, contained, in whatever concentration in deposits in the subsoil and sea bed of the outer Continental Shelf and leases continued under section 6 of the act will be subject to the same reservation.

§ 201.6 *Payments due under lease.* All payments required by the act or the regulations in this part shall be made to the oil and gas supervisor of the Geological Survey for the region in which the leased area is situated unless otherwise provided by the regulations in this part or directed by the Secretary. All such payments should be made by check, bank draft, or money order payable to the Treasurer of the United States.

COOPERATIVE CONSERVATION PROVISIONS

§ 201.10 *Unit plans, pooling, and drilling agreements.* Section 5 (a) (1) of the act authorizes the Secretary in the interest of conservation to provide for unitization, pooling and drilling agreements. Such agreements may be initiated by lessees or where in the interest of conservation they are deemed necessary they may be required by the Secretary.

§ 201.11 *Application for approval of unit plan.* The procedure for obtaining the approval of a unit plan of development is contained in 30 CFR Part 226, "Unit or Cooperative Agreements". All applications to unitize and all documents incident thereto shall be filed in the office of the oil and gas supervisor, Geological Survey, for the region in which the unit area is situated.

§ 201.12 *Pooling or drilling agreements.* (a) With the approval of the Secretary, pooling or drilling agreements may be made between lessees for the purposes of (1) utilizing a common drilling platform to develop adjacent or adjoining leases; (2) permitting operators or pipeline companies to enter into contracts involving a number of leases sufficient to justify operations on a large scale for the discovery, development, production or transportation of oil and gas, sulphur, or other minerals and to finance the same; or (3) for other purposes in the interest of conservation.

(b) A contract submitted for approval under these provisions should be filed with the oil and gas supervisor, together with enough copies to permit retention of 5 copies by the Department after approval. Complete details must be furnished in order that the Secretary may have facts upon which to make a definite determination and prescribe the conditions on which the contract is approved.

§ 201.13 *Subsurface storage of oil or gas.* (a) In order to avoid waste or to promote conservation of natural resources, the Secretary, upon application by the interested parties, may authorize the subsurface storage of oil or gas in the lands of the outer Continental Shelf, whether or not produced from the outer Continental Shelf. Such authorization will provide for the payment of such storage fee or rental on the stored oil or gas as may be determined adequate in each case, or, in lieu thereof, for a royalty other than that prescribed in any lease of the area involved when such stored oil or gas is produced in conjunction with oil or gas not previously produced. Any lease of an area used for the storage of oil or gas shall not be deemed to expire during the period of such storage and so long thereafter as oil or gas not previously produced is produced in paying quantities, or drilling or well reworking operations as approved by the Secretary are conducted thereon.

(b) Applications for subsurface storage shall be filed in triplicate with the oil and gas supervisor and shall disclose the ownership of the lands or interests in the lands involved, the parties in interest, the storage fee, rental, or royalty offered to be paid for such storage and all essential information showing the necessity for such storage. Enough copies of the final agreement signed by the parties in interest shall be submitted for the approval of the Secretary to permit retention of 5 copies by the Department after approval.

§ 201.14 *Directional drilling.* A lease may be maintained in force by directional wells drilled under the leased area from surface locations on adjacent or adjoining land not covered by the lease. In such circumstances, drilling shall be considered to have been commenced on the leased area when drilling is commenced on the adjacent or adjoining land for the purpose of directionally drilling under the leased area through any directional well surfaced on adjacent or adjoining land and production, drilling, or reworking of any such directional well shall be considered production or drilling or reworking operations (as the case may be) on the leased area for all purposes of the lease.

ISSUANCE OF LEASES

§ 201.20 *Kind and term.* In accordance with the provisions of section 8 of the act, all leases will be issued competitively upon the Department's motion or upon a request describing the area and expressing an interest in leasing a unit or units addressed to the Director, Bureau of Land Management, Washington 25, D. C., hereinafter referred to as the Director, with a copy to the oil and gas supervisor. From time to time the Director may issue calls for the submission of requests for oil and gas lease offerings in specified areas. Leases will be awarded to the highest qualified bidder on the basis specified in the notice of lease offer. No lease will be offered for less than a full unit except upon a satisfactory showing of the need therefor. All oil and gas leases shall be for a term of 5 years and so long thereafter as oil or gas may be produced from the leased lands in paying quantities or drilling or well reworking operations, as approved by the Secretary, are conducted thereon. All sulphur leases shall be for a term of 10 years and so long thereafter as sulphur may be produced from the leased area in paying quantities or drilling, well reworking, plant construction, or other operations for the production of sulphur, as approved by the Secretary, are conducted thereon. Other mineral leases shall be for such terms as may be prescribed by the Secretary at the time of offering the leases.

§ 201.21 *Notice of lease offer.* Notice of the offer of lands for lease will be given by publication at the expense of the United States in such publications as the Director may authorize and the first publication shall be at least 30 days

prior to the date of sale. The notice will set the place, date, and hour at which the bids will be opened. All sealed bids in response to any such notice must be filed in the office of the Director, Bureau of Land Management, Washington 25, D. C., prior to the time set for opening bids. The notice may contain special conditions which will become part of the lease to be issued.

§ 201.22 *What must accompany bids.* (a) A separate bid must be submitted for each lease unit described in the notice of lease offer. A bid may not be submitted for less than an entire unit. Each bidder must submit with his bid a certified or cashier's check on a solvent bank, or a money order or cash, for one-fifth of the amount of the cash bonus. If the bidder is an individual, he must submit with his bid a statement of his citizenship. If the bidder is an association (including a partnership), the bid shall be accompanied also by a certified copy of the articles of association or appropriate reference to the record of the Bureau of Land Management in which such a copy has already been filed, with a statement as to any subsequent amendments. If the bidder is a corporation, the following additional information shall be submitted with the bid:

(1) A certified copy of the articles of incorporation or appropriate reference to the record of the Bureau of Land Management in which such a copy has already been filed, with a statement as to any subsequent amendments.

(2) A copy either of the minutes of the meeting of the board of directors or of the by-laws indicating that the officer signing the bid has authority to do so, or, in lieu of such a copy, a certificate of the secretary or the assistant secretary of the corporation to that effect, over the corporate seal.

(b) All bidders are warned against violation of the provisions of Title 18 U. S. C. Section 1860, prohibiting unlawful combination or intimidation of bidders.

§ 201.23 *Award of lease.* Following the public opening of the sealed bids as provided for in the notice of lease offer, the Director, subject to his right to reject any and all bids because of foreign stock ownership or other reasons in the public interest, will award the lease to the successful bidder. Notice of his action will be transmitted promptly to the several bidders. If the lease is awarded, three copies of the lease will be sent to the successful bidder and he will be required within 30 days from his receipt thereof to execute them, pay the first year's rental, the balance of the bonus bid, and file a bond as required in § 201.50. Deposits on rejected bids will be returned. If the successful bidder fails to execute the lease or otherwise comply with the applicable regulations, his deposit will be forfeited and disposed of as other receipts under the act. If before the lease is executed on behalf of the United States the land is withdrawn or restricted from leasing, his deposit will be refunded. If the awarded lease is executed by an agent acting in behalf of the bidder, the lease must be accompanied by evidence that the bidder authorized the agent to execute the lease. When the three copies of the lease are executed by the successful bidder and returned to the Director, the lease will be assigned a serial number and will be executed on behalf of the United States, and one fully executed copy will be mailed to the successful bidder. If the Director fails to award a lease or to reject all bids within 30 days after the day upon which the bids are opened, any bidder may withdraw his bid by written notice of withdrawal given to the Director. Should any bid be withdrawn, the remaining bids will be considered and acted upon by the Director in the same manner as if the withdrawn bid had not been submitted, subject to the right of the Director to reject any and all bids.

§ 201.24 *Form.* Oil and gas leases will be issued on Form 4–____;[1] and sulphur leases on Form 4–____.[1] Other mineral leases will be issued on such forms as may be prescribed by the Secretary.

§ 201.25 *Dating of leases.* All leases issued under the regulations in this part will be effective as of the first day of the month following the date the leases are signed on behalf of the lessor, except that, when prior written request is made, a lease may be dated and become effective as of the first day of the month within which it is so signed.

RENTALS AND ROYALTIES

§ 201.40 *Rentals.* An annual rental shall be due and payable in advance on the first day of each lease year prior to discovery at the rate specified in the lease. The owner of any lease created by the assignment of a portion of a producing lease and on which assigned portion there is no discovery shall be required to pay such annual rental for each lease year following the year in which the assignment became effective and prior to a discovery on such segregated portion.

§ 201.41 *Royalties.* Royalties shall be at the rate specified in the lease but in no event shall the royalty on oil and gas be less than 12½ percent, nor on sulphur less than 5 percent.

§ 201.42 *Minimum royalty.* Each lessee shall pay the minimum royalty specified in the lease at the end of each lease year beginning with the first lease year following a discovery on the lease.

§ 201.43 *Limitation of overriding royalty.* (a) Any agreement to create overriding royalties or payments out of the production of any oil and gas lease which, when added to overriding royalties or payments out of production previously created aggregate in excess of 5 percent shall be deemed a violation of the terms of the lease unless such agreement expressly provides that the obligation to pay such excess overriding royalty or payments out of production shall be suspended when the average production per well per day average on the monthly basis is (1) as to oil, 50 barrels or less and (2) as to gas, 1,500,000 cubic feet or less. The limitations in this section will apply separately to any zone or portion of a lease segregated for computing Government royalty.

(b) With respect to other mineral leases an overriding royalty interest may be created by assignment or otherwise: *Provided, however,* That if the total of the overriding royalty interests at any time exceeds one percent of the gross value of the output at the point of shipment to market, they shall be subject to reduction or suspension by the Secretary to a total of not less than one percent of such gross value, whenever, in the interest of conservation, it appears necessary to do so in order to prevent premature abandonment. Where there is more than one overriding royalty interest any such suspension or reduction shall be applied to the respective interests in the manner agreed upon by the holders thereof or in the absence of such agreement in the inverse order of the dates of creation of such interests.

§ 201.44 *Compensatory payments, extension of lease.* In the event that an oil and gas lessee makes compensatory payments as provided in 30 CFR 250.33 and in the event that the lease is not being maintained in force by other production of oil or gas in paying quantities or by other approved drilling or reworking operations, such payments shall be considered as the equivalent of production in paying quantities for all purposes of the lease.

§ 201.50 *Amount of bond required of lessee.* The successful bidder prior to the issuance of an oil and gas or sulphur lease must furnish a corporate surety bond in the sum of $15,000 conditioned on compliance with all of the terms of the lease, unless he already maintains or furnishes a bond in the sum of $100,000 conditioned on compliance with the terms of oil and gas and sulphur leases held by him on the outer Continental Shelf in the (a) Gulf of Mexico, (b) along the Pacific or (c) along the Atlantic Coast as may be appropriate. An operator's bond in the same amount may be substituted at any time for the lessee's bond. The United States reserves the right to require additional security in the form of a supplemental bond or bonds or to increase the coverage of an existing bond if, after operations or production have begun, such additional security is deemed necessary. The amount of bond coverage on leases for other minerals will be determined at the time of the offer to lease and will be stated in the notice of lease offer.

§ 201.51 *Form of bond.* Bonds furnished by lessee will be on Form 4–____. In place of a surety bond a lessee or operator may furnish his personal bond and deposit therewith United States bonds in a sum equal at their par value to the amount of the surety bond.

ASSIGNMENTS OR TRANSFERS

§ 201.60 *Assignment of leases or interests therein.* Leases may be assigned in whole or as to any officially platted unit subject to the approval of the Director, to any one qualified under § 201.2 to take and hold a lease. Any assignment made under this section shall, upon approval, be deemed to be effective on and after the first day of the lease month following its filing in the Bureau of Land Management, Washington 25, D. C., unless at the request of the parties an earlier date is specified in the Director's approval. The assignor shall be liable for all obligations under the lease accruing prior to the approval of the assignment.

§ 201.61 *Requirements for filing of transfers.* (a) (1) All instruments of transfer of a lease or of an interest therein, including assignments of working or royalty interests, and operating agreements, and subleases, must be filed for approval within 90 days from the date of final execution with a statement over the transferee's own signature with respect to citizenship and qualifications similar to that required of a lessee and must contain all of the terms and conditions agreed upon by the parties thereto.

(2) An application for approval of any instrument of transfer of a lease or interest therein, including operating and royalty interests, must be accompanied by a fee of $10, and an application not accompanied by payment of such a fee will not be accepted for filing. Such fee will not be returned even though the application later be withdrawn or rejected in whole or in part.

(b) Where an attorney in fact, in behalf of the holder of a lease, operating agreement or of a royalty interest in a producing lease, signs an assignment of the agreement, lease, or interest, or signs the application for approval, there must be furnished evidence of the authority of the attorney in fact to execute the assignment or application and the statement required by § 201.22.
